3) If this election becomes law, then their computers used for tabulation would have to be sent back to the vendor and the hardware wiped clean and the new software would be installed for $15,000 (one-time cost). The software for the ballot marking devices must be upgraded and installed by the vendor. Cost is estimated between $25,000 to $50,000 (one-time cost).

4) Public notice would need to be sent to all voters or published in newspapers at an estimated cost of $25,000 to $100,000 to provide detailed information of the new process. These cost would be for at least a year until the public grasps what is going on.

5) Election day Judge and staff training would be estimated at $35,000 per election.

6) Additional security required for election night and days after the elections through certification due to the unrest that will be caused by the lack of understanding of rank choice and how it works. Estimated cost $25,000 per election.

In addition, each election they will have to spend $3,500 for assistance with tabulation of every election. It is ridiculous that they will not be in charge of tabulating any more elections if this system is put into place.

Also, additional mailers will be required for voter instructions up to $50,000 per election.

Officials from the **Platte County Board of Elections** indicated this proposal has no clear fiscal impacts. The testing requirement is presumably different from any testing they currently do, so it may result in unknown costs.

Officials from the **Jackson County Election Board** indicated:

Assuming additional steps may be required to meet the stated federal standards requested in this petition, the Board may have costs associated with this requirement. Currently, JCEB follows the rules set for by the Missouri Secretary of State: 15 CSR 30-10.120, 15 CSR 30-10.130, 15 CSR 30-10.140, 15 CSR 30-10.150 and 15 CSR 30-10.160.	$5,000.00
Potential Software Cost	$5,000.00
Ranked Choice Voting Election Day Support of Vendor - per year	$27,000.00
Additional Staff - Depending on Election - per election	$4,000.00 - $6,000.00
Ranked Choice Voting - Voter Education - Mailers - Printing - Postage	$80,000 - $150,000.00
Reprinting of Voting Instruction Material	$5,000.00
Additional Voting Equipment	$500,000.00
Estimated Cost for Jackson County Election Board	$626,000.00 - $698,000.00
Per year or per election ongoing costs

Jefferson City, MO 65102
moaudit@auditor.mo.gov

RE: PETITIONS 2022-051 AND 2022-052

Dear Auditor Galloway,

We are writing on behalf of the Ranked Choice Voting Resource Center regarding the estimated fiscal impact of initiative petitions 2022-051 and 2022-052, which would bring Top 4 open primaries and instant runoff voting ("IRV," sometimes referred to as "ranked-choice voting") to Missouri elections. The Ranked Choice Voting Resource Center is a 501(c)(3) nonprofit organization that provides information, research, and tools to teach the public about ranked-choice voting. The staff of the Resource Center have decades of election administration experience and experience overseeing ranked-choice voting elections at all levels of government. Our nationally recognized center is regarded as the premier ranked-choice voting resource for voters, election administrators, policymakers, and candidates.

We recently conducted a statewide analysis of Missouri's voting equipment in our Missouri RCV Administrative Assessment (https://bit.ly/Missouri-RCV-Admin). In our analysis, we found that 107 of 116 local election authorities (106 counties and one city) in Missouri have RCV capable equipment: equipment that can now, or after a software update, be used to hold ranked-choice voting elections. In these counties, hardware purchases are not necessary to add RCV capability. Software upgrades, however, may be necessary and will need to have their costs negotiated directly with the vendors providing equipment to each local election authority. We do not know how many of these election authorities will need to update their software nor how much it may cost any one authority to make upgrades, so we do not estimate those costs here.

Eight local election authorities (seven counties and one city) have legacy voting equipment – equipment at the end of its usable lifespan – and one local election authority (one county) hand counts its elections. The eight election authorities with legacy voting equipment should replace that equipment soon as it is at the end of its usable lifespan. All modern voting equipment available today includes ranked-choice voting capability. By replacing that legacy equipment, these election authorities will also gain ranked-choice voting capability. The hand count county can conduct ranked-choice voting elections by hand though we suggest using voting equipment to speed up the counting process considerably.

info@rcvresources.org
www.rcvresources.org

RANKED CHOICE VOTING RESOURCE CENTER

ELECTION ADMINISTRATION RESOURCE CENTER

A previous fiscal note for Petition 2022-19 estimated that purchasing a single voting machine would cost $5,000. Based on publicly available information about voting machines used in the state, we estimate that there are 453 voting machines to be replaced in the eight local election authorities with legacy voting equipment. Replacing all legacy voting equipment in Missouri and purchasing equipment for the hand count county at a rate of $5,000 per machine will cost approximately $2,270,000. We reiterate, however, that this legacy voting equipment should be replaced regardless of whether ranked-choice voting is adopted in the state.

The Board of Aldermen in St. Louis City have passed a bill that includes $5,000,000 for the Board of Elections for the City of St. Louis to update election hardware, software, and IT infrastructure, among other upgrades. Page 13, Line 17: https://www.stlouis-mo.gov/government/city-laws/upload/legislative/boardbills/floor-amended/BB%202%20CSAA%20Combined%20Perfected%202.pdf. If passed, this bill would enable St. Louis City, the largest election authority among those with legacy voting equipment, to replace its 300 pieces of legacy equipment with modern, RCV capable equipment. If passed, this would bring our total cost estimate down to $765,000.

Based on this analysis, the fiscal impact of 22-051 and 22-052 for purchasing RCV capable equipment will be between $0 and $2,270,000 in one-time costs.

Thank you for your consideration of this submission. If you have any questions, please contact the Ranked Choice Voting Resource Center at info@rcvresources.org or 1-833-VOTE-RCV (1-833-868-3728).

Sincerely,

Chris Hughes
Policy Director

RE: PETITIONS 2022-051 AND 2022-052

Dear Auditor Galloway,

We write today regarding the estimated fiscal impact of initiative petitions 22-051 and 22-052, two bills that would implement a new ranked-choice voting election scheme to elections conducted in Missouri.

We are Dr. Sam Wang, professor at Princeton University and the Director of the Princeton Gerrymandering Project and Electoral Innovation Lab, and Adam Podowitz-Thomas, Senior Legal Strategist for the Lab. The Electoral Innovation Lab takes an engineering-like approach to democracy repair. We use theory and analysis to anticipate how problems in representation, engagement, and depolarization can be solved before they become widespread. This comprehensive approach is used to develop policy reforms, inform legal scholarship and academic research. Ultimately, we seek to test proposed policies: legislative actions, election rules, redistricting optimization, and community strategies. In recent years we have applied our investigational methods to voting reforms, including ranked-choice voting in Maine and Alaska.

Many other jurisdictions have experience implementing ranked-choice voting systems and have done thorough fiscal impact analyses thereof, and can provide some evidence of costs should Missouri implement this voting system.

Implementation costs in other states and cities: $400,000 to $1.1 million

Maine implemented ranked-choice voting in 2018. The state analyzed the costs of implementing the new system during the first year and found that the total fiscal impact to the state was $441,804, the largest portion of which was actually the requirement to print a separate ballot to run a referendum measure on an unrelated matter.[1] Voters in Alaska recently approved similar

[1] See https://www.maine.gov/sos/cec/elec/upcoming/pdf/rcv.costs.2018.pdf

voting reforms to those under consideration in Missouri. The state's official estimate of costs for needed ballot tabulation equipment was only $534,300.[2]

A pending bill in Colorado, which would implement ranked-choice voting in Colorado's all-mail balloting system, was analyzed by that state's legislative council staff. Their estimate of the cost of implementation in the first year was $580,000, with costs for continuing operation decreasing each subsequent year, to a low of $70,500 in the fourth year of implementation.[3]

Some cities in California have utilized ranked-choice voting for many years. One analysis done by Alameda County (where Oakland and Berkeley are located) regarding the implementation of RCV during the 2010 election cycle found that costs for initial implementation would be $1,135,604 during the first year, including a voter education campaign.[4]

Missouri implementation costs are potentially less than $1.0 million

A comprehensive analysis conducted by the experts at the Ranked Choice Voting Resource Center shows that at most 9 out of 116 local election authorities in Missouri have voting machines that are incompatible with ranked-choice voting methods. That report notes that "92% of Missouri's jurisdictions have modern, RCV-capable voting equipment."[5]

As a worst-case scenario, the fiscal impact 22-049 and 22-050 would arise from replacing voting machines in all 9 jurisdictions currently lacking machines, for an estimated total of $2.5 million. However, in these 9 jurisdictions, many machine upgrades are already planned even without any new laws, and will likely be done by the time 22-049 and 22-050 would take effect, after the 2022 cycle. Public records show that jurisdictions without ranked-choice voting-compatible machines are already working to purchase and deploy new, modern machines. In particular, in St. Louis City, home to over two-thirds of the people living in the 9 jurisdictions requiring updated machines, local leaders intend to use funds received from the American Rescue Plan Act of 2021 "for the purposes of updating Election Hardware, Software, IT infrastructure."[6] Therefore we estimate that the necessary purchases of voting machines above and beyond such planned upgrades have the potential to fall **below $1.0 million**.

In addition, we note that there will be an unknown amount of savings in future years because the primary election will require only one ballot instead of one for each partisan primary, as is now the case.

Mobilizing the Military-Connected Community for Powerful Electoral Reforms

July 23, 2021

The Honorable Nicole Galloway
State Auditor of Missouri
301 West High Street, Room 880
Jefferson City, MO 65102
moaudit@auditor.mo.gov

RE: PETITIONS 2022-049 AND 2022-050

Dear Auditor Galloway,

I am writing to you today as the founder and Executive Director of Veterans for Political Innovation regarding the estimated fiscal impact of initiative petitions 22-049 and 22-050. These initiative petitions, if passed, would bring Top-4 single-ballot primaries and ranked choice voting ("RCV"), (sometimes referred to as instant runoff voting or "IRV"), to Missouri elections.

Veterans for Political Innovation (VPI) is a fiercely cross-partisan national nonprofit, based out of our "shedquarters" in Webster Groves, Missouri. VPI exists to educate and inspire the military-connected community to mobilize and advocate for three, targeted nonpartisan electoral reforms, including this innovative "Top-4" voting reform package. VPI will be mobilizing one of America's most trusted groups, as strategic assets, to help restore trust in American democracy through reforms that create better, more competitive elections.

First, it is important to note that, based on the lessons learned from other states, oftentimes, ranked choice voting (RCV) costs less to implement than expected. For example, voters in Alaska recently approved a similar "Top-4" / instant runoff voting reform package in November 2020. Their official estimate of costs for needed ballot tabulation equipment was only $534,300. *(See* Alaska Office of Management and Budget: Estimate of Costs for 19AKBE).

The vast majority of Missouri's Local Election Authorities are ready, willing and able to implement ranked choice voting. Indeed, a comprehensive analysis conducted by the experts at the Ranked Choice Voting Resource Center shows that **at least 107 of 116 local election authorities in Missouri have voting machines that are compatible with ranked-choice voting methods**. In that report, we see that "92% of Missouri's jurisdictions have modern, RCV-capable voting equipment." (*See:* Missouri: Ranked Choice Voting State Readiness Assessment, 2021 Edition)

Furthermore, some jurisdictions are already moving forward with voting machine upgrades. If passed, petitions 22-049 and 22-050 would not take effect until elections after the 2022 cycle. We know from public records that some jurisdictions, who did not have ranked choice voting-compatible machines at the time the above-reference report was completed, are actively working to purchase and deploy new, modern machines — with or without passage of 22-049 and 22-050. For example, in St. Louis City, local leaders intend to use funds received from the American Rescue Plan Act of 2021 " for the purposes of updating Election Hardware, Software, IT infrastructure." (*See* St. Louis City Board Bill 2 (2021 - 2022)

Given the widespread use of RCV compatible machines in Missouri, along with yet to be determined machine upgrades that will happen with or without passage of 22-049 and 22-050, reputable sources who have analyzed Missouri's elections and voting systems ***estimate that the fiscal impact 22-049 and 22-050 likely will be between $0 and $2,264,537.***

Thank you for your public service, and for your time and consideration of this submission. If you have any questions, please do not hesitate to contact me at: 314.222.0477 or eric@v4pi.us.

Sincerely,

Eric H. Bronner
Founder | Executive Director
Veterans for Political Innovation

Benjamin D. Singer, Executive Director, Show Me Integrity provided the following information:

July 23, 2021

State Auditor Nicole Galloway
301 West High Street, Room 880
Jefferson City, MO 65102

To Auditor Galloway:

I write regarding **fiscal note analysis for initiative petitions 2022-049 and 2022-050** on behalf of Show Me Integrity, Missouri's good government and political reform organization. Our board includes Republicans, Democrats, and independents all committed to a more effective, ethical government of, by, and for the people.

We are Missouri's leading authority on modern voting methods. That is because, **from 2019 to 2021, we led a coalition through Missouri's first and only successful policymaking process, campaign, and implementation of a modern voting system called "approval voting,"** which we did in the City of St. Louis. Previously, St. Louis often elected leaders with less than 40% of the vote in the party primary, and no competitive general election. This left politicians with no mandate to govern, giving special interests greater ability to wield undue influence in city politics.

We explored both approval voting and ranked-choice voting. We consulted closely for months with local election authorities and national experts, including the Ranked Choice Voting Resource Center. After our analysis, we concluded that the City of St. Louis election machines were not compatible with ranked-choice voting at the time. However, as we explored other voting modernization campaigns throughout our state, we discovered that **almost all Missouri election authorities—107 of 116—use election machines that ARE compatible with ranked-choice voting (RCV)**. The only counties that do NOT have RCV-compatible equipment are as follows: City of St. Louis; Henry; Moniteau; Phelps; Mississippi; St. Clair; Sullivan; and Worth.

Based on our estimates, we believe the cost of implementing these two petitions will range from $0 to approximately $2,265,000 (453 machines). The range depends on various appropriations bills to upgrade old machines across the remaining 9 counties—some or all of which may move forward regardless of these two initiative petitions.

Please do not hesitate to contact us if you have any questions.

For our Republic,

Benjamin D. Singer, Executive Director
Show Me Integrity | (314) 239-1308
Benjamin@ShowMeIntegrity.org

Alex Kaplan, Vice President of Policy and Campaigns, and David O'Brien, Policy Counsel, Represent Us provided the following information:

Nicole Galloway
State Auditor of Missouri
301 West High Street, Room 880
Jefferson City, MO 65102
moaudit@auditor.mo.gov

RE: PETITIONS 2022-049 AND 2022-050

Dear Auditor Galloway,

We are writing on behalf of RepresentUS regarding the ballot petitions officially named 2022-049 and 2022-50, which would bring Top 4 open primaries and instant runoff voting ("IRV," sometimes referred to as "ranked choice voting") to Missouri elections. RepresentUs is a national, nonpartisan organization focused on improving America's political system. We work with partners and volunteers across the political spectrum to pass democracy reforms at the state and local level. RepresentUS has helped grassroots campaigns to bring reforms like Top 4 and IRV across the country.

In our experience, the costs associated with implementing IRV are often far below what many initially expect and we expect this trend to hold in Missouri. Most counties will not need to replace their existing voting machines. According to a comprehensive analysis by the Ranked Choice Voting Resource Center, the vast majority of counties in Missouri (106) already have voting machines capable of conducting elections with IRV.[1] According to an evaluation of another petition involving IRV in Missouri, the estimated cost to replace a single voting machine would be $5,000.[2] Under this formula, the total cost of replacing voting machines unable to run IRV would be well under $3,000,000.[3]

For comparison, when Alaska Division of Elections's fiscal note for a ballot measure to implement the same policy that 2022-49 and 2022-50 it determined that 137 machines would have to be replaced at cost of $3,900 each, for a total cost of $534,300.[4] In the majority of counties that will not need to replace voting machines, costs will be more similar to implementation in Maine, which also did not need to upgrade its voting machines. When Maine

[2] Fiscal Note for 2022-019.
[3] This is based on the estimate that there are approximately 453 that would need to be replaced in the seven counties (including St. Louis City) that do not currently have IRV-capable machines.
[4] Alaska Division of Elections, 19AKBE - Statement of Costs, https://www.elections.alaska.gov/petitions/19AKBE/19AKBEStatementOfCosts.pdf. The Division of Elections also estimates the total cost of implementation to be $803,593, including costs for things like voter education ($150,000) and language assistance ($57,416).

used IRV for the first time in 2018, its Secretary of State reported that the entire cost of statewide implementation that year was $441,804.[5]

Considering the experiences of other jurisdictions that have adopted IRV, we expect the cost of implementation in Missouri to be fairly modest. Thank you for your time and attention to this matter.

Sincerely,

Alex Kaplan
Vice President of Policy and Campaigns

David O'Brien
Policy Counsel

Ranked-Choice Voting and Election Administration in the State of Missouri

Introduction

Election administration is the day-to-day work required to run elections in the United States. These assessments provide a high-level introduction to election administration practices in a given state and briefly analyze the likely ease of adapting that election administration infrastructure to ranked-choice voting (RCV). The people tasked with administering elections are known as election administrators. In most states, the state-level election administrator is the Secretary of State, along with City/County Clerks or City/County Boards of Elections administering elections at the local level.

These assessments do not provide an analysis of the step-by-step procedures of election administration in a given state. However, such fine-grained details are frequently important to consider and to execute properly in any election, ranked-choice or not. These assessments are kept at a high level due to the large amount of research required even to produce a high-level analysis of election administration practices in a given state. Many of the day-to-day procedures and requirements for actually running an RCV election in a jurisdiction are not covered in these assessments, but those details remain important. If you are interested in a more detailed assessment of your state, please reach out to the Ranked Choice Voting Resource Center (info@rcvresources.org or 1-833-VOTE-RCV), and we can work with you on producing such an assessment.

These assessments provide scores grading the readiness of each state to run RCV elections statewide. Scores are based on what voting systems each state uses, and states are labeled as **RCV Ready**, **RCV Capable**, **Prepping for RCV**, or **Updates Needed for RCV**. However, we know from experience that election administrators are adept at implementing change when it is necessary to do so. It is not our intention to suggest or prove that any state or local jurisdiction is incapable of implementing RCV. While some states may have more work to do when implementing RCV than others, no state is fundamentally incapable of implementing ranked-choice voting due to their current election administration infrastructure.

Election Administration

In each state, election administration is a locally created process. Depending on the state, administering elections can be highly decentralized, with City or County Clerks acting mostly independent of the state and of one another (as in Wisconsin). Alternatively, it can be highly centralized, with City and County Clerks working in close coordination with or at the direction of the state (as in Maryland). Some states have specific functions that are highly centralized at the state level (like ballot design) while leaving other functions entirely up to the locality (like certifying candidates for election).

Election administration tasks include:

- Registering voters
- Certifying candidates and issues for the ballot
- Designing ballots
- Certifying voting systems for use in elections
- Programming voting systems for upcoming elections
- Administering campaign finance reporting systems
- Sending out absentee ballots
- Testing voting systems before elections (known as Logic & Accuracy testing)
- Training poll workers
- Finding polling places
- Processing and counting ballots
- Canvassing and certifying election results
- Conducting post-election audits
- Conducting recounts
- And more!

Depending on the state, election administrators may have other hats to wear as well. In addition to running elections, many also register deeds, issue marriage certificates, collect documents, and coordinate for City Council meetings, among other tasks. A sample list of these tasks is included in this document.

The federal government is minimally involved in election administration. The Election Assistance Commission (EAC) is the federal agency tasked with overseeing election administration in the United States. They serve as a clearinghouse for election administration documents and best practices from the states, and they set voluntary voting systems standards under their Voluntary Voting System Guidelines (VVSG). Some states require their voting systems to meet EAC certification standards, but most do not. The EAC is intentionally weak and purposefully designed to have little to no power over the work of state and local administrators.

In Missouri, election administration responsibilities are divided between the Secretary of State, who sets election administration standards, certifies voting systems for use in the state, and runs the statewide voter registration database, and County Clerks, County Boards, or City Boards of Elections, who are tasked with the day-to-day administration of elections. County Clerks and Boards are responsible for State, County, and Federal election administration within that county, and City Boards are tasked with managing City, State and Federal elections within that City. Local administration tasks include registering voters, designing ballots, testing and programming voting equipment, and finding polling places. City and County Boards are bipartisan and their members are appointed by the Governor and confirmed by the State Senate. Mo. Rev. Stat. § 115.027.

Missouri does not currently have any RCV jurisdictions, but it should be noted that St. Louis City has approval voting for mayor and part of St. Louis County (Ferguson School Board) has cumulative voting for School Board elections.

The significant components of election administration impacted by ranked-choice voting are ballot design, ballot counting and centralization practices, and voting systems. This analysis considers each of those election administration domains in Missouri.

Ballot Design

Designing and laying out ballots is a crucial yet challenging part of running a successful election. Ballot design must consider the type of each contest, the total number of contests, and the number of candidates in each contest while simultaneously providing voters with clear and concise instructions in any given election and complying with additional state laws regulating ballot design.

Several months before an election, election administrators at all levels work to determine the contests that should appear on the ballot and prepare for the candidate filing or nomination period. After the candidate filing or nomination period closes, election administrators collect lists of all contests and candidates qualified to appear on a ballot. Administrators then either create a ballot using ballot design software from their voting system vendors or software developed in-house. After creating these draft ballots, officials proof ballots for accuracy and adherence to any federal, state, or local design requirements. Once the review process is complete, election administrators submit ballot designs to printing companies who then provide election offices with printed ballots for their elections.[1]

The contests on a given voter's ballot can vary within states, counties, and cities, depending on the offices up for election in that voter's assigned precinct. Due to this variation, election administrators design many different ballots for any given election day. To eliminate confusion, officials assign each ballot a style. This style may be a simple letter or number designation. For larger, more complex elections, ballot style codes can require a more intricate naming process.

Ranked-choice voting adds to this already complex task. RCV contests require both more space on a ballot than non-RCV contests and additional instructions for voters to read. This section describes the ballot design process and analyzes election law in Missouri to understand whether current ballot laws pose a barrier to RCV implementation. The analysis covers the average number of contests that appear on Missouri ballots and whether voting systems in Missouri are already capable of capturing RCV ballots. The section also provides links to resources for designing RCV ballots.

RCV Ballots in Missouri

Ranked-choice voting ballots are impacted when the law requires a certain number of columns in contests, when laws regulate how many ovals can appear in any given contest, and when voting instructions are specified in law. Ballot design is fundamental to voters being able to cast their vote as intended. A well-designed ballot means a voter should understand what they are voting on, how to vote, and how to cast the vote they want.

[1] Ballot design concludes well in advance of election day in order to provide time for printing companies to print out large orders of ballots, sending ballots to voters who are in the military or living overseas, sending ballots to voters who request them by mail, and getting ballots back in time for Logic and Accuracy testing of voting systems (when programmed election equipment is tested to confirm that it will behave as it is programmed to on election day).

In Missouri, rules for ballot design for all elections are set by state statute. Mo. Rev. Stat. §§ 115.237, 115.239, 115.395. These laws relate to ballot layout, including organization of party information and race information, race order on ballot, and other ballot elements. The ballot design laws and restraints from voting systems do not prescribe ballot instructions, how to lay out columns, or oval placement, and so are not in conflict with the design of RCV ballots. In other words, no legal barriers to designing effective RCV ballots exist in Missouri. Practical concerns, such as how to fit RCV contests on the ballot, may arise if RCV is adopted in the state; a detailed analysis of that question is outside the scope of this assessment but the RCVRC can produce example RCV ballots conforming to state laws if requested.

Missouri requires write-in spaces for elections that require write-ins. Mo. Rev. Stat. § 115.237(4). RCV ballots with write-in spaces are included in the appendix.

Contests on Missouri Ballots

Knowing how many contests tend to appear on ballots in Missouri helps when considering what races or how many races should be converted to RCV because RCV takes up more space on a ballot than non-ranked-choice-voting contests. The number of contests on ballots in Missouri varies by year. Federal, state, and county-level offices are all elected in November of even years, while city offices are isselected in April of even or odd years. Mo. Const. art. III, § 11, art. IV § 17 (state office election schedule); Mo. Rev. Stat. §§ 49.020, 51.020, 52.010, 53.010, 54.010, 55.045 (county office election dates); Mo. Rev. Stat. § 115.121(3) (municipal election date). Circuit and associate circuit judges are also elected in Missouri on six and four year terms, respectively, while appeals judges and supreme court justices are appointed then subject to retention elections on 12 year terms. Mo. Const. art. V, § 16 (circuit judge elections); sec. 25(c)(1) (retention elections).

Presidential elections have the longest ballots in Missouri, with a minimum of 15 candidate contests. This sample ballot, from the General Election held in Cass County in 2016, contains 17 candidate contests and 11 ballot questions (though not all ballot questions would appear on all ballots in Cass County).[2]

Due to the large number of contests on ballots in Missouri, administrators may need to limit the number of rankings available to a voter on the ballot due to space limitations of physical ballots. The Center for Civic Design suggests ballots not have more than 5-8 rankings when first introducing RCV for maximum voter comfort with the ballot. Recommendations for Introducing ranked-choice voting ballots, Center for Civic Design, pg. 4. The way voters mark the ballot in RCV contests impacts how many rankings voters get. The two primary forms of ranked-choice ballots in use in the United States are column-style and grid-style ballots. Examples of those

[2] Those 17 candidate contests break down into three federal-level contests, seven state-level contests, five county-level contests, one judicial-branch contest, and one retention contest. The state-level and county-level contests are on four-year terms and so will always be included on a presidential election ballot. Federal-level contests will vary between two and three contests in presidential elections, based on whether a Senate seat is up for election. Judicial-branch and retention contests are on regular (4, 6, or 12 year) schedules, but those will vary by county.

ballots are included in the appendix. Voting systems in 106 counties and one independent city currently used in Missouri can handle either or both of these forms of RCV ballot. Voting systems in eight counties and one independent city cannot, at present, capture then export data from either form of RCV ballot. This brief later discusses in general what the voting systems offer in terms of RCV ballots for use in Missouri.

Ballot Counting and Centralization

There are two major stages to the results reporting process in any election. Unofficial results are incomplete results, a category that includes election night reporting. Official results are the final results of an election. Starting on election night, election officials announce unofficial results. This period of unofficial results reporting is also known as election night reporting. Election night results tend not to include absentee ballots, provisional ballots, or ballots that could not be read by a voting machine in the polling place.[3] Jurisdictions provide updates to unofficial results throughout their post-election canvass when all remaining ballots cast in an election are tallied and counted, and other non-vote-counting procedures are completed.

Official results are the final, certified results of an election. These results include votes from all ballots cast in an election, provide the official record of total votes for each candidate in each contest, and are used as the record to certify the official winner(s) in every contest. The body responsible for certifying state election results varies depending on the state and the level of government being elected. Cities tend to certify results for municipal elections, counties tend to certify results for county elections, and states tend to certify results for state and federal elections.

Whether official or unofficial, reporting results for all elections requires some level of centralization of results. Before centralization, however, ballots must be counted. Counting those ballots requires election workers at precincts, vote centers, mail ballot counting centers, or anywhere else votes are counted to scan in or hand count ballots. Vote totals for every contest on the ballot are printed out by voting equipment or recorded on tally sheets and then centralized at the appropriate elections office.

Processes for centralizing election results vary across states. On election night, poll workers typically print out or copy down results totals for each contest from voting systems in precincts. Poll workers then call in, hand-deliver, or enter those numbers on secure web portals to report totals to city or county election administrators. For state and federal elections, those city or county administrators then report election night results up to the state level, using that same possible variety of reporting procedures. Official results are a combination of those election

[3] Like all elections processes, this varies across and within states. Some states begin scanning absentee ballots on Election Day after polls open while other states wait until polls close to begin scanning ballots. Some states are permitted to begin processing absentee ballots (steps such as checking signatures and other verification measures on absentee envelopes) before election day but may not scan those ballots until Election Day, while other states must wait until Election Day to begin all processing of absentee ballots.

night totals and any other vote numbers derived while processing absentee, provisional, and other ballots scanned after election day.

Unofficial results for ranked-choice voting elections may take the form of first-choice totals for candidates - that is, the number of ballots where each candidate was ranked first. First-choice totals are simple to produce: results tapes from voting equipment can print out first-choice totals in RCV elections just as they print out vote totals in non-RCV elections. As with non-RCV elections, those results can be reported back to the appropriate elections office, which can combine totals and publish just first-choice totals. However, first-choice totals aren't enough if no one candidate has a majority in a single-winner RCV contest or there remain seats to be filled in a proportional RCV contest. This is where RCV differs from other voting methods and where the RCV results reporting process branches off from other types of elections.

Determining the winners in a ranked-choice voting election requires producing a round-by-round count to determine the winner or winners in an election. Running this round-by-round count means we need to know the candidate ranking order on each ballot to know 1) who has the fewest votes in the election and 2) who is ranked next on each of those ballots. We also need to know how many ballots were cast in total to determine how many votes candidates must have to win. This means two things for producing ranked-choice voting results: all ballots or ballot data must be available, and those ballots or ballot data must be centralized. Current results centralization practices tend to rely just on results totals printed out from voting systems themselves, but those printouts do not provide sufficient information to run the round-by-round count. Ranked-choice voting requires that election officials centralize either the ballot data known as cast vote records (CVRs) or the actual ballots to run the round-by-round count. After ballots and ballot data are centralized, that data can be run through ranked-choice voting counting software to produce round-by-round results and determine which candidates emerge with the most votes.

This part of the state assessment is broken into two sections: election night results and official results. The assessment analyzes Missouri's current practices for each and considers how they could be adapted to ranked-choice voting reporting. Each section is discussed in further detail below.

Election Night Results

Ranked-choice voting requires that election officials centralize ballot data or the actual ballots to run the round-by-round count. The speed with which round-by-round results can be reported on election night for the federal- or state-level offices depends on how quickly ballots and ballot data can be transmitted to the appropriate state and local election officials. Election administrators in the United States use a variety of transfer mechanisms for election night results, such as uploading election data to a secure server through a state intranet connection, physically transporting flash drives with precinct election data to local officials, or filling out paper results report sheets at the close of polls which then get centralized to local officials. These transfer mechanisms can all be adapted to ranked-choice voting elections.

At the close of polls, election workers print out vote total tapes from voting machines in their precincts and report those vote totals on tally sheets. Mo. Rev. Stat. §§ 115.449, 115.453, 115.456, 115.467, 115.471, 115.473 (laws defining how votes are to be counted, duties of election officials at close of polls, and tally sheet format.). Those tally sheets, along with copies of the printouts from voting systems, are centralized to a location designated by the county election authority. Mo. Rev. Stat. § 115.475. While Missouri law does not appear to regulate this directly, those results are published on election night as they come in. See election night results. Missouri regulation makes brief mention of digital memory devices from voting systems, but they do not appear to be used for election results reporting. In order to run RCV elections, Missouri needs procedures for how to handle, centralize, and extract data from digital memory devices used in RCV elections, as that cast vote record data makes it possible to quickly run the round-by-round count. 15 CSR 30-10.150 & 30-10.160.

Election night results for RCV contests in Missouri could also be limited to the first round of election results, as is done in Maine RCV contests. First choice totals from machines and any counting boards could be reported out and combined to determine first-round totals, which may indicate winners of elections. Before its RCV elections, Maine communicates to voters, the press, and candidates that election night results include only the first round and that round-by-round results are produced about a week after the election. A similar, transparent process could be adopted in Missouri to ensure all stakeholders know when election results are released. In short, Missouri election law and procedures would require updates to produce round-by-round RCV results on election night.

Official Results

Determining the official results of a ranked-choice voting contest requires the centralization of cast vote records from the entire contest, whether in a district in a city election or from all counties in a statewide election. Cast vote records (CVRs) – digital records of all rankings on each ballot cast on a voting machine – can be centralized during the election night reporting process or when producing official results. That centralization can take many forms. In Ireland, which uses RCV for national and local elections, sets of RCV ballots are manually counted in counting centers distributed across the country. Those totals are called into a central office, which determines results. Other jurisdictions, like Maine, centralize cast vote records and ballots not yet scanned at a single counting location that finalizes all records and produces the round-by-round count.

Missouri law provides for various post-election day ballot counting procedures. Absentee ballots are counted on election day, while election officials process provisional ballots and write-in votes in a central counting location after election day. Mo. Rev. Stat. §§ 115.299, 115.430, 115.468 (laws describing how to count absentee, provisional, and write-in votes, respectively). Results must be certified within 14 days of the election, and results for state-wide and multi-county elections must be sent to the Secretary of State within that same 14 day time frame. Mo. Rev. Stat. §§ 115.507; 115.511. Results for those contests rely on final results reports produced by counties, and current procedures make no mention of any information beyond bare ballot and vote totals. As with election night reporting procedures, Missouri needs procedures for how

to handle, centralize, and extract data from digital memory devices used in RCV elections to quickly produce official round-by-round RCV results.

It remains to be seen how election officials would produce RCV results in Missouri. If the state wanted to use a centralized count, Missouri could choose to follow the Maine model of centralizing all ballots or cast vote records to a single location. The state could rely on election administrators to centralize flash drives by driving them to a central location or by developing a secure process for submitting data digitally. Missouri could also use a bonded courier service, as is done in Maine. A bonded courier collects the ballots from precincts or counties across the state, and officials would then centralize those ballots/cast vote records in a single location in Jefferson City, the state capital. Once all ballots and CVRs are centralized, they can be combined and run through counting software to determine winners and produce the round-by-round count. This procedure would increase the State's involvement in results reporting, a major departure from most state election administration practice.

In an Ireland-style decentralized count, counting centers count up batches of votes. First-choice totals are then reported to a central office from those counting centers; that office adds up vote totals and determines which candidates have the fewest votes or which candidates crossed the threshold of the election. That information is then communicated back to the counting centers, where ballots for the eliminated candidate are transferred, and new totals are reported to the central office. These counting, calling, and re-sorting steps continue until the winner or winner(s) are determined.

Missouri could use a similar decentralized process by changing the manual process to a software-based process and counting ballots by computer. The necessary steps are substantially similar: cast vote records would be centralized from precincts to a counting center in each county and uploaded to a computer, instead of following Ireland's practice of counting each ballot by hand. Then total results from the first round would be called into a central counting office. The central office would determine winners or losers and communicate that back to the counties. County election officials would then instruct the software on which candidate to eliminate or elect and similarly continue the rounds of counting. This procedure would keep more responsibility for election results with local administrators, as opposed to giving more responsibility to the State in a fully centralized count. The state could also choose a middle ground between a single centralized location and locations in every county. For example, decentralized counting centers could be created in each congressional district or population centers in different regions of the state.

Once cast vote records are centralized, election officials would need to run the round-by-round count. Missouri has a patchwork of voting systems from many different voting system vendors. Those vendors produce cast vote records in proprietary formats that do not work in other vendors' systems. Therefore, Missouri would need a tabulation tool that can take in cast vote records from multiple different voting system vendors at once to run their round-by-round count. The only piece of software currently able to handle cast vote records from multiple different

voting systems is the Ranked Choice Voting Resource Center's RCTab. The tabulator is open source and available for free from the Resource Center.[4]

Auditing Info

Post-election audits are used to determine whether the voting machines performed as they should, or if they malfunctioned (due to programming errors or malicious interference of a third party attempting to alter the results of an election). They are typically conducted after all ballots in the election have been counted, but before an election is certified, in case the election must be recounted or rerun due to the results of the audit.

Missouri conducts conventional (also known as traditional) post-election audits. These audits take a fixed percentage of voting districts or machines used in a given election, then compare the paper record of ballots from the machines used in that district to the results produced by that voting machine. The percentage of voting districts audited in an election generally ranges from 2% to 5%, though it goes as low as 1% and as high as 10%, depending on the state where the audit is being conducted. Conventional audits count the same percentage of ballots regardless of the margin of victory in the election being audited. Missouri audits a random, 5% sample of precincts in the state. Mo. Code Regs tit. 15, § 30-10.090; § 30-10.110.

Single- and multi-winner RCV races[5] in the Bay Area and Minneapolis are regularly audited using conventional audit procedures. These audits examine the ballots themselves cast in an RCV contest. Note that designing a conventional election audit should be done in consultation with a professional statistician, regardless of the voting method to be audited. Audits of RCV contests should also include an audit of the counting software used. The RCVRC's RCTab could be used to audit RCV software in Missouri, so long as the software is not used to provide results. An auditor could run each contest's CVR through the RCTab software to check the round-by-round count results produced by the round-by-round counting software in Missouri.

Voting Machines in Missouri

Voting systems are the combination of hardware (scanners/DREs/ballot marking devices) and software used to conduct an election. Election administrators use voting systems to design ballots, set up the rules of an election, cast ballots, capture ballots, count election results, and produce results. Voting systems are a fundamental component of running elections in the United States. The ability of those systems to run an RCV election depends on the age of the equipment in use, the software installed on the voting equipment, and the vendor providing the equipment.

Missouri has 114 counties and two independent cities. Of those, 106 counties and one independent city have voting systems capable of conducting an RCV election, or what we call

[4] The tabulator is compatible with Clear Ballot, Dominion, ES&S, Hart, and Unisyn data.
[5] More information on how these two forms of election differ is available on our website.

RCV Capable. Six counties and one independent city use equipment that is not ready for RCV. A single county uses equipment that would require a workaround for RCV, and the remaining county uses hand count procedures to tabulate election results. All data used here was obtained from Verified Voting's Verifier. The data on this site is updated every two years. The analysis in this section uses the 2020 verifier data.

Voting system assessment	Prepping for RCV	92% of jurisdictions have RCV capable equipment

The state of Missouri requires certification of voting systems before use. The Secretary of State certifies equipment for use in elections after that equipment is tested by a federally certified lab. Mo. Rev. Stat. § 115-225; Mo. Regs. tit. 15, § 30-10. Missouri's requirement that voting systems be tested by a federally certified lab is the third-highest level of scrutiny to which voting equipment is subjected. It can take a few months to test and certify a voting system under this requirement.[6] It is unclear if the Secretary of State's office has specific requirements it is looking for if a system claims RCV capability.

Four major vendors of election equipment in the United States have varying levels of compatibility with ranked-choice voting: Dominion Voting Systems, Election Systems and Software (ES&S), Hart InterCivic, and Unisyn Voting Systems. These vendors include RCV compatibility in their systems through general software updates and through RCV-specific counting software add-ons. While these assessments categorize systems by their RCV compatibility, access to any RCV features may require software updates. Specific details for voting system versions were not researched for this document. This information and how it affects RCV implementation can be researched and included in a more detailed assessment upon request. More detail on how we categorized states and voting equipment is available in the "How We Score States" document.

Election administrators purchase voting systems infrequently, and those purchases typically have a significant price tag. It can be possible to have RCV elections counted round-by-round by a voting system vendor's equipment, which is the most efficient solution. Other times, their systems cannot run that sort of count internally, but the machines can capture RCV ballots. In that case, the data from those ballots need to be exported and run through third-party software capable of running the round-by-round count. The following analysis discusses options for running the RCV count in Missouri using the state's current voting systems.

[6] Once a vendor has had a system tested by a lab, it receives a report outlining the results of that test. That report can then be submitted to the EAC if the vendor is looking for EAC certification (the highest level of testing/certification for voting systems in the US) or a vendor can submit that report to a given State's certification authority (typically through the Secretary of State's office). The certification authority then reviews the testing report and may order additional in-state testing. Following the review and any additional testing, the authority may certify or decline to certify that voting system for use in that state. If any changes are made to a system after testing, it will need to be retested and resubmitted for certification.

Jurisdictions with RCV Capable voting systems

Seven counties and one independent city have RCV-ready **ES&S** equipment. Those jurisdictions use DS200, DS450, and ExpressVote equipment. Single-winner RCV ballots can be marked, scanned, and captured with that equipment. A separate tabulation module is available from ES&S to produce round-by-round RCV results. These machines can also capture data for ballots cast in a multi-winner RCV election but need to have that data run through third-party counting software for multi-winner ranked-choice voting results. Software upgrades are needed to gain native vendor single-winner RCV capability, but data could be exported from the equipment as-is and run through third-party counting software for RCV results for both single- and multi-winner RCV. The RCVRC's RCTab can run the round-by-round count on data from this ES&S hardware. Both grid-style and column-style RCV ballots can be designed within this system. The number of rankings vary depending upon the ballot layout (portrait or landscape) and the number of contests on the page. A list of these jurisdictions is available in the appendix.

Twenty-five counties use **Dominion Voting's** Democracy Suite software with ImageCast Precinct, Precinct with BMD, and/or X equipment. Single-winner and multi-winner RCV ballots can be processed and counted through ImageCast machines. Dominion provides RCV counting software and services at a price, and pricing or activation would need to be determined in discussions with the vendor. Round-by-round results are available through Democracy Suite software version 5.2 or higher, provided a jurisdiction has Dominion's RCV software. Dominion equipment limits ballots to a total of 10 rankings on a grid-style ballot. The RCVRC's RCTab can run the round-by-round count on data from this Dominion hardware. A list of these counties is available in the appendix.

One county has RCV-ready **Hart** equipment. That county uses Verity Central, Scan, and Touch Writer equipment. Single-winner and multi-winner RCV ballots can be captured in this system, provided a jurisdiction has Hart's RCV options enabled in their system. While these systems can capture RCV data, Hart systems do not have the ability to tabulate the RCV round-by-round count. Hart ballot data will need to be exported and run through a separate tabulator to determine the winners in an RCV race. The RCVRC's RCTab software can tabulate round-by-round results in RCV elections run on this Hart equipment. Depending on the software version in use, users should be aware that ballots are limited to five or six rankings in a grid-style ballot on these systems. In order to use this Hart equipment to run an RCV election from end to end, additional testing and software will be required. The county is listed in the appendix.

Seventy-three counties have RCV-ready **Unisyn voting systems** equipment. Those counties use OpenElect OVCS, OVI, OVO and Freedom Vote Tablet equipment. Single-winner and multi-winner RCV ballots can be scanned and captured with that equipment. Software upgrades may be needed to gain access to all RCV functionality available from Unisyn. Unisyn's RCV capability is EAC certified. Ballots are limited to three rankings in a grid style. The RCVRC's RCTab can run the round-by-round count on data from this Unisyn hardware. A list of these counties is available in the appendix.

Jurisdictions with equipment requiring RCV workarounds

One county uses both legacy and newer **ES&S** equipment. The older hardware used in this county, M650, cannot be used for RCV, but the newer DS200s used in this county can. The M650 is legacy hardware that cannot export ballot-level data from elections, which means that the necessary information required to run a round-by-round count of RCV cannot be retrieved. DS200s are used for voting in polling places, while the M650 is used to count absentee ballots. Absentee ballots could be scanned through DS200s instead to avoid the RCV limitations of the M650. The M650 could also be replaced with a newer high-speed scanner, any of which are RCV capable. This county is listed in the appendix.

Jurisdictions without RCV Capable equipment

One county and one independent city have **Premier/Diebold** AccuVote OS and AccuVote TSX machines, which are considered legacy voting equipment. These can read RCV ballots but do not currently export useful ballot level data. Their data could be painstakingly converted to usable data, but that process would be very time-consuming. Work is underway now to make using this data less painstaking. However, replacing these machines is likely the most fruitful avenue, given their age and the relative difficulty of conducting RCV elections with them.

Another two counties have **Sequoia** Optech Insight and AVC Edge machines, which are legacy voting equipment. These can read RCV ballots but do not currently export useful ballot level data. Their data could be painstakingly converted to usable data, but that process would be very time-consuming. Work is underway now to make using this data less painstaking. However, replacing these machines is likely the most fruitful avenue, given their age and the relative difficulty of conducting RCV elections with them. In the meantime, these jurisdictions could potentially borrow equipment from a nearby county with RCV-capable equipment. A list of these jurisdictions is available in the appendix.

Three counties use legacy **ES&S** equipment, the M650. This equipment can scan RCV ballots but does not export a cast-vote record, making software-assisted counting of RCV elections impossible if using this hardware. Subdivisions using this equipment either need to hand count their RCV elections (possible in smaller elections) or update their equipment. A list of these counties is available in the appendix.

Jurisdictions conducting Hand Counts

In Missouri, one county counts elections by hand. Hand counting RCV elections can be time-consuming and depends on the length of the ballot and the number of votes cast, the latter of which is unknown until after the election. One option for handling hand count jurisdictions is the approach taken by Maine, which centralizes all RCV ballots cast in hand count cities and towns to the capital, Augusta, where election administrators scan in those ballots. This process is explained in more detail in the Official Results section above. This county is noted in the appendix.

Conclusion

While 92% of Missouri's jurisdictions have modern, RCV-capable voting equipment, another 8% or so of the state still uses non-RCV capable equipment that would require replacement or a workaround before implementation. Because 92% of Missouri jurisdictions have RCV capable equipment, they fall in our **Prepping for RCV** category, meaning their voting system infrastructure is not yet 100% ready for RCV. Still, substantial progress towards that goal has been made.

If you are interested in a more detailed assessment of your state, please reach out to the Ranked Choice Voting Resource Center (info@rcvresources.org or 1-833-VOTE-RCV), and we can work with you on producing such an assessment.

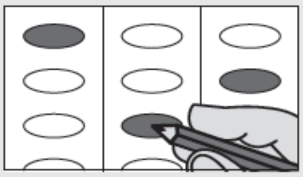
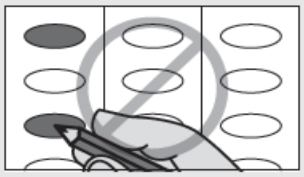
Instructions for Ranked Choice Voting



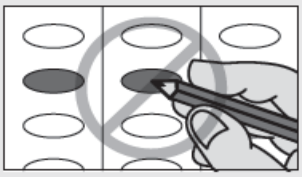
Making selections

Rank candidates in the order of your choice.



You may rank as many or as few candidates as you wish.

Fill in the oval...

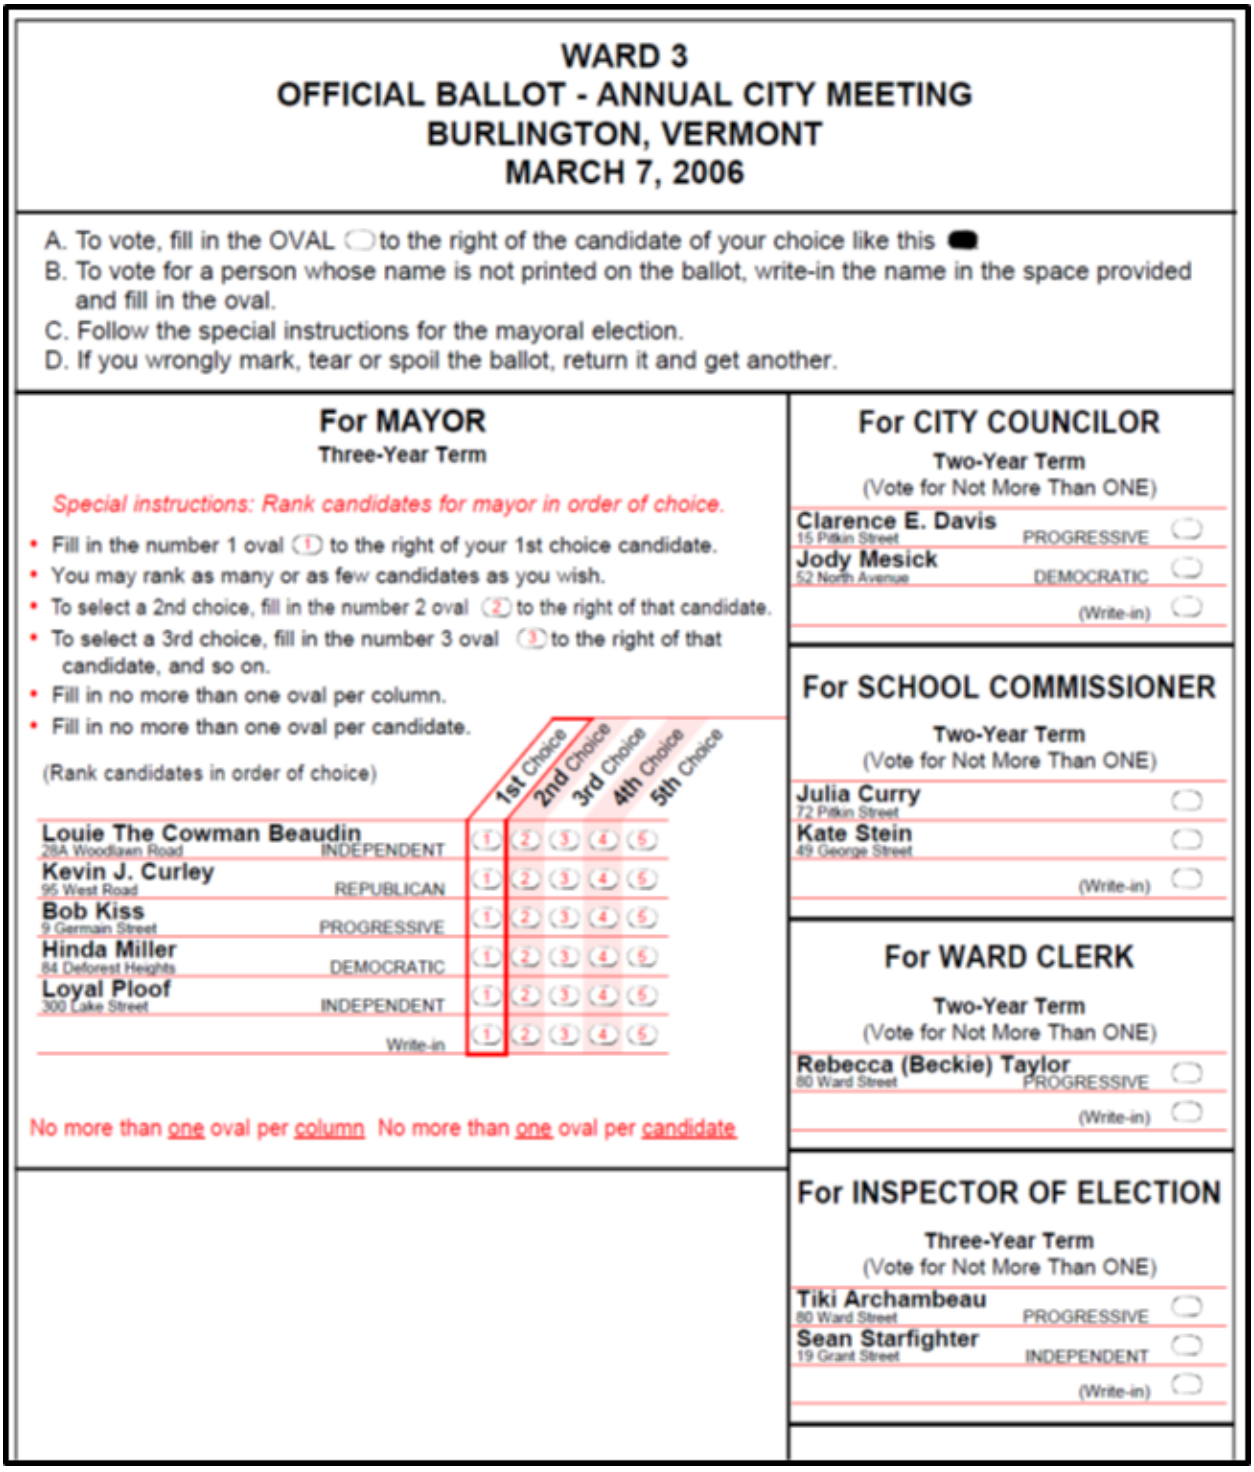


- In the 1st column for your first 1st choice.
- In the 2nd column for your 2nd choice.
- In the 3rd column for your 3rd choice, and so on

Fill in the oval completely.

No more than 1 oval in a column.

No more than 1 oval for a candidate.



Mayor

Rank up to 10 candidates.

Mark no more than 1 oval in each column.

	First choice 1st	Second choice 2nd	Third choice 3rd	Fourth choice 4th	Fifth choice 5th	Sixth choice 6th	Seventh choice 7th	Eighth choice 8th	Ninth choice 9th	Tenth choice 10th

AccuVote Grid Ballot with Write-Ins
Burlington, VT 2006

WARD 3
OFFICIAL BALLOT - ANNUAL CITY MEETING
BURLINGTON, VERMONT
MARCH 7, 2006

A. To vote, fill in the OVAL ◯ to the right of the candidate of your choice like this ●
B. To vote for a person whose name is not printed on the ballot, write-in the name in the space provided and fill in the oval.
C. Follow the special instructions for the mayoral election.
D. If you wrongly mark, tear or spoil the ballot, return it and get another.

For MAYOR
Three-Year Term

Special instructions: Rank candidates for mayor in order of choice.

- Fill in the number 1 oval (1) to the right of your 1st choice candidate.
- You may rank as many or as few candidates as you wish.
- To select a 2nd choice, fill in the number 2 oval (2) to the right of that candidate.
- To select a 3rd choice, fill in the number 3 oval (3) to the right of that candidate, and so on.
- Fill in no more than one oval per column.
- Fill in no more than one oval per candidate.

OFFICIAL BALLOT
Consolidated Municipal Election
City and County of San Francisco
November 5, 2019

INSTRUCTIONS TO VOTERS:

Use a pen with dark ink.

Rank candidates in the order of your choice.

Fill in the oval:
- In the **1st column** for your **1st choice.**
- In the **2nd column** for your **2nd choice.**
- In the **3rd column** for your **3rd choice,** and so on.

Do not fill in more than one oval:
- In a column.
- For a candidate.

To vote for a qualified write-in candidate, write the candidate's name in the space at the end of the candidate list and fill in the oval for the rank.

If you make a mistake, you may request a new ballot.

Instructions for Ranked Choice Voting

1. Pick your 1st choice candidate and completely fill in the oval next to that candidate under First Choice.
2. If you have a 2nd choice candidate, fill in the oval next to that candidate under Second Choice.
3. Mark your 3rd choice candidate, if you have one, the same way under Third Choice.

- Mark **at least one candidate** for your vote to count.
- If you make a mistake ask for a new ballot. Otherwise your vote may not count.
- All three choices must be different from each other.
- Don't mark more than one in each column.

Ranked Choice Voting
RESOURCE CENTER

This document is a summary of voting system capabilities for ranked choice voting (RCV) elections. Revised May 2019 from previous version released in 2017.

Major Voting Equipment Vendors' Ranked Choice Voting Capabilities

(Version 2.0, May 2019)

In 2017 the Ranked Choice Voting Resource Center (RCVRC) compiled its first report on the ranked choice voting (RCV) capabilities of voting systems used in the United States. Since that time, great strides have been made by voting systems companies to include this voting method in their systems and more jurisdictions have upgraded from their older, legacy voting systems. With these improvements, the focus of this report centers on current voting systems with supplemental information regarding legacy equipment. Much of our information comes from presentations by vendor representatives during our RCV Symposium held April 2018 and discussions with company representatives since that time. Recordings of these presentations and post-symposium question and answer documents can be found at https://www.rankedchoicevoting.org/rcv_online_symposium.

Summary of Current Voting System RCV Capabilities by Vendor

The four largest voting equipment vendors servicing elections in the United States all have RCV capabilities as part of their current voting systems. The following provides an overview of what each vendor provides. Jurisdictions should check with the vendor regarding specific configurations and pricing. Furthermore, standards vary by state, so additional certification or evaluation may be required.

- **Dominion Voting**
  - **Election Management System compatible with RCV:** Democracy Suite (Version 5.2 and higher)
  - **Voting Equipment compatible with RCV:** ImageCast Evolution, ImageCast Precinct, ImageCast Central, ImageCast Remote
  - **RCV Ballot Design:** Grid | Up to 10 rankings | Can include non-RCV contests
  - **RCV Tabulation:** Single-winner and multi-winner RCV | Built-in tabulation
  - **Symposium Summary:** Dominion Voting offers built-in RCV tabulation with its Democracy Suite software, beginning with Version 5.2, in combination with its ImageCast voting equipment. Dominion's system can produce a ballot with both RCV and non-RCV contests. The system allows for up to 10 rankings in a grid-style ballot. To tabulate, RCV ballot data from voting equipment is loaded into the Democracy Suite system with other election contest data. Using the built-in RCV tabulation software, officials select to run the RCV algorithm to generate real time results for single-winner or multi-winner RCV. The system can continually update the results as additional ballot data is added. Results reports are available round-by-round and by district.

- **Election Systems & Software (ES&S)**
  - **Election Management System compatible with RCV:** Electionware
  - **Voting Equipment compatible with RCV:** DS200, DS450, DS850, ExpressTouch, ExpressVote, AutoMARK

- **RCV Ballot Design:** Grid or column | Up to 21 rankings (portrait ballot) or 23 rankings (landscape ballot) | Can include non-RCV contests
- **RCV Tabulation:** Single-winner RCV | Tabulation through ExpressRunoff (separate module)
- **Symposium Summary:** ES&S's Electionware election management system, and compatible equipment, offers RCV ballot design, capture, and tabulation. ES&S's system can produce a ballot with both RCV and non-RCV contests, for single-winner and multi-winner contests. Ballots can be in landscape or portrait layouts and use grid or column designs for RCV contests. Cast vote records can be exported for tabulation in the company's separate module, ExpressRunoff, which is currently limited to single-winner RCV. See "RCVRC Tabulator" below for information on tabulating multi-winner contests. Reports are generated showing round by round tabulation in an Excel spreadsheet and are time stamped. A comprehensive report may also be selected.

- **Hart InterCivic**
  - **Election Management System compatible with RCV:** Verity
  - **Voting Equipment compatible with RCV:** Verity Scan, Verity Touch, Verity Touch Writer, Verity Central, Verity Duo
  - **RCV Ballot Design:** Grid (paper ballots) | EAC/AIGA touchscreen "Design for Democracy" (electronic ballots) | Up to 6 rankings
  - **RCV Tabulation:** Tabulates first round | Additional rounds through customized software or third-party vendor
  - **Symposium Summary:** Hart's Verity system can be used to create and record a ballot with RCV contests. Verity Scan and Verity Central (paper ballot scanners), Verity Touch (DRE), and Verity Touch Writer (accessibility ballot marking) can process selections and record cast vote records for RCV contests. In the Verity Data software, the election official/user makes ballot design specifications and sets the voting logic for each contest, including a selection option for ranked choice. Additional election data entry allows the official to designate both RCV and non-RCV contests and determine the contest order. The system allows for up to six rankings in an RCV contest. The Verity system does not offer full RCV tabulation. The system provides vote tabulation for the first round of an RCV contest, then subsequent rounds must be tabulated by third-party software (detailed below) or by contracting with Hart InterCivic to create separate tabulation software.

- **Unisyn Voting**
  - **Election Management System compatible with RCV:** OpenElect
  - **Voting Equipment compatible with RCV:** OpenElect OVO, OpenElect FVT, OpenElect OVI-VC, OpenElect OVCS, OpenElect OCS
  - **RCV Ballot Design:** Grid | Up to 3 rankings
  - **RCV Tabulation:** Single-winner RCV | Built-in tabulation
  - **Symposium Summary:** Unisyn's OpenElect was the first integrated VVSG certified voting system to support RCV (January 2010). OpenElect allows up to three rankings using a grid-style ballot. Both RCV and non-RCV contests can be placed on the same ballot through this system. Vote data is collected and cast vote records are uploaded into the

tally system. The tally system allows the official to select rules for invalid rankings and tiebreaking. Current tabulation is for single-winner RCV, with multi-winner RCV under development.

Other Voting Systems

Three other vendors provide voting systems to a limited number of U.S. jurisdictions: **Clear Ballot, MicroVote, and Smartmatic**. These systems do not currently have RCV ballot design or tabulation.

RCV Capabilities of Legacy Voting Systems

While nearly all of the latest voting systems in use in the U.S. have RCV capabilities, determining the capabilities of the previous generation of voting systems, which we refer to as legacy systems, is more difficult. A legacy voting system's RCV capability is dependent upon the configuration of the hardware, firmware, and software, which vary by vendor; when the system was purchased or leased; and firmware or software upgrades that may have been performed since purchase. Built-in RCV capability or the ability for the voting system to generate cast vote records (CVR) also impacts a voting system's RCV capability.[1]

Ballot design and tabulation (by third-party software) are possible with the following voting systems:

- **ES&S iVotronic:** RCV ballots can be cast through the **iVotronic**. The system can capture and export CVRs, making it the only RCV-capable legacy voting equipment from ES&S. CVR files can be extracted from the voting equipment for tabulation by a third-party tabulation system.
- **Hart InterCivic's** previous voting system, HVS software with compatible hardware **Ballot Now** (high speed scanner), **eScan** (optical scan), and **eSlate** (DRE), does not have built-in RCV tabulation. RCV ballots can be designed for this system with the HVS software, and CVR files can be extracted from the voting equipment for tabulation by a third-party tabulation system.
- **Sequoia (Dominion)[2] AVC Advantage, AVC Edge, and Optech** models are capable of generating CVR data using column-style RCV ballots for third-party RCV tabulation.

Ballot design only:

- **Premier/Diebold (Dominion)[3] AccuVote** models generate ballot data in PDF format but do not generate software-readable CVR data, which limits the ability to tabulate RCV contests without

---

[1] Voting system is an umbrella term for the hardware, firmware, and software used in elections, which are broadly defined as: hardware, the voting equipment machines used to cast a ballot; firmware, installed in voting equipment to make the machines compatible with the software; and software, used to design and tabulate ballots. Cast vote records are data of the votes cast. If these anonymous, secure records can be extracted from the voting system, then a third-party software or application can be used to tabulate RCV results.

[2] Sequoia Voting Systems was acquired by Dominion Voting Systems in 2010.

[3] Premier Election Solutions, previously Diebold Election Systems, was acquired in 2009 by ES&S and was partially acquired by Dominion Voting Systems in 2010 after an antitrust ruling.

converting the PDF files into software-readable data. While this is feasible, it has not yet been demonstrated and is not supported by Dominion.

Third Party Support for RCV Elections

A number of groups provide RCV tabulation support or have developed applications for RCV tabulation. The two most prominent are:

- **MK Election Services** uses ChoicePlus Pro to tabulate RCV results from CVRs generated by voting systems in Cambridge, MA, and Portland, ME.
- **Bright Spots** is a cutting-edge group based in San Francisco, working to use technology to promote democracy. This group is helping the RCVRC to develop the RCVRC Tabulator software outlined below.

RCVRC Tabulator

The RCVRC and Bright Spots have developed the RCVRC Tabulator, software that can take cast vote records (CVRs) from all voting equipment capable of exporting such records in data file format and tabulate RCV results from those CVRs. The RCVRC tabulator is planned to be adaptable to as many RCV jurisdictions as possible using current or legacy voting equipment. It will also allow for tabulation and aggregation of RCV results when multiple voting systems are used (i.e., a statewide election or an election across county lines).

The Tabulator has been used to successfully verify RCV elections results in the 2018 Maine elections as well as 2013 and 2017 Minneapolis RCV elections. It was also used in Benton County, OR, to verify the ES&S tabulation module during its local certification process.

Evaluation by an EAC-approved testing lab is expected by mid-2019. The RCVRC Tabulator is free, open-source software available through https://www.rankedchoicevoting.org/universal_rcv_tabulator.

DOMINION VOTING								
	Democracy Suite (5.2 & higher)	**ImageCast Evolution ImageCast Precinct ImageCast Central ImageCast Remote**	**Yes**	**Grid**	**10**	**Yes**	**Yes**	Dominion Voting offers built-in RCV tabulation with its Democracy Suite software, beginning with Version 5.2, in combination with its ImageCast voting equipment. Dominion's system can produce a ballot with both RCV and non-RCV contests. The system allows for up to 10 rankings in a grid-style ballot. To tabulate, RCV ballot data from voting equipment is loaded into the Democracy Suite system with other election contest data. Using the built-in RCV tabulation software, officials select to run the RCV algorithm to generate real time results for single-winner or multi-winner RCV. The system can continually update the results as additional ballot data is added. Results reports are available round-by-round and by district.

RE: PETITIONS 22-051 AND 22-052

Dear Auditor Galloway,

I'm president and CEO of FairVote, a nonpartisan, nonprofit organization that has been a leading advocate and analyst of ranked choice voting since I helped found the organization as its executive director in 1992. I have been closely involved in a number of implementations of ranked choice voting over the past two decades; ranked choice voting will be used in the next elections held by two states and more than 50 cities and counties in the United States.

I am writing about the estimated fiscal impact of initiative petitions 22-051 and 22-052. The Ranked Choice Voting Resource Center, a nonpartisan organization that is run by former election officials with experience in ranked choice voting in statewide and local elections, has engaged in a comprehensive analysis of ranked choice voting in Missouri. Its analysis shows that at least 107 of Missouri's 116 local election authorities have voting machines that are compatible with ranked-choice voting methods.

If passed, petitions 22-051 and 22-052 would not take effect until elections in 2023 or later. Public records show that Missouri jurisdictions that lacked ranked-choice voting-compatible machines when the Resource Center's report was completed are in the process of securing deploy new, modern machines — with or without passage of 22-051 and 22-052.

I will note that estimates of the costs of implementation of ranked choice voting often skew high, and actual costs will depend on decisions made by election officials. For example, the official fiscal note from Maine election officials before and after its voters passed ranked choice voting in 2016 was more than $1.5 million. The actual costs in the June 2018 statewide primary elections for governor and other state and congressional primaries were less than $100,000. When North Carolina election officials learned in August 2010 they had to run a statewide ranked choice election in November 2010 for a judicial vacancy election with 13 candidates, they found a way to do so within their current budget.

Any taxpayer costs associated with voter education also are not intrinsic to adoption of ranked choice voting. Some jurisdictions like Maine have adopted and implemented ranked choice voting with virtually no extra money spent on voter education, and voters in those jurisdictions have handled the new system very well if, as in Maine, the state develops a good ballot design with its vendors.

In short, given what we know about Missouri and given the history of implementation of RCV in other states and cities, we agree with estimates from the Ranked Choice Voting Resource Center that the

FairVote Board of Directors: Alice Underwood (Chair)
Cynthia Okechukwu ○ Brenda Choresi Carter ○ Tim Hayes ○ Jennifer Nassour
David Wilner ○ Donald Marron ○ Mark de la Iglesia

fiscal impact of 22-051 and 22-052 are to be between $0 and $2.5 million.

If you have any questions about my submission and our experience with ranked choice voting implementation, I can be reached at rr@fairvote.org, (301) 270-4616.

Sincerely yours,

Rob Richie

RE: Petition approval request from David Roland regarding a proposed constitutional amendment to Article VIII, version 2 (2022-050)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by David Roland on July 15, 2021.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

NOTICE: The proposed amendment revises Article VIII of the Constitution by adopting six new Sections, to be known as Article VIII, Sections 24, 25, 26, 27, 28, and 29.

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Section A. Article VIII of the Constitution is revised by adopting six new Sections, to be known as Article VIII, Sections 24, 25, 26, 27, 28, and 29, to read as follows:

Section 24. 1. Every voting machine used to conduct an election in the State of Missouri shall be tested and certified as secure prior to each election in which the machine will be used. Such testing and certification shall meet all federal standards.
2. Every voting machine used to conduct an election in the State of Missouri shall produce an individual, permanent paper record for each vote cast, which shall be made available for inspection and verification by the voter at the time the vote is cast. Such individual, permanent paper record shall be preserved for use in any election audit.
3. The candidate or their designee shall have the right to be present whenever paper ballots or the permanent paper records produced by electronic voting machines are counted, audited, or placed in storage.

Section 25. 1. Beginning at the August 2024 primary election, and notwithstanding any other provision of law to the contrary, primary elections for all statewide offices, members of the Missouri General Assembly, and members of the United States Congress shall be non-partisan, open primaries where the four candidates for each office receiving the most votes advance to the general election.
2. No person's name shall be printed on a primary ballot unless that person has filed a declaration of candidacy with the Secretary of State's Office and paid a one-hundred-dollar filing fee to the Secretary of State. Notwithstanding any other provision of law to the contrary, a person shall not be required to pay a filing fee to a political party in order to have their name printed on a primary ballot.
3. Primary ballots for all statewide offices, members of the Missouri General Assembly, and members of the United States Congress shall meet the following criteria:
(1) All candidates for an office shall appear on a single ballot.
(2) No political party identifications or affiliations shall be printed next to the names of the candidates or on any part of the ballot.
(3) Primary ballots shall include space for a write-in candidate for such offices.
4. In the primary election for all statewide offices, members of the Missouri General Assembly, and members of the United States Congress, a qualified voter shall be permitted to cast a vote for any candidate for whom that voter is otherwise eligible to vote. A qualified voter shall only vote for one candidate for each office.
5. The four candidates for each office receiving the most votes in the primary election shall advance to the general election for that office. Only those candidates shall appear on the general election ballot.
6. If two or more candidates receive an equal number of votes for the same office such that there is a tie for fourth place, such candidates or their designees shall draw lots to determine whose name shall appear on the general election ballot. If a candidate declines to participate, the election authority may draw lots on their behalf.

Section 26. 1. For the purposes of this section, the following terms mean:
(1) "Active Candidate", a candidate who has not been eliminated during an instant runoff tabulation.
(2) "Overvote", a vote in which the qualified voter has indicated a preference for more than one candidate at the same placement order.
(3) "Order" or "Placement Order", the number a qualified voter assigns to a candidate indicating that voter's preference, with 1 being the highest placement order and 4 being the lowest placement order.
2. Beginning at the November 2024 general election, and notwithstanding any other provision of law to the contrary, general elections for all statewide offices, members of the Missouri General Assembly, and members of the United States Congress shall be non-partisan, instant runoff elections in which a qualified voter may indicate their preferred candidate order on the ballot.
3. No political party identifications or affiliations shall be printed next to the names of the candidates or on any part of the ballot.
4. In a general election conducted under this section, each ballot shall count as one vote for the highest-ordered, Active Candidate on that ballot.
5. If, after the initial tabulation, an Active Candidate receives a majority of the votes cast, that candidate is elected and tabulation is complete.
6. If, after the initial tabulation, an Active Candidate has not received a majority of the highest-ordered votes cast, votes shall be tabulated as follows:
(1) The candidate receiving the fewest number of votes shall be eliminated.
(2) For each ballot cast for an eliminated candidate, the official conducting the tabulation shall determine the highest-ordered, Active Candidate on the ballot. The vote cast on that ballot shall be added to the total number of votes received by that Active Candidate.
(3) Votes shall be tabulated pursuant to subdivisions (1) and (2) of this subsection until an Active Candidate receives the majority of the remaining votes.
7. If a ballot has a placement order that does not contain any candidate, and there are no Active Candidates at a higher placement order, the ballot shall count as a vote for the highest-ordered, Active Candidate listed after that placement order, if any.
8. Ballots shall not be included in the tabulation process in subsection 5 only if:
(1) The ballot does not include an Active Candidate at any placement order; or
(2) The ballot contains an Overvote that includes the highest-ordered, Active Candidate at any point during the tabulation process.

9. If two or more candidates are tied with an equal and lowest number of votes, and the tabulation in subsection 6 cannot continue until the candidate with the lowest number of votes is eliminated, the candidate to be eliminated shall be determined by such candidates or their designees drawing lots to determine who shall be eliminated. Should a candidate decline to participate, the election authority shall draw lots on their behalf.
10. Ballots shall be laid out to allow voters to indicate their preferred candidate order. The ballot shall be simple and easy to understand, consistent with best practices.
11. Instructions on the general election ballot shall include the following statement: "You may mark up to four choices in order of preference. Marking a second choice cannot help defeat your first choice. Marking a subsequent choice cannot help defeat your higher-ordered choices."
12. Beginning at least one hundred twenty days before the first election utilizing the instant runoff system, the Secretary of State and local election authorities shall conduct a voter education campaign to familiarize voters with the instant runoff voting system.

Section 27. 1. Beginning August 1, 2024, and notwithstanding any other provision of law to the contrary, a special election shall be called to fill any vacancy in a statewide office, office of member of the Missouri General Assembly, and office of member of the United States Congress.
2. A special election to fill a vacancy in any such office shall be conducted pursuant to the primary and general election processes described in Sections 25 and 26 of this Article.

Section 28. The Secretary of State shall issue rules and regulations necessary to implement Sections 24 to 27 of this Article. No rule or portion of a rule promulgated under the authority of such Sections shall become effective unless it has been promulgated pursuant to the requirements provided by law.

Section 29. If any provision of Sections 24, 25, 26, or 27 or the application thereof to anyone or to any circumstance is held invalid, the remainder of those provisions and the application of such provisions to others or other circumstances shall not be affected thereby.

NOTICE: The proposed amendment revises Article VIII of the Constitution by adopting six new Sections to be known as Article VIII, Sections 24, 25, 26, 27, 28, and 29.

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Section A. Article VIII of the Constitution is revised by adopting six new Sections to be known as Article VIII, Sections 24, 25, 26, 27,28, and 29 to read as follows:

Section 24. 1. Every voting machine used to conduct an election in the State of Missouri shall be tested and certified as secure prior to each election in which the machine will be used. Such testing and certification shall meet all federal standards.
2. Every voting machine used to conduct an election in the State of Missouri shall produce an individual, permanent paper record for each vote cast, which shall be made available for inspection and verification by the voter at the time the vote is cast. Such individual, permanent paper record shall be preserved for use in any election audit.
3. The candidate or their designee shall have the right to be present whenever paper ballots or the permanent paper records produced by electronic voting machines are counted, audited, or placed in storage.

Section 25. 1. Beginning at the August 2024 primary election, and notwithstanding any other provision of law to the contrary, primary elections for all statewide offices, members of the Missouri General Assembly, and members of the United States Congress shall be open primaries where the four candidates for each office receiving the most votes advance to the general election.
2. Primary ballots for all statewide offices, members of the Missouri General Assembly, and members of the United States Congress shall meet the following criteria:
(1) All candidates for an office shall appear on a single ballot.
(2) Primary ballots shall include space for a write-in candidate for such offices.
3. In the primary election for all statewide offices, members of the Missouri General Assembly, and members of the United States Congress, a qualified voter shall be permitted to cast a vote for any candidate for whom that voter is otherwise eligible to vote. A qualified voter shall only vote for one candidate for each office.
4. The four candidates for each office receiving the most votes in the primary election shall advance to the general election for that office. Only those candidates shall appear on the general election ballot.
5. If two or more candidates receive an equal number of votes for the same office, such that there is a tie for fourth place, such candidates or their designees shall have the right to draw lots to determine whose name shall appear on the general election ballot. If a candidate declines to participate, the election authority may draw lots on their behalf.

Section 26. 1. For the purposes of this section, the following terms mean:
(1) "Active Candidate", a candidate who has not been eliminated during an instant runoff tabulation.
(2) "Overvote", a vote in which the qualified voter has indicated a preference for more than one candidate at the same placement order.
(3) "Order" or "Placement Order", the number a qualified voter assigns to a candidate indicating that voter's preference, with 1 being the highest placement order and 4 being the lowest placement order.
2. Beginning at the November 2024 general election, and notwithstanding any other provision of law to the contrary, general elections for all statewide offices, members of the Missouri General Assembly, and members of the United States Congress shall be instant runoff elections in which a qualified voter may indicate their preferred candidate order on the ballot.
3. In a general election conducted under this section, each ballot shall count as one vote for the highest-ordered, Active Candidate on that ballot.
4. If, after the initial tabulation, an Active Candidate receives a majority of the votes cast, that candidate is elected and tabulation is complete.
5. If, after the initial tabulation, an Active Candidate has not received a majority of the highest-ordered votes cast, votes shall be tabulated as follows:
(1) The candidate receiving the fewest number of votes shall be eliminated.
(2) For each ballot cast for an eliminated candidate, the official conducting the tabulation shall determine the highest-ordered, Active Candidate on the ballot. The vote cast on that ballot shall be added to the total number of votes received by that Active Candidate.
(3) Votes shall be tabulated pursuant to subdivisions (1) and (2) of this subsection until an Active Candidate receives the majority of the remaining votes.
6. If a ballot has a placement order that does not contain any candidate, and there are no Active Candidates at a higher placement order, the ballot shall count as a vote for the highest-ordered Active Candidate listed after that placement order, if any.
7. Ballots shall not be included in the tabulation process in subsection 5 only if:
(1) The ballot does not include an Active Candidate at any placement order; or
(2) The ballot contains an Overvote that includes the highest-ordered, Active Candidate at any point during the tabulation process.
8. If two or more candidates are tied with an equal and lowest number of votes, and the tabulation in subsection 5 cannot continue until the candidate with the lowest number of votes is eliminated, the candidate to be eliminated shall be determined by such candidates or their designees drawing lots to determine who shall be eliminated. Should a candidate decline to participate, the election authority shall draw lots on their behalf.
9. Ballots shall be laid out to allow voters to indicate their preferred candidate order. The ballot shall be simple and easy to understand, consistent with best practices.
10. Instructions on the general election ballot shall include the following statement: "You may mark up to four choices in order of preference. Marking a second choice cannot help defeat your first choice. Marking a subsequent choice cannot help defeat your higher-ordered choices."

11. Beginning at least one hundred twenty days before the first election utilizing the instant runoff system, the Secretary of State and local election authorities shall conduct a voter education campaign to familiarize voters with the instant runoff voting system.
12. Notwithstanding any other provision of law to the contrary, the aggregated vote totals from the initial tabulation shall be used, as may be required by any other law, for the purposes of identifying the two major political parties.

Section 27. 1. Beginning August 1, 2024, and notwithstanding any other provision of law to the contrary, a special election shall be called to fill any vacancy in a statewide office, office of member of the Missouri General Assembly, and office of member of the United States Congress.
2. A special election to fill a vacancy in any such office shall be conducted pursuant to the primary and general election processes described in Sections 25 and 26 of this Article.

Section 28. The Secretary of State shall issue rules and regulations necessary to implement Sections 24 to 27 of this Article. No rule or portion of a rule promulgated under the authority of such Sections shall become effective unless it has been promulgated pursuant to the requirements provided by law.

Section 29. If any provision of Sections 24, 25, 26, or 27 or the application thereof to anyone or to any circumstance is held invalid, the remainder of those provisions and the application of such provisions to others or other circumstances shall not be affected thereby.

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Section A. Article XIV of the Constitution is revised by amending Section 1 to read as follows:

Section 1. 1. Purposes.

This section is intended to permit state-licensed physicians to recommend marijuana for medical purposes to patients with serious illnesses and medical conditions. The section allows patients with qualifying medical conditions the right to discuss freely with their physicians the possible benefits of medical marijuana use, the right of their physicians to provide professional advice concerning the same, and the right to use medical marijuana for treatment under the supervision of a physician.

This section is intended to make only those changes to Missouri laws that are necessary to protect patients, their primary caregivers, and their physicians from civil and criminal penalties, and to allow for the [limited] legal production, distribution, sale and purchase of marijuana for medical use. This section is not intended to change current civil and criminal laws governing the use of marijuana for nonmedical purposes. The section does not allow for the public use of marijuana and driving under the influence of marijuana.

2. Definitions.

(1) "Administer" means the direct application of marijuana to a qualifying patient by way of any of the following methods:

(a) Ingestion of capsules, teas, oils, and other marijuana-infused products;

(b) Vaporization or smoking of dried flowers, buds, plant material, extracts, or oils;

(c) Application of ointments or balms;

(d) Transdermal patches and suppositories;

(e) Consuming marijuana-infused food products; or

(f) Any other method recommended by a qualifying patient's physician.

(2) "Department" means the department of health and senior services, or its successor agency.

(3) "Entity" means a natural person, corporation, professional corporation, nonprofit corporation, cooperative corporation, unincorporated association, business trust, limited liability company, general or limited partnership, limited liability partnership, joint venture, or any other legal entity.

(4) "Flowering plant" means a marijuana plant from the time it exhibits the first signs of sexual maturity through harvest.

(5) "Marijuana" or "marihuana" means *Cannabis indica*, *Cannabis sativa*, and *Cannabis ruderalis*, hybrids of such species, and any other strains commonly understood within the scientific community to constitute marijuana, as well as resin extracted from the plant and marijuana-infused products. "Marijuana" or "marihuana" do not include industrial hemp [containing a cropwide average tetrahydrocannabinol concentration that does not exceed three-tenths of one percent on a dry weight basis] <u>as defined by federal law</u>, or commodities or products manufactured from industrial hemp <u>as defined by federal law</u>.

(6) "Marijuana-infused products" means products that are infused with marijuana or an extract thereof and are intended for use or consumption other than by smoking, including, but not limited to, edible products, ointments, tinctures and concentrates.

(7) "Medical marijuana cultivation facility" means a facility licensed by the department to acquire, cultivate, process, store, transport, and sell marijuana to a medical marijuana dispensary facility, medical marijuana testing facility, or to a medical marijuana-infused products manufacturing facility.

(8) "Medical marijuana dispensary facility" means a facility licensed by the department to acquire, store, sell, transport, and deliver marijuana, marijuana-infused products, and drug paraphernalia used to administer marijuana as provided for in this section to a qualifying patient, a primary caregiver, another medical marijuana dispensary facility, a medical marijuana testing facility, or a medical marijuana-infused products manufacturing facility.

(9) "Medical marijuana-infused products manufacturing facility" means a facility licensed by the department to acquire, store, manufacture, transport, and sell marijuana-infused products to a medical marijuana dispensary facility, a medical marijuana testing facility, or to another medical marijuana-infused products manufacturing facility.

(10) "Medical marijuana testing facility" means a facility certified by the department to acquire, test, certify, and transport marijuana.

(11) "Medical use" means the production, possession, delivery, distribution, transportation, or administration of marijuana or a marijuana-infused product, or drug paraphernalia used to administer marijuana or a marijuana-infused product, for the benefit of a qualifying patient to mitigate the symptoms or effects of the patient's qualifying medical condition.

(12) "Physician" means an individual who is licensed and in good standing to practice medicine or osteopathy under Missouri law.

(13) "Physician certification" means a document, whether handwritten, electronic or in another commonly used format, signed by a physician and stating that, in the physician's professional opinion, the patient suffers from a qualifying medical condition.

(14) "Primary caregiver" means an individual twenty-one years of age or older who has significant responsibility for managing the well-being of a qualifying patient and who is designated as such on the primary caregiver's application for an identification card under this section or in other written notification to the department. Any health care provider licensed under the laws of the state may also serve as a primary caregiver. A qualifying patient may have up to three primary caregivers.

(15) "Qualifying medical condition" means the condition of, symptoms related to, or side-effects from the treatment of:

(a) Cancer;

(b) Epilepsy;

(c) Glaucoma;

(d) Intractable migraines unresponsive to other treatment;

(e) A chronic medical condition that causes severe, persistent pain or persistent muscle spasms, including but not limited to those associated with multiple sclerosis, seizures, Parkinson's disease, and Tourette's syndrome;

(f) Debilitating psychiatric disorders, including, but not limited to, posttraumatic stress disorder, if diagnosed by a state licensed psychiatrist;

(g) Human immunodeficiency virus or acquired immune deficiency syndrome;

(h) A chronic medical condition that is normally treated with a prescription medication that could lead to physical or psychological dependence, when a physician determines that medical use of marijuana could be effective in treating that condition and would serve as a safer alternative to the prescription medication;

(i) Any terminal illness; or

(j) In the professional judgment of a physician, any other chronic, debilitating or other medical condition, including, but not limited to, hepatitis C, amyotrophic lateral sclerosis, inflammatory

bowel disease, Crohn's disease, Huntington's disease, autism, neuropathies, sickle cell anemia, agitation of Alzheimer's disease, cachexia, and wasting syndrome.

(16) "Qualifying patient" means a Missouri resident diagnosed with at least one qualifying medical condition.

3. Creating Patient Access to Medical Marijuana.

(1) In carrying out the implementation of this section, the department shall have the authority to:

(a) Grant or refuse state licenses and certifications for the cultivation, manufacture, dispensing, sale, testing, tracking, and transportation of marijuana for medical use as provided by law; suspend, fine, restrict, or revoke such licenses and certifications upon a violation of this section or a rule promulgated pursuant to this section; and impose any administrative penalty authorized by this section or any rule promulgated pursuant to this section.

(b) Promulgate rules and emergency rules necessary for the proper regulation and control of the cultivation, manufacture, dispensing, and sale of marijuana for medical use and for the enforcement of this section so long as patient access is not restricted unreasonably and such rules are reasonably necessary for patient safety or to restrict access to only licensees and qualifying patients.

(c) Develop such forms, certificates, licenses, identification cards, and applications as are necessary for, or reasonably related to, the administration of this section or any of the rules promulgated under this section;

(d) Require a seed-to-sale tracking system that tracks medical marijuana from either the seed or immature plant stage until the medical marijuana or medical marijuana-infused product is sold to a qualifying patient or primary caregiver to ensure that no medical marijuana grown by a medical marijuana cultivation facility or manufactured by a medical marijuana-infused products manufacturing facility is sold or otherwise transferred except by a medical marijuana dispensary facility. The department shall certify, if possible, at least two commercially available systems to licensees as compliant with its tracking standards and issue standards for the creation or use of other systems by licensees.

(e) Issue standards for the secure transportation of marijuana and marijuana-infused products. The department shall certify entities which demonstrate compliance with its transportation standards to transport marijuana and marijuana-infused products to a medical marijuana cultivation facility, a medical marijuana-infused products manufacturing facility, a medical marijuana dispensary facility, a medical marijuana testing facility, or another entity with a transportation certification. The department shall develop or adopt from any other governmental agency such safety and security standards as are reasonably necessary for the transportation of marijuana. Any entity licensed or certified pursuant to this section shall be allowed to transport cannabis.

(f) The department may charge a fee not to exceed $5,000 for any certification issued pursuant to this section.

(g) Prepare and transmit annually a publicly available report accounting to the governor for the efficient discharge of all responsibilities assigned to the department under this section;

[(h) Establish a system to numerically score competing medical marijuana licensee and certificate applicants, only in cases where more applicants apply than the minimum number of licenses or certificates as calculated by this section, which scoring shall be limited to an analysis of the following:

(i) the character, veracity, background, qualifications, and relevant experience of principal officers or managers;

(ii) the business plan proposed by the applicant, which in the case of cultivation facilities and dispensaries shall include the ability to maintain an adequate supply of marijuana, plans to ensure safety and security of qualifying patients and the community, procedures to be used to prevent diversion, and any plan for making marijuana available to low-income qualifying patients;

(iii) site security;

(iv) experience in a legal cannabis market;

(v) in the case of medical marijuana testing facilities, the experience of their personnel with testing marijuana, food or drugs for toxins and/or potency and health care industry experience;

(vi) the potential for positive economic impact in the site community;

(vii) in the case of medical marijuana cultivation facilities, capacity or experience with agriculture, horticulture, and health care;

(viii) in the case of medical marijuana dispensary facilities, capacity or experience with health care, the suitability of the proposed location, and its accessibility for patients;

(ix) in the case of medical marijuana-infused products manufacturing facilities, capacity or experience with food and beverage manufacturing; and

(x) maintaining competitiveness in the marijuana for medical use marketplace.

In ranking applicants and awarding licenses and certificates, the department may consult or contract with other public agencies with relevant expertise regarding these factors. The department shall lift or ease any limit on the number of licensees or certificate holders in order to meet the demand for marijuana for medical use by qualifying patients.]

(2) The department shall issue any rules or emergency rules necessary for the implementation and enforcement of this section and to ensure the right to, availability, and safe use of marijuana for medical use by qualifying patients. In developing such rules or emergency rules, the department may consult with other public agencies. In addition to any other rules or emergency rules necessary to carry out the mandates of this section, the department may issue rules or emergency rules relating to the following subjects:

(a) Compliance with, enforcement of, or violation of any provision of this section or any rule issued pursuant to this section, including procedures and grounds for denying, suspending, fining, restricting, or revoking a state license or certification issued pursuant to this section;

(b) Specifications of duties of officers and employees of the department;

(c) Instructions or guidance for local authorities and law enforcement officers;

(d) Requirements for inspections, investigations, searches, seizures, and such additional enforcement activities as may become necessary from time to time;

(e) Creation of a range of administrative penalties for use by the department;

(f) Prohibition of misrepresentation and unfair practices;

(g) Control of informational and product displays on licensed premises provided that the rules may not prevent or unreasonably restrict appropriate signs on the property of the medical marijuana dispensary facility, product display and examination by the qualifying patient and/or primary caregiver, listings in business directories including phone books, listings in marijuana-related or medical publications, or the sponsorship of health or not for profit charity or advocacy events;

(h) Development of individual identification cards for owners, officers, managers, contractors, employees, and other support staff of entities licensed or certified pursuant to this section, including a fingerprint-based federal and state criminal record check in accordance with U.S. Public Law 92-544, or its successor provisions, as may be required by the department prior to issuing a card and procedures to ensure that cards for new applicants are issued within fourteen days. Applicants licensed pursuant to this section shall submit fingerprints to the Missouri state highway patrol for the purpose of conducting a state and federal fingerprint-based criminal background check. The Missouri state highway patrol, if necessary, [shall] <u>may</u> forward the fingerprints to the Federal Bureau of Investigation (FBI) for the purpose of conducting a

fingerprint-based criminal background check. Fingerprints shall be submitted pursuant to 43.543 and fees shall be paid pursuant to 43.530;

(i) Security requirements for any premises licensed or certified pursuant to this section, including, at a minimum, lighting, physical security, video, alarm requirements, and other minimum procedures for internal control as deemed necessary by the department to properly administer and enforce the provisions of this section, including reporting requirements for changes, alterations, or modifications to the premises;

(j) Regulation of the storage of, warehouses for, and transportation of marijuana for medical use;

(k) Sanitary requirements for, including, but not limited to, the preparation of medical marijuana-infused products;

(l) The specification of acceptable forms of picture identification that a medical marijuana dispensary facility may accept when verifying a sale;

(m) Labeling and packaging standards;

(n) Records to be kept by licensees and the required availability of the records;

(o) State licensing procedures, including procedures for renewals, reinstatements, initial licenses, and the payment of licensing fees;

(p) The reporting and transmittal of tax payments;

(q) Authorization for the department of revenue to have access to licensing information to ensure tax payment and the effective administration of this section; and

(r) Such other matters as are necessary for the fair, impartial, stringent, and comprehensive administration of this section.

(3) The department shall issue rules or emergency rules for a medical marijuana and medical marijuana-infused products independent testing and certification program for medical marijuana licensees and requiring licensees to test medical marijuana using one or more impartial, independent laboratories to ensure, at a minimum, that products sold for human consumption do not contain contaminants that are injurious to health, to ensure correct labeling and measure potency. The department shall not require any medical marijuana or medical marijuana-infused products to be tested more than once prior to sale.

(4) The department shall issue rules or emergency rules to provide for the certification of and standards for medical marijuana testing facilities, including the requirements for equipment and qualifications for personnel, but shall not require certificate holders to have any federal agency licensing or have any relationship with a federally licensed testing facility. The department shall certify, if possible, at least two entities as medical marijuana testing facilities. No medical marijuana testing facility shall be owned by an entity under substantially common control, ownership, or management as a medical marijuana cultivation facility, medical marijuana-infused product manufacturing facility, or medical marijuana dispensary facility.

(5) The department shall maintain the confidentiality of reports or other information obtained from an applicant or licensee containing any individualized data, information, or records related to the licensee or its operation, including sales information, financial records, tax returns, credit reports, cultivation information, testing results, and security information and plans, or revealing any patient information, or any other records that are exempt from public inspection pursuant to state or federal law. Such reports or other information may be used only for a purpose authorized by this section. Any information released related to patients may be used only for a purpose authorized by federal law and this section, including verifying that a person who presented a patient identification card to a state or local law enforcement official is lawfully in possession of such card.

(6) Within one hundred eighty days of December 6, 2018, the department shall make available to the public license application forms and application instructions for medical marijuana cultivation

facilities, medical marijuana testing facilities, medical marijuana dispensary facilities, and medical marijuana-infused products manufacturing facilities.

(7) Within one hundred eighty days of December 6, 2018, the department shall make available to the public application forms and application instructions for qualifying patient, qualifying patient cultivation, and primary caregiver identification cards. Within two hundred ten days of December 6, 2018, the department shall begin accepting applications for such identification cards.

(8) An entity may apply to the department for and obtain one or more licenses to grow marijuana as a medical marijuana cultivation facility. Each facility in operation shall require a separate license, but multiple licenses may be utilized in a single facility. Each indoor facility utilizing artificial lighting may be limited by the department to thirty thousand square feet of flowering plant canopy space. Each outdoor facility utilizing natural lighting may be limited by the department to two thousand eight hundred flowering plants. Each greenhouse facility using a combination of natural and artificial lighting may be limited by the department, at the election of the licensee, to two thousand eight hundred flowering plants or thirty thousand square feet of flowering plant canopy. The license shall be valid for three years from its date of issuance and shall be renewable, except for good cause. The department shall charge each applicant a nonrefundable fee of ten thousand dollars per license application or renewal for all applicants filing an application within three years of December 6, 2018, and shall charge each applicant a nonrefundable fee of five thousand dollars per license application or renewal thereafter. Once granted, the department shall charge each licensee an annual fee of twenty-five thousand dollars per facility license. Application and license fees shall be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency. No more than three medical marijuana cultivation facility licenses shall be issued to any entity under substantially common control, ownership, or management.

(9) An entity may apply to the department for and obtain one or more licenses to operate a medical marijuana dispensary facility. Each facility in operation shall require a separate license. A license shall be valid for three years from its date of issuance and shall be renewable, except for good cause. The department shall charge each applicant a nonrefundable fee of six thousand dollars per license application or renewal for each applicant filing an application within three years of December 6, 2018, and shall charge each applicant a nonrefundable fee of three thousand dollars per license application or renewal thereafter. Once granted, the department shall charge each licensee an annual fee of ten thousand dollars per facility license. Application and license fees shall be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency. No more than five medical marijuana dispensary facility licenses shall be issued to any entity under substantially common control, ownership, or management.

(10) An entity may apply to the department for and obtain one or more licenses to operate a medical marijuana-infused products manufacturing facility. Each facility in operation shall require a separate license. A license shall be valid for three years from its date of issuance and shall be renewable, except for good cause. The department shall charge each applicant a nonrefundable fee of six thousand dollars per license application or renewal for each applicant filing an application within three years of December 6, 2018, and shall charge each applicant a nonrefundable fee of three thousand dollars per license application or renewal thereafter. Once granted, the department shall charge each licensee an annual fee of ten thousand dollars per facility license. Application and license fees shall be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency. No more than three medical marijuana-infused products manufacturing facility licenses shall be issued to any entity under substantially common control, ownership, or management.

(11) Any applicant for a license authorized by this section may prefile their application fee with the department beginning 30 days after December 6, 2018.

(12) Except for good cause, a qualifying patient or his or her primary caregiver may obtain an identification card from the department to cultivate up to [six flowering marijuana plants] <u>fifty square feet of canopy space</u> for the [exclusive use] <u>benefit</u> of that qualifying patient. The card shall

be valid for twelve months from its date of issuance and shall be renewable with the annual submittal of a new or updated physician's certification. The department shall charge an annual fee for the card of [one hundred] twenty-five dollars, with such rate to be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency. In no case shall any qualifying patient cultivate more than fifty square feet of canopy space regardless of the number of primary caregivers assigned to said qualifying patient.

(13) The department may set a limit on the amount of marijuana that may be purchased by or on behalf of a single qualifying patient in a thirty-day period, provided that limit is not less than four ounces of dried, unprocessed marijuana, or its equivalent. Any such limit shall not apply to a qualifying patient with written certification from two independent physicians that there are compelling reasons why the qualifying patient needs a greater amount than the limit established by the department.

(14) The department may set a limit on the amount of marijuana that may be possessed by or on behalf of each qualifying patient, provided that limit is not less than a sixty-day supply of dried, unprocessed marijuana, or its equivalent. A primary caregiver may possess a separate legal limit for each qualifying patient under their care and a separate legal limit for themselves if they are a qualifying patient. In no case shall the total amount of medical marijuana attributed to a single qualifying patient in the possession of multiple primary caregivers exceed the limit set by the department. Qualifying patients cultivating marijuana for medical use may possess up to a [ninety-day] one year supply, so long as the supply remains secured on property under their control. Any such limit shall not apply to a qualifying patient with written certification from two independent physicians that there are compelling reasons for additional amounts. Possession of between the legal limit and up to twice the legal limit shall subject the possessor to department sanctions, including an administrative penalty and loss of their patient identification card for up to a year. Purposefully possessing amounts in excess of twice the legal limit shall be punishable by [imprisonment of up to one year and] a fine of up to two thousand dollars.

[(15) The department may restrict the aggregate number of licenses granted for medical marijuana cultivation facilities, provided, however, that the number may not be limited to fewer than one license per every one hundred thousand inhabitants, or any portion thereof, of the state of Missouri, according to the most recent census of the United States. A decrease in the number of inhabitants in the state of Missouri shall have no impact.

(16) The department may restrict the aggregate number of licenses granted for marijuana-infused products manufacturing facilities, provided, however, that the number may not be limited to fewer than one license per every seventy thousand inhabitants, or any portion thereof, of the state of Missouri, according to the most recent census of the United States. A decrease in the number of inhabitants in the state of Missouri shall have no impact.

(17) The department may restrict the aggregate number of licenses granted for medical marijuana dispensary facilities, provided, however, that the number may not be limited to fewer than twenty-four licenses in each United States congressional district in the state of Missouri pursuant to the map of each of the eight congressional districts as drawn and effective on December 6, 2018. Future changes to the boundaries of or the number of congressional districts shall have no impact.]

(18) The department shall begin accepting license and certification applications for medical marijuana dispensary facilities, medical marijuana testing facilities, medical marijuana cultivation facilities, medical marijuana-infused products manufacturing facilities, seed-to-sale tracking systems, and for transportation of marijuana no later than two hundred forty days after December 6, 2018. Applications for licenses and certifications under this section shall be approved or denied by the department no later than one hundred fifty days after their submission. If the department fails to carry out its nondiscretionary duty to approve or deny an application within one hundred fifty days of submission, an applicant may immediately seek a court order compelling the department to approve or deny the application.

(19) Qualifying patients under this section shall obtain and annually renew an identification card or cards from the department. The department shall charge a fee of twenty-five dollars per year per card with such fee to be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor

index as published by the U.S. Department of Labor or its successor agency. Upon receiving an application for a qualifying patient identification card or qualifying patient cultivation identification card, the department shall, within thirty days, either issue the card or provide a written explanation for its denial. If the department fails to deny and fails to issue a card to an eligible qualifying patient within thirty days, then their physician certification shall serve as their qualifying patient identification card or qualifying patient cultivation identification card for up to one year from the date of physician certification. All initial applications for or renewals of a qualifying patient identification card or qualifying patient cultivation identification card shall be accompanied by a physician certification that is less than thirty days old.

(20) Primary caregivers under this section shall obtain and annually renew an identification card from the department. The department shall charge a fee of twenty-five dollars per year, with such fee to be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency. Upon receiving an application for a primary caregiver identification card, the department shall, within thirty days, either issue the card or provide a written explanation for its denial.

(21) All marijuana for medical use sold in Missouri shall be cultivated in a licensed medical marijuana cultivation facility located in Missouri.

(22) All marijuana-infused products for medical use sold in the state of Missouri shall be manufactured in a medical marijuana-infused products manufacturing facility.

(23) The denial of a license, license renewal, or identification card by the department shall be appealable to the administrative hearing commission, or its successor entity. Following the exhaustion of administrative review, denial of a license, license renewal, or identification card by the department shall be subject to judicial review as provided by law.

(24) No elected official shall interfere directly or indirectly with the department's obligations and activities under this section.

(25) The department shall not have the authority to apply or enforce any rule or regulation that would impose an undue burden on any one or more licensees or certificate holders, any qualifying patients, or act to undermine the purposes of this section.

4. Taxation and Reporting.

(1) A tax is levied upon the retail sale of marijuana for medical use sold at medical marijuana dispensary facilities within the state. The tax shall be at a rate of four percent of the retail price. The tax shall be collected by each licensed medical marijuana dispensary facility and paid to the department of revenue. After retaining no more than five percent for its actual collection costs, amounts generated by the tax levied in this section shall be deposited by the department of revenue into the Missouri veterans' health and care fund. Licensed entities making retail sales within the state shall be allowed approved credit for returns provided the tax was paid on the returned item and the purchaser was given the refund or credit.

(2) There is hereby created in the state treasury the "Missouri Veterans' Health and Care Fund", which shall consist of taxes and fees collected under this section. The state treasurer shall be custodian of the fund, and he or she shall invest monies in the fund in the same manner as other funds are invested. Any interest and monies earned on such investments shall be credited to the fund. Notwithstanding any other provision of law, any monies remaining in the fund at the end of a biennium shall not revert to the credit of the general revenue fund. The commissioner of administration is authorized to make cash operating transfers to the fund for purposes of meeting the cash requirements of the department in advance of it receiving annual application, licensing, and tax revenue, with any such transfers to be repaid as provided by law. The fund shall be a dedicated fund and shall stand appropriated without further legislative action as follows:

(a) First, to the department, an amount not to exceed twenty percent of net deposits which is necessary for the department to carry out this section, including repayment of any cash operating transfers, payments made through contract or agreement with other state and public agencies

necessary to carry out this section, and a reserve fund to maintain a reasonable working cash balance for the purpose of carrying out this section;

(b) Next, the remainder of such funds shall be transferred to the Missouri veterans commission for health and care services for military veterans, including the following purposes: operations, maintenance and capital improvements of the Missouri veterans homes, the Missouri service officer's program, and other services for veterans approved by the commission, including, but not limited to, health care services, mental health services, drug rehabilitation services, housing assistance, job training, tuition assistance, and housing assistance to prevent homelessness. The Missouri veterans commission shall contract with other public agencies for the delivery of services beyond its expertise.

(c) All monies from the taxes authorized under this subsection shall provide additional dedicated funding for the purposes enumerated above and shall not replace existing dedicated funding.

(3) For all retail sales of marijuana for medical use, a record shall be kept by the seller which identifies, by secure and encrypted patient number issued by the seller to the qualifying patient involved in the sale, all amounts and types of marijuana involved in the sale and the total amount of money involved in the sale, including itemizations, taxes collected and grand total sale amounts. All such records shall be kept on the premises in a readily available format and be made available for review by the department and the department of revenue upon request. Such records shall be retained for five years from the date of the sale.

(4) The tax levied pursuant to this subsection is separate from, and in addition to, any general state and local sales and use taxes that apply to retail sales, which shall continue to be collected and distributed as provided by general law.

(5) Except as authorized in this subsection, no additional taxes shall be imposed on the sale of marijuana for medical use.

(6) The fees and taxes provided for in this Article XIV, Section 1 shall be fully enforceable notwithstanding any other provision in this Constitution purportedly prohibiting or restricting the taxes and fees provided for herein.

(7) The unexpended balance existing in the fund shall be exempt from the provisions of section 33.080 relating to the transfer of unexpended balances to the general revenue fund.

5. Additional Patient, Physician, Caregiver and Provider Protections.

(1) Except as provided in this section, the possession of marijuana in quantities less than the limits of this section, or established by the department, and transportation of marijuana from a medical marijuana dispensary facility to the qualifying patient's residence shall not subject the possessor to arrest, criminal or civil liability, or sanctions under Missouri law, provided that the possessor produces on demand to the appropriate authority a valid qualifying patient identification card; a valid qualifying patient cultivation identification card; a valid physician certification while making application for an identification card; or a valid primary caregiver identification card. Production of the respective equivalent identification card or authorization issued by another state or political subdivision of another state shall also meet the requirements of this subdivision.

(2) No patient shall be denied access to or priority for an organ transplant because they hold a qualifying patient identification card or use marijuana for medical use.

(3) A physician shall not be subject to criminal or civil liability or sanctions under Missouri law or discipline by the Missouri state board of registration for the healing arts, or its successor agency, for owning, operating, investing in, being employed by, or contracting with any entity licensed or certified pursuant to this section or issuing a physician certification to a patient diagnosed with a qualifying medical condition in a manner consistent with this section and legal standards of professional conduct.

(4) A health care provider, including individuals licensed under chapter 335 or 337 or their successor statutes, shall not be subject to civil or criminal prosecution under Missouri law, denial of any right or privilege, civil or administrative penalty or sanction, or disciplinary action by any

accreditation or licensing board or commission for owning, operating, investing in, being employed by, or contracting with any entity licensed or certified pursuant to this section or providing health care services that involve the medical use of marijuana consistent with this section and legal standards of professional conduct.

(5) A medical marijuana testing facility shall not be subject to civil or criminal prosecution under Missouri law, denial of any right or privilege, civil or administrative penalty or sanction, or disciplinary action by any accreditation or licensing board or commission for providing laboratory testing services that relate to the medical use of marijuana consistent with this section and otherwise meeting legal standards of professional conduct.

(6) A health care provider shall not be subject to mandatory reporting requirements for the medical use of marijuana by nonemancipated qualifying patients under eighteen years of age in a manner consistent with this section and with consent of a parent or guardian.

(7) A primary caregiver shall not be subject to criminal or civil liability or sanctions under Missouri law for purchasing, transporting, or administering marijuana for medical use to a qualifying patient or participating in the patient cultivation [of up to six flowering marijuana plants per patient] in a manner consistent with this section and generally established legal standards of personal or professional conduct.

(8) An attorney shall not be subject to disciplinary action by the state bar association or other professional licensing body for owning, operating, investing in, being employed by, contracting with, or providing legal assistance to prospective or licensed medical marijuana testing facilities, medical marijuana cultivation facilities, medical marijuana dispensary facilities, medical marijuana-infused products manufacturing facilities, qualifying patients, primary caregivers, physicians, health care providers or others related to activity that is no longer subject to criminal penalties under state law pursuant to this section.

(9) Actions and conduct by qualifying patients, primary caregivers, medical marijuana testing facilities, medical marijuana cultivation facilities, medical marijuana-infused products manufacturing facilities, or medical marijuana dispensary facilities licensed or registered with the department, or their employees or agents, as permitted by this section and in compliance with department regulations and other standards of legal conduct, shall not be subject to criminal or civil liability or sanctions under Missouri law, except as provided for by this section.

(10) Nothing in this section shall provide immunity for negligence, either common law or statutorily created, nor criminal immunities for operating a vehicle, aircraft, dangerous device, or navigating a boat under the influence of marijuana.

(11) It is the public policy of the state of Missouri that contracts related to marijuana for medical use that are entered into by qualifying patients, primary caregivers, medical marijuana testing facilities, medical marijuana cultivation facilities, medical marijuana-infused products manufacturing facilities, or medical marijuana dispensary facilities and those who allow property to be used by those entities, should be enforceable. It is the public policy of the state of Missouri that no contract entered into by qualifying patients, primary caregivers, medical marijuana testing facilities, medical marijuana cultivation facilities, medical marijuana-infused products manufacturing facilities, or medical marijuana dispensary facilities, or by a person who allows property to be used for activities that are exempt from state criminal penalties by this section, shall be unenforceable on the basis that activities related to medical marijuana may be prohibited by federal law.

6. Legislation.

Nothing in this section shall limit the general assembly from enacting laws consistent with this section, or otherwise effectuating the patient rights of this section. The legislature shall not enact laws that hinder the right of qualifying patients to access marijuana for medical use as granted by this section.

7. Additional Provisions.

(1) Nothing in this section permits a person to:

(a) Consume marijuana for medical use in a jail or correctional facility;

(b) Undertake any task under the influence of marijuana when doing so would constitute negligence or professional malpractice; or

(c) Operate, navigate, or be in actual physical control of any dangerous device or motor vehicle, aircraft or motorboat while under the influence of marijuana; or

(d) Bring a claim against any employer, former employer, or prospective employer for wrongful discharge, discrimination, or any similar cause of action or remedy, based on the employer, former employer, or prospective employer prohibiting the employee, former employee, or prospective employee from being under the influence of marijuana while at work or disciplining the employee or former employee, up to and including termination from employment, for working or attempting to work while under the influence of marijuana.

(2) No medical marijuana cultivation facility, medical marijuana testing facility, medical marijuana dispensary facility, or medical marijuana-infused products manufacturing facility, or entity with a transportation certification shall be owned, in whole or in part, or have as an officer, director, board member, manager, or employee, any individual with a disqualifying felony offense. A "disqualifying felony offense" is a violation of, and conviction or guilty plea to, state or federal law that is, or would have been, a felony under Missouri law, regardless of the sentence imposed, unless the department determines that:

(a) The person's conviction was for the medical use of marijuana or assisting in the medical use of marijuana; or

(b) The person's conviction was for a nonviolent crime [for which he or she was not incarcerated and that is more than five years old]; or

(c) More than five years have passed since the person was released from parole or probation, and he or she has not been convicted of any subsequent criminal offenses.

The department may consult with and rely on the records, advice and recommendations of the attorney general and the department of public safety, or their successor entities, in applying this subdivision.

(3) All medical marijuana cultivation facility, medical marijuana dispensary facility, and medical marijuana-infused products manufacturing facility licenses, entities with medical marijuana testing facility certifications, and entities with transportation certifications shall be held by entities that are majority owned by natural persons who have been citizens of the state of Missouri for at least one year prior to the application for such license or certification. Notwithstanding the foregoing, entities outside the state of Missouri may own a minority stake in such entities.

(4) No medical marijuana cultivation facility, medical marijuana dispensary facility, or medical marijuana-infused products manufacturing facility shall manufacture, package or label marijuana or marijuana-infused products in a false or misleading manner. No person shall sell any product in a manner designed to cause confusion between a marijuana or marijuana-infused product and any product not containing marijuana. A violation of this subdivision shall be punishable by an appropriate and proportional department sanction, up to and including loss of license.

(5) All edible marijuana-infused products shall be sold in individual, child-resistant containers that are labeled with dosage amounts, instructions for use, and estimated length of effectiveness. All marijuana and marijuana-infused products shall be sold in containers clearly and conspicuously labeled, in a font size at least as large as the largest other font size used on the package, as containing "Marijuana", or a "Marijuana-Infused Product". Violation of this prohibition shall subject the violator to department sanctions, including an administrative penalty.

(6) No individual shall serve as the primary caregiver for more than [three] <u>ten</u> qualifying patients.

(7) No qualifying patient shall consume marijuana for medical use in a public place, unless provided by law. Violation of this prohibition shall subject the violator to sanctions as provided by general law.

(8) No person shall extract resins from marijuana using dangerous materials or combustible gases without a medical marijuana-infused products manufacturing facility license. Violation of this prohibition shall subject the violator to department sanctions, including an administrative penalty and, if applicable, loss of their identification card, certificate, or license for up to one year.

(9) All qualifying patient cultivation shall take place in an enclosed, locked facility that is equipped with security devices that permit access only by the qualifying patient or by such patient's primary caregiver. [Two qualifying] Qualifying patients and care givers, who [both] hold valid qualifying patient cultivation identification cards, may share one enclosed, locked facility. No shared facility may contain more than five thousand square feet of canopy space without obtaining a medical marijuana cultivation facility license. [No more than twelve qualifying patient or primary caregiver cultivated flowering marijuana plants may be cultivated in a single, enclosed locked facility, except when a primary caregiver also holds a qualifying patient cultivation identification card, in which case no more than eighteen flowering marijuana plants may be cultivated in a single, enclosed, locked facility.]

(10) No medical marijuana cultivation facility, medical marijuana dispensary facility, medical marijuana-infused products manufacturing facility, medical marijuana testing facility, or entity with a transportation certification shall assign, sell, give, lease, sublicense, or otherwise transfer its license or certificate to any other entity without the express consent of the department, not to be unreasonably withheld.

(11) Unless allowed by the local government, no new medical marijuana cultivation facility, medical marijuana testing facility, medical marijuana dispensary facility, or medical marijuana-infused products manufacturing facility shall be initially sited within one thousand feet of any then-existing elementary or secondary school, child day-care center, or church. No local government shall prohibit medical marijuana cultivation facilities, medical marijuana testing facilities, medical marijuana-infused products manufacturing facilities, or medical marijuana dispensary facilities, or entities with a transportation certification either expressly or through the enactment of ordinances or regulations that make their operation unduly burdensome in the jurisdiction. However, local governments may enact ordinances or regulations not in conflict with this section, or with regulations enacted pursuant to this section, governing the time, place, and manner of operation of such facilities in the locality. A local government may establish civil penalties for violation of an ordinance or regulations governing the time, place, and manner of operation of a medical marijuana cultivation facility, medical marijuana testing facility, medical marijuana-infused products manufacturing facility, medical marijuana dispensary facility, or entity holding a transportation certification that may operate in such locality.

(12) Unless superseded by federal law or an amendment to this Constitution, a physician shall not certify a qualifying condition for a patient by any means other than providing a physician certification for the patient, whether handwritten, electronic, or in another commonly used format. A qualifying patient must obtain a new physician certification at least annually.

(13) A physician shall not issue a certification for the medical use of marijuana for a nonemancipated qualifying patient under the age of eighteen without the written consent of the qualifying patient's parent or legal guardian. The department shall not issue a qualifying patient identification card on behalf of a nonemancipated qualifying patient under the age of eighteen without the written consent of the qualifying patient's parent or legal guardian. Such card shall be issued to one of the parents or guardians and not directly to the patient. [Only a parent or guardian may serve as a primary caregiver for a nonemancipated qualifying patient under the age of eighteen.] At least one of the primary caregivers for a nonemancipated qualifying patient under the age of eighteen must be a parent or legal guardian. Only the qualifying patient's [parent or guardian] primary caregiver shall purchase or possess medical marijuana for a nonemancipated qualifying patient under the age of eighteen. A [parent or guardian] primary caregiver shall supervise the administration of medical marijuana to a nonemancipated qualifying patient under the age of eighteen.

(14) Nothing in this section shall be construed as mandating health insurance coverage of medical marijuana for qualifying patient use.

(15) Real and personal property used in the cultivation, manufacture, transport, testing, distribution, sale, and administration of marijuana for medical use or for activities otherwise in compliance with this section shall not be subject to asset forfeiture solely because of that use.

8. Severability.

The provisions of this section are severable, and if any clause, sentence, paragraph or section of this measure, or an application thereof, is adjudged invalid by any court of competent jurisdiction, the other provisions shall continue to be in effect to the fullest extent possible.

[9. Effective Date.

The provisions of this section shall become effective on December 6, 2018.]

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (22-048)

Subject

Initiative petition from Eric McSwain regarding a proposed constitutional amendment to Article XIV of the Constitution of Missouri. (Received July 15, 2021)

Date

August 4, 2021

Description

This proposal would amend Article XIV of the Constitution of Missouri.

The amendment is to be voted on in November 2022.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education and Workforce Development,** the **Department of Health and Senior Services,** the **Department of Commerce and Insurance,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College, University of Central Missouri, Harris-Stowe State University, Lincoln University, Missouri State University, Missouri Southern State University, Missouri Western State University, Northwest Missouri State University, Southeast Missouri State University, Truman State University, Missouri Veterans**

Commission, Missouri Office of Prosecution Services, the **Kansas City Board of Police Commissioners,** and the **Metropolitan Police Department - City of St. Louis.**

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, they expect that their office could absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, their office may be required to request additional appropriations.

Officials from the **Department of Agriculture** indicated this petition should not have a fiscal impact on their department.

Officials from the **Department of Economic Development** indicated no impact to their department.

Officials from the **Department of Elementary and Secondary Education** indicated no impact to their department.

Officials from the **Department of Higher Education and Workforce Development** indicated no impact to their department.

Officials from the **Department of Health and Senior Services** indicated:

The initiative petition (IP) makes changes to Section 1 of Article XIV. Some changes would require revising existing rules. Their department anticipates being able to absorb these costs. However, until the fiscal year (FY) 2023 budget is final, their department cannot identify specific funding sources.

The proposed legislation could result in 166 additional full time employees (FTE). 83 FTE will be located in Jefferson City for a total annual cost of $343,620 ($18 x 230 sq. ft. x 83).

The proposed legislation could create new small business opportunities in addition to costs associated with a new business in order to be in compliance with the legislation.

The reduction in state revenue will be $2,780,211 in SFY 2023 and $3,211,488 in SFY 2024.

Changes to Section 1 of Article XIV that would have fiscal impact on their department include:

Revenues

Section 1.3(12) reduces the annual fee for a patient cultivation card from $100 to $25. All other fees would remain the same.

FY 23: $35,075,151 (2,479 facility licenses annual fees) + $1,225,767 (389 facility licenses renewal fees) + $679,141 (184 new application fees) + $4,457,163 (173,432 patient, caregiver, and patient cultivation) + $708,897 (4,407 agent ID applications and change requests) + $8,305,978 (Revenues from Sales Tax)= $50,452,098.

FY 24*: $27,005,174 (1,909 facility licenses annual fees) + $124,233 (24 facility licenses renewal fees) + $181,173 (49 new application fees) + $5,148,589 (200,336 patient, caregiver, and patient cultivation) + $192,049 (1,190 agent ID applications and change requests) + $8,305,978 (Revenues from Sales Tax) = $40,957,197.

*FY24 facility revenues are reduced to reflect revocation of 619 facilities during Year 2.

The Division of Regulation and Licensure, Section for Medical Marijuana Regulation (DRL SMMR) does not anticipate an increase in medical marijuana sales based on an increase in medical marijuana facilities as the patient population would not increase because of this legislation; therefore, DRL SMMR does not anticipate an increase in tax revenue. There is a strong possibility that tax revenue would in fact decrease since oversupply would cause prices to go down. There is no state comparable to Missouri in both its qualifying conditions and the unlimited licensure proposed in this IP.

The new projected revenues related to patient cultivation applications are $926,737 ($3,706,948 less $2,780,211) for FY2023 and $1,070,496 ($4,281,984 less $3,211,488) for FY2024.

Section 1.3(15) – (17) are deleted, removing DHSS' authority to set limits on the number of licenses granted for medical marijuana facilities. This means their department would be required to license any entity that meets minimum standards for licensure, without regard for demand/supply considerations.

Based on an analysis performed in spring of 2021, their department estimates the fiscal impact of unlimited licensing in Missouri to be:

Expenses

Nine Compliance Inspection Supervisors with an annual salary of $68,500; supervision of approximately ten Compliance Inspectors each.

Eighty-three Compliance Inspectors with an annual salary of $55,105; eighty would be needed to maintain the inspection workload of twenty-seven facilities per compliance inspector and three will solely be dedicated to leading facility compliance investigations and revocation actions. The Compliance Inspectors are assumed telecommuters and are expected to travel extensively; it is assumed their travel costs will be $10,103 annually.

Four Regulatory Auditor Supervisors with an annual salary of $66,000; supervision of approximately ten Senior Regulatory Auditors.

Forty Senior Regulatory Auditors with an annual salary of $47,000; process edible product pre-approval applications, licensing review, and investigating business changes and complaints related to minimum licensure requirements.

Three Associate Research/Data Analysts with an annual salary of $47,000; track and trace compliance audits and investigations.

One Public Health Program Supervisor with an annual salary of $65,000; supervision of Public Health Program Associates.

Nine Public Health Program Associates with an annual salary of $38,000; process agent ID and patient applications, customer service telephone calls and email requests.

Eight Special Assistant/Professionals with an annual salary of $55,000; budgetary oversight, public communication via the webpage and educational materials, internal and external training, contract management, special project coordination, reports, and strategic planning.

Nine Lead Administrative Support Assistants with an annual salary of $41,000; provide support for the additional staff.

A new workflow management system solution will be required to process, document, and manage compliance and enforcement actions related to the licensees. This type of system is comparable in complexity and availability to one of the systems already utilized via contract for the medical marijuana program. Using that system as a basis for projecting, the new workflow management system would cause a yearly expense of $548,427.

With these changes, total projected operating costs for FY 23 would be $29,989,268 and for FY 24 is $30,043,030. Costs to implement the current IP would be $805,381 in initial costs and $16,055,740 in ongoing annual costs by FY 24.

Section 1.4(2)(a) reduces the portion of the Veterans' Health and Care Fund available to DHSS for administering the medical marijuana program from "an amount necessary for the department to carry out this section" to "an amount not to exceed twenty percent of net deposits which is necessary for the department to carry out this section."

Conclusion

The IP would result in operating costs exceeding funds available (per Section 1.4(2)(a) discussed above) from the Veteran's Health and Care Fund as follows:

Total revenues for the Fund in FY2023 are estimated to be $50,452,098. Twenty percent of total revenues is estimated at $10,090,420. With the changes plus all other operating cost they already have, the medical marijuana program's operating costs would be

$29,989,268. This would create a budget shortfall of approximately $19,807,848 for FY2023, which would require GR pickup to continue the operations of the program.

Total revenues for the Fund in FY2024 is estimated to be $40,957,197. Twenty percent of that is $8,191,439. With the changes, the medical marijuana program's operating costs are $30,043,030. This would create a budget shortfall of approximately $21,851,591 for FY2024 and would require GR pickup to continue the operations of the program.

Their department would seek appropriation from General Revenue to cover the operating costs not covered by the Veteran's Health and Care Fund.

They also provided the following information:

Officials from the **Department of Commerce and Insurance** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact. However, the impact on the demand for substance use disorder treatment is unknown. Their department sees the legalization of marijuana as a broader public health issue, especially for children.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no fiscal impact.

Officials from the **Department of Labor and Industrial Relations** indicated they anticipate no fiscal impact for this initiative petition proposing to amend Article XIV.

Officials from the **Department of Revenue** indicated:

This is an initiative petition that would go to the vote of the people at the November 2022 general election. If this is not adopted by the people, this would not have a fiscal impact.

Should this be adopted at the November 2022 election, by the time certification of the election occurs, it is assumed this constitutional amendment would have a January 1, 2023 effective date.

Section A
This proposal states that this constitutional amendment is revising the existing Article XIV regarding medical marijuana use.

Section 1 Medical Marijuana Laws
The existing medical marijuana laws are modified to change the definition of marijuana and to expand the number of primary caregivers a person may have. Additionally it changes the requirements that allow medical marijuana patients to cultivate their own marijuana plants by increasing the number of plants they can cultivate. By increasing the number of plants that can be grown by an individual, it may reduce the amount of medical marijuana sold at a licensed facility.

Currently the number of medical marijuana facilities that can be licensed is limited. This proposal removes those limits. Removing the limits and increasing the number of facilities could potentially increase the amount of medical marijuana tax revenue collected.

Their department is unable to determine if these changes will positively or negatively impact the amount of tax collected under the medical marijuana laws.

For informational purposes, medical marijuana has a tax of 8.225% that is distributed as:

Missouri Veterans Health Care Fund (4%)
General Revenue (3%)
School Districts Trust Fund (1%)
Conservation Commission 0.125%)
Parks, Soil & Water (0.1%)

Officials from the **Department of Public Safety - Office of Director** indicated the Missouri Veterans Commission has addressed their fiscal concerns in a separate response to the State Auditor's Office. They indicated there is no impact for the Department of Public Safety, Director's Office.

Officials from the **Department of Social Services** indicated this will have no fiscal impact for their department.

Officials from the **Governor's office** indicated this proposal establishes new constitutional regulations relating to the sale of cannabis and should not fiscally impact their office.

Officials from the **House of Representatives** indicated no fiscal impact.

Officials from the **Department of Conservation** indicated there is no anticipated fiscal impact (cost or savings) to their department associated with this proposal.

Officials from the **Department of Transportation** indicated this initiative petition should not have a fiscal impact to their department/Missouri Highway and Transportation Commission. It does not mention expungement of marijuana related convictions.

Officials from the **Office of Administration** indicated Article XIV, Section 1.3(1)(h) and (15-17) are removed which would eliminate the Department of Heath of Senior Services (DHSS)-imposed facility license caps likely resulting in an increase in total state revenue (TSR) from additional facilities applying for licensure. Article XIV, Section 1.3(12) would reduce the annual cultivation fee from $100 per year to $25 per year. Article XIV, Section 1.4(2)(a) would limit the amount of funds to be kept by the Department of Health and Senior Services (DHSS) for the administration of the medical marijuana program to 20% of net deposits into the Veterans Health and Care Fund. The language is unclear as to what constitutes net deposits. Budget and Planning (B&P) defers to DHSS for an impact on these provisions.

B&P notes that medical marijuana facilities are charged the following fees under Article XIV, however the annual fees have been increased by DHSS since inception as permitted:

- medical marijuana cultivation facility: $5,000 application fee and $25,000 annual fee ($25,933.05 for FY 22)
- medical marijuana dispensary facility: $3,000 application fee and $10,000 annual fee ($10,373.22 for FY 22)

- medical marijuana infused-products manufacturing facility: $3,000 application fee and $10,000 annual fee ($10,373.22 for FY 22).

Article XIV Section 1.3(2)(h) requires that all medical marijuana employees, owners, officers, and other individuals affiliated with the business to undergo a fingerprint-based criminal background check. The removal of the license caps on medical marijuana facilities may increase the number of individuals needing these checks. The Missouri State Highway Patrol (MSHP) Criminal Justice Information Services (CJIS) Division processes all state and federal fingerprint background checks. The CJIS has the following fee structure for background checks:

State fee:	$20.00
Vendor Fee:	$8.50
FBI fee:	$13.25
Total fees:	$41.75

The state retains the $20 state fee and $2 of the FBI fee ($22 total retained by the state). All fees collected will be deposited in the MSHP Criminal Records System Fund. MSHP verified that over 90% of background checks are conducted using third party vendor, IDEMIA, who charges the applicant an $8.50 fee which is kept by IDEMIA. The applicant pays the full fee of $41.75 to the vendor and MSHP then collects the full state and FBI fees ($33.25) from the vendor each month. The FBI bills MSHP monthly, and MSHP pays the FBI their portion of the FBI fee out of the MSHP Criminal Records System Fund.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be $7 million based on the cost of the 2020 Presidential Preference Primary.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Funding for this item is adjusted each year depending upon the election cycle. A new decision item is requested in odd numbered fiscal years and the amount requested is dependent upon the estimated number of ballot

measures that will be approved by the General Assembly and the initiative petitions certified for the ballot. In FY 2014, the General Assembly changed the appropriation so that it was no longer an estimated appropriation.

In FY19, over $5.8 million was spent to publish the full text of the measures for the August and November elections. Their office estimates $75,000 per page for the costs of publications based on the actual cost incurred for the one referendum that was on the August 2018 ballot.

Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated no fiscal impact on their office.

Officials from the **State Treasurer's office** indicated there is a tax and a variety of fees imposed in this petition. Once in operation, marijuana businesses have had difficulties obtaining and maintaining bank accounts due Federal law and regulations. Their office and the Department of Revenue have explored options to handle large amounts of cash from licensed marijuana businesses as the Department of Revenue may see many of these taxes paid in cash. Changes in security measures and collection points may be needed as the Department of Revenue, the Department of Health and Senior Services, and the Department of Labor and Industrial Relations do not currently receive large amounts of cash.

The changes in this initiative petition may increase the potential amount of receipts in cash.

They are unable to determine the fiscal impact to their office.

Officials from **Clay County** indicated they estimate no fiscal impact as a result of this initiative petition.

Officials from **Greene County** indicated there is anticipated costs to the County of Greene for this initiative petition. To help better fully understand the fiscal impact would require a very detailed study to give the best opportunity to understand the impact to law enforcement, prosecutors, and the circuit courts within the proposed changes of this initiative petition if the statute is not followed by the qualifying patient growing more than the allowed 50 square feet of canopy growing space.

Officials from **St. Louis County** indicated the fiscal impact, if any, is too remote or indirect to calculate.

Officials from the **City of Kansas City** indicated this petition would have no fiscal impact on their city.

Officials from **Metropolitan Community College** indicated no fiscal impact to their college.

Officials from the **Missouri Veterans Commission** indicated the following:

Michael L. Parson
Governor

Paul Kirchhoff
Executive Director

MISSOURI VETERANS COMMISSION

205 Jefferson Street, P.O. Drawer 147, Jefferson City, MO 65102-0147
Telephone: (573) 751-3779 www.mvc.dps.mo.gov Fax: (573) 751-6836

July 15, 2021

The Honorable John R. Ashcroft
Secretary of State
600 W. Main Street
Jefferson City, MO 65101

Dear Secretary of State Ashcroft,

Initiative Petition 2022-048 (hereinafter, the Petition) will have a disastrous fiscal impact upon the Missouri Veterans Commission. Under the existing medical marijuana program (Article XIV of the Missouri Constitution), we anticipate receiving $2,529,753 in FY22 and $2,929,271 in FY23 from the tax revenues generated from the retail sales of medical marijuana. The Petition makes significant changes to that program which would adversely impact the Commission.

Specifically, the existing medical marijuana program establishes a 4% tax on all retail sales of medical marijuana and allocates to the Commission all of those proceeds minus 5% to the Department of Revenue and an amount to the Department of Health and Senior Services necessary to defray their costs in regulating the program. The Petition makes no changes to this arrangement. However, the Petition proposes a significant change to paragraph 3(12) to dramtically expand the rights of patients to cultivate their own marijuana which is not subject to taxation. Therefore, should the Petition become law, we anticipate a significant decrease in tax revenues allocated to the Commission through the Veterans Health and Care Fund.

In closing, Initiative Petition 2022-048 will adversely impact the ability of the Missouri Veterans Commission to serve the veterans of Missouri for the reasons set forth above. If I can be of any further assistance on this issue, please contact me at (573) 522-4224 at your convenience.

Sincerely,

Scotty L. Allen
General Counsel
Missouri Veterans Commission

Fiscal Note Summary

State governmental entities estimate initial costs of $800,000, ongoing costs of $16 million annually by 2024, and an unknown reduction in revenues that could be significant totaling at least $3 million annually by 2024. Local governments estimate no costs or savings.

Jefferson City, MO 65101

RE: Petition approval request from Eric McSwain regarding a proposed constitutional amendment to Articles XIV and XIX, version 2 (2022-047)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Eric McSwain on July 15, 2021.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Section A. Article XIV of the Constitution is revised by amending Section 1, and adopting one new section to be known as Article XIX, Section 2 to read as follows:

Section 1. 1. Purposes.

This section is intended to permit state-licensed physicians to recommend marijuana for medical purposes to patients with serious illnesses and medical conditions. The section allows patients with qualifying medical conditions the right to discuss freely with their physicians the possible benefits of medical marijuana use, the right of their physicians to provide professional advice concerning the same, and the right to use medical marijuana for treatment under the supervision of a physician.

This section is intended to make only those changes to Missouri laws that are necessary to protect patients, their primary caregivers, and their physicians from civil and criminal penalties, and to allow for the [limited] legal production, distribution, sale and purchase of marijuana for medical use. This section is not intended to change current civil and criminal laws governing the use of marijuana for nonmedical purposes. The section does not allow for the public use of marijuana and driving under the influence of marijuana.

2. Definitions.

(1) "Administer" means the direct application of marijuana to a qualifying patient by way of any of the following methods:

(a) Ingestion of capsules, teas, oils, and other marijuana-infused products;

(b) Vaporization or smoking of dried flowers, buds, plant material, extracts, or oils;

(c) Application of ointments or balms;

(d) Transdermal patches and suppositories;

(e) Consuming marijuana-infused food products; or

(f) Any other method recommended by a qualifying patient's physician.

(2) "Department" means the department of health and senior services, or its successor agency.

(3) "Entity" means a natural person, corporation, professional corporation, nonprofit corporation, cooperative corporation, unincorporated association, business trust, limited liability company, general or limited partnership, limited liability partnership, joint venture, or any other legal entity.

(4) "Flowering plant" means a marijuana plant from the time it exhibits the first signs of sexual maturity through harvest.

(5) "Marijuana" or "marihuana" means *Cannabis indica*, *Cannabis sativa*, and *Cannabis ruderalis*, hybrids of such species, and any other strains commonly understood within the scientific community to constitute marijuana, as well as resin extracted from the plant and marijuana-infused products. "Marijuana" or "marihuana" do not include industrial hemp [containing a cropwide average tetrahydrocannabinol concentration that does not exceed three-tenths of one percent on a dry weight basis] <u>as defined by federal law</u>, or commodities or products manufactured from industrial hemp <u>as defined by federal law</u>.

(6) "Marijuana-infused products" means products that are infused with marijuana or an extract thereof and are intended for use or consumption other than by smoking, including, but not limited to, edible products, ointments, tinctures and concentrates.

(7) "Medical marijuana cultivation facility" means a facility licensed by the department to acquire, cultivate, process, store, transport, and sell marijuana to a medical marijuana dispensary facility, medical marijuana testing facility, or to a medical marijuana-infused products manufacturing facility.

(8) "Medical marijuana dispensary facility" means a facility licensed by the department to acquire, store, sell, transport, and deliver marijuana, marijuana-infused products, and drug paraphernalia used to administer marijuana as provided for in this section to a qualifying patient, a primary caregiver, another medical marijuana dispensary facility, a medical marijuana testing facility, or a medical marijuana-infused products manufacturing facility.

(9) "Medical marijuana-infused products manufacturing facility" means a facility licensed by the department to acquire, store, manufacture, transport, and sell marijuana-infused products to a medical marijuana dispensary facility, a medical marijuana testing facility, or to another medical marijuana-infused products manufacturing facility.

(10) "Medical marijuana testing facility" means a facility certified by the department to acquire, test, certify, and transport marijuana.

(11) "Medical use" means the production, possession, delivery, distribution, transportation, or administration of marijuana or a marijuana-infused product, or drug paraphernalia used to administer marijuana or a marijuana-infused product, for the benefit of a qualifying patient to mitigate the symptoms or effects of the patient's qualifying medical condition.

(12) "Physician" means an individual who is licensed and in good standing to practice medicine or osteopathy under Missouri law.

(13) "Physician certification" means a document, whether handwritten, electronic or in another commonly used format, signed by a physician and stating that, in the physician's professional opinion, the patient suffers from a qualifying medical condition.

(14) "Primary caregiver" means an individual twenty-one years of age or older who has significant responsibility for managing the well-being of a qualifying patient and who is designated as such on the primary caregiver's application for an identification card under this section or in other written notification to the department. Any health care provider licensed under the laws of the state may also serve as a primary caregiver. A qualifying patient may have up to three primary caregivers.

(15) "Qualifying medical condition" means the condition of, symptoms related to, or side-effects from the treatment of:

(a) Cancer;

(b) Epilepsy;

(c) Glaucoma;

(d) Intractable migraines unresponsive to other treatment;

(e) A chronic medical condition that causes severe, persistent pain or persistent muscle spasms, including but not limited to those associated with multiple sclerosis, seizures, Parkinson's disease, and Tourette's syndrome;

(f) Debilitating psychiatric disorders, including, but not limited to, posttraumatic stress disorder, if diagnosed by a state licensed psychiatrist;

(g) Human immunodeficiency virus or acquired immune deficiency syndrome;

(h) A chronic medical condition that is normally treated with a prescription medication that could lead to physical or psychological dependence, when a physician determines that medical use of marijuana could be effective in treating that condition and would serve as a safer alternative to the prescription medication;

(i) Any terminal illness; or

(j) In the professional judgment of a physician, any other chronic, debilitating or other medical condition, including, but not limited to, hepatitis C, amyotrophic lateral sclerosis, inflammatory

bowel disease, Crohn's disease, Huntington's disease, autism, neuropathies, sickle cell anemia, agitation of Alzheimer's disease, cachexia, and wasting syndrome.

(16) "Qualifying patient" means a Missouri resident diagnosed with at least one qualifying medical condition.

3. Creating Patient Access to Medical Marijuana.

(1) In carrying out the implementation of this section, the department shall have the authority to:

(a) Grant or refuse state licenses and certifications for the cultivation, manufacture, dispensing, sale, testing, tracking, and transportation of marijuana for medical use as provided by law; suspend, fine, restrict, or revoke such licenses and certifications upon a violation of this section or a rule promulgated pursuant to this section; and impose any administrative penalty authorized by this section or any rule promulgated pursuant to this section.

(b) Promulgate rules and emergency rules necessary for the proper regulation and control of the cultivation, manufacture, dispensing, and sale of marijuana for medical use and for the enforcement of this section so long as patient access is not restricted unreasonably and such rules are reasonably necessary for patient safety or to restrict access to only licensees and qualifying patients.

(c) Develop such forms, certificates, licenses, identification cards, and applications as are necessary for, or reasonably related to, the administration of this section or any of the rules promulgated under this section;

(d) Require a seed-to-sale tracking system that tracks medical marijuana from either the seed or immature plant stage until the medical marijuana or medical marijuana-infused product is sold to a qualifying patient or primary caregiver to ensure that no medical marijuana grown by a medical marijuana cultivation facility or manufactured by a medical marijuana-infused products manufacturing facility is sold or otherwise transferred except by a medical marijuana dispensary facility. The department shall certify, if possible, at least two commercially available systems to licensees as compliant with its tracking standards and issue standards for the creation or use of other systems by licensees.

(e) Issue standards for the secure transportation of marijuana and marijuana-infused products. The department shall certify entities which demonstrate compliance with its transportation standards to transport marijuana and marijuana-infused products to a medical marijuana cultivation facility, a medical marijuana-infused products manufacturing facility, a medical marijuana dispensary facility, a medical marijuana testing facility, or another entity with a transportation certification. The department shall develop or adopt from any other governmental agency such safety and security standards as are reasonably necessary for the transportation of marijuana. Any entity licensed or certified pursuant to this section shall be allowed to transport cannabis.

(f) The department may charge a fee not to exceed $5,000 for any certification issued pursuant to this section.

(g) Prepare and transmit annually a publicly available report accounting to the governor for the efficient discharge of all responsibilities assigned to the department under this section;

[(h) Establish a system to numerically score competing medical marijuana licensee and certificate applicants, only in cases where more applicants apply than the minimum number of licenses or certificates as calculated by this section, which scoring shall be limited to an analysis of the following:

(i) the character, veracity, background, qualifications, and relevant experience of principal officers or managers;

(ii) the business plan proposed by the applicant, which in the case of cultivation facilities and dispensaries shall include the ability to maintain an adequate supply of marijuana, plans to ensure safety and security of qualifying patients and the community, procedures to be used to prevent diversion, and any plan for making marijuana available to low-income qualifying patients;

(iii) site security;

(iv) experience in a legal cannabis market;

(v) in the case of medical marijuana testing facilities, the experience of their personnel with testing marijuana, food or drugs for toxins and/or potency and health care industry experience;

(vi) the potential for positive economic impact in the site community;

(vii) in the case of medical marijuana cultivation facilities, capacity or experience with agriculture, horticulture, and health care;

(viii) in the case of medical marijuana dispensary facilities, capacity or experience with health care, the suitability of the proposed location, and its accessibility for patients;

(ix) in the case of medical marijuana-infused products manufacturing facilities, capacity or experience with food and beverage manufacturing; and

(x) maintaining competitiveness in the marijuana for medical use marketplace.

In ranking applicants and awarding licenses and certificates, the department may consult or contract with other public agencies with relevant expertise regarding these factors. The department shall lift or ease any limit on the number of licensees or certificate holders in order to meet the demand for marijuana for medical use by qualifying patients.]

(2) The department shall issue any rules or emergency rules necessary for the implementation and enforcement of this section and to ensure the right to, availability, and safe use of marijuana for medical use by qualifying patients. In developing such rules or emergency rules, the department may consult with other public agencies. In addition to any other rules or emergency rules necessary to carry out the mandates of this section, the department may issue rules or emergency rules relating to the following subjects:

(a) Compliance with, enforcement of, or violation of any provision of this section or any rule issued pursuant to this section, including procedures and grounds for denying, suspending, fining, restricting, or revoking a state license or certification issued pursuant to this section;

(b) Specifications of duties of officers and employees of the department;

(c) Instructions or guidance for local authorities and law enforcement officers;

(d) Requirements for inspections, investigations, searches, seizures, and such additional enforcement activities as may become necessary from time to time;

(e) Creation of a range of administrative penalties for use by the department;

(f) Prohibition of misrepresentation and unfair practices;

(g) Control of informational and product displays on licensed premises provided that the rules may not prevent or unreasonably restrict appropriate signs on the property of the medical marijuana dispensary facility, product display and examination by the qualifying patient and/or primary caregiver, listings in business directories including phone books, listings in marijuana-related or medical publications, or the sponsorship of health or not for profit charity or advocacy events;

(h) Development of individual identification cards for owners, officers, managers, contractors, employees, and other support staff of entities licensed or certified pursuant to this section, including a fingerprint-based federal and state criminal record check in accordance with U.S. Public Law 92-544, or its successor provisions, as may be required by the department prior to issuing a card and procedures to ensure that cards for new applicants are issued within fourteen days. Applicants licensed pursuant to this section shall submit fingerprints to the Missouri state highway patrol for the purpose of conducting a state and federal fingerprint-based criminal background check. The Missouri state highway patrol, if necessary, [shall] <u>may</u> forward the fingerprints to the Federal Bureau of Investigation (FBI) for the purpose of conducting a

fingerprint-based criminal background check. Fingerprints shall be submitted pursuant to 43.543 and fees shall be paid pursuant to 43.530;

(i) Security requirements for any premises licensed or certified pursuant to this section, including, at a minimum, lighting, physical security, video, alarm requirements, and other minimum procedures for internal control as deemed necessary by the department to properly administer and enforce the provisions of this section, including reporting requirements for changes, alterations, or modifications to the premises;

(j) Regulation of the storage of, warehouses for, and transportation of marijuana for medical use;

(k) Sanitary requirements for, including, but not limited to, the preparation of medical marijuana-infused products;

(l) The specification of acceptable forms of picture identification that a medical marijuana dispensary facility may accept when verifying a sale;

(m) Labeling and packaging standards;

(n) Records to be kept by licensees and the required availability of the records;

(o) State licensing procedures, including procedures for renewals, reinstatements, initial licenses, and the payment of licensing fees;

(p) The reporting and transmittal of tax payments;

(q) Authorization for the department of revenue to have access to licensing information to ensure tax payment and the effective administration of this section; and

(r) Such other matters as are necessary for the fair, impartial, stringent, and comprehensive administration of this section.

(3) The department shall issue rules or emergency rules for a medical marijuana and medical marijuana-infused products independent testing and certification program for medical marijuana licensees and requiring licensees to test medical marijuana using one or more impartial, independent laboratories to ensure, at a minimum, that products sold for human consumption do not contain contaminants that are injurious to health, to ensure correct labeling and measure potency. The department shall not require any medical marijuana or medical marijuana-infused products to be tested more than once prior to sale.

(4) The department shall issue rules or emergency rules to provide for the certification of and standards for medical marijuana testing facilities, including the requirements for equipment and qualifications for personnel, but shall not require certificate holders to have any federal agency licensing or have any relationship with a federally licensed testing facility. The department shall certify, if possible, at least two entities as medical marijuana testing facilities. No medical marijuana testing facility shall be owned by an entity under substantially common control, ownership, or management as a medical marijuana cultivation facility, medical marijuana-infused product manufacturing facility, or medical marijuana dispensary facility.

(5) The department shall maintain the confidentiality of reports or other information obtained from an applicant or licensee containing any individualized data, information, or records related to the licensee or its operation, including sales information, financial records, tax returns, credit reports, cultivation information, testing results, and security information and plans, or revealing any patient information, or any other records that are exempt from public inspection pursuant to state or federal law. Such reports or other information may be used only for a purpose authorized by this section. Any information released related to patients may be used only for a purpose authorized by federal law and this section, including verifying that a person who presented a patient identification card to a state or local law enforcement official is lawfully in possession of such card.

(6) Within one hundred eighty days of December 6, 2018, the department shall make available to the public license application forms and application instructions for medical marijuana cultivation

facilities, medical marijuana testing facilities, medical marijuana dispensary facilities, and medical marijuana-infused products manufacturing facilities.

(7) Within one hundred eighty days of December 6, 2018, the department shall make available to the public application forms and application instructions for qualifying patient, qualifying patient cultivation, and primary caregiver identification cards. Within two hundred ten days of December 6, 2018, the department shall begin accepting applications for such identification cards.

(8) An entity may apply to the department for and obtain one or more licenses to grow marijuana as a medical marijuana cultivation facility. Each facility in operation shall require a separate license, but multiple licenses may be utilized in a single facility. Each indoor facility utilizing artificial lighting may be limited by the department to thirty thousand square feet of flowering plant canopy space. Each outdoor facility utilizing natural lighting may be limited by the department to two thousand eight hundred flowering plants. Each greenhouse facility using a combination of natural and artificial lighting may be limited by the department, at the election of the licensee, to two thousand eight hundred flowering plants or thirty thousand square feet of flowering plant canopy. The license shall be valid for three years from its date of issuance and shall be renewable, except for good cause. The department shall charge each applicant a nonrefundable fee of ten thousand dollars per license application or renewal for all applicants filing an application within three years of December 6, 2018, and shall charge each applicant a nonrefundable fee of five thousand dollars per license application or renewal thereafter. Once granted, the department shall charge each licensee an annual fee of twenty-five thousand dollars per facility license. Application and license fees shall be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency. No more than three medical marijuana cultivation facility licenses shall be issued to any entity under substantially common control, ownership, or management.

(9) An entity may apply to the department for and obtain one or more licenses to operate a medical marijuana dispensary facility. Each facility in operation shall require a separate license. A license shall be valid for three years from its date of issuance and shall be renewable, except for good cause. The department shall charge each applicant a nonrefundable fee of six thousand dollars per license application or renewal for each applicant filing an application within three years of December 6, 2018, and shall charge each applicant a nonrefundable fee of three thousand dollars per license application or renewal thereafter. Once granted, the department shall charge each licensee an annual fee of ten thousand dollars per facility license. Application and license fees shall be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency. No more than five medical marijuana dispensary facility licenses shall be issued to any entity under substantially common control, ownership, or management.

(10) An entity may apply to the department for and obtain one or more licenses to operate a medical marijuana-infused products manufacturing facility. Each facility in operation shall require a separate license. A license shall be valid for three years from its date of issuance and shall be renewable, except for good cause. The department shall charge each applicant a nonrefundable fee of six thousand dollars per license application or renewal for each applicant filing an application within three years of December 6, 2018, and shall charge each applicant a nonrefundable fee of three thousand dollars per license application or renewal thereafter. Once granted, the department shall charge each licensee an annual fee of ten thousand dollars per facility license. Application and license fees shall be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency. No more than three medical marijuana-infused products manufacturing facility licenses shall be issued to any entity under substantially common control, ownership, or management.

(11) Any applicant for a license authorized by this section may prefile their application fee with the department beginning 30 days after December 6, 2018.

(12) Except for good cause, a qualifying patient or his or her primary caregiver may obtain an identification card from the department to cultivate up to [six flowering marijuana plants] <u>fifty square feet of canopy space</u> for the [exclusive use] <u>benefit</u> of that qualifying patient. The card shall

be valid for twelve months from its date of issuance and shall be renewable with the annual submittal of a new or updated physician's certification. The department shall charge an annual fee for the card of [one hundred] twenty-five dollars, with such rate to be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency. In no case shall any qualifying patient cultivate more than fifty square feet of canopy space regardless of the number of primary caregivers assigned to said qualifying patient.

(13) The department may set a limit on the amount of marijuana that may be purchased by or on behalf of a single qualifying patient in a thirty-day period, provided that limit is not less than four ounces of dried, unprocessed marijuana, or its equivalent. Any such limit shall not apply to a qualifying patient with written certification from two independent physicians that there are compelling reasons why the qualifying patient needs a greater amount than the limit established by the department.

(14) The department may set a limit on the amount of marijuana that may be possessed by or on behalf of each qualifying patient, provided that limit is not less than a sixty-day supply of dried, unprocessed marijuana, or its equivalent. A primary caregiver may possess a separate legal limit for each qualifying patient under their care and a separate legal limit for themselves if they are a qualifying patient. In no case shall the total amount of medical marijuana attributed to a single qualifying patient in the possession of multiple primary caregivers exceed the limit set by the department. Qualifying patients cultivating marijuana for medical use may possess up to a [ninety-day] one year supply, so long as the supply remains secured on property under their control. Any such limit shall not apply to a qualifying patient with written certification from two independent physicians that there are compelling reasons for additional amounts. Possession of between the legal limit and up to twice the legal limit shall subject the possessor to department sanctions, including an administrative penalty and loss of their patient identification card for up to a year. Purposefully possessing amounts in excess of twice the legal limit shall be punishable by [imprisonment of up to one year and] a fine of up to two thousand dollars.

[(15) The department may restrict the aggregate number of licenses granted for medical marijuana cultivation facilities, provided, however, that the number may not be limited to fewer than one license per every one hundred thousand inhabitants, or any portion thereof, of the state of Missouri, according to the most recent census of the United States. A decrease in the number of inhabitants in the state of Missouri shall have no impact.

(16) The department may restrict the aggregate number of licenses granted for marijuana-infused products manufacturing facilities, provided, however, that the number may not be limited to fewer than one license per every seventy thousand inhabitants, or any portion thereof, of the state of Missouri, according to the most recent census of the United States. A decrease in the number of inhabitants in the state of Missouri shall have no impact.

(17) The department may restrict the aggregate number of licenses granted for medical marijuana dispensary facilities, provided, however, that the number may not be limited to fewer than twenty-four licenses in each United States congressional district in the state of Missouri pursuant to the map of each of the eight congressional districts as drawn and effective on December 6, 2018. Future changes to the boundaries of or the number of congressional districts shall have no impact.]

(18) The department shall begin accepting license and certification applications for medical marijuana dispensary facilities, medical marijuana testing facilities, medical marijuana cultivation facilities, medical marijuana-infused products manufacturing facilities, seed-to-sale tracking systems, and for transportation of marijuana no later than two hundred forty days after December 6, 2018. Applications for licenses and certifications under this section shall be approved or denied by the department no later than one hundred fifty days after their submission. If the department fails to carry out its nondiscretionary duty to approve or deny an application within one hundred fifty days of submission, an applicant may immediately seek a court order compelling the department to approve or deny the application.

(19) Qualifying patients under this section shall obtain and annually renew an identification card or cards from the department. The department shall charge a fee of twenty-five dollars per year per card with such fee to be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor

index as published by the U.S. Department of Labor or its successor agency. Upon receiving an application for a qualifying patient identification card or qualifying patient cultivation identification card, the department shall, within thirty days, either issue the card or provide a written explanation for its denial. If the department fails to deny and fails to issue a card to an eligible qualifying patient within thirty days, then their physician certification shall serve as their qualifying patient identification card or qualifying patient cultivation identification card for up to one year from the date of physician certification. All initial applications for or renewals of a qualifying patient identification card or qualifying patient cultivation identification card shall be accompanied by a physician certification that is less than thirty days old.

(20) Primary caregivers under this section shall obtain and annually renew an identification card from the department. The department shall charge a fee of twenty-five dollars per year, with such fee to be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency. Upon receiving an application for a primary caregiver identification card, the department shall, within thirty days, either issue the card or provide a written explanation for its denial.

(21) All marijuana for medical use sold in Missouri shall be cultivated in a licensed medical marijuana cultivation facility located in Missouri.

(22) All marijuana-infused products for medical use sold in the state of Missouri shall be manufactured in a medical marijuana-infused products manufacturing facility.

(23) The denial of a license, license renewal, or identification card by the department shall be appealable to the administrative hearing commission, or its successor entity. Following the exhaustion of administrative review, denial of a license, license renewal, or identification card by the department shall be subject to judicial review as provided by law.

(24) No elected official shall interfere directly or indirectly with the department's obligations and activities under this section.

(25) The department shall not have the authority to apply or enforce any rule or regulation that would impose an undue burden on any one or more licensees or certificate holders, any qualifying patients, or act to undermine the purposes of this section.

4. Taxation and Reporting.

(1) A tax is levied upon the retail sale of marijuana for medical use sold at medical marijuana dispensary facilities within the state. The tax shall be at a rate of four percent of the retail price. The tax shall be collected by each licensed medical marijuana dispensary facility and paid to the department of revenue. After retaining no more than five percent for its actual collection costs, amounts generated by the tax levied in this section shall be deposited by the department of revenue into the Missouri veterans' health and care fund. Licensed entities making retail sales within the state shall be allowed approved credit for returns provided the tax was paid on the returned item and the purchaser was given the refund or credit.

(2) There is hereby created in the state treasury the "Missouri Veterans' Health and Care Fund", which shall consist of taxes and fees collected under this section. The state treasurer shall be custodian of the fund, and he or she shall invest monies in the fund in the same manner as other funds are invested. Any interest and monies earned on such investments shall be credited to the fund. Notwithstanding any other provision of law, any monies remaining in the fund at the end of a biennium shall not revert to the credit of the general revenue fund. The commissioner of administration is authorized to make cash operating transfers to the fund for purposes of meeting the cash requirements of the department in advance of it receiving annual application, licensing, and tax revenue, with any such transfers to be repaid as provided by law. The fund shall be a dedicated fund and shall stand appropriated without further legislative action as follows:

(a) First, to the department, an amount not to exceed twenty percent of net deposits which is necessary for the department to carry out this section, including repayment of any cash operating transfers, payments made through contract or agreement with other state and public agencies

necessary to carry out this section, and a reserve fund to maintain a reasonable working cash balance for the purpose of carrying out this section;

(b) Next, the remainder of such funds shall be transferred to the Missouri veterans commission for health and care services for military veterans, including the following purposes: operations, maintenance and capital improvements of the Missouri veterans homes, the Missouri service officer's program, and other services for veterans approved by the commission, including, but not limited to, health care services, mental health services, drug rehabilitation services, housing assistance, job training, tuition assistance, and housing assistance to prevent homelessness. The Missouri veterans commission shall contract with other public agencies for the delivery of services beyond its expertise.

(c) All monies from the taxes authorized under this subsection shall provide additional dedicated funding for the purposes enumerated above and shall not replace existing dedicated funding.

(3) For all retail sales of marijuana for medical use, a record shall be kept by the seller which identifies, by secure and encrypted patient number issued by the seller to the qualifying patient involved in the sale, all amounts and types of marijuana involved in the sale and the total amount of money involved in the sale, including itemizations, taxes collected and grand total sale amounts. All such records shall be kept on the premises in a readily available format and be made available for review by the department and the department of revenue upon request. Such records shall be retained for five years from the date of the sale.

(4) The tax levied pursuant to this subsection is separate from, and in addition to, any general state and local sales and use taxes that apply to retail sales, which shall continue to be collected and distributed as provided by general law.

(5) Except as authorized in this subsection, no additional taxes shall be imposed on the sale of marijuana for medical use.

(6) The fees and taxes provided for in this Article XIV, Section 1 shall be fully enforceable notwithstanding any other provision in this Constitution purportedly prohibiting or restricting the taxes and fees provided for herein.

(7) The unexpended balance existing in the fund shall be exempt from the provisions of section 33.080 relating to the transfer of unexpended balances to the general revenue fund.

5. Additional Patient, Physician, Caregiver and Provider Protections.

(1) Except as provided in this section, the possession of marijuana in quantities less than the limits of this section, or established by the department, and transportation of marijuana from a medical marijuana dispensary facility to the qualifying patient's residence shall not subject the possessor to arrest, criminal or civil liability, or sanctions under Missouri law, provided that the possessor produces on demand to the appropriate authority a valid qualifying patient identification card; a valid qualifying patient cultivation identification card; a valid physician certification while making application for an identification card; or a valid primary caregiver identification card. Production of the respective equivalent identification card or authorization issued by another state or political subdivision of another state shall also meet the requirements of this subdivision.

(2) No patient shall be denied access to or priority for an organ transplant because they hold a qualifying patient identification card or use marijuana for medical use.

(3) A physician shall not be subject to criminal or civil liability or sanctions under Missouri law or discipline by the Missouri state board of registration for the healing arts, or its successor agency, for owning, operating, investing in, being employed by, or contracting with any entity licensed or certified pursuant to this section or issuing a physician certification to a patient diagnosed with a qualifying medical condition in a manner consistent with this section and legal standards of professional conduct.

(4) A health care provider, including individuals licensed under chapter 335 or 337 or their successor statutes, shall not be subject to civil or criminal prosecution under Missouri law, denial of any right or privilege, civil or administrative penalty or sanction, or disciplinary action by any

accreditation or licensing board or commission for owning, operating, investing in, being employed by, or contracting with any entity licensed or certified pursuant to this section or providing health care services that involve the medical use of marijuana consistent with this section and legal standards of professional conduct.

(5) A medical marijuana testing facility shall not be subject to civil or criminal prosecution under Missouri law, denial of any right or privilege, civil or administrative penalty or sanction, or disciplinary action by any accreditation or licensing board or commission for providing laboratory testing services that relate to the medical use of marijuana consistent with this section and otherwise meeting legal standards of professional conduct.

(6) A health care provider shall not be subject to mandatory reporting requirements for the medical use of marijuana by nonemancipated qualifying patients under eighteen years of age in a manner consistent with this section and with consent of a parent or guardian.

(7) A primary caregiver shall not be subject to criminal or civil liability or sanctions under Missouri law for purchasing, transporting, or administering marijuana for medical use to a qualifying patient or participating in the patient cultivation [of up to six flowering marijuana plants per patient] in a manner consistent with this section and generally established legal standards of personal or professional conduct.

(8) An attorney shall not be subject to disciplinary action by the state bar association or other professional licensing body for owning, operating, investing in, being employed by, contracting with, or providing legal assistance to prospective or licensed medical marijuana testing facilities, medical marijuana cultivation facilities, medical marijuana dispensary facilities, medical marijuana-infused products manufacturing facilities, qualifying patients, primary caregivers, physicians, health care providers or others related to activity that is no longer subject to criminal penalties under state law pursuant to this section.

(9) Actions and conduct by qualifying patients, primary caregivers, medical marijuana testing facilities, medical marijuana cultivation facilities, medical marijuana-infused products manufacturing facilities, or medical marijuana dispensary facilities licensed or registered with the department, or their employees or agents, as permitted by this section and in compliance with department regulations and other standards of legal conduct, shall not be subject to criminal or civil liability or sanctions under Missouri law, except as provided for by this section.

(10) Nothing in this section shall provide immunity for negligence, either common law or statutorily created, nor criminal immunities for operating a vehicle, aircraft, dangerous device, or navigating a boat under the influence of marijuana.

(11) It is the public policy of the state of Missouri that contracts related to marijuana for medical use that are entered into by qualifying patients, primary caregivers, medical marijuana testing facilities, medical marijuana cultivation facilities, medical marijuana-infused products manufacturing facilities, or medical marijuana dispensary facilities and those who allow property to be used by those entities, should be enforceable. It is the public policy of the state of Missouri that no contract entered into by qualifying patients, primary caregivers, medical marijuana testing facilities, medical marijuana cultivation facilities, medical marijuana-infused products manufacturing facilities, or medical marijuana dispensary facilities, or by a person who allows property to be used for activities that are exempt from state criminal penalties by this section, shall be unenforceable on the basis that activities related to medical marijuana may be prohibited by federal law.

6. Legislation.

Nothing in this section shall limit the general assembly from enacting laws consistent with this section, or otherwise effectuating the patient rights of this section. The legislature shall not enact laws that hinder the right of qualifying patients to access marijuana for medical use as granted by this section.

7. Additional Provisions.

(1) Nothing in this section permits a person to:

(a) Consume marijuana for medical use in a jail or correctional facility;

(b) Undertake any task under the influence of marijuana when doing so would constitute negligence or professional malpractice; or

(c) Operate, navigate, or be in actual physical control of any dangerous device or motor vehicle, aircraft or motorboat while under the influence of marijuana; or

(d) Bring a claim against any employer, former employer, or prospective employer for wrongful discharge, discrimination, or any similar cause of action or remedy, based on the employer, former employer, or prospective employer prohibiting the employee, former employee, or prospective employee from being under the influence of marijuana while at work or disciplining the employee or former employee, up to and including termination from employment, for working or attempting to work while under the influence of marijuana.

(2) No medical marijuana cultivation facility, medical marijuana testing facility, medical marijuana dispensary facility, or medical marijuana-infused products manufacturing facility, or entity with a transportation certification shall be owned, in whole or in part, or have as an officer, director, board member, manager, or employee, any individual with a disqualifying felony offense. A "disqualifying felony offense" is a violation of, and conviction or guilty plea to, state or federal law that is, or would have been, a felony under Missouri law, regardless of the sentence imposed, unless the department determines that:

(a) The person's conviction was for the medical use of marijuana or assisting in the medical use of marijuana; or

(b) The person's conviction was for a nonviolent crime [for which he or she was not incarcerated and that is more than five years old]; or

(c) More than five years have passed since the person was released from parole or probation, and he or she has not been convicted of any subsequent criminal offenses.

The department may consult with and rely on the records, advice and recommendations of the attorney general and the department of public safety, or their successor entities, in applying this subdivision.

(3) All medical marijuana cultivation facility, medical marijuana dispensary facility, and medical marijuana-infused products manufacturing facility licenses, entities with medical marijuana testing facility certifications, and entities with transportation certifications shall be held by entities that are majority owned by natural persons who have been citizens of the state of Missouri for at least one year prior to the application for such license or certification. Notwithstanding the foregoing, entities outside the state of Missouri may own a minority stake in such entities.

(4) No medical marijuana cultivation facility, medical marijuana dispensary facility, or medical marijuana-infused products manufacturing facility shall manufacture, package or label marijuana or marijuana-infused products in a false or misleading manner. No person shall sell any product in a manner designed to cause confusion between a marijuana or marijuana-infused product and any product not containing marijuana. A violation of this subdivision shall be punishable by an appropriate and proportional department sanction, up to and including loss of license.

(5) All edible marijuana-infused products shall be sold in individual, child-resistant containers that are labeled with dosage amounts, instructions for use, and estimated length of effectiveness. All marijuana and marijuana-infused products shall be sold in containers clearly and conspicuously labeled, in a font size at least as large as the largest other font size used on the package, as containing "Marijuana", or a "Marijuana-Infused Product". Violation of this prohibition shall subject the violator to department sanctions, including an administrative penalty.

(6) No individual shall serve as the primary caregiver for more than [three] <u>ten</u> qualifying patients.

(7) No qualifying patient shall consume marijuana for medical use in a public place, unless provided by law. Violation of this prohibition shall subject the violator to sanctions as provided by general law.

(8) No person shall extract resins from marijuana using dangerous materials or combustible gases without a medical marijuana-infused products manufacturing facility license. Violation of this prohibition shall subject the violator to department sanctions, including an administrative penalty and, if applicable, loss of their identification card, certificate, or license for up to one year.

(9) All qualifying patient cultivation shall take place in an enclosed, locked facility that is equipped with security devices that permit access only by the qualifying patient or by such patient's primary caregiver. [Two qualifying] Qualifying patients and care givers, who [both] hold valid qualifying patient cultivation identification cards, may share one enclosed, locked facility. No shared facility may contain more than five thousand square feet of canopy space without obtaining a medical marijuana cultivation facility license. [No more than twelve qualifying patient or primary caregiver cultivated flowering marijuana plants may be cultivated in a single, enclosed locked facility, except when a primary caregiver also holds a qualifying patient cultivation identification card, in which case no more than eighteen flowering marijuana plants may be cultivated in a single, enclosed, locked facility.]

(10) No medical marijuana cultivation facility, medical marijuana dispensary facility, medical marijuana-infused products manufacturing facility, medical marijuana testing facility, or entity with a transportation certification shall assign, sell, give, lease, sublicense, or otherwise transfer its license or certificate to any other entity without the express consent of the department, not to be unreasonably withheld.

(11) Unless allowed by the local government, no new medical marijuana cultivation facility, medical marijuana testing facility, medical marijuana dispensary facility, or medical marijuana-infused products manufacturing facility shall be initially sited within one thousand feet of any then-existing elementary or secondary school, child day-care center, or church. No local government shall prohibit medical marijuana cultivation facilities, medical marijuana testing facilities, medical marijuana-infused products manufacturing facilities, or medical marijuana dispensary facilities, or entities with a transportation certification either expressly or through the enactment of ordinances or regulations that make their operation unduly burdensome in the jurisdiction. However, local governments may enact ordinances or regulations not in conflict with this section, or with regulations enacted pursuant to this section, governing the time, place, and manner of operation of such facilities in the locality. A local government may establish civil penalties for violation of an ordinance or regulations governing the time, place, and manner of operation of a medical marijuana cultivation facility, medical marijuana testing facility, medical marijuana-infused products manufacturing facility, medical marijuana dispensary facility, or entity holding a transportation certification that may operate in such locality.

(12) Unless superseded by federal law or an amendment to this Constitution, a physician shall not certify a qualifying condition for a patient by any means other than providing a physician certification for the patient, whether handwritten, electronic, or in another commonly used format. A qualifying patient must obtain a new physician certification at least annually.

(13) A physician shall not issue a certification for the medical use of marijuana for a nonemancipated qualifying patient under the age of eighteen without the written consent of the qualifying patient's parent or legal guardian. The department shall not issue a qualifying patient identification card on behalf of a nonemancipated qualifying patient under the age of eighteen without the written consent of the qualifying patient's parent or legal guardian. Such card shall be issued to one of the parents or guardians and not directly to the patient. [Only a parent or guardian may serve as a primary caregiver for a nonemancipated qualifying patient under the age of eighteen.] At least one of the primary caregivers for a nonemancipated qualifying patient under the age of eighteen must be a parent or legal guardian. Only the qualifying patient's [parent or guardian] primary caregiver shall purchase or possess medical marijuana for a nonemancipated qualifying patient under the age of eighteen. A [parent or guardian] primary caregiver shall supervise the administration of medical marijuana to a nonemancipated qualifying patient under the age of eighteen.

(14) Nothing in this section shall be construed as mandating health insurance coverage of medical marijuana for qualifying patient use.

(15) Real and personal property used in the cultivation, manufacture, transport, testing, distribution, sale, and administration of marijuana for medical use or for activities otherwise in compliance with this section shall not be subject to asset forfeiture solely because of that use.

8. Severability.

The provisions of this section are severable, and if any clause, sentence, paragraph or section of this measure, or an application thereof, is adjudged invalid by any court of competent jurisdiction, the other provisions shall continue to be in effect to the fullest extent possible.

[9. Effective Date.

The provisions of this section shall become effective on December 6, 2018.]

Section 2.

1. Purpose

This section is intended to permit the safe and legal use of cannabis by adults over the age of twenty-one and to reasonably regulate the cultivation, processing, manufacturing, and distribution of cannabis. The people of Missouri have a right to enjoy the benefits of their labor free from unreasonable regulation. This section creates a legal, regulated, and taxed cannabis industry so Missouri businesses can participate in the growing market, and the state can reduce the burden on the budget and criminal justice system caused by the prosecution and incarceration of non-violent cannabis possession and distribution.

This section is not intended to supplant the medical marijuana market. The medical marijuana market is a necessary and important part of many patients' treatment plans. Care guided by a health care provider is important when cannabis is used in an intensive and therapeutic manner.

This section is intended to make only those changes to Missouri laws that are necessary to protect consumers and businesses in the cannabis industry from civil and criminal penalties; and to allow for the responsible consumption of cannabis, combat illegal underage consumption of cannabis, and achieve other important state policy goals such as maintaining an orderly marketplace composed of state-licensed cannabis cultivators, manufacturers, transporters, hospitality establishments, and retailers. This section is not intended to allow for the unregulated public use of cannabis; the operation of any dangerous device or motor vehicle, aircraft or motorboat while under the influence of marijuana; the use of cannabis in the workplace; or the use of cannabis by persons under twenty-one years of age.

2. Definitions.

(1) "Adult use" means the production, possession, delivery, distribution, transportation, or ingestion of cannabis or a cannabis-infused product, or drug paraphernalia used to ingest cannabis or a cannabis-infused product, by a person over the age of twenty-one for purposes other than those provided for in Article XIV Section 1.

(2) "Cannabis" means *Cannabis indica, Cannabis sativa, and Cannabis ruderalis*, hybrids of such species, and any other strains commonly understood within the scientific community to constitute cannabis, hemp, or marijuana. "Cannabis" includes resin extracted from the plant and cannabis-infused products. "Cannabis" does not include industrial hemp as defined by Federal law or commodities or products manufactured from industrial hemp as defined by Federal law. "Cannabis" does not include parts of the plant that do not contain tetrahydrocannabinol (THC) or the soil or substrate in which the plants were grown.

(3) "Cannabis-infused products" means products that are infused with cannabis or an extract thereof and are intended for ingestion other than by smoking, including, but not limited to, edible products, ointments, tinctures and concentrates.

(4) "Cannabis cultivation facility" means a facility licensed by the division to acquire, cultivate, process, store, package, transport, and sell cannabis to or from a cannabis retail facility, cannabis testing facility, cannabis manufacturing facility, or another cannabis cultivation facility.

(5) “Cannabis hospitality facility” means a facility certified by the division to permit the consumption of cannabis by consumers or qualifying patients on the premises.

(6) "Cannabis manufacturing facility" means a facility licensed by the division to acquire, process, manufacture, produce, store, package, transport, and sell cannabis and paraphernalia used to ingest cannabis as provided for in this section to or from a cannabis retail facility, cannabis testing facility, cannabis cultivation facility, or another cannabis manufacturing facility.

(7) "Cannabis retail facility" means a facility licensed by the division to acquire, store, package, sell, transport, and deliver cannabis, cannabis-infused products, and paraphernalia used to ingest cannabis as provided for in this section to a consumer, and acquire, store, package, sell, transport, and deliver cannabis, cannabis-infused products, and paraphernalia used to ingest cannabis as provided for in this section to or from another cannabis retail facility, a cannabis testing facility, cannabis manufacturing facility, or a cannabis cultivation facility.

(8) "Cannabis testing facility" means a facility certified by the division or the division of health and senior services to acquire, test, certify, and transport cannabis.

(9) “Child-Resistant Packaging” means resealable packaging that is opaque and is designed or constructed to be significantly difficult for children under five years of age to open and not difficult for normal adults to use.

(10) “Consumer” means a natural person over the age of twenty-one.

(11) “Delivery” means the delivery of cannabis from a cannabis retail facility to a consumer.

(12) “Disqualifying felony” means any dangerous felony as defined by the laws of this state, but shall not include any felony which is based on the possession or distribution of cannabis unless such act included the distribution of cannabis to a person under the age of seventeen and more than two years younger than the person being charged.

(13) “Division” means the division of alcohol and tobacco control within the department of public safety, or its successor division.

(14) "Entity" means a natural person, corporation, professional corporation, nonprofit corporation, cooperative corporation, unincorporated association, business trust, limited liability company, general or limited partnership, limited liability partnership, joint venture, or any other legal entity.

(15) "Flowering plant" means a cannabis plant from the time it shows physical signs of flowering or budding out of the nodes of the stem through harvest.

(16) “Historically Marginalized Population” means African American and Hispanic populations.

(17) “Ingest” means any method of introducing cannabis or its chemical components into the human body including but not limited to:

(a) Ingestion of capsules, teas, oils, and other cannabis-infused products;

(b) Vaporization or smoking of dried flowers, buds, plant material, extracts, or oils;

(c) Application of ointments or balms;

(d) Transdermal patches and suppositories; or

(e) Consuming cannabis-infused food products.

(18) “Local Government” means a county, township, city, town, village, or municipality.

(19) “Transportation” means the movement of cannabis between licensed facilities. “Transportation” includes the delivery of cannabis to a cannabis retail facility but does not include delivery of cannabis directly to a consumer.

3. Regulation

In carrying out the implementation of this section, the division shall have the authority to:

(1) Grant or refuse state licenses and certifications for the cultivation, manufacture, dispensing, sale, testing, tracking, transportation, delivery, and hospitality of cannabis for adult use in accordance with this section; suspend, fine, restrict, or revoke such licenses and certifications upon a violation of this section or a rule promulgated pursuant to this section; and impose any administrative penalty authorized by this section or any rule promulgated pursuant to this section.

(2) Promulgate rules and emergency rules necessary for the proper regulation and control of the cultivation, manufacture, sale, transportation, and delivery of cannabis for adult use, and for the enforcement of this section, so long as access is not restricted unreasonably and such rules are reasonably necessary for consumer safety or to restrict access to only persons over twenty-one years of age. Such rules may include provisions related to:

(a) Compliance with, enforcement of, or violation of any provision of this section or any rule issued pursuant to this section, including procedures and grounds for denying, suspending, fining, restricting, or revoking a state license or certification issued pursuant to this section;

(b) Specifications of duties of officers and employees of the division;

(c) Instructions or guidance for local authorities and law enforcement officers;

(d) Requirements for inspections, investigations, searches, seizures, and such additional enforcement activities as may become necessary;

(e) Creation of a range of administrative penalties for use by the division;

(f) Prohibition of misrepresentation and unfair practices;

(g) Regulation of informational and product displays on licensed premises provided that the rules may not prevent or unreasonably restrict appropriate signs on the property of the cannabis retail facility, product display and examination by a consumer, listings in business directories including online directories and phone books, listings in cannabis-related publications and websites, or the sponsorship of health or not for profit charity or advocacy events;

(h) Development of identification cards for entities licensed or certified pursuant to this section, including a fingerprint-based criminal background check for owners, officers, and managers of such entities.

(i) Develop such forms, certificates, licenses, and applications, which may be provided in electronic or digital format, as are necessary for, or reasonably related to, the administration of this section or any of the rules promulgated under this section;

(j) Requirements for any entity licensed or certified by the division to create and follow security policies that prevent access to cannabis by any person under the age of twenty-one; prevent entry by any person not authorized by the division or the license holder into areas where cannabis is being cultivated, manufactured, or stored; and provide immediate notice to the entity or their designated agent of any attempt by a person to gain unauthorized or illegal access to cannabis or any area where cannabis is being cultivated, manufactured, or stored;

(k) Regulation of the storage of, warehouses for, and transportation of cannabis for adult use;

(l) Sanitary requirements for, including, but not limited to, the preparation of medical marijuana-infused products;

(m) The specification of acceptable forms of identification that a cannabis retail facility may accept when verifying a sale;

(n) Labeling and packaging standards that require child-resistant packaging provided that the rules may not unreasonably restrict branding and marketing information that is not misleading and is

designed to make a product recognizable and distinguish it from similar products sold by competitors;

(o) Records to be kept by licensees and the required availability of the records;

(p) State licensing procedures, including procedures for renewals, reinstatements, initial licenses, and the payment of licensing fees;

(q) The reporting and transmittal of tax payments;

(r) Authorization for the division of revenue to have access to licensing information to ensure tax payment and the effective administration of this section;

(s) Ensure an adequate supply of cannabis for medical use, including but not limited to regulations that require facilities to maintain an adequate supply of cannabis for medical use based on sales history and requiring contracts to supply cannabis for medical use to take precedence over contracts to supply cannabis for adult use; and

(t) Such other matters as are necessary for the fair, impartial, and comprehensive administration of this section.

(3) Require a seed-to-sale tracking system that tracks cannabis from either the seed or immature plant stage until the cannabis is sold to a consumer to ensure that no cannabis grown by a cannabis cultivation facility or manufactured by a cannabis manufacturing facility is sold or otherwise transferred to a consumer except by a cannabis retail facility or certified delivery entity. The division shall certify, if possible, at least two commercially available systems to licensees as compliant with its tracking standards and issue standards for the creation or use of other systems by licensees. The division may coordinate with the department of health and senior services to utilize the same seed to sale tracking system as is used to track marijuana for medical use;

(4) Prepare and transmit annually a publicly available report accounting to the governor for the efficient discharge of all responsibilities assigned to the division under this section.

(5) If the division fails to promulgate rules and issue licenses specific to cannabis for adult use prior to June 30, 2023, the rules and regulations for the licensing of alcoholic beverage manufacturing and sale shall apply to cannabis facilities wherever possible.

(6) The division shall not have the authority to apply or enforce any rule or regulation that would require additional fees for applicants, license holders, or certificate holders; impose an undue burden on any one or more licensees or certificate holders; create an undue burden on access to consumers; or act to undermine the purposes of this section. A rule or regulation shall be presumed to impose an undue burden if it imposes restrictions that are greater than those imposed on the manufacture and sale of alcoholic beverages.

4. Licensing

(1) Cannabis transportation and delivery certifications may be issued as follows. The division shall certify entities which demonstrate compliance with its transportation and delivery standards to transport or deliver cannabis. The division shall issue standards for the secure transportation and delivery of cannabis. The division may develop or adopt from any other governmental agency such safety and security standards as are reasonably necessary for the transportation and delivery of cannabis but shall not impose standards that make the transportation or delivery of cannabis impracticable. There shall be no additional fee for a cannabis cultivation facility, a cannabis manufacturing facility, or a cannabis retail facility to be certified for transportation or delivery.

(2) Cannabis testing certification and standards may be issued as follows. The division shall certify cannabis testing facilities which demonstrate compliance with its rules for independent testing and certification of cannabis. The division shall issue rules or emergency rules establishing standards for a cannabis independent testing and certification program for cannabis licensees and requiring licensees to test cannabis using one or more impartial, independent laboratories to ensure, at a minimum, that products sold for human consumption do not contain contaminants that are injurious to health, to ensure correct labeling and measure potency. However, the rules shall not

impose any requirements that make it impracticable for an otherwise qualified facility to obtain certification. The division shall not require any cannabis to be tested more than once prior to sale. No cannabis testing facility shall be owned by an entity under substantially common control, ownership, or management as a cannabis cultivation, manufacturing, or retail facility licensed under this section or a medical marijuana cultivation, manufacturing, or dispensary facility licensed under Article XIV section 1. Testing facilities licensed under Article XIV section 1 shall be automatically certified to test cannabis under the rules issued by the division for the testing of cannabis for adult use.

(3) Cannabis hospitality facility certification may be issued as follows. The division shall certify entities which demonstrate compliance with its hospitality standards to allow for the consumption of cannabis on its premises. The division shall issue standards for the safe consumption of cannabis at locations other than a private residence. The standards shall allow for the facility to sell or provide food and beverages, including alcoholic beverages. The division may develop or adopt from any other governmental agency such safety and security standards as are reasonably necessary for the safe consumption of cannabis at a location other than a private residence, but shall not impose standards that make the operation of a cannabis hospitality facility impracticable.

(4) Cannabis cultivation facility licenses may be issued as follows. An entity may apply to the division for and obtain one or more licenses to grow cannabis as a cannabis cultivation facility. Each facility in operation shall require a separate license, but multiple licenses may be utilized in a single location. Each facility may be limited by the division to not less than thirty thousand square feet of flowering plant canopy space. Facilities may choose to grow indoors using artificial light, outdoors, in a greenhouse utilizing a combination of artificial and natural light, or any combination of methods. The license shall be valid for one year from its date of issuance and shall be renewable, except for good cause. An entity currently licensed as a medical marijuana cultivation facility may also apply for a cannabis cultivation facility license at the same location.

(5) Cannabis manufacturing facility licenses may be issued as follows. An entity may apply to the division for and obtain one or more licenses to operate a cannabis manufacturing facility. Each facility in operation shall require a separate license. A license shall be valid for one year from its date of issuance and shall be renewable, except for good cause. An entity currently licensed as a medical marijuana manufacturing facility may also apply for a cannabis manufacturing facility license at the same location.

(6) Cannabis retail facility licenses may be issued as follows. An entity may apply to the division for and obtain one or more licenses to operate a cannabis retail facility. Each facility in operation shall require a separate license. A license shall be valid for one year from its date of issuance and shall be renewable, except for good cause. An entity currently licensed as a medical marijuana dispensary facility may also apply for a cannabis retail facility license at the same location.

(7) The division may charge an application or renewal fee for each license type not to exceed two thousand five hundred dollars. Application and renewal fees shall be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Division of Labor, or its successor agency. Applications re-submitted after a denial shall not be charged an additional application fee, but may be charged a fee of not more than five hundred dollars for a re-submitted application.

(8) The division may charge a certification and renewal fee for each certification type not to exceed one thousand dollars. Application and renewal fees shall be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Division of Labor, or its successor agency.

(9) An entity may apply for a reduced application or renewal fee. The division shall develop rules to determine the eligibility of an applicant for a reduced fee. The rules shall include consideration for entities:

(a) locating in an area that has an unemployment rate above the national average;

(b) locating in an area that has been designated as an Economic Disadvantaged Zone by the US Division of Commerce;

(c) owned and operated by individuals in protected classes;

(d) owned and operated by veterans;

(e) owned or operated by an entity that was previously denied a medical marijuana facility license based on application score; or

(f) any other factors that would promote the inclusion of small and locally owned businesses and individuals in historically marginalized groups.

(10) All owners, officers, managers, and employees of entities licensed or certified pursuant to this section, shall submit fingerprints to the Missouri state highway patrol for the purpose of conducting a fingerprint-based criminal background check. The Missouri state highway patrol, if necessary, may forward the fingerprints to the Federal Bureau of Investigation(FBI) for the purpose of conducting a fingerprint-based criminal background check. Fingerprints shall be submitted pursuant to 43.543 and fees shall be paid pursuant to 43.530. Notwithstanding the provisions of section 610.120, all records related to any criminal history information shall be available to the division. The criminal background check may be requested by the applicant or employer and performed up to ninety days prior to the submission of an application for license, certification, or employment.

(11) The division shall maintain the confidentiality of information obtained from an applicant or licensee containing any individualized data, information, or records related to the licensee or its operation, including sales information, financial records, tax returns, credit reports, cultivation information, testing results, and security information and plans, or revealing any customer information, or any other records that are exempt from public inspection pursuant to state or federal law. Such information may be used only for a purpose authorized by this section.

(12) The division shall begin accepting license and certification applications not later than August 1, 2023. In order to facilitate the initial costs of regulation, the division may accept application fees beginning January 15, 2023 and shall apply such fees to applications submitted after August 1, 2023. Applications for licenses and certifications under this section shall be approved or denied by the division no later than ninety days after their submission. If the division fails to carry out its nondiscretionary duty to approve or deny an application within ninety days, the application or certification is deemed granted for one year or until revoked for good cause.

(13) There shall be no limit on the number of facility licenses or certifications issued by the division.

(14) Applications for any facility license shall be approved if the applicant can meet the following criteria:

(a) The applicant certifies that they have the following policies and procedures in place:

(i) A loss prevention and site security plan;

(ii) A seed to sale tracking system;

(iii) A method for verifying the age or medical marijuana status of any consumer;

(iv) Employment policies that are non-discriminatory and require fingerprint background checks prior to beginning employment at the facility;

(v) A plan to dispose of excess product in the event of the facility closing which may be satisfied by a plan to sell or donate excess products to the compassionate care program established in this section;

(vi) Sanitation policies for any area where un-packaged cannabis flower or cannabis-infused products are being prepared or packaged;

(vii) Labeling and packaging policies that are not misleading, are not likely to be confused with non-cannabis containing products, and are designed to make a product recognizable and distinguish it from similar products sold by competitors;

(viii) Record retention policy that allows for the inspection of records of purchases and sales for at least the preceding twenty-four months; and

(ix) Certification that any contracts to supply cannabis for medical use will take precedence over contracts to supply cannabis for adult use.

(b) All owners, officers, and managers are over twenty-one years of age and have submitted to a fingerprint background check and have not been convicted of any disqualifying felonies;

(c) The applicant has designated a natural person as a registered agent with the Missouri secretary of state;

(d) The applicant has verified its anticipated location is properly zoned and not within one thousand feet of any then-existing elementary or secondary school, child day-care center, or church; and

(e) The applicant certifies that they will not begin operations until after a commencement inspection as required by the division. Commencement inspections must be completed within thirty days of an applicant's request for such inspection.

(15) Applications for any transportation, delivery, testing, or hospitality certification shall be approved if the applicant can meet the following criteria:

(a) The applicant certifies that they have the following policies and procedures in place:

(i) A loss prevention and security plan suitable to the type of certification;

(ii) For testing certifications, an inventory tracking system;

(iii) For hospitality and delivery certifications, a method for verifying the age or medical marijuana patient status of any consumer;

(iv) Employment policies that are non-discriminatory;

(v) A plan to dispose of unused or undelivered product which may be satisfied by a plan to donate excess products to the compassionate care program established in this section;

(vi) Sanitation policies for any area where cannabis flower or cannabis-infused products are being tested or consumed;

(b) All owners, officers, and managers are over twenty-one years of age and have submitted to a fingerprint background check and have not been convicted of any disqualifying felonies;

(c) The applicant has designated a natural person as a registered agent with the Missouri secretary of state;

(e) For testing facilities, the applicant certifies that they will not begin operations until after a commencement inspection as required by the division. Commencement inspections must be completed within thirty days of an applicant's request for such inspection.

(16) A single entity may hold multiple licenses or certifications and may operate under such licenses at a single location. However, a cannabis hospitality facility certification shall not be issued for a location in which a cannabis cultivation facility, a cannabis manufacturing facility, or a cannabis retail facility is in operation.

(17) Facilities licensed under Article XIV Section 1 may also apply for and be granted licenses and certifications under this section.

5. Taxation and Funding

(1) Application and renewal fees collected by the division shall be used for the administration of this section. If such fees are insufficient to provide for the administration of this section, the division may apply to the Missouri Economic Recovery and Growth Fund for a cash operating transfer which shall be repaid as provided by law.

(2) A tax is hereby levied upon the retail sale of cannabis for adult use sold at cannabis retail facilities within the state.

(a) The tax shall be at a rate of seven and one-half percent of the retail price.

(b) The tax shall be collected by each licensed cannabis retail facility and paid to the department of revenue. After retaining no more than two percent of the amount collected for its actual collection costs, amounts generated by the tax levied in this section shall be deposited by the department of revenue into the Missouri Economic Recovery and Growth Fund. Licensed entities making retail sales within the state shall be allowed approved credit for returns provided the tax was paid on the returned item and the purchaser was given the refund or credit.

(c) Such tax shall not be levied on wholesale sales of cannabis for adult use or any cannabis which is transferred from a cannabis retail facility to a cannabis cultivation or manufacturing facility.

(3) There is hereby created in the state treasury the "Missouri Economic Recovery and Growth Fund", which shall consist of taxes collected under this section. The state treasurer shall be custodian of the fund, and he or she shall invest monies in the fund in the same manner as other funds are invested. Any interest and monies earned on such investments shall be credited to the fund. The commissioner of administration is authorized to make cash operating transfers to the fund for purposes of meeting the cash requirements of the division in advance of it receiving annual application, licensing, and tax revenue, with any such transfers to be repaid as provided by law. The fund shall be a dedicated fund and shall stand appropriated without further legislative action as follows:

(a) One-third of all monies collected shall be distributed to not-for-profit organizations, state agencies, and political subdivisions to provide free legal assistance to individuals seeking to expunge a criminal record, or to increase staffing levels to process expungement requests in a timely fashion; and

(b) Two-thirds of all monies collected shall be transferred to the general revenue fund.

(4) All monies from the taxes authorized under this subsection shall provide additional dedicated funding for the purposes enumerated above and shall not replace existing funding.

(5) Except as authorized in this subsection, no additional taxes shall be imposed on the sale of cannabis for adult use.

(6) The fees and taxes provided for in this Article XIV, Section 2 shall be fully enforceable notwithstanding any other provision in this Constitution purportedly prohibiting or restricting the taxes and fees provided for herein.

(7) A local government may impose a retail sales taxes on the retail sale of cannabis for adult use. Such taxes shall be imposed in the same way as provided for other retail sales taxes in law. Local taxes imposed on the retail sale of cannabis for adult use shall not exceed those imposed by the same jurisdiction on the retail sale of alcoholic beverages or other retail sales whichever is higher.

(8) Any consumer who presents a duly issued medical marijuana patient identification card or a medical marijuana primary caregiver identification card shall not pay the sales tax provided for in this section, but shall pay the sales tax required for medical marijuana sales in Article XIV Section 1.

6. Public Safety

(1) Nothing in this section shall provide immunity for negligence, either common law or statutorily created, nor criminal immunities for operating a vehicle, aircraft, dangerous device, or navigating a boat under the influence of cannabis.

(2) A criminal conviction for an intoxication related offense shall require a showing that the person was actually impaired at the time the offense occurred. Evidence of the presence of inactive tetrahydrocannabinol (THC) metabolites in the person's system shall not be sufficient to show actual impairment.

(3) An allegation of negligence while under the influence of cannabis shall require a showing that the person was actually under the influence of cannabis at the time the negligence occurred. Evidence of the presence of inactive tetrahydrocannabinol (THC) metabolites in the person's system shall not be sufficient to show the person was actually under the influence.

(3) A consumer may cultivate up to twenty-five square feet of flowering canopy of cannabis for adult use in any space owned or leased by said consumer. The space in which cannabis for adult use is being cultivated must be secured against entry by unauthorized individuals including individuals under twenty-one years of age. Such cannabis shall not be provided for sale to any individual but may be sold or donated through the compassionate care program established in this section.

(4) A consumer may possess the following amounts of cannabis at any one time:

(a) up to eight ounces of dried unprocessed flower;

(b) up to twenty-eight grams of concentrated resin or extract; and

(c) up to four thousand milligrams of tetrahydrocannabinol in cannabis-infused products.

(5) No individual who is under twenty-one years of age may possess cannabis in any amount unless such individual is in possession of a medical marijuana patient or primary caregiver license issued pursuant to Article XIV Section 1.

(6) The legislature may pass criminal statute related to the possession, delivery, or distribution of cannabis in excess of the limits provided for in this section without the appropriate license. However, in no case shall the possession, delivery, or distribution of cannabis in an amount less than two times the limits provided for in this section be deemed a felony unless such delivery or distribution was to a person under twenty-one years of age. Any existing laws which criminalize possession, delivery, or distribution of cannabis in amounts less than the limits provided for in this section are hereby declared null and void unless such delivery or distribution was to a person under twenty-one years of age.

(7) Any individual convicted for a crime, other than a dangerous felony or the delivery or distribution to a person under seventeen years of age and more than two years younger than the person being charged, may file for release from custody and expungement of their criminal record in the jurisdiction in which the conviction occurred. Such release from custody shall be expedited and shall be granted unless the person seeking release is incarcerated for additional crimes. Such expungement shall be granted as a matter of right and shall not affect an individual's ability to seek expungement of other offenses under the laws of this state. The supreme court shall make available to the public free of charge forms for a release from custody or the expungement of such offenses. The filing fee for a motion or new cause of action under this subsection shall be no more than the filing fee for actions brought in the small claims court of the same jurisdiction.

(8) The presence or the smell of cannabis shall not be sufficient probable cause for a law enforcement officer to detain or search a person for reasons other than a suspected intoxication offense, or to impound or search the vehicle, residence, or other property of a consumer. Any search or arrest warrant issued for violations of this section or other cannabis laws not in conflict with this section shall require evidence of the violation and shall not be issued on the basis of the presence of cannabis alone. No search or arrest warrant shall be issued based on violations of this section or other cannabis laws not in conflict with this section that would allow law enforcement officers to enter a premises without first knocking and announcing their presence and purpose.

(9) The division shall develop in coordination with the Missouri department of health and senior services a compassionate care program through which cannabis may be tested and sold or donated to a cannabis cultivation facility, cannabis manufacturing facility, or cannabis retail facility by any consumer, cannabis cultivation facility, cannabis manufacturing facility, or cannabis retail facility.

Any facility that receives excess cannabis through such program must make any cannabis received through the program available free of charge to qualifying patients and primary caregivers who meet financial need and health necessity criteria. Each facility may develop its own criteria, but in no case shall cannabis be provided free of charge to any individual who is not in possession of a medical marijuana patient or primary caregiver identification card.

7. Local Control

(1) Unless allowed by the local government, no new cannabis cultivation facility, cannabis testing facility, cannabis retail facility, or cannabis manufacturing facility shall be initially sited within one thousand feet of any then-existing elementary or secondary school, child day-care center, or church. A local government may allow for a location closer than one thousand feet but may not impose any restriction greater than one thousand feet.

(2) No local government shall prohibit cannabis cultivation facilities, cannabis testing facilities, cannabis manufacturing facilities, or cannabis retail facilities, or entities with a transportation or hospitality certification from operating within the locality either expressly or through the enactment of ordinances, including but not limited to zoning ordinances, or regulations that make their operation unduly burdensome in the locality. However, local governments may enact ordinances or regulations not in conflict with this section, or with regulations enacted pursuant to this section, governing the time, place, and manner of operation of such facilities in the locality so long as such ordinances or regulations are not more restrictive than those imposed on the manufacture or sale of alcoholic beverages.

(3) Local governments shall develop and adopt ordinances and policies related to cannabis facilities and certificate holders no later than June 30, 2023. The local government shall not adopt ordinances or policies that would impose an excessive fees or an undue burden on any one or more licensees or certificate holders; create an undue burden on access to consumers; or act to undermine the purposes of this section. A rule or regulation shall be presumed to impose excessive fees or an undue burden if it imposes fees higher than or restrictions greater than those imposed on the manufacture and sale of alcoholic beverages.

(4) If the local government fails to adopt ordinances and policies specific to cannabis for adult use prior to June 30, 2023, the rules and regulations for the location and licensing of alcoholic beverage manufacturing and sale shall apply to cannabis facilities wherever possible.

(3) Local governments may require cannabis cultivation facilities, cannabis manufacturing facilities, cannabis retail facilities, cannabis transportation or delivery certificate holders, cannabis hospitality certificate holders to be licensed businesses under the local ordinances. However no local government shall require an additional fee to be paid or additional special license to be acquired by a cannabis license or certificate holder that is not required for other businesses in the jurisdiction.

(4) A local government may establish civil penalties for violation of an ordinance or regulations governing the time, place, and manner of operation of a medical marijuana cultivation facility, medical marijuana testing facility, medical marijuana manufacturing facility, medical marijuana dispensary facility, or entity holding a transportation certification that may operate in such locality so long as such penalties are not greater than those imposed on the manufacture or sale of alcoholic beverages.

8. Other Provisions

(1) All cannabis for adult use sold in Missouri shall be cultivated in a licensed cultivation facility located in Missouri or a licensed facility located in another state if federal law allows for the interstate transportation of cannabis.

(2) All cannabis-infused products for adult use sold in the state of Missouri shall be manufactured in a licensed manufacturing facility or a licensed facility located in another state if federal law allows for the interstate transportation of cannabis-infused products.

(3) A cannabis testing facility shall not be subject to civil or criminal prosecution under Missouri law, denial of any right or privilege, civil or administrative penalty or sanction, or disciplinary

action by any accreditation or licensing board or commission for providing laboratory testing services that relate to the adult use of cannabis consistent with this section and otherwise meeting legal standards of professional conduct.

(4) An attorney shall not be subject to disciplinary action by the state bar association or other professional licensing body for being employed by, contracting with, or providing legal assistance to facilities licensed or certified under this section, entities applying for licensing or certification under this section, or any individual seeking legal advice related to activity that is no longer subject to civil or criminal penalties under state law pursuant to this section.

(5) Except as provided for by this section, actions and conduct by consumers, facilities licensed or certified under this section, or the employees, contractors, vendors, or agents of facilities licensed or certified under this section, as permitted by this section and in compliance with division regulations and other provisions of law, shall not be subject to criminal or civil liability or sanctions under Missouri law including but not limited to disciplinary action against a professional license, denial of public assistance programs or public services, or denial of a license to operate a vehicle, watercraft, or other equipment.

(6) It is the public policy of the state of Missouri that contracts related to cannabis for adult use that are entered into by consumers, cannabis testing facilities, cannabis transportation or delivery facilities, cannabis hospitality facilities, cannabis cultivation facilities, cannabis manufacturing facilities, or cannabis retail facilities and those who allow property to be used by those entities, should be enforceable. It is the public policy of the state of Missouri that no contract entered into by consumers, cannabis testing facilities, cannabis transportation or delivery facilities, cannabis hospitality facilities, cannabis cultivation facilities, cannabis manufacturing facilities, or cannabis retail facilities, or by a person who allows property to be used for activities that are exempt from state criminal penalties by this section, shall be unenforceable on the basis that activities related to medical marijuana may be prohibited by federal law.

(7) No mandatory reporter under the laws of this state shall be required to report the adult use of cannabis by a parent or prospective parent unless such use is in violation of this section or the parent is actively endangering the health and safety of a child. A prospective foster or adoptive parent shall not be discriminated against for their use of cannabis for non-medical purposes unless such use is in violation of this section or other provisions of law not in conflict with this section.

(8) The denial of a license, license renewal, or identification card by the division shall be appealable to the administrative hearing commission, or its successor entity. Following the exhaustion of administrative review, denial of a license, license renewal, or identification card by the division shall be subject to judicial review as provided by law.

(9) No elected official shall interfere directly or indirectly with the division's obligations and activities under this section.

9. Severability

The provisions of this section are severable, and if any clause, sentence, paragraph or section of this measure, or an application thereof, is adjudged invalid by any court of competent jurisdiction, the other provisions shall continue to be in effect to the fullest extent possible.

RE: Petition approval request from Eric McSwain regarding a proposed constitutional amendment to Articles XIV and XIX, version 1 (2022-046)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Eric McSwain on July 15, 2021.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Section A. Article XIV of the Constitution is revised by amending Section 1, and adopting one new section to be known as Article XIX, Section 2 to read as follows:

Section 1. 1. Purposes.

This section is intended to permit state-licensed physicians to recommend marijuana for medical purposes to patients with serious illnesses and medical conditions. The section allows patients with qualifying medical conditions the right to discuss freely with their physicians the possible benefits of medical marijuana use, the right of their physicians to provide professional advice concerning the same, and the right to use medical marijuana for treatment under the supervision of a physician.

This section is intended to make only those changes to Missouri laws that are necessary to protect patients, their primary caregivers, and their physicians from civil and criminal penalties, and to allow for the [limited] legal production, distribution, sale and purchase of marijuana for medical use. This section is not intended to change current civil and criminal laws governing the use of marijuana for nonmedical purposes. The section does not allow for the public use of marijuana and driving under the influence of marijuana.

2. Definitions.

(1) "Administer" means the direct application of marijuana to a qualifying patient by way of any of the following methods:

(a) Ingestion of capsules, teas, oils, and other marijuana-infused products;

(b) Vaporization or smoking of dried flowers, buds, plant material, extracts, or oils;

(c) Application of ointments or balms;

(d) Transdermal patches and suppositories;

(e) Consuming marijuana-infused food products; or

(f) Any other method recommended by a qualifying patient's physician.

(2) "Department" means the department of health and senior services, or its successor agency.

(3) "Entity" means a natural person, corporation, professional corporation, nonprofit corporation, cooperative corporation, unincorporated association, business trust, limited liability company, general or limited partnership, limited liability partnership, joint venture, or any other legal entity.

(4) "Flowering plant" means a marijuana plant from the time it exhibits the first signs of sexual maturity through harvest.

(5) "Marijuana" or "marihuana" means *Cannabis indica*, *Cannabis sativa*, and *Cannabis ruderalis*, hybrids of such species, and any other strains commonly understood within the scientific community to constitute marijuana, as well as resin extracted from the plant and marijuana-infused products. "Marijuana" or "marihuana" do not include industrial hemp [containing a cropwide average tetrahydrocannabinol concentration that does not exceed three-tenths of one percent on a dry weight basis] <u>as defined by federal law</u>, or commodities or products manufactured from industrial hemp <u>as defined by federal law</u>.

(6) "Marijuana-infused products" means products that are infused with marijuana or an extract thereof and are intended for use or consumption other than by smoking, including, but not limited to, edible products, ointments, tinctures and concentrates.

(7) "Medical marijuana cultivation facility" means a facility licensed by the department to acquire, cultivate, process, store, transport, and sell marijuana to a medical marijuana dispensary facility, medical marijuana testing facility, or to a medical marijuana-infused products manufacturing facility.

(8) "Medical marijuana dispensary facility" means a facility licensed by the department to acquire, store, sell, transport, and deliver marijuana, marijuana-infused products, and drug paraphernalia used to administer marijuana as provided for in this section to a qualifying patient, a primary caregiver, another medical marijuana dispensary facility, a medical marijuana testing facility, or a medical marijuana-infused products manufacturing facility.

(9) "Medical marijuana-infused products manufacturing facility" means a facility licensed by the department to acquire, store, manufacture, transport, and sell marijuana-infused products to a medical marijuana dispensary facility, a medical marijuana testing facility, or to another medical marijuana-infused products manufacturing facility.

(10) "Medical marijuana testing facility" means a facility certified by the department to acquire, test, certify, and transport marijuana.

(11) "Medical use" means the production, possession, delivery, distribution, transportation, or administration of marijuana or a marijuana-infused product, or drug paraphernalia used to administer marijuana or a marijuana-infused product, for the benefit of a qualifying patient to mitigate the symptoms or effects of the patient's qualifying medical condition.

(12) "Physician" means an individual who is licensed and in good standing to practice medicine or osteopathy under Missouri law.

(13) "Physician certification" means a document, whether handwritten, electronic or in another commonly used format, signed by a physician and stating that, in the physician's professional opinion, the patient suffers from a qualifying medical condition.

(14) "Primary caregiver" means an individual twenty-one years of age or older who has significant responsibility for managing the well-being of a qualifying patient and who is designated as such on the primary caregiver's application for an identification card under this section or in other written notification to the department. Any health care provider licensed under the laws of the state may also serve as a primary caregiver. A qualifying patient may have up to three primary caregivers.

(15) "Qualifying medical condition" means the condition of, symptoms related to, or side-effects from the treatment of:

(a) Cancer;

(b) Epilepsy;

(c) Glaucoma;

(d) Intractable migraines unresponsive to other treatment;

(e) A chronic medical condition that causes severe, persistent pain or persistent muscle spasms, including but not limited to those associated with multiple sclerosis, seizures, Parkinson's disease, and Tourette's syndrome;

(f) Debilitating psychiatric disorders, including, but not limited to, posttraumatic stress disorder, if diagnosed by a state licensed psychiatrist;

(g) Human immunodeficiency virus or acquired immune deficiency syndrome;

(h) A chronic medical condition that is normally treated with a prescription medication that could lead to physical or psychological dependence, when a physician determines that medical use of marijuana could be effective in treating that condition and would serve as a safer alternative to the prescription medication;

(i) Any terminal illness; or

(j) In the professional judgment of a physician, any other chronic, debilitating or other medical condition, including, but not limited to, hepatitis C, amyotrophic lateral sclerosis, inflammatory

bowel disease, Crohn's disease, Huntington's disease, autism, neuropathies, sickle cell anemia, agitation of Alzheimer's disease, cachexia, and wasting syndrome.

(16) "Qualifying patient" means a Missouri resident diagnosed with at least one qualifying medical condition.

3. Creating Patient Access to Medical Marijuana.

(1) In carrying out the implementation of this section, the department shall have the authority to:

(a) Grant or refuse state licenses and certifications for the cultivation, manufacture, dispensing, sale, testing, tracking, and transportation of marijuana for medical use as provided by law; suspend, fine, restrict, or revoke such licenses and certifications upon a violation of this section or a rule promulgated pursuant to this section; and impose any administrative penalty authorized by this section or any rule promulgated pursuant to this section.

(b) Promulgate rules and emergency rules necessary for the proper regulation and control of the cultivation, manufacture, dispensing, and sale of marijuana for medical use and for the enforcement of this section so long as patient access is not restricted unreasonably and such rules are reasonably necessary for patient safety or to restrict access to only licensees and qualifying patients.

(c) Develop such forms, certificates, licenses, identification cards, and applications as are necessary for, or reasonably related to, the administration of this section or any of the rules promulgated under this section;

(d) Require a seed-to-sale tracking system that tracks medical marijuana from either the seed or immature plant stage until the medical marijuana or medical marijuana-infused product is sold to a qualifying patient or primary caregiver to ensure that no medical marijuana grown by a medical marijuana cultivation facility or manufactured by a medical marijuana-infused products manufacturing facility is sold or otherwise transferred except by a medical marijuana dispensary facility. The department shall certify, if possible, at least two commercially available systems to licensees as compliant with its tracking standards and issue standards for the creation or use of other systems by licensees.

(e) Issue standards for the secure transportation of marijuana and marijuana-infused products. The department shall certify entities which demonstrate compliance with its transportation standards to transport marijuana and marijuana-infused products to a medical marijuana cultivation facility, a medical marijuana-infused products manufacturing facility, a medical marijuana dispensary facility, a medical marijuana testing facility, or another entity with a transportation certification. The department shall develop or adopt from any other governmental agency such safety and security standards as are reasonably necessary for the transportation of marijuana. Any entity licensed or certified pursuant to this section shall be allowed to transport cannabis.

(f) The department may charge a fee not to exceed $5,000 for any certification issued pursuant to this section.

(g) Prepare and transmit annually a publicly available report accounting to the governor for the efficient discharge of all responsibilities assigned to the department under this section;

[(h) Establish a system to numerically score competing medical marijuana licensee and certificate applicants, only in cases where more applicants apply than the minimum number of licenses or certificates as calculated by this section, which scoring shall be limited to an analysis of the following:

(i) the character, veracity, background, qualifications, and relevant experience of principal officers or managers;

(ii) the business plan proposed by the applicant, which in the case of cultivation facilities and dispensaries shall include the ability to maintain an adequate supply of marijuana, plans to ensure safety and security of qualifying patients and the community, procedures to be used to prevent diversion, and any plan for making marijuana available to low-income qualifying patients;

(iii) site security;

(iv) experience in a legal cannabis market;

(v) in the case of medical marijuana testing facilities, the experience of their personnel with testing marijuana, food or drugs for toxins and/or potency and health care industry experience;

(vi) the potential for positive economic impact in the site community;

(vii) in the case of medical marijuana cultivation facilities, capacity or experience with agriculture, horticulture, and health care;

(viii) in the case of medical marijuana dispensary facilities, capacity or experience with health care, the suitability of the proposed location, and its accessibility for patients;

(ix) in the case of medical marijuana-infused products manufacturing facilities, capacity or experience with food and beverage manufacturing; and

(x) maintaining competitiveness in the marijuana for medical use marketplace.

In ranking applicants and awarding licenses and certificates, the department may consult or contract with other public agencies with relevant expertise regarding these factors. The department shall lift or ease any limit on the number of licensees or certificate holders in order to meet the demand for marijuana for medical use by qualifying patients.]

(2) The department shall issue any rules or emergency rules necessary for the implementation and enforcement of this section and to ensure the right to, availability, and safe use of marijuana for medical use by qualifying patients. In developing such rules or emergency rules, the department may consult with other public agencies. In addition to any other rules or emergency rules necessary to carry out the mandates of this section, the department may issue rules or emergency rules relating to the following subjects:

(a) Compliance with, enforcement of, or violation of any provision of this section or any rule issued pursuant to this section, including procedures and grounds for denying, suspending, fining, restricting, or revoking a state license or certification issued pursuant to this section;

(b) Specifications of duties of officers and employees of the department;

(c) Instructions or guidance for local authorities and law enforcement officers;

(d) Requirements for inspections, investigations, searches, seizures, and such additional enforcement activities as may become necessary from time to time;

(e) Creation of a range of administrative penalties for use by the department;

(f) Prohibition of misrepresentation and unfair practices;

(g) Control of informational and product displays on licensed premises provided that the rules may not prevent or unreasonably restrict appropriate signs on the property of the medical marijuana dispensary facility, product display and examination by the qualifying patient and/or primary caregiver, listings in business directories including phone books, listings in marijuana-related or medical publications, or the sponsorship of health or not for profit charity or advocacy events;

(h) Development of individual identification cards for owners, officers, managers, contractors, employees, and other support staff of entities licensed or certified pursuant to this section, including a fingerprint-based federal and state criminal record check in accordance with U.S. Public Law 92-544, or its successor provisions, as may be required by the department prior to issuing a card and procedures to ensure that cards for new applicants are issued within fourteen days. Applicants licensed pursuant to this section shall submit fingerprints to the Missouri state highway patrol for the purpose of conducting a state and federal fingerprint-based criminal background check. The Missouri state highway patrol, if necessary, [shall] <u>may</u> forward the fingerprints to the Federal Bureau of Investigation (FBI) for the purpose of conducting a

fingerprint-based criminal background check. Fingerprints shall be submitted pursuant to 43.543 and fees shall be paid pursuant to 43.530;

(i) Security requirements for any premises licensed or certified pursuant to this section, including, at a minimum, lighting, physical security, video, alarm requirements, and other minimum procedures for internal control as deemed necessary by the department to properly administer and enforce the provisions of this section, including reporting requirements for changes, alterations, or modifications to the premises;

(j) Regulation of the storage of, warehouses for, and transportation of marijuana for medical use;

(k) Sanitary requirements for, including, but not limited to, the preparation of medical marijuana-infused products;

(l) The specification of acceptable forms of picture identification that a medical marijuana dispensary facility may accept when verifying a sale;

(m) Labeling and packaging standards;

(n) Records to be kept by licensees and the required availability of the records;

(o) State licensing procedures, including procedures for renewals, reinstatements, initial licenses, and the payment of licensing fees;

(p) The reporting and transmittal of tax payments;

(q) Authorization for the department of revenue to have access to licensing information to ensure tax payment and the effective administration of this section; and

(r) Such other matters as are necessary for the fair, impartial, stringent, and comprehensive administration of this section.

(3) The department shall issue rules or emergency rules for a medical marijuana and medical marijuana-infused products independent testing and certification program for medical marijuana licensees and requiring licensees to test medical marijuana using one or more impartial, independent laboratories to ensure, at a minimum, that products sold for human consumption do not contain contaminants that are injurious to health, to ensure correct labeling and measure potency. The department shall not require any medical marijuana or medical marijuana-infused products to be tested more than once prior to sale.

(4) The department shall issue rules or emergency rules to provide for the certification of and standards for medical marijuana testing facilities, including the requirements for equipment and qualifications for personnel, but shall not require certificate holders to have any federal agency licensing or have any relationship with a federally licensed testing facility. The department shall certify, if possible, at least two entities as medical marijuana testing facilities. No medical marijuana testing facility shall be owned by an entity under substantially common control, ownership, or management as a medical marijuana cultivation facility, medical marijuana-infused product manufacturing facility, or medical marijuana dispensary facility.

(5) The department shall maintain the confidentiality of reports or other information obtained from an applicant or licensee containing any individualized data, information, or records related to the licensee or its operation, including sales information, financial records, tax returns, credit reports, cultivation information, testing results, and security information and plans, or revealing any patient information, or any other records that are exempt from public inspection pursuant to state or federal law. Such reports or other information may be used only for a purpose authorized by this section. Any information released related to patients may be used only for a purpose authorized by federal law and this section, including verifying that a person who presented a patient identification card to a state or local law enforcement official is lawfully in possession of such card.

(6) Within one hundred eighty days of December 6, 2018, the department shall make available to the public license application forms and application instructions for medical marijuana cultivation

facilities, medical marijuana testing facilities, medical marijuana dispensary facilities, and medical marijuana-infused products manufacturing facilities.

(7) Within one hundred eighty days of December 6, 2018, the department shall make available to the public application forms and application instructions for qualifying patient, qualifying patient cultivation, and primary caregiver identification cards. Within two hundred ten days of December 6, 2018, the department shall begin accepting applications for such identification cards.

(8) An entity may apply to the department for and obtain one or more licenses to grow marijuana as a medical marijuana cultivation facility. Each facility in operation shall require a separate license, but multiple licenses may be utilized in a single facility. Each indoor facility utilizing artificial lighting may be limited by the department to thirty thousand square feet of flowering plant canopy space. Each outdoor facility utilizing natural lighting may be limited by the department to two thousand eight hundred flowering plants. Each greenhouse facility using a combination of natural and artificial lighting may be limited by the department, at the election of the licensee, to two thousand eight hundred flowering plants or thirty thousand square feet of flowering plant canopy. The license shall be valid for three years from its date of issuance and shall be renewable, except for good cause. The department shall charge each applicant a nonrefundable fee of ten thousand dollars per license application or renewal for all applicants filing an application within three years of December 6, 2018, and shall charge each applicant a nonrefundable fee of five thousand dollars per license application or renewal thereafter. Once granted, the department shall charge each licensee an annual fee of twenty-five thousand dollars per facility license. Application and license fees shall be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency. No more than three medical marijuana cultivation facility licenses shall be issued to any entity under substantially common control, ownership, or management.

(9) An entity may apply to the department for and obtain one or more licenses to operate a medical marijuana dispensary facility. Each facility in operation shall require a separate license. A license shall be valid for three years from its date of issuance and shall be renewable, except for good cause. The department shall charge each applicant a nonrefundable fee of six thousand dollars per license application or renewal for each applicant filing an application within three years of December 6, 2018, and shall charge each applicant a nonrefundable fee of three thousand dollars per license application or renewal thereafter. Once granted, the department shall charge each licensee an annual fee of ten thousand dollars per facility license. Application and license fees shall be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency. No more than five medical marijuana dispensary facility licenses shall be issued to any entity under substantially common control, ownership, or management.

(10) An entity may apply to the department for and obtain one or more licenses to operate a medical marijuana-infused products manufacturing facility. Each facility in operation shall require a separate license. A license shall be valid for three years from its date of issuance and shall be renewable, except for good cause. The department shall charge each applicant a nonrefundable fee of six thousand dollars per license application or renewal for each applicant filing an application within three years of December 6, 2018, and shall charge each applicant a nonrefundable fee of three thousand dollars per license application or renewal thereafter. Once granted, the department shall charge each licensee an annual fee of ten thousand dollars per facility license. Application and license fees shall be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency. No more than three medical marijuana-infused products manufacturing facility licenses shall be issued to any entity under substantially common control, ownership, or management.

(11) Any applicant for a license authorized by this section may prefile their application fee with the department beginning 30 days after December 6, 2018.

(12) Except for good cause, a qualifying patient or his or her primary caregiver may obtain an identification card from the department to cultivate up to [six flowering marijuana plants] <u>fifty square feet of canopy space</u> for the [exclusive use] <u>benefit</u> of that qualifying patient. The card shall

be valid for twelve months from its date of issuance and shall be renewable with the annual submittal of a new or updated physician's certification. The department shall charge an annual fee for the card of [one hundred] twenty-five dollars, with such rate to be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency. In no case shall any qualifying patient cultivate more than fifty square feet of canopy space regardless of the number of primary caregivers assigned to said qualifying patient.

(13) The department may set a limit on the amount of marijuana that may be purchased by or on behalf of a single qualifying patient in a thirty-day period, provided that limit is not less than four ounces of dried, unprocessed marijuana, or its equivalent. Any such limit shall not apply to a qualifying patient with written certification from two independent physicians that there are compelling reasons why the qualifying patient needs a greater amount than the limit established by the department.

(14) The department may set a limit on the amount of marijuana that may be possessed by or on behalf of each qualifying patient, provided that limit is not less than a sixty-day supply of dried, unprocessed marijuana, or its equivalent. A primary caregiver may possess a separate legal limit for each qualifying patient under their care and a separate legal limit for themselves if they are a qualifying patient. In no case shall the total amount of medical marijuana attributed to a single qualifying patient in the possession of multiple primary caregivers exceed the limit set by the department. Qualifying patients cultivating marijuana for medical use may possess up to a [ninety-day] one year supply, so long as the supply remains secured on property under their control. Any such limit shall not apply to a qualifying patient with written certification from two independent physicians that there are compelling reasons for additional amounts. Possession of between the legal limit and up to twice the legal limit shall subject the possessor to department sanctions, including an administrative penalty and loss of their patient identification card for up to a year. Purposefully possessing amounts in excess of twice the legal limit shall be punishable by [imprisonment of up to one year and] a fine of up to two thousand dollars.

[(15) The department may restrict the aggregate number of licenses granted for medical marijuana cultivation facilities, provided, however, that the number may not be limited to fewer than one license per every one hundred thousand inhabitants, or any portion thereof, of the state of Missouri, according to the most recent census of the United States. A decrease in the number of inhabitants in the state of Missouri shall have no impact.

(16) The department may restrict the aggregate number of licenses granted for marijuana-infused products manufacturing facilities, provided, however, that the number may not be limited to fewer than one license per every seventy thousand inhabitants, or any portion thereof, of the state of Missouri, according to the most recent census of the United States. A decrease in the number of inhabitants in the state of Missouri shall have no impact.

(17) The department may restrict the aggregate number of licenses granted for medical marijuana dispensary facilities, provided, however, that the number may not be limited to fewer than twenty-four licenses in each United States congressional district in the state of Missouri pursuant to the map of each of the eight congressional districts as drawn and effective on December 6, 2018. Future changes to the boundaries of or the number of congressional districts shall have no impact.]

(18) The department shall begin accepting license and certification applications for medical marijuana dispensary facilities, medical marijuana testing facilities, medical marijuana cultivation facilities, medical marijuana-infused products manufacturing facilities, seed-to-sale tracking systems, and for transportation of marijuana no later than two hundred forty days after December 6, 2018. Applications for licenses and certifications under this section shall be approved or denied by the department no later than one hundred fifty days after their submission. If the department fails to carry out its nondiscretionary duty to approve or deny an application within one hundred fifty days of submission, an applicant may immediately seek a court order compelling the department to approve or deny the application.

(19) Qualifying patients under this section shall obtain and annually renew an identification card or cards from the department. The department shall charge a fee of twenty-five dollars per year per card with such fee to be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor

index as published by the U.S. Department of Labor or its successor agency. Upon receiving an application for a qualifying patient identification card or qualifying patient cultivation identification card, the department shall, within thirty days, either issue the card or provide a written explanation for its denial. If the department fails to deny and fails to issue a card to an eligible qualifying patient within thirty days, then their physician certification shall serve as their qualifying patient identification card or qualifying patient cultivation identification card for up to one year from the date of physician certification. All initial applications for or renewals of a qualifying patient identification card or qualifying patient cultivation identification card shall be accompanied by a physician certification that is less than thirty days old.

(20) Primary caregivers under this section shall obtain and annually renew an identification card from the department. The department shall charge a fee of twenty-five dollars per year, with such fee to be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency. Upon receiving an application for a primary caregiver identification card, the department shall, within thirty days, either issue the card or provide a written explanation for its denial.

(21) All marijuana for medical use sold in Missouri shall be cultivated in a licensed medical marijuana cultivation facility located in Missouri.

(22) All marijuana-infused products for medical use sold in the state of Missouri shall be manufactured in a medical marijuana-infused products manufacturing facility.

(23) The denial of a license, license renewal, or identification card by the department shall be appealable to the administrative hearing commission, or its successor entity. Following the exhaustion of administrative review, denial of a license, license renewal, or identification card by the department shall be subject to judicial review as provided by law.

(24) No elected official shall interfere directly or indirectly with the department's obligations and activities under this section.

(25) The department shall not have the authority to apply or enforce any rule or regulation that would impose an undue burden on any one or more licensees or certificate holders, any qualifying patients, or act to undermine the purposes of this section.

4. Taxation and Reporting.

(1) A tax is levied upon the retail sale of marijuana for medical use sold at medical marijuana dispensary facilities within the state. The tax shall be at a rate of four percent of the retail price. The tax shall be collected by each licensed medical marijuana dispensary facility and paid to the department of revenue. After retaining no more than five percent for its actual collection costs, amounts generated by the tax levied in this section shall be deposited by the department of revenue into the Missouri veterans' health and care fund. Licensed entities making retail sales within the state shall be allowed approved credit for returns provided the tax was paid on the returned item and the purchaser was given the refund or credit.

(2) There is hereby created in the state treasury the "Missouri Veterans' Health and Care Fund", which shall consist of taxes and fees collected under this section. The state treasurer shall be custodian of the fund, and he or she shall invest monies in the fund in the same manner as other funds are invested. Any interest and monies earned on such investments shall be credited to the fund. Notwithstanding any other provision of law, any monies remaining in the fund at the end of a biennium shall not revert to the credit of the general revenue fund. The commissioner of administration is authorized to make cash operating transfers to the fund for purposes of meeting the cash requirements of the department in advance of it receiving annual application, licensing, and tax revenue, with any such transfers to be repaid as provided by law. The fund shall be a dedicated fund and shall stand appropriated without further legislative action as follows:

(a) First, to the department, an amount not to exceed twenty percent of net deposits which is necessary for the department to carry out this section, including repayment of any cash operating transfers, payments made through contract or agreement with other state and public agencies

necessary to carry out this section, and a reserve fund to maintain a reasonable working cash balance for the purpose of carrying out this section;

(b) Next, the remainder of such funds shall be transferred to the Missouri veterans commission for health and care services for military veterans, including the following purposes: operations, maintenance and capital improvements of the Missouri veterans homes, the Missouri service officer's program, and other services for veterans approved by the commission, including, but not limited to, health care services, mental health services, drug rehabilitation services, housing assistance, job training, tuition assistance, and housing assistance to prevent homelessness. The Missouri veterans commission shall contract with other public agencies for the delivery of services beyond its expertise.

(c) All monies from the taxes authorized under this subsection shall provide additional dedicated funding for the purposes enumerated above and shall not replace existing dedicated funding.

(3) For all retail sales of marijuana for medical use, a record shall be kept by the seller which identifies, by secure and encrypted patient number issued by the seller to the qualifying patient involved in the sale, all amounts and types of marijuana involved in the sale and the total amount of money involved in the sale, including itemizations, taxes collected and grand total sale amounts. All such records shall be kept on the premises in a readily available format and be made available for review by the department and the department of revenue upon request. Such records shall be retained for five years from the date of the sale.

(4) The tax levied pursuant to this subsection is separate from, and in addition to, any general state and local sales and use taxes that apply to retail sales, which shall continue to be collected and distributed as provided by general law.

(5) Except as authorized in this subsection, no additional taxes shall be imposed on the sale of marijuana for medical use.

(6) The fees and taxes provided for in this Article XIV, Section 1 shall be fully enforceable notwithstanding any other provision in this Constitution purportedly prohibiting or restricting the taxes and fees provided for herein.

(7) The unexpended balance existing in the fund shall be exempt from the provisions of section 33.080 relating to the transfer of unexpended balances to the general revenue fund.

5. Additional Patient, Physician, Caregiver and Provider Protections.

(1) Except as provided in this section, the possession of marijuana in quantities less than the limits of this section, or established by the department, and transportation of marijuana from a medical marijuana dispensary facility to the qualifying patient's residence shall not subject the possessor to arrest, criminal or civil liability, or sanctions under Missouri law, provided that the possessor produces on demand to the appropriate authority a valid qualifying patient identification card; a valid qualifying patient cultivation identification card; a valid physician certification while making application for an identification card; or a valid primary caregiver identification card. Production of the respective equivalent identification card or authorization issued by another state or political subdivision of another state shall also meet the requirements of this subdivision.

(2) No patient shall be denied access to or priority for an organ transplant because they hold a qualifying patient identification card or use marijuana for medical use.

(3) A physician shall not be subject to criminal or civil liability or sanctions under Missouri law or discipline by the Missouri state board of registration for the healing arts, or its successor agency, for owning, operating, investing in, being employed by, or contracting with any entity licensed or certified pursuant to this section or issuing a physician certification to a patient diagnosed with a qualifying medical condition in a manner consistent with this section and legal standards of professional conduct.

(4) A health care provider, including individuals licensed under chapter 335 or 337 or their successor statutes, shall not be subject to civil or criminal prosecution under Missouri law, denial of any right or privilege, civil or administrative penalty or sanction, or disciplinary action by any

accreditation or licensing board or commission for owning, operating, investing in, being employed by, or contracting with any entity licensed or certified pursuant to this section or providing health care services that involve the medical use of marijuana consistent with this section and legal standards of professional conduct.

(5) A medical marijuana testing facility shall not be subject to civil or criminal prosecution under Missouri law, denial of any right or privilege, civil or administrative penalty or sanction, or disciplinary action by any accreditation or licensing board or commission for providing laboratory testing services that relate to the medical use of marijuana consistent with this section and otherwise meeting legal standards of professional conduct.

(6) A health care provider shall not be subject to mandatory reporting requirements for the medical use of marijuana by nonemancipated qualifying patients under eighteen years of age in a manner consistent with this section and with consent of a parent or guardian.

(7) A primary caregiver shall not be subject to criminal or civil liability or sanctions under Missouri law for purchasing, transporting, or administering marijuana for medical use to a qualifying patient or participating in the patient cultivation [of up to six flowering marijuana plants per patient] in a manner consistent with this section and generally established legal standards of personal or professional conduct.

(8) An attorney shall not be subject to disciplinary action by the state bar association or other professional licensing body for owning, operating, investing in, being employed by, contracting with, or providing legal assistance to prospective or licensed medical marijuana testing facilities, medical marijuana cultivation facilities, medical marijuana dispensary facilities, medical marijuana-infused products manufacturing facilities, qualifying patients, primary caregivers, physicians, health care providers or others related to activity that is no longer subject to criminal penalties under state law pursuant to this section.

(9) Actions and conduct by qualifying patients, primary caregivers, medical marijuana testing facilities, medical marijuana cultivation facilities, medical marijuana-infused products manufacturing facilities, or medical marijuana dispensary facilities licensed or registered with the department, or their employees or agents, as permitted by this section and in compliance with department regulations and other standards of legal conduct, shall not be subject to criminal or civil liability or sanctions under Missouri law, except as provided for by this section.

(10) Nothing in this section shall provide immunity for negligence, either common law or statutorily created, nor criminal immunities for operating a vehicle, aircraft, dangerous device, or navigating a boat under the influence of marijuana.

(11) It is the public policy of the state of Missouri that contracts related to marijuana for medical use that are entered into by qualifying patients, primary caregivers, medical marijuana testing facilities, medical marijuana cultivation facilities, medical marijuana-infused products manufacturing facilities, or medical marijuana dispensary facilities and those who allow property to be used by those entities, should be enforceable. It is the public policy of the state of Missouri that no contract entered into by qualifying patients, primary caregivers, medical marijuana testing facilities, medical marijuana cultivation facilities, medical marijuana-infused products manufacturing facilities, or medical marijuana dispensary facilities, or by a person who allows property to be used for activities that are exempt from state criminal penalties by this section, shall be unenforceable on the basis that activities related to medical marijuana may be prohibited by federal law.

6. Legislation.

Nothing in this section shall limit the general assembly from enacting laws consistent with this section, or otherwise effectuating the patient rights of this section. The legislature shall not enact laws that hinder the right of qualifying patients to access marijuana for medical use as granted by this section.

7. Additional Provisions.

(1) Nothing in this section permits a person to:

(a) Consume marijuana for medical use in a jail or correctional facility;

(b) Undertake any task under the influence of marijuana when doing so would constitute negligence or professional malpractice; or

(c) Operate, navigate, or be in actual physical control of any dangerous device or motor vehicle, aircraft or motorboat while under the influence of marijuana; or

(d) Bring a claim against any employer, former employer, or prospective employer for wrongful discharge, discrimination, or any similar cause of action or remedy, based on the employer, former employer, or prospective employer prohibiting the employee, former employee, or prospective employee from being under the influence of marijuana while at work or disciplining the employee or former employee, up to and including termination from employment, for working or attempting to work while under the influence of marijuana.

(2) No medical marijuana cultivation facility, medical marijuana testing facility, medical marijuana dispensary facility, or medical marijuana-infused products manufacturing facility, or entity with a transportation certification shall be owned, in whole or in part, or have as an officer, director, board member, manager, or employee, any individual with a disqualifying felony offense. A "disqualifying felony offense" is a violation of, and conviction or guilty plea to, state or federal law that is, or would have been, a felony under Missouri law, regardless of the sentence imposed, unless the department determines that:

(a) The person's conviction was for the medical use of marijuana or assisting in the medical use of marijuana; or

(b) The person's conviction was for a nonviolent crime [for which he or she was not incarcerated and that is more than five years old]; or

(c) More than five years have passed since the person was released from parole or probation, and he or she has not been convicted of any subsequent criminal offenses.

The department may consult with and rely on the records, advice and recommendations of the attorney general and the department of public safety, or their successor entities, in applying this subdivision.

(3) All medical marijuana cultivation facility, medical marijuana dispensary facility, and medical marijuana-infused products manufacturing facility licenses, entities with medical marijuana testing facility certifications, and entities with transportation certifications shall be held by entities that are majority owned by natural persons who have been citizens of the state of Missouri for at least one year prior to the application for such license or certification. Notwithstanding the foregoing, entities outside the state of Missouri may own a minority stake in such entities.

(4) No medical marijuana cultivation facility, medical marijuana dispensary facility, or medical marijuana-infused products manufacturing facility shall manufacture, package or label marijuana or marijuana-infused products in a false or misleading manner. No person shall sell any product in a manner designed to cause confusion between a marijuana or marijuana-infused product and any product not containing marijuana. A violation of this subdivision shall be punishable by an appropriate and proportional department sanction, up to and including loss of license.

(5) All edible marijuana-infused products shall be sold in individual, child-resistant containers that are labeled with dosage amounts, instructions for use, and estimated length of effectiveness. All marijuana and marijuana-infused products shall be sold in containers clearly and conspicuously labeled, in a font size at least as large as the largest other font size used on the package, as containing "Marijuana", or a "Marijuana-Infused Product". Violation of this prohibition shall subject the violator to department sanctions, including an administrative penalty.

(6) No individual shall serve as the primary caregiver for more than [three] <u>ten</u> qualifying patients.

(7) No qualifying patient shall consume marijuana for medical use in a public place, unless provided by law. Violation of this prohibition shall subject the violator to sanctions as provided by general law.

(8) No person shall extract resins from marijuana using dangerous materials or combustible gases without a medical marijuana-infused products manufacturing facility license. Violation of this prohibition shall subject the violator to department sanctions, including an administrative penalty and, if applicable, loss of their identification card, certificate, or license for up to one year.

(9) All qualifying patient cultivation shall take place in an enclosed, locked facility that is equipped with security devices that permit access only by the qualifying patient or by such patient's primary caregiver. [Two qualifying] Qualifying patients and care givers, who [both] hold valid qualifying patient cultivation identification cards, may share one enclosed, locked facility. No shared facility may contain more than five thousand square feet of canopy space without obtaining a medical marijuana cultivation facility license. [No more than twelve qualifying patient or primary caregiver cultivated flowering marijuana plants may be cultivated in a single, enclosed locked facility, except when a primary caregiver also holds a qualifying patient cultivation identification card, in which case no more than eighteen flowering marijuana plants may be cultivated in a single, enclosed, locked facility.]

(10) No medical marijuana cultivation facility, medical marijuana dispensary facility, medical marijuana-infused products manufacturing facility, medical marijuana testing facility, or entity with a transportation certification shall assign, sell, give, lease, sublicense, or otherwise transfer its license or certificate to any other entity without the express consent of the department, not to be unreasonably withheld.

(11) Unless allowed by the local government, no new medical marijuana cultivation facility, medical marijuana testing facility, medical marijuana dispensary facility, or medical marijuana-infused products manufacturing facility shall be initially sited within one thousand feet of any then-existing elementary or secondary school, child day-care center, or church. No local government shall prohibit medical marijuana cultivation facilities, medical marijuana testing facilities, medical marijuana-infused products manufacturing facilities, or medical marijuana dispensary facilities, or entities with a transportation certification either expressly or through the enactment of ordinances or regulations that make their operation unduly burdensome in the jurisdiction. However, local governments may enact ordinances or regulations not in conflict with this section, or with regulations enacted pursuant to this section, governing the time, place, and manner of operation of such facilities in the locality. A local government may establish civil penalties for violation of an ordinance or regulations governing the time, place, and manner of operation of a medical marijuana cultivation facility, medical marijuana testing facility, medical marijuana-infused products manufacturing facility, medical marijuana dispensary facility, or entity holding a transportation certification that may operate in such locality.

(12) Unless superseded by federal law or an amendment to this Constitution, a physician shall not certify a qualifying condition for a patient by any means other than providing a physician certification for the patient, whether handwritten, electronic, or in another commonly used format. A qualifying patient must obtain a new physician certification at least annually.

(13) A physician shall not issue a certification for the medical use of marijuana for a nonemancipated qualifying patient under the age of eighteen without the written consent of the qualifying patient's parent or legal guardian. The department shall not issue a qualifying patient identification card on behalf of a nonemancipated qualifying patient under the age of eighteen without the written consent of the qualifying patient's parent or legal guardian. Such card shall be issued to one of the parents or guardians and not directly to the patient. [Only a parent or guardian may serve as a primary caregiver for a nonemancipated qualifying patient under the age of eighteen.] At least one of the primary caregivers for a nonemancipated qualifying patient under the age of eighteen must be a parent or legal guardian. Only the qualifying patient's [parent or guardian] primary caregiver shall purchase or possess medical marijuana for a nonemancipated qualifying patient under the age of eighteen. A [parent or guardian] primary caregiver shall supervise the administration of medical marijuana to a nonemancipated qualifying patient under the age of eighteen.

(14) Nothing in this section shall be construed as mandating health insurance coverage of medical marijuana for qualifying patient use.

(15) Real and personal property used in the cultivation, manufacture, transport, testing, distribution, sale, and administration of marijuana for medical use or for activities otherwise in compliance with this section shall not be subject to asset forfeiture solely because of that use.

8. Severability.

The provisions of this section are severable, and if any clause, sentence, paragraph or section of this measure, or an application thereof, is adjudged invalid by any court of competent jurisdiction, the other provisions shall continue to be in effect to the fullest extent possible.

[9. Effective Date.

The provisions of this section shall become effective on December 6, 2018.]

Section 2.

1. Purpose

This section is intended to permit the safe and legal use of cannabis by adults over the age of twenty-one and to reasonably regulate the cultivation, processing, manufacturing, and distribution of cannabis. The people of Missouri have a right to enjoy the benefits of their labor free from unreasonable regulation. This section creates a legal, regulated, and taxed cannabis industry so Missouri businesses can participate in the growing market, and the state can reduce the burden on the budget and criminal justice system caused by the prosecution and incarceration of non-violent cannabis possession and distribution.

This section is not intended to supplant the medical marijuana market. The medical marijuana market is a necessary and important part of many patients' treatment plans. Care guided by a health care provider is important when cannabis is used in an intensive and therapeutic manner.

This section is intended to make only those changes to Missouri laws that are necessary to protect consumers and businesses in the cannabis industry from civil and criminal penalties; and to allow for the responsible consumption of cannabis, combat illegal underage consumption of cannabis, and achieve other important state policy goals such as maintaining an orderly marketplace composed of state-licensed cannabis cultivators, manufacturers, transporters, hospitality establishments, and retailers. This section is not intended to allow for the unregulated public use of cannabis; the operation of any dangerous device or motor vehicle, aircraft or motorboat while under the influence of marijuana; the use of cannabis in the workplace; or the use of cannabis by persons under twenty-one years of age.

2. Definitions.

(1) "Adult use" means the production, possession, delivery, distribution, transportation, or ingestion of cannabis or a cannabis-infused product, or drug paraphernalia used to ingest cannabis or a cannabis-infused product, by a person over the age of twenty-one for purposes other than those provided for in Article XIV Section 1.

(2) "Cannabis" means *Cannabis indica, Cannabis sativa, and Cannabis ruderalis*, hybrids of such species, and any other strains commonly understood within the scientific community to constitute cannabis, hemp, or marijuana. "Cannabis" includes resin extracted from the plant and cannabis-infused products. "Cannabis" does not include industrial hemp as defined by Federal law or commodities or products manufactured from industrial hemp as defined by Federal law. "Cannabis" does not include parts of the plant that do not contain tetrahydrocannabinol (THC) or the soil or substrate in which the plants were grown.

(3) "Cannabis-infused products" means products that are infused with cannabis or an extract thereof and are intended for ingestion other than by smoking, including, but not limited to, edible products, ointments, tinctures and concentrates.

(4) "Cannabis cultivation facility" means a facility licensed by the division to acquire, cultivate, process, store, package, transport, and sell cannabis to or from a cannabis retail facility, cannabis testing facility, cannabis manufacturing facility, or another cannabis cultivation facility.

(5) “Cannabis hospitality facility” means a facility certified by the division to permit the consumption of cannabis by consumers or qualifying patients on the premises.

(6) "Cannabis manufacturing facility" means a facility licensed by the division to acquire, process, manufacture, produce, store, package, transport, and sell cannabis and paraphernalia used to ingest cannabis as provided for in this section to or from a cannabis retail facility, cannabis testing facility, cannabis cultivation facility, or another cannabis manufacturing facility.

(7) "Cannabis retail facility" means a facility licensed by the division to acquire, store, package, sell, transport, and deliver cannabis, cannabis-infused products, and paraphernalia used to ingest cannabis as provided for in this section to a consumer, and acquire, store, package, sell, transport, and deliver cannabis, cannabis-infused products, and paraphernalia used to ingest cannabis as provided for in this section to or from another cannabis retail facility, a cannabis testing facility, cannabis manufacturing facility, or a cannabis cultivation facility.

(8) "Cannabis testing facility" means a facility certified by the division or the division of health and senior services to acquire, test, certify, and transport cannabis.

(9) “Child-Resistant Packaging” means resealable packaging that is opaque and is designed or constructed to be significantly difficult for children under five years of age to open and not difficult for normal adults to use.

(10) “Consumer” means a natural person over the age of twenty-one.

(11) “Delivery” means the delivery of cannabis from a cannabis retail facility to a consumer.

(12) “Disqualifying felony” means any dangerous felony as defined by the laws of this state, but shall not include any felony which is based on the possession or distribution of cannabis unless such act included the distribution of cannabis to a person under the age of seventeen and more than two years younger than the person being charged.

(13) “Division” means the division of alcohol and tobacco control within the department of public safety, or its successor division.

(14) "Entity" means a natural person, corporation, professional corporation, nonprofit corporation, cooperative corporation, unincorporated association, business trust, limited liability company, general or limited partnership, limited liability partnership, joint venture, or any other legal entity.

(15) "Flowering plant" means a cannabis plant from the time it shows physical signs of flowering or budding out of the nodes of the stem through harvest.

(16) “Historically Marginalized Population” means African American and Hispanic populations.

(17) “Ingest” means any method of introducing cannabis or its chemical components into the human body including but not limited to:

(a) Ingestion of capsules, teas, oils, and other cannabis-infused products;

(b) Vaporization or smoking of dried flowers, buds, plant material, extracts, or oils;

(c) Application of ointments or balms;

(d) Transdermal patches and suppositories; or

(e) Consuming cannabis-infused food products.

(18) “Local Government” means a county, township, city, town, village, or municipality.

(19) “Transportation” means the movement of cannabis between licensed facilities. “Transportation” includes the delivery of cannabis to a cannabis retail facility but does not include delivery of cannabis directly to a consumer.

3. Regulation

In carrying out the implementation of this section, the division shall have the authority to:

(1) Grant or refuse state licenses and certifications for the cultivation, manufacture, dispensing, sale, testing, tracking, transportation, delivery, and hospitality of cannabis for adult use in accordance with this section; suspend, fine, restrict, or revoke such licenses and certifications upon a violation of this section or a rule promulgated pursuant to this section; and impose any administrative penalty authorized by this section or any rule promulgated pursuant to this section.

(2) Promulgate rules and emergency rules necessary for the proper regulation and control of the cultivation, manufacture, sale, transportation, and delivery of cannabis for adult use, and for the enforcement of this section, so long as access is not restricted unreasonably and such rules are reasonably necessary for consumer safety or to restrict access to only persons over twenty-one years of age. Such rules may include provisions related to:

(a) Compliance with, enforcement of, or violation of any provision of this section or any rule issued pursuant to this section, including procedures and grounds for denying, suspending, fining, restricting, or revoking a state license or certification issued pursuant to this section;

(b) Specifications of duties of officers and employees of the division;

(c) Instructions or guidance for local authorities and law enforcement officers;

(d) Requirements for inspections, investigations, searches, seizures, and such additional enforcement activities as may become necessary;

(e) Creation of a range of administrative penalties for use by the division;

(f) Prohibition of misrepresentation and unfair practices;

(g) Regulation of informational and product displays on licensed premises provided that the rules may not prevent or unreasonably restrict appropriate signs on the property of the cannabis retail facility, product display and examination by a consumer, listings in business directories including online directories and phone books, listings in cannabis-related publications and websites, or the sponsorship of health or not for profit charity or advocacy events;

(h) Development of identification cards for entities licensed or certified pursuant to this section, including a fingerprint-based criminal background check for owners, officers, and managers of such entities.

(i) Develop such forms, certificates, licenses, and applications, which may be provided in electronic or digital format, as are necessary for, or reasonably related to, the administration of this section or any of the rules promulgated under this section;

(j) Requirements for any entity licensed or certified by the division to create and follow security policies that prevent access to cannabis by any person under the age of twenty-one; prevent entry by any person not authorized by the division or the license holder into areas where cannabis is being cultivated, manufactured, or stored; and provide immediate notice to the entity or their designated agent of any attempt by a person to gain unauthorized or illegal access to cannabis or any area where cannabis is being cultivated, manufactured, or stored;

(k) Regulation of the storage of, warehouses for, and transportation of cannabis for adult use;

(l) Sanitary requirements for, including, but not limited to, the preparation of cannabis-infused products;

(m) The specification of acceptable forms of identification that a cannabis retail facility may accept when verifying a sale;

(n) Labeling and packaging standards that require child-resistant packaging provided that the rules may not unreasonably restrict branding and marketing information that is not misleading and is

designed to make a product recognizable and distinguish it from similar products sold by competitors;

(o) Records to be kept by licensees and the required availability of the records;

(p) State licensing procedures, including procedures for renewals, reinstatements, initial licenses, and the payment of licensing fees;

(q) The reporting and transmittal of tax payments;

(r) Authorization for the division of revenue to have access to licensing information to ensure tax payment and the effective administration of this section;

(s) Ensure an adequate supply of cannabis for medical use, including but not limited to regulations that require facilities to maintain an adequate supply of cannabis for medical use based on sales history and requiring contracts to supply cannabis for medical use to take precedence over contracts to supply cannabis for adult use; and

(t) Such other matters as are necessary for the fair, impartial, and comprehensive administration of this section.

(3) Require a seed-to-sale tracking system that tracks cannabis from either the seed or immature plant stage until the cannabis is sold to a consumer to ensure that no cannabis grown by a cannabis cultivation facility or manufactured by a cannabis manufacturing facility is sold or otherwise transferred to a consumer except by a cannabis retail facility or certified delivery entity. The division shall certify, if possible, at least two commercially available systems to licensees as compliant with its tracking standards and issue standards for the creation or use of other systems by licensees. The division may coordinate with the department of health and senior services to utilize the same seed to sale tracking system as is used to track marijuana for medical use;

(4) Prepare and transmit annually a publicly available report accounting to the governor for the efficient discharge of all responsibilities assigned to the division under this section.

(5) If the division fails to promulgate rules and issue licenses specific to cannabis for adult use prior to June 30, 2023, the rules and regulations for the licensing of alcoholic beverage manufacturing and sale shall apply to cannabis facilities wherever possible.

(6) The division shall not have the authority to apply or enforce any rule or regulation that would require additional fees for applicants, license holders, or certificate holders; impose an undue burden on any one or more licensees or certificate holders; create an undue burden on access to consumers; or act to undermine the purposes of this section. A rule or regulation shall be presumed to impose an undue burden if it imposes restrictions that are greater than those imposed on the manufacture and sale of alcoholic beverages.

4. Licensing

(1) Cannabis transportation and delivery certifications may be issued as follows. The division shall certify entities which demonstrate compliance with its transportation and delivery standards to transport or deliver cannabis. The division shall issue standards for the secure transportation and delivery of cannabis. The division may develop or adopt from any other governmental agency such safety and security standards as are reasonably necessary for the transportation and delivery of cannabis but shall not impose standards that make the transportation or delivery of cannabis impracticable. There shall be no additional fee for a cannabis cultivation facility, a cannabis manufacturing facility, or a cannabis retail facility to be certified for transportation or delivery.

(2) Cannabis testing certification and standards may be issued as follows. The division shall certify cannabis testing facilities which demonstrate compliance with its rules for independent testing and certification of cannabis. The division shall issue rules or emergency rules establishing standards for a cannabis independent testing and certification program for cannabis licensees and requiring licensees to test cannabis using one or more impartial, independent laboratories to ensure, at a minimum, that products sold for human consumption do not contain contaminants that are injurious to health, to ensure correct labeling and measure potency. However, the rules shall not

impose any requirements that make it impracticable for an otherwise qualified facility to obtain certification. The division shall not require any cannabis to be tested more than once prior to sale. No cannabis testing facility shall be owned by an entity under substantially common control, ownership, or management as a cannabis cultivation, manufacturing, or retail facility licensed under this section or a medical marijuana cultivation, manufacturing, or dispensary facility licensed under Article XIV section 1. Testing facilities licensed under Article XIV section 1 shall be automatically certified to test cannabis under the rules issued by the division for the testing of cannabis for adult use.

(3) Cannabis hospitality facility certification may be issued as follows. The division shall certify entities which demonstrate compliance with its hospitality standards to allow for the consumption of cannabis on its premises. The division shall issue standards for the safe consumption of cannabis at locations other than a private residence. The standards shall allow for the facility to sell or provide food and beverages, including alcoholic beverages. The division may develop or adopt from any other governmental agency such safety and security standards as are reasonably necessary for the safe consumption of cannabis at a location other than a private residence, but shall not impose standards that make the operation of a cannabis hospitality facility impracticable.

(4) Cannabis cultivation facility licenses may be issued as follows. An entity may apply to the division for and obtain one or more licenses to grow cannabis as a cannabis cultivation facility. Each facility in operation shall require a separate license, but multiple licenses may be utilized in a single location. Each facility may be limited by the division to not less than thirty thousand square feet of flowering plant canopy space. Facilities may choose to grow indoors using artificial light, outdoors, in a greenhouse utilizing a combination of artificial and natural light, or any combination of methods. The license shall be valid for one year from its date of issuance and shall be renewable, except for good cause. An entity currently licensed as a medical marijuana cultivation facility may also apply for a cannabis cultivation facility license at the same location.

(5) Cannabis manufacturing facility licenses may be issued as follows. An entity may apply to the division for and obtain one or more licenses to operate a cannabis manufacturing facility. Each facility in operation shall require a separate license. A license shall be valid for one year from its date of issuance and shall be renewable, except for good cause. An entity currently licensed as a medical marijuana manufacturing facility may also apply for a cannabis manufacturing facility license at the same location.

(6) Cannabis retail facility licenses may be issued as follows. An entity may apply to the division for and obtain one or more licenses to operate a cannabis retail facility. Each facility in operation shall require a separate license. A license shall be valid for one year from its date of issuance and shall be renewable, except for good cause. An entity currently licensed as a medical marijuana dispensary facility may also apply for a cannabis retail facility license at the same location.

(7) The division may charge an application or renewal fee for each license type not to exceed two thousand five hundred dollars. Application and renewal fees shall be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Division of Labor, or its successor agency. Applications re-submitted after a denial shall not be charged an additional application fee, but may be charged a fee of not more than five hundred dollars for a re-submitted application.

(8) The division may charge a certification and renewal fee for each certification type not to exceed one thousand dollars. Application and renewal fees shall be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Division of Labor, or its successor agency.

(9) An entity may apply for a reduced application or renewal fee. The division shall develop rules to determine the eligibility of an applicant for a reduced fee. The rules shall include consideration for entities:

(a) locating in an area that has an unemployment rate above the national average;

(b) locating in an area that has been designated as an Economic Disadvantaged Zone by the US Division of Commerce;

(c) owned and operated by individuals in protected classes;

(d) owned and operated by veterans;

(e) owned or operated by an entity that was previously denied a medical marijuana facility license based on application score; or

(f) any other factors that would promote the inclusion of small and locally owned businesses and individuals in historically marginalized groups.

(10) All owners, officers, managers, and employees of entities licensed or certified pursuant to this section, shall submit fingerprints to the Missouri state highway patrol for the purpose of conducting a fingerprint-based criminal background check. The Missouri state highway patrol, if necessary, may forward the fingerprints to the Federal Bureau of Investigation(FBI) for the purpose of conducting a fingerprint-based criminal background check. Fingerprints shall be submitted pursuant to 43.543 and fees shall be paid pursuant to 43.530. Notwithstanding the provisions of section 610.120, all records related to any criminal history information shall be available to the division. The criminal background check may be requested by the applicant or employer and performed up to ninety days prior to the submission of an application for license, certification, or employment.

(11) The division shall maintain the confidentiality of information obtained from an applicant or licensee containing any individualized data, information, or records related to the licensee or its operation, including sales information, financial records, tax returns, credit reports, cultivation information, testing results, and security information and plans, or revealing any customer information, or any other records that are exempt from public inspection pursuant to state or federal law. Such information may be used only for a purpose authorized by this section.

(12) The division shall begin accepting license and certification applications not later than August 1, 2023. In order to facilitate the initial costs of regulation, the division may accept application fees beginning January 15, 2023 and shall apply such fees to applications submitted after August 1, 2023. Applications for licenses and certifications under this section shall be approved or denied by the division no later than ninety days after their submission. If the division fails to carry out its nondiscretionary duty to approve or deny an application within ninety days, the application or certification is deemed granted for one year or until revoked for good cause.

(13) There shall be no limit on the number of facility licenses or certifications issued by the division.

(14) Applications for any facility license shall be approved if the applicant can meet the following criteria:

(a) The applicant certifies that they have the following policies and procedures in place:

(i) A loss prevention and site security plan;

(ii) A seed to sale tracking system;

(iii) A method for verifying the age or medical marijuana status of any consumer;

(iv) Employment policies that are non-discriminatory and require fingerprint background checks prior to beginning employment at the facility;

(v) A plan to dispose of excess product in the event of the facility closing which may be satisfied by a plan to sell or donate excess products to the compassionate care program established in this section;

(vi) Sanitation policies for any area where un-packaged cannabis flower or cannabis-infused products are being prepared or packaged;

(vii) Labeling and packaging policies that are not misleading, are not likely to be confused with non-cannabis containing products, and are designed to make a product recognizable and distinguish it from similar products sold by competitors;

(viii) Record retention policy that allows for the inspection of records of purchases and sales for at least the preceding twenty-four months; and

(ix) Certification that any contracts to supply cannabis for medical use will take precedence over contracts to supply cannabis for adult use.

(b) All owners, officers, and managers are over twenty-one years of age and have submitted to a fingerprint background check and have not been convicted of any disqualifying felonies;

(c) The applicant has designated a natural person as a registered agent with the Missouri secretary of state;

(d) The applicant has verified its anticipated location is properly zoned and not within one thousand feet of any then-existing elementary or secondary school, child day-care center, or church; and

(e) The applicant certifies that they will not begin operations until after a commencement inspection as required by the division. Commencement inspections must be completed within thirty days of an applicant's request for such inspection.

(15) Applications for any transportation, delivery, testing, or hospitality certification shall be approved if the applicant can meet the following criteria:

(a) The applicant certifies that they have the following policies and procedures in place:

(i) A loss prevention and security plan suitable to the type of certification;

(ii) For testing certifications, an inventory tracking system;

(iii) For hospitality and delivery certifications, a method for verifying the age or medical marijuana patient status of any consumer;

(iv) Employment policies that are non-discriminatory;

(v) A plan to dispose of unused or undelivered product which may be satisfied by a plan to donate excess products to the compassionate care program established in this section;

(vi) Sanitation policies for any area where cannabis flower or cannabis-infused products are being tested or consumed;

(b) All owners, officers, and managers are over twenty-one years of age and have submitted to a fingerprint background check and have not been convicted of any disqualifying felonies;

(c) The applicant has designated a natural person as a registered agent with the Missouri secretary of state;

(e) For testing facilities, the applicant certifies that they will not begin operations until after a commencement inspection as required by the division. Commencement inspections must be completed within thirty days of an applicant's request for such inspection.

(16) A single entity may hold multiple licenses or certifications and may operate under such licenses at a single location. However, a cannabis hospitality facility certification shall not be issued for a location in which a cannabis cultivation facility, a cannabis manufacturing facility, or a cannabis retail facility is in operation.

(17) Facilities licensed under Article XIV Section 1 may also apply for and be granted licenses and certifications under this section.

5. Taxation and Funding

(1) Application and renewal fees collected by the division shall be used for the administration of this section. If such fees are insufficient to provide for the administration of this section, the division may apply to the Missouri Economic Recovery and Growth Fund for a cash operating transfer which shall be repaid as provided by law.

(2) A tax is hereby levied upon the retail sale of cannabis for adult use sold at cannabis retail facilities within the state.

(a) The tax shall be at a rate of seven and one-half percent of the retail price.

(b) The tax shall be collected by each licensed cannabis retail facility and paid to the department of revenue. After retaining no more than two percent of the amount collected for its actual collection costs, amounts generated by the tax levied in this section shall be deposited by the department of revenue into the Missouri Economic Recovery and Growth Fund. Licensed entities making retail sales within the state shall be allowed approved credit for returns provided the tax was paid on the returned item and the purchaser was given the refund or credit.

(c) Such tax shall not be levied on wholesale sales of cannabis for adult use or any cannabis which is transferred from a cannabis retail facility to a cannabis cultivation or manufacturing facility.

(3) There is hereby created in the state treasury the "Missouri Economic Recovery and Growth Fund", which shall consist of taxes collected under this section. The state treasurer shall be custodian of the fund, and he or she shall invest monies in the fund in the same manner as other funds are invested. Any interest and monies earned on such investments shall be credited to the fund. The commissioner of administration is authorized to make cash operating transfers to the fund for purposes of meeting the cash requirements of the division in advance of it receiving annual application, licensing, and tax revenue, with any such transfers to be repaid as provided by law. The fund shall be a dedicated fund and shall stand appropriated without further legislative action as follows:

(a) One-third of all monies collected shall be distributed to state agencies and political subdivisions for:

(i) the provision and expansion of internet access as a public utility;

(ii) the repair and improvement of existing roads and bridges; or

(iii) the repair and improvement of other public utility services including but not limited to water, sewer, and electricity; and

(b) One-third of all monies collected shall be distributed by the division, with the input of an advisory board at least one third of whose members are health care professionals with experience in the medical use of cannabis, through grants to state agencies, educational institutions, and not-for-profit organizations to:

(i) increase access to evidence-based low-barrier drug addiction treatment; to support drug overdose prevention and reversal education;

(ii) support job placement, housing, and ongoing counseling for those with substance abuse disorders; or

(iii) to provide free legal assistance to individuals seeking to expunge a criminal record or who have been charged with a drug-related crime;

(iv) provide funding for research into the effects of cannabis on the human body, detection of active tetrahydrocannabinol (THC) levels in the human body, and the potential uses of cannabis in psychiatric or substance abuse treatment; and

(c) One-third of all monies collected shall be distributed by the division through grants to not-for-profit organizations that:

(i) provide zero percent interest rate loans or grants to small businesses that are owned by individuals who are members of a historically marginalized population; or

(ii) provide cannabis industry training programs for incarcerated or formerly incarcerated individuals.

(4) All monies from the taxes authorized under this subsection shall provide additional dedicated funding for the purposes enumerated above and shall not replace existing funding.

(5) The unexpended balance existing in the Missouri Economic Recovery and Growth Fund shall be exempt from the provisions of section 33.080 relating to the transfer of unexpended balances to the general revenue fund until the end of the 2028 fiscal year.

(6) Except as authorized in this subsection, no additional taxes shall be imposed on the sale of cannabis for adult use.

(7) The fees and taxes provided for in this Article XIV, Section 2 shall be fully enforceable notwithstanding any other provision in this Constitution purportedly prohibiting or restricting the taxes and fees provided for herein.

(8) A local government may impose a retail sales taxes on the retail sale of cannabis for adult use. Such taxes shall be imposed in the same way as provided for other retail sales taxes in law. Local taxes imposed on the retail sale of cannabis for adult use shall not exceed those imposed by the same jurisdiction on the retail sale of alcoholic beverages or other retail sales whichever is higher.

(9) Any consumer who presents a duly issued medical marijuana patient identification card or a medical marijuana primary caregiver identification card shall not pay the sales tax provided for in this section, but shall pay the sales tax required for medical marijuana sales in Article XIV Section 1.

6. Public Safety

(1) Nothing in this section shall provide immunity for negligence, either common law or statutorily created, nor criminal immunities for operating a vehicle, aircraft, dangerous device, or navigating a boat under the influence of cannabis.

(2) A criminal conviction for an intoxication related offense shall require a showing that the person was actually impaired at the time the offense occurred. Evidence of the presence of inactive tetrahydrocannabinol (THC) metabolites in the person's system shall not be sufficient to show actual impairment.

(3) An allegation of negligence while under the influence of cannabis shall require a showing that the person was actually under the influence of cannabis at the time the negligence occurred. Evidence of the presence of inactive tetrahydrocannabinol (THC) metabolites in the person's system shall not be sufficient to show the person was actually under the influence.

(3) A consumer may cultivate up to twenty-five square feet of flowering canopy of cannabis for adult use in any space owned or leased by said consumer. The space in which cannabis for adult use is being cultivated must be secured against entry by unauthorized individuals including individuals under twenty-one years of age. Such cannabis shall not be provided for sale to any individual but may be sold or donated through the compassionate care program established in this section.

(4) A consumer may possess the following amounts of cannabis at any one time:

(a) up to eight ounces of dried unprocessed flower;

(b) up to twenty-eight grams of concentrated resin or extract; and

(c) up to four thousand milligrams of tetrahydrocannabinol in cannabis-infused products.

(5) No individual who is under twenty-one years of age may possess cannabis in any amount unless such individual is in possession of a medical marijuana patient or primary caregiver license issued pursuant to Article XIV Section 1.

(6) The legislature may pass criminal statute related to the possession, delivery, or distribution of cannabis in excess of the limits provided for in this section without the appropriate license. However, in no case shall the possession, delivery, or distribution of cannabis in an amount less than two times the limits provided for in this section be deemed a felony unless such delivery or distribution was to a person under twenty-one years of age. Any existing laws which criminalize possession, delivery, or distribution of cannabis in amounts less than the limits provided for in this section are hereby declared null and void unless such delivery or distribution was to a person under twenty-one years of age.

(7) Any individual convicted for a crime, other than a dangerous felony or the delivery or distribution to a person under seventeen years of age and more than two years younger than the person being charged, may file for release from custody and expungement of their criminal record in the jurisdiction in which the conviction occurred. Such release from custody shall be expedited and shall be granted unless the person seeking release is incarcerated for additional crimes. Such expungement shall be granted as a matter of right and shall not affect an individual's ability to seek expungement of other offenses under the laws of this state. The supreme court shall make available to the public free of charge forms for a release from custody or the expungement of such offenses. The filing fee for a motion or new cause of action under this subsection shall be no more than the filing fee for actions brought in the small claims court of the same jurisdiction.

(8) The presence or the smell of cannabis shall not be sufficient probable cause for a law enforcement officer to detain or search a person for reasons other than a suspected intoxication offense, or to impound or search the vehicle, residence, or other property of a consumer. Any search or arrest warrant issued for violations of this section or other cannabis laws not in conflict with this section shall require evidence of the violation and shall not be issued on the basis of the presence of cannabis alone. No search or arrest warrant shall be issued based on violations of this section or other cannabis laws not in conflict with this section that would allow law enforcement officers to enter a premises without first knocking and announcing their presence and purpose.

(9) The division shall develop in coordination with the Missouri department of health and senior services a compassionate care program through which cannabis may be tested and sold or donated to a cannabis cultivation facility, cannabis manufacturing facility, or cannabis retail facility by any consumer, cannabis cultivation facility, cannabis manufacturing facility, or cannabis retail facility. Any facility that receives excess cannabis through such program must make any cannabis received through the program available free of charge to qualifying patients and primary caregivers who meet financial need and health necessity criteria. Each facility may develop its own criteria, but in no case shall cannabis be provided free of charge to any individual who is not in possession of a medical marijuana patient or primary caregiver identification card.

7. Local Control

(1) Unless allowed by the local government, no new cannabis cultivation facility, cannabis testing facility, cannabis retail facility, or cannabis manufacturing facility shall be initially sited within one thousand feet of any then-existing elementary or secondary school, child day-care center, or church. A local government may allow for a location closer than one thousand feet but may not impose any restriction greater than one thousand feet.

(2) No local government shall prohibit cannabis cultivation facilities, cannabis testing facilities, cannabis manufacturing facilities, or cannabis retail facilities, or entities with a transportation or hospitality certification from operating within the locality either expressly or through the enactment of ordinances, including but not limited to zoning ordinances, or regulations that make their operation unduly burdensome in the locality. However, local governments may enact ordinances or regulations not in conflict with this section, or with regulations enacted pursuant to this section, governing the time, place, and manner of operation of such facilities in the locality so long as such ordinances or regulations are not more restrictive than those imposed on the manufacture or sale of alcoholic beverages.

(3) Local governments shall develop and adopt ordinances and policies related to cannabis facilities and certificate holders no later than June 30, 2023. The local government shall not adopt ordinances or policies that would impose an excessive fees or an undue burden on any one or more licensees or certificate holders; create an undue burden on access to consumers; or act to undermine the purposes of this section. A rule or regulation shall be presumed to impose excessive fees or an undue burden if it imposes fees higher than or restrictions greater than those imposed on the manufacture and sale of alcoholic beverages.

(4) If the local government fails to adopt ordinances and policies specific to cannabis for adult use prior to June 30, 2023, the rules and regulations for the location and licensing of alcoholic beverage manufacturing and sale shall apply to cannabis facilities wherever possible.

(3) Local governments may require cannabis cultivation facilities, cannabis manufacturing facilities, cannabis retail facilities, cannabis transportation or delivery certificate holders, cannabis hospitality certificate holders to be licensed businesses under the local ordinances. However no local government shall require an additional fee to be paid or additional special license to be acquired by a cannabis license or certificate holder that is not required for other businesses in the jurisdiction.

(4) A local government may establish civil penalties for violation of an ordinance or regulations governing the time, place, and manner of operation of a medical marijuana cultivation facility, medical marijuana testing facility, medical marijuana manufacturing facility, medical marijuana dispensary facility, or entity holding a transportation certification that may operate in such locality so long as such penalties are not greater than those imposed on the manufacture or sale of alcoholic beverages.

8. Other Provisions

(1) All cannabis for adult use sold in Missouri shall be cultivated in a licensed cultivation facility located in Missouri or a licensed facility located in another state if federal law allows for the interstate transportation of cannabis.

(2) All cannabis-infused products for adult use sold in the state of Missouri shall be manufactured in a licensed manufacturing facility or a licensed facility located in another state if federal law allows for the interstate transportation of cannabis-infused products.

(3) A cannabis testing facility shall not be subject to civil or criminal prosecution under Missouri law, denial of any right or privilege, civil or administrative penalty or sanction, or disciplinary action by any accreditation or licensing board or commission for providing laboratory testing services that relate to the adult use of cannabis consistent with this section and otherwise meeting legal standards of professional conduct.

(4) An attorney shall not be subject to disciplinary action by the state bar association or other professional licensing body for being employed by, contracting with, or providing legal assistance to facilities licensed or certified under this section, entities applying for licensing or certification under this section, or any individual seeking legal advice related to activity that is no longer subject to civil or criminal penalties under state law pursuant to this section.

(5) Except as provided for by this section, actions and conduct by consumers, facilities licensed or certified under this section, or the employees, contractors, vendors, or agents of facilities licensed or certified under this section, as permitted by this section and in compliance with division regulations and other provisions of law, shall not be subject to criminal or civil liability or sanctions under Missouri law including but not limited to disciplinary action against a professional license, denial of public assistance programs or public services, or denial of a license to operate a vehicle, watercraft, or other equipment.

(6) It is the public policy of the state of Missouri that contracts related to cannabis for adult use that are entered into by consumers, cannabis testing facilities, cannabis transportation or delivery facilities, cannabis hospitality facilities, cannabis cultivation facilities, cannabis manufacturing facilities, or cannabis retail facilities and those who allow property to be used by those entities, should be enforceable. It is the public policy of the state of Missouri that no contract entered into by consumers, cannabis testing facilities, cannabis transportation or delivery facilities, cannabis

hospitality facilities, cannabis cultivation facilities, cannabis manufacturing facilities, or cannabis retail facilities, or by a person who allows property to be used for activities that are exempt from state criminal penalties by this section, shall be unenforceable on the basis that activities related to cannabis may be prohibited by federal law.

(7) No mandatory reporter under the laws of this state shall be required to report the adult use of cannabis by a parent or prospective parent unless such use is in violation of this section or the parent is actively endangering the health and safety of a child. A prospective foster or adoptive parent shall not be discriminated against for their use of cannabis for non-medical purposes unless such use is in violation of this section or other provisions of law not in conflict with this section.

(8) The denial of a license, license renewal, or identification card by the division shall be appealable to the administrative hearing commission, or its successor entity. Following the exhaustion of administrative review, denial of a license, license renewal, or identification card by the division shall be subject to judicial review as provided by law.

(9) No elected official shall interfere directly or indirectly with the division's obligations and activities under this section.

9. Severability

The provisions of this section are severable, and if any clause, sentence, paragraph or section of this measure, or an application thereof, is adjudged invalid by any court of competent jurisdiction, the other provisions shall continue to be in effect to the fullest extent possible.

RE: Petition approval request from Eric McSwain regarding a proposed constitutional amendment to Article XIX (2022-045)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Eric McSwain on July 13, 2021.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Section A. Article XIV of the Constitution is revised by adopting one new section to be known as Article XIX, Section 2 to read as follows:

Section 2.

1. Purpose

This section is intended to permit the safe and legal use of cannabis by adults over the age of twenty-one and to reasonably regulate the cultivation, processing, manufacturing, and distribution of cannabis. The people of Missouri have a right to enjoy the benefits of their labor free from unreasonable regulation. This section creates a legal, regulated, and taxed cannabis industry so Missouri businesses can participate in the growing market, and the state can reduce the burden on the budget and criminal justice system caused by the prosecution and incarceration of non-violent cannabis possession and distribution.

This section is intended to make only those changes to Missouri laws that are necessary to protect consumers and businesses in the cannabis industry from civil and criminal penalties; and to allow for the responsible consumption of cannabis, combat illegal underage consumption of cannabis, and achieve other important state policy goals such as maintaining an orderly marketplace composed of state-licensed cannabis cultivators, manufacturers, transporters, hospitality establishments, and retailers. This section is not intended to allow for the unregulated public use of cannabis, driving or operating heavy machinery while intoxicated, the use of cannabis in the workplace, or the use of cannabis by persons under twenty-one years of age. This section is not intended to repeal or replace the medical marijuana market.

2. Adult Use of Cannabis by Consumers.

(1) Any person over twenty-one years of age may possess the following amounts of cannabis at any one time:

(a) up to eight ounces of dried unprocessed flower;

(b) up to twenty-eight grams of concentrated resin or extract; and

(c) up to four thousand milligrams of tetrahydrocannabinol in cannabis-infused products.

(2) No individual who is under twenty-one years of age may possess cannabis in any amount unless such individual is in possession of a medical cannabis patient or primary caregiver license issued pursuant to Article XIV Section 1.

(3) A person over twenty-one years of age may cultivate up to twenty-five square feet of flowering canopy of cannabis for adult use in any space owned or leased by said consumer. The space in which cannabis for adult use is being cultivated must be secured against entry by unauthorized individuals including individuals under twenty-one years of age. Such cannabis shall not be provided for sale to any individual but may be sold to a licensed cultivation, manufacturing, or retail facility.

(4) For the purposes of this section, "cannabis" means *Cannabis indica, Cannabis sativa, and Cannabis ruderalis*, hybrids of such species, and any other strains commonly understood within the scientific community to constitute cannabis, hemp, or marijuana. “Cannabis” includes resin extracted from the plant and products containing cannabis. "Cannabis" does not include industrial hemp as defined by Federal law or commodities or products manufactured from industrial hemp as defined by Federal law. “Cannabis” does not include parts of the plant that do not contain tetrahydrocannabinol (THC) or the soil or substrate in which the plants were grown.

2. Regulation

(1) The division of alcohol and tobacco within the Missouri department of public safety is hereby authorized to grant or deny state licenses for the cultivation, manufacture, transportation, on-

premises consumption, and sale of cannabis and cannabis containing products and paraphernalia, for any purpose other than those specified in section 1 of this article.

(2) The division is further authorized to promulgate rules and emergency rules necessary for the proper regulation and control of the cultivation, manufacture, transportation, on-premises consumption, and sale of cannabis and cannabis containing products and paraphernalia for any purpose other than those specified in section 1 of this article, and for the enforcement of this section, so long as access to cannabis is not restricted unreasonably and such rules are reasonably necessary for consumer safety or to restrict access to cannabis to only persons over twenty-one years of age.

(3) A rule or regulation shall be presumed to unreasonably restrict access to cannabis if imposes restrictions that are greater than those imposed on the manufacture and sale of alcoholic beverages.

(4) If the division fails to promulgate rules and issue licenses specific to cannabis for adult use prior to June 30, 2023, the rules and regulations for the licensing of alcoholic beverage manufacturing and sale shall apply to cannabis facilities wherever possible.

(5) The division may charge application or licensure fees to cover the cost of administering the provisions of this section. However, any fees charged shall not exceed two thousand five hundred dollars per license or license application in any single fiscal year. Application and renewal fees shall be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Division of Labor, or its successor agency.

3. Licensure and Certification

(1) Applications for any cultivation, manufacturing or retail facility license, where the product being cultivated, manufactured, or sold at retail contains cannabis, shall be approved if the applicant can meet the following criteria:

(a) The applicant certifies that they are able to meet or exceed the requirements of facilities in the regulations promulgated by the division;

(b) All owners have submitted to a fingerprint background check performed not more than ninety days prior to the submission of the application and have not been convicted of any dangerous felonies or for the distribution of controlled substances to a minor;

(c) The applicant has designated a natural person as a registered agent with the Missouri secretary of state; and

(d) The applicant certifies that they will not begin operations until after a commencement inspection as required by the division.

(2) Applications for any entity seeking to be certified to test or transport cannabis, or provide for on-premises consumption of cannabis, shall be approved if the applicant can meet the following criteria:

(a) The applicant certifies that they are able to meet or exceed the certification standards in the regulations promulgated by the division;

(b) All owners have submitted to a fingerprint background check performed not more than ninety days prior to the submission of the application and have not been convicted of any dangerous felonies or for the distribution of controlled substances to a minor;

(c) The applicant has designated a natural person as a registered agent with the Missouri secretary of state; and

(d) In the case of testing certification, the applicant certifies that they will not begin operations until after a commencement inspection as required by the division.

(3) The division shall begin accepting license and certification applications not later than August 1, 2023. In order to facilitate the initial costs of regulation, the division may accept application fees beginning January 15, 2023 and shall apply such fees to applications submitted after August

1, 2023. Applications for licenses and certifications under this section shall be approved or denied by the division no later than ninety days after their submission. If the division fails to carry out its nondiscretionary duty to approve or deny an application within ninety days, the application or certification is deemed granted for one year or until revoked for good cause.

(4) There shall be no limit on the number of licenses issued by the division.

(5) A single entity may hold multiple licenses or certifications and may operate under such licenses at a single location. However, an on-premises consumption license shall not be issued for a location in which a cannabis cultivation facility, a cannabis manufacturing facility, or a cannabis retail facility is in operation.

3. Taxation

(1) Application and renewal fees collected by the division shall be used for the administration of this section. If such fees are insufficient to provide for the administration of this section, the division may request additional appropriation through the usual appropriation process.

(2) A tax is hereby levied upon the retail sale of cannabis for adult use sold at cannabis retail facilities within the state.

(a) The tax shall be at a rate of seven and one-half percent of the retail price.

(b) The tax shall be collected by each licensed cannabis retail facility and paid to the department of revenue. After retaining no more than two percent of the amount collected for its actual collection costs, amounts generated by the tax levied in this section shall be deposited by the department of revenue into the general revenue fund. Licensed entities making retail sales within the state shall be allowed approved credit for returns provided the tax was paid on the returned item and the purchaser was given the refund or credit.

(c) Such tax shall not be levied on wholesale sales of cannabis for adult use or any cannabis which is transferred from a cannabis retail facility to a cannabis cultivation or manufacturing facility.

(3) Except as authorized in this subsection, no additional taxes shall be imposed on the sale of cannabis for adult use.

(4) A local government may impose a retail sales taxes on the retail sale of cannabis for adult use. Such taxes shall be imposed in the same way as provided for other retail sales taxes in law. Local taxes imposed on the retail sale of cannabis for adult use shall not exceed those imposed by the same jurisdiction on the retail sale of alcoholic beverages or other retail sales whichever is higher.

6. Public Safety

(1) Nothing in this section shall provide immunity for negligence, either common law or statutorily created, nor criminal immunities for operating a vehicle, aircraft, dangerous device, or navigating a boat under the influence of cannabis. Evidence of the presence of inactive tetrahydrocannabinol (THC) metabolites in the person's system shall not be sufficient to show the person was actually under the influence.

(2) The legislature may pass criminal statute related to the possession, delivery, or distribution of cannabis in excess of the limits provided for in this section without the appropriate license. However, in no case shall the possession, delivery, or distribution of cannabis in an amount less than two times the limits provided for in this section be deemed a felony unless such delivery or distribution was to a person under twenty-one years of age.

(3) Any individual convicted for a crime, other than a dangerous felony or the delivery or distribution to a person under seventeen years of age and more than two years younger than the person being charged, may file for release from custody and expungement of their criminal record in the jurisdiction in which the conviction occurred. Such release from custody shall be expedited and shall be granted unless the person seeking release is incarcerated for additional crimes. Such expungement shall be granted as a matter of right and shall not affect an individual's ability to seek expungement of other offenses under the laws of this state. The supreme court shall make

available to the public free of charge forms for a release from custody or the expungement of such offenses. The filing fee for a motion or new cause of action under this subsection shall be no more than the filing fee for actions brought in the small claims court of the same jurisdiction.

(4) The presence or the smell of cannabis shall not be sufficient probable cause for a law enforcement officer to detain or search a person for reasons other than a suspected intoxication offense, or to impound or search the vehicle, residence, or other property of a consumer. Any search or arrest warrant issued for violations of this section or other cannabis laws not in conflict with this section shall require evidence of the violation and shall not be issued on the basis of the presence of cannabis alone. No search or arrest warrant shall be issued based on violations of this section or other cannabis laws not in conflict with this section that would allow law enforcement officers to enter a premises without first knocking and announcing their presence and purpose.

7. Local Control

(1) Local governments shall develop and adopt ordinances and policies related to cannabis licensees no later than June 30, 2023. The local government shall not adopt ordinances or policies that would impose an excessive fees or an undue burden on any one or more licensees; create an undue burden on access to consumers; or act to undermine the purposes of this section. An ordinance or policy shall be presumed to impose excessive fees or an undue burden if it imposes fees higher than or restrictions greater than those imposed on the manufacture and sale of alcoholic beverages.

(2) If the local government fails to adopt ordinances and policies specific to cannabis for adult use prior to June 30, 2023, the rules and regulations for the licensing of alcoholic beverage manufacturing and sale shall apply to cannabis facilities wherever possible.

8. Other Provisions

(1) All cannabis sold in Missouri shall be tested by a laboratory certified under the laws and regulation of Missouri or the similar laws and regulations of another state if interstate transportation of cannabis and cannabis containing products is not illegal under Federal law.

(2) Individuals and entities who are engaging in the acts permitted by this section and in compliance with division regulations and other provisions of law, shall not be subject to criminal or civil liability or sanctions under Missouri law including but not limited to disciplinary action against a professional license, denial of public assistance programs or public services, or denial of a license to operate a vehicle, watercraft, or other equipment.

(3) It is the public policy of the state of Missouri that contracts related to cannabis should be enforceable. It is the public policy of the state of Missouri that no contract entered into by any individual or entity shall be unenforceable on the basis that activities related to cannabis may be prohibited by federal law.

(4) No mandatory reporter under the laws of this state shall be required to report the use of cannabis by a parent or prospective parent unless such use is in violation of this section or the parent is actively endangering the health and safety of a child. A prospective foster or adoptive parent shall not be discriminated against for their use of cannabis for non-medical purposes unless such use is in violation of this section or other provisions of law not in conflict with this section.

(5) No elected official shall interfere directly or indirectly with the division's obligations and activities under this section.

9. Severability

The provisions of this section are severable, and if any clause, sentence, paragraph or section of this measure, or an application thereof, is adjudged invalid by any court of competent jurisdiction, the other provisions shall continue to be in effect to the fullest extent possible.

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Section A. Article XIV of the Constitution is revised by amending Section 1, and adopting one new section to be known as Article XIX, Section 2 to read as follows:

Section 1. 1. Purposes.

This section is intended to permit state-licensed physicians to recommend marijuana for medical purposes to patients with serious illnesses and medical conditions. The section allows patients with qualifying medical conditions the right to discuss freely with their physicians the possible benefits of medical marijuana use, the right of their physicians to provide professional advice concerning the same, and the right to use medical marijuana for treatment under the supervision of a physician.

This section is intended to make only those changes to Missouri laws that are necessary to protect patients, their primary caregivers, and their physicians from civil and criminal penalties, and to allow for the **[**limited**]** legal production, distribution, sale and purchase of marijuana for medical use. This section is not intended to change current civil and criminal laws governing the use of marijuana for nonmedical purposes. The section does not allow for the public use of marijuana and driving under the influence of marijuana.

2. Definitions.

(1) "Administer" means the direct application of marijuana to a qualifying patient by way of any of the following methods:

(a) Ingestion of capsules, teas, oils, and other marijuana-infused products;

(b) Vaporization or smoking of dried flowers, buds, plant material, extracts, or oils;

(c) Application of ointments or balms;

(d) Transdermal patches and suppositories;

(e) Consuming marijuana-infused food products; or

(f) Any other method recommended by a qualifying patient's physician.

(2) "Department" means the department of health and senior services, or its successor agency.

(3) "Entity" means a natural person, corporation, professional corporation, nonprofit corporation, cooperative corporation, unincorporated association, business trust, limited liability company, general or limited partnership, limited liability partnership, joint venture, or any other legal entity.

(4) "Flowering plant" means a marijuana plant from the time it exhibits the first signs of sexual maturity through harvest.

(5) "Marijuana" or "marihuana" means *Cannabis indica*, *Cannabis sativa*, and *Cannabis ruderalis*, hybrids of such species, and any other strains commonly understood within the scientific community to constitute marijuana, as well as resin extracted from the plant and marijuana-infused products. "Marijuana" or "marihuana" do not include industrial hemp **[**containing a cropwide average tetrahydrocannabinol concentration that does not exceed three-tenths of one percent on a dry weight basis**]** **as defined by federal law**, or commodities or products manufactured from industrial hemp **as defined by federal law**.

(6) "Marijuana-infused products" means products that are infused with marijuana or an extract thereof and are intended for use or consumption other than by smoking, including, but not limited to, edible products, ointments, tinctures and concentrates.

(7) "Medical marijuana cultivation facility" means a facility licensed by the department to acquire, cultivate, process, store, transport, and sell marijuana to a medical marijuana dispensary facility, medical marijuana testing facility, or to a medical marijuana-infused products manufacturing facility.

(8) "Medical marijuana dispensary facility" means a facility licensed by the department to acquire, store, sell, transport, and deliver marijuana, marijuana-infused products, and drug paraphernalia used to administer marijuana as provided for in this section to a qualifying patient, a primary caregiver, another medical marijuana dispensary facility, a medical marijuana testing facility, or a medical marijuana-infused products manufacturing facility.

(9) "Medical marijuana-infused products manufacturing facility" means a facility licensed by the department to acquire, store, manufacture, transport, and sell marijuana-infused products to a medical marijuana dispensary facility, a medical marijuana testing facility, or to another medical marijuana-infused products manufacturing facility.

(10) "Medical marijuana testing facility" means a facility certified by the department to acquire, test, certify, and transport marijuana.

(11) "Medical use" means the production, possession, delivery, distribution, transportation, or administration of marijuana or a marijuana-infused product, or drug paraphernalia used to administer marijuana or a marijuana-infused product, for the benefit of a qualifying patient to mitigate the symptoms or effects of the patient's qualifying medical condition.

(12) "Physician" means an individual who is licensed and in good standing to practice medicine or osteopathy under Missouri law.

(13) "Physician certification" means a document, whether handwritten, electronic or in another commonly used format, signed by a physician and stating that, in the physician's professional opinion, the patient suffers from a qualifying medical condition.

(14) "Primary caregiver" means an individual twenty-one years of age or older who has significant responsibility for managing the well-being of a qualifying patient and who is designated as such on the primary caregiver's application for an identification card under this section or in other written notification to the department. **Any health care provider licensed under the laws of the state may also serve as a primary caregiver. A qualifying patient may have up to three primary caregivers.**

(15) "Qualifying medical condition" means the condition of, symptoms related to, or side-effects from the treatment of:

(a) Cancer;

(b) Epilepsy;

(c) Glaucoma;

(d) Intractable migraines unresponsive to other treatment;

(e) A chronic medical condition that causes severe, persistent pain or persistent muscle spasms, including but not limited to those associated with multiple sclerosis, seizures, Parkinson's disease, and Tourette's syndrome;

(f) Debilitating psychiatric disorders, including, but not limited to, posttraumatic stress disorder, if diagnosed by a state licensed psychiatrist;

(g) Human immunodeficiency virus or acquired immune deficiency syndrome;

(h) A chronic medical condition that is normally treated with a prescription medication that could lead to physical or psychological dependence, when a physician determines that medical use of marijuana could be effective in treating that condition and would serve as a safer alternative to the prescription medication;

(i) Any terminal illness; or

(j) In the professional judgment of a physician, any other chronic, debilitating or other medical condition, including, but not limited to, hepatitis C, amyotrophic lateral sclerosis, inflammatory

bowel disease, Crohn's disease, Huntington's disease, autism, neuropathies, sickle cell anemia, agitation of Alzheimer's disease, cachexia, and wasting syndrome.

(16) "Qualifying patient" means a Missouri resident diagnosed with at least one qualifying medical condition.

3. Creating Patient Access to Medical Marijuana.

(1) In carrying out the implementation of this section, the department shall have the authority to:

(a) Grant or refuse state licenses and certifications for the cultivation, manufacture, dispensing, sale, testing, tracking, and transportation of marijuana for medical use as provided by law; suspend, fine, restrict, or revoke such licenses and certifications upon a violation of this section or a rule promulgated pursuant to this section; and impose any administrative penalty authorized by this section or any rule promulgated pursuant to this section.

(b) Promulgate rules and emergency rules necessary for the proper regulation and control of the cultivation, manufacture, dispensing, and sale of marijuana for medical use and for the enforcement of this section so long as patient access is not restricted unreasonably and such rules are reasonably necessary for patient safety or to restrict access to only licensees and qualifying patients.

(c) Develop such forms, certificates, licenses, identification cards, and applications as are necessary for, or reasonably related to, the administration of this section or any of the rules promulgated under this section;

(d) Require a seed-to-sale tracking system that tracks medical marijuana from either the seed or immature plant stage until the medical marijuana or medical marijuana-infused product is sold to a qualifying patient or primary caregiver to ensure that no medical marijuana grown by a medical marijuana cultivation facility or manufactured by a medical marijuana-infused products manufacturing facility is sold or otherwise transferred except by a medical marijuana dispensary facility. The department shall certify, if possible, at least two commercially available systems to licensees as compliant with its tracking standards and issue standards for the creation or use of other systems by licensees.

(e) Issue standards for the secure transportation of marijuana and marijuana-infused products. The department shall certify entities which demonstrate compliance with its transportation standards to transport marijuana and marijuana-infused products to a medical marijuana cultivation facility, a medical marijuana-infused products manufacturing facility, a medical marijuana dispensary facility, a medical marijuana testing facility, or another entity with a transportation certification. The department shall develop or adopt from any other governmental agency such safety and security standards as are reasonably necessary for the transportation of marijuana. Any entity licensed or certified pursuant to this section shall be allowed to transport cannabis.

(f) The department may charge a fee not to exceed $5,000 for any certification issued pursuant to this section.

(g) Prepare and transmit annually a publicly available report accounting to the governor for the efficient discharge of all responsibilities assigned to the department under this section;

[(h) Establish a system to numerically score competing medical marijuana licensee and certificate applicants, only in cases where more applicants apply than the minimum number of licenses or certificates as calculated by this section, which scoring shall be limited to an analysis of the following:

(i) the character, veracity, background, qualifications, and relevant experience of principal officers or managers;

(ii) the business plan proposed by the applicant, which in the case of cultivation facilities and dispensaries shall include the ability to maintain an adequate supply of marijuana, plans to ensure safety and security of qualifying patients and the community, procedures to be used to prevent diversion, and any plan for making marijuana available to low-income qualifying patients;

(iii) site security;

(iv) experience in a legal cannabis market;

(v) in the case of medical marijuana testing facilities, the experience of their personnel with testing marijuana, food or drugs for toxins and/or potency and health care industry experience;

(vi) the potential for positive economic impact in the site community;

(vii) in the case of medical marijuana cultivation facilities, capacity or experience with agriculture, horticulture, and health care;

(viii) in the case of medical marijuana dispensary facilities, capacity or experience with health care, the suitability of the proposed location, and its accessibility for patients;

(ix) in the case of medical marijuana-infused products manufacturing facilities, capacity or experience with food and beverage manufacturing; and

(x) maintaining competitiveness in the marijuana for medical use marketplace.

In ranking applicants and awarding licenses and certificates, the department may consult or contract with other public agencies with relevant expertise regarding these factors. The department shall lift or ease any limit on the number of licensees or certificate holders in order to meet the demand for marijuana for medical use by qualifying patients.]

(2) The department shall issue any rules or emergency rules necessary for the implementation and enforcement of this section and to ensure the right to, availability, and safe use of marijuana for medical use by qualifying patients. In developing such rules or emergency rules, the department may consult with other public agencies. In addition to any other rules or emergency rules necessary to carry out the mandates of this section, the department may issue rules or emergency rules relating to the following subjects:

(a) Compliance with, enforcement of, or violation of any provision of this section or any rule issued pursuant to this section, including procedures and grounds for denying, suspending, fining, restricting, or revoking a state license or certification issued pursuant to this section;

(b) Specifications of duties of officers and employees of the department;

(c) Instructions or guidance for local authorities and law enforcement officers;

(d) Requirements for inspections, investigations, searches, seizures, and such additional enforcement activities as may become necessary from time to time;

(e) Creation of a range of administrative penalties for use by the department;

(f) Prohibition of misrepresentation and unfair practices;

(g) Control of informational and product displays on licensed premises provided that the rules may not prevent or unreasonably restrict appropriate signs on the property of the medical marijuana dispensary facility, product display and examination by the qualifying patient and/or primary caregiver, listings in business directories including phone books, listings in marijuana-related or medical publications, or the sponsorship of health or not for profit charity or advocacy events;

(h) Development of individual identification cards for owners, officers, managers, contractors, employees, and other support staff of entities licensed or certified pursuant to this section, including a fingerprint-based federal and state criminal record check in accordance with U.S. Public Law 92-544, or its successor provisions, as may be required by the department prior to issuing a card and procedures to ensure that cards for new applicants are issued within fourteen days. Applicants licensed pursuant to this section shall submit fingerprints to the Missouri state highway patrol for the purpose of conducting a state and federal fingerprint-based criminal background check. The Missouri state highway patrol, if necessary, [shall] **may** forward the fingerprints to the Federal Bureau of Investigation (FBI) for the purpose of conducting a

fingerprint-based criminal background check. Fingerprints shall be submitted pursuant to 43.543 and fees shall be paid pursuant to 43.530;

(i) Security requirements for any premises licensed or certified pursuant to this section, including, at a minimum, lighting, physical security, video, alarm requirements, and other minimum procedures for internal control as deemed necessary by the department to properly administer and enforce the provisions of this section, including reporting requirements for changes, alterations, or modifications to the premises;

(j) Regulation of the storage of, warehouses for, and transportation of marijuana for medical use;

(k) Sanitary requirements for, including, but not limited to, the preparation of medical marijuana-infused products;

(l) The specification of acceptable forms of picture identification that a medical marijuana dispensary facility may accept when verifying a sale;

(m) Labeling and packaging standards;

(n) Records to be kept by licensees and the required availability of the records;

(o) State licensing procedures, including procedures for renewals, reinstatements, initial licenses, and the payment of licensing fees;

(p) The reporting and transmittal of tax payments;

(q) Authorization for the department of revenue to have access to licensing information to ensure tax payment and the effective administration of this section; and

(r) Such other matters as are necessary for the fair, impartial, stringent, and comprehensive administration of this section.

(3) The department shall issue rules or emergency rules for a medical marijuana and medical marijuana-infused products independent testing and certification program for medical marijuana licensees and requiring licensees to test medical marijuana using one or more impartial, independent laboratories to ensure, at a minimum, that products sold for human consumption do not contain contaminants that are injurious to health, to ensure correct labeling and measure potency. The department shall not require any medical marijuana or medical marijuana-infused products to be tested more than once prior to sale.

(4) The department shall issue rules or emergency rules to provide for the certification of and standards for medical marijuana testing facilities, including the requirements for equipment and qualifications for personnel, but shall not require certificate holders to have any federal agency licensing or have any relationship with a federally licensed testing facility. The department shall certify, if possible, at least two entities as medical marijuana testing facilities. No medical marijuana testing facility shall be owned by an entity under substantially common control, ownership, or management as a medical marijuana cultivation facility, medical marijuana-infused product manufacturing facility, or medical marijuana dispensary facility.

(5) The department shall maintain the confidentiality of reports or other information obtained from an applicant or licensee containing any individualized data, information, or records related to the licensee or its operation, including sales information, financial records, tax returns, credit reports, cultivation information, testing results, and security information and plans, or revealing any patient information, or any other records that are exempt from public inspection pursuant to state or federal law. Such reports or other information may be used only for a purpose authorized by this section. Any information released related to patients may be used only for a purpose authorized by federal law and this section, including verifying that a person who presented a patient identification card to a state or local law enforcement official is lawfully in possession of such card.

(6) Within one hundred eighty days of December 6, 2018, the department shall make available to the public license application forms and application instructions for medical marijuana cultivation

facilities, medical marijuana testing facilities, medical marijuana dispensary facilities, and medical marijuana-infused products manufacturing facilities.

(7) Within one hundred eighty days of December 6, 2018, the department shall make available to the public application forms and application instructions for qualifying patient, qualifying patient cultivation, and primary caregiver identification cards. Within two hundred ten days of December 6, 2018, the department shall begin accepting applications for such identification cards.

(8) An entity may apply to the department for and obtain one or more licenses to grow marijuana as a medical marijuana cultivation facility. Each facility in operation shall require a separate license, but multiple licenses may be utilized in a single facility. Each indoor facility utilizing artificial lighting may be limited by the department to thirty thousand square feet of flowering plant canopy space. Each outdoor facility utilizing natural lighting may be limited by the department to two thousand eight hundred flowering plants. Each greenhouse facility using a combination of natural and artificial lighting may be limited by the department, at the election of the licensee, to two thousand eight hundred flowering plants or thirty thousand square feet of flowering plant canopy. The license shall be valid for three years from its date of issuance and shall be renewable, except for good cause. The department shall charge each applicant a nonrefundable fee of ten thousand dollars per license application or renewal for all applicants filing an application within three years of December 6, 2018, and shall charge each applicant a nonrefundable fee of five thousand dollars per license application or renewal thereafter. Once granted, the department shall charge each licensee an annual fee of twenty-five thousand dollars per facility license. Application and license fees shall be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency. No more than three medical marijuana cultivation facility licenses shall be issued to any entity under substantially common control, ownership, or management.

(9) An entity may apply to the department for and obtain one or more licenses to operate a medical marijuana dispensary facility. Each facility in operation shall require a separate license. A license shall be valid for three years from its date of issuance and shall be renewable, except for good cause. The department shall charge each applicant a nonrefundable fee of six thousand dollars per license application or renewal for each applicant filing an application within three years of December 6, 2018, and shall charge each applicant a nonrefundable fee of three thousand dollars per license application or renewal thereafter. Once granted, the department shall charge each licensee an annual fee of ten thousand dollars per facility license. Application and license fees shall be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency. No more than five medical marijuana dispensary facility licenses shall be issued to any entity under substantially common control, ownership, or management.

(10) An entity may apply to the department for and obtain one or more licenses to operate a medical marijuana-infused products manufacturing facility. Each facility in operation shall require a separate license. A license shall be valid for three years from its date of issuance and shall be renewable, except for good cause. The department shall charge each applicant a nonrefundable fee of six thousand dollars per license application or renewal for each applicant filing an application within three years of December 6, 2018, and shall charge each applicant a nonrefundable fee of three thousand dollars per license application or renewal thereafter. Once granted, the department shall charge each licensee an annual fee of ten thousand dollars per facility license. Application and license fees shall be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency. No more than three medical marijuana-infused products manufacturing facility licenses shall be issued to any entity under substantially common control, ownership, or management.

(11) Any applicant for a license authorized by this section may prefile their application fee with the department beginning 30 days after December 6, 2018.

(12) Except for good cause, a qualifying patient or his or her primary caregiver may obtain an identification card from the department to cultivate up to [six flowering marijuana plants] **fifty square feet of canopy space** for the [exclusive use] **benefit** of that qualifying patient. The card

shall be valid for twelve months from its date of issuance and shall be renewable with the annual submittal of a new or updated physician's certification. The department shall charge an annual fee for the card of [one hundred] **twenty-five** dollars, with such rate to be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency. **In no case shall any qualifying patient cultivate more than fifty square feet of canopy space regardless of the number of primary caregivers assigned to said qualifying patient.**

(13) The department may set a limit on the amount of marijuana that may be purchased by or on behalf of a single qualifying patient in a thirty-day period, provided that limit is not less than four ounces of dried, unprocessed marijuana, or its equivalent. Any such limit shall not apply to a qualifying patient with written certification from two independent physicians that there are compelling reasons why the qualifying patient needs a greater amount than the limit established by the department.

(14) The department may set a limit on the amount of marijuana that may be possessed by or on behalf of each qualifying patient, provided that limit is not less than a sixty-day supply of dried, unprocessed marijuana, or its equivalent. A primary caregiver may possess a separate legal limit for each qualifying patient under their care and a separate legal limit for themselves if they are a qualifying patient. **In no case shall the total amount of medical marijuana attributed to a single qualifying patient in the possession of multiple primary caregivers exceed the limit set by the department.** Qualifying patients cultivating marijuana for medical use may possess up to a [ninety-day] **one year** supply, so long as the supply remains **secured** on property under their control. Any such limit shall not apply to a qualifying patient with written certification from two independent physicians that there are compelling reasons for additional amounts. Possession of between the legal limit and up to twice the legal limit shall subject the possessor to department sanctions, including an administrative penalty and loss of their patient identification card for up to a year. Purposefully possessing amounts in excess of twice the legal limit shall be punishable by [imprisonment of up to one year and] a fine of up to two thousand dollars.

[(15) The department may restrict the aggregate number of licenses granted for medical marijuana cultivation facilities, provided, however, that the number may not be limited to fewer than one license per every one hundred thousand inhabitants, or any portion thereof, of the state of Missouri, according to the most recent census of the United States. A decrease in the number of inhabitants in the state of Missouri shall have no impact.

(16) The department may restrict the aggregate number of licenses granted for marijuana-infused products manufacturing facilities, provided, however, that the number may not be limited to fewer than one license per every seventy thousand inhabitants, or any portion thereof, of the state of Missouri, according to the most recent census of the United States. A decrease in the number of inhabitants in the state of Missouri shall have no impact.

(17) The department may restrict the aggregate number of licenses granted for medical marijuana dispensary facilities, provided, however, that the number may not be limited to fewer than twenty-four licenses in each United States congressional district in the state of Missouri pursuant to the map of each of the eight congressional districts as drawn and effective on December 6, 2018. Future changes to the boundaries of or the number of congressional districts shall have no impact.]

(18) The department shall begin accepting license and certification applications for medical marijuana dispensary facilities, medical marijuana testing facilities, medical marijuana cultivation facilities, medical marijuana-infused products manufacturing facilities, seed-to-sale tracking systems, and for transportation of marijuana no later than two hundred forty days after December 6, 2018. Applications for licenses and certifications under this section shall be approved or denied by the department no later than one hundred fifty days after their submission. If the department fails to carry out its nondiscretionary duty to approve or deny an application within one hundred fifty days of submission, an applicant may immediately seek a court order compelling the department to approve or deny the application.

(19) Qualifying patients under this section shall obtain and annually renew an identification card or cards from the department. The department shall charge a fee of twenty-five dollars per year per card with such fee to be increased or decreased each year by the percentage of increase or

decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor or its successor agency. Upon receiving an application for a qualifying patient identification card or qualifying patient cultivation identification card, the department shall, within thirty days, either issue the card or provide a written explanation for its denial. If the department fails to deny and fails to issue a card to an eligible qualifying patient within thirty days, then their physician certification shall serve as their qualifying patient identification card or qualifying patient cultivation identification card for up to one year from the date of physician certification. All initial applications for or renewals of a qualifying patient identification card or qualifying patient cultivation identification card shall be accompanied by a physician certification that is less than thirty days old.

(20) Primary caregivers under this section shall obtain and annually renew an identification card from the department. The department shall charge a fee of twenty-five dollars per year, with such fee to be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency. Upon receiving an application for a primary caregiver identification card, the department shall, within thirty days, either issue the card or provide a written explanation for its denial.

(21) All marijuana for medical use sold in Missouri shall be cultivated in a licensed medical marijuana cultivation facility located in Missouri.

(22) All marijuana-infused products for medical use sold in the state of Missouri shall be manufactured in a medical marijuana-infused products manufacturing facility.

(23) The denial of a license, license renewal, or identification card by the department shall be appealable to the administrative hearing commission, or its successor entity. Following the exhaustion of administrative review, denial of a license, license renewal, or identification card by the department shall be subject to judicial review as provided by law.

(24) No elected official shall interfere directly or indirectly with the department's obligations and activities under this section.

(25) The department shall not have the authority to apply or enforce any rule or regulation that would impose an undue burden on any one or more licensees or certificate holders, any qualifying patients, or act to undermine the purposes of this section.

4. Taxation and Reporting.

(1) A tax is levied upon the retail sale of marijuana for medical use sold at medical marijuana dispensary facilities within the state. The tax shall be at a rate of four percent of the retail price. The tax shall be collected by each licensed medical marijuana dispensary facility and paid to the department of revenue. After retaining no more than five percent for its actual collection costs, amounts generated by the tax levied in this section shall be deposited by the department of revenue into the Missouri veterans' health and care fund. Licensed entities making retail sales within the state shall be allowed approved credit for returns provided the tax was paid on the returned item and the purchaser was given the refund or credit.

(2) There is hereby created in the state treasury the "Missouri Veterans' Health and Care Fund", which shall consist of taxes and fees collected under this section. The state treasurer shall be custodian of the fund, and he or she shall invest monies in the fund in the same manner as other funds are invested. Any interest and monies earned on such investments shall be credited to the fund. Notwithstanding any other provision of law, any monies remaining in the fund at the end of a biennium shall not revert to the credit of the general revenue fund. The commissioner of administration is authorized to make cash operating transfers to the fund for purposes of meeting the cash requirements of the department in advance of it receiving annual application, licensing, and tax revenue, with any such transfers to be repaid as provided by law. The fund shall be a dedicated fund and shall stand appropriated without further legislative action as follows:

(a) First, to the department, an amount **not to exceed twenty percent of net deposits which is** necessary for the department to carry out this section, including repayment of any cash operating transfers, payments made through contract or agreement with other state and public agencies

necessary to carry out this section, and a reserve fund to maintain a reasonable working cash balance for the purpose of carrying out this section;

(b) Next, the remainder of such funds shall be transferred to the Missouri veterans commission for health and care services for military veterans, including the following purposes: operations, maintenance and capital improvements of the Missouri veterans homes, the Missouri service officer's program, and other services for veterans approved by the commission, including, but not limited to, health care services, mental health services, drug rehabilitation services, housing assistance, job training, tuition assistance, and housing assistance to prevent homelessness. The Missouri veterans commission shall contract with other public agencies for the delivery of services beyond its expertise.

(c) All monies from the taxes authorized under this subsection shall provide additional dedicated funding for the purposes enumerated above and shall not replace existing dedicated funding.

(3) For all retail sales of marijuana for medical use, a record shall be kept by the seller which identifies, by secure and encrypted patient number issued by the seller to the qualifying patient involved in the sale, all amounts and types of marijuana involved in the sale and the total amount of money involved in the sale, including itemizations, taxes collected and grand total sale amounts. All such records shall be kept on the premises in a readily available format and be made available for review by the department and the department of revenue upon request. Such records shall be retained for five years from the date of the sale.

(4) The tax levied pursuant to this subsection is separate from, and in addition to, any general state and local sales and use taxes that apply to retail sales, which shall continue to be collected and distributed as provided by general law.

(5) Except as authorized in this subsection, no additional taxes shall be imposed on the sale of marijuana for medical use.

(6) The fees and taxes provided for in this Article XIV, Section 1 shall be fully enforceable notwithstanding any other provision in this Constitution purportedly prohibiting or restricting the taxes and fees provided for herein.

(7) The unexpended balance existing in the fund shall be exempt from the provisions of section 33.080 relating to the transfer of unexpended balances to the general revenue fund.

5. Additional Patient, Physician, Caregiver and Provider Protections.

(1) Except as provided in this section, the possession of marijuana in quantities less than the limits of this section, or established by the department, and transportation of marijuana from a medical marijuana dispensary facility to the qualifying patient's residence shall not subject the possessor to arrest, criminal or civil liability, or sanctions under Missouri law, provided that the possessor produces on demand to the appropriate authority a valid qualifying patient identification card; a valid qualifying patient cultivation identification card; a valid physician certification while making application for an identification card; or a valid primary caregiver identification card. Production of the respective equivalent identification card or authorization issued by another state or political subdivision of another state shall also meet the requirements of this subdivision.

(2) No patient shall be denied access to or priority for an organ transplant because they hold a qualifying patient identification card or use marijuana for medical use.

(3) A physician shall not be subject to criminal or civil liability or sanctions under Missouri law or discipline by the Missouri state board of registration for the healing arts, or its successor agency, for owning, operating, investing in, being employed by, or contracting with any entity licensed or certified pursuant to this section or issuing a physician certification to a patient diagnosed with a qualifying medical condition in a manner consistent with this section and legal standards of professional conduct.

(4) A health care provider**, including individuals licensed under chapter 335 or 337 or their successor statutes,** shall not be subject to civil or criminal prosecution under Missouri law, denial of any right or privilege, civil or administrative penalty or sanction, or disciplinary action by any

accreditation or licensing board or commission for owning, operating, investing in, being employed by, or contracting with any entity licensed or certified pursuant to this section or providing health care services that involve the medical use of marijuana consistent with this section and legal standards of professional conduct.

(5) A medical marijuana testing facility shall not be subject to civil or criminal prosecution under Missouri law, denial of any right or privilege, civil or administrative penalty or sanction, or disciplinary action by any accreditation or licensing board or commission for providing laboratory testing services that relate to the medical use of marijuana consistent with this section and otherwise meeting legal standards of professional conduct.

(6) A health care provider shall not be subject to mandatory reporting requirements for the medical use of marijuana by nonemancipated qualifying patients under eighteen years of age in a manner consistent with this section and with consent of a parent or guardian.

(7) A primary caregiver shall not be subject to criminal or civil liability or sanctions under Missouri law for purchasing, transporting, or administering marijuana for medical use to a qualifying patient or participating in the patient cultivation [of up to six flowering marijuana plants per patient] in a manner consistent with this section and generally established legal standards of personal or professional conduct.

(8) An attorney shall not be subject to disciplinary action by the state bar association or other professional licensing body for owning, operating, investing in, being employed by, contracting with, or providing legal assistance to prospective or licensed medical marijuana testing facilities, medical marijuana cultivation facilities, medical marijuana dispensary facilities, medical marijuana-infused products manufacturing facilities, qualifying patients, primary caregivers, physicians, health care providers or others related to activity that is no longer subject to criminal penalties under state law pursuant to this section.

(9) Actions and conduct by qualifying patients, primary caregivers, medical marijuana testing facilities, medical marijuana cultivation facilities, medical marijuana-infused products manufacturing facilities, or medical marijuana dispensary facilities licensed or registered with the department, or their employees or agents, as permitted by this section and in compliance with department regulations and other standards of legal conduct, shall not be subject to criminal or civil liability or sanctions under Missouri law, except as provided for by this section.

(10) Nothing in this section shall provide immunity for negligence, either common law or statutorily created, nor criminal immunities for operating a vehicle, aircraft, dangerous device, or navigating a boat under the influence of marijuana.

(11) It is the public policy of the state of Missouri that contracts related to marijuana for medical use that are entered into by qualifying patients, primary caregivers, medical marijuana testing facilities, medical marijuana cultivation facilities, medical marijuana-infused products manufacturing facilities, or medical marijuana dispensary facilities and those who allow property to be used by those entities, should be enforceable. It is the public policy of the state of Missouri that no contract entered into by qualifying patients, primary caregivers, medical marijuana testing facilities, medical marijuana cultivation facilities, medical marijuana-infused products manufacturing facilities, or medical marijuana dispensary facilities, or by a person who allows property to be used for activities that are exempt from state criminal penalties by this section, shall be unenforceable on the basis that activities related to medical marijuana may be prohibited by federal law.

6. Legislation.

Nothing in this section shall limit the general assembly from enacting laws consistent with this section, or otherwise effectuating the patient rights of this section. The legislature shall not enact laws that hinder the right of qualifying patients to access marijuana for medical use as granted by this section.

7. Additional Provisions.

(1) Nothing in this section permits a person to:

(a) Consume marijuana for medical use in a jail or correctional facility;

(b) Undertake any task under the influence of marijuana when doing so would constitute negligence or professional malpractice; or

(c) Operate, navigate, or be in actual physical control of any dangerous device or motor vehicle, aircraft or motorboat while under the influence of marijuana; or

(d) Bring a claim against any employer, former employer, or prospective employer for wrongful discharge, discrimination, or any similar cause of action or remedy, based on the employer, former employer, or prospective employer prohibiting the employee, former employee, or prospective employee from being under the influence of marijuana while at work or disciplining the employee or former employee, up to and including termination from employment, for working or attempting to work while under the influence of marijuana.

(2) No medical marijuana cultivation facility, medical marijuana testing facility, medical marijuana dispensary facility, or medical marijuana-infused products manufacturing facility, or entity with a transportation certification shall be owned, in whole or in part, or have as an officer, director, board member, manager, or employee, any individual with a disqualifying felony offense. A "disqualifying felony offense" is a violation of, and conviction or guilty plea to, state or federal law that is, or would have been, a felony under Missouri law, regardless of the sentence imposed, unless the department determines that:

(a) The person's conviction was for the medical use of marijuana or assisting in the medical use of marijuana; or

(b) The person's conviction was for a nonviolent crime **[**for which he or she was not incarcerated and that is more than five years old**]**; or

(c) More than five years have passed since the person was released from parole or probation, and he or she has not been convicted of any subsequent criminal offenses.

The department may consult with and rely on the records, advice and recommendations of the attorney general and the department of public safety, or their successor entities, in applying this subdivision.

(3) All medical marijuana cultivation facility, medical marijuana dispensary facility, and medical marijuana-infused products manufacturing facility licenses, entities with medical marijuana testing facility certifications, and entities with transportation certifications shall be held by entities that are majority owned by natural persons who have been citizens of the state of Missouri for at least one year prior to the application for such license or certification. Notwithstanding the foregoing, entities outside the state of Missouri may own a minority stake in such entities.

(4) No medical marijuana cultivation facility, medical marijuana dispensary facility, or medical marijuana-infused products manufacturing facility shall manufacture, package or label marijuana or marijuana-infused products in a false or misleading manner. No person shall sell any product in a manner designed to cause confusion between a marijuana or marijuana-infused product and any product not containing marijuana. A violation of this subdivision shall be punishable by an appropriate and proportional department sanction, up to and including loss of license.

(5) All edible marijuana-infused products shall be sold in individual, child-resistant containers that are labeled with dosage amounts, instructions for use, and estimated length of effectiveness. All marijuana and marijuana-infused products shall be sold in containers clearly and conspicuously labeled, in a font size at least as large as the largest other font size used on the package, as containing "Marijuana", or a "Marijuana-Infused Product". Violation of this prohibition shall subject the violator to department sanctions, including an administrative penalty.

(6) No individual shall serve as the primary caregiver for more than **[**three**]** **ten** qualifying patients.

(7) No qualifying patient shall consume marijuana for medical use in a public place, unless provided by law. Violation of this prohibition shall subject the violator to sanctions as provided by general law.

(8) No person shall extract resins from marijuana using dangerous materials or combustible gases without a medical marijuana-infused products manufacturing facility license. Violation of this prohibition shall subject the violator to department sanctions, including an administrative penalty and, if applicable, loss of their identification card, certificate, or license for up to one year.

(9) All qualifying patient cultivation shall take place in an enclosed, locked facility that is equipped with security devices that permit access only by the qualifying patient or by such patient's primary caregiver. [Two qualifying] **Qualifying** patients **and care givers**, who [both] hold valid qualifying patient cultivation identification cards, may share one enclosed, locked facility. **No shared facility may contain more than five thousand square feet of canopy space without obtaining a medical marijuana cultivation facility license.** [No more than twelve qualifying patient or primary caregiver cultivated flowering marijuana plants may be cultivated in a single, enclosed locked facility, except when a primary caregiver also holds a qualifying patient cultivation identification card, in which case no more than eighteen flowering marijuana plants may be cultivated in a single, enclosed, locked facility.]

(10) No medical marijuana cultivation facility, medical marijuana dispensary facility, medical marijuana-infused products manufacturing facility, medical marijuana testing facility, or entity with a transportation certification shall assign, sell, give, lease, sublicense, or otherwise transfer its license or certificate to any other entity without the express consent of the department, not to be unreasonably withheld.

(11) Unless allowed by the local government, no new medical marijuana cultivation facility, medical marijuana testing facility, medical marijuana dispensary facility, or medical marijuana-infused products manufacturing facility shall be initially sited within one thousand feet of any then-existing elementary or secondary school, child day-care center, or church. No local government shall prohibit medical marijuana cultivation facilities, medical marijuana testing facilities, medical marijuana-infused products manufacturing facilities, or medical marijuana dispensary facilities, or entities with a transportation certification either expressly or through the enactment of ordinances or regulations that make their operation unduly burdensome in the jurisdiction. However, local governments may enact ordinances or regulations not in conflict with this section, or with regulations enacted pursuant to this section, governing the time, place, and manner of operation of such facilities in the locality. A local government may establish civil penalties for violation of an ordinance or regulations governing the time, place, and manner of operation of a medical marijuana cultivation facility, medical marijuana testing facility, medical marijuana-infused products manufacturing facility, medical marijuana dispensary facility, or entity holding a transportation certification that may operate in such locality.

(12) Unless superseded by federal law or an amendment to this Constitution, a physician shall not certify a qualifying condition for a patient by any means other than providing a physician certification for the patient, whether handwritten, electronic, or in another commonly used format. A qualifying patient must obtain a new physician certification at least annually.

(13) A physician shall not issue a certification for the medical use of marijuana for a nonemancipated qualifying patient under the age of eighteen without the written consent of the qualifying patient's parent or legal guardian. The department shall not issue a qualifying patient identification card on behalf of a nonemancipated qualifying patient under the age of eighteen without the written consent of the qualifying patient's parent or legal guardian. Such card shall be issued to one of the parents or guardians and not directly to the patient. [Only a parent or guardian may serve as a primary caregiver for a nonemancipated qualifying patient under the age of eighteen.] **At least one of the primary caregivers for a nonemancipated qualifying patient under the age of eighteen must be a parent or legal guardian.** Only the qualifying patient's [parent or guardian] **primary caregiver** shall purchase or possess medical marijuana for a nonemancipated qualifying patient under the age of eighteen. A [parent or guardian] **primary caregiver** shall supervise the administration of medical marijuana to a nonemancipated qualifying patient under the age of eighteen.

(14) Nothing in this section shall be construed as mandating health insurance coverage of medical marijuana for qualifying patient use.

(15) Real and personal property used in the cultivation, manufacture, transport, testing, distribution, sale, and administration of marijuana for medical use or for activities otherwise in compliance with this section shall not be subject to asset forfeiture solely because of that use.

8. Severability.

The provisions of this section are severable, and if any clause, sentence, paragraph or section of this measure, or an application thereof, is adjudged invalid by any court of competent jurisdiction, the other provisions shall continue to be in effect to the fullest extent possible.

[9. Effective Date.

The provisions of this section shall become effective on December 6, 2018.]

JOHN R. ASHCROFT
SECRETARY OF STATE

STATE AUDITORS OFFICE

The Honorable Nicole Galloway
State Auditor
State Capitol Building
Jefferson City, MO 65101

RE: Petition approval request from Eric McSwain regarding a proposed constitutional amendment to Articles XIV and XIX, version 2 (2022-043)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Eric McSwain on July 13, 2021.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

cc: Hon. Eric S. Schmitt
Sheri Hoffman
Trish Vincent

It is a class A misdemeanor punishable, notwithstanding the provisions of section 560.021, RSMo, to the contrary, for a term of imprisonment not to exceed one year in the county jail or a fine not to exceed ten thousand dollars or both, for anyone to sign any initiative petition with any name other than his or her own, or knowingly to sign his or her name more than once for the same measure for the same election, or to sign a petition when such person knows he or she is not a registered voter.

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Section A. Article XIV of the Constitution is revised by amending Section 1, and adopting one new section to be known as Article XIX, Section 2 to read as follows:

Section 1. 1. Purposes.

This section is intended to permit state-licensed physicians to recommend marijuana for medical purposes to patients with serious illnesses and medical conditions. The section allows patients with qualifying medical conditions the right to discuss freely with their physicians the possible benefits of medical marijuana use, the right of their physicians to provide professional advice concerning the same, and the right to use medical marijuana for treatment under the supervision of a physician.

This section is intended to make only those changes to Missouri laws that are necessary to protect patients, their primary caregivers, and their physicians from civil and criminal penalties, and to allow for the **[**limited**]** legal production, distribution, sale and purchase of marijuana for medical use. This section is not intended to change current civil and criminal laws governing the use of marijuana for nonmedical purposes. The section does not allow for the public use of marijuana and driving under the influence of marijuana.

2. Definitions.

(1) "Administer" means the direct application of marijuana to a qualifying patient by way of any of the following methods:

(a) Ingestion of capsules, teas, oils, and other marijuana-infused products;

(b) Vaporization or smoking of dried flowers, buds, plant material, extracts, or oils;

(c) Application of ointments or balms;

(d) Transdermal patches and suppositories;

(e) Consuming marijuana-infused food products; or

(f) Any other method recommended by a qualifying patient's physician.

(2) "Department" means the department of health and senior services, or its successor agency.

(3) "Entity" means a natural person, corporation, professional corporation, nonprofit corporation, cooperative corporation, unincorporated association, business trust, limited liability company, general or limited partnership, limited liability partnership, joint venture, or any other legal entity.

(4) "Flowering plant" means a marijuana plant from the time it exhibits the first signs of sexual maturity through harvest.

(5) "Marijuana" or "marihuana" means *Cannabis indica*, *Cannabis sativa*, and *Cannabis ruderalis*, hybrids of such species, and any other strains commonly understood within the scientific community to constitute marijuana, as well as resin extracted from the plant and marijuana-infused products. "Marijuana" or "marihuana" do not include industrial hemp **[**containing a cropwide average tetrahydrocannabinol concentration that does not exceed three-tenths of one percent on a dry weight basis**]** **as defined by federal law**, or commodities or products manufactured from industrial hemp **as defined by federal law**.

(6) "Marijuana-infused products" means products that are infused with marijuana or an extract thereof and are intended for use or consumption other than by smoking, including, but not limited to, edible products, ointments, tinctures and concentrates.

(7) "Medical marijuana cultivation facility" means a facility licensed by the department to acquire, cultivate, process, store, transport, and sell marijuana to a medical marijuana dispensary facility, medical marijuana testing facility, or to a medical marijuana-infused products manufacturing facility.

(8) "Medical marijuana dispensary facility" means a facility licensed by the department to acquire, store, sell, transport, and deliver marijuana, marijuana-infused products, and drug paraphernalia used to administer marijuana as provided for in this section to a qualifying patient, a primary caregiver, another medical marijuana dispensary facility, a medical marijuana testing facility, or a medical marijuana-infused products manufacturing facility.

(9) "Medical marijuana-infused products manufacturing facility" means a facility licensed by the department to acquire, store, manufacture, transport, and sell marijuana-infused products to a medical marijuana dispensary facility, a medical marijuana testing facility, or to another medical marijuana-infused products manufacturing facility.

(10) "Medical marijuana testing facility" means a facility certified by the department to acquire, test, certify, and transport marijuana.

(11) "Medical use" means the production, possession, delivery, distribution, transportation, or administration of marijuana or a marijuana-infused product, or drug paraphernalia used to administer marijuana or a marijuana-infused product, for the benefit of a qualifying patient to mitigate the symptoms or effects of the patient's qualifying medical condition.

(12) "Physician" means an individual who is licensed and in good standing to practice medicine or osteopathy under Missouri law.

(13) "Physician certification" means a document, whether handwritten, electronic or in another commonly used format, signed by a physician and stating that, in the physician's professional opinion, the patient suffers from a qualifying medical condition.

(14) "Primary caregiver" means an individual twenty-one years of age or older who has significant responsibility for managing the well-being of a qualifying patient and who is designated as such on the primary caregiver's application for an identification card under this section or in other written notification to the department. **Any health care provider licensed under the laws of the state may also serve as a primary caregiver. A qualifying patient may have up to three primary caregivers.**

(15) "Qualifying medical condition" means the condition of, symptoms related to, or side-effects from the treatment of:

(a) Cancer;

(b) Epilepsy;

(c) Glaucoma;

(d) Intractable migraines unresponsive to other treatment;

(e) A chronic medical condition that causes severe, persistent pain or persistent muscle spasms, including but not limited to those associated with multiple sclerosis, seizures, Parkinson's disease, and Tourette's syndrome;

(f) Debilitating psychiatric disorders, including, but not limited to, posttraumatic stress disorder, if diagnosed by a state licensed psychiatrist;

(g) Human immunodeficiency virus or acquired immune deficiency syndrome;

(h) A chronic medical condition that is normally treated with a prescription medication that could lead to physical or psychological dependence, when a physician determines that medical use of marijuana could be effective in treating that condition and would serve as a safer alternative to the prescription medication;

(i) Any terminal illness; or

(j) In the professional judgment of a physician, any other chronic, debilitating or other medical condition, including, but not limited to, hepatitis C, amyotrophic lateral sclerosis, inflammatory

bowel disease, Crohn's disease, Huntington's disease, autism, neuropathies, sickle cell anemia, agitation of Alzheimer's disease, cachexia, and wasting syndrome.

(16) "Qualifying patient" means a Missouri resident diagnosed with at least one qualifying medical condition.

3. Creating Patient Access to Medical Marijuana.

(1) In carrying out the implementation of this section, the department shall have the authority to:

(a) Grant or refuse state licenses and certifications for the cultivation, manufacture, dispensing, sale, testing, tracking, and transportation of marijuana for medical use as provided by law; suspend, fine, restrict, or revoke such licenses and certifications upon a violation of this section or a rule promulgated pursuant to this section; and impose any administrative penalty authorized by this section or any rule promulgated pursuant to this section.

(b) Promulgate rules and emergency rules necessary for the proper regulation and control of the cultivation, manufacture, dispensing, and sale of marijuana for medical use and for the enforcement of this section so long as patient access is not restricted unreasonably and such rules are reasonably necessary for patient safety or to restrict access to only licensees and qualifying patients.

(c) Develop such forms, certificates, licenses, identification cards, and applications as are necessary for, or reasonably related to, the administration of this section or any of the rules promulgated under this section;

(d) Require a seed-to-sale tracking system that tracks medical marijuana from either the seed or immature plant stage until the medical marijuana or medical marijuana-infused product is sold to a qualifying patient or primary caregiver to ensure that no medical marijuana grown by a medical marijuana cultivation facility or manufactured by a medical marijuana-infused products manufacturing facility is sold or otherwise transferred except by a medical marijuana dispensary facility. The department shall certify, if possible, at least two commercially available systems to licensees as compliant with its tracking standards and issue standards for the creation or use of other systems by licensees.

(e) Issue standards for the secure transportation of marijuana and marijuana-infused products. The department shall certify entities which demonstrate compliance with its transportation standards to transport marijuana and marijuana-infused products to a medical marijuana cultivation facility, a medical marijuana-infused products manufacturing facility, a medical marijuana dispensary facility, a medical marijuana testing facility, or another entity with a transportation certification. The department shall develop or adopt from any other governmental agency such safety and security standards as are reasonably necessary for the transportation of marijuana. Any entity licensed or certified pursuant to this section shall be allowed to transport cannabis.

(f) The department may charge a fee not to exceed $5,000 for any certification issued pursuant to this section.

(g) Prepare and transmit annually a publicly available report accounting to the governor for the efficient discharge of all responsibilities assigned to the department under this section;

[(h) Establish a system to numerically score competing medical marijuana licensee and certificate applicants, only in cases where more applicants apply than the minimum number of licenses or certificates as calculated by this section, which scoring shall be limited to an analysis of the following:

(i) the character, veracity, background, qualifications, and relevant experience of principal officers or managers;

(ii) the business plan proposed by the applicant, which in the case of cultivation facilities and dispensaries shall include the ability to maintain an adequate supply of marijuana, plans to ensure safety and security of qualifying patients and the community, procedures to be used to prevent diversion, and any plan for making marijuana available to low-income qualifying patients;

(iii) site security;

(iv) experience in a legal cannabis market;

(v) in the case of medical marijuana testing facilities, the experience of their personnel with testing marijuana, food or drugs for toxins and/or potency and health care industry experience;

(vi) the potential for positive economic impact in the site community;

(vii) in the case of medical marijuana cultivation facilities, capacity or experience with agriculture, horticulture, and health care;

(viii) in the case of medical marijuana dispensary facilities, capacity or experience with health care, the suitability of the proposed location, and its accessibility for patients;

(ix) in the case of medical marijuana-infused products manufacturing facilities, capacity or experience with food and beverage manufacturing; and

(x) maintaining competitiveness in the marijuana for medical use marketplace.

In ranking applicants and awarding licenses and certificates, the department may consult or contract with other public agencies with relevant expertise regarding these factors. The department shall lift or ease any limit on the number of licensees or certificate holders in order to meet the demand for marijuana for medical use by qualifying patients.**]**

(2) The department shall issue any rules or emergency rules necessary for the implementation and enforcement of this section and to ensure the right to, availability, and safe use of marijuana for medical use by qualifying patients. In developing such rules or emergency rules, the department may consult with other public agencies. In addition to any other rules or emergency rules necessary to carry out the mandates of this section, the department may issue rules or emergency rules relating to the following subjects:

(a) Compliance with, enforcement of, or violation of any provision of this section or any rule issued pursuant to this section, including procedures and grounds for denying, suspending, fining, restricting, or revoking a state license or certification issued pursuant to this section;

(b) Specifications of duties of officers and employees of the department;

(c) Instructions or guidance for local authorities and law enforcement officers;

(d) Requirements for inspections, investigations, searches, seizures, and such additional enforcement activities as may become necessary from time to time;

(e) Creation of a range of administrative penalties for use by the department;

(f) Prohibition of misrepresentation and unfair practices;

(g) Control of informational and product displays on licensed premises provided that the rules may not prevent or unreasonably restrict appropriate signs on the property of the medical marijuana dispensary facility, product display and examination by the qualifying patient and/or primary caregiver, listings in business directories including phone books, listings in marijuana-related or medical publications, or the sponsorship of health or not for profit charity or advocacy events;

(h) Development of individual identification cards for owners, officers, managers, contractors, employees, and other support staff of entities licensed or certified pursuant to this section, including a fingerprint-based federal and state criminal record check in accordance with U.S. Public Law 92-544, or its successor provisions, as may be required by the department prior to issuing a card and procedures to ensure that cards for new applicants are issued within fourteen days. Applicants licensed pursuant to this section shall submit fingerprints to the Missouri state highway patrol for the purpose of conducting a state and federal fingerprint-based criminal background check. The Missouri state highway patrol, if necessary, **[**shall**]** **may** forward the fingerprints to the Federal Bureau of Investigation (FBI) for the purpose of conducting a

fingerprint-based criminal background check. Fingerprints shall be submitted pursuant to 43.543 and fees shall be paid pursuant to 43.530;

(i) Security requirements for any premises licensed or certified pursuant to this section, including, at a minimum, lighting, physical security, video, alarm requirements, and other minimum procedures for internal control as deemed necessary by the department to properly administer and enforce the provisions of this section, including reporting requirements for changes, alterations, or modifications to the premises;

(j) Regulation of the storage of, warehouses for, and transportation of marijuana for medical use;

(k) Sanitary requirements for, including, but not limited to, the preparation of medical marijuana-infused products;

(l) The specification of acceptable forms of picture identification that a medical marijuana dispensary facility may accept when verifying a sale;

(m) Labeling and packaging standards;

(n) Records to be kept by licensees and the required availability of the records;

(o) State licensing procedures, including procedures for renewals, reinstatements, initial licenses, and the payment of licensing fees;

(p) The reporting and transmittal of tax payments;

(q) Authorization for the department of revenue to have access to licensing information to ensure tax payment and the effective administration of this section; and

(r) Such other matters as are necessary for the fair, impartial, stringent, and comprehensive administration of this section.

(3) The department shall issue rules or emergency rules for a medical marijuana and medical marijuana-infused products independent testing and certification program for medical marijuana licensees and requiring licensees to test medical marijuana using one or more impartial, independent laboratories to ensure, at a minimum, that products sold for human consumption do not contain contaminants that are injurious to health, to ensure correct labeling and measure potency. The department shall not require any medical marijuana or medical marijuana-infused products to be tested more than once prior to sale.

(4) The department shall issue rules or emergency rules to provide for the certification of and standards for medical marijuana testing facilities, including the requirements for equipment and qualifications for personnel, but shall not require certificate holders to have any federal agency licensing or have any relationship with a federally licensed testing facility. The department shall certify, if possible, at least two entities as medical marijuana testing facilities. No medical marijuana testing facility shall be owned by an entity under substantially common control, ownership, or management as a medical marijuana cultivation facility, medical marijuana-infused product manufacturing facility, or medical marijuana dispensary facility.

(5) The department shall maintain the confidentiality of reports or other information obtained from an applicant or licensee containing any individualized data, information, or records related to the licensee or its operation, including sales information, financial records, tax returns, credit reports, cultivation information, testing results, and security information and plans, or revealing any patient information, or any other records that are exempt from public inspection pursuant to state or federal law. Such reports or other information may be used only for a purpose authorized by this section. Any information released related to patients may be used only for a purpose authorized by federal law and this section, including verifying that a person who presented a patient identification card to a state or local law enforcement official is lawfully in possession of such card.

(6) Within one hundred eighty days of December 6, 2018, the department shall make available to the public license application forms and application instructions for medical marijuana cultivation

facilities, medical marijuana testing facilities, medical marijuana dispensary facilities, and medical marijuana-infused products manufacturing facilities.

(7) Within one hundred eighty days of December 6, 2018, the department shall make available to the public application forms and application instructions for qualifying patient, qualifying patient cultivation, and primary caregiver identification cards. Within two hundred ten days of December 6, 2018, the department shall begin accepting applications for such identification cards.

(8) An entity may apply to the department for and obtain one or more licenses to grow marijuana as a medical marijuana cultivation facility. Each facility in operation shall require a separate license, but multiple licenses may be utilized in a single facility. Each indoor facility utilizing artificial lighting may be limited by the department to thirty thousand square feet of flowering plant canopy space. Each outdoor facility utilizing natural lighting may be limited by the department to two thousand eight hundred flowering plants. Each greenhouse facility using a combination of natural and artificial lighting may be limited by the department, at the election of the licensee, to two thousand eight hundred flowering plants or thirty thousand square feet of flowering plant canopy. The license shall be valid for three years from its date of issuance and shall be renewable, except for good cause. The department shall charge each applicant a nonrefundable fee of ten thousand dollars per license application or renewal for all applicants filing an application within three years of December 6, 2018, and shall charge each applicant a nonrefundable fee of five thousand dollars per license application or renewal thereafter. Once granted, the department shall charge each licensee an annual fee of twenty-five thousand dollars per facility license. Application and license fees shall be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency. No more than three medical marijuana cultivation facility licenses shall be issued to any entity under substantially common control, ownership, or management.

(9) An entity may apply to the department for and obtain one or more licenses to operate a medical marijuana dispensary facility. Each facility in operation shall require a separate license. A license shall be valid for three years from its date of issuance and shall be renewable, except for good cause. The department shall charge each applicant a nonrefundable fee of six thousand dollars per license application or renewal for each applicant filing an application within three years of December 6, 2018, and shall charge each applicant a nonrefundable fee of three thousand dollars per license application or renewal thereafter. Once granted, the department shall charge each licensee an annual fee of ten thousand dollars per facility license. Application and license fees shall be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency. No more than five medical marijuana dispensary facility licenses shall be issued to any entity under substantially common control, ownership, or management.

(10) An entity may apply to the department for and obtain one or more licenses to operate a medical marijuana-infused products manufacturing facility. Each facility in operation shall require a separate license. A license shall be valid for three years from its date of issuance and shall be renewable, except for good cause. The department shall charge each applicant a nonrefundable fee of six thousand dollars per license application or renewal for each applicant filing an application within three years of December 6, 2018, and shall charge each applicant a nonrefundable fee of three thousand dollars per license application or renewal thereafter. Once granted, the department shall charge each licensee an annual fee of ten thousand dollars per facility license. Application and license fees shall be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency. No more than three medical marijuana-infused products manufacturing facility licenses shall be issued to any entity under substantially common control, ownership, or management.

(11) Any applicant for a license authorized by this section may prefile their application fee with the department beginning 30 days after December 6, 2018.

(12) Except for good cause, a qualifying patient or his or her primary caregiver may obtain an identification card from the department to cultivate up to [six flowering marijuana plants] **fifty square feet of canopy space** for the [exclusive use] **benefit** of that qualifying patient. The card

shall be valid for twelve months from its date of issuance and shall be renewable with the annual submittal of a new or updated physician's certification. The department shall charge an annual fee for the card of [one hundred] **twenty-five** dollars, with such rate to be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency. **In no case shall any qualifying patient cultivate more than fifty square feet of canopy space regardless of the number of primary caregivers assigned to said qualifying patient.**

(13) The department may set a limit on the amount of marijuana that may be purchased by or on behalf of a single qualifying patient in a thirty-day period, provided that limit is not less than four ounces of dried, unprocessed marijuana, or its equivalent. Any such limit shall not apply to a qualifying patient with written certification from two independent physicians that there are compelling reasons why the qualifying patient needs a greater amount than the limit established by the department.

(14) The department may set a limit on the amount of marijuana that may be possessed by or on behalf of each qualifying patient, provided that limit is not less than a sixty-day supply of dried, unprocessed marijuana, or its equivalent. A primary caregiver may possess a separate legal limit for each qualifying patient under their care and a separate legal limit for themselves if they are a qualifying patient. **In no case shall the total amount of medical marijuana attributed to a single qualifying patient in the possession of multiple primary caregivers exceed the limit set by the department.** Qualifying patients cultivating marijuana for medical use may possess up to a [ninety-day] **one year** supply, so long as the supply remains **secured** on property under their control. Any such limit shall not apply to a qualifying patient with written certification from two independent physicians that there are compelling reasons for additional amounts. Possession of between the legal limit and up to twice the legal limit shall subject the possessor to department sanctions, including an administrative penalty and loss of their patient identification card for up to a year. Purposefully possessing amounts in excess of twice the legal limit shall be punishable by [imprisonment of up to one year and] a fine of up to two thousand dollars.

[(15) The department may restrict the aggregate number of licenses granted for medical marijuana cultivation facilities, provided, however, that the number may not be limited to fewer than one license per every one hundred thousand inhabitants, or any portion thereof, of the state of Missouri, according to the most recent census of the United States. A decrease in the number of inhabitants in the state of Missouri shall have no impact.

(16) The department may restrict the aggregate number of licenses granted for marijuana-infused products manufacturing facilities, provided, however, that the number may not be limited to fewer than one license per every seventy thousand inhabitants, or any portion thereof, of the state of Missouri, according to the most recent census of the United States. A decrease in the number of inhabitants in the state of Missouri shall have no impact.

(17) The department may restrict the aggregate number of licenses granted for medical marijuana dispensary facilities, provided, however, that the number may not be limited to fewer than twenty-four licenses in each United States congressional district in the state of Missouri pursuant to the map of each of the eight congressional districts as drawn and effective on December 6, 2018. Future changes to the boundaries of or the number of congressional districts shall have no impact.]

(18) The department shall begin accepting license and certification applications for medical marijuana dispensary facilities, medical marijuana testing facilities, medical marijuana cultivation facilities, medical marijuana-infused products manufacturing facilities, seed-to-sale tracking systems, and for transportation of marijuana no later than two hundred forty days after December 6, 2018. Applications for licenses and certifications under this section shall be approved or denied by the department no later than one hundred fifty days after their submission. If the department fails to carry out its nondiscretionary duty to approve or deny an application within one hundred fifty days of submission, an applicant may immediately seek a court order compelling the department to approve or deny the application.

(19) Qualifying patients under this section shall obtain and annually renew an identification card or cards from the department. The department shall charge a fee of twenty-five dollars per year per card with such fee to be increased or decreased each year by the percentage of increase or

decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor or its successor agency. Upon receiving an application for a qualifying patient identification card or qualifying patient cultivation identification card, the department shall, within thirty days, either issue the card or provide a written explanation for its denial. If the department fails to deny and fails to issue a card to an eligible qualifying patient within thirty days, then their physician certification shall serve as their qualifying patient identification card or qualifying patient cultivation identification card for up to one year from the date of physician certification. All initial applications for or renewals of a qualifying patient identification card or qualifying patient cultivation identification card shall be accompanied by a physician certification that is less than thirty days old.

(20) Primary caregivers under this section shall obtain and annually renew an identification card from the department. The department shall charge a fee of twenty-five dollars per year, with such fee to be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency. Upon receiving an application for a primary caregiver identification card, the department shall, within thirty days, either issue the card or provide a written explanation for its denial.

(21) All marijuana for medical use sold in Missouri shall be cultivated in a licensed medical marijuana cultivation facility located in Missouri.

(22) All marijuana-infused products for medical use sold in the state of Missouri shall be manufactured in a medical marijuana-infused products manufacturing facility.

(23) The denial of a license, license renewal, or identification card by the department shall be appealable to the administrative hearing commission, or its successor entity. Following the exhaustion of administrative review, denial of a license, license renewal, or identification card by the department shall be subject to judicial review as provided by law.

(24) No elected official shall interfere directly or indirectly with the department's obligations and activities under this section.

(25) The department shall not have the authority to apply or enforce any rule or regulation that would impose an undue burden on any one or more licensees or certificate holders, any qualifying patients, or act to undermine the purposes of this section.

4. Taxation and Reporting.

(1) A tax is levied upon the retail sale of marijuana for medical use sold at medical marijuana dispensary facilities within the state. The tax shall be at a rate of four percent of the retail price. The tax shall be collected by each licensed medical marijuana dispensary facility and paid to the department of revenue. After retaining no more than five percent for its actual collection costs, amounts generated by the tax levied in this section shall be deposited by the department of revenue into the Missouri veterans' health and care fund. Licensed entities making retail sales within the state shall be allowed approved credit for returns provided the tax was paid on the returned item and the purchaser was given the refund or credit.

(2) There is hereby created in the state treasury the "Missouri Veterans' Health and Care Fund", which shall consist of taxes and fees collected under this section. The state treasurer shall be custodian of the fund, and he or she shall invest monies in the fund in the same manner as other funds are invested. Any interest and monies earned on such investments shall be credited to the fund. Notwithstanding any other provision of law, any monies remaining in the fund at the end of a biennium shall not revert to the credit of the general revenue fund. The commissioner of administration is authorized to make cash operating transfers to the fund for purposes of meeting the cash requirements of the department in advance of it receiving annual application, licensing, and tax revenue, with any such transfers to be repaid as provided by law. The fund shall be a dedicated fund and shall stand appropriated without further legislative action as follows:

(a) First, to the department, an amount **not to exceed twenty percent of net deposits which is** necessary for the department to carry out this section, including repayment of any cash operating transfers, payments made through contract or agreement with other state and public agencies

necessary to carry out this section, and a reserve fund to maintain a reasonable working cash balance for the purpose of carrying out this section;

(b) Next, the remainder of such funds shall be transferred to the Missouri veterans commission for health and care services for military veterans, including the following purposes: operations, maintenance and capital improvements of the Missouri veterans homes, the Missouri service officer's program, and other services for veterans approved by the commission, including, but not limited to, health care services, mental health services, drug rehabilitation services, housing assistance, job training, tuition assistance, and housing assistance to prevent homelessness. The Missouri veterans commission shall contract with other public agencies for the delivery of services beyond its expertise.

(c) All monies from the taxes authorized under this subsection shall provide additional dedicated funding for the purposes enumerated above and shall not replace existing dedicated funding.

(3) For all retail sales of marijuana for medical use, a record shall be kept by the seller which identifies, by secure and encrypted patient number issued by the seller to the qualifying patient involved in the sale, all amounts and types of marijuana involved in the sale and the total amount of money involved in the sale, including itemizations, taxes collected and grand total sale amounts. All such records shall be kept on the premises in a readily available format and be made available for review by the department and the department of revenue upon request. Such records shall be retained for five years from the date of the sale.

(4) The tax levied pursuant to this subsection is separate from, and in addition to, any general state and local sales and use taxes that apply to retail sales, which shall continue to be collected and distributed as provided by general law.

(5) Except as authorized in this subsection, no additional taxes shall be imposed on the sale of marijuana for medical use.

(6) The fees and taxes provided for in this Article XIV, Section 1 shall be fully enforceable notwithstanding any other provision in this Constitution purportedly prohibiting or restricting the taxes and fees provided for herein.

(7) The unexpended balance existing in the fund shall be exempt from the provisions of section 33.080 relating to the transfer of unexpended balances to the general revenue fund.

5. Additional Patient, Physician, Caregiver and Provider Protections.

(1) Except as provided in this section, the possession of marijuana in quantities less than the limits of this section, or established by the department, and transportation of marijuana from a medical marijuana dispensary facility to the qualifying patient's residence shall not subject the possessor to arrest, criminal or civil liability, or sanctions under Missouri law, provided that the possessor produces on demand to the appropriate authority a valid qualifying patient identification card; a valid qualifying patient cultivation identification card; a valid physician certification while making application for an identification card; or a valid primary caregiver identification card. Production of the respective equivalent identification card or authorization issued by another state or political subdivision of another state shall also meet the requirements of this subdivision.

(2) No patient shall be denied access to or priority for an organ transplant because they hold a qualifying patient identification card or use marijuana for medical use.

(3) A physician shall not be subject to criminal or civil liability or sanctions under Missouri law or discipline by the Missouri state board of registration for the healing arts, or its successor agency, for owning, operating, investing in, being employed by, or contracting with any entity licensed or certified pursuant to this section or issuing a physician certification to a patient diagnosed with a qualifying medical condition in a manner consistent with this section and legal standards of professional conduct.

(4) A health care provider**, including individuals licensed under chapter 335 or 337 or their successor statutes,** shall not be subject to civil or criminal prosecution under Missouri law, denial of any right or privilege, civil or administrative penalty or sanction, or disciplinary action by any

accreditation or licensing board or commission for owning, operating, investing in, being employed by, or contracting with any entity licensed or certified pursuant to this section or providing health care services that involve the medical use of marijuana consistent with this section and legal standards of professional conduct.

(5) A medical marijuana testing facility shall not be subject to civil or criminal prosecution under Missouri law, denial of any right or privilege, civil or administrative penalty or sanction, or disciplinary action by any accreditation or licensing board or commission for providing laboratory testing services that relate to the medical use of marijuana consistent with this section and otherwise meeting legal standards of professional conduct.

(6) A health care provider shall not be subject to mandatory reporting requirements for the medical use of marijuana by nonemancipated qualifying patients under eighteen years of age in a manner consistent with this section and with consent of a parent or guardian.

(7) A primary caregiver shall not be subject to criminal or civil liability or sanctions under Missouri law for purchasing, transporting, or administering marijuana for medical use to a qualifying patient or participating in the patient cultivation [of up to six flowering marijuana plants per patient] in a manner consistent with this section and generally established legal standards of personal or professional conduct.

(8) An attorney shall not be subject to disciplinary action by the state bar association or other professional licensing body for owning, operating, investing in, being employed by, contracting with, or providing legal assistance to prospective or licensed medical marijuana testing facilities, medical marijuana cultivation facilities, medical marijuana dispensary facilities, medical marijuana-infused products manufacturing facilities, qualifying patients, primary caregivers, physicians, health care providers or others related to activity that is no longer subject to criminal penalties under state law pursuant to this section.

(9) Actions and conduct by qualifying patients, primary caregivers, medical marijuana testing facilities, medical marijuana cultivation facilities, medical marijuana-infused products manufacturing facilities, or medical marijuana dispensary facilities licensed or registered with the department, or their employees or agents, as permitted by this section and in compliance with department regulations and other standards of legal conduct, shall not be subject to criminal or civil liability or sanctions under Missouri law, except as provided for by this section.

(10) Nothing in this section shall provide immunity for negligence, either common law or statutorily created, nor criminal immunities for operating a vehicle, aircraft, dangerous device, or navigating a boat under the influence of marijuana.

(11) It is the public policy of the state of Missouri that contracts related to marijuana for medical use that are entered into by qualifying patients, primary caregivers, medical marijuana testing facilities, medical marijuana cultivation facilities, medical marijuana-infused products manufacturing facilities, or medical marijuana dispensary facilities and those who allow property to be used by those entities, should be enforceable. It is the public policy of the state of Missouri that no contract entered into by qualifying patients, primary caregivers, medical marijuana testing facilities, medical marijuana cultivation facilities, medical marijuana-infused products manufacturing facilities, or medical marijuana dispensary facilities, or by a person who allows property to be used for activities that are exempt from state criminal penalties by this section, shall be unenforceable on the basis that activities related to medical marijuana may be prohibited by federal law.

6. Legislation.

Nothing in this section shall limit the general assembly from enacting laws consistent with this section, or otherwise effectuating the patient rights of this section. The legislature shall not enact laws that hinder the right of qualifying patients to access marijuana for medical use as granted by this section.

7. Additional Provisions.

(1) Nothing in this section permits a person to:

(a) Consume marijuana for medical use in a jail or correctional facility;

(b) Undertake any task under the influence of marijuana when doing so would constitute negligence or professional malpractice; or

(c) Operate, navigate, or be in actual physical control of any dangerous device or motor vehicle, aircraft or motorboat while under the influence of marijuana; or

(d) Bring a claim against any employer, former employer, or prospective employer for wrongful discharge, discrimination, or any similar cause of action or remedy, based on the employer, former employer, or prospective employer prohibiting the employee, former employee, or prospective employee from being under the influence of marijuana while at work or disciplining the employee or former employee, up to and including termination from employment, for working or attempting to work while under the influence of marijuana.

(2) No medical marijuana cultivation facility, medical marijuana testing facility, medical marijuana dispensary facility, or medical marijuana-infused products manufacturing facility, or entity with a transportation certification shall be owned, in whole or in part, or have as an officer, director, board member, manager, or employee, any individual with a disqualifying felony offense. A "disqualifying felony offense" is a violation of, and conviction or guilty plea to, state or federal law that is, or would have been, a felony under Missouri law, regardless of the sentence imposed, unless the department determines that:

(a) The person's conviction was for the medical use of marijuana or assisting in the medical use of marijuana; or

(b) The person's conviction was for a nonviolent crime **[**for which he or she was not incarcerated and that is more than five years old**]**; or

(c) More than five years have passed since the person was released from parole or probation, and he or she has not been convicted of any subsequent criminal offenses.

The department may consult with and rely on the records, advice and recommendations of the attorney general and the department of public safety, or their successor entities, in applying this subdivision.

(3) All medical marijuana cultivation facility, medical marijuana dispensary facility, and medical marijuana-infused products manufacturing facility licenses, entities with medical marijuana testing facility certifications, and entities with transportation certifications shall be held by entities that are majority owned by natural persons who have been citizens of the state of Missouri for at least one year prior to the application for such license or certification. Notwithstanding the foregoing, entities outside the state of Missouri may own a minority stake in such entities.

(4) No medical marijuana cultivation facility, medical marijuana dispensary facility, or medical marijuana-infused products manufacturing facility shall manufacture, package or label marijuana or marijuana-infused products in a false or misleading manner. No person shall sell any product in a manner designed to cause confusion between a marijuana or marijuana-infused product and any product not containing marijuana. A violation of this subdivision shall be punishable by an appropriate and proportional department sanction, up to and including loss of license.

(5) All edible marijuana-infused products shall be sold in individual, child-resistant containers that are labeled with dosage amounts, instructions for use, and estimated length of effectiveness. All marijuana and marijuana-infused products shall be sold in containers clearly and conspicuously labeled, in a font size at least as large as the largest other font size used on the package, as containing "Marijuana", or a "Marijuana-Infused Product". Violation of this prohibition shall subject the violator to department sanctions, including an administrative penalty.

(6) No individual shall serve as the primary caregiver for more than **[**three**]** **ten** qualifying patients.

(7) No qualifying patient shall consume marijuana for medical use in a public place, unless provided by law. Violation of this prohibition shall subject the violator to sanctions as provided by general law.

(8) No person shall extract resins from marijuana using dangerous materials or combustible gases without a medical marijuana-infused products manufacturing facility license. Violation of this prohibition shall subject the violator to department sanctions, including an administrative penalty and, if applicable, loss of their identification card, certificate, or license for up to one year.

(9) All qualifying patient cultivation shall take place in an enclosed, locked facility that is equipped with security devices that permit access only by the qualifying patient or by such patient's primary caregiver. [Two qualifying] **Qualifying** patients **and care givers**, who [both] hold valid qualifying patient cultivation identification cards, may share one enclosed, locked facility. **No shared facility may contain more than five thousand square feet of canopy space without obtaining a medical marijuana cultivation facility license.** [No more than twelve qualifying patient or primary caregiver cultivated flowering marijuana plants may be cultivated in a single, enclosed locked facility, except when a primary caregiver also holds a qualifying patient cultivation identification card, in which case no more than eighteen flowering marijuana plants may be cultivated in a single, enclosed, locked facility.]

(10) No medical marijuana cultivation facility, medical marijuana dispensary facility, medical marijuana-infused products manufacturing facility, medical marijuana testing facility, or entity with a transportation certification shall assign, sell, give, lease, sublicense, or otherwise transfer its license or certificate to any other entity without the express consent of the department, not to be unreasonably withheld.

(11) Unless allowed by the local government, no new medical marijuana cultivation facility, medical marijuana testing facility, medical marijuana dispensary facility, or medical marijuana-infused products manufacturing facility shall be initially sited within one thousand feet of any then-existing elementary or secondary school, child day-care center, or church. No local government shall prohibit medical marijuana cultivation facilities, medical marijuana testing facilities, medical marijuana-infused products manufacturing facilities, or medical marijuana dispensary facilities, or entities with a transportation certification either expressly or through the enactment of ordinances or regulations that make their operation unduly burdensome in the jurisdiction. However, local governments may enact ordinances or regulations not in conflict with this section, or with regulations enacted pursuant to this section, governing the time, place, and manner of operation of such facilities in the locality. A local government may establish civil penalties for violation of an ordinance or regulations governing the time, place, and manner of operation of a medical marijuana cultivation facility, medical marijuana testing facility, medical marijuana-infused products manufacturing facility, medical marijuana dispensary facility, or entity holding a transportation certification that may operate in such locality.

(12) Unless superseded by federal law or an amendment to this Constitution, a physician shall not certify a qualifying condition for a patient by any means other than providing a physician certification for the patient, whether handwritten, electronic, or in another commonly used format. A qualifying patient must obtain a new physician certification at least annually.

(13) A physician shall not issue a certification for the medical use of marijuana for a nonemancipated qualifying patient under the age of eighteen without the written consent of the qualifying patient's parent or legal guardian. The department shall not issue a qualifying patient identification card on behalf of a nonemancipated qualifying patient under the age of eighteen without the written consent of the qualifying patient's parent or legal guardian. Such card shall be issued to one of the parents or guardians and not directly to the patient. [Only a parent or guardian may serve as a primary caregiver for a nonemancipated qualifying patient under the age of eighteen.] **At least one of the primary caregivers for a nonemancipated qualifying patient under the age of eighteen must be a parent or legal guardian.** Only the qualifying patient's [parent or guardian] **primary caregiver** shall purchase or possess medical marijuana for a nonemancipated qualifying patient under the age of eighteen. A [parent or guardian] **primary caregiver** shall supervise the administration of medical marijuana to a nonemancipated qualifying patient under the age of eighteen.

(14) Nothing in this section shall be construed as mandating health insurance coverage of medical marijuana for qualifying patient use.

(15) Real and personal property used in the cultivation, manufacture, transport, testing, distribution, sale, and administration of marijuana for medical use or for activities otherwise in compliance with this section shall not be subject to asset forfeiture solely because of that use.

8. Severability.

The provisions of this section are severable, and if any clause, sentence, paragraph or section of this measure, or an application thereof, is adjudged invalid by any court of competent jurisdiction, the other provisions shall continue to be in effect to the fullest extent possible.

[9. Effective Date.

The provisions of this section shall become effective on December 6, 2018.]

Section 2.

1. Purpose

This section is intended to permit the safe and legal use of cannabis by adults over the age of twenty-one and to reasonably regulate the cultivation, processing, manufacturing, and distribution of cannabis. The people of Missouri have a right to enjoy the benefits of their labor free from unreasonable regulation. This section creates a legal, regulated, and taxed cannabis industry so Missouri businesses can participate in the growing market, and the state can reduce the burden on the budget and criminal justice system caused by the prosecution and incarceration of non-violent cannabis possession and distribution.

This section is not intended to supplant the medical marijuana market. The medical marijuana market is a necessary and important part of many patients' treatment plans. Care guided by a health care provider is important when cannabis is used in an intensive and therapeutic manner.

This section is intended to make only those changes to Missouri laws that are necessary to protect consumers and businesses in the cannabis industry from civil and criminal penalties; and to allow for the responsible consumption of cannabis, combat illegal underage consumption of cannabis, and achieve other important state policy goals such as maintaining an orderly marketplace composed of state-licensed cannabis cultivators, manufacturers, transporters, hospitality establishments, and retailers. This section is not intended to allow for the unregulated public use of cannabis; the operation of any dangerous device or motor vehicle, aircraft or motorboat while under the influence of marijuana; the use of cannabis in the workplace; or the use of cannabis by persons under twenty-one years of age.

2. Definitions.

(1) "Adult use" means the production, possession, delivery, distribution, transportation, or ingestion of cannabis or a cannabis-infused product, or drug paraphernalia used to ingest cannabis or a cannabis-infused product, by a person over the age of twenty-one for purposes other than those provided for in Article XIV Section 1.

(2) "Cannabis" means *Cannabis indica, Cannabis sativa, and Cannabis ruderalis*, hybrids of such species, and any other strains commonly understood within the scientific community to constitute cannabis, hemp, or marijuana. "Cannabis" includes resin extracted from the plant and cannabis-infused products. "Cannabis" does not include industrial hemp as defined by Federal law or commodities or products manufactured from industrial hemp as defined by Federal law. "Cannabis" does not include parts of the plant that do not contain tetrahydrocannabinol (THC) or the soil or substrate in which the plants were grown.

(3) "Cannabis-infused products" means products that are infused with cannabis or an extract thereof and are intended for ingestion other than by smoking, including, but not limited to, edible products, ointments, tinctures and concentrates.

(4) "Cannabis cultivation facility" means a facility licensed by the division to acquire, cultivate, process, store, package, transport, and sell cannabis to or from a cannabis retail facility, cannabis testing facility, cannabis manufacturing facility, or another cannabis cultivation facility.

(5) “Cannabis hospitality facility” means a facility certified by the division to permit the consumption of cannabis by consumers or qualifying patients on the premises.

(6) "Cannabis manufacturing facility" means a facility licensed by the division to acquire, process, manufacture, produce, store, package, transport, and sell cannabis and paraphernalia used to ingest cannabis as provided for in this section to or from a cannabis retail facility, cannabis testing facility, cannabis cultivation facility, or another cannabis manufacturing facility.

(7) "Cannabis retail facility" means a facility licensed by the division to acquire, store, package, sell, transport, and deliver cannabis, cannabis-infused products, and paraphernalia used to ingest cannabis as provided for in this section to a consumer, and acquire, store, package, sell, transport, and deliver cannabis, cannabis-infused products, and paraphernalia used to ingest cannabis as provided for in this section to or from another cannabis retail facility, a cannabis testing facility, cannabis manufacturing facility, or a cannabis cultivation facility.

(8) "Cannabis testing facility" means a facility certified by the division or the division of health and senior services to acquire, test, certify, and transport cannabis.

(9) “Child-Resistant Packaging” means resealable packaging that is opaque and is designed or constructed to be significantly difficult for children under five years of age to open and not difficult for normal adults to use.

(10) “Consumer” means a natural person over the age of twenty-one.

(11) “Delivery” means the delivery of cannabis from a cannabis retail facility to a consumer.

(12) “Disqualifying felony” means any dangerous felony as defined by the laws of this state, but shall not include any felony which is based on the possession or distribution of cannabis unless such act included the distribution of cannabis to a person under the age of seventeen and more than two years younger than the person being charged.

(13) “Division” means the division of alcohol and tobacco control within the department of public safety, or its successor division.

(14) "Entity" means a natural person, corporation, professional corporation, nonprofit corporation, cooperative corporation, unincorporated association, business trust, limited liability company, general or limited partnership, limited liability partnership, joint venture, or any other legal entity.

(15) "Flowering plant" means a cannabis plant from the time it shows physical signs of flowering or budding out of the nodes of the stem through harvest.

(16) “Historically Marginalized Population” means African American and Hispanic populations.

(17) “Ingest” means any method of introducing cannabis or its chemical components into the human body including but not limited to:

(a) Ingestion of capsules, teas, oils, and other cannabis-infused products;

(b) Vaporization or smoking of dried flowers, buds, plant material, extracts, or oils;

(c) Application of ointments or balms;

(d) Transdermal patches and suppositories; or

(e) Consuming cannabis-infused food products.

(18) “Local Government” means a county, township, city, town, village, or municipality.

(19) “Transportation” means the movement of cannabis between licensed facilities. “Transportation” includes the delivery of cannabis to a cannabis retail facility but does not include delivery of cannabis directly to a consumer.

3. Regulation

In carrying out the implementation of this section, the division shall have the authority to:

(1) Grant or refuse state licenses and certifications for the cultivation, manufacture, dispensing, sale, testing, tracking, transportation, delivery, and hospitality of cannabis for adult use in accordance with this section; suspend, fine, restrict, or revoke such licenses and certifications upon a violation of this section or a rule promulgated pursuant to this section; and impose any administrative penalty authorized by this section or any rule promulgated pursuant to this section.

(2) Promulgate rules and emergency rules necessary for the proper regulation and control of the cultivation, manufacture, sale, transportation, and delivery of cannabis for adult use, and for the enforcement of this section, so long as access is not restricted unreasonably and such rules are reasonably necessary for consumer safety or to restrict access to only persons over twenty-one years of age. Such rules may include provisions related to:

(a) Compliance with, enforcement of, or violation of any provision of this section or any rule issued pursuant to this section, including procedures and grounds for denying, suspending, fining, restricting, or revoking a state license or certification issued pursuant to this section;

(b) Specifications of duties of officers and employees of the division;

(c) Instructions or guidance for local authorities and law enforcement officers;

(d) Requirements for inspections, investigations, searches, seizures, and such additional enforcement activities as may become necessary;

(e) Creation of a range of administrative penalties for use by the division;

(f) Prohibition of misrepresentation and unfair practices;

(g) Regulation of informational and product displays on licensed premises provided that the rules may not prevent or unreasonably restrict appropriate signs on the property of the cannabis retail facility, product display and examination by a consumer, listings in business directories including online directories and phone books, listings in cannabis-related publications and websites, or the sponsorship of health or not for profit charity or advocacy events;

(h) Development of identification cards for entities licensed or certified pursuant to this section, including a fingerprint-based criminal background check for owners, officers, and managers of such entities.

(i) Develop such forms, certificates, licenses, and applications, which may be provided in electronic or digital format, as are necessary for, or reasonably related to, the administration of this section or any of the rules promulgated under this section;

(j) Requirements for any entity licensed or certified by the division to create and follow security policies that prevent access to cannabis by any person under the age of twenty-one; prevent entry by any person not authorized by the division or the license holder into areas where cannabis is being cultivated, manufactured, or stored; and provide immediate notice to the entity or their designated agent of any attempt by a person to gain unauthorized or illegal access to cannabis or any area where cannabis is being cultivated, manufactured, or stored;

(k) Regulation of the storage of, warehouses for, and transportation of cannabis for adult use;

(l) Sanitary requirements for, including, but not limited to, the preparation of medical marijuana-infused products;

(m) The specification of acceptable forms of identification that a cannabis retail facility may accept when verifying a sale;

(n) Labeling and packaging standards that require child-resistant packaging provided that the rules may not unreasonably restrict branding and marketing information that is not misleading and is

designed to make a product recognizable and distinguish it from similar products sold by competitors;

(o) Records to be kept by licensees and the required availability of the records;

(p) State licensing procedures, including procedures for renewals, reinstatements, initial licenses, and the payment of licensing fees;

(q) The reporting and transmittal of tax payments;

(r) Authorization for the division of revenue to have access to licensing information to ensure tax payment and the effective administration of this section;

(s) Ensure an adequate supply of cannabis for medical use, including but not limited to regulations that require facilities to maintain an adequate supply of cannabis for medical use based on sales history and requiring contracts to supply cannabis for medical use to take precedence over contracts to supply cannabis for adult use; and

(t) Such other matters as are necessary for the fair, impartial, and comprehensive administration of this section.

(3) Require a seed-to-sale tracking system that tracks cannabis from either the seed or immature plant stage until the cannabis is sold to a consumer to ensure that no cannabis grown by a cannabis cultivation facility or manufactured by a cannabis manufacturing facility is sold or otherwise transferred to a consumer except by a cannabis retail facility or certified delivery entity. The division shall certify, if possible, at least two commercially available systems to licensees as compliant with its tracking standards and issue standards for the creation or use of other systems by licensees. The division may coordinate with the department of health and senior services to utilize the same seed to sale tracking system as is used to track marijuana for medical use;

(4) Prepare and transmit annually a publicly available report accounting to the governor for the efficient discharge of all responsibilities assigned to the division under this section.

(5) If the division fails to promulgate rules and issue licenses specific to cannabis for adult use prior to June 30, 2023, the rules and regulations for the licensing of alcoholic beverage manufacturing and sale shall apply to cannabis facilities wherever possible.

(6) The division shall not have the authority to apply or enforce any rule or regulation that would require additional fees for applicants, license holders, or certificate holders; impose an undue burden on any one or more licensees or certificate holders; create an undue burden on access to consumers; or act to undermine the purposes of this section. A rule or regulation shall be presumed to impose an undue burden if it imposes restrictions that are greater than those imposed on the manufacture and sale of alcoholic beverages.

4. Licensing

(1) Cannabis transportation and delivery certifications may be issued as follows. The division shall certify entities which demonstrate compliance with its transportation and delivery standards to transport or deliver cannabis. The division shall issue standards for the secure transportation and delivery of cannabis. The division may develop or adopt from any other governmental agency such safety and security standards as are reasonably necessary for the transportation and delivery of cannabis but shall not impose standards that make the transportation or delivery of cannabis impracticable. There shall be no additional fee for a cannabis cultivation facility, a cannabis manufacturing facility, or a cannabis retail facility to be certified for transportation or delivery.

(2) Cannabis testing certification and standards may be issued as follows. The division shall certify cannabis testing facilities which demonstrate compliance with its rules for independent testing and certification of cannabis. The division shall issue rules or emergency rules establishing standards for a cannabis independent testing and certification program for cannabis licensees and requiring licensees to test cannabis using one or more impartial, independent laboratories to ensure, at a minimum, that products sold for human consumption do not contain contaminants that are injurious to health, to ensure correct labeling and measure potency. However, the rules shall not

impose any requirements that make it impracticable for an otherwise qualified facility to obtain certification. The division shall not require any cannabis to be tested more than once prior to sale. No cannabis testing facility shall be owned by an entity under substantially common control, ownership, or management as a cannabis cultivation, manufacturing, or retail facility licensed under this section or a medical marijuana cultivation, manufacturing, or dispensary facility licensed under Article XIV section 1. Testing facilities licensed under Article XIV section 1 shall be automatically certified to test cannabis under the rules issued by the division for the testing of cannabis for adult use.

(3) Cannabis hospitality facility certification may be issued as follows. The division shall certify entities which demonstrate compliance with its hospitality standards to allow for the consumption of cannabis on its premises. The division shall issue standards for the safe consumption of cannabis at locations other than a private residence. The standards shall allow for the facility to sell or provide food and beverages, including alcoholic beverages. The division may develop or adopt from any other governmental agency such safety and security standards as are reasonably necessary for the safe consumption of cannabis at a location other than a private residence, but shall not impose standards that make the operation of a cannabis hospitality facility impracticable.

(4) Cannabis cultivation facility licenses may be issued as follows. An entity may apply to the division for and obtain one or more licenses to grow cannabis as a cannabis cultivation facility. Each facility in operation shall require a separate license, but multiple licenses may be utilized in a single location. Each facility may be limited by the division to not less than thirty thousand square feet of flowering plant canopy space. Facilities may choose to grow indoors using artificial light, outdoors, in a greenhouse utilizing a combination of artificial and natural light, or any combination of methods. The license shall be valid for one year from its date of issuance and shall be renewable, except for good cause. An entity currently licensed as a medical marijuana cultivation facility may also apply for a cannabis cultivation facility license at the same location.

(5) Cannabis manufacturing facility licenses may be issued as follows. An entity may apply to the division for and obtain one or more licenses to operate a cannabis manufacturing facility. Each facility in operation shall require a separate license. A license shall be valid for one year from its date of issuance and shall be renewable, except for good cause. An entity currently licensed as a medical marijuana manufacturing facility may also apply for a cannabis manufacturing facility license at the same location.

(6) Cannabis retail facility licenses may be issued as follows. An entity may apply to the division for and obtain one or more licenses to operate a cannabis retail facility. Each facility in operation shall require a separate license. A license shall be valid for one year from its date of issuance and shall be renewable, except for good cause. An entity currently licensed as a medical marijuana dispensary facility may also apply for a cannabis retail facility license at the same location.

(7) The division may charge an application or renewal fee for each license type not to exceed two thousand five hundred dollars. Application and renewal fees shall be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Division of Labor, or its successor agency. Applications re-submitted after a denial shall not be charged an additional application fee, but may be charged a fee of not more than five hundred dollars for a re-submitted application.

(8) The division may charge a certification and renewal fee for each certification type not to exceed one thousand dollars. Application and renewal fees shall be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Division of Labor, or its successor agency.

(9) An entity may apply for a reduced application or renewal fee. The division shall develop rules to determine the eligibility of an applicant for a reduced fee. The rules shall include consideration for entities:

(a) locating in an area that has an unemployment rate above the national average;

(b) locating in an area that has been designated as an Economic Disadvantaged Zone by the US Division of Commerce;

(c) owned and operated by individuals in protected classes;

(d) owned and operated by veterans;

(e) owned or operated by an entity that was previously denied a medical marijuana facility license based on application score; or

(f) any other factors that would promote the inclusion of small and locally owned businesses and individuals in historically marginalized groups.

(10) All owners, officers, managers, and employees of entities licensed or certified pursuant to this section, shall submit fingerprints to the Missouri state highway patrol for the purpose of conducting a fingerprint-based criminal background check. The Missouri state highway patrol, if necessary, may forward the fingerprints to the Federal Bureau of Investigation(FBI) for the purpose of conducting a fingerprint-based criminal background check. Fingerprints shall be submitted pursuant to 43.543 and fees shall be paid pursuant to 43.530. Notwithstanding the provisions of section 610.120, all records related to any criminal history information shall be available to the division. The criminal background check may be requested by the applicant or employer and performed up to ninety days prior to the submission of an application for license, certification, or employment.

(11) The division shall maintain the confidentiality of information obtained from an applicant or licensee containing any individualized data, information, or records related to the licensee or its operation, including sales information, financial records, tax returns, credit reports, cultivation information, testing results, and security information and plans, or revealing any customer information, or any other records that are exempt from public inspection pursuant to state or federal law. Such information may be used only for a purpose authorized by this section.

(12) The division shall begin accepting license and certification applications not later than August 1, 2023. In order to facilitate the initial costs of regulation, the division may accept application fees beginning January 15, 2023 and shall apply such fees to applications submitted after August 1, 2023. Applications for licenses and certifications under this section shall be approved or denied by the division no later than ninety days after their submission. If the division fails to carry out its nondiscretionary duty to approve or deny an application within ninety days, the application or certification is deemed granted for one year or until revoked for good cause.

(13) There shall be no limit on the number of facility licenses or certifications issued by the division.

(14) Applications for any facility license shall be approved if the applicant can meet the following criteria:

(a) The applicant certifies that they have the following policies and procedures in place:

(i) A loss prevention and site security plan;

(ii) A seed to sale tracking system;

(iii) A method for verifying the age or medical marijuana status of any consumer;

(iv) Employment policies that are non-discriminatory and require fingerprint background checks prior to beginning employment at the facility;

(v) A plan to dispose of excess product in the event of the facility closing which may be satisfied by a plan to sell or donate excess products to the compassionate care program established in this section;

(vi) Sanitation policies for any area where un-packaged cannabis flower or cannabis-infused products are being prepared or packaged;

(vii) Labeling and packaging policies that are not misleading, are not likely to be confused with non-cannabis containing products, and are designed to make a product recognizable and distinguish it from similar products sold by competitors;

(viii) Record retention policy that allows for the inspection of records of purchases and sales for at least the preceding twenty-four months; and

(ix) Certification that any contracts to supply cannabis for medical use will take precedence over contracts to supply cannabis for adult use.

(b) All owners, officers, and managers are over twenty-one years of age and have submitted to a fingerprint background check and have not been convicted of any disqualifying felonies;

(c) The applicant has designated a natural person as a registered agent with the Missouri secretary of state;

(d) The applicant has verified its anticipated location is properly zoned and not within one thousand feet of any then-existing elementary or secondary school, child day-care center, or church; and

(e) The applicant certifies that they will not begin operations until after a commencement inspection as required by the division. Commencement inspections must be completed within thirty days of an applicant's request for such inspection.

(15) Applications for any transportation, delivery, testing, or hospitality certification shall be approved if the applicant can meet the following criteria:

(a) The applicant certifies that they have the following policies and procedures in place:

(i) A loss prevention and security plan suitable to the type of certification;

(ii) For testing certifications, an inventory tracking system;

(iii) For hospitality and delivery certifications, a method for verifying the age or medical marijuana patient status of any consumer;

(iv) Employment policies that are non-discriminatory;

(v) A plan to dispose of unused or undelivered product which may be satisfied by a plan to donate excess products to the compassionate care program established in this section;

(vi) Sanitation policies for any area where cannabis flower or cannabis-infused products are being tested or consumed;

(b) All owners, officers, and managers are over twenty-one years of age and have submitted to a fingerprint background check and have not been convicted of any disqualifying felonies;

(c) The applicant has designated a natural person as a registered agent with the Missouri secretary of state;

(e) For testing facilities, the applicant certifies that they will not begin operations until after a commencement inspection as required by the division. Commencement inspections must be completed within thirty days of an applicant's request for such inspection.

(16) A single entity may hold multiple licenses or certifications and may operate under such licenses at a single location. However, a cannabis hospitality facility certification shall not be issued for a location in which a cannabis cultivation facility, a cannabis manufacturing facility, or a cannabis retail facility is in operation.

(17) Facilities licensed under Article XIV Section 1 may also apply for and be granted licenses and certifications under this section.

5. Taxation and Funding

(1) Application and renewal fees collected by the division shall be used for the administration of this section. If such fees are insufficient to provide for the administration of this section, the division may apply to the Missouri Economic Recovery and Growth Fund for a cash operating transfer which shall be repaid as provided by law.

(2) A tax is hereby levied upon the retail sale of cannabis for adult use sold at cannabis retail facilities within the state.

(a) The tax shall be at a rate of seven and one-half percent of the retail price.

(b) The tax shall be collected by each licensed cannabis retail facility and paid to the department of revenue. After retaining no more than two percent of the amount collected for its actual collection costs, amounts generated by the tax levied in this section shall be deposited by the department of revenue into the Missouri Economic Recovery and Growth Fund. Licensed entities making retail sales within the state shall be allowed approved credit for returns provided the tax was paid on the returned item and the purchaser was given the refund or credit.

(c) Such tax shall not be levied on wholesale sales of cannabis for adult use or any cannabis which is transferred from a cannabis retail facility to a cannabis cultivation or manufacturing facility.

(3) There is hereby created in the state treasury the "Missouri Economic Recovery and Growth Fund", which shall consist of taxes collected under this section. The state treasurer shall be custodian of the fund, and he or she shall invest monies in the fund in the same manner as other funds are invested. Any interest and monies earned on such investments shall be credited to the fund. The commissioner of administration is authorized to make cash operating transfers to the fund for purposes of meeting the cash requirements of the division in advance of it receiving annual application, licensing, and tax revenue, with any such transfers to be repaid as provided by law. The fund shall be a dedicated fund and shall stand appropriated without further legislative action as follows:

(a) One-third of all monies collected shall be distributed to not-for-profit organizations, state agencies, and political subdivisions to provide free legal assistance to individuals seeking to expunge a criminal record, or to increase staffing levels to process expungement requests in a timely fashion; and

(b) Two-thirds of all monies collected shall be transferred to the general revenue fund.

(4) All monies from the taxes authorized under this subsection shall provide additional dedicated funding for the purposes enumerated above and shall not replace existing funding.

(5) Except as authorized in this subsection, no additional taxes shall be imposed on the sale of cannabis for adult use.

(6) The fees and taxes provided for in this Article XIV, Section 2 shall be fully enforceable notwithstanding any other provision in this Constitution purportedly prohibiting or restricting the taxes and fees provided for herein.

(7) A local government may impose a retail sales taxes on the retail sale of cannabis for adult use. Such taxes shall be imposed in the same way as provided for other retail sales taxes in law. Local taxes imposed on the retail sale of cannabis for adult use shall not exceed those imposed by the same jurisdiction on the retail sale of alcoholic beverages or other retail sales whichever is higher.

(8) Any consumer who presents a duly issued medical marijuana patient identification card or a medical marijuana primary caregiver identification card shall not pay the sales tax provided for in this section, but shall pay the sales tax required for medical marijuana sales in Article XIV Section 1.

6. Public Safety

(1) Nothing in this section shall provide immunity for negligence, either common law or statutorily created, nor criminal immunities for operating a vehicle, aircraft, dangerous device, or navigating a boat under the influence of cannabis.

(2) A criminal conviction for an intoxication related offense shall require a showing that the person was actually impaired at the time the offense occurred. Evidence of the presence of inactive tetrahydrocannabinol (THC) metabolites in the person's system shall not be sufficient to show actual impairment.

(3) An allegation of negligence while under the influence of cannabis shall require a showing that the person was actually under the influence of cannabis at the time the negligence occurred. Evidence of the presence of inactive tetrahydrocannabinol (THC) metabolites in the person's system shall not be sufficient to show the person was actually under the influence.

(3) A consumer may cultivate up to twenty-five square feet of flowering canopy of cannabis for adult use in any space owned or leased by said consumer. The space in which cannabis for adult use is being cultivated must be secured against entry by unauthorized individuals including individuals under twenty-one years of age. Such cannabis shall not be provided for sale to any individual but may be sold or donated through the compassionate care program established in this section.

(4) A consumer may possess the following amounts of cannabis at any one time:

(a) up to eight ounces of dried unprocessed flower;

(b) up to twenty-eight grams of concentrated resin or extract; and

(c) up to four thousand milligrams of tetrahydrocannabinol in cannabis-infused products.

(5) No individual who is under twenty-one years of age may possess cannabis in any amount unless such individual is in possession of a medical marijuana patient or primary caregiver license issued pursuant to Article XIV Section 1.

(6) The legislature may pass criminal statute related to the possession, delivery, or distribution of cannabis in excess of the limits provided for in this section without the appropriate license. However, in no case shall the possession, delivery, or distribution of cannabis in an amount less than two times the limits provided for in this section be deemed a felony unless such delivery or distribution was to a person under twenty-one years of age. Any existing laws which criminalize possession, delivery, or distribution of cannabis in amounts less than the limits provided for in this section are hereby declared null and void unless such delivery or distribution was to a person under twenty-one years of age.

(7) Any individual convicted for a crime, other than a dangerous felony or the delivery or distribution to a person under seventeen years of age and more than two years younger than the person being charged, may file for release from custody and expungement of their criminal record in the jurisdiction in which the conviction occurred. Such release from custody shall be expedited and shall be granted unless the person seeking release is incarcerated for additional crimes. Such expungement shall be granted as a matter of right and shall not affect an individual's ability to seek expungement of other offenses under the laws of this state. The supreme court shall make available to the public free of charge forms for a release from custody or the expungement of such offenses. The filing fee for a motion or new cause of action under this subsection shall be no more than the filing fee for actions brought in the small claims court of the same jurisdiction.

(8) The presence or the smell of cannabis shall not be sufficient probable cause for a law enforcement officer to detain or search a person for reasons other than a suspected intoxication offense, or to impound or search the vehicle, residence, or other property of a consumer. Any search or arrest warrant issued for violations of this section or other cannabis laws not in conflict with this section shall require evidence of the violation and shall not be issued on the basis of the presence of cannabis alone. No search or arrest warrant shall be issued based on violations of this section or other cannabis laws not in conflict with this section that would allow law enforcement officers to enter a premises without first knocking and announcing their presence and purpose.

(9) The division shall develop in coordination with the Missouri department of health and senior services a compassionate care program through which cannabis may be tested and sold or donated to a cannabis cultivation facility, cannabis manufacturing facility, or cannabis retail facility by any consumer, cannabis cultivation facility, cannabis manufacturing facility, or cannabis retail facility.

Any facility that receives excess cannabis through such program must make any cannabis received through the program available free of charge to qualifying patients and primary caregivers who meet financial need and health necessity criteria. Each facility may develop its own criteria, but in no case shall cannabis be provided free of charge to any individual who is not in possession of a medical marijuana patient or primary caregiver identification card.

7. Local Control

(1) Unless allowed by the local government, no new cannabis cultivation facility, cannabis testing facility, cannabis retail facility, or cannabis manufacturing facility shall be initially sited within one thousand feet of any then-existing elementary or secondary school, child day-care center, or church. A local government may allow for a location closer than one thousand feet but may not impose any restriction greater than one thousand feet.

(2) No local government shall prohibit cannabis cultivation facilities, cannabis testing facilities, cannabis manufacturing facilities, or cannabis retail facilities, or entities with a transportation or hospitality certification from operating within the locality either expressly or through the enactment of ordinances, including but not limited to zoning ordinances, or regulations that make their operation unduly burdensome in the locality. However, local governments may enact ordinances or regulations not in conflict with this section, or with regulations enacted pursuant to this section, governing the time, place, and manner of operation of such facilities in the locality so long as such ordinances or regulations are not more restrictive than those imposed on the manufacture or sale of alcoholic beverages.

(3) Local governments shall develop and adopt ordinances and policies related to cannabis facilities and certificate holders no later than June 30, 2023. The local government shall not adopt ordinances or policies that would impose an excessive fees or an undue burden on any one or more licensees or certificate holders; create an undue burden on access to consumers; or act to undermine the purposes of this section. A rule or regulation shall be presumed to impose excessive fees or an undue burden if it imposes fees higher than or restrictions greater than those imposed on the manufacture and sale of alcoholic beverages.

(4) If the local government fails to adopt ordinances and policies specific to cannabis for adult use prior to June 30, 2023, the rules and regulations for the location and licensing of alcoholic beverage manufacturing and sale shall apply to cannabis facilities wherever possible.

(3) Local governments may require cannabis cultivation facilities, cannabis manufacturing facilities, cannabis retail facilities, cannabis transportation or delivery certificate holders, cannabis hospitality certificate holders to be licensed businesses under the local ordinances. However no local government shall require an additional fee to be paid or additional special license to be acquired by a cannabis license or certificate holder that is not required for other businesses in the jurisdiction.

(4) A local government may establish civil penalties for violation of an ordinance or regulations governing the time, place, and manner of operation of a medical marijuana cultivation facility, medical marijuana testing facility, medical marijuana manufacturing facility, medical marijuana dispensary facility, or entity holding a transportation certification that may operate in such locality so long as such penalties are not greater than those imposed on the manufacture or sale of alcoholic beverages.

8. Other Provisions

(1) All cannabis for adult use sold in Missouri shall be cultivated in a licensed cultivation facility located in Missouri or a licensed facility located in another state if federal law allows for the interstate transportation of cannabis.

(2) All cannabis-infused products for adult use sold in the state of Missouri shall be manufactured in a licensed manufacturing facility or a licensed facility located in another state if federal law allows for the interstate transportation of cannabis-infused products.

(3) A cannabis testing facility shall not be subject to civil or criminal prosecution under Missouri law, denial of any right or privilege, civil or administrative penalty or sanction, or disciplinary

action by any accreditation or licensing board or commission for providing laboratory testing services that relate to the adult use of cannabis consistent with this section and otherwise meeting legal standards of professional conduct.

(4) An attorney shall not be subject to disciplinary action by the state bar association or other professional licensing body for being employed by, contracting with, or providing legal assistance to facilities licensed or certified under this section, entities applying for licensing or certification under this section, or any individual seeking legal advice related to activity that is no longer subject to civil or criminal penalties under state law pursuant to this section.

(5) Except as provided for by this section, actions and conduct by consumers, facilities licensed or certified under this section, or the employees, contractors, vendors, or agents of facilities licensed or certified under this section, as permitted by this section and in compliance with division regulations and other provisions of law, shall not be subject to criminal or civil liability or sanctions under Missouri law including but not limited to disciplinary action against a professional license, denial of public assistance programs or public services, or denial of a license to operate a vehicle, watercraft, or other equipment.

(6) It is the public policy of the state of Missouri that contracts related to cannabis for adult use that are entered into by consumers, cannabis testing facilities, cannabis transportation or delivery facilities, cannabis hospitality facilities, cannabis cultivation facilities, cannabis manufacturing facilities, or cannabis retail facilities and those who allow property to be used by those entities, should be enforceable. It is the public policy of the state of Missouri that no contract entered into by consumers, cannabis testing facilities, cannabis transportation or delivery facilities, cannabis hospitality facilities, cannabis cultivation facilities, cannabis manufacturing facilities, or cannabis retail facilities, or by a person who allows property to be used for activities that are exempt from state criminal penalties by this section, shall be unenforceable on the basis that activities related to medical marijuana may be prohibited by federal law.

(7) No mandatory reporter under the laws of this state shall be required to report the adult use of cannabis by a parent or prospective parent unless such use is in violation of this section or the parent is actively endangering the health and safety of a child. A prospective foster or adoptive parent shall not be discriminated against for their use of cannabis for non-medical purposes unless such use is in violation of this section or other provisions of law not in conflict with this section.

(8) The denial of a license, license renewal, or identification card by the division shall be appealable to the administrative hearing commission, or its successor entity. Following the exhaustion of administrative review, denial of a license, license renewal, or identification card by the division shall be subject to judicial review as provided by law.

(9) No elected official shall interfere directly or indirectly with the division's obligations and activities under this section.

9. Severability

The provisions of this section are severable, and if any clause, sentence, paragraph or section of this measure, or an application thereof, is adjudged invalid by any court of competent jurisdiction, the other provisions shall continue to be in effect to the fullest extent possible.

The Honorable Nicole Galloway
State Auditor
State Capitol Building
Jefferson City, MO 65101

RE: Petition approval request from Eric McSwain regarding a proposed constitutional amendment to Articles XIV and XIX, version 1 (2022-042)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Eric McSwain on July 13, 2021.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Section A. Article XIV of the Constitution is revised by amending Section 1, and adopting one new section to be known as Article XIX, Section 2 to read as follows:

Section 1. 1. Purposes.

This section is intended to permit state-licensed physicians to recommend marijuana for medical purposes to patients with serious illnesses and medical conditions. The section allows patients with qualifying medical conditions the right to discuss freely with their physicians the possible benefits of medical marijuana use, the right of their physicians to provide professional advice concerning the same, and the right to use medical marijuana for treatment under the supervision of a physician.

This section is intended to make only those changes to Missouri laws that are necessary to protect patients, their primary caregivers, and their physicians from civil and criminal penalties, and to allow for the **[**limited**]** legal production, distribution, sale and purchase of marijuana for medical use. This section is not intended to change current civil and criminal laws governing the use of marijuana for nonmedical purposes. The section does not allow for the public use of marijuana and driving under the influence of marijuana.

2. Definitions.

(1) "Administer" means the direct application of marijuana to a qualifying patient by way of any of the following methods:

(a) Ingestion of capsules, teas, oils, and other marijuana-infused products;

(b) Vaporization or smoking of dried flowers, buds, plant material, extracts, or oils;

(c) Application of ointments or balms;

(d) Transdermal patches and suppositories;

(e) Consuming marijuana-infused food products; or

(f) Any other method recommended by a qualifying patient's physician.

(2) "Department" means the department of health and senior services, or its successor agency.

(3) "Entity" means a natural person, corporation, professional corporation, nonprofit corporation, cooperative corporation, unincorporated association, business trust, limited liability company, general or limited partnership, limited liability partnership, joint venture, or any other legal entity.

(4) "Flowering plant" means a marijuana plant from the time it exhibits the first signs of sexual maturity through harvest.

(5) "Marijuana" or "marihuana" means *Cannabis indica*, *Cannabis sativa*, and *Cannabis ruderalis*, hybrids of such species, and any other strains commonly understood within the scientific community to constitute marijuana, as well as resin extracted from the plant and marijuana-infused products. "Marijuana" or "marihuana" do not include industrial hemp **[**containing a cropwide average tetrahydrocannabinol concentration that does not exceed three-tenths of one percent on a dry weight basis**]** **as defined by federal law**, or commodities or products manufactured from industrial hemp **as defined by federal law**.

(6) "Marijuana-infused products" means products that are infused with marijuana or an extract thereof and are intended for use or consumption other than by smoking, including, but not limited to, edible products, ointments, tinctures and concentrates.

(7) "Medical marijuana cultivation facility" means a facility licensed by the department to acquire, cultivate, process, store, transport, and sell marijuana to a medical marijuana dispensary facility, medical marijuana testing facility, or to a medical marijuana-infused products manufacturing facility.

(8) "Medical marijuana dispensary facility" means a facility licensed by the department to acquire, store, sell, transport, and deliver marijuana, marijuana-infused products, and drug paraphernalia used to administer marijuana as provided for in this section to a qualifying patient, a primary caregiver, another medical marijuana dispensary facility, a medical marijuana testing facility, or a medical marijuana-infused products manufacturing facility.

(9) "Medical marijuana-infused products manufacturing facility" means a facility licensed by the department to acquire, store, manufacture, transport, and sell marijuana-infused products to a medical marijuana dispensary facility, a medical marijuana testing facility, or to another medical marijuana-infused products manufacturing facility.

(10) "Medical marijuana testing facility" means a facility certified by the department to acquire, test, certify, and transport marijuana.

(11) "Medical use" means the production, possession, delivery, distribution, transportation, or administration of marijuana or a marijuana-infused product, or drug paraphernalia used to administer marijuana or a marijuana-infused product, for the benefit of a qualifying patient to mitigate the symptoms or effects of the patient's qualifying medical condition.

(12) "Physician" means an individual who is licensed and in good standing to practice medicine or osteopathy under Missouri law.

(13) "Physician certification" means a document, whether handwritten, electronic or in another commonly used format, signed by a physician and stating that, in the physician's professional opinion, the patient suffers from a qualifying medical condition.

(14) "Primary caregiver" means an individual twenty-one years of age or older who has significant responsibility for managing the well-being of a qualifying patient and who is designated as such on the primary caregiver's application for an identification card under this section or in other written notification to the department. **Any health care provider licensed under the laws of the state may also serve as a primary caregiver. A qualifying patient may have up to three primary caregivers.**

(15) "Qualifying medical condition" means the condition of, symptoms related to, or side-effects from the treatment of:

(a) Cancer;

(b) Epilepsy;

(c) Glaucoma;

(d) Intractable migraines unresponsive to other treatment;

(e) A chronic medical condition that causes severe, persistent pain or persistent muscle spasms, including but not limited to those associated with multiple sclerosis, seizures, Parkinson's disease, and Tourette's syndrome;

(f) Debilitating psychiatric disorders, including, but not limited to, posttraumatic stress disorder, if diagnosed by a state licensed psychiatrist;

(g) Human immunodeficiency virus or acquired immune deficiency syndrome;

(h) A chronic medical condition that is normally treated with a prescription medication that could lead to physical or psychological dependence, when a physician determines that medical use of marijuana could be effective in treating that condition and would serve as a safer alternative to the prescription medication;

(i) Any terminal illness; or

(j) In the professional judgment of a physician, any other chronic, debilitating or other medical condition, including, but not limited to, hepatitis C, amyotrophic lateral sclerosis, inflammatory

bowel disease, Crohn's disease, Huntington's disease, autism, neuropathies, sickle cell anemia, agitation of Alzheimer's disease, cachexia, and wasting syndrome.

(16) "Qualifying patient" means a Missouri resident diagnosed with at least one qualifying medical condition.

3. Creating Patient Access to Medical Marijuana.

(1) In carrying out the implementation of this section, the department shall have the authority to:

(a) Grant or refuse state licenses and certifications for the cultivation, manufacture, dispensing, sale, testing, tracking, and transportation of marijuana for medical use as provided by law; suspend, fine, restrict, or revoke such licenses and certifications upon a violation of this section or a rule promulgated pursuant to this section; and impose any administrative penalty authorized by this section or any rule promulgated pursuant to this section.

(b) Promulgate rules and emergency rules necessary for the proper regulation and control of the cultivation, manufacture, dispensing, and sale of marijuana for medical use and for the enforcement of this section so long as patient access is not restricted unreasonably and such rules are reasonably necessary for patient safety or to restrict access to only licensees and qualifying patients.

(c) Develop such forms, certificates, licenses, identification cards, and applications as are necessary for, or reasonably related to, the administration of this section or any of the rules promulgated under this section;

(d) Require a seed-to-sale tracking system that tracks medical marijuana from either the seed or immature plant stage until the medical marijuana or medical marijuana-infused product is sold to a qualifying patient or primary caregiver to ensure that no medical marijuana grown by a medical marijuana cultivation facility or manufactured by a medical marijuana-infused products manufacturing facility is sold or otherwise transferred except by a medical marijuana dispensary facility. The department shall certify, if possible, at least two commercially available systems to licensees as compliant with its tracking standards and issue standards for the creation or use of other systems by licensees.

(e) Issue standards for the secure transportation of marijuana and marijuana-infused products. The department shall certify entities which demonstrate compliance with its transportation standards to transport marijuana and marijuana-infused products to a medical marijuana cultivation facility, a medical marijuana-infused products manufacturing facility, a medical marijuana dispensary facility, a medical marijuana testing facility, or another entity with a transportation certification. The department shall develop or adopt from any other governmental agency such safety and security standards as are reasonably necessary for the transportation of marijuana. Any entity licensed or certified pursuant to this section shall be allowed to transport cannabis.

(f) The department may charge a fee not to exceed $5,000 for any certification issued pursuant to this section.

(g) Prepare and transmit annually a publicly available report accounting to the governor for the efficient discharge of all responsibilities assigned to the department under this section;

[(h) Establish a system to numerically score competing medical marijuana licensee and certificate applicants, only in cases where more applicants apply than the minimum number of licenses or certificates as calculated by this section, which scoring shall be limited to an analysis of the following:

(i) the character, veracity, background, qualifications, and relevant experience of principal officers or managers;

(ii) the business plan proposed by the applicant, which in the case of cultivation facilities and dispensaries shall include the ability to maintain an adequate supply of marijuana, plans to ensure safety and security of qualifying patients and the community, procedures to be used to prevent diversion, and any plan for making marijuana available to low-income qualifying patients;

(iii) site security;

(iv) experience in a legal cannabis market;

(v) in the case of medical marijuana testing facilities, the experience of their personnel with testing marijuana, food or drugs for toxins and/or potency and health care industry experience;

(vi) the potential for positive economic impact in the site community;

(vii) in the case of medical marijuana cultivation facilities, capacity or experience with agriculture, horticulture, and health care;

(viii) in the case of medical marijuana dispensary facilities, capacity or experience with health care, the suitability of the proposed location, and its accessibility for patients;

(ix) in the case of medical marijuana-infused products manufacturing facilities, capacity or experience with food and beverage manufacturing; and

(x) maintaining competitiveness in the marijuana for medical use marketplace.

In ranking applicants and awarding licenses and certificates, the department may consult or contract with other public agencies with relevant expertise regarding these factors. The department shall lift or ease any limit on the number of licensees or certificate holders in order to meet the demand for marijuana for medical use by qualifying patients.**]**

(2) The department shall issue any rules or emergency rules necessary for the implementation and enforcement of this section and to ensure the right to, availability, and safe use of marijuana for medical use by qualifying patients. In developing such rules or emergency rules, the department may consult with other public agencies. In addition to any other rules or emergency rules necessary to carry out the mandates of this section, the department may issue rules or emergency rules relating to the following subjects:

(a) Compliance with, enforcement of, or violation of any provision of this section or any rule issued pursuant to this section, including procedures and grounds for denying, suspending, fining, restricting, or revoking a state license or certification issued pursuant to this section;

(b) Specifications of duties of officers and employees of the department;

(c) Instructions or guidance for local authorities and law enforcement officers;

(d) Requirements for inspections, investigations, searches, seizures, and such additional enforcement activities as may become necessary from time to time;

(e) Creation of a range of administrative penalties for use by the department;

(f) Prohibition of misrepresentation and unfair practices;

(g) Control of informational and product displays on licensed premises provided that the rules may not prevent or unreasonably restrict appropriate signs on the property of the medical marijuana dispensary facility, product display and examination by the qualifying patient and/or primary caregiver, listings in business directories including phone books, listings in marijuana-related or medical publications, or the sponsorship of health or not for profit charity or advocacy events;

(h) Development of individual identification cards for owners, officers, managers, contractors, employees, and other support staff of entities licensed or certified pursuant to this section, including a fingerprint-based federal and state criminal record check in accordance with U.S. Public Law 92-544, or its successor provisions, as may be required by the department prior to issuing a card and procedures to ensure that cards for new applicants are issued within fourteen days. Applicants licensed pursuant to this section shall submit fingerprints to the Missouri state highway patrol for the purpose of conducting a state and federal fingerprint-based criminal background check. The Missouri state highway patrol, if necessary, **[**shall**]** **may** forward the fingerprints to the Federal Bureau of Investigation (FBI) for the purpose of conducting a

fingerprint-based criminal background check. Fingerprints shall be submitted pursuant to 43.543 and fees shall be paid pursuant to 43.530;

(i) Security requirements for any premises licensed or certified pursuant to this section, including, at a minimum, lighting, physical security, video, alarm requirements, and other minimum procedures for internal control as deemed necessary by the department to properly administer and enforce the provisions of this section, including reporting requirements for changes, alterations, or modifications to the premises;

(j) Regulation of the storage of, warehouses for, and transportation of marijuana for medical use;

(k) Sanitary requirements for, including, but not limited to, the preparation of medical marijuana-infused products;

(l) The specification of acceptable forms of picture identification that a medical marijuana dispensary facility may accept when verifying a sale;

(m) Labeling and packaging standards;

(n) Records to be kept by licensees and the required availability of the records;

(o) State licensing procedures, including procedures for renewals, reinstatements, initial licenses, and the payment of licensing fees;

(p) The reporting and transmittal of tax payments;

(q) Authorization for the department of revenue to have access to licensing information to ensure tax payment and the effective administration of this section; and

(r) Such other matters as are necessary for the fair, impartial, stringent, and comprehensive administration of this section.

(3) The department shall issue rules or emergency rules for a medical marijuana and medical marijuana-infused products independent testing and certification program for medical marijuana licensees and requiring licensees to test medical marijuana using one or more impartial, independent laboratories to ensure, at a minimum, that products sold for human consumption do not contain contaminants that are injurious to health, to ensure correct labeling and measure potency. The department shall not require any medical marijuana or medical marijuana-infused products to be tested more than once prior to sale.

(4) The department shall issue rules or emergency rules to provide for the certification of and standards for medical marijuana testing facilities, including the requirements for equipment and qualifications for personnel, but shall not require certificate holders to have any federal agency licensing or have any relationship with a federally licensed testing facility. The department shall certify, if possible, at least two entities as medical marijuana testing facilities. No medical marijuana testing facility shall be owned by an entity under substantially common control, ownership, or management as a medical marijuana cultivation facility, medical marijuana-infused product manufacturing facility, or medical marijuana dispensary facility.

(5) The department shall maintain the confidentiality of reports or other information obtained from an applicant or licensee containing any individualized data, information, or records related to the licensee or its operation, including sales information, financial records, tax returns, credit reports, cultivation information, testing results, and security information and plans, or revealing any patient information, or any other records that are exempt from public inspection pursuant to state or federal law. Such reports or other information may be used only for a purpose authorized by this section. Any information released related to patients may be used only for a purpose authorized by federal law and this section, including verifying that a person who presented a patient identification card to a state or local law enforcement official is lawfully in possession of such card.

(6) Within one hundred eighty days of December 6, 2018, the department shall make available to the public license application forms and application instructions for medical marijuana cultivation

facilities, medical marijuana testing facilities, medical marijuana dispensary facilities, and medical marijuana-infused products manufacturing facilities.

(7) Within one hundred eighty days of December 6, 2018, the department shall make available to the public application forms and application instructions for qualifying patient, qualifying patient cultivation, and primary caregiver identification cards. Within two hundred ten days of December 6, 2018, the department shall begin accepting applications for such identification cards.

(8) An entity may apply to the department for and obtain one or more licenses to grow marijuana as a medical marijuana cultivation facility. Each facility in operation shall require a separate license, but multiple licenses may be utilized in a single facility. Each indoor facility utilizing artificial lighting may be limited by the department to thirty thousand square feet of flowering plant canopy space. Each outdoor facility utilizing natural lighting may be limited by the department to two thousand eight hundred flowering plants. Each greenhouse facility using a combination of natural and artificial lighting may be limited by the department, at the election of the licensee, to two thousand eight hundred flowering plants or thirty thousand square feet of flowering plant canopy. The license shall be valid for three years from its date of issuance and shall be renewable, except for good cause. The department shall charge each applicant a nonrefundable fee of ten thousand dollars per license application or renewal for all applicants filing an application within three years of December 6, 2018, and shall charge each applicant a nonrefundable fee of five thousand dollars per license application or renewal thereafter. Once granted, the department shall charge each licensee an annual fee of twenty-five thousand dollars per facility license. Application and license fees shall be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency. No more than three medical marijuana cultivation facility licenses shall be issued to any entity under substantially common control, ownership, or management.

(9) An entity may apply to the department for and obtain one or more licenses to operate a medical marijuana dispensary facility. Each facility in operation shall require a separate license. A license shall be valid for three years from its date of issuance and shall be renewable, except for good cause. The department shall charge each applicant a nonrefundable fee of six thousand dollars per license application or renewal for each applicant filing an application within three years of December 6, 2018, and shall charge each applicant a nonrefundable fee of three thousand dollars per license application or renewal thereafter. Once granted, the department shall charge each licensee an annual fee of ten thousand dollars per facility license. Application and license fees shall be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency. No more than five medical marijuana dispensary facility licenses shall be issued to any entity under substantially common control, ownership, or management.

(10) An entity may apply to the department for and obtain one or more licenses to operate a medical marijuana-infused products manufacturing facility. Each facility in operation shall require a separate license. A license shall be valid for three years from its date of issuance and shall be renewable, except for good cause. The department shall charge each applicant a nonrefundable fee of six thousand dollars per license application or renewal for each applicant filing an application within three years of December 6, 2018, and shall charge each applicant a nonrefundable fee of three thousand dollars per license application or renewal thereafter. Once granted, the department shall charge each licensee an annual fee of ten thousand dollars per facility license. Application and license fees shall be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency. No more than three medical marijuana-infused products manufacturing facility licenses shall be issued to any entity under substantially common control, ownership, or management.

(11) Any applicant for a license authorized by this section may prefile their application fee with the department beginning 30 days after December 6, 2018.

(12) Except for good cause, a qualifying patient or his or her primary caregiver may obtain an identification card from the department to cultivate up to [six flowering marijuana plants] **fifty square feet of canopy space** for the [exclusive use] **benefit** of that qualifying patient. The card

shall be valid for twelve months from its date of issuance and shall be renewable with the annual submittal of a new or updated physician's certification. The department shall charge an annual fee for the card of [one hundred] **twenty-five** dollars, with such rate to be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency. **In no case shall any qualifying patient cultivate more than fifty square feet of canopy space regardless of the number of primary caregivers assigned to said qualifying patient.**

(13) The department may set a limit on the amount of marijuana that may be purchased by or on behalf of a single qualifying patient in a thirty-day period, provided that limit is not less than four ounces of dried, unprocessed marijuana, or its equivalent. Any such limit shall not apply to a qualifying patient with written certification from two independent physicians that there are compelling reasons why the qualifying patient needs a greater amount than the limit established by the department.

(14) The department may set a limit on the amount of marijuana that may be possessed by or on behalf of each qualifying patient, provided that limit is not less than a sixty-day supply of dried, unprocessed marijuana, or its equivalent. A primary caregiver may possess a separate legal limit for each qualifying patient under their care and a separate legal limit for themselves if they are a qualifying patient. **In no case shall the total amount of medical marijuana attributed to a single qualifying patient in the possession of multiple primary caregivers exceed the limit set by the department.** Qualifying patients cultivating marijuana for medical use may possess up to a [ninety-day] **one year** supply, so long as the supply remains **secured** on property under their control. Any such limit shall not apply to a qualifying patient with written certification from two independent physicians that there are compelling reasons for additional amounts. Possession of between the legal limit and up to twice the legal limit shall subject the possessor to department sanctions, including an administrative penalty and loss of their patient identification card for up to a year. Purposefully possessing amounts in excess of twice the legal limit shall be punishable by [imprisonment of up to one year and] a fine of up to two thousand dollars.

[(15) The department may restrict the aggregate number of licenses granted for medical marijuana cultivation facilities, provided, however, that the number may not be limited to fewer than one license per every one hundred thousand inhabitants, or any portion thereof, of the state of Missouri, according to the most recent census of the United States. A decrease in the number of inhabitants in the state of Missouri shall have no impact.

(16) The department may restrict the aggregate number of licenses granted for marijuana-infused products manufacturing facilities, provided, however, that the number may not be limited to fewer than one license per every seventy thousand inhabitants, or any portion thereof, of the state of Missouri, according to the most recent census of the United States. A decrease in the number of inhabitants in the state of Missouri shall have no impact.

(17) The department may restrict the aggregate number of licenses granted for medical marijuana dispensary facilities, provided, however, that the number may not be limited to fewer than twenty-four licenses in each United States congressional district in the state of Missouri pursuant to the map of each of the eight congressional districts as drawn and effective on December 6, 2018. Future changes to the boundaries of or the number of congressional districts shall have no impact.]

(18) The department shall begin accepting license and certification applications for medical marijuana dispensary facilities, medical marijuana testing facilities, medical marijuana cultivation facilities, medical marijuana-infused products manufacturing facilities, seed-to-sale tracking systems, and for transportation of marijuana no later than two hundred forty days after December 6, 2018. Applications for licenses and certifications under this section shall be approved or denied by the department no later than one hundred fifty days after their submission. If the department fails to carry out its nondiscretionary duty to approve or deny an application within one hundred fifty days of submission, an applicant may immediately seek a court order compelling the department to approve or deny the application.

(19) Qualifying patients under this section shall obtain and annually renew an identification card or cards from the department. The department shall charge a fee of twenty-five dollars per year per card with such fee to be increased or decreased each year by the percentage of increase or

decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor or its successor agency. Upon receiving an application for a qualifying patient identification card or qualifying patient cultivation identification card, the department shall, within thirty days, either issue the card or provide a written explanation for its denial. If the department fails to deny and fails to issue a card to an eligible qualifying patient within thirty days, then their physician certification shall serve as their qualifying patient identification card or qualifying patient cultivation identification card for up to one year from the date of physician certification. All initial applications for or renewals of a qualifying patient identification card or qualifying patient cultivation identification card shall be accompanied by a physician certification that is less than thirty days old.

(20) Primary caregivers under this section shall obtain and annually renew an identification card from the department. The department shall charge a fee of twenty-five dollars per year, with such fee to be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency. Upon receiving an application for a primary caregiver identification card, the department shall, within thirty days, either issue the card or provide a written explanation for its denial.

(21) All marijuana for medical use sold in Missouri shall be cultivated in a licensed medical marijuana cultivation facility located in Missouri.

(22) All marijuana-infused products for medical use sold in the state of Missouri shall be manufactured in a medical marijuana-infused products manufacturing facility.

(23) The denial of a license, license renewal, or identification card by the department shall be appealable to the administrative hearing commission, or its successor entity. Following the exhaustion of administrative review, denial of a license, license renewal, or identification card by the department shall be subject to judicial review as provided by law.

(24) No elected official shall interfere directly or indirectly with the department's obligations and activities under this section.

(25) The department shall not have the authority to apply or enforce any rule or regulation that would impose an undue burden on any one or more licensees or certificate holders, any qualifying patients, or act to undermine the purposes of this section.

4. Taxation and Reporting.

(1) A tax is levied upon the retail sale of marijuana for medical use sold at medical marijuana dispensary facilities within the state. The tax shall be at a rate of four percent of the retail price. The tax shall be collected by each licensed medical marijuana dispensary facility and paid to the department of revenue. After retaining no more than five percent for its actual collection costs, amounts generated by the tax levied in this section shall be deposited by the department of revenue into the Missouri veterans' health and care fund. Licensed entities making retail sales within the state shall be allowed approved credit for returns provided the tax was paid on the returned item and the purchaser was given the refund or credit.

(2) There is hereby created in the state treasury the "Missouri Veterans' Health and Care Fund", which shall consist of taxes and fees collected under this section. The state treasurer shall be custodian of the fund, and he or she shall invest monies in the fund in the same manner as other funds are invested. Any interest and monies earned on such investments shall be credited to the fund. Notwithstanding any other provision of law, any monies remaining in the fund at the end of a biennium shall not revert to the credit of the general revenue fund. The commissioner of administration is authorized to make cash operating transfers to the fund for purposes of meeting the cash requirements of the department in advance of it receiving annual application, licensing, and tax revenue, with any such transfers to be repaid as provided by law. The fund shall be a dedicated fund and shall stand appropriated without further legislative action as follows:

(a) First, to the department, an amount **not to exceed twenty percent of net deposits which is** necessary for the department to carry out this section, including repayment of any cash operating transfers, payments made through contract or agreement with other state and public agencies

necessary to carry out this section, and a reserve fund to maintain a reasonable working cash balance for the purpose of carrying out this section;

(b) Next, the remainder of such funds shall be transferred to the Missouri veterans commission for health and care services for military veterans, including the following purposes: operations, maintenance and capital improvements of the Missouri veterans homes, the Missouri service officer's program, and other services for veterans approved by the commission, including, but not limited to, health care services, mental health services, drug rehabilitation services, housing assistance, job training, tuition assistance, and housing assistance to prevent homelessness. The Missouri veterans commission shall contract with other public agencies for the delivery of services beyond its expertise.

(c) All monies from the taxes authorized under this subsection shall provide additional dedicated funding for the purposes enumerated above and shall not replace existing dedicated funding.

(3) For all retail sales of marijuana for medical use, a record shall be kept by the seller which identifies, by secure and encrypted patient number issued by the seller to the qualifying patient involved in the sale, all amounts and types of marijuana involved in the sale and the total amount of money involved in the sale, including itemizations, taxes collected and grand total sale amounts. All such records shall be kept on the premises in a readily available format and be made available for review by the department and the department of revenue upon request. Such records shall be retained for five years from the date of the sale.

(4) The tax levied pursuant to this subsection is separate from, and in addition to, any general state and local sales and use taxes that apply to retail sales, which shall continue to be collected and distributed as provided by general law.

(5) Except as authorized in this subsection, no additional taxes shall be imposed on the sale of marijuana for medical use.

(6) The fees and taxes provided for in this Article XIV, Section 1 shall be fully enforceable notwithstanding any other provision in this Constitution purportedly prohibiting or restricting the taxes and fees provided for herein.

(7) The unexpended balance existing in the fund shall be exempt from the provisions of section 33.080 relating to the transfer of unexpended balances to the general revenue fund.

5. Additional Patient, Physician, Caregiver and Provider Protections.

(1) Except as provided in this section, the possession of marijuana in quantities less than the limits of this section, or established by the department, and transportation of marijuana from a medical marijuana dispensary facility to the qualifying patient's residence shall not subject the possessor to arrest, criminal or civil liability, or sanctions under Missouri law, provided that the possessor produces on demand to the appropriate authority a valid qualifying patient identification card; a valid qualifying patient cultivation identification card; a valid physician certification while making application for an identification card; or a valid primary caregiver identification card. Production of the respective equivalent identification card or authorization issued by another state or political subdivision of another state shall also meet the requirements of this subdivision.

(2) No patient shall be denied access to or priority for an organ transplant because they hold a qualifying patient identification card or use marijuana for medical use.

(3) A physician shall not be subject to criminal or civil liability or sanctions under Missouri law or discipline by the Missouri state board of registration for the healing arts, or its successor agency, for owning, operating, investing in, being employed by, or contracting with any entity licensed or certified pursuant to this section or issuing a physician certification to a patient diagnosed with a qualifying medical condition in a manner consistent with this section and legal standards of professional conduct.

(4) A health care provider**, including individuals licensed under chapter 335 or 337 or their successor statutes,** shall not be subject to civil or criminal prosecution under Missouri law, denial of any right or privilege, civil or administrative penalty or sanction, or disciplinary action by any

accreditation or licensing board or commission for owning, operating, investing in, being employed by, or contracting with any entity licensed or certified pursuant to this section or providing health care services that involve the medical use of marijuana consistent with this section and legal standards of professional conduct.

(5) A medical marijuana testing facility shall not be subject to civil or criminal prosecution under Missouri law, denial of any right or privilege, civil or administrative penalty or sanction, or disciplinary action by any accreditation or licensing board or commission for providing laboratory testing services that relate to the medical use of marijuana consistent with this section and otherwise meeting legal standards of professional conduct.

(6) A health care provider shall not be subject to mandatory reporting requirements for the medical use of marijuana by nonemancipated qualifying patients under eighteen years of age in a manner consistent with this section and with consent of a parent or guardian.

(7) A primary caregiver shall not be subject to criminal or civil liability or sanctions under Missouri law for purchasing, transporting, or administering marijuana for medical use to a qualifying patient or participating in the patient cultivation [of up to six flowering marijuana plants per patient] in a manner consistent with this section and generally established legal standards of personal or professional conduct.

(8) An attorney shall not be subject to disciplinary action by the state bar association or other professional licensing body for owning, operating, investing in, being employed by, contracting with, or providing legal assistance to prospective or licensed medical marijuana testing facilities, medical marijuana cultivation facilities, medical marijuana dispensary facilities, medical marijuana-infused products manufacturing facilities, qualifying patients, primary caregivers, physicians, health care providers or others related to activity that is no longer subject to criminal penalties under state law pursuant to this section.

(9) Actions and conduct by qualifying patients, primary caregivers, medical marijuana testing facilities, medical marijuana cultivation facilities, medical marijuana-infused products manufacturing facilities, or medical marijuana dispensary facilities licensed or registered with the department, or their employees or agents, as permitted by this section and in compliance with department regulations and other standards of legal conduct, shall not be subject to criminal or civil liability or sanctions under Missouri law, except as provided for by this section.

(10) Nothing in this section shall provide immunity for negligence, either common law or statutorily created, nor criminal immunities for operating a vehicle, aircraft, dangerous device, or navigating a boat under the influence of marijuana.

(11) It is the public policy of the state of Missouri that contracts related to marijuana for medical use that are entered into by qualifying patients, primary caregivers, medical marijuana testing facilities, medical marijuana cultivation facilities, medical marijuana-infused products manufacturing facilities, or medical marijuana dispensary facilities and those who allow property to be used by those entities, should be enforceable. It is the public policy of the state of Missouri that no contract entered into by qualifying patients, primary caregivers, medical marijuana testing facilities, medical marijuana cultivation facilities, medical marijuana-infused products manufacturing facilities, or medical marijuana dispensary facilities, or by a person who allows property to be used for activities that are exempt from state criminal penalties by this section, shall be unenforceable on the basis that activities related to medical marijuana may be prohibited by federal law.

6. Legislation.

Nothing in this section shall limit the general assembly from enacting laws consistent with this section, or otherwise effectuating the patient rights of this section. The legislature shall not enact laws that hinder the right of qualifying patients to access marijuana for medical use as granted by this section.

7. Additional Provisions.

(1) Nothing in this section permits a person to:

(a) Consume marijuana for medical use in a jail or correctional facility;

(b) Undertake any task under the influence of marijuana when doing so would constitute negligence or professional malpractice; or

(c) Operate, navigate, or be in actual physical control of any dangerous device or motor vehicle, aircraft or motorboat while under the influence of marijuana; or

(d) Bring a claim against any employer, former employer, or prospective employer for wrongful discharge, discrimination, or any similar cause of action or remedy, based on the employer, former employer, or prospective employer prohibiting the employee, former employee, or prospective employee from being under the influence of marijuana while at work or disciplining the employee or former employee, up to and including termination from employment, for working or attempting to work while under the influence of marijuana.

(2) No medical marijuana cultivation facility, medical marijuana testing facility, medical marijuana dispensary facility, or medical marijuana-infused products manufacturing facility, or entity with a transportation certification shall be owned, in whole or in part, or have as an officer, director, board member, manager, or employee, any individual with a disqualifying felony offense. A "disqualifying felony offense" is a violation of, and conviction or guilty plea to, state or federal law that is, or would have been, a felony under Missouri law, regardless of the sentence imposed, unless the department determines that:

(a) The person's conviction was for the medical use of marijuana or assisting in the medical use of marijuana; or

(b) The person's conviction was for a nonviolent crime **[**for which he or she was not incarcerated and that is more than five years old**]**; or

(c) More than five years have passed since the person was released from parole or probation, and he or she has not been convicted of any subsequent criminal offenses.

The department may consult with and rely on the records, advice and recommendations of the attorney general and the department of public safety, or their successor entities, in applying this subdivision.

(3) All medical marijuana cultivation facility, medical marijuana dispensary facility, and medical marijuana-infused products manufacturing facility licenses, entities with medical marijuana testing facility certifications, and entities with transportation certifications shall be held by entities that are majority owned by natural persons who have been citizens of the state of Missouri for at least one year prior to the application for such license or certification. Notwithstanding the foregoing, entities outside the state of Missouri may own a minority stake in such entities.

(4) No medical marijuana cultivation facility, medical marijuana dispensary facility, or medical marijuana-infused products manufacturing facility shall manufacture, package or label marijuana or marijuana-infused products in a false or misleading manner. No person shall sell any product in a manner designed to cause confusion between a marijuana or marijuana-infused product and any product not containing marijuana. A violation of this subdivision shall be punishable by an appropriate and proportional department sanction, up to and including loss of license.

(5) All edible marijuana-infused products shall be sold in individual, child-resistant containers that are labeled with dosage amounts, instructions for use, and estimated length of effectiveness. All marijuana and marijuana-infused products shall be sold in containers clearly and conspicuously labeled, in a font size at least as large as the largest other font size used on the package, as containing "Marijuana", or a "Marijuana-Infused Product". Violation of this prohibition shall subject the violator to department sanctions, including an administrative penalty.

(6) No individual shall serve as the primary caregiver for more than **[**three**]** **ten** qualifying patients.

(7) No qualifying patient shall consume marijuana for medical use in a public place, unless provided by law. Violation of this prohibition shall subject the violator to sanctions as provided by general law.

(8) No person shall extract resins from marijuana using dangerous materials or combustible gases without a medical marijuana-infused products manufacturing facility license. Violation of this prohibition shall subject the violator to department sanctions, including an administrative penalty and, if applicable, loss of their identification card, certificate, or license for up to one year.

(9) All qualifying patient cultivation shall take place in an enclosed, locked facility that is equipped with security devices that permit access only by the qualifying patient or by such patient's primary caregiver. [Two qualifying] **Qualifying** patients **and care givers**, who [both] hold valid qualifying patient cultivation identification cards, may share one enclosed, locked facility. **No shared facility may contain more than five thousand square feet of canopy space without obtaining a medical marijuana cultivation facility license.** [No more than twelve qualifying patient or primary caregiver cultivated flowering marijuana plants may be cultivated in a single, enclosed locked facility, except when a primary caregiver also holds a qualifying patient cultivation identification card, in which case no more than eighteen flowering marijuana plants may be cultivated in a single, enclosed, locked facility.]

(10) No medical marijuana cultivation facility, medical marijuana dispensary facility, medical marijuana-infused products manufacturing facility, medical marijuana testing facility, or entity with a transportation certification shall assign, sell, give, lease, sublicense, or otherwise transfer its license or certificate to any other entity without the express consent of the department, not to be unreasonably withheld.

(11) Unless allowed by the local government, no new medical marijuana cultivation facility, medical marijuana testing facility, medical marijuana dispensary facility, or medical marijuana-infused products manufacturing facility shall be initially sited within one thousand feet of any then-existing elementary or secondary school, child day-care center, or church. No local government shall prohibit medical marijuana cultivation facilities, medical marijuana testing facilities, medical marijuana-infused products manufacturing facilities, or medical marijuana dispensary facilities, or entities with a transportation certification either expressly or through the enactment of ordinances or regulations that make their operation unduly burdensome in the jurisdiction. However, local governments may enact ordinances or regulations not in conflict with this section, or with regulations enacted pursuant to this section, governing the time, place, and manner of operation of such facilities in the locality. A local government may establish civil penalties for violation of an ordinance or regulations governing the time, place, and manner of operation of a medical marijuana cultivation facility, medical marijuana testing facility, medical marijuana-infused products manufacturing facility, medical marijuana dispensary facility, or entity holding a transportation certification that may operate in such locality.

(12) Unless superseded by federal law or an amendment to this Constitution, a physician shall not certify a qualifying condition for a patient by any means other than providing a physician certification for the patient, whether handwritten, electronic, or in another commonly used format. A qualifying patient must obtain a new physician certification at least annually.

(13) A physician shall not issue a certification for the medical use of marijuana for a nonemancipated qualifying patient under the age of eighteen without the written consent of the qualifying patient's parent or legal guardian. The department shall not issue a qualifying patient identification card on behalf of a nonemancipated qualifying patient under the age of eighteen without the written consent of the qualifying patient's parent or legal guardian. Such card shall be issued to one of the parents or guardians and not directly to the patient. [Only a parent or guardian may serve as a primary caregiver for a nonemancipated qualifying patient under the age of eighteen.] **At least one of the primary caregivers for a nonemancipated qualifying patient under the age of eighteen must be a parent or legal guardian.** Only the qualifying patient's [parent or guardian] **primary caregiver** shall purchase or possess medical marijuana for a nonemancipated qualifying patient under the age of eighteen. A [parent or guardian] **primary caregiver** shall supervise the administration of medical marijuana to a nonemancipated qualifying patient under the age of eighteen.

(14) Nothing in this section shall be construed as mandating health insurance coverage of medical marijuana for qualifying patient use.

(15) Real and personal property used in the cultivation, manufacture, transport, testing, distribution, sale, and administration of marijuana for medical use or for activities otherwise in compliance with this section shall not be subject to asset forfeiture solely because of that use.

8. Severability.

The provisions of this section are severable, and if any clause, sentence, paragraph or section of this measure, or an application thereof, is adjudged invalid by any court of competent jurisdiction, the other provisions shall continue to be in effect to the fullest extent possible.

[9. Effective Date.

The provisions of this section shall become effective on December 6, 2018.]

Section 2.

1. Purpose

This section is intended to permit the safe and legal use of cannabis by adults over the age of twenty-one and to reasonably regulate the cultivation, processing, manufacturing, and distribution of cannabis. The people of Missouri have a right to enjoy the benefits of their labor free from unreasonable regulation. This section creates a legal, regulated, and taxed cannabis industry so Missouri businesses can participate in the growing market, and the state can reduce the burden on the budget and criminal justice system caused by the prosecution and incarceration of non-violent cannabis possession and distribution.

This section is not intended to supplant the medical marijuana market. The medical marijuana market is a necessary and important part of many patients' treatment plans. Care guided by a health care provider is important when cannabis is used in an intensive and therapeutic manner.

This section is intended to make only those changes to Missouri laws that are necessary to protect consumers and businesses in the cannabis industry from civil and criminal penalties; and to allow for the responsible consumption of cannabis, combat illegal underage consumption of cannabis, and achieve other important state policy goals such as maintaining an orderly marketplace composed of state-licensed cannabis cultivators, manufacturers, transporters, hospitality establishments, and retailers. This section is not intended to allow for the unregulated public use of cannabis; the operation of any dangerous device or motor vehicle, aircraft or motorboat while under the influence of marijuana; the use of cannabis in the workplace; or the use of cannabis by persons under twenty-one years of age.

2. Definitions.

(1) "Adult use" means the production, possession, delivery, distribution, transportation, or ingestion of cannabis or a cannabis-infused product, or drug paraphernalia used to ingest cannabis or a cannabis-infused product, by a person over the age of twenty-one for purposes other than those provided for in Article XIV Section 1.

(2) "Cannabis" means *Cannabis indica, Cannabis sativa, and Cannabis ruderalis*, hybrids of such species, and any other strains commonly understood within the scientific community to constitute cannabis, hemp, or marijuana. "Cannabis" includes resin extracted from the plant and cannabis-infused products. "Cannabis" does not include industrial hemp as defined by Federal law or commodities or products manufactured from industrial hemp as defined by Federal law. "Cannabis" does not include parts of the plant that do not contain tetrahydrocannabinol (THC) or the soil or substrate in which the plants were grown.

(3) "Cannabis-infused products" means products that are infused with cannabis or an extract thereof and are intended for ingestion other than by smoking, including, but not limited to, edible products, ointments, tinctures and concentrates.

(4) "Cannabis cultivation facility" means a facility licensed by the division to acquire, cultivate, process, store, package, transport, and sell cannabis to or from a cannabis retail facility, cannabis testing facility, cannabis manufacturing facility, or another cannabis cultivation facility.

(5) “Cannabis hospitality facility” means a facility certified by the division to permit the consumption of cannabis by consumers or qualifying patients on the premises.

(6) "Cannabis manufacturing facility" means a facility licensed by the division to acquire, process, manufacture, produce, store, package, transport, and sell cannabis and paraphernalia used to ingest cannabis as provided for in this section to or from a cannabis retail facility, cannabis testing facility, cannabis cultivation facility, or another cannabis manufacturing facility.

(7) "Cannabis retail facility" means a facility licensed by the division to acquire, store, package, sell, transport, and deliver cannabis, cannabis-infused products, and paraphernalia used to ingest cannabis as provided for in this section to a consumer, and acquire, store, package, sell, transport, and deliver cannabis, cannabis-infused products, and paraphernalia used to ingest cannabis as provided for in this section to or from another cannabis retail facility, a cannabis testing facility, cannabis manufacturing facility, or a cannabis cultivation facility.

(8) "Cannabis testing facility" means a facility certified by the division or the division of health and senior services to acquire, test, certify, and transport cannabis.

(9) “Child-Resistant Packaging” means resealable packaging that is opaque and is designed or constructed to be significantly difficult for children under five years of age to open and not difficult for normal adults to use.

(10) “Consumer” means a natural person over the age of twenty-one.

(11) “Delivery” means the delivery of cannabis from a cannabis retail facility to a consumer.

(12) “Disqualifying felony” means any dangerous felony as defined by the laws of this state, but shall not include any felony which is based on the possession or distribution of cannabis unless such act included the distribution of cannabis to a person under the age of seventeen and more than two years younger than the person being charged.

(13) “Division” means the division of alcohol and tobacco control within the department of public safety, or its successor division.

(14) "Entity" means a natural person, corporation, professional corporation, nonprofit corporation, cooperative corporation, unincorporated association, business trust, limited liability company, general or limited partnership, limited liability partnership, joint venture, or any other legal entity.

(15) "Flowering plant" means a cannabis plant from the time it shows physical signs of flowering or budding out of the nodes of the stem through harvest.

(16) “Historically Marginalized Population” means African American and Hispanic populations.

(17) “Ingest” means any method of introducing cannabis or its chemical components into the human body including but not limited to:

(a) Ingestion of capsules, teas, oils, and other cannabis-infused products;

(b) Vaporization or smoking of dried flowers, buds, plant material, extracts, or oils;

(c) Application of ointments or balms;

(d) Transdermal patches and suppositories; or

(e) Consuming cannabis-infused food products.

(18) “Local Government” means a county, township, city, town, village, or municipality.

(19) “Transportation” means the movement of cannabis between licensed facilities. “Transportation” includes the delivery of cannabis to a cannabis retail facility but does not include delivery of cannabis directly to a consumer.

3. Regulation

In carrying out the implementation of this section, the division shall have the authority to:

(1) Grant or refuse state licenses and certifications for the cultivation, manufacture, dispensing, sale, testing, tracking, transportation, delivery, and hospitality of cannabis for adult use in accordance with this section; suspend, fine, restrict, or revoke such licenses and certifications upon a violation of this section or a rule promulgated pursuant to this section; and impose any administrative penalty authorized by this section or any rule promulgated pursuant to this section.

(2) Promulgate rules and emergency rules necessary for the proper regulation and control of the cultivation, manufacture, sale, transportation, and delivery of cannabis for adult use, and for the enforcement of this section, so long as access is not restricted unreasonably and such rules are reasonably necessary for consumer safety or to restrict access to only persons over twenty-one years of age. Such rules may include provisions related to:

(a) Compliance with, enforcement of, or violation of any provision of this section or any rule issued pursuant to this section, including procedures and grounds for denying, suspending, fining, restricting, or revoking a state license or certification issued pursuant to this section;

(b) Specifications of duties of officers and employees of the division;

(c) Instructions or guidance for local authorities and law enforcement officers;

(d) Requirements for inspections, investigations, searches, seizures, and such additional enforcement activities as may become necessary;

(e) Creation of a range of administrative penalties for use by the division;

(f) Prohibition of misrepresentation and unfair practices;

(g) Regulation of informational and product displays on licensed premises provided that the rules may not prevent or unreasonably restrict appropriate signs on the property of the cannabis retail facility, product display and examination by a consumer, listings in business directories including online directories and phone books, listings in cannabis-related publications and websites, or the sponsorship of health or not for profit charity or advocacy events;

(h) Development of identification cards for entities licensed or certified pursuant to this section, including a fingerprint-based criminal background check for owners, officers, and managers of such entities.

(i) Develop such forms, certificates, licenses, and applications, which may be provided in electronic or digital format, as are necessary for, or reasonably related to, the administration of this section or any of the rules promulgated under this section;

(j) Requirements for any entity licensed or certified by the division to create and follow security policies that prevent access to cannabis by any person under the age of twenty-one; prevent entry by any person not authorized by the division or the license holder into areas where cannabis is being cultivated, manufactured, or stored; and provide immediate notice to the entity or their designated agent of any attempt by a person to gain unauthorized or illegal access to cannabis or any area where cannabis is being cultivated, manufactured, or stored;

(k) Regulation of the storage of, warehouses for, and transportation of cannabis for adult use;

(l) Sanitary requirements for, including, but not limited to, the preparation of cannabis-infused products;

(m) The specification of acceptable forms of identification that a cannabis retail facility may accept when verifying a sale;

(n) Labeling and packaging standards that require child-resistant packaging provided that the rules may not unreasonably restrict branding and marketing information that is not misleading and is

designed to make a product recognizable and distinguish it from similar products sold by competitors;

(o) Records to be kept by licensees and the required availability of the records;

(p) State licensing procedures, including procedures for renewals, reinstatements, initial licenses, and the payment of licensing fees;

(q) The reporting and transmittal of tax payments;

(r) Authorization for the division of revenue to have access to licensing information to ensure tax payment and the effective administration of this section;

(s) Ensure an adequate supply of cannabis for medical use, including but not limited to regulations that require facilities to maintain an adequate supply of cannabis for medical use based on sales history and requiring contracts to supply cannabis for medical use to take precedence over contracts to supply cannabis for adult use; and

(t) Such other matters as are necessary for the fair, impartial, and comprehensive administration of this section.

(3) Require a seed-to-sale tracking system that tracks cannabis from either the seed or immature plant stage until the cannabis is sold to a consumer to ensure that no cannabis grown by a cannabis cultivation facility or manufactured by a cannabis manufacturing facility is sold or otherwise transferred to a consumer except by a cannabis retail facility or certified delivery entity. The division shall certify, if possible, at least two commercially available systems to licensees as compliant with its tracking standards and issue standards for the creation or use of other systems by licensees. The division may coordinate with the department of health and senior services to utilize the same seed to sale tracking system as is used to track marijuana for medical use;

(4) Prepare and transmit annually a publicly available report accounting to the governor for the efficient discharge of all responsibilities assigned to the division under this section.

(5) If the division fails to promulgate rules and issue licenses specific to cannabis for adult use prior to June 30, 2023, the rules and regulations for the licensing of alcoholic beverage manufacturing and sale shall apply to cannabis facilities wherever possible.

(6) The division shall not have the authority to apply or enforce any rule or regulation that would require additional fees for applicants, license holders, or certificate holders; impose an undue burden on any one or more licensees or certificate holders; create an undue burden on access to consumers; or act to undermine the purposes of this section. A rule or regulation shall be presumed to impose an undue burden if it imposes restrictions that are greater than those imposed on the manufacture and sale of alcoholic beverages.

4. Licensing

(1) Cannabis transportation and delivery certifications may be issued as follows. The division shall certify entities which demonstrate compliance with its transportation and delivery standards to transport or deliver cannabis. The division shall issue standards for the secure transportation and delivery of cannabis. The division may develop or adopt from any other governmental agency such safety and security standards as are reasonably necessary for the transportation and delivery of cannabis but shall not impose standards that make the transportation or delivery of cannabis impracticable. There shall be no additional fee for a cannabis cultivation facility, a cannabis manufacturing facility, or a cannabis retail facility to be certified for transportation or delivery.

(2) Cannabis testing certification and standards may be issued as follows. The division shall certify cannabis testing facilities which demonstrate compliance with its rules for independent testing and certification of cannabis. The division shall issue rules or emergency rules establishing standards for a cannabis independent testing and certification program for cannabis licensees and requiring licensees to test cannabis using one or more impartial, independent laboratories to ensure, at a minimum, that products sold for human consumption do not contain contaminants that are injurious to health, to ensure correct labeling and measure potency. However, the rules shall not

impose any requirements that make it impracticable for an otherwise qualified facility to obtain certification. The division shall not require any cannabis to be tested more than once prior to sale. No cannabis testing facility shall be owned by an entity under substantially common control, ownership, or management as a cannabis cultivation, manufacturing, or retail facility licensed under this section or a medical marijuana cultivation, manufacturing, or dispensary facility licensed under Article XIV section 1. Testing facilities licensed under Article XIV section 1 shall be automatically certified to test cannabis under the rules issued by the division for the testing of cannabis for adult use.

(3) Cannabis hospitality facility certification may be issued as follows. The division shall certify entities which demonstrate compliance with its hospitality standards to allow for the consumption of cannabis on its premises. The division shall issue standards for the safe consumption of cannabis at locations other than a private residence. The standards shall allow for the facility to sell or provide food and beverages, including alcoholic beverages. The division may develop or adopt from any other governmental agency such safety and security standards as are reasonably necessary for the safe consumption of cannabis at a location other than a private residence, but shall not impose standards that make the operation of a cannabis hospitality facility impracticable.

(4) Cannabis cultivation facility licenses may be issued as follows. An entity may apply to the division for and obtain one or more licenses to grow cannabis as a cannabis cultivation facility. Each facility in operation shall require a separate license, but multiple licenses may be utilized in a single location. Each facility may be limited by the division to not less than thirty thousand square feet of flowering plant canopy space. Facilities may choose to grow indoors using artificial light, outdoors, in a greenhouse utilizing a combination of artificial and natural light, or any combination of methods. The license shall be valid for one year from its date of issuance and shall be renewable, except for good cause. An entity currently licensed as a medical marijuana cultivation facility may also apply for a cannabis cultivation facility license at the same location.

(5) Cannabis manufacturing facility licenses may be issued as follows. An entity may apply to the division for and obtain one or more licenses to operate a cannabis manufacturing facility. Each facility in operation shall require a separate license. A license shall be valid for one year from its date of issuance and shall be renewable, except for good cause. An entity currently licensed as a medical marijuana manufacturing facility may also apply for a cannabis manufacturing facility license at the same location.

(6) Cannabis retail facility licenses may be issued as follows. An entity may apply to the division for and obtain one or more licenses to operate a cannabis retail facility. Each facility in operation shall require a separate license. A license shall be valid for one year from its date of issuance and shall be renewable, except for good cause. An entity currently licensed as a medical marijuana dispensary facility may also apply for a cannabis retail facility license at the same location.

(7) The division may charge an application or renewal fee for each license type not to exceed two thousand five hundred dollars. Application and renewal fees shall be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Division of Labor, or its successor agency. Applications re-submitted after a denial shall not be charged an additional application fee, but may be charged a fee of not more than five hundred dollars for a re-submitted application.

(8) The division may charge a certification and renewal fee for each certification type not to exceed one thousand dollars. Application and renewal fees shall be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Division of Labor, or its successor agency.

(9) An entity may apply for a reduced application or renewal fee. The division shall develop rules to determine the eligibility of an applicant for a reduced fee. The rules shall include consideration for entities:

(a) locating in an area that has an unemployment rate above the national average;

(b) locating in an area that has been designated as an Economic Disadvantaged Zone by the US Division of Commerce;

(c) owned and operated by individuals in protected classes;

(d) owned and operated by veterans;

(e) owned or operated by an entity that was previously denied a medical marijuana facility license based on application score; or

(f) any other factors that would promote the inclusion of small and locally owned businesses and individuals in historically marginalized groups.

(10) All owners, officers, managers, and employees of entities licensed or certified pursuant to this section, shall submit fingerprints to the Missouri state highway patrol for the purpose of conducting a fingerprint-based criminal background check. The Missouri state highway patrol, if necessary, may forward the fingerprints to the Federal Bureau of Investigation(FBI) for the purpose of conducting a fingerprint-based criminal background check. Fingerprints shall be submitted pursuant to 43.543 and fees shall be paid pursuant to 43.530. Notwithstanding the provisions of section 610.120, all records related to any criminal history information shall be available to the division. The criminal background check may be requested by the applicant or employer and performed up to ninety days prior to the submission of an application for license, certification, or employment.

(11) The division shall maintain the confidentiality of information obtained from an applicant or licensee containing any individualized data, information, or records related to the licensee or its operation, including sales information, financial records, tax returns, credit reports, cultivation information, testing results, and security information and plans, or revealing any customer information, or any other records that are exempt from public inspection pursuant to state or federal law. Such information may be used only for a purpose authorized by this section.

(12) The division shall begin accepting license and certification applications not later than August 1, 2023. In order to facilitate the initial costs of regulation, the division may accept application fees beginning January 15, 2023 and shall apply such fees to applications submitted after August 1, 2023. Applications for licenses and certifications under this section shall be approved or denied by the division no later than ninety days after their submission. If the division fails to carry out its nondiscretionary duty to approve or deny an application within ninety days, the application or certification is deemed granted for one year or until revoked for good cause.

(13) There shall be no limit on the number of facility licenses or certifications issued by the division.

(14) Applications for any facility license shall be approved if the applicant can meet the following criteria:

(a) The applicant certifies that they have the following policies and procedures in place:

(i) A loss prevention and site security plan;

(ii) A seed to sale tracking system;

(iii) A method for verifying the age or medical marijuana status of any consumer;

(iv) Employment policies that are non-discriminatory and require fingerprint background checks prior to beginning employment at the facility;

(v) A plan to dispose of excess product in the event of the facility closing which may be satisfied by a plan to sell or donate excess products to the compassionate care program established in this section;

(vi) Sanitation policies for any area where un-packaged cannabis flower or cannabis-infused products are being prepared or packaged;

(vii) Labeling and packaging policies that are not misleading, are not likely to be confused with non-cannabis containing products, and are designed to make a product recognizable and distinguish it from similar products sold by competitors;

(viii) Record retention policy that allows for the inspection of records of purchases and sales for at least the preceding twenty-four months; and

(ix) Certification that any contracts to supply cannabis for medical use will take precedence over contracts to supply cannabis for adult use.

(b) All owners, officers, and managers are over twenty-one years of age and have submitted to a fingerprint background check and have not been convicted of any disqualifying felonies;

(c) The applicant has designated a natural person as a registered agent with the Missouri secretary of state;

(d) The applicant has verified its anticipated location is properly zoned and not within one thousand feet of any then-existing elementary or secondary school, child day-care center, or church; and

(e) The applicant certifies that they will not begin operations until after a commencement inspection as required by the division. Commencement inspections must be completed within thirty days of an applicant's request for such inspection.

(15) Applications for any transportation, delivery, testing, or hospitality certification shall be approved if the applicant can meet the following criteria:

(a) The applicant certifies that they have the following policies and procedures in place:

(i) A loss prevention and security plan suitable to the type of certification;

(ii) For testing certifications, an inventory tracking system;

(iii) For hospitality and delivery certifications, a method for verifying the age or medical marijuana patient status of any consumer;

(iv) Employment policies that are non-discriminatory;

(v) A plan to dispose of unused or undelivered product which may be satisfied by a plan to donate excess products to the compassionate care program established in this section;

(vi) Sanitation policies for any area where cannabis flower or cannabis-infused products are being tested or consumed;

(b) All owners, officers, and managers are over twenty-one years of age and have submitted to a fingerprint background check and have not been convicted of any disqualifying felonies;

(c) The applicant has designated a natural person as a registered agent with the Missouri secretary of state;

(e) For testing facilities, the applicant certifies that they will not begin operations until after a commencement inspection as required by the division. Commencement inspections must be completed within thirty days of an applicant's request for such inspection.

(16) A single entity may hold multiple licenses or certifications and may operate under such licenses at a single location. However, a cannabis hospitality facility certification shall not be issued for a location in which a cannabis cultivation facility, a cannabis manufacturing facility, or a cannabis retail facility is in operation.

(17) Facilities licensed under Article XIV Section 1 may also apply for and be granted licenses and certifications under this section.

5. Taxation and Funding

(1) Application and renewal fees collected by the division shall be used for the administration of this section. If such fees are insufficient to provide for the administration of this section, the division may apply to the Missouri Economic Recovery and Growth Fund for a cash operating transfer which shall be repaid as provided by law.

(2) A tax is hereby levied upon the retail sale of cannabis for adult use sold at cannabis retail facilities within the state.

(a) The tax shall be at a rate of seven and one-half percent of the retail price.

(b) The tax shall be collected by each licensed cannabis retail facility and paid to the department of revenue. After retaining no more than two percent of the amount collected for its actual collection costs, amounts generated by the tax levied in this section shall be deposited by the department of revenue into the Missouri Economic Recovery and Growth Fund. Licensed entities making retail sales within the state shall be allowed approved credit for returns provided the tax was paid on the returned item and the purchaser was given the refund or credit.

(c) Such tax shall not be levied on wholesale sales of cannabis for adult use or any cannabis which is transferred from a cannabis retail facility to a cannabis cultivation or manufacturing facility.

(3) There is hereby created in the state treasury the "Missouri Economic Recovery and Growth Fund", which shall consist of taxes collected under this section. The state treasurer shall be custodian of the fund, and he or she shall invest monies in the fund in the same manner as other funds are invested. Any interest and monies earned on such investments shall be credited to the fund. The commissioner of administration is authorized to make cash operating transfers to the fund for purposes of meeting the cash requirements of the division in advance of it receiving annual application, licensing, and tax revenue, with any such transfers to be repaid as provided by law. The fund shall be a dedicated fund and shall stand appropriated without further legislative action as follows:

(a) One-third of all monies collected shall be distributed to state agencies and political subdivisions for:

(i) the provision and expansion of internet access as a public utility;

(ii) the repair and improvement of existing roads and bridges; or

(iii) the repair and improvement of other public utility services including but not limited to water, sewer, and electricity; and

(b) One-third of all monies collected shall be distributed by the division, with the input of an advisory board at least one third of whose members are health care professionals with experience in the medical use of cannabis, through grants to state agencies, educational institutions, and not-for-profit organizations to:

(i) increase access to evidence-based low-barrier drug addiction treatment; to support drug overdose prevention and reversal education;

(ii) support job placement, housing, and ongoing counseling for those with substance abuse disorders; or

(iii) to provide free legal assistance to individuals seeking to expunge a criminal record or who have been charged with a drug-related crime;

(iv) provide funding for research into the effects of cannabis on the human body, detection of active tetrahydrocannabinol (THC) levels in the human body, and the potential uses of cannabis in psychiatric or substance abuse treatment; and

(c) One-third of all monies collected shall be distributed by the division through grants to not-for-profit organizations that:

(i) provide zero percent interest rate loans or grants to small businesses that are owned by individuals who are members of a historically marginalized population; or

(ii) provide cannabis industry training programs for incarcerated or formerly incarcerated individuals.

(4) All monies from the taxes authorized under this subsection shall provide additional dedicated funding for the purposes enumerated above and shall not replace existing funding.

(5) The unexpended balance existing in the Missouri Economic Recovery and Growth Fund shall be exempt from the provisions of section 33.080 relating to the transfer of unexpended balances to the general revenue fund until the end of the 2028 fiscal year.

(6) Except as authorized in this subsection, no additional taxes shall be imposed on the sale of cannabis for adult use.

(7) The fees and taxes provided for in this Article XIV, Section 2 shall be fully enforceable notwithstanding any other provision in this Constitution purportedly prohibiting or restricting the taxes and fees provided for herein.

(8) A local government may impose a retail sales taxes on the retail sale of cannabis for adult use. Such taxes shall be imposed in the same way as provided for other retail sales taxes in law. Local taxes imposed on the retail sale of cannabis for adult use shall not exceed those imposed by the same jurisdiction on the retail sale of alcoholic beverages or other retail sales whichever is higher.

(9) Any consumer who presents a duly issued medical marijuana patient identification card or a medical marijuana primary caregiver identification card shall not pay the sales tax provided for in this section, but shall pay the sales tax required for medical marijuana sales in Article XIV Section 1.

6. Public Safety

(1) Nothing in this section shall provide immunity for negligence, either common law or statutorily created, nor criminal immunities for operating a vehicle, aircraft, dangerous device, or navigating a boat under the influence of cannabis.

(2) A criminal conviction for an intoxication related offense shall require a showing that the person was actually impaired at the time the offense occurred. Evidence of the presence of inactive tetrahydrocannabinol (THC) metabolites in the person's system shall not be sufficient to show actual impairment.

(3) An allegation of negligence while under the influence of cannabis shall require a showing that the person was actually under the influence of cannabis at the time the negligence occurred. Evidence of the presence of inactive tetrahydrocannabinol (THC) metabolites in the person's system shall not be sufficient to show the person was actually under the influence.

(3) A consumer may cultivate up to twenty-five square feet of flowering canopy of cannabis for adult use in any space owned or leased by said consumer. The space in which cannabis for adult use is being cultivated must be secured against entry by unauthorized individuals including individuals under twenty-one years of age. Such cannabis shall not be provided for sale to any individual but may be sold or donated through the compassionate care program established in this section.

(4) A consumer may possess the following amounts of cannabis at any one time:

(a) up to eight ounces of dried unprocessed flower;

(b) up to twenty-eight grams of concentrated resin or extract; and

(c) up to four thousand milligrams of tetrahydrocannabinol in cannabis-infused products.

(5) No individual who is under twenty-one years of age may possess cannabis in any amount unless such individual is in possession of a medical marijuana patient or primary caregiver license issued pursuant to Article XIV Section 1.

(6) The legislature may pass criminal statute related to the possession, delivery, or distribution of cannabis in excess of the limits provided for in this section without the appropriate license. However, in no case shall the possession, delivery, or distribution of cannabis in an amount less than two times the limits provided for in this section be deemed a felony unless such delivery or distribution was to a person under twenty-one years of age. Any existing laws which criminalize possession, delivery, or distribution of cannabis in amounts less than the limits provided for in this section are hereby declared null and void unless such delivery or distribution was to a person under twenty-one years of age.

(7) Any individual convicted for a crime, other than a dangerous felony or the delivery or distribution to a person under seventeen years of age and more than two years younger than the person being charged, may file for release from custody and expungement of their criminal record in the jurisdiction in which the conviction occurred. Such release from custody shall be expedited and shall be granted unless the person seeking release is incarcerated for additional crimes. Such expungement shall be granted as a matter of right and shall not affect an individual's ability to seek expungement of other offenses under the laws of this state. The supreme court shall make available to the public free of charge forms for a release from custody or the expungement of such offenses. The filing fee for a motion or new cause of action under this subsection shall be no more than the filing fee for actions brought in the small claims court of the same jurisdiction.

(8) The presence or the smell of cannabis shall not be sufficient probable cause for a law enforcement officer to detain or search a person for reasons other than a suspected intoxication offense, or to impound or search the vehicle, residence, or other property of a consumer. Any search or arrest warrant issued for violations of this section or other cannabis laws not in conflict with this section shall require evidence of the violation and shall not be issued on the basis of the presence of cannabis alone. No search or arrest warrant shall be issued based on violations of this section or other cannabis laws not in conflict with this section that would allow law enforcement officers to enter a premises without first knocking and announcing their presence and purpose.

(9) The division shall develop in coordination with the Missouri department of health and senior services a compassionate care program through which cannabis may be tested and sold or donated to a cannabis cultivation facility, cannabis manufacturing facility, or cannabis retail facility by any consumer, cannabis cultivation facility, cannabis manufacturing facility, or cannabis retail facility. Any facility that receives excess cannabis through such program must make any cannabis received through the program available free of charge to qualifying patients and primary caregivers who meet financial need and health necessity criteria. Each facility may develop its own criteria, but in no case shall cannabis be provided free of charge to any individual who is not in possession of a medical marijuana patient or primary caregiver identification card.

7. Local Control

(1) Unless allowed by the local government, no new cannabis cultivation facility, cannabis testing facility, cannabis retail facility, or cannabis manufacturing facility shall be initially sited within one thousand feet of any then-existing elementary or secondary school, child day-care center, or church. A local government may allow for a location closer than one thousand feet but may not impose any restriction greater than one thousand feet.

(2) No local government shall prohibit cannabis cultivation facilities, cannabis testing facilities, cannabis manufacturing facilities, or cannabis retail facilities, or entities with a transportation or hospitality certification from operating within the locality either expressly or through the enactment of ordinances, including but not limited to zoning ordinances, or regulations that make their operation unduly burdensome in the locality. However, local governments may enact ordinances or regulations not in conflict with this section, or with regulations enacted pursuant to this section, governing the time, place, and manner of operation of such facilities in the locality so long as such ordinances or regulations are not more restrictive than those imposed on the manufacture or sale of alcoholic beverages.

(3) Local governments shall develop and adopt ordinances and policies related to cannabis facilities and certificate holders no later than June 30, 2023. The local government shall not adopt ordinances or policies that would impose an excessive fees or an undue burden on any one or more licensees or certificate holders; create an undue burden on access to consumers; or act to undermine the purposes of this section. A rule or regulation shall be presumed to impose excessive fees or an undue burden if it imposes fees higher than or restrictions greater than those imposed on the manufacture and sale of alcoholic beverages.

(4) If the local government fails to adopt ordinances and policies specific to cannabis for adult use prior to June 30, 2023, the rules and regulations for the location and licensing of alcoholic beverage manufacturing and sale shall apply to cannabis facilities wherever possible.

(3) Local governments may require cannabis cultivation facilities, cannabis manufacturing facilities, cannabis retail facilities, cannabis transportation or delivery certificate holders, cannabis hospitality certificate holders to be licensed businesses under the local ordinances. However no local government shall require an additional fee to be paid or additional special license to be acquired by a cannabis license or certificate holder that is not required for other businesses in the jurisdiction.

(4) A local government may establish civil penalties for violation of an ordinance or regulations governing the time, place, and manner of operation of a medical marijuana cultivation facility, medical marijuana testing facility, medical marijuana manufacturing facility, medical marijuana dispensary facility, or entity holding a transportation certification that may operate in such locality so long as such penalties are not greater than those imposed on the manufacture or sale of alcoholic beverages.

8. Other Provisions

(1) All cannabis for adult use sold in Missouri shall be cultivated in a licensed cultivation facility located in Missouri or a licensed facility located in another state if federal law allows for the interstate transportation of cannabis.

(2) All cannabis-infused products for adult use sold in the state of Missouri shall be manufactured in a licensed manufacturing facility or a licensed facility located in another state if federal law allows for the interstate transportation of cannabis-infused products.

(3) A cannabis testing facility shall not be subject to civil or criminal prosecution under Missouri law, denial of any right or privilege, civil or administrative penalty or sanction, or disciplinary action by any accreditation or licensing board or commission for providing laboratory testing services that relate to the adult use of cannabis consistent with this section and otherwise meeting legal standards of professional conduct.

(4) An attorney shall not be subject to disciplinary action by the state bar association or other professional licensing body for being employed by, contracting with, or providing legal assistance to facilities licensed or certified under this section, entities applying for licensing or certification under this section, or any individual seeking legal advice related to activity that is no longer subject to civil or criminal penalties under state law pursuant to this section.

(5) Except as provided for by this section, actions and conduct by consumers, facilities licensed or certified under this section, or the employees, contractors, vendors, or agents of facilities licensed or certified under this section, as permitted by this section and in compliance with division regulations and other provisions of law, shall not be subject to criminal or civil liability or sanctions under Missouri law including but not limited to disciplinary action against a professional license, denial of public assistance programs or public services, or denial of a license to operate a vehicle, watercraft, or other equipment.

(6) It is the public policy of the state of Missouri that contracts related to cannabis for adult use that are entered into by consumers, cannabis testing facilities, cannabis transportation or delivery facilities, cannabis hospitality facilities, cannabis cultivation facilities, cannabis manufacturing facilities, or cannabis retail facilities and those who allow property to be used by those entities, should be enforceable. It is the public policy of the state of Missouri that no contract entered into by consumers, cannabis testing facilities, cannabis transportation or delivery facilities, cannabis

hospitality facilities, cannabis cultivation facilities, cannabis manufacturing facilities, or cannabis retail facilities, or by a person who allows property to be used for activities that are exempt from state criminal penalties by this section, shall be unenforceable on the basis that activities related to cannabis may be prohibited by federal law.

(7) No mandatory reporter under the laws of this state shall be required to report the adult use of cannabis by a parent or prospective parent unless such use is in violation of this section or the parent is actively endangering the health and safety of a child. A prospective foster or adoptive parent shall not be discriminated against for their use of cannabis for non-medical purposes unless such use is in violation of this section or other provisions of law not in conflict with this section.

(8) The denial of a license, license renewal, or identification card by the division shall be appealable to the administrative hearing commission, or its successor entity. Following the exhaustion of administrative review, denial of a license, license renewal, or identification card by the division shall be subject to judicial review as provided by law.

(9) No elected official shall interfere directly or indirectly with the division's obligations and activities under this section.

9. Severability

The provisions of this section are severable, and if any clause, sentence, paragraph or section of this measure, or an application thereof, is adjudged invalid by any court of competent jurisdiction, the other provisions shall continue to be in effect to the fullest extent possible.

RE: Petition approval request from Mitchell Hubbard regarding a proposed constitutional amendment to Article III (2022-041)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Mitchell Hubbard on July 2, 2021.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

NOTICE: You are advised that the proposed constitutional amendment may change, repeal, or modify by implication or may be construed by some persons to change, repeal or modify by implication, the following provisions of the Constitution of Missouri- Sections 5 and 9 of Article I and the following Sections of the RSMo- 44.010 – 44.130, 77.530, 79.380, 80.090, 167.181, 167.183, 171.031, 174.335, 190.091, 192.006, 192.011, 192.014, 192.020 – 192.326, 192.895, 210.003, 455.095, 537.1000, 537.1005, 537.1010, 537.1015, 537.1020, 537.1035. The proposed amendment revises Article III of the Constitution of Missouri by adding one new section to be known as Section 39(g).

Be it resolved by the people of the state of Missouri that the Constitution be amended:

One new section is adopted by adding one new section to be known as section 39(g) of Article III to read as follows:

Section 39(g). I. That the people of the State of Missouri reserve certain rights during a local or state of emergency.

A. The State of Missouri shall, through general law mandate state, county and local governments and their agents to:

1. Protect equal treatment under the law by never declaring one non-government entity essential and another non-essential. If one non-government entity remains open then every non-government entity shall remain open; and
2. Protect religious freedom by prohibiting any interference with the right of individuals and houses of worship to determine the manner, place, and time of worship; the number of attendees; or limiting the ability to evangelize in public; or tracking, or creating a database of members of any religion; or limiting access to public utilities or emergency services; and
3. Protect the right to privacy by prohibiting:
    a. The use of data collected from cell phones, electronic devices, artificial intelligence, drones, auto license plate readers, facial recognition or other technology to track the movement of any citizen for the purpose of contact tracing; and
    b. Both mandates and inducements for any person to receive a microchip, RFID, quantum dot or other similar technology under their skin or elsewhere in their body or to be worn or carried on any item against their will; except an ankle bracelet may be used temporarily to monitor persons duly convicted of a crime and placed on house arrest according to general law; unless house arrest is ordered as an attempt to bypass the intent of this provision; and
    c. Both mandates and inducements for anyone to receive a vaccine against their religious or sincerely held non-religious beliefs or the religious or sincerely held non-religious beliefs of their parent(s) or guardian(s) if they are a minor; and
    d. Entrance into the residence of any person, against their will, to test, vaccinate, or remove them or others from the residence for failure to be tested or vaccinated, or because someone is or may be ill; and
    e. Unequal or different treatment of any person based on whether or not they have received a vaccine; and
    f. The awarding of any contract, doing business with, or investing state, county or local funds with any non-government entity that treats its employees or volunteers unequally or differently based on whether or not they received the Covid- 19 vaccination, or restricts or refuses to do business with or provide services to any person who is not vaccinated or refuses to show a vaccination card or other proof of vaccination for any vaccination, whether Covid-19 or not, except contracts existing prior to the effective date of this section may be fulfilled, but shall not be renewed, unless the non-government entity agrees in writing to do business with and or provide services to any person, and treat its employees the same, regardless of whether or not they were vaccinated against Covid-19 , without restriction, as part of the new contract; and
4. Protect the right of healthy people by prohibiting:
    a. Restrictions, limitations, and interference with the right of healthy people to travel either intrastate or interstate, unless travel to a specific location is temporarily unsafe due to damaged infrastructure, natural disaster or acts of war; and
    b. Quarantine and shelter in place orders for healthy people; and
    c. Restrictions, limitations, and interference with the right of healthy people to peacefully assemble; and

d. Orders requiring healthy people to wear a mask in public, private, or in government buildings or on government property, where the public would normally have access, unless the government facility is one that provides medical care or offers educational services to clients or residents who are considered medically at high risk, as determined by the Department of Health and Senior Services according to general law; and

e. Public schools from depriving healthy students of the opportunity to receive in person classroom instruction for more than two hundred thirty-eight hours or 34 days of the school year; and

5. Protect the right of healthy patients and residents who are in senior care and health care facilities to visit with their healthy family members and friends; by requiring The Department of Health and Senior Services and or local or county health departments to issue a plan for visitation, using reasonable safety precautions, for any facility where a quarantine order is issued according to general law. The plan for visitation shall be issued simultaneously with the order for quarantine, but may be modified as needed, so long as meaningful and reasonably safe weekly contact visitation is made available to each healthy resident, as determined by the Department of Health and Senior Services according to general law; and

6. Protect the right of people to use cash as legal tender by prohibiting legislation, administrative orders or any government action that restricts or prohibits the use of cash, except government agencies may refuse to accept an unreasonable amount of coins as payment as determined by general law; and

7. Hold harmless any person and any entity that may spread Covid-19, because the spread of the virus shall be deemed an act of God that is not subject to criminal or civil liability, unless the person who spreads or causes the virus to be spread is a healthcare employee or provider who knowingly assigns an infected patient to a room or area, in violation of the reasonable and prudent standard of care of a healthcare employee or provider, where those at high risk of dying from exposure to the virus are likely to be exposed; or is an elected government official, government employee or agent who in their official capacity, knowingly, causes a healthcare employee or provider to violate the reasonable and prudent standard of care by assigning an infected individual to a room or area as described herein; or is an individual or group of individuals who intentionally developed or dispersed Covid-19 as an act of bioterrorism; and

8. Apply the Doctrine of Anti-Commandeering to any federal law, rule, regulation, order, executive order or other action by the federal government that violates any provision of this section; and

B. Missouri citizens shall have standing to bring a cause of action to enforce the provisions of this section; and

C. Nothing in this section shall be construed to allow the destruction of a human embryo at any stage of development, regardless of the location of said embryo or to allow euthanasia or to prohibit regulation of individuals or businesses that perform abortions; and

D. The rights protected under this section do not spring into effect only during a local or state of emergency; they always exist and cannot be denied or restricted, even during an emergency; and

E. Nothing is this section shall be construed to restrict or hinder the right of any sole proprietorship, partnership, limited liability company, corporation, cooperative, non-profit organization, union, or other non-government entity to set their own policies for employees, interfacing with the public, or generally operating their business or organization; except as set out in provision 1(A)(3)(f) of this section; and

F. Nothing in this section shall be construed to prevent local health departments from instituting reasonable mitigation procedure where employees, interns, agents or volunteers of any entity are infected with a virus, disease or illness that is the subject of a local or state of emergency and failure to act would endanger the public health; or from acting for the safety of the public health in areas not affected by a local or state of emergency, according to general law; and

G. The provisions of this section are self-executing. All of the provisions of this section are severable. If any of the provisions of this section is found by a court of competent jurisdiction to be unconstitutional or unconstitutionally enacted, the remaining provisions of this section shall be and remain valid; and

H. Definitions:

1. Inducements means an action, consideration, promise or threat by the government that persuades or is likely to persuade or influence a person to do something. The application of any technology described in 1(A)(3)(b) of this section without the persons willing and informed written consent shall also be an inducement; and

2. Healthy means any person who has not been diagnosed with a virus, bacteria, disease or illness that is the subject of an ongoing local or state of emergency or someone who has been diagnosed, but is no longer contagious; and
3. Sincerely Held Non-Religious Beliefs means any rational belief that is not based on the religious beliefs of the person; and
4. Legal Tender means the kind of coin, money, or circulating medium which the law compels a creditor to accept in payment of his debt, when tendered by the debtor in the right amount; and
5. Cash means legal tender that is hard currency such as coins or banknotes as opposed to checks, credit, or virtual currency; and
6. Public School means any elementary or secondary school receiving tax payer funding; and
7. School Year means the number of days or hours required by general law for a public school to hold instruction in an academic year; and
8. Senior Care and Healthcare Facilities means any facility other than a correctional facility where health and or mental health services are provided on a non-outpatient basis; and
9. Contact Visitation means visits where healthy patients, family and friends shall have the right to be in close proximity and touch each other. This does not preclude any requirement that patients and or visitors wear personal protective equipment such as gloves or masks or meet in a designated area as determined by the Department of Health and Senior Services according to general law; and
10. Reasonable Mitigation Procedures means any reasonable action that is both necessary and the least restrictive means available to reduce the spread of a virus, bacteria, disease or illness that is the subject of a local or state of emergency, so long as it does not mandate any entity to be closed, reduce hours, or stop providing services for a period longer than necessary to sanitize the facility or remove contaminated products and re-open with personnel that are not under a quarantine order according to general law; and
11. Entity means any business, religious institution, cooperative, union, non-profit organization, government, or any other non-government organization; and
12. Bioterrorism means the intent to cause injury or death to a large group of people through the development of or dispersal of Covid-19 over a large area. No person shall be considered to commit bioterrorism who spreads the virus incidentally through regular human activity; and
13. Healthcare Employee or Provider means any medical doctor, nurse, nurses aid, administrator or other medical professional responsible for assigning patients to a room or area of a hospital, nursing home or healthcare facility for in patient care.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (22-041)

Subject

Initiative petition from Mitchell Hubbard regarding a proposed constitutional amendment to Article III of the Constitution of Missouri. (Received July 6, 2021)

Date

July 26, 2021

Description

This proposal would amend Article III of the Constitution of Missouri.

The amendment is to be voted on in November 2022.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education and Workforce Development,** the **Department of Health and Senior Services,** the **Department of Commerce and Insurance,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College,** the **Missouri Lottery,** the **State Tax Commission,** the **Missouri Veterans Commission,** the **Missouri Ethics Commission,** the **Missouri Office of Prosecution Services,** the **Kansas City Board of Police Commissioners,** the **Metropolitan Police Department - City of St. Louis,** the **St. Louis County Board of Elections,** the **Board of Election Commissioners City of St. Louis,** the **Kansas City**

Board of Election Commissioners, the **Platte County Board of Elections,** the **Jackson County Election Board,** the **Clay County Board of Election Commissioners,** the **Lieutenant Governor's office,** the **Children's Trust Fund of Missouri,** the **Missouri Joint Municipal Electric Utility Commission,** the **State Auditor's office,** the **Metropolitan Zoological Park and Museum District,** the **Missouri Municipal League,** the **Missouri Bar Association,** the **Missouri Gaming Commission,** the **Municipal League of Metro St. Louis, University of Central Missouri, Harris-Stowe State University, Lincoln University, Missouri State University, Missouri Southern State University, Missouri Western State University, Northwest Missouri State University, Southeast Missouri State University,** and **Truman State University**.

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, they expect that their office could absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, their office may be required to request additional appropriations.

Officials from the **Department of Agriculture** indicated the fiscal impact on their department is unclear. This petition prohibits a state agency from doing business with a private entity that may require its employees to receive a Covid-19 vaccination. Their department provides services to private entities on a contractual basis and the cost to not renew those contracts would have a fiscal impact but it is unclear to what extent.

Officials from the **Department of Economic Development** indicated no impact to their department.

Officials from the **Department of Elementary and Secondary Education** indicated no impact to their department.

Officials from the **Department of Higher Education and Workforce Development** indicated no fiscal impact.

Officials from the **Department of Health and Senior Services** indicated this initiative petition has no impact.

Officials from the **Department of Commerce and Insurance** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates numerous concerns for their department that could negatively impact the Department of Mental Health consumers and staff.

Their department's responsibility is to their consumers and staff who may be at high risk of an exposure to a contagious virus. Protection measures from a virus for staff and

consumers helps ensure safety for all members. Preventing preventative measures such as wearing masks, quarantining exposed individuals, or mandating vaccines could potentially spread the virus to vunerable/susceptible individuals, causing damaging and debilitating outcomes, even death. In addition, their department would be limited on the ability to protect consumers through the visitation limitations.

This petition creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated the fiscal impact to this proposal is unknown at this time.

This petition may have fiscal and operational impacts to their department. This petition prohibits interference with the right of individuals and houses of worship to determine the manner, place, and time of worship; the number of attendees; or tracking or creating a database of members of any religion. While it is believed their department is still allowed to restrict services under 1.302 RSMo, it does present another avenue for offenders to challenge when services are restricted. This may result in additional lawsuits by offenders. In addition, they track an offender's religious preference, which is not allowed under this petition. It is important for their department to track this information in order to ensure they are providing religious accommodations appropriately and effectively. The petition also prohibits the unequal or different treatment of any person based on whether or not they have received the vaccine. This could impact how their department handles offender visitations and work release programs.

Their department contracts with a health care provider to provide the constitutionally required health care service for the offender population. Many health care providers are beginning to require their staff be vaccinated. If their contracted provider makes this a requirement for their employees, according to this proposed section, they would no longer be permitted to use them. This could have a major impact on their department both fiscally and operationally.

RSMo 217.365 prohibits offenders from possessing cash while incarcerated. Their department operates canteens within each prison. The offenders are allowed to purchase items from the canteens using funds on the trust account. Allowing the offenders to spend cash in the canteens would jeopardize the safety and security of their institutions. Being in compliance with this section would have a major impact on their department fiscally and operationally.

Currently, friends and family are only permitted to fund an offenders commissary account by money order or credit card through a third party provider. In order to comply with this section, they would have to contract with a lockbox provider to offer cash service at 20 facilities across the state. This could be a significant cost to their department.

Additionally, their department collects a monthly fee from offenders under the supervision of probation and parole. The offenders are allowed to pay these fees utilizing ACH, credit cards or money orders. In order to comply with this section they would have to provide lockbox services at each of their 49 probation and parole district offices. This service would have a significant fiscal impact on their department.

This proposal has many instances where it could significantly impact their department, both fiscally and operationally; however, the fiscal impact is unknown at this time.

Officials from the **Department of Labor and Industrial Relations** indicated they anticipate no fiscal impact for this initiative petition proposing to amend Article III.

Officials from the **Department of Revenue** indicated no impact.

Officials from the **Department of Public Safety - Office of the Director** indicated the language in this petition has the potential to fiscally impact their department; however, they are not able to determine the amount of any fiscal impact at this time. The Missouri Veterans Commission has addressed their fiscal concerns in a separate response to the State Auditor's Office.

This legislation would have a significant legal impact on their department. Here are a few areas of concern:

I.A.1 would require that "if one non-government entity remains open then every non-government entity shall remain open." By its plain language, this would eliminate the ability of government to close businesses and organizations in an emergency, and may prohibit them from closing them in circumstances other than an emergency. This concern is exacerbated by I.D, which states that this section is applicable at all times, and not just during an emergency.

I.A.3.a would prohibit the use of data from technology, including cellular phones and license plate readers, "to track the movement of any citizen for the purpose of contact tracing." Because "contact tracing" is not defined, there is a colorable argument that these tools would no longer be available in law enforcement investigations that are unrelated to public health emergencies.

I.A.3.e would prohibit "Unequal or different treatment of any person based on whether or not they have received a vaccine." This may have an effect on the Missouri National Guard, as members of the military are required to be vaccinated against a variety of diseases (e.g. smallpox and anthrax) in order to be eligible to serve.

I.A.3.f would prohibit awarding contracts, doing business with, or investing funds with any non-government entity that treats employees or volunteers differently based on whether they received a COVID-19 vaccination. This would restrict the ability of the state to contract with entities that have adopted vaccination policies that are responsive to the needs of their workplaces, for example, medical providers requiring a COVID-19 vaccination.

I.A.4.a would prohibit "restrictions, limitations, and interference with the right of healthy people" to travel to a location unless the area is unsafe "due to damaged infrastructure, natural disaster or acts of war." This would eliminate the ability to impose curfews or impose travel restrictions when civil unrest is occurring.

I.A.4.c would prohibit "restrictions, limitations, and interference with the right of healthy people to peacefully assemble." This would eliminate the ability to enact and enforce otherwise content-neutral time, place, and manner restrictions.

In addition, concerning Section A.7, the Missouri State Highway Patrol is not aware of any "bioterrorism" state charge in Missouri. This is relevant, because if a COVID-infected person intentionally coughed on another person in Missouri, they would likely be charged with Assault 4th Degree, but this section appears to nullify the charge of assault in these circumstances. The Patrol recommends including the word “assault” along with "bioterrorism."

Officials from the **Department of Social Services** indicated they do not anticipate a fiscal impact from this petition.

Officials from the **Governor's office** indicated this proposal enacting restrictions on the ability to respond to states of emergency should not fiscally impact their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact.

Officials from the **Department of Conservation** indicated there is an unknown fiscal impact (cost or savings) to their department associated with paragraph A.3.f. in this initiative petition.

Officials from the **Department of Transportation** indicated this initiative petition would have no fiscal impact to their department/Missouri Highways and Transportation Commission.

Officials from the **Office of Administration** indicated this proposal enacting restrictions on the ability to respond to states of emergency should not fiscally impact their office.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be $7 million based on the cost of the 2020 Presidential Preference Primary.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Funding for this item is adjusted each year depending upon the election cycle. A new decision item is requested in odd numbered fiscal years and the amount requested is dependent upon the estimated number of ballot measures that will be approved by the General Assembly and the initiative petitions certified for the ballot. In fiscal year (FY) 2014, the General Assembly changed the appropriation so that it was no longer an estimated appropriation.

In FY19, over $5.8 million was spent to publish the full text of the measures for the August and November elections. Their office estimates $75,000 per page for the costs of publications based on the actual cost incurred for the one referendum that was on the August 2018 ballot.

Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated no fiscal impact from this initiative petition for their office.

Officials from the **State Treasurer's office** indicated no fiscal impact to their office.

Officials from **Clay County** indicated they estimate no cost or savings from this petition.

Officials from **Greene County** indicated there are no estimated costs or savings to report from their county for this initiative petition.

Officials from **St. Louis County** indicated their office does not have any information to provide.

Officials from the **City of Kansas City** indicated their local government estimates the fiscal impact of this amendment for fiscal years 2021 to be as follows:

This bill inhibits and limits their city's powers and flexibility to exercise its necessary powers, such as its police powers. It also affect their city's powers as necessary to respond

to emergencies, including public health emergencies, for example, among other things, limits on:

Shutting down business or type of business
Regulating places of worship
Performing necessary public health measures such as contact tracing and other epidemiological responses
Encouraging vaccine usage
Enforcing ordinance compliance
Business affairs of the city
Police powers of the city

This bill could also encourage and/or create liability for health care providers and workers, this would probably have an effect on related insurance.

Implementation of the bill would have a negative fiscal impact on their city. The extent of such impact would vary based on the specifics of situation or emergency, but costs based on public health emergencies could be vast.

Officials from the **City of St. Joseph** indicated no fiscal impact.

Officials from **Metropolitan Community College** indicated no fiscal impact to their college.

Officials from the **Missouri Lottery** indicated no fiscal impact to their office.

Officials from the **State Tax Commission** indicated this initiative has no fiscal impact on their office.

Officials from the **Missouri Veterans Commission** indicated:

Michael L. Parson
Governor

Paul Kirchhoff
Executive Director

MISSOURI VETERANS COMMISSION

July 7, 2021

The Honorable John R. Ashcroft
Secretary of State
600 W. Main Street
Jefferson City, MO 65101

Dear Secretary of State Ashcroft,

Initiative Petition 2022-041 will potentially have a significant fiscal impact upon the Missouri Veterans Commission (MVC). Compliance with the proposed Article III, section 39(g) of the Missouri Constitution would put MVC in violation of Department of Veterans Affairs (VA) regulations regarding infection control and therefore could jeopardize our federal funding. Additionally, compliance with this provision would jeopardize the licenses of our medical staff (CNAs, nurses, physicians, etc.) if they were not allowed to adhere to standards of medical care for residents of our veterans homes who are demonstrating signs and symptoms of a contagious disease. Finally, although the proposed section contains a liability protection clause, the restraint on the use of standard care procedures for caring for people suspected of having a contagious disease would put us in violation of the collective bargaining agreement that we have in place with our direct care staff. This collective bargaining agreement requires us to adhere to all CDC published guidance and thus we would anticipate litigation with the Union representing our employees if we were unable to do so. Therefore, compliance with this proposal can reasonably be expected to lead to litigation despite its liability protections and MVC defers to the AGO as to any costs to the state in litigation expenses. MVC anticipates a possible fiscal impact of more than $70 million annually if VA funding for its Homes Program is revoked due to failure to comply with infection control protocols.

If I can be of any further assistance on this issue, please contact me at (573) 522-4224 at your convenience.

Sincerely,

Scotty L. Allen
General Counsel
Missouri Veterans Commission

AN EQUAL OPPORTUNITY/AFFIRMATIVE ACTION EMPLOYER
services provided on a nondiscriminatory basis

Officials from the **St. Louis County Board of Elections** indicated this will have no impact on their Board of Elections.

Officials from the **Kansas City Board of Election Commissioners** indicated the cost to conduct an election in the Kansas City portion of Jackson County is $625,000. This cost is prorated depending on the number of entities that participate and their pro-rata share of the cost based on voter registration.

Officials from the **State Auditor's office** indicated no fiscal impact on their office.

Officials from the **Children's Trust Fund of Missouri** indicated no impact on their office.

Officials from the **Missouri Gaming Commission** indicated the proposal will have no fiscal impact on their office.

The State Auditor's office did not receive a response from **Adair County, Boone County, Callaway County, Cass County, Cole County, Jackson County, Jasper County, St. Charles County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, State Technical College of Missouri, University of Missouri, St. Louis Community College,** the **Missouri Ethics Commission,** the **Missouri Office of Prosecution Services,** the **Kansas City Board of Police Commissioners,** the **Metropolitan Police Department - City of St. Louis,** the **Board of Election Commissioners City of St. Louis,** the **Platte County Board of Elections,** the **Jackson County Election Board,** the **Clay County Board of Election Commissioners,** the **Lieutenant Governor's office,** the **Missouri Joint Municipal Electric Utility Commission,** the **Metropolitan Zoological Park and Museum District,** the **Missouri Municipal League,** the **Missouri Bar Association,** the **Municipal League of Metro St. Louis, University of Central Missouri, Harris-Stowe State University, Lincoln University, Missouri State University, Missouri Southern State University, Missouri Western State University, Northwest Missouri State University, Southeast Missouri State University,** and **Truman State University**.

Fiscal Note Summary

State governmental entities expect an unknown fiscal impact with a potential lost funding of at least $70 million annually. Local governmental entities expect an unknown negative fiscal impact that could be significant.

RE: Petition approval request from Mitchell Hubbard regarding a proposed constitutional amendment to Article III (2022-040)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Mitchell Hubbard on June 29, 2021.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

NOTICE: You are advised that the proposed constitutional amendment may change, repeal, or modify by implication or may be construed by some persons to change, repeal or modify by implication, the following provisions of the Constitution of Missouri- Sections 5 and 9 of Article I and the following Sections of the RSMo- 44.010 – 44.130, 77.530, 79.380, 80.090, 167.181, 167.183, 171.031, 174.335, 190.091, 192.006, 192.011, 192.014, 192.020 – 192.326, 192.895, 210.003, 455.095, 537.1000, 537.1005, 537.1010, 537.1015, 537.1020, 537.1035. The proposed amendment revises Article III of the Constitution of Missouri by adding one new section to be known as Section 39(g).

Be it resolved by the people of the state of Missouri that the Constitution be amended:

One new section is adopted by adding one new section to be known as section 39(g) of Article III to read as follows:

Section 39(g). I. That the people of the State of Missouri reserve certain rights during a local or state of emergency.

A. The State of Missouri shall, through general law mandate state, county and local governments and their agents to:
    1. Protect equal treatment under the law by never declaring one non-government entity essential and another non-essential. If one non-government entity remains open then every non-government entity shall remain open; and
    2. Protect religious freedom by prohibiting any interference with the right of individuals and houses of worship to determine the manner, place, and time of worship; the number of attendees; or limiting the ability to evangelize in public; or tracking, or creating a database of members of any religion; or limiting access to public utilities or emergency services; and
    3. Protect the right to privacy by prohibiting:
        a. The use of data collected from cell phones, electronic devices, artificial intelligence, drones, auto license plate readers, facial recognition or other technology to track the movement of any citizen for the purpose of contact tracing; and
        b. Both mandates and inducements for any person to receive a microchip, RFID, quantum dot or other similar technology under their skin or elsewhere in their body or to be worn or carried on any item against their will; except an ankle bracelet may be used temporarily to monitor persons duly convicted of a crime and placed on house arrest according to general law; unless house arrest is ordered as an attempt to bypass the intent of this provision; and
        c. Both mandates and inducements for anyone to receive a vaccine against their religious or sincerely held non-religious beliefs or the religious or sincerely held non-religious beliefs of their parent(s) or guardian(s) if they are a minor; and
        d. Entrance into the residence of any person, against their will, to test, vaccinate, or remove them or others from the residence for failure to be tested or vaccinated, or because someone is or may be ill; and
        e. Unequal or different treatment of any person based on whether or not they have received a vaccine; and
        f. The awarding of any contract, doing business with, or investing state, county or local funds with any non-government entity that treats its employees or volunteers unequally or differently based on whether or not they received the Covid- 19 vaccination, or restricts or refuses to do business with or provide services to any person who is not vaccinated or refuses to show a vaccination card or other proof of vaccination for any vaccination, whether Covid-19 or not, except contracts existing prior to the effective date of this section may be fulfilled, but shall not be renewed, unless the non-government entity agrees in writing to do business with and or provide services to any person, and treat its employees the same, regardless of whether or not they were vaccinated against Covid-19 , without restriction, as part of the new contract; and

4. Protect the right of healthy people by prohibiting:
    a. Restrictions, limitations, and interference with the right of healthy people to travel either intrastate or interstate, unless travel to a specific location is temporarily unsafe due to damaged infrastructure, natural disaster or acts of war; and
    b. Quarantine and shelter in place orders for healthy people; and
    c. Restrictions, limitations, and interference with the right of healthy people to peacefully assemble; and
    d. Orders requiring healthy people to wear a mask in public, private, or in government buildings or on government property, where the public would normally have access, unless the government facility is one that provides medical care or offers educational services to clients or residents who are considered medically at high risk, as determined by the Department of Health and Senior Services according to general law; and
    e. Public schools from depriving healthy students of the opportunity to receive in person classroom instruction for more than two hundred thirty-eight hours or 34 days of the school year; and
5. Protect the right of healthy patients and residents who are in senior care and health care facilities to visit with their healthy family members and friends; by requiring The Department of Health and Senior Services and or local or county health departments to issue a plan for visitation, using reasonable safety precautions, for any facility where a quarantine order is issued according to general law. The plan for visitation shall be issued simultaneously with the order for quarantine, but may be modified as needed, so long as meaningful and reasonably safe weekly contact visitation is made available to each healthy resident, as determined by the Department of Health and Senior Services according to general law; and
6. Protect the right of people to use cash as legal tender by prohibiting legislation, administrative orders or any government action that restricts or prohibits the use of cash, except government agencies may refuse to accept an unreasonable amount of coins as payment as determined by general law; and
7. Hold harmless any person and any entity that may spread Covid-19, because the spread of the virus shall be deemed an act of God that is not subject to criminal or civil liability, unless the person who spreads or causes the virus to be spread is a healthcare employee or provider who knowingly assigns an infected patient to a room or area, in violation of the reasonable and prudent standard of care of a healthcare employee or provider, where those at high risk of dying from exposure to the virus are likely to be exposed; or is an elected government official, government employee or agent who in their official capacity, knowingly, causes a healthcare employee or provider to violate the reasonable and prudent standard of care by assigning an infected individual to a room or area as described herein; or is an individual or group of individuals who intentionally developed or dispersed Covid-19 as an act of bioterrorism; and
8. Apply the Doctrine of Anti-Commandeering to any federal law, rule, regulation, order, executive order or other action by the federal government that violates any provision of this section; and

B. Missouri citizens shall have standing to bring a cause of action to enforce the provisions of this section; and

C. Nothing in this section shall be construed to allow the destruction of a human embryo at any stage of development, regardless of the location of said embryo or to allow euthanasia or to prohibit regulation of individuals or businesses that perform abortions; and

D. The rights protected under this section do not spring into effect only during a local or state of emergency; they always exist and cannot be denied or restricted, even during an emergency; and

E. Nothing is this section shall be construed to restrict or hinder the right of any sole proprietorship, partnership, limited liability company, corporation, cooperative, non-profit organization, union, or other non-government entity to set their own policies for employees, interfacing with the public, or generally operating their business or organization; except as set out in provision 1(A)(3)(f) of this section; and

F. Nothing in this section shall be construed to prevent local health departments from instituting reasonable mitigation procedure where employees, interns, agents or volunteers

of any entity are infected with a virus, disease or illness that is the subject of a local or state of emergency and failure to act would endanger the public health; or from acting for the safety of the public health in areas not affected by a local or state of emergency, according to general law; and

G. The provisions of this section are self-executing. All of the provisions of this section are severable. If any of the provisions of this section is found by a court of competent jurisdiction to be unconstitutional or unconstitutionally enacted, the remaining provisions of this section shall be and remain valid; and

H. Definitions:

1. Inducements means an action, consideration, promise or threat by the government that persuades or is likely to persuade or influence a person to do something. The application of any technology described in 1(A)(3)(b) of this section without the persons willing and informed written consent shall also be an inducement; and
2. Healthy means any person who has not been diagnosed with a virus, bacteria, disease or illness that is the subject of an ongoing local or state of emergency or someone who has been diagnosed, but is no longer contagious; and
3. Sincerely Held Non-Religious Beliefs means any rational belief that is not based on the religious beliefs of the person; and
4. Legal Tender means the kind of coin, money, or circulating medium which the law compels a creditor to accept in payment of his debt, when tendered by the debtor in the right amount; and
5. Cash means legal tender that is hard currency such as coins or banknotes as opposed to checks, credit, or virtual currency; and
6. Public School means any elementary or secondary school receiving tax payer funding; and
7. School Year means the number of days or hours required by general law for a public school to hold instruction in an academic year; and
8. Senior Care and Healthcare Facilities means any facility other than a correctional facility where health and or mental health services are provided on a non-outpatient basis; and
9. Contact Visitation means visits where healthy patients, family and friends shall have the right to be in close proximity and touch each other. This does not preclude any requirement that patients and or visitors wear personal protective equipment such as gloves or masks or meet in a designated area as determined by the Department of Health and Senior Services according to general law; and
10. Reasonable Mitigation Procedures means any reasonable action that is both necessary and the least restrictive means available to reduce the spread of a virus, bacteria, disease or illness that is the subject of a local or state of emergency, so long as it does not mandate any entity to be closed, reduce hours, or stop providing services for a period longer than necessary to sanitize the facility or remove contaminated products and re-open with personnel that are not under a quarantine order according to general law; and
11. Entity means any business, religious institution, cooperative, union, non-profit organization, government, or any other non-government organization; and
12. Bioterrorism means the intent to cause injury or death to a large group of people through the development of or dispersal of Covid-19 over a large area. No person shall be considered to commit bioterrorism who spreads the virus incidentally through regular human activity; and
13. Healthcare Employee or Provider means any medical doctor, nurse, nurses aid, administrator or other medical professional responsible for assigning patients to a room or area of a hospital, nursing home or healthcare facility for in patient care.

RE: Petition approval request from Mitchell Hubbard regarding a proposed constitutional amendment to Article III (2022-039)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Mitchell Hubbard on June 24, 2021.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

NOTICE: You are advised that the proposed constitutional amendment may change, repeal, or modify by implication or may be construed by some persons to change, repeal or modify by implication, the following provisions of the Constitution of Missouri- Sections 5 and 9 of Article I and the following Sections of the RSMo- 44.010 – 44.130, 77.530, 79.380, 80.090, 167.181, 167.183, 171.031, 174.335, 190.091, 192.006, 192.011, 192.014, 192.020 – 192.326, 192.895, 210.003, 455.095, 537.1000, 537.1005, 537.1010, 537.1015, 537.1020, 537.1035. The proposed amendment revises Article III of the Constitution of Missouri by adding one new section to be known as Section 39(g).

Be it resolved by the people of the state of Missouri that the Constitution be amended:

One new section is adopted by adding one new section to be known as section 39(g) of Article III to read as follows:

Section 39(g). I. That the people of the State of Missouri reserve certain rights during a local or state of emergency.

A. The State of Missouri shall, through general law mandate state, county and local governments and their agents to:
    1. Protect equal treatment under the law by never declaring one non-government entity essential and another non-essential. If one non-government entity remains open then every non-government entity shall remain open; and
    2. Protect religious freedom by prohibiting any interference with the right of individuals and houses of worship to determine the manner, place, and time of worship; the number of attendees; or limiting the ability to evangelize in public; or tracking, or creating a database of members of any religion; or limiting access to public utilities or emergency services; and
    3. Protect the right to privacy by prohibiting:
        a. The use of data collected from cell phones, electronic devices, artificial intelligence, drones, auto license plate readers, facial recognition or other technology to track the movement of any citizen for the purpose of contact tracing; and
        b. Both mandates and inducements for any person to receive a microchip, RFID, quantum dot or other similar technology under their skin or elsewhere in their body or to be worn or carried on any item against their will; except an ankle bracelet may be used temporarily to monitor persons duly convicted of a crime and placed on house arrest according to general law; unless house arrest is ordered as an attempt to bypass the intent of this provision; and
        c. Both mandates and inducements for anyone to receive a vaccine against their religious or sincerely held non-religious beliefs or the religious or sincerely held non-religious beliefs of their parent(s) or guardian(s) if they are a minor; and
        d. Entrance into the residence of any person, against their will, to test, vaccinate, or remove them or others from the residence for failure to be tested or vaccinated, or because someone is or may be ill; and
        e. Unequal or different treatment of any person based on whether or not they have received a vaccine; and
        f. The awarding of any contract, doing business with, or investing state, county or local funds with any non-government entity that treats its employees or volunteers unequally or differently based on whether or not they received the Covid- 19 vaccination, or restricts or refuses to do business with or provide services to any person who is not vaccinated or refuses to show a vaccination card or other proof of vaccination for any vaccination, whether Covid-19 or not, except contracts existing prior to the effective date of this section may be fulfilled, but shall not be renewed, unless the non-government entity agrees in writing to do business with and or provide services to any person, and treat its employees the same, regardless of whether or not they were vaccinated against Covid-19 , without restriction, as part of the new contract; and

4. Protect the right of healthy people by prohibiting:
    a. Restrictions, limitations, and interference with the right of healthy people to travel either intrastate or interstate, unless travel to a specific location is temporarily unsafe due to damaged infrastructure, natural disaster or acts of war; and
    b. Quarantine and shelter in place orders for healthy people; and
    c. Restrictions, limitations, and interference with the right of healthy people to peacefully assemble; and
    d. Orders requiring healthy people to wear a mask in public, private, or in government buildings or on government property, where the public would normally have access, unless the government facility is one that provides medical care or offers educational services to clients or residents who are considered medically at high risk, as determined by the Department of Health and Senior Services according to general law; and
    e. Public schools from depriving healthy students of the opportunity to receive in person classroom instruction for more than two hundred thirty-eight hours or 34 days of the school year; and
5. Protect the right of healthy patients and residents who are in senior care and health care facilities to visit with their healthy family members and friends; by requiring The Department of Health and Senior Services and or local or county health departments to issue a plan for visitation, using reasonable safety precautions, for any facility where a quarantine order is issued according to general law. The plan for visitation shall be issued simultaneously with the order for quarantine, but may be modified as needed, so long as meaningful and reasonably safe weekly contact visitation is made available to each healthy resident, as determined by the Department of Health and Senior Services according to general law; and
6. Protect the right of people to use cash as legal tender by prohibiting legislation, administrative orders or any government action that restricts or prohibits the use of cash, except government agencies may refuse to accept an unreasonable amount of coins as payment as determined by general law; and
7. Hold harmless any person and any entity that may spread Covid-19, because the spread of the virus shall be deemed an act of God that is not subject to criminal or civil liability, unless the person who spreads or causes the virus to be spread is a healthcare employee or provider who knowingly assigns an infected patient to a room or area, in violation of the reasonable standard of care of a healthcare employee or provider, where those at high risk of dying from exposure to the virus are likely to be exposed; or is an elected government official, government employee or agent who in their official capacity, knowingly, causes a healthcare employee or provider to violate the reasonable standard of care by assigning an infected individual to a room or area as described herein; or is an individual or group of individuals who intentionally developed or dispersed Covid-19 as an act of bioterrorism; and
8. Apply the Doctrine of Anti-Commandeering to any federal law, rule, regulation, order, executive order or other action by the federal government that violates any provision of this section; and

B. Missouri citizens shall have standing to bring a cause of action to enforce the provisions of this section; and

C. Nothing in this section shall be construed to allow the destruction of a human embryo at any stage of development, regardless of the location of said embryo or to allow euthanasia or to prohibit regulation of individuals or businesses that perform abortions; and

D. The rights protected under this section do not spring into effect only during a local or state of emergency; they always exist and cannot be denied or restricted, even during an emergency; and

E. Nothing is this section shall be construed to restrict or hinder the right of any sole proprietorship, partnership, limited liability company, corporation, cooperative, non-profit organization, union, or other non-government entity to set their own policies for employees, interfacing with the public, or generally operating their business or organization; except as set out in provision 1(A)(3)(f) of this section; and

F. Nothing in this section shall be construed to prevent local health departments from instituting reasonable mitigation procedure where employees, interns, agents or volunteers

of any entity are infected with a virus, disease or illness that is the subject of a local or state of emergency and failure to act would endanger the public health; or from acting for the safety of the public health in areas not affected by a local or state of emergency, according to general law; and

G. The provisions of this section are self-executing. All of the provisions of this section are severable. If any of the provisions of this section is found by a court of competent jurisdiction to be unconstitutional or unconstitutionally enacted, the remaining provisions of this section shall be and remain valid; and

H. Definitions:

1. Inducements means an action, consideration, promise or threat by the government that persuades or is likely to persuade or influence a person to do something. The application of any technology described in 1(A)(3)(b) of this section without the persons willing and informed written consent shall also be an inducement; and
2. Healthy means any person who has not been diagnosed with a virus, bacteria, disease or illness that is the subject of an ongoing local or state of emergency or someone who has been diagnosed, but is no longer contagious; and
3. Sincerely Held Non-Religious Beliefs means any rational belief that is not based on the religious beliefs of the person; and
4. Legal Tender means the kind of coin, money, or circulating medium which the law compels a creditor to accept in payment of his debt, when tendered by the debtor in the right amount; and
5. Cash means legal tender that is hard currency such as coins or banknotes as opposed to checks, credit, or virtual currency; and
6. Public School means any elementary or secondary school receiving tax payer funding; and
7. School Year means the number of days or hours required by general law for a public school to hold instruction in an academic year; and
8. Senior Care and Healthcare Facilities means any facility other than a correctional facility where health and or mental health services are provided on a non-outpatient basis; and
9. Contact Visitation means visits where healthy patients, family and friends shall have the right to be in close proximity and touch each other. This does not preclude any requirement that patients and or visitors wear personal protective equipment such as gloves or masks or meet in a designated area as determined by the Department of Health and Senior Services according to general law; and
10. Be it resolved by the people of the state of Missouri that the Constitution be amended:

so that it establishes election integrity procedures to (a) prevent attempts to fraudulently influence Missouri's elections, and (b) instill confidence in Missouri voters in the reported results of its elections.

Article XXX,

Sec. 1. Prohibited Election Conduct

(a) No voting machine may be utilized in any election to count or calculate votes. All votes shall be counted by hand by the judgment of the human eye. All counting shall occur by two persons.

(b) Any differences or uncertainties in counting by the two shall only be resolved by an individual approved and appointed in advance of the election by the state legislature.

(c) Mail in ballots shall be prohibited, except when requested by a voter in advance and after showing state-issued photo identification or a state-issued driver's license.

(d) All internet connectivity shall be discontinued at any polling place during the entire time votes are cast and counted. In addition, all persons serving in any capacity at a polling location, except observers, shall from the time of poll closing until the vote has been finally and publicly reported check in their cell phones so the counting occurs without the potential bias of any electronic sources of information of vote totals from other locations.

(e) Local law enforcement officials shall prohibit the delivery of boxes of any kind at a polling place from the time the polls are first open for voting until after all votes have been counted and reported.

Sec. 2. Registration Requirements

All registration to vote shall occur on or before 14 days prior to an election day. Such registration shall require the registering voter to show valid state-issued photo identification or a valid state-issued driver's license. No identification or driver's license which has expired shall be valid.

Sec. 3. Election Observer and Reporting Requirements

(a) No early voting shall be permitted more than two weeks before election day. All mail in ballots must be received two days before election day. Otherwise, they shall not be counted. Mail in balloting cannot be permitted to delay the announcement of full election totals within four hours after the poll's closing.

(b) All voters in all elections shall be required to show valid state-issued photo identification or a valid state-issued driver's license. No identification or driver's license which has expired shall be valid.

(c) All observers in a polling station shall be located within five feet of any station they desire to observe. Observers inside a polling station shall also be permitted to photograph any or all activities they desire. Private citizens outside a polling station shall be permitted to photograph

any and all activity they desire and shall be free from any liability of any kind for such photographing. All photographing shall be understood to include and allow video-taping and the recording of sound and voice.

(d) All ballots shall be counted only at and reported only from the place where the votes are cast.

(e) Under no condition shall the counting of votes be stopped between the time that a poll has closed and four hours thereafter unless completed.

(f) All votes shall be counted and reported within four hours of the time voting has closed. No votes being reported thereafter shall be valid.

(g) All vote totals shall be reported from all locations on the following basis: (a) by 11:59 p.m. of the night before the election (relating to early voting and mail in ballots); (b) at one hour after the scheduled polling closing time; (c) at two hours after the scheduled polling closing time; (d) at three hours after the scheduled polling closing time; and, finally, (e) at four hours after the scheduled polling closing time.

Sec. 4. Legislative Election Authority

(a) The legislature of the state shall have authority in elections for president and vice president of the United States to adjust or void any vote totals it determines appropriate. It may also ignore any vote totals and exercise its right to appoint electors as specified under the United States Constitution.

(b) Any alleged violation of state election law may be remedied by a complaint filed with the state legislature, who shall promptly according to its own procedures review, receive evidence, and make a final ruling on the same.

Sec. 5. Inspection Rights

All registration material, election-related computer files and data bases, and actual ballots cast shall remain available for inspection by representatives of any state party, the legislature, the courts, and any group of 1,000 or more requesting registered voters, for 120 days after the election.

Sec. 6. Election Crimes

(a) Any person (a) voting twice or more times in a single election, or (b) voting on behalf of a deceased person, or (c) voting using another person's name, or (d) voting who is not a United States citizen shall be guilty of treason against the state.

(b) Election officials denying any right to observers to an election shall be guilty of a Class III felony.

(c) Any person who resets or erases any election files or data bases, or destroys or misplaces any ballots prior to the end of the 120-day inspection period shall be guilty of a Class III felony.

(d) Any polling supervisor who fails to report partial and final results on the schedule shall be guilty of a Class III felony.

(e) Any ballot counter who intentionally, with a lack of good faith, causes ballots to be adjudicated shall be guilty of a Class III felony.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (22-038)

Subject

Initiative petition from Austin Shaffer regarding a proposed constitutional amendment to Article XXX of the Constitution of Missouri. (Received June 2, 2021)

Date

June 22, 2021

Description

This proposal would amend Article XXX of the Constitution of Missouri.

The amendment is to be voted on in November 2022.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education and Workforce Development,** the **Department of Health and Senior Services,** the **Department of Commerce and Insurance,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College,** the **St. Louis County Board of Elections,** the **Board of Election Commissioners City of St. Louis,** the **Kansas City Board of Election Commissioners,** the **Platte County Board of Elections,** the **Jackson County Election Board,** and the **Clay County Board of Election Commissioners.**

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, they expect that their office could absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may be required to request additional appropriations.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated no impact to their department.

Officials from the **Department of Elementary and Secondary Education** indicated no impact to their department.

Officials from the **Department of Higher Education and Workforce Development** indicated no impact to their department.

Officials from the **Department of Health and Senior Services** indicated this initiative petition has no impact on their department.

Officials from the **Department of Commerce and Insurance** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated minimal to no fiscal impact.

Section 6(a) introduces the penalty for voting twice or more, voting by non-citizens, voting for a deceased person and voting in another person's name as a treason. In Missouri, penalty for treason is sentenced as not less than 10 years and not more than 30 years' imprisonment (eligible for parole after serving one-half of sentence) or life imprisonment (eligible for parole after serving 30 years). However, such penalty for election crimes is very infrequent to non-existent and their department has no data about offenders of this crime, thus they assume minimal to no impact by this change.

Section 6 (b), (c), (d), and (e) introduce new election offenses as a class III felony, for denying observers, destroying or misplacing ballots, failing to report results, and adjudicating ballots. In Missouri, the felony offenses are classified as Class A, B, C, D, or E. However, Class III election offenses in Missouri, under section 115.635, are

misdemeanor offenses. Nevertheless, election offenses are generally quite infrequent in Missouri and their department does not have any offender charged for felony election offense in fiscal year (FY) 2021. Hence, their department assumes minimal to no impact on offenders population by changes in this section.

Officials from the **Department of Labor and Industrial Relations** indicated:

Pursuant to Chapter 115, RSMo, the Missouri Secretary of State currently oversees the conduct of elections within the State of Missouri.

In addition to the MO Secretary of State, this could potentially impact the MO Attorney General's Office (enforcement). There is the potential, though unlikely, that this petition could impact the Department of Labor and Industrial Relation's State Board of Mediation (SBM).

Unlikely but potential impact: the petition states that internet connectivity shall be discontinued at any polling place on election days. Small businesses that are adjacent to polling places could potentially experience internet disruption, which would impact what/how much work could be performed on election days.

Article XXX, Section 1 of the petition provides that no voting machine may be utilized "in any election to count or calculate votes" and that "all votes shall be counted by hand by the judgment of the human eye." Although unlikely, this petition could potentially have an adverse impact on the SBM.

The SBM is a quasi-judicial board that administers the Public Sector Labor Law (Sections 105.500 -105.598, RSMo), which covers most public sector employees who seek union representation. The board defines an appropriate bargaining unit of employees based on whether or not they share a community of interest and, if certified, determines majority representation status by conducting a secret ballot election. SBM jurisdiction includes all counties, cities, school districts, special districts, and departments of state government, with a few exceptions.

When read in its entirety, the petition appears to address registered voters who participate in elections for municipal, county, state, and federal offices. Read in this context, there is no impact to the work of the SBM. However, in the event that Article XXX, Section 1 could be read so broadly that it would apply to *any election*, the SBM would need to be prepared to certify in-person, non-electronic elections for public employees seeking bargaining representation. This could impact the number of employees assigned to SBM (currently, there are two FTE (full-time equivements)), as well as expenditures for travel, meals, and lodging throughout Missouri to observe and certify such elections.

Officials from the **Department of Revenue** indicated no impact.

This proposed language in Section 2 and Section 3 in relation to identification requirements is very restrictive to state issued documents and does not allow for use of documents issued

by the United States including, but not limited to documents such as a valid passport or valid military identification card. This will result in an unknown increase in driver license and nondriver license issuance.

Officials from the **Department of Public Safety - Office of the Director** indicated no impact for their department.

Officials from the **Department of Social Services** indicated this will have no fiscal impact for their department.

Officials from the **Governor's office** indicated this proposal relating to election regulations should not fiscally impact their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact. They presume proceedings required under Section 4 (b) will be held in regular session, or special sessions where the cost of which will be absorbed.

Officials from the **Department of Conservation** indicated there is no anticipated fiscal impact (cost or savings) to their department associated with this initiative petition.

Officials from the **Department of Transportation** indicated this initiative petition would have no direct fiscal impact to their department/Missouri Highways and Transportation Commission.

Officials from the **Office of Administration** indicated this proposal relating to election regulations should not fiscally impact their office.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated this amendment requires that all future elections in Missouri use paper ballots only, and that all ballots be counted by hand within four hours of the polls closing. Such a requirement will necessitate increased numbers of election judges to assist in the counting process. This is a new responsibility that must be provided for under Article X, Section 21 of the Missouri Constitution.

At the November 2020 general election, at least 3,025,962 ballots were cast statewide. Their assumption is that it will require two teams of judges to process ballots at a rate of one ballot every five minutes (one team to handle and read the ballot, one team to record the votes). Based on this estimation, it would take the equivalent of 126,100 four-hour team shifts to count all ballots. Since there are two judges in each team (one from each major party), this equates to 126,100 judge-days to be paid at an average cost of $125 per election judge (previously obtained by surveying a sample of local election authorities). This process would incur a cost of up to $15,762,500 per election.

If this amendment is passed, this cost would be fully incurred at least once in fiscal year FY23 (April 2023), twice in FY24 (March 2024, April 2024), and three times in FY25 (August 2024, November 2024, April 2025) for a minimum three-year cost of $94,575,000. There would also be additional partially-incurred costs to cover costs of elections outside of the normally-scheduled primary, general, and municipal elections (such as special elections or municipal elections in charter cities/counties). The exact scope of such potential expense is unknown.

Officials from the **Office of the State Public Defender** indicated no fiscal impact for their office.

Officials from the **State Treasurer's office** indicated no fiscal impact to their office.

Officials from **Clay County** indicated they estimate the following fiscal impact as a result of this initiative:

Board of Election Cost Savings—

- Savings of ~$50,000 per year for servicing voting machines
- Costs of ~$2,000 per year in extra training to count votes
- Savings of ~$130,000 per year in voting machines capital outlay
- Net savings of ~$178,000 per year

Election Costs—

- ~$120,000 in costs for more poll workers and ballot counters for even year primary and general elections combined
- ~$50,000 in Sheriff Deputy OT
- Net costs of ~$170,000 per even election year

The County would only need staff costs for even year elections of primaries and the general.

Officials from **Greene County** indicated:

Initiative petition 22-038 proposing to amend Article XXX Estimated Costs	
Ballot Tabulation by Hand	$50,243.00
Law Enforcement	$52,974.00
Internet Monitor	$14,337.00
Reduced Absentee Period	-$12,261.00
Logic & Accuracy Test Savings	-$3,100.00
Election Judge Costs Increase	$166,930.00
Ballot Tabulation by Hand	$3,668.00
DS200 & Electronic Tabulation Savings	-$12,878.00
PollPad Deployment Increase	$10,440.00
Total Estimated Cost	$270,353.00

An explanation of the costs is detailed here as well:

1. **Hand tabulation of ballots: 50,243.00**

    a. This is estimated based off a four hour pay increase of all 745 election judges that would be working on election day.
    b. This does not include absentee or any standard election night costs.

2. **Law enforcement personnel stationed at each polling location: 52,974.00**

    a. This is one person at each polling location that was used in the November 2020 Election, with additional compensation for the extra four hours of operation as proposed in the petition.

3. **One person per polling location to monitor no internet access: 14,337.00**

4. **Potential savings from absentee voting being reduced to a 2-week period: *12,261.00***

5. **Potential savings from Logic and Accuracy Testing: *3,100.00***

6. **Potential increases of election Judges due to a smaller absentee voting period: 166,930.00**

    a. This calculation is based off of the amount of election judges increasing from 624 to 745.

7. **Hand tabulation of absentee and mail-in ballots increase: 3,668.00**

    a. In November 3, 2020 Election, the office employed six election judges on election day.

8. **DS200 (computer system) and Electronic Tabulation Savings: *12,878.00***

9. **PollPad (computer system) Deployment Increase due to a smaller absentee voting period: 10,440.00**

Total cost increase of petition 22-038: 270,353

Please note these are costs per general election. This was listed as a sample of what it would do for one election, as there are a different amount of elections depending on the year.

Officials from the **City of Kansas City** indicated this amendment if approved would likely have a negative fiscal impact on their city in an indeterminate amount because the increased costs to their county election boards would be passed on to Kansas City.

Officials from **Metropolitan Community College** indicated no fiscal impact to their college.

Officials from the **St. Louis County Board of Elections** indicated they estimate this initiative petition would have the following impact on their office (per election).

"Yes" Impact

Breakdown:

- $24 million – To hire ballot counters to count Election Day ballots in 4 Hours.
  800 Election workers per polling place
  300 Polling Places
  240,000 Workers per election
  960,000 Hours @ $25 per hour = **$24 million**

- $1.5 million – To train poll workers
  60,000 workers @ $25 per hour = **$1.5 million**

- $555,000 – To hire workers to count Absentee Ballots
  22,200 Hours @ $25 per hour = **$555,000**

- $194,300 – To hire security/officers for Election Day security
  $36 per hour x 18 hours = $648.00
  300 Polling Places = **$194,400**

Total Estimated Cost Per Election: **$26.249 Million**

Their November ballot has had over 50 races in 2018 and 2020. With the usual high turnout (79%), if they have to count each one by hand in four hours, they need this many people. To be honest, they do not have space in most of their polling places for 200 much less 800 people.

Officials from the **Board of Election Commissioners City of St. Louis** indicated:

This petition proposes, among others, the following changes:

1. All ballots will be counted by hand and human eye;
2. Ballots will be counted, tabulated and reported at the place where the ballots are cast; and
3. All ballots are to be counted and reported within four hours of the polling places closing.

In November of 2020, at the General Election, a total of 134,886 votes were cast. A team at the St. Louis City Election Board simulated the experience of a bi-partisan team counting a ballot; in an ideal environment, it took the team 140 seconds to count and verify each race on the ballot. Therefore to count all ballots last November it would have taken 18,884,040 seconds, or 314,734 minutes, or 5,246 hours, which divided by 4 (the hours

allocated by the petition for counting) meant they would need at a minimum 1311 teams counting feverishly and perfectly, like machines, if you will, to even come close to accomplishing this task. 1311 teams translates to 2622 people. If you paid 2622 people 15 dollars an hour for 4 hours of work, this would come to $157,367. In reality, however, given no shows, the need for teams of judges to address voter intent on poorly marked ballots, you would need double the amount of people, therefore 5244, people for a total of $314,734.

This is the cost of labor alone. The impact on the ability to use many of the 99 polling places we currently use is almost impossible to determine; i.e., whether many of these places would be willing to participate in this endeavor, whether they have the space to house the number of teams necessary to count, etc.

votes cast	134,886
seconds per count each vote	140
total seconds to count all votes	18,884,040
total minutes to count all votes	314,734
total hours to count all votes	5,246
teams needed to count all votes	1,311
total people need to count all votes	2,622
cost at 15 per hour for one hour of counting	39,342
cost for 4 hours	157,367

Officials from the **Platte County Board of Elections** indicated the constitutional changes proposed by this petition are physically impossible to comply with and clearly undemocratic. This is not a serious proposal.

Officials from the **Clay County Board of Election Commissioners** indicated many parts of this proposal to amend the Missouri Constitution would be impossible to enact in their county and most other jurisdictions. It also violates Federal legislation. They would lose many polling locations and poll workers if these were enacted not to mention voters disenfranchised. The cost is immeasurable.

The State Auditor's office did not receive a response from **Adair County, Boone County, Callaway County, Cass County, Cole County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, State Technical College of Missouri, University of Missouri, St. Louis Community College,** the **Kansas City Board of Election Commissioners,** and the **Jackson County Election Board.**

Fiscal Note Summary

State and local governments estimate ongoing election-related costs of at least $2,000 annually and at least $16 million per election, but the total cost is unknown. Local governments estimate savings of at least $180,000 annually and at least $28,000 for each general election.

RE: Petition approval request from Austin Shaffer regarding a proposed constitutional amendment to Article XXIX (2022-037)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Austin Shaffer on June 2, 2021.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

Be it resolved by the people of the state of Missouri that the Constitution be amended:

so that it (a) clarifies the Federal Government duty to uphold the rights of Missouri citizens under the U.S. Constitution, including the Bill of Rights and all other provisions, (b) identifies breaches by the Federal Government, and (c) affirms Missouri's right to assess the severity and consequences of such breaches of the US Constitution.

Article XXIX,

Sec. 1. Duty of Federal Government of the United States to Uphold the Bill of Rights and Constitution

(a) The State of Missouri hereby clarifies its admission as a State into the United States of America. Such application by Missouri and admission by the federal government are, in essence, a governmental compact between the two whereby both parties undertake to fulfill their respective duties.

(b) The Supremacy Clause of the Constitution of the United States and application of the doctrine set forth in Marbury v. Madison together are not designed to give the federal government a "blank check" in this governmental compact. Accordingly, the federal government is obligated to uphold its end of the bargain, or else find itself in breach.

(c) Some breaches of federal government duty may be material, and some may be immaterial.

(d) All breaches of the federal government to uphold each of the provisions of the Bill of Rights, including the Tenth Amendment, of the Constitution of the United States is a material breach.

(e) Failure of the federal government to allow states to propose Constitutional amendments under Article V of the Constitution of the United States of America is also a material breach.

(f) The State of Missouri reserves the right to address breaches, both material and immaterial, as it may determine proper, following good faith efforts to reconcile such breaches and allowing the federal government a period in which it can remedy its breach of contract.

Sec 2. Federal Breaches

The following actions by the United States of America constitute breaches of the Constitutional compact it has with the State of Missouri:

(a) The excessive use of executive orders by the President of the United States of America, except in the case of live military conflict, circumventing the representative legislative process;

(b) The excessive and reckless incurrence of debt, except in the case of anticipated or live military conflict;

(c) Failure to effectively protect the borders of the country from unauthorized entry or invasion;

(d) Failure by the Justice Department and Supreme Court of the United States of America to (i) equally enforce the rule of law, (ii) imbue citizens with confidence that the results of national elections are free and fair, and (iii) provide prompt enforcement of criminal laws without endless delays due to investigations often times resulting in no meaningful enforcement action;

(e) Failure by the federal government to protect the right of the State of Missouri under the Tenth Amendment to the Constitution of the United States of America to exercise powers not specifically

given to the federal government, including the power to protect life and protect marriage as Missouri determines best;

(f) Dramatically curtailing freedom of speech of all kinds, in both the public and private arena;

(g) Increasingly curtailing freedom of worship with only the least restrictive means of governmental limitation to serve a compelling governmental interest;

(h) Congress effectively ignoring the right of States to propose amendments to the Constitution of the United States of America under Article V; and,

(i) In the name of protection, creating and deploying espionage tools stripping Americans of their sense of privacy of thought, speech, and action, and use of electronic tools of all kinds.

Sec 3. Significance of such Breaches

The severity of such breaches, and which, if any of them, are immaterial, and the consequences thereof are for the State of Missouri to assess and decide.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (22-037)

Subject

Initiative petition from Austin Shaffer regarding a proposed constitutional amendment to Article XXIX of the Constitution of Missouri. (Received June 2, 2021)

Date

June 22, 2021

Description

This proposal would amend Article XXIX of the Constitution of Missouri.

The amendment is to be voted on in November 2022.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education and Workforce Development,** the **Department of Health and Senior Services,** the **Department of Commerce and Insurance,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri,** and **St. Louis Community College.**

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, they expect that their office could absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, their office may be required to request additional appropriations.

Officials from the **Department of Agriculture** indicated no significant fiscal impact on their department.

Officials from the **Department of Economic Development** indicated no impact to their department.

Officials from the **Department of Elementary and Secondary Education** indicated no impact to their department.

Officials from the **Department of Higher Education and Workforce Development** indicated no impact to their department.

Officials from the **Department of Health and Senior Services** indicated this initiative petition has no impact on their department.

Officials from the **Department of Commerce and Insurance** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no fiscal impact.

Officials from the **Department of Labor and Industrial Relations** indicated they anticipate no fiscal impact for this initiative petition proposing to amend Article XXIX.

Officials from the **Department of Revenue** indicated no impact.

Officials from the **Department of Public Safety - Office of the Director** indicated no impact for their department.

Officials from the **Department of Social Services** indicated this will have no fiscal impact for their department.

Officials from the **Governor's office** indicated this proposal relating to the distribution of State and Federal constitutional authority should not fiscally impact their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact.

Officials from the **Department of Conservation** indicated there is no anticipated fiscal impact (cost or savings) to their department associated with this initiative petition.

Officials from the **Department of Transportation** indicated this initiative petition would have no direct fiscal impact to their department/Missouri Highways and Transportation Commission.

Officials from the **Office of Administration** indicated this proposal relating to the distribution of State and Federal constitutional authority should not fiscally impact their office.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be $7 million based on the cost of the 2020 Presidential Preference Primary.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Funding for this item is adjusted each year depending upon the election cycle. A new decision item is requested in odd numbered fiscal years and the amount requested is dependent upon the estimated number of ballot measures that will be approved by the General Assembly and the initiative petitions certified for the ballot. In fiscal year (FY) 2014, the General Assembly changed the appropriation so that it was no longer an estimated appropriation.

In FY19, over $5.8 million was spent to publish the full text of the measures for the August and November elections. Their office estimates $75,000 per page for the costs of publications based on the actual cost incurred for the one referendum that was on the August 2018 ballot.

Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated no fiscal impact for their office.

Officials from the **State Treasurer's office** indicated no fiscal impact to their office.

Officials from **Clay County** indicated there is no fiscal impact to their county from this measure.

Officials from **Greene County** indicated there are no estimated costs or savings to report from their county for this initiative petition.

Officials from the **City of Kansas City** indicated this amendment would have no fiscal impact on their city.

Officials from **Metropolitan Community College** indicated no fiscal impact to their college.

The State Auditor's office did not receive a response from **Adair County, Boone County, Callaway County, Cass County, Cole County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, State Technical College of Missouri, University of Missouri,** and **St. Louis Community College.**

Fiscal Note Summary

State and local governmental entities estimate no costs or savings.

RE: Petition approval request from Austin Shaffer regarding a proposed constitutional amendment to Article XXVIII (2022-036)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Austin Shaffer on June 2, 2021.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

Be it resolved by the people of the state of Missouri that the Constitution be amended:

To include the Bill of Rights as part of the Constitution of the State of Missouri.

Article XXVIII,

Sec. 1, Power of the People

All power of government is created by and comes from the People to the Government.

Sec. 2, Bill of Rights

The State of Missouri hereby guarantees to all its citizens to protect all of the following rights from infringement by any government (collectively known as the Missouri Bill of Rights):

(a) No law shall be made respecting an establishment of religion, or prohibiting the free exercise thereof; or abridging the freedom of speech, or of the press; or the right of the people peaceably to assemble, and to petition the Government for a redress of grievances.

(b) A well regulated Militia, being necessary to the security of a free State, the right of the people to keep and bear Arms shall not be infringed.

(c) No Soldier shall, in time of peace be quartered in any house, without the consent of the Owner, nor in time of war, but in a manner to be prescribed by law.

(d) The right of the people to be secure in their persons, houses, papers, and effects, against unreasonable searches and seizures, including all forms of electronic searches and seizures, shall not be violated, and no Warrants shall issue, but upon probable cause, supported by Oath or affirmation, and particularly describing the place to be searched, and the persons or things to be seized.

(e) No person shall be held to answer for a capital, or otherwise infamous crime, unless on a presentment or indictment of a Grand Jury, except in cases arising in the land or naval forces, or in the Militia, when in actual service in time of War or public danger; nor shall any person be subject for the same offence to be twice put in jeopardy of life or limb; nor shall be compelled in any criminal case to be a witness against himself, nor be deprived of life, liberty, or property, without due process of law; nor shall private property be taken for public use, without just compensation.

(f) In all criminal prosecutions, the accused shall enjoy the right to a speedy and public trial, by an impartial jury of the State and district wherein the crime shall have been committed, which district shall have been previously ascertained by law, and to be informed of the nature and cause of the accusation; to be confronted with the witnesses against him; to have compulsory process for obtaining witnesses in his favor, and to have the Assistance of Counsel for his defense.

(g) In Suits at common law, where the value in controversy shall exceed twenty dollars, the right of trial by jury shall be preserved, and no fact tried by a jury, shall be otherwise re-examined in any Court of the United States, than according to the rules of the common law.

(h) Excessive bail shall not be required, nor excessive fines imposed, nor cruel and unusual punishments inflicted.

(i) The enumeration in the Constitution of Missouri, of certain rights, shall not be construed to deny or disparage others retained by the people.

(j) The powers not delegated to the United States by the Constitution of the United States, nor prohibited by it to the States, are reserved to the States respectively, or to the people.

Sec. 3. Involuntary Servitude

Involuntary Servitude is prohibited of any individual by another, and also of the State of Missouri by the Federal Government.

-

Sec 4, Remainder of Constitution

The State of Missouri hereby adopts all the remaining text of the Constitution of the United States of America as a part of its own Constitution, without applicability of any Supreme Court or Federal Court decisions or precedents, to be effective if and only if,

(a) the United States of America collapses, or

(b) Missouri lawfully ceases to be a part of the United States of America.

Upon (a) or (b) happening, prior Federal Court decisions, including those considering state issues, shall be of no further authority in Missouri.

Sec 5, Past Court Decisions and Interpretations

Any holdings in In re Interest of Anaya, 276 Neb. 825 or State v. Noble, 171 Ariz. 171 are hereby rejected; while the holdings in Hendricks v. State,897 N.E.2d 1208 (Ind. Ct. App. 2008) are hereby affirmed. The interpretation of the Missouri Bill of Rights shall be by Missouri courts and fresh and independent of past interpretations of the Bill of Rights contained in the United States Constitution. No contemporaneous, legislative, or administrative construction of the Missouri Bill of Rights is permitted; although reference to the Federalist Papers for interpretive guidance is permitted. All the provisions of the Missouri Bill of Rights are self-executing and shall be so interpreted.

The provisions of this amendment shall be interpreted to supplement other provisions of the Constitution of Missouri, where such provisions can be consistently interpreted, or, if such construction is not possible, then the provisions of this amendment shall supersede such other provisions of the Constitution of Missouri.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (22-036)

Subject

Initiative petition from Austin Shaffer regarding a proposed constitutional amendment to Article XXVIII of the Constitution of Missouri. (Received June 2, 2021)

Date

June 22, 2021

Description

This proposal would amend Article XXVIII of the Constitution of Missouri.

The amendment is to be voted on in November 2022.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education and Workforce Development,** the **Department of Health and Senior Services,** the **Department of Commerce and Insurance,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri,** and **St. Louis Community College.**

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, they expect that their office could absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, their office may be required to request additional appropriations.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated no impact to their department.

Officials from the **Department of Elementary and Secondary Education** indicated no impact to their department.

Officials from the **Department of Higher Education and Workforce Development** indicated no impact to their department.

Officials from the **Department of Health and Senior Services** indicated this initiative petition has no impact.

Officials from the **Department of Commerce and Insurance** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated unknown fiscal impact. This petition contains language related to the adoption and abandonment of certain federal authorities. It is very broad in its application, and there could potentially be a legal impact in the future stemming from the Bill of Rights and other decisions and precedents, but it's difficult to ascertain the scope. They believe there could be legal impact for both the state and their agency. As an agency they get sued for violation of rights by offenders, which in turn drives their policies.

Officials from the **Department of Labor and Industrial Relations** indicated they anticipate no fiscal impact for this initiative petition proposing to amend Article XXVIII.

Officials from the **Department of Revenue** indicated no impact.

Officials from the **Department of Public Safety - Office of the Director** indicated no impact for their department.

Officials from the **Department of Social Services** indicated this will have no fiscal impact for their department.

Officials from the **Governor's office** indicated this proposal relating to incorporating provisions of the U.S. Constitution should not fiscally impact their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact, with the qualification that they cannot reasonably predict what impact there would be to the House of amending the entire US Constitution to the state's, and vacating every federal court decision, under Section 4 (a) and (b).

Officials from the **Department of Conservation** indicated there is no anticipated fiscal impact (cost or savings) to their department associated with this initiative petition.

Officials from the **Department of Transportation** indicated this initiative petition would have no direct fiscal impact to their department/Missouri Highways and Transportation Commission.

Officials from the **Office of Administration** indicated this proposal relating to incorporating provisions of the U.S. Constitution should not fiscally impact their office.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be $7 million based on the cost of the 2020 Presidential Preference Primary.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Funding for this item is adjusted each year depending upon the election cycle. A new decision item is requested in odd numbered fiscal years and the amount requested is dependent upon the estimated number of ballot

measures that will be approved by the General Assembly and the initiative petitions certified for the ballot. In fiscal year (FY) 2014, the General Assembly changed the appropriation so that it was no longer an estimated appropriation.

In FY19, over $5.8 million was spent to publish the full text of the measures for the August and November elections. Their office estimates $75,000 per page for the costs of publications based on the actual cost incurred for the one referendum that was on the August 2018 ballot.

Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated no fiscal impact for their office.

Officials from the **State Treasurer's office** indicated no fiscal impact to their office.

Officials from **Clay County** indicated there is no fiscal impact to their county from this measure.

Officials from **Greene County** indicated there are no estimated costs or savings to report from their county for this initiative petition.

Officials from the **City of Kansas City** indicated this amendment would have no fiscal impact on their city.

Officials from **Metropolitan Community College** indicated no fiscal impact to their college.

The State Auditor's office did not receive a response from **Adair County, Boone County, Callaway County, Cass County, Cole County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, State Technical College of Missouri, University of Missouri,** and **St. Louis Community College.**

Fiscal Note Summary

State governmental entities estimate no costs or savings, but indicated the proposal could result in unknown impacts. Local governmental entities estimate no costs or savings.

Be it resolved by the people of the state of Missouri that the Constitution be amended:

so that it establishes election integrity procedures to (a) prevent attempts to fraudulently influence Missouri's elections, and (b) instill confidence in Missouri voters in the reported results of its elections.

Article XXX,

Sec. 1. Prohibited Election Conduct

(1) No voting machine may be utilized in any election to count or calculate votes. All votes shall be counted by hand by the judgment of the human eye. All counting shall occur by two persons.
(2) Any differences or uncertainties in counting by the two shall only be resolved by an individual approved and appointed in advance of the election by the state legislature.
(3) Mail in ballots shall be prohibited, except when requested by a voter in advance and after showing state-issued photo identification or a state-issued driver's license.
(4) All internet connectivity shall be discontinued at any polling place during the entire time votes are cast and counted. In addition, all persons serving in any capacity at a polling location, except observers, shall from the time of poll closing until the vote has been finally and publicly reported check in their cell phones so the counting occurs without the potential bias of any electronic sources of information of vote totals from other locations.
(5) Local law enforcement officials shall prohibit the delivery of boxes of any kind at a polling place from the time the polls are first open for voting until after all votes have been counted and reported.

Sec. 2. Registration Requirements

(1) All registration to vote shall occur on or before 14 days prior to an election day. Such registration shall require the registering voter to show valid state-issued photo identification or a valid state-issued driver's license. No identification or driver's license which has expired shall be valid.

Sec. 3. Election Observer and Reporting Requirements

(1) No early voting shall be permitted more than two weeks before election day. All mail in ballots must be received two days before election day. Otherwise, they shall not be counted. Mail in balloting cannot be permitted to delay the announcement of full election totals within four hours after the poll's closing.
(2) All voters in all elections shall be required to show valid state-issued photo identification or a valid state-issued driver's license. No identification or driver's license which has expired shall be valid.
(3) All observers in a polling station shall be located within five feet of any station they desire to observe. Observers inside a polling station shall also be permitted to photograph any or all activities they desire. Private citizens outside a polling station shall be permitted to photograph any and all activity they desire and shall be free from any liability of any kind for such photographing. All photographing shall be understood to include and allow video-taping and the recording of sound and voice.
(4) All ballots shall be counted only at and reported only from the place where the votes are cast.

(5) Under no condition shall the counting of votes be stopped between the time that a poll has closed and four hours thereafter unless completed.
(6) All votes shall be counted and reported within four hours of the time voting has closed. No votes being reported thereafter shall be valid.
(7) All vote totals shall be reported from all locations on the following basis: (a) by 11:59 p.m. of the night before the election (relating to early voting and mail in ballots); (b) at one hour after the scheduled polling closing time; (c) at two hours after the scheduled polling closing time; (d) at three hours after the scheduled polling closing time; and, finally, (e) at four hours after the scheduled polling closing time.

Sec. 4. Legislative Election Authority

(1) The legislature of the state shall have authority in elections for president and vice president of the United States to adjust or void any vote totals it determines appropriate. It may also ignore any vote totals and exercise its right to appoint electors as specified under the United States Constitution.
(2) Any alleged violation of state election law may be remedied by a complaint filed with the state legislature, who shall promptly according to its own procedures review, receive evidence, and make a final ruling on the same.

Sec. 5. Inspection Rights

(1) All registration material, election-related computer files and data bases, and actual ballots cast shall remain available for inspection by representatives of any state party, the legislature, the courts, and any group of 1,000 or more requesting registered voters, for 120 days after the election.

Sec. 6. Election Crimes

(1) Any person (a) voting twice or more times in a single election, or (b) voting on behalf of a deceased person, or (c) voting using another person's name, or (d) voting who is not a United States citizen shall be guilty of treason against the state.
(2) Election officials denying any right to observers to an election shall be guilty of a Class III felony.
(3) Any person who resets or erases any election files or data bases, or destroys or misplaces any ballots prior to the end of the 120-day inspection period shall be guilty of a Class III felony.
(4) Any polling supervisor who fails to report partial and final results on the schedule shall be guilty of a Class III felony.
(5) Any ballot counter who intentionally, with a lack of good faith, causes ballots to be adjudicated shall be guilty of a Class III felony.

Be it resolved by the people of the state of Missouri that the Constitution be amended:

so that it (a) clarifies the Federal Government duty to uphold the rights of Missouri citizens under the U.S. Constitution, including the Bill of Rights and all other provisions, (b) identifies breaches by the Federal Government, and (c) affirms Missouri's right to assess the severity and consequences of such breaches of the US Constitution.

Article XXIX,

Sec. 1. Duty of Federal Government of the United States to Uphold the Bill of Rights and Constitution

(1) The State of Missouri hereby clarifies its admission as a State into the United States of America. Such application by Missouri and admission by the federal government are, in essence, a governmental compact between the two whereby both parties undertake to fulfill their respective duties.
(2) The Supremacy Clause of the Constitution of the United States and application of the doctrine set forth in Marbury v. Madison together are not designed to give the federal government a "blank check" in this governmental compact. Accordingly, the federal government is obligated to uphold its end of the bargain, or else find itself in breach.
(3) Some breaches of federal government duty may be material, and some may be immaterial.
(4) All breaches of the federal government to uphold each of the provisions of the Bill of Rights, including the Tenth Amendment, of the Constitution of the United States is a material breach.
(5) Failure of the federal government to allow states to propose Constitutional amendments under Article V of the Constitution of the United States of America is also a material breach.
(6) The State of Missouri reserves the right to address breaches, both material and immaterial, as it may determine proper, following good faith efforts to reconcile such breaches and allowing the federal government a period in which it can remedy its breach of contract.

Sec 2. Federal Breaches

The following actions by the United States of America constitute breaches of the Constitutional compact it has with the State of Missouri:

(a) The excessive use of executive orders by the President of the United States of America, except in the case of live military conflict, circumventing the representative legislative process;
(b) The excessive and reckless incurrence of debt, except in the case of anticipated or live military conflict;
(c) Failure to effectively protect the borders of the country from unauthorized entry or invasion;
(d) Failure by the Justice Department and Supreme Court of the United States of America to (i) equally enforce the rule of law, (ii) imbue citizens with confidence that the results of national elections are free and fair, and (iii) provide prompt enforcement of criminal laws without endless delays due to investigations often times resulting in no meaningful enforcement action;
(e) Failure by the federal government to protect the right of the State of Missouri under the Tenth Amendment to the Constitution of the United States of America to exercise powers not specifically given to the federal government, including the power to protect life and protect marriage as Missouri determines best;
(f) Dramatically curtailing freedom of speech of all kinds, in both the public and private arena;
(g) Increasingly curtailing freedom of worship with only the least restrictive means of governmental limitation to serve a compelling governmental interest;

(h) Congress effectively ignoring the right of States to propose amendments to the Constitution of the United States of America under Article V; and,
(i) In the name of protection, creating and deploying espionage tools stripping Americans of their sense of privacy of thought, speech, and action, and use of electronic tools of all kinds.

Sec 3. Significance of such Breaches

The severity of such breaches, and which, if any of them, are immaterial, and the consequences thereof are for the State of Missouri to assess and decide.

RE: Petition approval request from Austin Shaffer regarding a proposed constitutional amendment to Article XXVIII (2022-033)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Austin Shaffer on May 14, 2021.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

Be it resolved by the people of the state of Missouri that the Constitution be amended:

To include the Bill of Rights as part of the Constitution of the State of Missouri.

Article XXVIII,

Sec. 1, Power of the People

All power of government is created by and comes from the People to the Government.

Sec. 2, Bill of Rights

The State of Missouri hereby guarantees to all its citizens to protect all of the following rights from infringement by any government (collectively known as the Missouri Bill of Rights):

(1) No law shall be made respecting an establishment of religion, or prohibiting the free exercise thereof; or abridging the freedom of speech, or of the press; or the right of the people peaceably to assemble, and to petition the Government for a redress of grievances.
(2) A well regulated Militia, being necessary to the security of a free State, the right of the people to keep and bear Arms shall not be infringed.
(3) No Soldier shall, in time of peace be quartered in any house, without the consent of the Owner, nor in time of war, but in a manner to be prescribed by law.
(4) The right of the people to be secure in their persons, houses, papers, and effects, against unreasonable searches and seizures, including all forms of electronic searches and seizures, shall not be violated, and no Warrants shall issue, but upon probable cause, supported by Oath or affirmation, and particularly describing the place to be searched, and the persons or things to be seized.
(5) No person shall be held to answer for a capital, or otherwise infamous crime, unless on a presentment or indictment of a Grand Jury, except in cases arising in the land or naval forces, or in the Militia, when in actual service in time of War or public danger; nor shall any person be subject for the same offence to be twice put in jeopardy of life or limb; nor shall be compelled in any criminal case to be a witness against himself, nor be deprived of life, liberty, or property, without due process of law; nor shall private property be taken for public use, without just compensation.
(6) In all criminal prosecutions, the accused shall enjoy the right to a speedy and public trial, by an impartial jury of the State and district wherein the crime shall have been committed, which district shall have been previously ascertained by law, and to be informed of the nature and cause of the accusation; to be confronted with the witnesses against him; to have compulsory process for obtaining witnesses in his favor, and to have the Assistance of Counsel for his defense.
(7) In Suits at common law, where the value in controversy shall exceed twenty dollars, the right of trial by jury shall be preserved, and no fact tried by a jury, shall be otherwise re-examined in any Court of the United States, than according to the rules of the common law.
(8) Excessive bail shall not be required, nor excessive fines imposed, nor cruel and unusual punishments inflicted.
(9) The enumeration in the Constitution of Missouri, of certain rights, shall not be construed to deny or disparage others retained by the people.
(10) The powers not delegated to the United States by the Constitution of the United States, nor prohibited by it to the States, are reserved to the States respectively, or to the people.

Sec. 3, Involuntary Servitude

Involuntary Servitude is prohibited of any individual by another, and also of the State of Missouri by the Federal Government.

-

Sec 4, Remainder of Constitution

The State of Missouri hereby adopts all the remaining text of the Constitution of the United States of America as a part of its own Constitution, without applicability of any Supreme Court or Federal Court decisions or precedents, to be effective if and only if,

(a) the United States of America collapses, or

(b) Missouri lawfully ceases to be a part of the United States of America.

Upon (a) or (b) happening, prior Federal Court decisions, including those considering state issues, shall be of no further authority in Missouri.

Sec 5, Past Court Decisions and Interpretations

Any holdings in In re Interest of Anaya, 276 Neb. 825 or State v. Noble, 171 Ariz. 171 are hereby rejected; while the holdings in Hendricks v. State,897 N.E.2d 1208 (Ind. Ct. App. 2008) are hereby affirmed. The interpretation of the Missouri Bill of Rights shall be by Missouri courts and fresh and independent of past interpretations of the Bill of Rights contained in the United States Constitution. No contemporaneous, legislative, or administrative construction of the Missouri Bill of Rights is permitted; although reference to the Federalist Papers for interpretive guidance is permitted. All the provisions of the Missouri Bill of Rights are self-executing and shall be so interpreted.

The provisions of this amendment shall be interpreted to supplement other provisions of the Constitution of Missouri, where such provisions can be consistently interpreted, or, if such construction is not possible, then the provisions of this amendment shall supersede such other provisions of the Constitution of Missouri.

Be it enacted by the people of the State of Missouri:

Fifteen new sections to be known as sections 290.600, 290.603, 290.606, 290.609, 290.612, 290.615, 290.618, 290.621, 290.624, 290.627, 290.630, 290.633, 290.636, 290.639, and 290.642 are enacted to read as follows:

290.600. As used in sections 290.600 through 290.642:

(1) "Construction", includes construction, reconstruction, improvement, enlargement, alteration, painting and decorating, or major repair.

(2) "Construction industry", includes any employer whose employees conduct or perform construction as a principal component of the employer's business or enterprise.

(3) "Department", Department of Labor and Industrial Relations.

(4) "Director", Director of the Department of Labor and Industrial Relations.

(5) "Domestic violence", as such term is defined in section 455.010.

(6) "Earned paid sick time", time that is compensated at the same hourly rate and with the same benefits, including health care benefits, as the employee normally earns during hours worked and is provided by an employer to an employee for the purposes described in section 290.606, but in no case shall this hourly amount be less than that provided under section 290.502.

(7) "Employee", any individual employed in this state by an employer, but does not include:

(A) Any individual engaged in the activities of an educational, charitable, religious, or nonprofit organization where the employer-employee relationship does not, in fact, exist or where the services rendered to the organization are on a voluntary basis;

(B) Any individual standing in loco parentis to foster children in their care;

(C) Any individual employed for less than four months in any year in a resident or day camp for children or youth, or any individual employed by an educational conference center operated by an educational, charitable or not-for-profit organization;

(D) Any individual engaged in the activities of an educational organization where employment by the organization is in lieu of the requirement that the individual pay the cost of tuition, housing or other educational fees of the organization or where earnings of the individual employed by the organization are credited toward the payment of the cost of tuition, housing or other educational fees of the organization;

(E) Any individual employed on or about a private residence on an occasional basis for six hours or less on each occasion;

(F) Any individual employed on a casual basis to provide baby-sitting services;

(G) Any individual employed by an employer subject to the provisions of part A of subtitle IV of title 49, United States Code, 49 U.S.C. §§ 10101 et seq.;

(H) Any individual employed on a casual or intermittent basis as a golf caddy, newsboy, or in a similar occupation;

(I) Any individual who is employed in any government position defined in 29 U.S.C. §§ 203(e)(2)(C)(i)-(ii);

(J) Any individual employed by a retail or service business whose annual gross volume sales made or business done is less than five hundred thousand dollars;

(K) Any individual who is an offender, as defined in section 217.010, who is incarcerated in any correctional facility operated by the department of corrections, including offenders who provide labor or services on the grounds of such correctional facility pursuant to section 217.550;

(L) Any individual described by the provisions of section 29 U.S.C. 213(a)(8); or

(M) Any individual engaged in construction work in the construction industry.

(8) "Employer", any person acting directly or indirectly in the interest of an employer in relation to an employee; provided, however, that for the purposes of sections 290.600 through 290.642 "employer" does not include the United States Government, the state, or a political subdivision of the state, including a department, agency, officer, bureau, division, board, commission, or instrumentality of the state, or a city, county, town, village, school district, public higher education institution, or other political subdivision of the state.

(9) "Family member", any of the following individuals:

(A) Regardless of age, a biological, adopted or foster child, stepchild or legal ward, a child of a domestic partner, a child to whom the employee stands in loco parentis, or an individual to whom the employee stood in loco parentis when the individual was a minor;

(B) A biological, foster, stepparent or adoptive parent or legal guardian of an employee or an employee's spouse or domestic partner or an individual who stood in loco parentis when the employee or employee's spouse or domestic partner was a minor child;

(C) An individual to whom the employee is legally married under the laws of any state, or a domestic partner who is registered as such under the laws of any state or political subdivision;

(D) A grandparent, grandchild, or sibling (whether of a biological, foster, adoptive or step relationship) of the employee or the employee's spouse or domestic partner; or

(E) A person for whom the employee is responsible for providing or arranging health or safety-related care, including but not limited to helping that individual obtain diagnostic, preventative, routine, or therapeutic health treatment or ensuring the person is safe following domestic violence, sexual assault, or stalking.

(10) "Health care professional," any individual licensed under federal or any state law to provide medical or emergency services, including but not limited to doctors, nurses, certified nurse midwives, mental health professionals, and emergency room personnel.

(11) "Person", any individual, partnership, association, corporation, business, business trust, legal representative, or any organized group of persons.

(12) "Retaliatory personnel action", denial of any right guaranteed under sections 290.600 through 290.642, or any threat, discharge, suspension, demotion, reduction of hours, or any other adverse action against an employee for the exercise of any right guaranteed herein. "Retaliatory personnel action" shall also include interference with or punishment for in any manner participating in or assisting an investigation, proceeding, or hearing under sections 290.600 through 290.642.

(13) "Same hourly rate", means the following:

(a) For employees paid on the basis of a single hourly rate, the same hourly rate shall be the employee's regular hourly rate.

(b) For employees who are paid multiple hourly rates of pay from the same employer, the same hourly rate shall be either:

(i) the wages the employee would have been paid for the hours absent during use of earned paid sick time if the employee had worked; or,

(ii) the weighted average of all hourly rates of pay during the previous pay period.

Whatever method the employer uses, the employer must use a consistent method for each employee throughout a year.

(c) For employees who are paid a salary, the same hourly rate shall be determined by dividing the wages the employee earns in the previous pay period by the total number of hours worked during the previous pay period. For determining total number of hours worked during the previous pay period, employees who are exempt from overtime requirements under 29 U.S.C. § 213(a)(1), the Fair Labor Standards Act, shall be assumed to work 40 hours in each work week unless their normal work week is less than 40 hours, in which case earned paid sick time shall accrue and the same hourly rate shall be calculated based on the employee's normal work week. Regardless of the basis used, the same hourly rate shall not be less than the effective minimum wage specified in section 290.502.

(d) For employees paid on a piece rate or a fee-for-service basis, the same hourly rate shall be a reasonable calculation of the wages or fees the employee would have received for the piece work, service, or part thereof, if the employee had worked. Regardless of the basis used, the same hourly rate shall not be less than the effective minimum wage specified in section 290.502.

(e) For employees who are paid on a commission basis (whether base wage plus commission or commission only), the same hourly rate shall be the greater of the base wage or the effective minimum wage specified in section 290.502.

(f) For employees who receive and retain compensation in the form of gratuities in addition to wages, the same hourly rate shall be the greater of the employee's regular hourly rate or 100% of the effective minimum wage specified in section 290.502 without deduction of any tips as a credit.

(14) "Sexual assault", as such term is defined in section 455.010.

(15) "Stalking", as such term is defined in section 455.010.

(16) "Year", a regular and consecutive twelve-month period as determined by the employer; except that for the purposes of section 290.615 and section 290.627, "year" shall mean a calendar year.

290.603. 1. Employees of an employer with fifteen or more employees shall accrue a minimum of one hour of earned paid sick time for every thirty hours worked, but such employees shall not be entitled to use more than fifty-six hours of earned paid sick time per year, unless the employer selects a higher limit.

2. Employees of an employer with fewer than fifteen employees shall accrue a minimum of one hour of earned paid sick time for every thirty hours worked, but such employees shall not be entitled to use more than forty hours of earned paid sick time per year, unless the employer selects a higher limit.

3. In determining the number of employees of an employer, all employees performing work in the state for an employer for compensation on a full-time, part-time, or temporary basis shall be counted. In situations in which the number of employees performing work in the state for an employer for compensation per week fluctuates above and below 15 employees per week over the course of a year, an employer is required to provide earned paid sick time pursuant to subsection (1) of this section if it maintained fifteen or more employees in the state on the payroll for some portion of a working day in each of twenty or more different calendar weeks, including any periods of leave, and whether or not the weeks were consecutive, in either the current or the preceding year (irrespective of whether the same individuals were in employment in each working day).

4. All employees shall accrue earned paid sick time as follows:

(A) Earned paid sick time as provided in this section shall begin to accrue at the commencement of employment or on the date this law goes into effect, whichever is later. An employee shall be entitled to use earned paid sick time as it is accrued. An employer may provide all earned paid sick time that an employee is expected to accrue in a year at the beginning of the year.

(B) Employees who are exempt from overtime requirements under 29 U.S.C. § 213(a)(1) of the Federal Fair Labor Standards Act will be assumed to work forty hours in each work week for purposes of earned paid sick time accrual unless their normal work week is less than forty hours, in which case earned paid sick time accrues based upon that normal work week.

(C) Earned paid sick time shall be carried over to the following year, but this law does not require an employer to permit an employee to use more than the applicable number of hours of earned paid sick time per year as set forth in subsection (1) and (2) of this section. Alternatively, in lieu of carryover of unused earned paid sick time from one year to the next, an employer may pay an employee for unused earned paid sick time at the end of a year and provide the employee with an amount of paid sick time that meets or exceeds the requirements of sections 290.600 through 290.642 that is available for the employee's immediate use at the beginning of the subsequent year.

(D) If an employee is transferred to a separate division, entity, or location, but remains employed by the same employer, the employee is entitled to all earned paid sick time accrued at the prior division, entity, or location and is entitled to use all earned paid sick time as provided in this section. When there is a separation from employment and the employee is rehired within nine months of separation by the same employer, previously accrued earned paid sick time that had not been used shall be reinstated. Further, the employee shall be entitled to use accrued earned paid sick time and accrue additional earned paid sick time at the re-commencement of employment.

(E) When a different employer succeeds or takes the place of an existing employer, all employees of the original employer who remain employed by the successor employer are entitled to all earned paid sick time they accrued when employed by the original employer, and are entitled to use earned paid sick time previously accrued.

(F) At its discretion, an employer may loan earned paid sick time to an employee in advance of accrual by such employee.

5. Any employer with a paid leave policy, such as a paid time off policy, or a collective bargaining agreement that makes available an amount of paid leave sufficient to meet the accrual requirements of this section that may be used for the same purposes and under the same conditions as earned paid sick time under sections 290.600 through 290.642 is not required to provide additional paid sick time under this section.

6. Except as specifically provided in this section, nothing in this section shall be construed as requiring financial or other reimbursement to an employee from an employer upon the employee's termination, resignation, retirement, or other separation from employment for accrued earned paid sick time that has not been used.

290.606. 1. Earned paid sick time shall be provided to an employee by an employer for:

(A) An employee's mental or physical illness, injury, or health condition; an employee's need for medical diagnosis, care, or treatment of a mental or physical illness, injury, or health condition; an employee's need for preventative medical care;

(B) Care of a family member with a mental or physical illness, injury, or health condition; care of a family member who needs medical diagnosis, care, or treatment of a mental or physical illness, injury, or health condition; care of a family member who needs preventative medical care;

(C) Closure of the employee's place of business by order of a public official due to a public health emergency, or an employee's need to care for a child whose school or place of care has been closed by order of a public official due to a public health emergency, or care for oneself or a family member when it has been determined by the health authorities having jurisdiction or by a health care provider that the employee's or family member's presence in the community may jeopardize the health of others because of his or her exposure to a communicable disease, whether or not the employee or family member has actually contracted the communicable disease; or

(D) Absence necessary due to domestic violence, sexual assault, or stalking, provided the leave is to allow the employee to obtain for the employee or the employee's family member:

(i) Medical attention needed to recover from physical or psychological injury or disability caused by domestic violence, sexual assault, or stalking;

(ii) Services from a victim services organization;

(iii) Psychological or other counseling;

(iv) Relocation or taking steps to secure an existing home due to the domestic violence, sexual assault, or stalking; or

(v) Legal services, including preparing for or participating in any civil or criminal legal proceeding related to or resulting from the domestic violence, sexual assault, or stalking.

2. Earned paid sick time shall be provided upon the request of an employee. Such request may be made orally, in writing, by electronic means, or by any other means acceptable to the employer. When possible, the request shall include the expected duration of the absence.

3. When the use of earned paid sick time is foreseeable, the employee shall make a good faith effort to provide notice of the need for such time to the employer in advance of the use of the earned paid sick time and shall make a reasonable effort to schedule the use of earned paid sick time in a manner that does not unduly disrupt the operations of the employer. Where such need is not foreseeable, an employer may require an employee to provide notice of the need for the use of earned paid sick time as soon as practicable.

4. An employer that requires notice of the need to use earned paid sick time where the need is not foreseeable shall provide a written policy that contains procedures for the employee to provide notice. An employer that has

not provided to the employee a copy of its written policy for providing such notice shall not deny earned paid sick time to the employee based on non-compliance with such a policy.

5. An employer may not require, as a condition of an employee's taking earned paid sick time, that the employee search for or find a replacement worker to cover the hours during which the employee is using earned paid sick time.

6. Earned paid sick time may be used in the smaller of hourly increments or the smallest increment that the employer's payroll system uses to account for absences or use of other time.

7. For earned paid sick time of three or more consecutive work days, an employer may require reasonable documentation that the earned paid sick time has been used for a purpose covered by subsection (1) of this section.

(A) Documentation signed by a heath care professional indicating that earned paid sick time is necessary shall be considered reasonable documentation for purposes of this section.

(B) In cases of domestic violence, sexual assault, or stalking, if the employer requests, one of the following types of documentation selected by the employee shall be considered reasonable documentation: (i) a police report indicating that the employee or the employee's family member was a victim of domestic violence, sexual assault, or stalking, (ii) a written statement from an employee or agent of a victim service provider affirming that the employee or employee's family member is or was receiving services from a victim service provider; (iii) documentation signed by a health care professional from whom the employee or employee's family member sought assistance relating to domestic violence, sexual assault, or stalking or the effects thereof; (vi) a court document indicating that an employee or employee's family member is or was involved in a legal action related to domestic violence, sexual assault, or stalking; or (v) a written statement from the employee affirming that the employee or employee's family member is taking or took earned paid sick time for a qualifying purpose of subsection (1) of this section.

(C) An employer may not require that the documentation explain the nature of the illness, details of the underlying health needs, or the details of the domestic violence, sexual assault, or stalking, unless otherwise required by law.

290.609. 1. It shall be unlawful for an employer or any other person to interfere with, restrain, or deny the exercise of, or the attempt to exercise, any right protected under sections 290.600 through 290.642.

2. An employer shall not take retaliatory personnel action or discriminate against an employee or former employee because the individual has exercised rights protected under sections 290.600 through 290.642. Such rights include, but are not limited to, the right to request or use earned paid sick time pursuant to sections 290.600 through 290.642; the right to file a complaint or inform any person about any employer's alleged violation of sections 290.600 through 290.642; the right to participate in any investigation, hearing, or proceeding or cooperate with or assist the Department in any investigations of alleged violations of sections 290.600 through 290.642; and the right to inform any person of his or her potential rights under sections 290.600 through 290.642.

3. It shall be unlawful for an employer's absence control policy to count earned paid sick time taken under sections 290.600 through 290.642 as an absence that may lead to or result in discipline, discharge, demotion, suspension, or any other adverse action.

4. Protections of this section shall apply to any individual who mistakenly but in good faith alleges violations of sections 290.600 through 290.642.

290.612. 1. Employers shall give employees a written notice about earned paid sick time within fourteen calendar days of the commencement of employment or within ninety days of the effective date of this law, whichever is later, which must include the following information: (1) employees accrue and are entitled to earned paid sick time at the rate one hour of earned paid sick time for every 30 hours of work, and may use earned paid sick time, subject to the terms under sections 290.600 through 290.642 of Missouri law, (2) it is prohibited for an employer to take retaliatory personnel action against employees who request or use earned paid sick time as allowed by law, (3) each employee has the right to bring a civil action if earned paid sick time as required by sections 290.600 through 290.642 is denied by the employer or the employee is subjected to retaliatory personnel action by the employer for exercising the employee's rights under sections 290.600 through 290.642; and, (4) the contact information for the Department. Notice shall be provided by the Employer to the employee on a single piece of paper, at least 8.5 x 11, in no less than 14-point font.

2. Employers shall display a poster that contains the information required in subsection (1) of this section in a conspicuous and accessible place in each establishment where such employees are employed, provided that such poster has been provided by the Department.

3. The Department may create and make available to employers, model notices and posters that contain the information required under subsection (1) of this section for employers' use in complying with subsections (1) and (2) of this section. Nothing in sections 290.600 through 290.642 shall be interpreted or applied, either expressly or through practical necessity, to require the appropriation of funds to cover the costs associated with the Department creating or making available notices or posters.

290.615. 1. Employers shall retain records documenting hours worked by employees and earned paid sick time taken by employees, for a period of not less than three years, and shall allow the Department access to such records, with appropriate notice and at a mutually agreeable time, to monitor compliance with the requirements of sections 290.600 through 290.642.

2. To the extent permitted by law, the Director may inspect such records, and the records shall be open for inspection by the Director by appointment. Where the records required under this section are kept outside the state, the records shall be made available to the Director upon demand. Every such employer shall furnish to the Director on demand a sworn statement of time records and information upon forms prescribed or approved by the Director. All the records and information obtained by the Department are confidential and shall be disclosed only on order of a court of competent jurisdiction.

3. Nothing in sections 290.600 through 290.642 shall be interpreted or applied, either expressly or through practical necessity, to require the appropriation of funds to cover the costs associated with the Department or Director accessing or inspecting records or creating forms relating to the inspection of records.

290.618. 1. The Department may, in accordance with chapter 536, promulgate rules for the implementation, enforcement, and administration of sections 290.600 through 290.642. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2022, shall be invalid and void.

2. Nothing in sections 290.600 through 290.642 shall be interpreted or applied, either expressly or through practical necessity, to require the appropriation of funds to cover the costs associated with the promulgation or adoption of rules.

290.621. 1. The Department may investigate and ascertain compliance with sections 290.600 through 290.642, establish and implement a system to receive complaints regarding non-compliance with sections 290.600 through 290.642 and to investigate and attempt to resolve complaints between the complainant and the subject of the complaint, and establish additional means of enforcement, including requiring by subpoena the testimony of witnesses and production of books, records, and other evidence relative to any matter under investigation or hearing, issuing notices of violation, holding hearings on notices of violation, making determinations, recovering unpaid earned sick time, and imposing fines for willful violations of up to $500 per day of each day of a continuing violation. A final decision of the department is subject to review in accordance with the provisions of chapter 536.

2. The Department may develop and implement an outreach program to inform employees, parents, and persons who are under the care of a health care provider about the availability of earned paid sick time under sections 290.600 through 290.642. This program may include the distribution of notices and other written materials to child care and elder care providers, domestic violence shelters, schools, hospitals, community health centers and other health care providers in Missouri.

3. A municipality, county, city, town, or village may adopt ordinances, rules, and regulations to investigate and ascertain compliance with sections 290.600 through 290.642, establish and implement a system to receive complaints regarding non-compliance with sections 290.600 through 290.642 and to investigate and attempt to resolve complaints between the complainant and the subject of the complaint, and establish additional means of enforcement, with respect to employers within, or employees performing work while physically present in, the geographic boundaries of the municipality, county, city, town, or village. Any such ordinance, rule, or regulation shall be consistent with this law and any Department rules or regulations and system for compliance and enforcement. The municipality, county, city, town, or village may exercise such powers as allowed by any applicable charter or ordinance, including requiring by subpoena the testimony of witnesses and production of books, records, and other evidence relative to any matter under investigation or hearing, issuing notices of violation, holding hearings on notices of violation, making determinations, recovering unpaid earned sick time, and imposing fines for willful violations of up to the maximum allowed for an ordinance violation. Before investigating or seeking to resolve any complaint between the complainant and the subject of the complaint, the municipality, county, city, town, or village shall give notice to the Department with a copy of the complaint and, within 14 days of such notice, the Department may intervene as of right and participate in the matter to ensure that the complaint is being investigated and resolved in the interest of effective enforcement of sections 290.600 through 290.642 or, alternatively, the Department may institute its own proceedings in which case the municipality, county, city, town, or village shall refrain from acting on the matter so long as the complaint is being investigated and resolved in the interest of effective enforcement of sections 290.600 through 290.642. If the Department does not, within 14 days, intervene or instigate its own proceedings, the municipality, county, city, town, or village may, without the Department, investigate and attempt to resolve the complaint and take other additional means as permitted to enforce sections 290.600 through 290.642 against the subject of the complaint. In no event shall an employer be subject to compliance proceedings arising out of a single set of facts after having already been subjected to a final compliance order by another government entity.

4. Nothing in sections 290.600 through 290.642 shall be interpreted or applied, either expressly or through practical necessity, to require the appropriation of funds to cover the costs associated with the Department, a municipality, county, city, town, or village conducting investigations and ascertaining compliance with sections 290.600 through 290.642, establishing and implementing a system to receive, investigate, or resolve complaints, establishing additional means of enforcement, or conducting outreach and education, including the creation of notices and other written materials, concerning sections 290.600 through 290.642.

290.624. 1. Any employer who willfully violates or fails to comply with any of the provisions and requirements of sections 290.600 through 290.642 shall be guilty of a class C misdemeanor; provided, however,

that an employer who willfully violates the notice and posting requirements of section 290.612 shall be guilty of an infraction.

2. For purposes of this section, each day of violation or failure to comply and each employee affected shall constitute a separate offense.

290.627. 1. Any individual who claims to have been aggrieved by a failure of an employer to comply with any portion of sections 290.600 through 290.642, including but not limited to the failure to provide earned paid sick time or to allow employees to use such time consistent with sections 290.600 through 290.642, or who claims to have suffered a retaliatory personnel action, shall have a right of action and may commence a civil action in the appropriate court of jurisdiction within three years of the accrual of the cause of action, to obtain appropriate relief with respect to such unlawful violation. Such action may be brought without first filing an administrative complaint.

2. In a civil action under this section, if the court finds a violation has occurred, the court may grant as relief, as it deems appropriate and to the extent permitted by law, any permanent or temporary injunction, the full amount of any unpaid earned sick time plus any actual damages suffered as the result of the employer's violation of sections 290.600 through 290.642, an additional amount equal to twice any unpaid earned sick time as liquidated damages, costs, and reasonable attorney's fees as may be allowed by the court, and other legal or equitable relief as may be appropriate to remedy the violation, including, without limitation, reinstatement to employment and back pay.

290.630. 1. Except as otherwise required by law, an employer may not require disclosure of details relating to an employee's or an employee's family member's health information, domestic violence, sexual assault, or stalking as a condition of providing earned paid sick time under sections 290.600 through 290.642.

2. Unless as otherwise required by law, any health or safety information possessed by an employer regarding an employee or employee's family member must:

(A) be maintained on a separate form and in a separate file from other personnel information;

(B) be treated as confidential medical records; and

(C) not be disclosed except to the affected employee or with the express written permission of the affected employee.

290.633. 1. Nothing in sections 290.600 through 290.642 shall be deemed to interfere, impede, or otherwise diminish the right of employees to bargain collectively through representatives of their own choosing in order to establish earned paid sick time or other conditions of work in excess of the applicable minimum standards under the provisions of sections 290.600 through 290.642.

2. Any waiver by an employee of rights under sections 290.600 through 290.642 shall be deemed contrary to public policy and shall be void.

290.636. 1. Nothing in sections 290.600 through 290.642 shall be construed to discourage or prohibit an employer from the adoption or retention of an earned paid sick time policy more generous than the one required herein.

2. Nothing in sections 290.600 through 290.642 shall be construed as diminishing the obligation of an employer to comply with any contract, collective bargaining agreement, employment benefit plan, or other agreement providing more generous paid sick time to an employee than required herein. Nothing in sections 290.600 through 290.642 shall be construed as diminishing the rights of public employees regarding paid sick time or use of paid sick time as provided in the laws of Missouri and ordinances of political subdivisions pertaining to public employees.

290.639. 1. Sections 290.600 through 290.642 provide minimum requirements pertaining to earned paid sick time and shall not be construed to preempt, limit, or otherwise affect the applicability of any other law, regulation, requirement, policy, or standard that provides for greater accrual or use by employees of earned paid sick time or that extends other protections to employees.

2. Nothing in sections 290.600 through 290.642 shall be interpreted or applied to create a power or obligation contrary to any federal law, rule, or regulation.

290.642. Except as detailed in section 290.618, all of the provisions of sections 290.600 through 290.642 are severable, and if any provision, including any section, subsection, subdivision, paragraph, sentence, or clause, or the application thereof to any person or circumstance, is found by a court of competent jurisdiction to be invalid, unconstitutional, or unconstitutionally enacted, such decision shall not affect other provisions or applications of sections 290.600 through 290.642 that can be given effect without the invalid, unconstitutional, or unconstitutionally enacted provision or application, and to this end the provisions of sections 290.600 through 290.642 are declared severable.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (22-032)

Subject

Initiative petition from Lisa D'Souza regarding a proposed amendment to Chapter 290 of the Revised Statutes of Missouri. (Received May 3, 2021)

Date

May 21, 2021

Description

This proposal would amend Chapter 290 of the Revised Statutes of Missouri.

The amendment is to be voted on in November 2022.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education and Workforce Development,** the **Department of Health and Senior Services,** the **Department of Commerce and Insurance,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College,** the **Missouri Lottery,** the **State Tax Commission,** the **Missouri Veterans Commission,** the **Missouri Ethics Commission,** the **Missouri Office of Prosecution Services,** the **Kansas City Board of Police Commissioners,** the **Metropolitan Police Department - City of St. Louis,** the **St. Louis County Board of Elections,** the **Board of Election Commissioners City of St. Louis,** the **Kansas City**

Board of Election Commissioners, the **Platte County Board of Elections,** the **Jackson County Election Board,** the **Clay County Board of Election Commissioners,** the **Lieutenant Governor's office,** the **Children's Trust Fund of Missouri,** the **Missouri Joint Municipal Electric Utility Commission,** the **State Auditor's office,** the **Metropolitan Zoological Park and Museum District,** the **Missouri Municipal League,** the **Missouri Bar Association,** the **Missouri Gaming Commission,** the **Municipal League of Metro St. Louis, University of Central Missouri, Harris-Stowe State University, Lincoln University, Missouri State University, Missouri Southern State University, Missouri Western State University, Northwest Missouri State University, Southeast Missouri State University,** and **Truman State University**.

Amy Blouin, President & CEO, Missouri Budget Project provided information to the State Auditor's office.

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, they expect that their office could absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, their office may be required to request additional appropriations.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated no fiscal impact to their department.

Officials from the **Department of Elementary and Secondary Education** indicated no impact to their department.

Officials from the **Department of Higher Education and Workforce Development** indicated no impact to their department.

Officials from the **Department of Health and Senior Services** indicated they defer to the Office of Administration for response to this initiative petition.

Officials from the **Department of Commerce and Insurance** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no impact. This proposal excludes state employees.

Officials from the **Department of Labor and Industrial Relations** indicated:

Space is required for 10 full time employees (FTE) X 200 square feet per FTE X $20.70 per square foot = $41,400. This FTE will be located in Cole County.

Small business will be required to comply with the law and grant employees one hour of sick leave for every thirty hours worked. The rate of pay for each hour taken in sick leave is determined by a formula that takes into account the individual employee's hourly rate (or its equivalent for salaried employees) plus a calculation of current fringe benefits. This mandate will apply to all employers in the state, regardless of size, who are not currently providing an equal or greater sick leave benefit. Employers with 15 or more employees will be required to allow the use of 56 hours of sick leave per year and those with under 15 employees will need to allow the use of 40 hours per year.

Based on the most recent data available through the Quarterly Census of Employment and Wages (QCEW), there were an average of 200,711 non-construction-related employers in Missouri for 2020, with roughly 169,120 of those employing less than 15 staff (442,275 total employees), and roughly 31,620 employ 15 or more staff (2,105,875 total employees). Assuming the average hourly wage of $24.29/hour for Missouri in 2020 and the more recent Bureau of Labor Statistic for the state that roughly 60% of employers do no provide paid leave to employees, the estimated costs to businesses as a result of this language would be:

- Up to $257,828,634 for employers with less than 15 employees at 40/hours per year.
- Up to $1,718,697,246 for employers with 15 or more employees at 56/hours per year.

This level of mandate of small businesses will be extremely costly for thousands of employers, especially considering that the allowable reasons to use sick leave are broad and include a variety of physical and mental illnesses as well as the ability to use such leave to prepare for designated legal proceedings. The ability to use such leave is allowed for "family members" which is defined broadly to extend to individuals who have no biological or legal relationship to the employee but rather stand in a relationship where the employee is "responsible for finding or arranging health or safety related care..." or has assumed an "in loco parentis" status.

Alleged failure of an employee to provide paid sick leave will subject the employer to both civil suits and criminal proceedings. Each day where an employer is found to be in violation of the law will constitute a separate offense (a C misdemeanor) along with its potentially associated fines and/or jail time.

This proposal would authorize the Department of Labor & Industrial Relations (DOLIR) to investigate allegations of non-compliance, to subpoena records, hold hearings, adjudicate such disputes and to issue fines in the amount of $500 for each day of a violation.

They estimate it would need additional FTE and ongoing costs to set up and administer the program, and a new computer system will have to be developed for this program.

Since the proposal is subject to voter approval, their estimate covers the range of costs from non-approval by voters ($0) or a decision to decline to undertake the statutorily permissible enforcement role ($0) to full implementation of the proposal.

Cost Estimate – DOLIR

They estimate the total cost to develop, administer, and maintain the program to be over $1.2 million per year (excluding benefits paid). In estimating the total costs of the program, they have used the following assumptions.

Program Operations – Sections 290.600-290.642

They estimate that three new or expanded sections will be required to administer the program: Call Center, increased staff for the Division of Labor Standards for investigative and adjudicatory functions, and an expanded administrative staff within their department to include additional attorneys in the Office of General Counsel to help conduct public hearings, administer legal process, advise on the levying of fines and to prepare cases for appeal under Chapter 536.

Call Center – Begins 1/1/23

They assume that a Call Center will be required to handle questions and concerns from claimants and employers. Based on the call volume for other programs, 3.00 Program Specialists (Range 5 - $41,929) will be required to assist callers. The section will also require 1.00 Administrative Support Assistant (Range 3 - $34,019) to provide administrative support and 1.00 Benefit Program Supervisor (Range 6 - $47,071) to manage the unit.

Section #	290.600-290.642 Program Operations - Call Center - Begins 1/1/23					
Personal Services						
Job Class	Range	FTE	Salary	FY 2022	FY 2023	FY 2024

Total				**$240,826**	**$366,546**	**$370,136**

Expense & Equipment (E&E)
They have utilized the standard per FTE costs when calculating operating expenses and equipment for this estimate. Additional mailing costs are detailed below.

Relief on Behalf of Affected Employees – Section 290.609.1 – Begins 1/1/23
The bill authorizes their department to bring enforcement actions against employers who do not abide by the law. This would require additional investigators, adjudicators, and attorneys.

The number of employees who would file complaints cannot be estimated at this time; however, for the sake of this estimate, they assume each case would require an average of 20 hours of attorney time and 20 hours of support staff time. For every 100 cases, 1.00 Attorney ($60,000) and 0.25 of a Paralegal ($40,000) would be required. If 100 cases are brought per year, this would require 2.00 Attorneys and 1.00 Paralegal. If there are more than 240 cases per year, and the staff are unable to absorb the additional workload, additional funding would be pursued via the appropriations process.

Standard E&E costs, along with mobile telephones and travel expenses for the Attorneys are also included in this estimate. The cost estimate assumes these cases would begin when the program becomes operational, January 1, 2023.

Section #	290.609.1 - Relief on Behalf of Affected Employees – Begins 1/1/23					
Personal Services						
Job Class	Range	FTE	Salary	FY 2022	FY 2023	FY 2024

Outreach – Section 290.621.2

Section 290.621.2 provides for their department to develop and implement an outreach program to ensure that employees who may be eligible to receive benefits are aware of the program. The outreach program will also educate Missouri's approximately 166,282 employers. Outreach materials will be available to our partners at Missouri Job Centers, business associations, and economic development agencies and mailed to all Missouri-registered businesses quarterly.

Promotional materials, and a brochure that targets businesses while still containing information for employees might be created. They estimate the total number of brochures printed and mailed annually at 700,000.

Section #	290.621.2 - Outreach - Begins 7/1/22

Administrative Services

Since this legislation would, in effect, create a substantially expanded Division of Labor Standards within their department, it is anticipated their department will require 1.00 Deputy Division Director, and 1.00 Administrative Office Support Assistant to manage and coordinate operations of the division.

Telecom-Mobile Services	340	1.00	$540	$540	$554	$568
Total Expenses				**$14,333**	**$14,692**	**$15,060**

They further assume that additional administrative services staff will be required including legal counsel, financial management, mail services, facility management, procurement, training, and human resources. For the purposes of this estimate they project indirect costs at 5% of program operations costs (personal services and fringe benefits) beginning in fiscal year (FY) 2022. One full year of administrative costs, would be realized in FY 2022 $215,624, FY 2023 $214,874, and FY 2024 $216,957.

Standard Equipment per FTE	BOBC	Units	Cost	FY 2022	FY 2023	FY 2024
Administrative 5% Indirect Costs				$22,613	$37,193	$37,508
Total Administrative Cost				**$215,624**	**$214,874**	**$216,957**

They estimate the total cost to develop, administer, and maintain the program to be over $1.2 million per year (excluding benefits paid).

	FY-2022	FY-2023	FY-2024
Personal Services	$287,594	$471,936	$476,656
Fringe Benefits	$164,663	$271,930	$273,497
Equipment and Expense	$560,428	$501,773	$513,705
Total	$1,012,684	$1,245,639	$1,263,858

Of these costs, $84,570 are one-time equipment costs in FY 2022.

Officials from the **Department of Revenue** indicated no impact.

Officials from the **Department of Public Safety** indicated no impact for their department.

Officials from the **Department of Social Services** indicated this will have no fiscal impact for their department.

Officials from the **Governor's Office** indicated this proposal relating to levels of sick leave available to employees should not fiscally impact their office.

Officials from the **House of Representatives** indicated no fiscal impact.

Officials from the **Department of Conservation** indicated there is no anticipated fiscal impact (cost or savings) to their department associated with this initiative petition.

Officials from the **Department of Transportation** indicated this initiative petition would have no fiscal impact to their department/Missouri Highways and Transportation Commission.

Officials from the **Office of Administration** indicated this proposal relating to levels of sick leave available to employees should not fiscally impact their office.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be $7 million based on the cost of the 2020 Presidential Preference Primary.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Funding for this item is adjusted each year depending upon the election cycle. A new decision item is requested in odd numbered fiscal years and the amount requested is dependent upon the estimated number of ballot measures that will be approved by the General Assembly and the initiative petitions certified for the ballot. In fiscal year (FY) 2014, the General Assembly changed the appropriation so that it was no longer an estimated appropriation.

In FY19, over $5.8 million was spent to publish the full text of the measures for the August and November elections. Their office estimates $75,000 per page for the costs of publications based on the actual cost incurred for the one referendum that was on the August 2018 ballot.

Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated no fiscal impact for their office.

Officials from the **State Treasurer's office** indicated no fiscal impact to their office.

Officials from **Clay County** indicated this petition appears to exempt local governments. However, their county already meets the requirements herein as they provide 3.69 hours of sick leave per pay period with a 1000 hour max. Therefore, there is no fiscal impact on their county.

Officials from **Greene County** indicated there are no estimated costs or savings to report from their county for this initiative petition.

Officials from **St. Louis County** indicated they do not have any information to provide.

Officials from the **City of Kansas City** indicated this initiative petition will have no fiscal impact on their city.

Officials from the **City of St. Louis** indicated the City of St. Louis Personnel Department has determined that the city would be exempted from the amended statutes because the definition of "employer" in chapter 290.600 specifically excludes political subdivisions of the state.

Officials from **Metropolitan Community College** indicated no fiscal impact to their college.

Officials from **University of Missouri** indicated they do not anticipate a significant financial impact.

Officials from the **Missouri Lottery** indicated no fiscal impact to their agency.

Officials from the **State Tax Commission** indicated no fiscal impact on their agency.

Officials from the **Missouri Veterans Commission** indicated this initiative petition will have no fiscal impact upon their agency. The definition of the term "employer" in the proposed section 290.600(6) RSMo explicitly excludes the State and its agencies, so the provisions of the petition would not apply to the Commission should it become law.

Officials from the **Missouri Ethics Commission** indicated they defer to the Office of Administration.

Officials from the **St. Louis County Board of Elections** indicated this would have no fiscal impact on their Board.

Officials from the **Board of Election Commissioners City of St. Louis** indicated this proposed measure would have no fiscal impact on their organization.

Officials from the **Children's Trust Fund** indicated no impact for the Office of Administration/Children's Trust Fund.

Officials from the **State Auditor's office** indicated since this proposed initiative petition does not apply to government entities, this would have no fiscal impact on their office.

Officials from the **Missouri Gaming Commission** indicated the proposal will have no fiscal impact on their agency.

Officials from **University of Central Missouri** indicated they have determined there is potential for future fiscal impact but too speculative to estimate impact.

Section 290.603 and beyond starts the portions that will have a fiscal impact. The component that every employee after 30 hours shall be granted paid sick leave is huge when you factor in student workers, temps, adjuncts, etc. Additionally, there is a provision that states that an employee rehired within 9 months of separation shall be entitled to all unused paid sick time that was on their account when they left. This is going to be a huge administrative burden and require, at minimum, the purchase of a time and attendance system that can be programmed to track all of the variations.

Section 290.627 has provisions for civil litigation, charges, and awards for damages for violation of the provisions of this act, which is where the real ambiguous component to fiscal implication and indeterminate concerns are based.

Amy Blouin, President & CEO, Missouri Budget Project provided the following information:

MISSOURI BUDGET PROJECT

Earned Sick Leave in Missouri: Costs and Savings for Employers

In addition to helping employees by allowing them to address their health needs without losing their jobs or ability to pay their bills, paid sick leave has many benefits for employers, including a healthier workforce, reduced turnover, and increased productivity. The benefits of paid sick leave have been highlighted by the current COVID-19 pandemic, illustrating the importance of workers being able to recover at home without lost wages and without risking spread of contagious disease in the workplace.

Several possible 2022 ballot measures have been filed that would require employers to provide earned sick leave in Missouri. Though the measures vary slightly, each would require employers to provide a minimum of 3-7 days of paid leave to employees, depending on hours worked and size of business. Public employees are exempt in all versions. If implemented, Missouri would join the thirteen states, plus the District of Columbia, (in addition to dozens of municipalities) who ensure employees can earn paid sick leave to care for themselves or family members.[i]

This analysis documents the number of people who may be impacted under Missouri's proposals and how access to paid sick leave reduces employer costs. Similar savings have been documented by research covering a variety of states that have implemented earned sick leave policies.[ii] The table below provides an overview of the estimated costs and savings for employers in Missouri. **We find that expanding earned sick leave to Missouri's nearly 538,000 workers without access would provide a net savings to employers of approximately $17.4 million annually.**

Estimated Costs and Savings to Employers from Earned Sick Leave in Missouri

		Cost/Savings Per Employee		
	Total Annual	**Annual**	**Weekly**	**Hourly**
Costs	$238.05M	$442.61	$8.51	$0.21
Cost for Sick Leave	$230.35M			
Cost for Parental Leave	$7.7M			
Savings	$255.45M	$474.95	$9.13	$0.23
Reduced Turnover	$147.59M			
Reduced Presenteeism	$82.27M			
Reduced Flu Contagion	$25.59M			
Net Savings	$17.4M	$32.34	$0.62	$0.02

Access to Paid Sick Leave in Missouri

Based on an analysis of data from the Missouri Department of Economic Development (MERIC), the U.S. Bureau of Labor Statistics, and the U.S. Census Bureau, we estimate that approximately one in four (or nearly 538,000) Missouri workers would be newly covered by earned sick leave provisions through the ballot measures. These workers are concentrated primarily in service, sales & office, and production, transportation, & material moving related occupations.

Estimated Number of Workers Newly Covered by Paid Sick Leave in Missouri by Occupation

Occupation	Total Employment	Share Exempt	Workers Covered by Initiatives	Share with No Sick Leave	Estimated Workers Newly Covered
Management, Business, Science, and Arts	870,750	27%	636,515	8%	**50,921**
Service	609,500	25%	458,619	41%	**188,034**
Sales and Office	674,870	16%	568,561	23%	**130,769**
Natural Resources, Construction, and Maintenance	224,740	23%	172,541	32%	**55,213**
Production, Transportation, and Material Moving	440,740	9%	403,199	28%	**112,896**
Total	**2,820,600**	**21%**	**2,239,435**	**24%**	**537,833**

Note: Estimated workers covered by paid leave initiatives calculated as the total number of employees by occupation[iii] less the share of that occupation estimated to be exempt (self-employed or local, state, and federal government workers).[iv] Workers newly covered calculated as the total number of workers covered less the share of private workforce that already has access to paid sick leave by occupation.[v]

Cost of Earned Sick Leave to Employers

Employers would be responsible for the wages and associated benefits (such as payroll taxes and insurance) of newly eligible workers who take earned sick leave. Based on average daily wages and benefits in 2019 (see Appendix for detailed calculations), we estimate that Missouri employers would spend approximately $235 million annually on wages & benefits for workers newly eligible for earned sick leave.

Estimated Annual Cost of Earned Sick Leave to Employers

	Wages	Benefits	Total
Cost for Sick Leave	$163,333,388	$67,013,220	**$230,346,608**
Cost for Parental Leave	$5,462,868	$2,241,332	**$7,704,200**
Total	**$168,796,256**	**$69,254,552**	**$238,050,808**

Note: Average cost of earned sick leave calculated as average daily cost of wages & benefits multiplied by the average number of sick days per year[vi] (2.1) taken by workers with access to paid sick leave (or in the case of parental leave an additional 4.9 days per year for a total of 7 days); annual cost per worker is then multiplied by the number of newly covered workers by occupation to determine the annual cost of compensation for workers taking earned sick leave.

Sick Leave. Employees with access to paid leave generally do not use the full amount of paid sick leave to which they are entitled annually. A typical worker with paid sick leave uses 2.1 days of sick leave a year; around 45% of employees with access to paid leave use no sick time at all in a given year.[vii] **Adjusting for average wage by occupation, the cost of wages & benefits for newly eligible employees at 2.1 days per year is $230.3 million dollars annually.**

Parental Leave. We also assume that women who give birth will use the maximum amount of annual earned sick time (or an additional 4.9 days to equal a total of 7 sick days). Each year, 72,127 Missouri women give birth.[viii] Adjusting for employment rate among women in Missouri (56%),[ix] the estimated share of women working who are exempt (21%), and the share already covered by paid sick leave (76%), we estimate that 7,709 Missouri women will use these additional sick days for maternity care annually. **The cost of wages & benefits for newly eligible women who give birth is $7.7 million annually.**

Savings from Earned Sick Leave to Employers

The cost of earned sick leave to employers is offset by significant cost savings derived from benefits such as reduced employee turnover, reduced presenteeism (employees working at reduced capacity while sick or injured), and reduced contagion in the workplace. **We estimate that Missouri employers would save at least $255.4 million annually due to the implementation of earned sick leave policies.**

Estimated Annual Savings from Earned Sick Leave to Employers

	Wages	Benefits	Total
Reduced Turnover	$104,650,035	$42,936,327	**$147,586,363**
Reduced Presenteeism	$58,333,353	$23,933,293	**$82,266,646**
Reduced Flu Contagion	$18,147,602	$7,445,687	**$25,593,288**
Total Savings	**$181,130,990**	**$74,315,307**	**$255,446,297**

Note: Reduced turnover calculated by assuming a reduction in job turnover of 2.5 percentage points for those with new access to paid sick leave[x] at a cost of 20.7% of annual wages.[xi] Reduced presenteeism calculated by assuming workers without access to paid sick leave will work an average of 1.5 days while sick or injured[xii] at 50% effectiveness. Cost of reduced flu contagion calculated based on method presented in Abay, Rosa, & Pana-Cryan Appendix 3 using average estimates.[xiii]

Reduced Turnover. Access to paid sick leave gives workers the ability to address their health needs and those of their families, without having to quit a job or risk being fired. Access to paid sick leave is associated with reduced job turnover, which in turn creates significant savings for businesses.[xiv] **We estimate that Missouri employers will save $147.6 million annually due to reduced turnover in the workplace.**

Reduced Presenteeism. Employers who do not offer paid sick leave have higher rates of "presenteeism" or lost productivity due to employees working while injured or sick.[xv] Offering paid sick leave reduces the likelihood of working at reduced capacity and allows workers to recover from illness or injury more quickly. **We estimate that Missouri employers will save $82.3 million annually due to reduced presenteeism in the workplace.**

Reduced Flu Contagion. Workers without paid sick leave are more likely to come to work sick, increasing the likelihood of spreading the illness to other workers.[xvi] Access to paid sick leave allows workers to stay home when ill, reducing absenteeism related to contagious disease such as influenza. **We estimate that Missouri employers will save $25.6 million annually due to reduced flu contagion in the workplace.**

Appendix

Average Daily Wages & Benefits Used for Cost/Savings Calculations

Occupation	Average Hourly Wage	Average Work Hours/Day	Daily Estimated Average		
			Wage	Benefits	Total Compensation
Management, business, science, and arts	$34.93	7.41	$258.82	$113.11	$371.93
Service	$13.58	7.48	$101.57	$30.99	$132.56
Sales and Office	$18.79	7.20	$135.31	$52.37	$187.68
Natural Resources, Construction, and Maintenance	$24.39	8.11	$197.89	$93.93	$291.83
Production, Transportation, and Material Moving	$18.16	8.23	$149.51	$73.43	$222.94

Note: Average daily wage estimated by occupation using the average hourly wage by occupation[xvii] multiplied by average daily work hours by occupation.[xviii] The annual cost of benefits is calculated using the average cost of benefits as a share of total compensation by occupation.[xix] Total compensation equals the total cost of wages and benefits to employer.

RE: Petition approval request from Lisa D'Souza regarding a proposed statutory amendment to Chapter 290, version 5 (2022-031)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Revised Statutes of Missouri filed by Lisa D'Souza on May 3, 2021.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

Be it enacted by the people of the State of Missouri:

Fifteen new sections to be known as sections 290.600, 290.603, 290.606, 290.609, 290.612, 290.615, 290.618, 290.621, 290.624, 290.627, 290.630, 290.633, 290.636, 290.639, and 290.642 are enacted to read as follows:

290.600. As used in sections 290.600 through 290.642:

(1) "Department", Department of Labor and Industrial Relations.

(2) "Director", Director of the Department of Labor and Industrial Relations.

(3) "Domestic violence", as such term is defined in section 455.010.

(4) "Earned paid sick time", time that is compensated at the same hourly rate and with the same benefits, including health care benefits, as the employee normally earns during hours worked and is provided by an employer to an employee for the purposes described in section 290.606, but in no case shall this hourly amount be less than that provided under section 290.502.

(5) "Employee", any individual employed in this state by an employer, but does not include:

(A) Any individual engaged in the activities of an educational, charitable, religious, or nonprofit organization where the employer-employee relationship does not, in fact, exist or where the services rendered to the organization are on a voluntary basis;

(B) Any individual standing in loco parentis to foster children in their care;

(C) Any individual employed for less than four months in any year in a resident or day camp for children or youth, or any individual employed by an educational conference center operated by an educational, charitable or not-for-profit organization;

(D) Any individual engaged in the activities of an educational organization where employment by the organization is in lieu of the requirement that the individual pay the cost of tuition, housing or other educational fees of the organization or where earnings of the individual employed by the organization are credited toward the payment of the cost of tuition, housing or other educational fees of the organization;

(E) Any individual employed on or about a private residence on an occasional basis for six hours or less on each occasion;

(F) Any individual employed on a casual basis to provide baby-sitting services;

(G) Any individual employed by an employer subject to the provisions of part A of subtitle IV of title 49, United States Code, 49 U.S.C. §§ 10101 et seq.;

(H) Any individual employed on a casual or intermittent basis as a golf caddy, newsboy, or in a similar occupation;

(I) Any individual who is employed in any government position defined in 29 U.S.C. §§ 203(e)(2)(C)(i)-(ii);

(J) Any individual employed by a retail or service business whose annual gross volume sales made or business done is less than five hundred thousand dollars;

(K) Any individual who is an offender, as defined in section 217.010, who is incarcerated in any correctional facility operated by the department of corrections, including offenders who provide labor or services on the grounds of such correctional facility pursuant to section 217.550; or,

(L) Any individual described by the provisions of section 29 U.S.C. 213(a)(8).

(6) "Employer", any person acting directly or indirectly in the interest of an employer in relation to an employee; provided, however, that for the purposes of sections 290.600 through 290.642 "employer" does not include the United States Government, the state, or a political subdivision of the state, including a department, agency, officer, bureau, division, board, commission, or instrumentality of the state, or a city, county, town, village, school district, public higher education institution, or other political subdivision of the state.

(7) "Family member", any of the following individuals:

(A) Regardless of age, a biological, adopted or foster child, stepchild or legal ward, a child of a domestic partner, a child to whom the employee stands in loco parentis, or an individual to whom the employee stood in loco parentis when the individual was a minor;

(B) A biological, foster, stepparent or adoptive parent or legal guardian of an employee or an employee's spouse or domestic partner or an individual who stood in loco parentis when the employee or employee's spouse or domestic partner was a minor child;

(C) An individual to whom the employee is legally married under the laws of any state, or a domestic partner who is registered as such under the laws of any state or political subdivision;

(D) A grandparent, grandchild, or sibling (whether of a biological, foster, adoptive or step relationship) of the employee or the employee's spouse or domestic partner; or

(E) A person for whom the employee is responsible for providing or arranging health or safety-related care, including but not limited to helping that individual obtain diagnostic, preventative, routine, or therapeutic health treatment or ensuring the person is safe following domestic violence, sexual assault, or stalking.

(8) "Health care professional," any individual licensed under federal or any state law to provide medical or emergency services, including but not limited to doctors, nurses, certified nurse midwives, mental health professionals, and emergency room personnel.

(9) "Person", any individual, partnership, association, corporation, business, business trust, legal representative, or any organized group of persons.

(10) "Retaliatory personnel action", denial of any right guaranteed under sections 290.600 through 290.642, or any threat, discharge, suspension, demotion, reduction of hours, or any other adverse action against an employee for the exercise of any right guaranteed herein. "Retaliatory personnel action" shall also include interference with or punishment for in any manner participating in or assisting an investigation, proceeding, or hearing under sections 290.600 through 290.642.

(11) "Same hourly rate", means the following:

(a) For employees paid on the basis of a single hourly rate, the same hourly rate shall be the employee's regular hourly rate.

(b) For employees who are paid multiple hourly rates of pay from the same employer, the same hourly rate shall be either:

(i) the wages the employee would have been paid for the hours absent during use of earned paid sick time if the employee had worked; or,

(ii) the weighted average of all hourly rates of pay during the previous pay period.

Whatever method the employer uses, the employer must use a consistent method for each employee throughout a year.

(c) For employees who are paid a salary, the same hourly rate shall be determined by dividing the wages the employee earns in the previous pay period by the total number of hours worked during the previous pay period. For determining total number of hours worked during the previous pay period, employees who are exempt from overtime requirements under 29 U.S.C. § 213(a)(1), the Fair Labor Standards Act, shall be assumed to work 40 hours in each work week unless their normal work week is less than 40 hours, in which case earned paid sick time shall accrue and the same hourly rate shall be calculated based on the employee's normal work week. Regardless of the basis used, the same hourly rate shall not be less than the effective minimum wage specified in section 290.502.

(d) For employees paid on a piece rate or a fee-for-service basis, the same hourly rate shall be a reasonable calculation of the wages or fees the employee would have received for the piece work, service, or part thereof, if the employee had worked. Regardless of the basis used, the same hourly rate shall not be less than the effective minimum wage specified in section 290.502.

(e) For employees who are paid on a commission basis (whether base wage plus commission or commission only), the same hourly rate shall be the greater of the base wage or the effective minimum wage specified in section 290.502.

(f) For employees who receive and retain compensation in the form of gratuities in addition to wages, the same hourly rate shall be the greater of the employee's regular hourly rate or 100% of the effective minimum wage specified in section 290.502 without deduction of any tips as a credit.

(12) "Sexual assault", as such term is defined in section 455.010.

(13) "Stalking", as such term is defined in section 455.010.

(14) "Year", a regular and consecutive twelve-month period as determined by the employer; except that for the purposes of section 290.615 and section 290.627, "year" shall mean a calendar year.

290.603. 1. Employees of an employer with fifteen or more employees shall accrue a minimum of one hour of earned paid sick time for every thirty hours worked, but such employees shall not be entitled to use more than fifty-six hours of earned paid sick time per year, unless the employer selects a higher limit.

2. Employees of an employer with fewer than fifteen employees shall accrue a minimum of one hour of earned paid sick time for every thirty hours worked, but such employees shall not be entitled to use more than forty hours of earned paid sick time per year, unless the employer selects a higher limit.

3. In determining the number of employees of an employer, all employees performing work in the state for an employer for compensation on a full-time, part-time, or temporary basis shall be counted. In situations in which the number of employees performing work in the state for an employer for compensation per week fluctuates above and below 15 employees per week over the course of a year, an employer is required to provide earned paid sick time pursuant to subsection (1) of this section if it maintained fifteen or more employees in the state on the payroll for some portion of a working day in each of twenty or more different calendar weeks, including any periods of leave, and whether or not the weeks were consecutive, in either the current or the preceding year (irrespective of whether the same individuals were in employment in each working day).

4. All employees shall accrue earned paid sick time as follows:

(A) Earned paid sick time as provided in this section shall begin to accrue at the commencement of employment or on the date this law goes into effect, whichever is later. An employee shall be entitled to use earned paid sick time as it is accrued. An employer may provide all earned paid sick time that an employee is expected to accrue in a year at the beginning of the year.

(B) Employees who are exempt from overtime requirements under 29 U.S.C. § 213(a)(1) of the Federal Fair Labor Standards Act will be assumed to work forty hours in each work week for purposes of earned paid sick time accrual unless their normal work week is less than forty hours, in which case earned paid sick time accrues based upon that normal work week.

(C) Earned paid sick time shall be carried over to the following year, but this law does not require an employer to permit an employee to use more than the applicable number of hours of earned paid sick time per year as set forth in subsection (1) and (2) of this section. Alternatively, in lieu of carryover of unused earned

paid sick time from one year to the next, an employer may pay an employee for unused earned paid sick time at the end of a year and provide the employee with an amount of paid sick time that meets or exceeds the requirements of sections 290.600 through 290.642 that is available for the employee's immediate use at the beginning of the subsequent year.

(D) If an employee is transferred to a separate division, entity, or location, but remains employed by the same employer, the employee is entitled to all earned paid sick time accrued at the prior division, entity, or location and is entitled to use all earned paid sick time as provided in this section. When there is a separation from employment and the employee is rehired within nine months of separation by the same employer, previously accrued earned paid sick time that had not been used shall be reinstated. Further, the employee shall be entitled to use accrued earned paid sick time and accrue additional earned paid sick time at the re-commencement of employment.

(E) When a different employer succeeds or takes the place of an existing employer, all employees of the original employer who remain employed by the successor employer are entitled to all earned paid sick time they accrued when employed by the original employer, and are entitled to use earned paid sick time previously accrued.

(F) At its discretion, an employer may loan earned paid sick time to an employee in advance of accrual by such employee.

5. Any employer with a paid leave policy, such as a paid time off policy, or a collective bargaining agreement that makes available an amount of paid leave sufficient to meet the accrual requirements of this section that may be used for the same purposes and under the same conditions as earned paid sick time under sections 290.600 through 290.642 is not required to provide additional paid sick time under this section.

6. Except as specifically provided in this section, nothing in this section shall be construed as requiring financial or other reimbursement to an employee from an employer upon the employee's termination, resignation, retirement, or other separation from employment for accrued earned paid sick time that has not been used.

290.606. 1. Earned paid sick time shall be provided to an employee by an employer for:

(A) An employee's mental or physical illness, injury, or health condition; an employee's need for medical diagnosis, care, or treatment of a mental or physical illness, injury, or health condition; an employee's need for preventative medical care;

(B) Care of a family member with a mental or physical illness, injury, or health condition; care of a family member who needs medical diagnosis, care, or treatment of a mental or physical illness, injury, or health condition; care of a family member who needs preventative medical care;

(C) Closure of the employee's place of business by order of a public official due to a public health emergency, or an employee's need to care for a child whose school or place of care has been closed by order of a public official due to a public health emergency, or care for oneself or a family member when it has been determined by the health authorities having jurisdiction or by a health care provider that the employee's or family member's presence in the community may jeopardize the health of others because of his or her exposure to a communicable disease, whether or not the employee or family member has actually contracted the communicable disease; or

(D) Absence necessary due to domestic violence, sexual assault, or stalking, provided the leave is to allow the employee to obtain for the employee or the employee's family member:

(i) Medical attention needed to recover from physical or psychological injury or disability caused by domestic violence, sexual assault, or stalking;

(ii) Services from a victim services organization;

(iii) Psychological or other counseling;

(iv) Relocation or taking steps to secure an existing home due to the domestic violence, sexual assault, or stalking; or

(v) Legal services, including preparing for or participating in any civil or criminal legal proceeding related to or resulting from the domestic violence, sexual assault, or stalking.

2. Earned paid sick time shall be provided upon the request of an employee. Such request may be made orally, in writing, by electronic means, or by any other means acceptable to the employer. When possible, the request shall include the expected duration of the absence.

3. When the use of earned paid sick time is foreseeable, the employee shall make a good faith effort to provide notice of the need for such time to the employer in advance of the use of the earned paid sick time and shall make a reasonable effort to schedule the use of earned paid sick time in a manner that does not unduly disrupt the operations of the employer. Where such need is not foreseeable, an employer may require an employee to provide notice of the need for the use of earned paid sick time as soon as practicable.

4. An employer that requires notice of the need to use earned paid sick time where the need is not foreseeable shall provide a written policy that contains procedures for the employee to provide notice. An employer that has not provided to the employee a copy of its written policy for providing such notice shall not deny earned paid sick time to the employee based on non-compliance with such a policy.

5. An employer may not require, as a condition of an employee's taking earned paid sick time, that the employee search for or find a replacement worker to cover the hours during which the employee is using earned paid sick time.

6. Earned paid sick time may be used in the smaller of hourly increments or the smallest increment that the employer's payroll system uses to account for absences or use of other time.

7. For earned paid sick time of three or more consecutive work days, an employer may require reasonable documentation that the earned paid sick time has been used for a purpose covered by subsection (1) of this section.

(A) Documentation signed by a heath care professional indicating that earned paid sick time is necessary shall be considered reasonable documentation for purposes of this section.

(B) In cases of domestic violence, sexual assault, or stalking, if the employer requests, one of the following types of documentation selected by the employee shall be considered reasonable documentation: (i) a police report indicating that the employee or the employee's family member was a victim of domestic violence, sexual assault, or stalking, (ii) a written statement from an employee or agent of a victim service provider affirming that the employee or employee's family member is or was receiving services from a victim service provider; (iii) documentation signed by a health care professional from whom the employee or employee's family member sought assistance relating to domestic violence, sexual assault, or stalking or the effects thereof; (vi) a court document indicating that an employee or employee's family member is or was involved in a legal action related to domestic violence, sexual assault, or stalking; or (v) a written statement from the employee affirming that the employee or employee's family member is taking or took earned paid sick time for a qualifying purpose of subsection (1) of this section.

(C) An employer may not require that the documentation explain the nature of the illness, details of the underlying health needs, or the details of the domestic violence, sexual assault, or stalking, unless otherwise required by law.

290.609. 1. It shall be unlawful for an employer or any other person to interfere with, restrain, or deny the exercise of, or the attempt to exercise, any right protected under sections 290.600 through 290.642.

2. An employer shall not take retaliatory personnel action or discriminate against an employee or former employee because the individual has exercised rights protected under sections 290.600 through 290.642. Such rights include, but are not limited to, the right to request or use earned paid sick time pursuant to sections 290.600 through 290.642; the right to file a complaint or inform any person about any employer's alleged violation of sections 290.600 through 290.642; the right to participate in any investigation, hearing, or proceeding or cooperate with or assist the Department in any investigations of alleged violations of sections 290.600 through 290.642; and the right to inform any person of his or her potential rights under sections 290.600 through 290.642.

3. It shall be unlawful for an employer's absence control policy to count earned paid sick time taken under sections 290.600 through 290.642 as an absence that may lead to or result in discipline, discharge, demotion, suspension, or any other adverse action.

4. Protections of this section shall apply to any individual who mistakenly but in good faith alleges violations of sections 290.600 through 290.642.

290.612. 1. Employers shall give employees a written notice about earned paid sick time within fourteen calendar days of the commencement of employment or within ninety days of the effective date of this law, whichever is later, which must include the following information: (1) employees accrue and are entitled to earned paid sick time at the rate one hour of earned paid sick time for every 30 hours of work, and may use earned paid sick time, subject to the terms under sections 290.600 through 290.642 of Missouri law, (2) it is prohibited for an employer to take retaliatory personnel action against employees who request or use earned paid sick time as allowed by law, (3) each employee has the right to bring a civil action if earned paid sick time as required by sections 290.600 through 290.642 is denied by the employer or the employee is subjected to retaliatory personnel action by the employer for exercising the employee's rights under sections 290.600 through 290.642; and, (4) the contact information for the Department. Notice shall be provided by the Employer to the employee on a single piece of paper, at least 8.5 x 11, in no less than 14-point font.

2. Employers shall display a poster that contains the information required in subsection (1) of this section in a conspicuous and accessible place in each establishment where such employees are employed, provided that such poster has been provided by the Department.

3. The Department may create and make available to employers, model notices and posters that contain the information required under subsection (1) of this section for employers' use in complying with subsections (1) and (2) of this section. Nothing in sections 290.600 through 290.642 shall be interpreted or applied, either expressly or through practical necessity, to require the appropriation of funds to cover the costs associated with the Department creating or making available notices or posters.

290.615. 1. Employers shall retain records documenting hours worked by employees and earned paid sick time taken by employees, for a period of not less than three years, and shall allow the Department access to such records, with appropriate notice and at a mutually agreeable time, to monitor compliance with the requirements of sections 290.600 through 290.642.

2. To the extent permitted by law, the Director may inspect such records, and the records shall be open for inspection by the Director by appointment. Where the records required under this section are kept outside the state, the records shall be made available to the Director upon demand. Every such employer shall furnish to the Director on demand a sworn statement of time records and information upon forms prescribed or approved by the Director. All the records and information obtained by the Department are confidential and shall be disclosed only on order of a court of competent jurisdiction.

3. Nothing in sections 290.600 through 290.642 shall be interpreted or applied, either expressly or through practical necessity, to require the appropriation of funds to cover the costs associated with the Department or Director accessing or inspecting records or creating forms relating to the inspection of records.

290.618. 1. The Department may, in accordance with chapter 536, promulgate rules for the implementation, enforcement, and administration of sections 290.600 through 290.642. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2022, shall be invalid and void.

2. Nothing in sections 290.600 through 290.642 shall be interpreted or applied, either expressly or through practical necessity, to require the appropriation of funds to cover the costs associated with the promulgation or adoption of rules.

290.621. 1. The Department may investigate and ascertain compliance with sections 290.600 through 290.642, establish and implement a system to receive complaints regarding non-compliance with sections 290.600 through 290.642 and to investigate and attempt to resolve complaints between the complainant and the subject of the complaint, and establish additional means of enforcement, including requiring by subpoena the testimony of witnesses and production of books, records, and other evidence relative to any matter under investigation or hearing, issuing notices of violation, holding hearings on notices of violation, making determinations, recovering unpaid earned sick time, and imposing fines for willful violations of up to $500 per day of each day of a continuing violation. A final decision of the department is subject to review in accordance with the provisions of chapter 536.

2. The Department may develop and implement an outreach program to inform employees, parents, and persons who are under the care of a health care provider about the availability of earned paid sick time under sections 290.600 through 290.642. This program may include the distribution of notices and other written materials to child care and elder care providers, domestic violence shelters, schools, hospitals, community health centers and other health care providers in Missouri.

3. A municipality, county, city, town, or village may adopt ordinances, rules, and regulations to investigate and ascertain compliance with sections 290.600 through 290.642, establish and implement a system to receive complaints regarding non-compliance with sections 290.600 through 290.642 and to investigate and attempt to resolve complaints between the complainant and the subject of the complaint, and establish additional means of enforcement, with respect to employers within, or employees performing work while physically present in, the geographic boundaries of the municipality, county, city, town, or village. Any such ordinance, rule, or regulation shall be consistent with this law and any Department rules or regulations and system for compliance and enforcement. The municipality, county, city, town, or village may exercise such powers as allowed by any applicable charter or ordinance, including requiring by subpoena the testimony of witnesses and production of books, records, and other evidence relative to any matter under investigation or hearing, issuing notices of violation, holding hearings on notices of violation, making determinations, recovering unpaid earned sick time, and imposing fines for willful violations of up to the maximum allowed for an ordinance violation. Before investigating or seeking to resolve any complaint between the complainant and the subject of the complaint, the municipality, county, city, town, or village shall give notice to the Department with a copy of the complaint and, within 14 days of such notice, the Department may intervene as of right and participate in the matter to ensure that the complaint is being investigated and resolved in the interest of effective enforcement of sections 290.600 through 290.642 or, alternatively, the Department may institute its own proceedings in which case the municipality, county, city, town, or village shall refrain from acting on the matter so long as the complaint is being investigated and resolved in the interest of effective enforcement of sections 290.600 through 290.642. If the Department does not, within 14 days, intervene or instigate its own proceedings, the municipality, county, city, town, or village may, without the Department, investigate and attempt to resolve the complaint and take other additional means as permitted to enforce sections 290.600 through 290.642 against the subject of the complaint. In no event shall an employer be subject to compliance proceedings arising out of a single set of facts after having already been subjected to a final compliance order by another government entity.

4. Nothing in sections 290.600 through 290.642 shall be interpreted or applied, either expressly or through practical necessity, to require the appropriation of funds to cover the costs associated with the Department, a municipality, county, city, town, or village conducting investigations and ascertaining compliance with sections 290.600 through 290.642, establishing and implementing a system to receive, investigate, or resolve complaints, establishing additional means of enforcement, or conducting outreach and education, including the creation of notices and other written materials, concerning sections 290.600 through 290.642.

290.624. 1. Any employer who willfully violates or fails to comply with any of the provisions and requirements of sections 290.600 through 290.642 shall be guilty of a class C misdemeanor; provided, however, that an employer who willfully violates the notice and posting requirements of section 290.612 shall be guilty of an infraction.

2. For purposes of this section, each day of violation or failure to comply and each employee affected shall constitute a separate offense.

290.627. 1. Any individual who claims to have been aggrieved by a failure of an employer to comply with any portion of sections 290.600 through 290.642, including but not limited to the failure to provide earned paid sick time or to allow employees to use such time consistent with sections 290.600 through 290.642, or who claims to have suffered a retaliatory personnel action, shall have a right of action and may commence a civil action in the appropriate court of jurisdiction within three years of the accrual of the cause of action, to obtain appropriate relief with respect to such unlawful violation. Such action may be brought without first filing an administrative complaint.

2. In a civil action under this section, if the court finds a violation has occurred, the court may grant as relief, as it deems appropriate and to the extent permitted by law, any permanent or temporary injunction, the full amount of any unpaid earned sick time plus any actual damages suffered as the result of the employer's violation of sections 290.600 through 290.642, an additional amount equal to twice any unpaid earned sick time as liquidated damages, costs, and reasonable attorney's fees as may be allowed by the court, and other legal or equitable relief as may be appropriate to remedy the violation, including, without limitation, reinstatement to employment and back pay.

290.630. 1. Except as otherwise required by law, an employer may not require disclosure of details relating to an employee's or an employee's family member's health information, domestic violence, sexual assault, or stalking as a condition of providing earned paid sick time under sections 290.600 through 290.642.

2. Unless as otherwise required by law, any health or safety information possessed by an employer regarding an employee or employee's family member must:

(A) be maintained on a separate form and in a separate file from other personnel information;

(B) be treated as confidential medical records; and

(C) not be disclosed except to the affected employee or with the express written permission of the affected employee.

290.633. 1. Nothing in sections 290.600 through 290.642 shall be deemed to interfere, impede, or otherwise diminish the right of employees to bargain collectively through representatives of their own choosing in order to establish earned paid sick time or other conditions of work in excess of the applicable minimum standards under the provisions of sections 290.600 through 290.642.

2. Any waiver by an employee of rights under sections 290.600 through 290.642 shall be deemed contrary to public policy and shall be void.

290.636. 1. Nothing in sections 290.600 through 290.642 shall be construed to discourage or prohibit an employer from the adoption or retention of an earned paid sick time policy more generous than the one required herein.

2. Nothing in sections 290.600 through 290.642 shall be construed as diminishing the obligation of an employer to comply with any contract, collective bargaining agreement, employment benefit plan, or other agreement providing more generous paid sick time to an employee than required herein. Nothing in sections 290.600 through 290.642 shall be construed as diminishing the rights of public employees regarding paid sick time or use of paid sick time as provided in the laws of Missouri and ordinances of political subdivisions pertaining to public employees.

290.639. 1. Sections 290.600 through 290.642 provide minimum requirements pertaining to earned paid sick time and shall not be construed to preempt, limit, or otherwise affect the applicability of any other law, regulation, requirement, policy, or standard that provides for greater accrual or use by employees of earned paid sick time or that extends other protections to employees.

2. Nothing in sections 290.600 through 290.642 shall be interpreted or applied to create a power or obligation contrary to any federal law, rule, or regulation.

290.642. Except as detailed in section 290.618, all of the provisions of sections 290.600 through 290.642 are severable, and if any provision, including any section, subsection, subdivision, paragraph, sentence, or clause, or the application thereof to any person or circumstance, is found by a court of competent jurisdiction to be invalid, unconstitutional, or unconstitutionally enacted, such decision shall not affect other provisions or applications of sections 290.600 through 290.642 that can be given effect without the invalid, unconstitutional, or unconstitutionally enacted provision or application, and to this end the provisions of sections 290.600 through 290.642 are declared severable.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (22-031)

Subject

Initiative petition from Lisa D'Souza regarding a proposed amendment to Chapter 290 of the Revised Statutes of Missouri. (Received May 3, 2021)

Date

May 21, 2021

Description

This proposal would amend Chapter 290 of the Revised Statutes of Missouri.

The amendment is to be voted on in November 2022.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education and Workforce Development,** the **Department of Health and Senior Services,** the **Department of Commerce and Insurance,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College,** the **Missouri Lottery,** the **State Tax Commission,** the **Missouri Veterans Commission,** the **Missouri Ethics Commission,** the **Missouri Office of Prosecution Services,** the **Kansas City Board of Police Commissioners,** the **Metropolitan Police Department - City of St. Louis,** the **St. Louis County Board of Elections,** the **Board of Election Commissioners City of St. Louis,** the **Kansas City**

Board of Election Commissioners, the **Platte County Board of Elections,** the **Jackson County Election Board,** the **Clay County Board of Election Commissioners,** the **Lieutenant Governor's office,** the **Children's Trust Fund of Missouri,** the **Missouri Joint Municipal Electric Utility Commission,** the **State Auditor's office,** the **Metropolitan Zoological Park and Museum District,** the **Missouri Municipal League,** the **Missouri Bar Association,** the **Missouri Gaming Commission,** the **Municipal League of Metro St. Louis, University of Central Missouri, Harris-Stowe State University, Lincoln University, Missouri State University, Missouri Southern State University, Missouri Western State University, Northwest Missouri State University, Southeast Missouri State University,** and **Truman State University**.

Amy Blouin, President & CEO, Missouri Budget Project provided information to the State Auditor's office.

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, they expect that their office could absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, their office may be required to request additional appropriations.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated no fiscal impact to their department.

Officials from the **Department of Elementary and Secondary Education** indicated no impact to their department.

Officials from the **Department of Higher Education and Workforce Development** indicated no impact to their department.

Officials from the **Department of Health and Senior Services** indicated they defer to the Office of Administration for response to this initiative petition.

Officials from the **Department of Commerce and Insurance** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no impact. This proposal excludes state employees.

Officials from the **Department of Labor and Industrial Relations** indicated:

Space is required for 10 full time employees (FTE) X 200 square feet per FTE X $20.70 per square foot = $41,400. This FTE will be located in Cole County.

Small business will be required to comply with the law and grant employees one hour of sick leave for every thirty hours worked. The rate of pay for each hour taken in sick leave is determined by a formula that takes into account the individual employee's hourly rate (or its equivalent for salaried employees) plus a calculation of current fringe benefits. This mandate will apply to all employers in the state, regardless of size, who are not currently providing an equal or greater sick leave benefit. Employers with 15 or more employees will be required to allow the use of 56 hours of sick leave per year and those with under 15 employees will need to allow the use of 40 hours per year.

Based on the most recent data available through the Quarterly Census of Employment and Wages (QCEW), there were an average of 216,229 employers in Missouri for 2020, with 182,616 of those employing less than 15 staff (482,325 total employees), and 33,613 employ 15 or more staff (2,176,397 total employees). Assuming the average hourly wage of $24.29/hour for Missouri in 2020 and the more recent Bureau of Labor Statistic for the state that roughly 60% of employers do no provide paid leave to employees, the estimated costs to businesses as a result of this language would be:

- Up to $281,176,182 for employers with less than 15 employees at 40/hours per year.
- Up to $1,776,253,353 for employers with 15 or more employees at 56/hours per year.

This level of mandate of small businesses will be extremely costly for thousands of employers, especially considering that the allowable reasons to use sick leave are broad and include a variety of physical and mental illnesses as well as the ability to use such leave to prepare for designated legal proceedings. The ability to use such leave is allowed for "family members" which is defined broadly to extend to individuals who have no biological or legal relationship to the employee but rather stand in a relationship where the employee is "responsible for finding or arranging health or safety related care..." or has assumed an "in loco parentis" status.

Alleged failure of an employee to provide paid sick leave will subject the employer to both civil suits and criminal proceedings. Each day where an employer is found to be in violation of the law will constitute a separate offense (a C misdemeanor) along with its potentially associated fines and/or jail time.

This proposal would authorize the Department of Labor & Industrial Relations (DOLIR) to investigate allegations of non-compliance, to subpoena records, hold hearings, adjudicate such disputes and to issue fines in the amount of $500 for each day of a violation.

They estimate it would need additional FTE and ongoing costs to set up and administer the program, and a new computer system will have to be developed for this program.

Since the proposal is subject to voter approval, their estimate covers the range of costs from non-approval by voters ($0) or a decision to decline to undertake the statutorily permissible enforcement role ($0) to full implementation of the proposal.

Cost Estimate – DOLIR

They estimate the total cost to develop, administer, and maintain the program to be over $1.2 million per year (excluding benefits paid). In estimating the total costs of the program, they have used the following assumptions.

Program Operations – Sections 290.600-290.642

They estimate that three new or expanded sections will be required to administer the program: Call Center, increased staff for the Division of Labor Standards for investigative and adjudicatory functions, and an expanded administrative staff within their department to include additional attorneys in the Office of General Counsel to help conduct public hearings, administer legal process, advise on the levying of fines and to prepare cases for appeal under Chapter 536.

Call Center – Begins 1/1/23

They assume that a Call Center will be required to handle questions and concerns from claimants and employers. Based on the call volume for other programs, 3.00 Program Specialists (Range 5 - $41,929) will be required to assist callers. The section will also require 1.00 Administrative Support Assistant (Range 3 - $34,019) to provide administrative support and 1.00 Benefit Program Supervisor (Range 6 - $47,071) to manage the unit.

Section #	290.600-290.642 Program Operations - Call Center - Begins 1/1/23

Expense & Equipment (E&E)
They have utilized the standard per FTE costs when calculating operating expenses and equipment for this estimate. Additional mailing costs are detailed below.

Relief on Behalf of Affected Employees – Section 290.609.1 – Begins 1/1/23
The bill authorizes their department to bring enforcement actions against employers who do not abide by the law. This would require additional investigators, adjudicators, and attorneys.

The number of employees who would file complaints cannot be estimated at this time; however, for the sake of this estimate, they assume each case would require an average of 20 hours of attorney time and 20 hours of support staff time. For every 100 cases, 1.00 Attorney ($60,000) and 0.25 of a Paralegal ($40,000) would be required. If 100 cases are brought per year, this would require 2.00 Attorneys and 1.00 Paralegal. If there are more than 240 cases per year, and the staff are unable to absorb the additional workload, additional funding would be pursued via the appropriations process.

Standard E&E costs, along with mobile telephones and travel expenses for the Attorneys are also included in this estimate. The cost estimate assumes these cases would begin when the program becomes operational, January 1, 2023.

Section #	290.609.1 - Relief on Behalf of Affected Employees – Begins 1/1/23

Outreach – Section 290.621.2

Section 290.621.2 provides for their department to develop and implement an outreach program to ensure that employees who may be eligible to receive benefits are aware of the program. The outreach program will also educate Missouri's approximately 166,282 employers. Outreach materials will be available to our partners at Missouri Job Centers, business associations, and economic development agencies and mailed to all Missouri-registered businesses quarterly.

Promotional materials, and a brochure that targets businesses while still containing information for employees might be created. They estimate the total number of brochures printed and mailed annually at 700,000.

Section #	290.621.2 - Outreach - Begins 7/1/22					
Personal Services						
Job Class	Range	FTE	Salary	FY 2022	FY 2023	FY 2024

Administrative Services

Since this legislation would, in effect, create a substantially expanded Division of Labor Standards within their department, it is anticipated their department will require 1.00 Deputy Division Director, and 1.00 Administrative Office Support Assistant to manage and coordinate operations of the division.

Section #	Administrative Services - begins 7/1/22					
Personal Services						
Job Class	Range	FTE	Salary	FY 2022	FY 2023	FY 2024
Deputy Director		1.00	$70,000	$70,000	$70,700	$71,407
Admin Support Asst	3	1.00	$34,019	$34,019	$34,359	$34,703
Total PS		**2.00**		**$104,019**	**$105,059**	**$106,110**
Fringe Benefits				**$57,585**	**$57,930**	**$58,279**
Equipment - One-Time Costs						
	BOBC	Units	Cost	FY 2022	FY 2023	FY 2024
Telecom Equipment	340	2.00	$200	$400		
Computer Equipment	480	2.00	$1,607	$3,214		
Office Equipment	580	2.00	$6,530	$13,060		
Additional Equipment (Provide Explanation)						
Telecom-Mobile Device(s)	340	1.00	$400	$400		
Total Equipment				**$17,074**	**$0**	**$0**
Expenses - Ongoing Costs						
Standard Expenses per FTE	BOBC	Units	Cost	FY 2022	FY 2023	FY 2024
Fuel & Utilities	180	2.00	$460	$920	$943	$967
Supplies	190	2.00	$372	$744	$763	$782
Housekeeping & Janitorial	420	2.00	$345	$690	$707	$725
Telecom Serv & Supp	340	2.00	$794	$1,588	$1,628	$1,669
Professional Services (Network)	400	2.00	$399	$798	$818	$838
Building Leases	680	2.00	$4,140	$8,280	$8,487	$8,699
Additional Expenses (Provide Explanation)						
Travel, In-State	140	1.00	$773	$773	$792	$812
Telecom-Mobile Services	340	1.00	$540	$540	$554	$568
Total Expenses				**$14,333**	**$14,692**	**$15,060**

They further assume that additional administrative services staff will be required including legal counsel, financial management, mail services, facility management, procurement, training, and human resources. For the purposes of this estimate they project indirect costs at 5% of program operations costs (personal services and fringe benefits) beginning in fiscal year (FY) 2022. One full year of administrative costs, would be realized in FY 2022 $215,624, FY 2023 $214,874, and FY 2024 $216,957.

Standard Equipment per FTE	BOBC	Units	Cost	FY 2022	FY 2023	FY 2024
Administrative 5% Indirect Costs				$22,613	$37,193	$37,508
Total Administrative Cost				**$215,624**	**$214,874**	**$216,957**

They estimate the total cost to develop, administer, and maintain the program to be over $1.2 million per year (excluding benefits paid).

	FY-2022	FY-2023	FY-2024
Personal Services	$287,594	$471,936	$476,656
Fringe Benefits	$164,663	$271,930	$273,497
Equipment and Expense	$560,428	$501,773	$513,705
Total	$1,012,684	$1,245,639	$1,263,858

Of these costs, $84,570 are one-time equipment costs in FY 2022.

Officials from the **Department of Revenue** indicated no impact.

Officials from the **Department of Public Safety** indicated no impact for their department.

Officials from the **Department of Social Services** indicated this will have no fiscal impact for their department.

Officials from the **Governor's Office** indicated this proposal relating to levels of sick leave available to employees should not fiscally impact their office.

Officials from the **House of Representatives** indicated no fiscal impact.

Officials from the **Department of Conservation** indicated there is no anticipated fiscal impact (cost or savings) to their department associated with this initiative petition.

Officials from the **Department of Transportation** indicated this initiative petition would have no fiscal impact to their department/Missouri Highways and Transportation Commission.

Officials from the **Office of Administration** indicated this proposal relating to levels of sick leave available to employees should not fiscally impact their office.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be $7 million based on the cost of the 2020 Presidential Preference Primary.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Funding for this item is adjusted each year depending upon the election cycle. A new decision item is requested in odd numbered fiscal years and the amount requested is dependent upon the estimated number of ballot measures that will be approved by the General Assembly and the initiative petitions certified for the ballot. In fiscal year (FY) 2014, the General Assembly changed the appropriation so that it was no longer an estimated appropriation.

In FY19, over $5.8 million was spent to publish the full text of the measures for the August and November elections. Their office estimates $75,000 per page for the costs of publications based on the actual cost incurred for the one referendum that was on the August 2018 ballot.

Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated no fiscal impact for their office.

Officials from the **State Treasurer's office** indicated no fiscal impact to their office.

Officials from **Clay County** indicated this petition appears to exempt local governments. However, their county already meets the requirements herein as they provide 3.69 hours of sick leave per pay period with a 1000 hour max. Therefore, there is no fiscal impact on their county. The ordinance and enforcement section for counties appears voluntary.

Officials from **Greene County** indicated there are no estimated costs or savings to report from their county for this initiative petition.

Officials from **St. Louis County** indicated they do not have any information to provide.

Officials from the **City of Kansas City** indicated this initiative petition will have no fiscal impact on their city.

Officials from the **City of St. Louis** indicated the City of St. Louis Personnel Department has determined that the city would be exempted from the amended statutes because the definition of "employer" in chapter 290.600 specifically excludes political subdivisions of the state.

Officials from **Metropolitan Community College** indicated no fiscal impact to their college.

Officials from **University of Missouri** indicated they do not anticipate a significant financial impact.

Officials from the **Missouri Lottery** indicated no fiscal impact to their agency.

Officials from the **State Tax Commission** indicated no fiscal impact on their agency.

Officials from the **Missouri Veterans Commission** indicated this initiative petition will have no fiscal impact upon their agency. The definition of the term "employer" in the proposed section 290.600(6) RSMo explicitly excludes the State and its agencies, so the provisions of the petition would not apply to the Commission should it become law.

Officials from the **Missouri Ethics Commission** indicated they defer to the Office of Administration

Officials from the **St. Louis County Board of Elections** indicated this would have no fiscal impact on their Board.

Officials from the **Board of Election Commissioners City of St. Louis** indicated this proposed measure would have no fiscal impact on their organization.

Officials from the **Children's Trust Fund** indicated no impact for the Office of Administration/Children's Trust Fund.

Officials from the **State Auditor's office** indicated since this proposed initiative petition does not apply to government entities, this would have no fiscal impact on their office.

Officials from the **Missouri Gaming Commission** indicated the proposal will have no fiscal impact on their agency.

Officials from **University of Central Missouri** indicated they have determined there is potential for future fiscal impact but too speculative to estimate impact.

Section 290.603 and beyond starts the portions that will have a fiscal impact. The component that every employee after 30 hours shall be granted paid sick leave is huge when you factor in student workers, temps, adjuncts, etc. Additionally, there is a provision that states that an employee rehired within 9 months of separation shall be entitled to all unused paid sick time that was on their account when they left. This is going to be a huge administrative burden and require, at minimum, the purchase of a time and attendance system that can be programmed to track all of the variations.

Section 290.627 has provisions for civil litigation, charges, and awards for damages for violation of the provisions of this act, which is where the real ambiguous component to fiscal implication and indeterminate concerns are based.

Amy Blouin, President & CEO, Missouri Budget Project provided the following information:

MBP
MISSOURI BUDGET PROJECT

Earned Sick Leave in Missouri: Costs and Savings for Employers

In addition to helping employees by allowing them to address their health needs without losing their jobs or ability to pay their bills, paid sick leave has many benefits for employers, including a healthier workforce, reduced turnover, and increased productivity. The benefits of paid sick leave have been highlighted by the current COVID-19 pandemic, illustrating the importance of workers being able to recover at home without lost wages and without risking spread of contagious disease in the workplace.

Several possible 2022 ballot measures have been filed that would require employers to provide earned sick leave in Missouri. Though the measures vary slightly, each would require employers to provide a minimum of 3-7 days of paid leave to employees, depending on hours worked and size of business. Public employees are exempt in all versions. If implemented, Missouri would join the thirteen states, plus the District of Columbia, (in addition to dozens of municipalities) who ensure employees can earn paid sick leave to care for themselves or family members.[i]

This analysis documents the number of people who may be impacted under Missouri's proposals and how access to paid sick leave reduces employer costs. Similar savings have been documented by research covering a variety of states that have implemented earned sick leave policies.[ii] The table below provides an overview of the estimated costs and savings for employers in Missouri. **We find that expanding earned sick leave to Missouri's nearly 538,000 workers without access would provide a net savings to employers of approximately $17.4 million annually.**

Estimated Costs and Savings to Employers from Earned Sick Leave in Missouri

		Cost/Savings Per Employee		
	Total Annual	**Annual**	**Weekly**	**Hourly**
Costs	$238.05M	$442.61	$8.51	$0.21
Cost for Sick Leave	$230.35M			
Cost for Parental Leave	$7.7M			
Savings	$255.45M	$474.95	$9.13	$0.23
Reduced Turnover	$147.59M			
Reduced Presenteeism	$82.27M			
Reduced Flu Contagion	$25.59M			
Net Savings	$17.4M	$32.34	$0.62	$0.02

Access to Paid Sick Leave in Missouri

Based on an analysis of data from the Missouri Department of Economic Development (MERIC), the U.S. Bureau of Labor Statistics, and the U.S. Census Bureau, we estimate that approximately one in four (or nearly 538,000) Missouri workers would be newly covered by earned sick leave provisions through the ballot measures. These workers are concentrated primarily in service, sales & office, and production, transportation, & material moving related occupations.

Estimated Number of Workers Newly Covered by Paid Sick Leave in Missouri by Occupation

Occupation	Total Employment	Share Exempt	Workers Covered by Initiatives	Share with No Sick Leave	Estimated Workers Newly Covered
Management, Business, Science, and Arts	870,750	27%	636,515	8%	**50,921**
Service	609,500	25%	458,619	41%	**188,034**
Sales and Office	674,870	16%	568,561	23%	**130,769**
Natural Resources, Construction, and Maintenance	224,740	23%	172,541	32%	**55,213**
Production, Transportation, and Material Moving	440,740	9%	403,199	28%	**112,896**
Total	**2,820,600**	**21%**	**2,239,435**	**24%**	**537,833**

Note: Estimated workers covered by paid leave initiatives calculated as the total number of employees by occupation[iii] less the share of that occupation estimated to be exempt (self-employed or local, state, and federal government workers).[iv] Workers newly covered calculated as the total number of workers covered less the share of private workforce that already has access to paid sick leave by occupation.[v]

Cost of Earned Sick Leave to Employers

Employers would be responsible for the wages and associated benefits (such as payroll taxes and insurance) of newly eligible workers who take earned sick leave. Based on average daily wages and benefits in 2019 (see Appendix for detailed calculations), we estimate that Missouri employers would spend approximately $235 million annually on wages & benefits for workers newly eligible for earned sick leave.

Estimated Annual Cost of Earned Sick Leave to Employers

	Wages	Benefits	Total
Cost for Sick Leave	$163,333,388	$67,013,220	**$230,346,608**
Cost for Parental Leave	$5,462,868	$2,241,332	**$7,704,200**
Total	**$168,796,256**	**$69,254,552**	**$238,050,808**

Note: Average cost of earned sick leave calculated as average daily cost of wages & benefits multiplied by the average number of sick days per year[vi] (2.1) taken by workers with access to paid sick leave (or in the case of parental leave an additional 4.9 days per year for a total of 7 days); annual cost per worker is then multiplied by the number of newly covered workers by occupation to determine the annual cost of compensation for workers taking earned sick leave.

Sick Leave. Employees with access to paid leave generally do not use the full amount of paid sick leave to which they are entitled annually. A typical worker with paid sick leave uses 2.1 days of sick leave a year; around 45% of employees with access to paid leave use no sick time at all in a given year.[vii] **Adjusting for average wage by occupation, the cost of wages & benefits for newly eligible employees at 2.1 days per year is $230.3 million dollars annually.**

Parental Leave. We also assume that women who give birth will use the maximum amount of annual earned sick time (or an additional 4.9 days to equal a total of 7 sick days). Each year, 72,127 Missouri women give birth.[viii] Adjusting for employment rate among women in Missouri (56%),[ix] the estimated share of women working who are exempt (21%), and the share already covered by paid sick leave (76%), we estimate that 7,709 Missouri women will use these additional sick days for maternity care annually. **The cost of wages & benefits for newly eligible women who give birth is $7.7 million annually.**

Savings from Earned Sick Leave to Employers

The cost of earned sick leave to employers is offset by significant cost savings derived from benefits such as reduced employee turnover, reduced presenteeism (employees working at reduced capacity while sick or injured), and reduced contagion in the workplace. **We estimate that Missouri employers would save at least $255.4 million annually due to the implementation of earned sick leave policies.**

Estimated Annual Savings from Earned Sick Leave to Employers

	Wages	Benefits	Total
Reduced Turnover	$104,650,035	$42,936,327	**$147,586,363**
Reduced Presenteeism	$58,333,353	$23,933,293	**$82,266,646**
Reduced Flu Contagion	$18,147,602	$7,445,687	**$25,593,288**
Total Savings	**$181,130,990**	**$74,315,307**	**$255,446,297**

Note: Reduced turnover calculated by assuming a reduction in job turnover of 2.5 percentage points for those with new access to paid sick leave[x] at a cost of 20.7% of annual wages.[xi] Reduced presenteeism calculated by assuming workers without access to paid sick leave will work an average of 1.5 days while sick or injured[xii] at 50% effectiveness. Cost of reduced flu contagion calculated based on method presented in Abay, Rosa, & Pana-Cryan Appendix 3 using average estimates.[xiii]

Reduced Turnover. Access to paid sick leave gives workers the ability to address their health needs and those of their families, without having to quit a job or risk being fired. Access to paid sick leave is associated with reduced job turnover, which in turn creates significant savings for businesses.[xiv] **We estimate that Missouri employers will save $147.6 million annually due to reduced turnover in the workplace.**

Reduced Presenteeism. Employers who do not offer paid sick leave have higher rates of "presenteeism" or lost productivity due to employees working while injured or sick.[xv] Offering paid sick leave reduces the likelihood of working at reduced capacity and allows workers to recover from illness or injury more quickly. **We estimate that Missouri employers will save $82.3 million annually due to reduced presenteeism in the workplace.**

Reduced Flu Contagion. Workers without paid sick leave are more likely to come to work sick, increasing the likelihood of spreading the illness to other workers.[xvi] Access to paid sick leave allows workers to stay home when ill, reducing absenteeism related to contagious disease such as influenza. **We estimate that Missouri employers will save $25.6 million annually due to reduced flu contagion in the workplace.**

Appendix

Average Daily Wages & Benefits Used for Cost/Savings Calculations

Occupation	Average Hourly Wage	Average Work Hours/Day	Daily Estimated Average		
			Wage	Benefits	Total Compensation
Management, business, science, and arts	$34.93	7.41	$258.82	$113.11	$371.93
Service	$13.58	7.48	$101.57	$30.99	$132.56
Sales and Office	$18.79	7.20	$135.31	$52.37	$187.68
Natural Resources, Construction, and Maintenance	$24.39	8.11	$197.89	$93.93	$291.83
Production, Transportation, and Material Moving	$18.16	8.23	$149.51	$73.43	$222.94

Note: Average daily wage estimated by occupation using the average hourly wage by occupation[xvii] multiplied by average daily work hours by occupation.[xviii] The annual cost of benefits is calculated using the average cost of benefits as a share of total compensation by occupation.[xix] Total compensation equals the total cost of wages and benefits to employer.

RE: Petition approval request from Lisa D'Souza regarding a proposed statutory amendment to Chapter 290, version 4 (2022-030)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Revised Statutes of Missouri filed by Lisa D'Souza on May 3, 2021.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

Be it enacted by the people of the State of Missouri:

Fifteen new sections to be known as sections 290.600, 290.603, 290.606, 290.609, 290.612, 290.615, 290.618, 290.621, 290.624, 290.627, 290.630, 290.633, 290.636, 290.639, and 290.642 are enacted to read as follows:

290.600. As used in sections 290.600 through 290.642:

(1) "Department", Department of Labor and Industrial Relations.

(2) "Director", Director of the Department of Labor and Industrial Relations.

(3) "Domestic violence", as such term is defined in section 455.010.

(4) "Earned paid sick time", time that is compensated at the same hourly rate and with the same benefits, including health care benefits, as the employee normally earns during hours worked and is provided by an employer to an employee for the purposes described in section 290.606, but in no case shall this hourly amount be less than that provided under section 290.502.

(5) "Employee", any individual employed in this state by an employer, but does not include:

(A) Any individual engaged in the activities of an educational, charitable, religious, or nonprofit organization where the employer-employee relationship does not, in fact, exist or where the services rendered to the organization are on a voluntary basis;

(B) Any individual standing in loco parentis to foster children in their care;

(C) Any individual employed for less than four months in any year in a resident or day camp for children or youth, or any individual employed by an educational conference center operated by an educational, charitable or not-for-profit organization;

(D) Any individual engaged in the activities of an educational organization where employment by the organization is in lieu of the requirement that the individual pay the cost of tuition, housing or other educational fees of the organization or where earnings of the individual employed by the organization are credited toward the payment of the cost of tuition, housing or other educational fees of the organization;

(E) Any individual employed on or about a private residence on an occasional basis for six hours or less on each occasion;

(F) Any individual employed on a casual basis to provide baby-sitting services;

(G) Any individual employed by an employer subject to the provisions of part A of subtitle IV of title 49, United States Code, 49 U.S.C. §§ 10101 et seq.;

(H) Any individual employed on a casual or intermittent basis as a golf caddy, newsboy, or in a similar occupation;

(I) Any individual who is employed in any government position defined in 29 U.S.C. §§ 203(e)(2)(C)(i)-(ii);

(J) Any individual employed by a retail or service business whose annual gross volume sales made or business done is less than five hundred thousand dollars;

(K) Any individual who is an offender, as defined in section 217.010, who is incarcerated in any correctional facility operated by the department of corrections, including offenders who provide labor or services on the grounds of such correctional facility pursuant to section 217.550; or,

(L) Any individual described by the provisions of section 29 U.S.C. 213(a)(8).

(6) "Employer", any person acting directly or indirectly in the interest of an employer in relation to an employee; provided, however, that for the purposes of sections 290.600 through 290.642 "employer" does not include the United States Government, the state, or a political subdivision of the state, including a department, agency, officer, bureau, division, board, commission, or instrumentality of the state, or a city, county, town, village, school district, public higher education institution, or other political subdivision of the state.

(7) "Family member", any of the following individuals:

(A) Regardless of age, a biological, adopted or foster child, stepchild or legal ward, a child of a domestic partner, a child to whom the employee stands in loco parentis, or an individual to whom the employee stood in loco parentis when the individual was a minor;

(B) A biological, foster, stepparent or adoptive parent or legal guardian of an employee or an employee's spouse or domestic partner or an individual who stood in loco parentis when the employee or employee's spouse or domestic partner was a minor child;

(C) An individual to whom the employee is legally married under the laws of any state, or a domestic partner who is registered as such under the laws of any state or political subdivision;

(D) A grandparent, grandchild, or sibling (whether of a biological, foster, adoptive or step relationship) of the employee or the employee's spouse or domestic partner; or

(E) A person for whom the employee is responsible for providing or arranging health or safety-related care, including but not limited to helping that individual obtain diagnostic, preventative, routine, or therapeutic health treatment or ensuring the person is safe following domestic violence, sexual assault, or stalking.

(8) "Health care professional," any individual licensed under federal or any state law to provide medical or emergency services, including but not limited to doctors, nurses, certified nurse midwives, mental health professionals, and emergency room personnel.

(9) "Person", any individual, partnership, association, corporation, business, business trust, legal representative, or any organized group of persons.

(10) "Retaliatory personnel action", denial of any right guaranteed under sections 290.600 through 290.642, or any threat, discharge, suspension, demotion, reduction of hours, or any other adverse action against an employee for the exercise of any right guaranteed herein. "Retaliatory personnel action" shall also include interference with or punishment for in any manner participating in or assisting an investigation, proceeding, or hearing under sections 290.600 through 290.642.

(11) "Same hourly rate", means the following:

(a) For employees paid on the basis of a single hourly rate, the same hourly rate shall be the employee's regular hourly rate.

(b) For employees who are paid multiple hourly rates of pay from the same employer, the same hourly rate shall be either:

(i) the wages the employee would have been paid for the hours absent during use of earned paid sick time if the employee had worked; or,

(ii) the weighted average of all hourly rates of pay during the previous pay period.

Whatever method the employer uses, the employer must use a consistent method for each employee throughout a year.

(c) For employees who are paid a salary, the same hourly rate shall be determined by dividing the wages the employee earns in the previous pay period by the total number of hours worked during the previous pay period. For determining total number of hours worked during the previous pay period, employees who are exempt from overtime requirements under 29 U.S.C. § 213(a)(1), the Fair Labor Standards Act, shall be assumed to work 40 hours in each work week unless their normal work week is less than 40 hours, in which case earned paid sick time shall accrue and the same hourly rate shall be calculated based on the employee's normal work week. Regardless of the basis used, the same hourly rate shall not be less than the effective minimum wage specified in section 290.502.

(d) For employees paid on a piece rate or a fee-for-service basis, the same hourly rate shall be a reasonable calculation of the wages or fees the employee would have received for the piece work, service, or part thereof, if the employee had worked. Regardless of the basis used, the same hourly rate shall not be less than the effective minimum wage specified in section 290.502.

(e) For employees who are paid on a commission basis (whether base wage plus commission or commission only), the same hourly rate shall be the greater of the base wage or the effective minimum wage specified in section 290.502.

(f) For employees who receive and retain compensation in the form of gratuities in addition to wages, the same hourly rate shall be the greater of the employee's regular hourly rate or 100% of the effective minimum wage specified in section 290.502 without deduction of any tips as a credit.

(12) "Sexual assault", as such term is defined in section 455.010.

(13) "Stalking", as such term is defined in section 455.010.

(14) "Year", a regular and consecutive twelve-month period as determined by the employer; except that for the purposes of section 290.615 and section 290.627, "year" shall mean a calendar year.

290.603. 1. Employees of an employer with fifteen or more employees shall accrue a minimum of one hour of earned paid sick time for every thirty hours worked, but such employees shall not be entitled to use more than fifty-six hours of earned paid sick time per year, unless the employer selects a higher limit.

2. Employees of an employer with fewer than fifteen employees shall accrue a minimum of one hour of earned paid sick time for every thirty hours worked, but such employees shall not be entitled to use more than forty hours of earned paid sick time per year, unless the employer selects a higher limit.

3. In determining the number of employees of an employer, all employees performing work in the state for an employer for compensation on a full-time, part-time, or temporary basis shall be counted. In situations in which the number of employees performing work in the state for an employer for compensation per week fluctuates above and below 15 employees per week over the course of a year, an employer is required to provide earned paid sick time pursuant to subsection (1) of this section if it maintained fifteen or more employees in the state on the payroll for some portion of a working day in each of twenty or more different calendar weeks, including any periods of leave, and whether or not the weeks were consecutive, in either the current or the preceding year (irrespective of whether the same individuals were in employment in each working day).

4. All employees shall accrue earned paid sick time as follows:

(A) Earned paid sick time as provided in this section shall begin to accrue at the commencement of employment or on the date this law goes into effect, whichever is later. An employee shall be entitled to use earned paid sick time as it is accrued. An employer may provide all earned paid sick time that an employee is expected to accrue in a year at the beginning of the year.

(B) Employees who are exempt from overtime requirements under 29 U.S.C. § 213(a)(1) of the Federal Fair Labor Standards Act will be assumed to work forty hours in each work week for purposes of earned paid sick time accrual unless their normal work week is less than forty hours, in which case earned paid sick time accrues based upon that normal work week.

(C) Earned paid sick time shall be carried over to the following year, but this law does not require an employer to permit an employee to use more than the applicable number of hours of earned paid sick time per year as set forth in subsection (1) and (2) of this section. Alternatively, in lieu of carryover of unused earned

paid sick time from one year to the next, an employer may pay an employee for unused earned paid sick time at the end of a year and provide the employee with an amount of paid sick time that meets or exceeds the requirements of sections 290.600 through 290.642 that is available for the employee's immediate use at the beginning of the subsequent year.

(D) If an employee is transferred to a separate division, entity, or location, but remains employed by the same employer, the employee is entitled to all earned paid sick time accrued at the prior division, entity, or location and is entitled to use all earned paid sick time as provided in this section. When there is a separation from employment and the employee is rehired within nine months of separation by the same employer, previously accrued earned paid sick time that had not been used shall be reinstated. Further, the employee shall be entitled to use accrued earned paid sick time and accrue additional earned paid sick time at the re-commencement of employment.

(E) When a different employer succeeds or takes the place of an existing employer, all employees of the original employer who remain employed by the successor employer are entitled to all earned paid sick time they accrued when employed by the original employer, and are entitled to use earned paid sick time previously accrued.

(F) At its discretion, an employer may loan earned paid sick time to an employee in advance of accrual by such employee.

5. Any employer with a paid leave policy, such as a paid time off policy, or a collective bargaining agreement that makes available an amount of paid leave sufficient to meet the accrual requirements of this section that may be used for the same purposes and under the same conditions as earned paid sick time under sections 290.600 through 290.642 is not required to provide additional paid sick time under this section.

6. Except as specifically provided in this section, nothing in this section shall be construed as requiring financial or other reimbursement to an employee from an employer upon the employee's termination, resignation, retirement, or other separation from employment for accrued earned paid sick time that has not been used.

290.606. 1. Earned paid sick time shall be provided to an employee by an employer for:

(A) An employee's mental or physical illness, injury, or health condition; an employee's need for medical diagnosis, care, or treatment of a mental or physical illness, injury, or health condition; an employee's need for preventative medical care;

(B) Care of a family member with a mental or physical illness, injury, or health condition; care of a family member who needs medical diagnosis, care, or treatment of a mental or physical illness, injury, or health condition; care of a family member who needs preventative medical care;

(C) Closure of the employee's place of business by order of a public official due to a public health emergency, or an employee's need to care for a child whose school or place of care has been closed by order of a public official due to a public health emergency, or care for oneself or a family member when it has been determined by the health authorities having jurisdiction or by a health care provider that the employee's or family member's presence in the community may jeopardize the health of others because of his or her exposure to a communicable disease, whether or not the employee or family member has actually contracted the communicable disease; or

(D) Absence necessary due to domestic violence, sexual assault, or stalking, provided the leave is to allow the employee to obtain for the employee or the employee's family member:

(i) Medical attention needed to recover from physical or psychological injury or disability caused by domestic violence, sexual assault, or stalking;

(ii) Services from a victim services organization;

(iii) Psychological or other counseling;

(iv) Relocation or taking steps to secure an existing home due to the domestic violence, sexual assault, or stalking; or

(v) Legal services, including preparing for or participating in any civil or criminal legal proceeding related to or resulting from the domestic violence, sexual assault, or stalking.

2. Earned paid sick time shall be provided upon the request of an employee. Such request may be made orally, in writing, by electronic means, or by any other means acceptable to the employer. When possible, the request shall include the expected duration of the absence.

3. When the use of earned paid sick time is foreseeable, the employee shall make a good faith effort to provide notice of the need for such time to the employer in advance of the use of the earned paid sick time and shall make a reasonable effort to schedule the use of earned paid sick time in a manner that does not unduly disrupt the operations of the employer. Where such need is not foreseeable, an employer may require an employee to provide notice of the need for the use of earned paid sick time as soon as practicable.

4. An employer that requires notice of the need to use earned paid sick time where the need is not foreseeable shall provide a written policy that contains procedures for the employee to provide notice. An employer that has not provided to the employee a copy of its written policy for providing such notice shall not deny earned paid sick time to the employee based on non-compliance with such a policy.

5. An employer may not require, as a condition of an employee's taking earned paid sick time, that the employee search for or find a replacement worker to cover the hours during which the employee is using earned paid sick time.

6. Earned paid sick time may be used in the smaller of hourly increments or the smallest increment that the employer's payroll system uses to account for absences or use of other time.

7. For earned paid sick time of three or more consecutive work days, an employer may require reasonable documentation that the earned paid sick time has been used for a purpose covered by subsection (1) of this section.

(A) Documentation signed by a heath care professional indicating that earned paid sick time is necessary shall be considered reasonable documentation for purposes of this section.

(B) In cases of domestic violence, sexual assault, or stalking, if the employer requests, one of the following types of documentation selected by the employee shall be considered reasonable documentation: (i) a police report indicating that the employee or the employee's family member was a victim of domestic violence, sexual assault, or stalking, (ii) a written statement from an employee or agent of a victim service provider affirming that the employee or employee's family member is or was receiving services from a victim service provider; (iii) documentation signed by a health care professional from whom the employee or employee's family member sought assistance relating to domestic violence, sexual assault, or stalking or the effects thereof; (vi) a court document indicating that an employee or employee's family member is or was involved in a legal action related to domestic violence, sexual assault, or stalking; or (v) a written statement from the employee affirming that the employee or employee's family member is taking or took earned paid sick time for a qualifying purpose of subsection (1) of this section.

(C) An employer may not require that the documentation explain the nature of the illness, details of the underlying health needs, or the details of the domestic violence, sexual assault, or stalking, unless otherwise required by law.

290.609. 1. It shall be unlawful for an employer or any other person to interfere with, restrain, or deny the exercise of, or the attempt to exercise, any right protected under sections 290.600 through 290.642.

2. An employer shall not take retaliatory personnel action or discriminate against an employee or former employee because the individual has exercised rights protected under sections 290.600 through 290.642. Such rights include, but are not limited to, the right to request or use earned paid sick time pursuant to sections 290.600 through 290.642; the right to file a complaint or inform any person about any employer's alleged violation of sections 290.600 through 290.642; the right to participate in any investigation, hearing, or proceeding or cooperate with or assist the Department in any investigations of alleged violations of sections 290.600 through 290.642; and the right to inform any person of his or her potential rights under sections 290.600 through 290.642.

3. It shall be unlawful for an employer's absence control policy to count earned paid sick time taken under sections 290.600 through 290.642 as an absence that may lead to or result in discipline, discharge, demotion, suspension, or any other adverse action.

4. Protections of this section shall apply to any individual who mistakenly but in good faith alleges violations of sections 290.600 through 290.642.

290.612. 1. Employers shall give employees a written notice about earned paid sick time within fourteen calendar days of the commencement of employment or within ninety days of the effective date of this law, whichever is later, which must include the following information: (1) employees accrue and are entitled to earned paid sick time at the rate one hour of earned paid sick time for every 30 hours of work, and may use earned paid sick time, subject to the terms under sections 290.600 through 290.642 of Missouri law, (2) it is prohibited for an employer to take retaliatory personnel action against employees who request or use earned paid sick time as allowed by law, (3) each employee has the right to bring a civil action if earned paid sick time as required by sections 290.600 through 290.642 is denied by the employer or the employee is subjected to retaliatory personnel action by the employer for exercising the employee's rights under sections 290.600 through 290.642; and, (4) the contact information for the Department. Notice shall be provided by the Employer to the employee on a single piece of paper, at least 8.5 x 11, in no less than 14-point font.

2. Employers shall display a poster that contains the information required in subsection (1) of this section in a conspicuous and accessible place in each establishment where such employees are employed, provided that such poster has been provided by the Department.

3. The Department may create and make available to employers, model notices and posters that contain the information required under subsection (1) of this section for employers' use in complying with subsections (1) and (2) of this section. Nothing in sections 290.600 through 290.642 shall be interpreted or applied, either expressly or through practical necessity, to require the appropriation of funds to cover the costs associated with the Department creating or making available notices or posters.

290.615. 1. Employers shall retain records documenting hours worked by employees and earned paid sick time taken by employees, for a period of not less than three years, and shall allow the Department access to such records, with appropriate notice and at a mutually agreeable time, to monitor compliance with the requirements of sections 290.600 through 290.642.

2. To the extent permitted by law, the Director may inspect such records, and the records shall be open for inspection by the Director by appointment. Where the records required under this section are kept outside the state, the records shall be made available to the Director upon demand. Every such employer shall furnish to the Director on demand a sworn statement of time records and information upon forms prescribed or approved by the Director. All the records and information obtained by the Department are confidential and shall be disclosed only on order of a court of competent jurisdiction.

3. Nothing in sections 290.600 through 290.642 shall be interpreted or applied, either expressly or through practical necessity, to require the appropriation of funds to cover the costs associated with the Department or Director accessing or inspecting records or creating forms relating to the inspection of records.

290.618. 1. The Department may, in accordance with chapter 536, promulgate rules for the implementation, enforcement, and administration of sections 290.600 through 290.642. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2022, shall be invalid and void.

2. Nothing in sections 290.600 through 290.642 shall be interpreted or applied, either expressly or through practical necessity, to require the appropriation of funds to cover the costs associated with the promulgation or adoption of rules.

290.621. 1. The Department may investigate and ascertain compliance with sections 290.600 through 290.642, establish and implement a system to receive complaints regarding non-compliance with sections 290.600 through 290.642 and to investigate and attempt to resolve complaints between the complainant and the subject of the complaint, and establish additional means of enforcement, including requiring by subpoena the testimony of witnesses and production of books, records, and other evidence relative to any matter under investigation or hearing, issuing notices of violation, holding hearings on notices of violation, making determinations, recovering unpaid earned sick time, and imposing fines for willful violations of up to $500 per day of each day of a continuing violation. A final decision of the department is subject to review in accordance with the provisions of chapter 536.

2. The Department may develop and implement an outreach program to inform employees, parents, and persons who are under the care of a health care provider about the availability of earned paid sick time under sections 290.600 through 290.642. This program may include the distribution of notices and other written materials to child care and elder care providers, domestic violence shelters, schools, hospitals, community health centers and other health care providers in Missouri.

3. A municipality, county, city, town, or village may adopt ordinances, rules, and regulations to investigate and ascertain compliance with sections 290.600 through 290.642, establish and implement a system to receive complaints regarding non-compliance with sections 290.600 through 290.642 and to investigate and attempt to resolve complaints between the complainant and the subject of the complaint, and establish additional means of enforcement, with respect to employers within, or employees performing work while physically present in, the geographic boundaries of the municipality, county, city, town, or village. Any such ordinance, rule, or regulation shall be consistent with this law and any Department rules or regulations and system for compliance and enforcement. The municipality, county, city, town, or village may exercise such powers as allowed by any applicable charter or ordinance, including requiring by subpoena the testimony of witnesses and production of books, records, and other evidence relative to any matter under investigation or hearing, issuing notices of violation, holding hearings on notices of violation, making determinations, recovering unpaid earned sick time, and imposing fines for willful violations of up to the maximum allowed for an ordinance violation. Before investigating or seeking to resolve any complaint between the complainant and the subject of the complaint, the municipality, county, city, town, or village shall give notice to the Department with a copy of the complaint and, within 14 days of such notice, the Department may intervene as of right and participate in the matter to ensure that the complaint is being investigated and resolved in the interest of effective enforcement of sections 290.600 through 290.642 or, alternatively, the Department may institute its own proceedings in which case the municipality, county, city, town, or village shall refrain from acting on the matter so long as the complaint is being investigated and resolved in the interest of effective enforcement of sections 290.600 through 290.642. If the Department does not, within 14 days, intervene or instigate its own proceedings, the municipality, county, city, town, or village may, without the Department, investigate and attempt to resolve the complaint and take other additional means as permitted to enforce sections 290.600 through 290.642 against the subject of the complaint. In no event shall an employer be subject to compliance proceedings arising out of a single set of facts after having already been subjected to a final compliance order by another government entity.

4. Nothing in sections 290.600 through 290.642 shall be interpreted or applied, either expressly or through practical necessity, to require the appropriation of funds to cover the costs associated with the Department, a municipality, county, city, town, or village conducting investigations and ascertaining compliance with sections 290.600 through 290.642, establishing and implementing a system to receive, investigate, or resolve complaints, establishing additional means of enforcement, or conducting outreach and education, including the creation of notices and other written materials, concerning sections 290.600 through 290.642.

290.624. 1. Any employer who willfully violates or fails to comply with any of the provisions and requirements of sections 290.600 through 290.642 shall be guilty of a class C misdemeanor; provided, however, that an employer who willfully violates the notice and posting requirements of section 290.612 shall be guilty of an infraction.

2. For purposes of this section, each day of violation or failure to comply and each employee affected shall constitute a separate offense.

290.627. 1. Any individual who claims to have been aggrieved by a failure of an employer to comply with any portion of sections 290.600 through 290.642, including but not limited to the failure to provide earned paid sick time or to allow employees to use such time consistent with sections 290.600 through 290.642, or who claims to have suffered a retaliatory personnel action, shall have a right of action and may commence a civil action in the appropriate court of jurisdiction within three years of the accrual of the cause of action, to obtain appropriate relief with respect to such unlawful violation. Such action may be brought without first filing an administrative complaint.

2. In a civil action under this section, if the court finds a violation has occurred, the court may grant as relief, as it deems appropriate and to the extent permitted by law, any permanent or temporary injunction, the full amount of any unpaid earned sick time plus any actual damages suffered as the result of the employer's violation of sections 290.600 through 290.642, an additional amount equal to twice any unpaid earned sick time as liquidated damages, costs, and reasonable attorney's fees as may be allowed by the court, and other legal or equitable relief as may be appropriate to remedy the violation, including, without limitation, reinstatement to employment and back pay.

290.630. 1. Except as otherwise required by law, an employer may not require disclosure of details relating to an employee's or an employee's family member's health information, domestic violence, sexual assault, or stalking as a condition of providing earned paid sick time under sections 290.600 through 290.642.

2. Unless as otherwise required by law, any health or safety information possessed by an employer regarding an employee or employee's family member must:

(A) be maintained on a separate form and in a separate file from other personnel information;

(B) be treated as confidential medical records; and

(C) not be disclosed except to the affected employee or with the express written permission of the affected employee.

290.633. 1. Nothing in sections 290.600 through 290.642 shall be deemed to interfere, impede, or otherwise diminish the right of employees to bargain collectively through representatives of their own choosing in order to establish earned paid sick time or other conditions of work in excess of the applicable minimum standards under the provisions of sections 290.600 through 290.642.

2. All or any portion of the earned paid sick time requirements of sections 290.600 through 290.642 shall not apply to employees covered by a bona fide collective bargaining agreement to the extent that such requirements are expressly waived in the collective bargaining agreement in clear and unambiguous terms.

3. With the exception noted in subsection 2, any waiver by an employee of rights under sections 290.600 through 290.642 shall be deemed contrary to public policy and shall be void.

290.636. 1. Nothing in sections 290.600 through 290.642 shall be construed to discourage or prohibit an employer from the adoption or retention of an earned paid sick time policy more generous than the one required herein.

2. Nothing in sections 290.600 through 290.642 shall be construed as diminishing the obligation of an employer to comply with any contract, collective bargaining agreement, employment benefit plan, or other agreement providing more generous paid sick time to an employee than required herein. Nothing in sections 290.600 through 290.642 shall be construed as diminishing the rights of public employees regarding paid sick time or use of paid sick time as provided in the laws of Missouri and ordinances of political subdivisions pertaining to public employees.

290.639. 1. Sections 290.600 through 290.642 provide minimum requirements pertaining to earned paid sick time and shall not be construed to preempt, limit, or otherwise affect the applicability of any other law, regulation, requirement, policy, or standard that provides for greater accrual or use by employees of earned paid sick time or that extends other protections to employees.

2. Nothing in sections 290.600 through 290.642 shall be interpreted or applied to create a power or obligation contrary to any federal law, rule, or regulation.

290.642. Except as detailed in section 290.618, all of the provisions of sections 290.600 through 290.642 are severable, and if any provision, including any section, subsection, subdivision, paragraph, sentence, or clause, or the application thereof to any person or circumstance, is found by a court of competent jurisdiction to be invalid, unconstitutional, or unconstitutionally enacted, such decision shall not affect other provisions or applications of sections 290.600 through 290.642 that can be given effect without the invalid, unconstitutional, or unconstitutionally enacted provision or application, and to this end the provisions of sections 290.600 through 290.642 are declared severable.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (22-030)

Subject

Initiative petition from Lisa D'Souza regarding a proposed amendment to Chapter 290 of the Revised Statutes of Missouri. (Received May 3, 2021)

Date

May 21, 2021

Description

This proposal would amend Chapter 290 of the Revised Statutes of Missouri.

The amendment is to be voted on in November 2022.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education and Workforce Development,** the **Department of Health and Senior Services,** the **Department of Commerce and Insurance,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College,** the **Missouri Lottery,** the **State Tax Commission,** the **Missouri Veterans Commission,** the **Missouri Ethics Commission,** the **Missouri Office of Prosecution Services,** the **Kansas City Board of Police Commissioners,** the **Metropolitan Police Department - City of St. Louis,** the **St. Louis County Board of Elections,** the **Board of Election Commissioners City of St. Louis,** the **Kansas City**

Board of Election Commissioners, the **Platte County Board of Elections,** the **Jackson County Election Board,** the **Clay County Board of Election Commissioners,** the **Lieutenant Governor's office,** the **Children's Trust Fund of Missouri,** the **Missouri Joint Municipal Electric Utility Commission,** the **State Auditor's office,** the **Metropolitan Zoological Park and Museum District,** the **Missouri Municipal League,** the **Missouri Bar Association,** the **Missouri Gaming Commission,** the **Municipal League of Metro St. Louis, University of Central Missouri, Harris-Stowe State University, Lincoln University, Missouri State University, Missouri Southern State University, Missouri Western State University, Northwest Missouri State University, Southeast Missouri State University,** and **Truman State University**.

Amy Blouin, President & CEO, Missouri Budget Project provided information to the State Auditor's office.

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, they expect that their office could absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, their office may be required to request additional appropriations.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated no fiscal impact to their department.

Officials from the **Department of Elementary and Secondary Education** indicated no impact to their department.

Officials from the **Department of Higher Education and Workforce Development** indicated no impact to their department.

Officials from the **Department of Health and Senior Services** indicated they defer to the Office of Administration for response to this initiative petition.

Officials from the **Department of Commerce and Insurance** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no impact. This proposal excludes state employees.

Officials from the **Department of Labor and Industrial Relations** indicated:

Space is required for 10 full time employees (FTE) X 200 square feet per FTE X $20.70 per square foot = $41,400. This FTE will be located in Cole County.

Small business will be required to comply with the law and grant employees one hour of sick leave for every thirty hours worked. The rate of pay for each hour taken in sick leave is determined by a formula that takes into account the individual employee's hourly rate (or its equivalent for salaried employees) plus a calculation of current fringe benefits. This mandate will apply to all employers in the state, regardless of size, who are not currently providing an equal or greater sick leave benefit. Employers with 15 or more employees will be required to allow the use of 56 hours of sick leave per year and those with under 15 employees will need to allow the use of 40 hours per year.

Based on the most recent data available through the Quarterly Census of Employment and Wages (QCEW), there were an average of 216,229 employers in Missouri for 2020, with 182,616 of those employing less than 15 staff (482,325 total employees), and 33,613 employ 15 or more staff (2,176,397 total employees). Assuming the average hourly wage of $24.29/hour for Missouri in 2020 and the more recent Bureau of Labor Statistic for the state that roughly 60% of employers do no provide paid leave to employees, the estimated costs to businesses as a result of this language would be:

- Up to $281,176,182 for employers with less than 15 employees at 40/hours per year.
- Up to $1,776,253,353 for employers with 15 or more employees at 56/hours per year.

This level of mandate of small businesses will be extremely costly for thousands of employers, especially considering that the allowable reasons to use sick leave are broad and include a variety of physical and mental illnesses as well as the ability to use such leave to prepare for designated legal proceedings. The ability to use such leave is allowed for "family members" which is defined broadly to extend to individuals who have no biological or legal relationship to the employee but rather stand in a relationship where the employee is "responsible for finding or arranging health or safety related care..." or has assumed an "in loco parentis" status.

Alleged failure of an employee to provide paid sick leave will subject the employer to both civil suits and criminal proceedings. Each day where an employer is found to be in violation of the law will constitute a separate offense (a C misdemeanor) along with its potentially associated fines and/or jail time.

This proposal would authorize the Department of Labor & Industrial Relations (DOLIR) to investigate allegations of non-compliance, to subpoena records, hold hearings, adjudicate such disputes and to issue fines in the amount of $500 for each day of a violation.

They estimate it would need additional FTE and ongoing costs to set up and administer the program, and a new computer system will have to be developed for this program.

Since the proposal is subject to voter approval, their estimate covers the range of costs from non-approval by voters ($0) or a decision to decline to undertake the statutorily permissible enforcement role ($0) to full implementation of the proposal.

Cost Estimate – DOLIR

They estimate the total cost to develop, administer, and maintain the program to be over $1.2 million per year (excluding benefits paid). In estimating the total costs of the program, they have used the following assumptions.

Program Operations – Sections 290.600-290.642

They estimate that three new or expanded sections will be required to administer the program: Call Center, increased staff for the Division of Labor Standards for investigative and adjudicatory functions, and an expanded administrative staff within their department to include additional attorneys in the Office of General Counsel to help conduct public hearings, administer legal process, advise on the levying of fines and to prepare cases for appeal under Chapter 536.

Call Center – Begins 1/1/23

They assume that a Call Center will be required to handle questions and concerns from claimants and employers. Based on the call volume for other programs, 3.00 Program Specialists (Range 5 - $41,929) will be required to assist callers. The section will also require 1.00 Administrative Support Assistant (Range 3 - $34,019) to provide administrative support and 1.00 Benefit Program Supervisor (Range 6 - $47,071) to manage the unit.

Section #	290.600-290.642 Program Operations - Call Center - Begins 1/1/23					
Personal Services						
Job Class	Range	FTE	Salary	FY 2022	FY 2023	FY 2024
Benefit Program Specialist	5	3.00	$41,929	$62,894	$125,787	$127,045
Admin Support Asst	3	1.00	$34,019	$17,010	$34,019	$34,359
Benefit Program Supervisor	6	1.00	$47,071	$23,536	$47,071	$47,542
Total PS		**5.00**		**$103,439**	**$206,877**	**$208,946**
Fringe Benefits				**$63,152**	**$126,304**	**$126,991**
Equipment - One-Time Costs						
Standard Equipment per FTE	BOBC	Units	Cost	FY 2022	FY 2023	FY 2024
Telecom Equipment	340	5.00	$200	$1,000		
Computer Equipment	480	5.00	$1,607	$8,035		
Office Equipment	580	5.00	$6,530	$32,650		
Total Equipment				**$41,685**	**$0**	**$0**
Expenses - Ongoing Costs						
Standard Expenses per FTE	BOBC	Units	Cost	FY 2022	FY 2023	FY 2024
Fuel & Utilities	180	5.00	$460	$2,300	$2,358	$2,417
Supplies	190	5.00	$372	$1,860	$1,907	$1,955
Housekeeping & Janitorial	420	5.00	$345	$1,725	$1,768	$1,812
Telecom Serv & Supp	340	5.00	$794	$3,970	$4,069	$4,171
Professional Services (Network)	400	5.00	$399	$1,995	$2,045	$2,096
Building Leases	680	5.00	$4,140	$20,700	$21,218	$21,748
Total Expenses				**$32,550**	**$33,365**	**$34,199**
Total				**$240,826**	**$366,546**	**$370,136**

Expense & Equipment (E&E)
They have utilized the standard per FTE costs when calculating operating expenses and equipment for this estimate. Additional mailing costs are detailed below.

Relief on Behalf of Affected Employees – Section 290.609.1 – Begins 1/1/23
The bill authorizes their department to bring enforcement actions against employers who do not abide by the law. This would require additional investigators, adjudicators, and attorneys.

The number of employees who would file complaints cannot be estimated at this time; however, for the sake of this estimate, they assume each case would require an average of 20 hours of attorney time and 20 hours of support staff time. For every 100 cases, 1.00 Attorney ($60,000) and 0.25 of a Paralegal ($40,000) would be required. If 100 cases are brought per year, this would require 2.00 Attorneys and 1.00 Paralegal. If there are more than 240 cases per year, and the staff are unable to absorb the additional workload, additional funding would be pursued via the appropriations process.

Standard E&E costs, along with mobile telephones and travel expenses for the Attorneys are also included in this estimate. The cost estimate assumes these cases would begin when the program becomes operational, January 1, 2023.

Section #	290.609.1 - Relief on Behalf of Affected Employees – Begins 1/1/23					
Personal Services						
Job Class	Range	FTE	Salary	FY 2022	FY 2023	FY 2024
Attorney		2.00	$60,000	$60,000	$120,000	$121,200
Paralegal		1.00	$40,000	$20,000	$40,000	$40,400
Total PS		**3.00**		**$80,000**	**$160,000**	**$161,600**
Fringe Benefits				**$43,848**	**$87,696**	**$88,227**

Total Expenses				**$21,362**	**$21,898**	**$22,447**

Outreach – Section 290.621.2

Section 290.621.2 provides for their department to develop and implement an outreach program to ensure that employees who may be eligible to receive benefits are aware of the program. The outreach program will also educate Missouri's approximately 166,282 employers. Outreach materials will be available to our partners at Missouri Job Centers, business associations, and economic development agencies and mailed to all Missouri-registered businesses quarterly.

Promotional materials, and a brochure that targets businesses while still containing information for employees might be created. They estimate the total number of brochures printed and mailed annually at 700,000.

Section #	290.621.2 - Outreach - Begins 7/1/22					
Personal Services						
Job Class	Range	FTE	Salary	FY 2022	FY 2023	FY 2024

Administrative Services

Since this legislation would, in effect, create a substantially expanded Division of Labor Standards within their department, it is anticipated their department will require 1.00 Deputy Division Director, and 1.00 Administrative Office Support Assistant to manage and coordinate operations of the division.

Section #	Administrative Services - begins 7/1/22					
Personal Services						
Job Class	Range	FTE	Salary	FY 2022	FY 2023	FY 2024
Deputy Director		1.00	$70,000	$70,000	$70,700	$71,407

Telecom-Mobile Services	340	1.00	$540	$540	$554	$568
Total Expenses				**$14,333**	**$14,692**	**$15,060**

They further assume that additional administrative services staff will be required including legal counsel, financial management, mail services, facility management, procurement, training, and human resources. For the purposes of this estimate they project indirect costs at 5% of program operations costs (personal services and fringe benefits) beginning in fiscal year (FY) 2022. One full year of administrative costs, would be realized in FY 2022 $215,624, FY 2023 $214,874, and FY 2024 $216,957.

Standard Equipment per FTE	BOBC	Units	Cost	FY 2022	FY 2023	FY 2024
Administrative 5% Indirect Costs				$22,613	$37,193	$37,508
Total Administrative Cost				**$215,624**	**$214,874**	**$216,957**

They estimate the total cost to develop, administer, and maintain the program to be over $1.2 million per year (excluding benefits paid).

	FY-2022	FY-2023	FY-2024
Personal Services	$287,594	$471,936	$476,656
Fringe Benefits	$164,663	$271,930	$273,497
Equipment and Expense	$560,428	$501,773	$513,705
Total	$1,012,684	$1,245,639	$1,263,858

Of these costs, $84,570 are one-time equipment costs in FY 2022.

Officials from the **Department of Revenue** indicated no impact.

Officials from the **Department of Public Safety** indicated no impact for their department.

Officials from the **Department of Social Services** indicated this will have no fiscal impact for their department.

Officials from the **Governor's Office** indicated this proposal relating to levels of sick leave available to employees should not fiscally impact their office.

Officials from the **House of Representatives** indicated no fiscal impact.

Officials from the **Department of Conservation** indicated there is no anticipated fiscal impact (cost or savings) to their department associated with this initiative petition.

Officials from the **Department of Transportation** indicated this initiative petition would have no fiscal impact to their department/Missouri Highways and Transportation Commission.

Officials from the **Office of Administration** indicated this proposal relating to levels of sick leave available to employees should not fiscally impact their office.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be $7 million based on the cost of the 2020 Presidential Preference Primary.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Funding for this item is adjusted each year depending upon the election cycle. A new decision item is requested in odd numbered fiscal years and the amount requested is dependent upon the estimated number of ballot measures that will be approved by the General Assembly and the initiative petitions certified for the ballot. In fiscal year (FY) 2014, the General Assembly changed the appropriation so that it was no longer an estimated appropriation.

In FY19, over $5.8 million was spent to publish the full text of the measures for the August and November elections. Their office estimates $75,000 per page for the costs of publications based on the actual cost incurred for the one referendum that was on the August 2018 ballot.

Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated no fiscal impact for their office.

Officials from the **State Treasurer's office** indicated no fiscal impact to their office.

Officials from **Clay County** indicated this petition appears to exempt local governments. However, their county already meets the requirements herein as they provide 3.69 hours of sick leave per pay period with a 1000 hour max. Therefore, there is no fiscal impact on their county.

Officials from **Greene County** indicated there are no estimated costs or savings to report from their county for this initiative petition.

Officials from **St. Louis County** indicated they do not have any information to provide.

Officials from the **City of Kansas City** indicated this initiative petition will have no fiscal impact on their city.

Officials from the **City of St. Louis** indicated the City of St. Louis Personnel Department has determined that the city would be exempted from the amended statutes because the definition of "employer" in chapter 290.600 specifically excludes political subdivisions of the state.

Officials from **Metropolitan Community College** indicated no fiscal impact to their college.

Officials from **University of Missouri** indicated they do not anticipate a significant financial impact.

Officials from the **Missouri Lottery** indicated no fiscal impact to their agency.

Officials from the **State Tax Commission** indicated no fiscal impact on their agency.

Officials from the **Missouri Veterans Commission** indicated this initiative petition will have no fiscal impact upon their agency. The definition of the term "employer" in the proposed section 290.600(6) RSMo explicitly excludes the State and its agencies, so the provisions of the petition would not apply to the Commission should it become law.

Officials from the **Missouri Ethics Commission** indicated they defer to the Office of Administration

Officials from the **St. Louis County Board of Elections** indicated this would have no fiscal impact on their Board.

Officials from the **Board of Election Commissioners City of St. Louis** indicated this proposed measure would have no fiscal impact on their organization.

Officials from the **Children's Trust Fund** indicated no impact for the Office of Administration/Children's Trust Fund.

Officials from the **State Auditor's office** indicated since this proposed initiative petition does not apply to government entities, this would have no fiscal impact on their office.

Officials from the **Missouri Gaming Commission** indicated the proposal will have no fiscal impact on their agency.

Officials from **University of Central Missouri** indicated they have determined there is potential for future fiscal impact but too speculative to estimate impact.

Section 290.603 and beyond starts the portions that will have a fiscal impact. The component that every employee after 30 hours shall be granted paid sick leave is huge when you factor in student workers, temps, adjuncts, etc. Additionally, there is a provision that states that an employee rehired within 9 months of separation shall be entitled to all unused paid sick time that was on their account when they left. This is going to be a huge administrative burden and require, at minimum, the purchase of a time and attendance system that can be programmed to track all of the variations.

Section 290.627 has provisions for civil litigation, charges, and awards for damages for violation of the provisions of this act, which is where the real ambiguous component to fiscal implication and indeterminate concerns are based.

Amy Blouin, President & CEO, Missouri Budget Project provided the following information:

MISSOURI BUDGET PROJECT

Earned Sick Leave in Missouri: Costs and Savings for Employers

In addition to helping employees by allowing them to address their health needs without losing their jobs or ability to pay their bills, paid sick leave has many benefits for employers, including a healthier workforce, reduced turnover, and increased productivity. The benefits of paid sick leave have been highlighted by the current COVID-19 pandemic, illustrating the importance of workers being able to recover at home without lost wages and without risking spread of contagious disease in the workplace.

Several possible 2022 ballot measures have been filed that would require employers to provide earned sick leave in Missouri. Though the measures vary slightly, each would require employers to provide a minimum of 3-7 days of paid leave to employees, depending on hours worked and size of business. Public employees are exempt in all versions. If implemented, Missouri would join the thirteen states, plus the District of Columbia, (in addition to dozens of municipalities) who ensure employees can earn paid sick leave to care for themselves or family members.[i]

This analysis documents the number of people who may be impacted under Missouri's proposals and how access to paid sick leave reduces employer costs. Similar savings have been documented by research covering a variety of states that have implemented earned sick leave policies.[ii] The table below provides an overview of the estimated costs and savings for employers in Missouri. **We find that expanding earned sick leave to Missouri's nearly 538,000 workers without access would provide a net savings to employers of approximately $17.4 million annually.**

Estimated Costs and Savings to Employers from Earned Sick Leave in Missouri

		Cost/Savings Per Employee		
	Total Annual	**Annual**	**Weekly**	**Hourly**
Costs	$238.05M	$442.61	$8.51	$0.21
Cost for Sick Leave	$230.35M			
Cost for Parental Leave	$7.7M			
Savings	$255.45M	$474.95	$9.13	$0.23
Reduced Turnover	$147.59M			
Reduced Presenteeism	$82.27M			
Reduced Flu Contagion	$25.59M			
Net Savings	$17.4M	$32.34	$0.62	$0.02

Access to Paid Sick Leave in Missouri

Based on an analysis of data from the Missouri Department of Economic Development (MERIC), the U.S. Bureau of Labor Statistics, and the U.S. Census Bureau, we estimate that approximately one in four (or nearly 538,000) Missouri workers would be newly covered by earned sick leave provisions through the ballot measures. These workers are concentrated primarily in service, sales & office, and production, transportation, & material moving related occupations.

Estimated Number of Workers Newly Covered by Paid Sick Leave in Missouri by Occupation

Occupation	Total Employment	Share Exempt	Workers Covered by Initiatives	Share with No Sick Leave	Estimated Workers Newly Covered
Management, Business, Science, and Arts	870,750	27%	636,515	8%	**50,921**
Service	609,500	25%	458,619	41%	**188,034**
Sales and Office	674,870	16%	568,561	23%	**130,769**
Natural Resources, Construction, and Maintenance	224,740	23%	172,541	32%	**55,213**
Production, Transportation, and Material Moving	440,740	9%	403,199	28%	**112,896**
Total	**2,820,600**	**21%**	**2,239,435**	**24%**	**537,833**

Note: Estimated workers covered by paid leave initiatives calculated as the total number of employees by occupation[iii] less the share of that occupation estimated to be exempt (self-employed or local, state, and federal government workers).[iv] Workers newly covered calculated as the total number of workers covered less the share of private workforce that already has access to paid sick leave by occupation.[v]

Cost of Earned Sick Leave to Employers

Employers would be responsible for the wages and associated benefits (such as payroll taxes and insurance) of newly eligible workers who take earned sick leave. Based on average daily wages and benefits in 2019 (see Appendix for detailed calculations), we estimate that Missouri employers would spend approximately $235 million annually on wages & benefits for workers newly eligible for earned sick leave.

Estimated Annual Cost of Earned Sick Leave to Employers

	Wages	Benefits	Total
Cost for Sick Leave	$163,333,388	$67,013,220	**$230,346,608**
Cost for Parental Leave	$5,462,868	$2,241,332	**$7,704,200**
Total	**$168,796,256**	**$69,254,552**	**$238,050,808**

Note: Average cost of earned sick leave calculated as average daily cost of wages & benefits multiplied by the average number of sick days per year[vi] (2.1) taken by workers with access to paid sick leave (or in the case of parental leave an additional 4.9 days per year for a total of 7 days); annual cost per worker is then multiplied by the number of newly covered workers by occupation to determine the annual cost of compensation for workers taking earned sick leave.

Sick Leave. Employees with access to paid leave generally do not use the full amount of paid sick leave to which they are entitled annually. A typical worker with paid sick leave uses 2.1 days of sick leave a year; around 45% of employees with access to paid leave use no sick time at all in a given year.[vii] **Adjusting for average wage by occupation, the cost of wages & benefits for newly eligible employees at 2.1 days per year is $230.3 million dollars annually.**

Parental Leave. We also assume that women who give birth will use the maximum amount of annual earned sick time (or an additional 4.9 days to equal a total of 7 sick days). Each year, 72,127 Missouri women give birth.[viii] Adjusting for employment rate among women in Missouri (56%),[ix] the estimated share of women working who are exempt (21%), and the share already covered by paid sick leave (76%), we estimate that 7,709 Missouri women will use these additional sick days for maternity care annually. **The cost of wages & benefits for newly eligible women who give birth is $7.7 million annually.**

Savings from Earned Sick Leave to Employers

The cost of earned sick leave to employers is offset by significant cost savings derived from benefits such as reduced employee turnover, reduced presenteeism (employees working at reduced capacity while sick or injured), and reduced contagion in the workplace. **We estimate that Missouri employers would save at least $255.4 million annually due to the implementation of earned sick leave policies.**

Estimated Annual Savings from Earned Sick Leave to Employers

	Wages	Benefits	Total
Reduced Turnover	$104,650,035	$42,936,327	**$147,586,363**
Reduced Presenteeism	$58,333,353	$23,933,293	**$82,266,646**
Reduced Flu Contagion	$18,147,602	$7,445,687	**$25,593,288**
Total Savings	**$181,130,990**	**$74,315,307**	**$255,446,297**

Note: Reduced turnover calculated by assuming a reduction in job turnover of 2.5 percentage points for those with new access to paid sick leave[x] at a cost of 20.7% of annual wages.[xi] Reduced presenteeism calculated by assuming workers without access to paid sick leave will work an average of 1.5 days while sick or injured[xii] at 50% effectiveness. Cost of reduced flu contagion calculated based on method presented in Abay, Rosa, & Pana-Cryan Appendix 3 using average estimates.[xiii]

Reduced Turnover. Access to paid sick leave gives workers the ability to address their health needs and those of their families, without having to quit a job or risk being fired. Access to paid sick leave is associated with reduced job turnover, which in turn creates significant savings for businesses.[xiv] **We estimate that Missouri employers will save $147.6 million annually due to reduced turnover in the workplace.**

Reduced Presenteeism. Employers who do not offer paid sick leave have higher rates of "presenteeism" or lost productivity due to employees working while injured or sick.[xv] Offering paid sick leave reduces the likelihood of working at reduced capacity and allows workers to recover from illness or injury more quickly. **We estimate that Missouri employers will save $82.3 million annually due to reduced presenteeism in the workplace.**

Reduced Flu Contagion. Workers without paid sick leave are more likely to come to work sick, increasing the likelihood of spreading the illness to other workers.[xvi] Access to paid sick leave allows workers to stay home when ill, reducing absenteeism related to contagious disease such as influenza. **We estimate that Missouri employers will save $25.6 million annually due to reduced flu contagion in the workplace.**

Appendix

Average Daily Wages & Benefits Used for Cost/Savings Calculations

Occupation	Average Hourly Wage	Average Work Hours/Day	Daily Estimated Average		
			Wage	Benefits	Total Compensation
Management, business, science, and arts	$34.93	7.41	$258.82	$113.11	$371.93
Service	$13.58	7.48	$101.57	$30.99	$132.56
Sales and Office	$18.79	7.20	$135.31	$52.37	$187.68
Natural Resources, Construction, and Maintenance	$24.39	8.11	$197.89	$93.93	$291.83
Production, Transportation, and Material Moving	$18.16	8.23	$149.51	$73.43	$222.94

Note: Average daily wage estimated by occupation using the average hourly wage by occupation[xvii] multiplied by average daily work hours by occupation.[xviii] The annual cost of benefits is calculated using the average cost of benefits as a share of total compensation by occupation.[xix] Total compensation equals the total cost of wages and benefits to employer.

RE: Petition approval request from Lisa D'Souza regarding a proposed statutory amendment to Chapter 290, version 3 (2022-029)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Revised Statutes of Missouri filed by Lisa D'Souza on May 3, 2021.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

Address of Notary (Street, City, State & Zip Code)

Be it enacted by the people of the State of Missouri:

Fifteen new sections to be known as sections 290.600, 290.603, 290.606, 290.609, 290.612, 290.615, 290.618, 290.621, 290.624, 290.627, 290.630, 290.633, 290.636, 290.639, and 290.642 are enacted to read as follows:

290.600. As used in sections 290.600 through 290.642:

(1) "Construction", includes construction, reconstruction, improvement, enlargement, alteration, painting and decorating, or major repair.

(2) "Construction industry", includes any employer whose employees conduct or perform construction as a principal component of the employer's business or enterprise.

(3) "Department", Department of Labor and Industrial Relations.

(4) "Director", Director of the Department of Labor and Industrial Relations.

(5) "Domestic violence", as such term is defined in section 455.010.

(6) "Earned paid sick time", time that is compensated at the same hourly rate and with the same benefits, including health care benefits, as the employee normally earns during hours worked and is provided by an employer to an employee for the purposes described in section 290.606, but in no case shall this hourly amount be less than that provided under section 290.502.

(7) "Employee", any individual employed in this state by an employer, but does not include:

(A) Any individual engaged in the activities of an educational, charitable, religious, or nonprofit organization where the employer-employee relationship does not, in fact, exist or where the services rendered to the organization are on a voluntary basis;

(B) Any individual standing in loco parentis to foster children in their care;

(C) Any individual employed for less than four months in any year in a resident or day camp for children or youth, or any individual employed by an educational conference center operated by an educational, charitable or not-for-profit organization;

(D) Any individual engaged in the activities of an educational organization where employment by the organization is in lieu of the requirement that the individual pay the cost of tuition, housing or other educational fees of the organization or where earnings of the individual employed by the organization are credited toward the payment of the cost of tuition, housing or other educational fees of the organization;

(E) Any individual employed on or about a private residence on an occasional basis for six hours or less on each occasion;

(F) Any individual employed on a casual basis to provide baby-sitting services;

(G) Any individual employed by an employer subject to the provisions of part A of subtitle IV of title 49, United States Code, 49 U.S.C. §§ 10101 et seq.;

(H) Any individual employed on a casual or intermittent basis as a golf caddy, newsboy, or in a similar occupation;

(I) Any individual who is employed in any government position defined in 29 U.S.C. §§ 203(e)(2)(C)(i)-(ii);

(J) Any individual employed by a retail or service business whose annual gross volume sales made or business done is less than five hundred thousand dollars;

(K) Any individual who is an offender, as defined in section 217.010, who is incarcerated in any correctional facility operated by the department of corrections, including offenders who provide labor or services on the grounds of such correctional facility pursuant to section 217.550;

(L) Any individual described by the provisions of section 29 U.S.C. 213(a)(8); or

(M) Any individual engaged in construction work in the construction industry.

(8) "Employer", any person acting directly or indirectly in the interest of an employer in relation to an employee; provided, however, that for the purposes of sections 290.600 through 290.642 "employer" does not include the United States Government, the state, or a political subdivision of the state, including a department, agency, officer, bureau, division, board, commission, or instrumentality of the state, or a city, county, town, village, school district, public higher education institution, or other political subdivision of the state.

(9) "Family member", any of the following individuals:

(A) Regardless of age, a biological, adopted or foster child, stepchild or legal ward, a child of a domestic partner, a child to whom the employee stands in loco parentis, or an individual to whom the employee stood in loco parentis when the individual was a minor;

(B) A biological, foster, stepparent or adoptive parent or legal guardian of an employee or an employee's spouse or domestic partner or an individual who stood in loco parentis when the employee or employee's spouse or domestic partner was a minor child;

(C) An individual to whom the employee is legally married under the laws of any state, or a domestic partner who is registered as such under the laws of any state or political subdivision;

(D) A grandparent, grandchild, or sibling (whether of a biological, foster, adoptive or step relationship) of the employee or the employee's spouse or domestic partner; or

(E) A person for whom the employee is responsible for providing or arranging health or safety-related care, including but not limited to helping that individual obtain diagnostic, preventative, routine, or therapeutic health treatment or ensuring the person is safe following domestic violence, sexual assault, or stalking.

(10) "Health care professional," any individual licensed under federal or any state law to provide medical or emergency services, including but not limited to doctors, nurses, certified nurse midwives, mental health professionals, and emergency room personnel.

(11) "Person", any individual, partnership, association, corporation, business, business trust, legal representative, or any organized group of persons.

(12) "Retaliatory personnel action", denial of any right guaranteed under sections 290.600 through 290.642, or any threat, discharge, suspension, demotion, reduction of hours, or any other adverse action against an employee for the exercise of any right guaranteed herein. "Retaliatory personnel action" shall also include interference with or punishment for in any manner participating in or assisting an investigation, proceeding, or hearing under sections 290.600 through 290.642.

(13) "Same hourly rate", means the following:

(a) For employees paid on the basis of a single hourly rate, the same hourly rate shall be the employee's regular hourly rate.

(b) For employees who are paid multiple hourly rates of pay from the same employer, the same hourly rate shall be either:

(i) the wages the employee would have been paid for the hours absent during use of earned paid sick time if the employee had worked; or,

(ii) the weighted average of all hourly rates of pay during the previous pay period.

Whatever method the employer uses, the employer must use a consistent method for each employee throughout a year.

(c) For employees who are paid a salary, the same hourly rate shall be determined by dividing the wages the employee earns in the previous pay period by the total number of hours worked during the previous pay period. For determining total number of hours worked during the previous pay period, employees who are exempt from overtime requirements under 29 U.S.C. § 213(a)(1), the Fair Labor Standards Act, shall be assumed to work 40 hours in each work week unless their normal work week is less than 40 hours, in which case earned paid sick time shall accrue and the same hourly rate shall be calculated based on the employee's normal work week. Regardless of the basis used, the same hourly rate shall not be less than the effective minimum wage specified in section 290.502.

(d) For employees paid on a piece rate or a fee-for-service basis, the same hourly rate shall be a reasonable calculation of the wages or fees the employee would have received for the piece work, service, or part thereof, if the employee had worked. Regardless of the basis used, the same hourly rate shall not be less than the effective minimum wage specified in section 290.502.

(e) For employees who are paid on a commission basis (whether base wage plus commission or commission only), the same hourly rate shall be the greater of the base wage or the effective minimum wage specified in section 290.502.

(f) For employees who receive and retain compensation in the form of gratuities in addition to wages, the same hourly rate shall be the greater of the employee's regular hourly rate or 100% of the effective minimum wage specified in section 290.502 without deduction of any tips as a credit.

(14) "Sexual assault", as such term is defined in section 455.010.

(15) "Stalking", as such term is defined in section 455.010.

(16) "Year", a regular and consecutive twelve-month period as determined by the employer; except that for the purposes of section 290.615 and section 290.627, "year" shall mean a calendar year.

290.603. 1. Employees of an employer with fifteen or more employees shall accrue a minimum of one hour of earned paid sick time for every thirty hours worked, but such employees shall not be entitled to use more than forty hours of earned paid sick time per year, unless the employer selects a higher limit.

2. Employees of an employer with fewer than fifteen employees shall accrue a minimum of one hour of earned paid sick time for every thirty hours worked, but such employees shall not be entitled to use more than twenty-four hours of earned paid sick time per year, unless the employer selects a higher limit.

3. In determining the number of employees of an employer, all employees performing work in the state for an employer for compensation on a full-time, part-time, or temporary basis shall be counted. In situations in which the number of employees performing work in the state for an employer for compensation per week fluctuates above and below 15 employees per week over the course of a year, an employer is required to provide earned paid sick time pursuant to subsection (1) of this section if it maintained fifteen or more employees in the state on the payroll for some portion of a working day in each of twenty or more different calendar weeks, including any periods of leave, and whether or not the weeks were consecutive, in either the current or the preceding year (irrespective of whether the same individuals were in employment in each working day).

4. All employees shall accrue earned paid sick time as follows:

(A) Earned paid sick time as provided in this section shall begin to accrue at the commencement of employment or on the date this law goes into effect, whichever is later. An employee shall be entitled to use earned paid sick time as it is accrued. An employer may provide all earned paid sick time that an employee is expected to accrue in a year at the beginning of the year.

(B) Employees who are exempt from overtime requirements under 29 U.S.C. § 213(a)(1) of the Federal Fair Labor Standards Act will be assumed to work forty hours in each work week for purposes of earned paid sick time accrual unless their normal work week is less than forty hours, in which case earned paid sick time accrues based upon that normal work week.

(C) Earned paid sick time shall be carried over to the following year, but this law does not require an employer to permit an employee to use more than the applicable number of hours of earned paid sick time per year as set forth in subsection (1) and (2) of this section. Alternatively, in lieu of carryover of unused earned paid sick time from one year to the next, an employer may pay an employee for unused earned paid sick time at the end of a year and provide the employee with an amount of paid sick time that meets or exceeds the requirements of sections 290.600 through 290.642 that is available for the employee's immediate use at the beginning of the subsequent year.

(D) If an employee is transferred to a separate division, entity, or location, but remains employed by the same employer, the employee is entitled to all earned paid sick time accrued at the prior division, entity, or location and is entitled to use all earned paid sick time as provided in this section. When there is a separation from employment and the employee is rehired within nine months of separation by the same employer, previously accrued earned paid sick time that had not been used shall be reinstated. Further, the employee shall be entitled to use accrued earned paid sick time and accrue additional earned paid sick time at the re-commencement of employment.

(E) When a different employer succeeds or takes the place of an existing employer, all employees of the original employer who remain employed by the successor employer are entitled to all earned paid sick time they accrued when employed by the original employer, and are entitled to use earned paid sick time previously accrued.

(F) At its discretion, an employer may loan earned paid sick time to an employee in advance of accrual by such employee.

5. Any employer with a paid leave policy, such as a paid time off policy, or a collective bargaining agreement, which makes available an amount of paid leave sufficient to meet the accrual requirements of this section that may be used for the same purposes and under the same conditions as earned paid sick time under sections 290.600 through 290.642, is not required to provide additional paid sick time under this section.

6. Except as specifically provided in this section, nothing in this section shall be construed as requiring financial or other reimbursement to an employee from an employer upon the employee's termination, resignation, retirement, or other separation from employment for accrued earned paid sick time that has not been used.

290.606. 1. Earned paid sick time shall be provided to an employee by an employer for:

(A) An employee's mental or physical illness, injury, or health condition; an employee's need for medical diagnosis, care, or treatment of a mental or physical illness, injury, or health condition; an employee's need for preventative medical care;

(B) Care of a family member with a mental or physical illness, injury, or health condition; care of a family member who needs medical diagnosis, care, or treatment of a mental or physical illness, injury, or health condition; care of a family member who needs preventative medical care;

(C) Closure of the employee's place of business by order of a public official due to a public health emergency, or an employee's need to care for a child whose school or place of care has been closed by order of a public official due to a public health emergency, or care for oneself or a family member when it has been determined by the health authorities having jurisdiction or by a health care provider that the employee's or family member's presence in the community may jeopardize the health of others because of his or her exposure to a communicable disease, whether or not the employee or family member has actually contracted the communicable disease; or

(D) Absence necessary due to domestic violence, sexual assault, or stalking, provided the leave is to allow the employee to obtain for the employee or the employee's family member:

(i) Medical attention needed to recover from physical or psychological injury or disability caused by domestic violence, sexual assault, or stalking;

(ii) Services from a victim services organization;

(iii) Psychological or other counseling;

(iv) Relocation or taking steps to secure an existing home due to the domestic violence, sexual assault, or stalking; or

(v) Legal services, including preparing for or participating in any civil or criminal legal proceeding related to or resulting from the domestic violence, sexual assault, or stalking.

2. Earned paid sick time shall be provided upon the request of an employee. Such request may be made orally, in writing, by electronic means, or by any other means acceptable to the employer. When possible, the request shall include the expected duration of the absence.

3. When the use of earned paid sick time is foreseeable, the employee shall make a good faith effort to provide notice of the need for such time to the employer in advance of the use of the earned paid sick time and shall make a reasonable effort to schedule the use of earned paid sick time in a manner that does not unduly disrupt the operations of the employer. Where such need is not foreseeable, an employer may require an employee to provide notice of the need for the use of earned paid sick time as soon as practicable.

4. An employer that requires notice of the need to use earned paid sick time where the need is not foreseeable shall provide a written policy that contains procedures for the employee to provide notice. An employer that has

not provided to the employee a copy of its written policy for providing such notice shall not deny earned paid sick time to the employee based on non-compliance with such a policy.

5. An employer may not require, as a condition of an employee's taking earned paid sick time, that the employee search for or find a replacement worker to cover the hours during which the employee is using earned paid sick time.

6. Earned paid sick time may be used in the smaller of hourly increments or the smallest increment that the employer's payroll system uses to account for absences or use of other time.

7. For earned paid sick time of three or more consecutive work days, an employer may require reasonable documentation that the earned paid sick time has been used for a purpose covered by subsection (1) of this section.

(A) Documentation signed by a heath care professional indicating that earned paid sick time is necessary shall be considered reasonable documentation for purposes of this section.

(B) In cases of domestic violence, sexual assault, or stalking, if the employer requests, one of the following types of documentation selected by the employee shall be considered reasonable documentation: (i) a police report indicating that the employee or the employee's family member was a victim of domestic violence, sexual assault, or stalking, (ii) a written statement from an employee or agent of a victim service provider affirming that the employee or employee's family member is or was receiving services from a victim service provider; (iii) documentation signed by a health care professional from whom the employee or employee's family member sought assistance relating to domestic violence, sexual assault, or stalking or the effects thereof; (vi) a court document indicating that an employee or employee's family member is or was involved in a legal action related to domestic violence, sexual assault, or stalking; or (v) a written statement from the employee affirming that the employee or employee's family member is taking or took earned paid sick time for a qualifying purpose of subsection (1) of this section.

(C) An employer may not require that the documentation explain the nature of the illness, details of the underlying health needs, or the details of the domestic violence, sexual assault, or stalking, unless otherwise required by law.

290.609. 1. It shall be unlawful for an employer or any other person to interfere with, restrain, or deny the exercise of, or the attempt to exercise, any right protected under sections 290.600 through 290.642.

2. An employer shall not take retaliatory personnel action or discriminate against an employee or former employee because the individual has exercised rights protected under sections 290.600 through 290.642. Such rights include, but are not limited to, the right to request or use earned paid sick time pursuant to sections 290.600 through 290.642; the right to file a complaint or inform any person about any employer's alleged violation of sections 290.600 through 290.642; the right to participate in any investigation, hearing, or proceeding or cooperate with or assist the Department in any investigations of alleged violations of sections 290.600 through 290.642; and the right to inform any person of his or her potential rights under sections 290.600 through 290.642.

3. It shall be unlawful for an employer's absence control policy to count earned paid sick time taken under sections 290.600 through 290.642 as an absence that may lead to or result in discipline, discharge, demotion, suspension, or any other adverse action.

4. Protections of this section shall apply to any individual who mistakenly but in good faith alleges violations of sections 290.600 through 290.642.

290.612. 1. Employers shall give employees a written notice about earned paid sick time within fourteen calendar days of the commencement of employment or within ninety days of the effective date of this law, whichever is later, which must include the following information: (1) employees accrue and are entitled to earned paid sick time at the rate one hour of earned paid sick time for every 30 hours of work, and may use earned paid sick time, subject to the terms under sections 290.600 through 290.642 of Missouri law, (2) it is prohibited for an employer to take retaliatory personnel action against employees who request or use earned paid sick time as allowed by law, (3) each employee has the right to bring a civil action if earned paid sick time as required by sections 290.600 through 290.642 is denied by the employer or the employee is subjected to retaliatory personnel action by the employer for exercising the employee's rights under sections 290.600 through 290.642; and, (4) the contact information for the Department. Notice shall be provided by the Employer to the employee on a single piece of paper, at least 8.5 x 11, in no less than 14-point font.

2. Employers shall display a poster that contains the information required in subsection (1) of this section in a conspicuous and accessible place in each establishment where such employees are employed, provided that such poster has been provided by the Department.

3. The Department may create and make available to employers, model notices and posters that contain the information required under subsection (1) of this section for employers' use in complying with subsections (1) and (2) of this section. Nothing in sections 290.600 through 290.642 shall be interpreted or applied, either expressly or through practical necessity, to require the appropriation of funds to cover the costs associated with the Department creating or making available notices or posters.

290.615. 1. Employers shall retain records documenting hours worked by employees and earned paid sick time taken by employees, for a period of not less than three years, and shall allow the Department access to such records, with appropriate notice and at a mutually agreeable time, to monitor compliance with the requirements of sections 290.600 through 290.642.

2. To the extent permitted by law, the Director may inspect such records, and the records shall be open for inspection by the Director by appointment. Where the records required under this section are kept outside the state, the records shall be made available to the Director upon demand. Every such employer shall furnish to the Director on demand a sworn statement of time records and information upon forms prescribed or approved by the Director. All the records and information obtained by the Department are confidential and shall be disclosed only on order of a court of competent jurisdiction.

3. Nothing in sections 290.600 through 290.642 shall be interpreted or applied, either expressly or through practical necessity, to require the appropriation of funds to cover the costs associated with the Department or Director accessing or inspecting records or creating forms relating to the inspection of records.

290.618. 1. The Department may, in accordance with chapter 536, promulgate rules for the implementation, enforcement, and administration of sections 290.600 through 290.642. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2022, shall be invalid and void.

2. Nothing in sections 290.600 through 290.642 shall be interpreted or applied, either expressly or through practical necessity, to require the appropriation of funds to cover the costs associated with the promulgation or adoption of rules.

290.621. 1. The Department may investigate and ascertain compliance with sections 290.600 through 290.642, establish and implement a system to receive complaints regarding non-compliance with sections 290.600 through 290.642 and to investigate and attempt to resolve complaints between the complainant and the subject of the complaint, and establish additional means of enforcement, including requiring by subpoena the testimony of witnesses and production of books, records, and other evidence relative to any matter under investigation or hearing, issuing notices of violation, holding hearings on notices of violation, making determinations, recovering unpaid earned sick time, and imposing fines for willful violations of up to $500 per day of each day of a continuing violation. A final decision of the department is subject to review in accordance with the provisions of chapter 536.

2. The Department may develop and implement an outreach program to inform employees, parents, and persons who are under the care of a health care provider about the availability of earned paid sick time under sections 290.600 through 290.642. This program may include the distribution of notices and other written materials to child care and elder care providers, domestic violence shelters, schools, hospitals, community health centers and other health care providers in Missouri.

3. A municipality, county, city, town, or village may adopt ordinances, rules, and regulations to investigate and ascertain compliance with sections 290.600 through 290.642, establish and implement a system to receive complaints regarding non-compliance with sections 290.600 through 290.642 and to investigate and attempt to resolve complaints between the complainant and the subject of the complaint, and establish additional means of enforcement, with respect to employers within, or employees performing work while physically present in, the geographic boundaries of the municipality, county, city, town, or village. Any such ordinance, rule, or regulation shall be consistent with this law and any Department rules or regulations and system for compliance and enforcement. The municipality, county, city, town, or village may exercise such powers as allowed by any applicable charter or ordinance, including requiring by subpoena the testimony of witnesses and production of books, records, and other evidence relative to any matter under investigation or hearing, issuing notices of violation, holding hearings on notices of violation, making determinations, recovering unpaid earned sick time, and imposing fines for willful violations of up to the maximum allowed for an ordinance violation. Before investigating or seeking to resolve any complaint between the complainant and the subject of the complaint, the municipality, county, city, town, or village shall give notice to the Department with a copy of the complaint and, within 14 days of such notice, the Department may intervene as of right and participate in the matter to ensure that the complaint is being investigated and resolved in the interest of effective enforcement of sections 290.600 through 290.642 or, alternatively, the Department may institute its own proceedings in which case the municipality, county, city, town, or village shall refrain from acting on the matter so long as the complaint is being investigated and resolved in the interest of effective enforcement of sections 290.600 through 290.642. If the Department does not, within 14 days, intervene or instigate its own proceedings, the municipality, county, city, town, or village may, without the Department, investigate and attempt to resolve the complaint and take other additional means as permitted to enforce sections 290.600 through 290.642 against the subject of the complaint. In no event shall an employer be subject to compliance proceedings arising out of a single set of facts after having already been subjected to a final compliance order by another government entity.

4. Nothing in sections 290.600 through 290.642 shall be interpreted or applied, either expressly or through practical necessity, to require the appropriation of funds to cover the costs associated with the Department, a municipality, county, city, town, or village conducting investigations and ascertaining compliance with sections 290.600 through 290.642, establishing and implementing a system to receive, investigate, or resolve complaints, establishing additional means of enforcement, or conducting outreach and education, including the creation of notices and other written materials, concerning sections 290.600 through 290.642.

290.624. 1. Any employer who willfully violates or fails to comply with any of the provisions and requirements of sections 290.600 through 290.642 shall be guilty of a class C misdemeanor; provided, however,

that an employer who willfully violates the notice and posting requirements of section 290.612 shall be guilty of an infraction.

2. For purposes of this section, each day of violation or failure to comply and each employee affected shall constitute a separate offense.

290.627. 1. Any individual who claims to have been aggrieved by a failure of an employer to comply with any portion of sections 290.600 through 290.642, including but not limited to the failure to provide earned paid sick time or to allow employees to use such time consistent with sections 290.600 through 290.642, or who claims to have suffered a retaliatory personnel action, shall have a right of action and may commence a civil action in the appropriate court of jurisdiction within three years of the accrual of the cause of action, to obtain appropriate relief with respect to such unlawful violation. Such action may be brought without first filing an administrative complaint.

2. In a civil action under this section, if the court finds a violation has occurred, the court may grant as relief, as it deems appropriate and to the extent permitted by law, any permanent or temporary injunction, the full amount of any unpaid earned sick time plus any actual damages suffered as the result of the employer's violation of sections 290.600 through 290.642, an additional amount equal to twice any unpaid earned sick time as liquidated damages, costs, and reasonable attorney's fees as may be allowed by the court, and other legal or equitable relief as may be appropriate to remedy the violation, including, without limitation, reinstatement to employment and back pay.

290.630. 1. Except as otherwise required by law, an employer may not require disclosure of details relating to an employee's or an employee's family member's health information, domestic violence, sexual assault, or stalking as a condition of providing earned paid sick time under sections 290.600 through 290.642.

2. Unless as otherwise required by law, any health or safety information possessed by an employer regarding an employee or employee's family member must:

(A) be maintained on a separate form and in a separate file from other personnel information;

(B) be treated as confidential medical records; and

(C) not be disclosed except to the affected employee or with the express written permission of the affected employee.

290.633. 1. Nothing in sections 290.600 through 290.642 shall be deemed to interfere, impede, or otherwise diminish the right of employees to bargain collectively through representatives of their own choosing in order to establish earned paid sick time or other conditions of work in excess of the applicable minimum standards under the provisions of sections 290.600 through 290.642.

2. Any waiver by an employee of rights under sections 290.600 through 290.642 shall be deemed contrary to public policy and shall be void.

290.636. 1. Nothing in sections 290.600 through 290.642 shall be construed to discourage or prohibit an employer from the adoption or retention of an earned paid sick time policy more generous than the one required herein.

2. Nothing in sections 290.600 through 290.642 shall be construed as diminishing the obligation of an employer to comply with any contract, collective bargaining agreement, employment benefit plan, or other agreement providing more generous paid sick time to an employee than required herein. Nothing in sections 290.600 through 290.642 shall be construed as diminishing the rights of public employees regarding paid sick time or use of paid sick time as provided in the laws of Missouri and ordinances of political subdivisions pertaining to public employees.

290.639. 1. Sections 290.600 through 290.642 provide minimum requirements pertaining to earned paid sick time and shall not be construed to preempt, limit, or otherwise affect the applicability of any other law, regulation, requirement, policy, or standard that provides for greater accrual or use by employees of earned paid sick time or that extends other protections to employees.

2. Nothing in sections 290.600 through 290.642 shall be interpreted or applied to create a power or obligation contrary to any federal law, rule, or regulation.

290.642. Except as detailed in section 290.618, all of the provisions of sections 290.600 through 290.642 are severable, and if any provision, including any section, subsection, subdivision, paragraph, sentence, or clause, or the application thereof to any person or circumstance, is found by a court of competent jurisdiction to be invalid, unconstitutional, or unconstitutionally enacted, such decision shall not affect other provisions or applications of sections 290.600 through 290.642 that can be given effect without the invalid, unconstitutional, or unconstitutionally enacted provision or application, and to this end the provisions of sections 290.600 through 290.642 are declared severable.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (22-029)

Subject

Initiative petition from Lisa D'Souza regarding a proposed amendment to Chapter 290 of the Revised Statutes of Missouri. (Received May 3, 2021)

Date

May 21, 2021

Description

This proposal would amend Chapter 290 of the Revised Statutes of Missouri.

The amendment is to be voted on in November 2022.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education and Workforce Development,** the **Department of Health and Senior Services,** the **Department of Commerce and Insurance,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College,** the **Missouri Lottery,** the **State Tax Commission,** the **Missouri Veterans Commission,** the **Missouri Ethics Commission,** the **Missouri Office of Prosecution Services,** the **Kansas City Board of Police Commissioners,** the **Metropolitan Police Department - City of St. Louis,** the **St. Louis County Board of Elections,** the **Board of Election Commissioners City of St. Louis,** the **Kansas City**

Board of Election Commissioners, the **Platte County Board of Elections,** the **Jackson County Election Board,** the **Clay County Board of Election Commissioners,** the **Lieutenant Governor's office,** the **Children's Trust Fund of Missouri,** the **Missouri Joint Municipal Electric Utility Commission,** the **State Auditor's office,** the **Metropolitan Zoological Park and Museum District,** the **Missouri Municipal League,** the **Missouri Bar Association,** the **Missouri Gaming Commission,** the **Municipal League of Metro St. Louis, University of Central Missouri, Harris-Stowe State University, Lincoln University, Missouri State University, Missouri Southern State University, Missouri Western State University, Northwest Missouri State University, Southeast Missouri State University,** and **Truman State University**.

Amy Blouin, President & CEO, Missouri Budget Project provided information to the State Auditor's office.

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, they expect that their office could absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, their office may be required to request additional appropriations.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated no fiscal impact to their department.

Officials from the **Department of Elementary and Secondary Education** indicated no impact to their department.

Officials from the **Department of Higher Education and Workforce Development** indicated no impact to their department.

Officials from the **Department of Health and Senior Services** indicated they defer to the Office of Administration for response to this initiative petition.

Officials from the **Department of Commerce and Insurance** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no impact. This proposal excludes state employees.

Officials from the **Department of Labor and Industrial Relations** indicated:

Space is required for 10 full time employees (FTE) X 200 square feet per FTE X $20.70 per square foot = $41,400. This FTE will be located in Cole County.

Small business will be required to comply with the law and grant employees one hour of sick leave for every thirty hours worked. The rate of pay for each hour taken in sick leave is determined by a formula that takes into account the individual employee's hourly rate (or its equivalent for salaried employees) plus a calculation of current fringe benefits. This mandate will apply to all employers in the state, regardless of size, who are not currently providing an equal or greater sick leave benefit. Employers with 15 or more employees will be required to allow the use of 40 hours of sick leave per year and those with under 15 employees will need to allow the use of 24 hours per year.

Based on the most recent data available through the Quarterly Census of Employment and Wages (QCEW), there were an average of 200,711 non-construction-related employers in Missouri for 2020, with roughly 169,120 of those employing less than 15 staff (442,275) total employees), and roughly 31,620 employ 15 or more staff (2,105,875 total employees). Assuming the average hourly wage of $24.29/hour for Missouri in 2020 and the more recent Bureau of Labor Statistic for the state that roughly 60% of employers do no provide paid leave to employees, the estimated costs to businesses as a result of this language would be:

- Up to $154,697,180 for employers with less than 15 employees at 24/hours per year.
- Up to $1,227,640,890 for employers with 15 or more employees at 40/hours per year.

This level of mandate of small businesses will be extremely costly for thousands of employers, especially considering that the allowable reasons to use sick leave are broad and include a variety of physical and mental illnesses as well as the ability to use such leave to prepare for designated legal proceedings. The ability to use such leave is allowed for "family members" which is defined broadly to extend to individuals who have no biological or legal relationship to the employee but rather stand in a relationship where the employee is "responsible for finding or arranging health or safety related care..." or has assumed an "in loco parentis" status.

Alleged failure of an employee to provide paid sick leave will subject the employer to both civil suits and criminal proceedings. Each day where an employer is found to be in violation of the law will constitute a separate offense (a C misdemeanor) along with its potentially associated fines and/or jail time.

This proposal would authorize the Department of Labor & Industrial Relations (DOLIR) to investigate allegations of non-compliance, to subpoena records, hold hearings, adjudicate such disputes and to issue fines in the amount of $500 for each day of a violation.

They estimate it would need additional FTE and ongoing costs to set up and administer the program, and a new computer system will have to be developed for this program.

Since the proposal is subject to voter approval, their estimate covers the range of costs from non-approval by voters ($0) or a decision to decline to undertake the statutorily permissible enforcement role ($0) to full implementation of the proposal.

Cost Estimate – DOLIR

They estimate the total cost to develop, administer, and maintain the program to be over $1.2 million per year (excluding benefits paid). In estimating the total costs of the program, they have used the following assumptions.

Program Operations – Sections 290.600-290.642

They estimate that three new or expanded sections will be required to administer the program: Call Center, increased staff for the Division of Labor Standards for investigative and adjudicatory functions, and an expanded administrative staff within their department to include additional attorneys in the Office of General Counsel to help conduct public hearings, administer legal process, advise on the levying of fines and to prepare cases for appeal under Chapter 536.

Call Center – Begins 1/1/23

They assume that a Call Center will be required to handle questions and concerns from claimants and employers. Based on the call volume for other programs, 3.00 Program Specialists (Range 5 - $41,929) will be required to assist callers. The section will also require 1.00 Administrative Support Assistant (Range 3 - $34,019) to provide administrative support and 1.00 Benefit Program Supervisor (Range 6 - $47,071) to manage the unit.

Section #	290.600-290.642 Program Operations - Call Center - Begins 1/1/23					
Personal Services						
Job Class	Range	FTE	Salary	FY 2022	FY 2023	FY 2024

Total				**$240,826**	**$366,546**	**$370,136**

Expense & Equipment (E&E)
They have utilized the standard per FTE costs when calculating operating expenses and equipment for this estimate. Additional mailing costs are detailed below.

Relief on Behalf of Affected Employees – Section 290.609.1 – Begins 1/1/23
The bill authorizes their department to bring enforcement actions against employers who do not abide by the law. This would require additional investigators, adjudicators, and attorneys.

The number of employees who would file complaints cannot be estimated at this time; however, for the sake of this estimate, they assume each case would require an average of 20 hours of attorney time and 20 hours of support staff time. For every 100 cases, 1.00 Attorney ($60,000) and 0.25 of a Paralegal ($40,000) would be required. If 100 cases are brought per year, this would require 2.00 Attorneys and 1.00 Paralegal. If there are more than 240 cases per year, and the staff are unable to absorb the additional workload, additional funding would be pursued via the appropriations process.

Standard E&E costs, along with mobile telephones and travel expenses for the Attorneys are also included in this estimate. The cost estimate assumes these cases would begin when the program becomes operational, January 1, 2023.

Section #	290.609.1 - Relief on Behalf of Affected Employees – Begins 1/1/23					
Personal Services						
Job Class	Range	FTE	Salary	FY 2022	FY 2023	FY 2024

Outreach – Section 290.621.2

Section 290.621.2 provides for their department to develop and implement an outreach program to ensure that employees who may be eligible to receive benefits are aware of the program. The outreach program will also educate Missouri's approximately 166,282 employers. Outreach materials will be available to our partners at Missouri Job Centers, business associations, and economic development agencies and mailed to all Missouri-registered businesses quarterly.

Promotional materials, and a brochure that targets businesses while still containing information for employees might be created. They estimate the total number of brochures printed and mailed annually at 700,000.

Section #	290.621.2 - Outreach - Begins 7/1/22					
Personal Services						
Job Class	Range	FTE	Salary	FY 2022	FY 2023	FY 2024

Total				**$385,214**	**$394,625**	**$404,491**

Administrative Services

Since this legislation would, in effect, create a substantially expanded Division of Labor Standards within their department, it is anticipated their department will require 1.00 Deputy Division Director, and 1.00 Administrative Office Support Assistant to manage and coordinate operations of the division.

Section #	Administrative Services - begins 7/1/22					
Personal Services						
Job Class	Range	FTE	Salary	FY 2022	FY 2023	FY 2024
Deputy Director		1.00	$70,000	$70,000	$70,700	$71,407
Admin Support Asst	3	1.00	$34,019	$34,019	$34,359	$34,703
Total PS		**2.00**		**$104,019**	**$105,059**	**$106,110**
Fringe Benefits				**$57,585**	**$57,930**	**$58,279**
Equipment - One-Time Costs						
	BOBC	Units	Cost	FY 2022	FY 2023	FY 2024
Telecom Equipment	340	2.00	$200	$400		
Computer Equipment	480	2.00	$1,607	$3,214		
Office Equipment	580	2.00	$6,530	$13,060		
Additional Equipment (Provide Explanation)						
Telecom-Mobile Device(s)	340	1.00	$400	$400		
Total Equipment				**$17,074**	**$0**	**$0**
Expenses - Ongoing Costs						
Standard Expenses per FTE	BOBC	Units	Cost	FY 2022	FY 2023	FY 2024
Fuel & Utilities	180	2.00	$460	$920	$943	$967
Supplies	190	2.00	$372	$744	$763	$782
Housekeeping & Janitorial	420	2.00	$345	$690	$707	$725
Telecom Serv & Supp	340	2.00	$794	$1,588	$1,628	$1,669
Professional Services (Network)	400	2.00	$399	$798	$818	$838
Building Leases	680	2.00	$4,140	$8,280	$8,487	$8,699
Additional Expenses (Provide Explanation)						
Travel, In-State	140	1.00	$773	$773	$792	$812
Telecom-Mobile Services	340	1.00	$540	$540	$554	$568
Total Expenses				**$14,333**	**$14,692**	**$15,060**

They further assume that additional administrative services staff will be required including legal counsel, financial management, mail services, facility management, procurement, training, and human resources. For the purposes of this estimate they project indirect costs at 5% of program operations costs (personal services and fringe benefits) beginning in fiscal year (FY) 2022. One full year of administrative costs, would be realized in FY 2022 $215,624, FY 2023 $214,874, and FY 2024 $216,957.

Standard Equipment per FTE	BOBC	Units	Cost	FY 2022	FY 2023	FY 2024
Administrative 5% Indirect Costs				$22,613	$37,193	$37,508
Total Administrative Cost				**$215,624**	**$214,874**	**$216,957**

They estimate the total cost to develop, administer, and maintain the program to be over $1.2 million per year (excluding benefits paid).

	FY-2022	FY-2023	FY-2024
Personal Services	$287,594	$471,936	$476,656
Fringe Benefits	$164,663	$271,930	$273,497
Equipment and Expense	$560,428	$501,773	$513,705
Total	$1,012,684	$1,245,639	$1,263,858

Of these costs, $84,570 are one-time equipment costs in FY 2022.

Officials from the **Department of Revenue** indicated no impact.

Officials from the **Department of Public Safety** indicated no impact for their department.

Officials from the **Department of Social Services** indicated this will have no fiscal impact for their department.

Officials from the **Governor's Office** indicated this proposal relating to levels of sick leave available to employees should not fiscally impact their office.

Officials from the **House of Representatives** indicated no fiscal impact.

Officials from the **Department of Conservation** indicated there is no anticipated fiscal impact (cost or savings) to their department associated with this initiative petition.

Officials from the **Department of Transportation** indicated this initiative petition would have no fiscal impact to their department/Missouri Highways and Transportation Commission.

Officials from the **Office of Administration** indicated this proposal relating to levels of sick leave available to employees should not fiscally impact their office.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be $7 million based on the cost of the 2020 Presidential Preference Primary.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Funding for this item is adjusted each year depending upon the election cycle. A new decision item is requested in odd numbered fiscal years and the amount requested is dependent upon the estimated number of ballot measures that will be approved by the General Assembly and the initiative petitions certified for the ballot. In fiscal year (FY) 2014, the General Assembly changed the appropriation so that it was no longer an estimated appropriation.

In FY19, over $5.8 million was spent to publish the full text of the measures for the August and November elections. Their office estimates $75,000 per page for the costs of publications based on the actual cost incurred for the one referendum that was on the August 2018 ballot.

Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated no fiscal impact for their office.

Officials from the **State Treasurer's office** indicated no fiscal impact to their office.

Officials from **Clay County** indicated this petition appears to exempt local governments. However, their county already meets the requirements herein as they provide 3.69 hours of sick leave per pay period with a 1000 hour max. Therefore, there is no fiscal impact on their county.

Officials from **Greene County** indicated there are no estimated costs or savings to report from their county for this initiative petition.

Officials from **St. Louis County** indicated they do not have any information to provide.

Officials from the **City of Kansas City** indicated this initiative petition will have no fiscal impact on their city.

Officials from the **City of St. Louis** indicated the City of St. Louis Personnel Department has determined that the city would be exempted from the amended statutes because the definition of "employer" in chapter 290.600 specifically excludes political subdivisions of the state.

Officials from **Metropolitan Community College** indicated no fiscal impact to their college.

Officials from **University of Missouri** indicated they do not anticipate a significant financial impact.

Officials from the **Missouri Lottery** indicated no fiscal impact to their agency.

Officials from the **State Tax Commission** indicated no fiscal impact on their agency.

Officials from the **Missouri Veterans Commission** indicated this initiative petition will have no fiscal impact upon their agency. The definition of the term "employer" in the proposed section 290.600(6) RSMo explicitly excludes the State and its agencies, so the provisions of the petition would not apply to the Commission should it become law.

Officials from the **Missouri Ethics Commission** indicated they will defer to the Office of Administration.

Officials from the **St. Louis County Board of Elections** indicated this would have no fiscal impact on their Board.

Officials from the **Board of Election Commissioners City of St. Louis** indicated this proposed measure would have no fiscal impact on their organization.

Officials from the **Children's Trust Fund** indicated no impact for the Office of Administration/Children's Trust Fund.

Officials from the **State Auditor's office** indicated since this proposed initiative petition does not apply to government entities, this would have no fiscal impact on their office.

Officials from the **Missouri Gaming Commission** indicated the proposal will have no fiscal impact on their agency.

Officials from **University of Central Missouri** indicated they have determined there is potential for future fiscal impact but too speculative to estimate impact.

Section 290.603 and beyond starts the portions that will have a fiscal impact. The component that every employee after 30 hours shall be granted paid sick leave is huge when you factor in student workers, temps, adjuncts, etc. Additionally, there is a provision that states that an employee rehired within 9 months of separation shall be entitled to all unused paid sick time that was on their account when they left. This is going to be a huge administrative burden and require, at minimum, the purchase of a time and attendance system that can be programmed to track all of the variations.

Section 290.627 has provisions for civil litigation, charges, and awards for damages for violation of the provisions of this act, which is where the real ambiguous component to fiscal implication and indeterminate concerns are based.

Amy Blouin, President & CEO, Missouri Budget Project provided the following information:

MBP
MISSOURI BUDGET PROJECT

Earned Sick Leave in Missouri: Costs and Savings for Employers

In addition to helping employees by allowing them to address their health needs without losing their jobs or ability to pay their bills, paid sick leave has many benefits for employers, including a healthier workforce, reduced turnover, and increased productivity. The benefits of paid sick leave have been highlighted by the current COVID-19 pandemic, illustrating the importance of workers being able to recover at home without lost wages and without risking spread of contagious disease in the workplace.

Several possible 2022 ballot measures have been filed that would require employers to provide earned sick leave in Missouri. Though the measures vary slightly, each would require employers to provide a minimum of 3-7 days of paid leave to employees, depending on hours worked and size of business. Public employees are exempt in all versions. If implemented, Missouri would join the thirteen states, plus the District of Columbia, (in addition to dozens of municipalities) who ensure employees can earn paid sick leave to care for themselves or family members.[i]

This analysis documents the number of people who may be impacted under Missouri's proposals and how access to paid sick leave reduces employer costs. Similar savings have been documented by research covering a variety of states that have implemented earned sick leave policies.[ii] The table below provides an overview of the estimated costs and savings for employers in Missouri. **We find that expanding earned sick leave to Missouri's nearly 538,000 workers without access would provide a net savings to employers of approximately $17.4 million annually.**

Estimated Costs and Savings to Employers from Earned Sick Leave in Missouri

		Cost/Savings Per Employee		
	Total Annual	**Annual**	**Weekly**	**Hourly**
Costs	$238.05M	$442.61	$8.51	$0.21
Cost for Sick Leave	$230.35M			
Cost for Parental Leave	$7.7M			
Savings	$255.45M	$474.95	$9.13	$0.23
Reduced Turnover	$147.59M			
Reduced Presenteeism	$82.27M			
Reduced Flu Contagion	$25.59M			
Net Savings	$17.4M	$32.34	$0.62	$0.02

Access to Paid Sick Leave in Missouri

Based on an analysis of data from the Missouri Department of Economic Development (MERIC), the U.S. Bureau of Labor Statistics, and the U.S. Census Bureau, we estimate that approximately one in four (or nearly 538,000) Missouri workers would be newly covered by earned sick leave provisions through the ballot measures. These workers are concentrated primarily in service, sales & office, and production, transportation, & material moving related occupations.

Estimated Number of Workers Newly Covered by Paid Sick Leave in Missouri by Occupation

Occupation	Total Employment	Share Exempt	Workers Covered by Initiatives	Share with No Sick Leave	Estimated Workers Newly Covered
Management, Business, Science, and Arts	870,750	27%	636,515	8%	**50,921**
Service	609,500	25%	458,619	41%	**188,034**
Sales and Office	674,870	16%	568,561	23%	**130,769**
Natural Resources, Construction, and Maintenance	224,740	23%	172,541	32%	**55,213**
Production, Transportation, and Material Moving	440,740	9%	403,199	28%	**112,896**
Total	**2,820,600**	**21%**	**2,239,435**	**24%**	**537,833**

Note: Estimated workers covered by paid leave initiatives calculated as the total number of employees by occupation[iii] less the share of that occupation estimated to be exempt (self-employed or local, state, and federal government workers).[iv] Workers newly covered calculated as the total number of workers covered less the share of private workforce that already has access to paid sick leave by occupation.[v]

Cost of Earned Sick Leave to Employers

Employers would be responsible for the wages and associated benefits (such as payroll taxes and insurance) of newly eligible workers who take earned sick leave. Based on average daily wages and benefits in 2019 (see Appendix for detailed calculations), we estimate that Missouri employers would spend approximately $235 million annually on wages & benefits for workers newly eligible for earned sick leave.

Estimated Annual Cost of Earned Sick Leave to Employers

	Wages	Benefits	Total
Cost for Sick Leave	$163,333,388	$67,013,220	**$230,346,608**
Cost for Parental Leave	$5,462,868	$2,241,332	**$7,704,200**
Total	**$168,796,256**	**$69,254,552**	**$238,050,808**

Note: Average cost of earned sick leave calculated as average daily cost of wages & benefits multiplied by the average number of sick days per year[vi] (2.1) taken by workers with access to paid sick leave (or in the case of parental leave an additional 4.9 days per year for a total of 7 days); annual cost per worker is then multiplied by the number of newly covered workers by occupation to determine the annual cost of compensation for workers taking earned sick leave.

Sick Leave. Employees with access to paid leave generally do not use the full amount of paid sick leave to which they are entitled annually. A typical worker with paid sick leave uses 2.1 days of sick leave a year; around 45% of employees with access to paid leave use no sick time at all in a given year.[vii] **Adjusting for average wage by occupation, the cost of wages & benefits for newly eligible employees at 2.1 days per year is $230.3 million dollars annually.**

Parental Leave. We also assume that women who give birth will use the maximum amount of annual earned sick time (or an additional 4.9 days to equal a total of 7 sick days). Each year, 72,127 Missouri women give birth.[viii] Adjusting for employment rate among women in Missouri (56%),[ix] the estimated share of women working who are exempt (21%), and the share already covered by paid sick leave (76%), we estimate that 7,709 Missouri women will use these additional sick days for maternity care annually. **The cost of wages & benefits for newly eligible women who give birth is $7.7 million annually.**

Savings from Earned Sick Leave to Employers

The cost of earned sick leave to employers is offset by significant cost savings derived from benefits such as reduced employee turnover, reduced presenteeism (employees working at reduced capacity while sick or injured), and reduced contagion in the workplace. **We estimate that Missouri employers would save at least $255.4 million annually due to the implementation of earned sick leave policies.**

Estimated Annual Savings from Earned Sick Leave to Employers

	Wages	Benefits	Total
Reduced Turnover	$104,650,035	$42,936,327	**$147,586,363**
Reduced Presenteeism	$58,333,353	$23,933,293	**$82,266,646**
Reduced Flu Contagion	$18,147,602	$7,445,687	**$25,593,288**
Total Savings	**$181,130,990**	**$74,315,307**	**$255,446,297**

Note: Reduced turnover calculated by assuming a reduction in job turnover of 2.5 percentage points for those with new access to paid sick leave[x] at a cost of 20.7% of annual wages.[xi] Reduced presenteeism calculated by assuming workers without access to paid sick leave will work an average of 1.5 days while sick or injured[xii] at 50% effectiveness. Cost of reduced flu contagion calculated based on method presented in Abay, Rosa, & Pana-Cryan Appendix 3 using average estimates.[xiii]

Reduced Turnover. Access to paid sick leave gives workers the ability to address their health needs and those of their families, without having to quit a job or risk being fired. Access to paid sick leave is associated with reduced job turnover, which in turn creates significant savings for businesses.[xiv] **We estimate that Missouri employers will save $147.6 million annually due to reduced turnover in the workplace.**

Reduced Presenteeism. Employers who do not offer paid sick leave have higher rates of "presenteeism" or lost productivity due to employees working while injured or sick.[xv] Offering paid sick leave reduces the likelihood of working at reduced capacity and allows workers to recover from illness or injury more quickly. **We estimate that Missouri employers will save $82.3 million annually due to reduced presenteeism in the workplace.**

Reduced Flu Contagion. Workers without paid sick leave are more likely to come to work sick, increasing the likelihood of spreading the illness to other workers.[xvi] Access to paid sick leave allows workers to stay home when ill, reducing absenteeism related to contagious disease such as influenza. **We estimate that Missouri employers will save $25.6 million annually due to reduced flu contagion in the workplace.**

Appendix

Average Daily Wages & Benefits Used for Cost/Savings Calculations

Occupation	Average Hourly Wage	Average Work Hours/Day	Daily Estimated Average		
			Wage	Benefits	Total Compensation
Management, business, science, and arts	$34.93	7.41	$258.82	$113.11	$371.93
Service	$13.58	7.48	$101.57	$30.99	$132.56
Sales and Office	$18.79	7.20	$135.31	$52.37	$187.68
Natural Resources, Construction, and Maintenance	$24.39	8.11	$197.89	$93.93	$291.83
Production, Transportation, and Material Moving	$18.16	8.23	$149.51	$73.43	$222.94

Note: Average daily wage estimated by occupation using the average hourly wage by occupation[xvii] multiplied by average daily work hours by occupation.[xviii] The annual cost of benefits is calculated using the average cost of benefits as a share of total compensation by occupation.[xix] Total compensation equals the total cost of wages and benefits to employer.

Jefferson City, MO 65101

RE: Petition approval request from Lisa D'Souza regarding a proposed statutory amendment to Chapter 290, version 2 (2022-028)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Revised Statutes of Missouri filed by Lisa D'Souza on May 3, 2021.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

Be it enacted by the people of the State of Missouri:

Fifteen new sections to be known as sections 290.600, 290.603, 290.606, 290.609, 290.612, 290.615, 290.618, 290.621, 290.624, 290.627, 290.630, 290.633, 290.636, 290.639, and 290.642 are enacted to read as follows:

290.600. As used in sections 290.600 through 290.642:

(1) "Department", Department of Labor and Industrial Relations.

(2) "Director", Director of the Department of Labor and Industrial Relations.

(3) "Domestic violence", as such term is defined in section 455.010.

(4) "Earned paid sick time", time that is compensated at the same hourly rate and with the same benefits, including health care benefits, as the employee normally earns during hours worked and is provided by an employer to an employee for the purposes described in section 290.606, but in no case shall this hourly amount be less than that provided under section 290.502.

(5) "Employee", any individual employed in this state by an employer, but does not include:

(A) Any individual engaged in the activities of an educational, charitable, religious, or nonprofit organization where the employer-employee relationship does not, in fact, exist or where the services rendered to the organization are on a voluntary basis;

(B) Any individual standing in loco parentis to foster children in their care;

(C) Any individual employed for less than four months in any year in a resident or day camp for children or youth, or any individual employed by an educational conference center operated by an educational, charitable or not-for-profit organization;

(D) Any individual engaged in the activities of an educational organization where employment by the organization is in lieu of the requirement that the individual pay the cost of tuition, housing or other educational fees of the organization or where earnings of the individual employed by the organization are credited toward the payment of the cost of tuition, housing or other educational fees of the organization;

(E) Any individual employed on or about a private residence on an occasional basis for six hours or less on each occasion;

(F) Any individual employed on a casual basis to provide baby-sitting services;

(G) Any individual employed by an employer subject to the provisions of part A of subtitle IV of title 49, United States Code, 49 U.S.C. §§ 10101 et seq.;

(H) Any individual employed on a casual or intermittent basis as a golf caddy, newsboy, or in a similar occupation;

(I) Any individual who is employed in any government position defined in 29 U.S.C. §§ 203(e)(2)(C)(i)-(ii);

(J) Any individual employed by a retail or service business whose annual gross volume sales made or business done is less than five hundred thousand dollars;

(K) Any individual who is an offender, as defined in section 217.010, who is incarcerated in any correctional facility operated by the department of corrections, including offenders who provide labor or services on the grounds of such correctional facility pursuant to section 217.550; or,

(L) Any individual described by the provisions of section 29 U.S.C. 213(a)(8).

(6) "Employer", any person acting directly or indirectly in the interest of an employer in relation to an employee; provided, however, that for the purposes of sections 290.600 through 290.642 "employer" does not include the United States Government, the state, or a political subdivision of the state, including a department, agency, officer, bureau, division, board, commission, or instrumentality of the state, or a city, county, town, village, school district, public higher education institution, or other political subdivision of the state.

(7) "Family member", any of the following individuals:

(A) Regardless of age, a biological, adopted or foster child, stepchild or legal ward, a child of a domestic partner, a child to whom the employee stands in loco parentis, or an individual to whom the employee stood in loco parentis when the individual was a minor;

(B) A biological, foster, stepparent or adoptive parent or legal guardian of an employee or an employee's spouse or domestic partner or an individual who stood in loco parentis when the employee or employee's spouse or domestic partner was a minor child;

(C) An individual to whom the employee is legally married under the laws of any state, or a domestic partner who is registered as such under the laws of any state or political subdivision;

(D) A grandparent, grandchild, or sibling (whether of a biological, foster, adoptive or step relationship) of the employee or the employee's spouse or domestic partner; or

(E) A person for whom the employee is responsible for providing or arranging health or safety-related care, including but not limited to helping that individual obtain diagnostic, preventative, routine, or therapeutic health treatment or ensuring the person is safe following domestic violence, sexual assault, or stalking.

(8) "Health care professional," any individual licensed under federal or any state law to provide medical or emergency services, including but not limited to doctors, nurses, certified nurse midwives, mental health professionals, and emergency room personnel.

(9) "Person", any individual, partnership, association, corporation, business, business trust, legal representative, or any organized group of persons.

(10) "Retaliatory personnel action", denial of any right guaranteed under sections 290.600 through 290.642, or any threat, discharge, suspension, demotion, reduction of hours, or any other adverse action against an employee for the exercise of any right guaranteed herein. "Retaliatory personnel action" shall also include interference with or punishment for in any manner participating in or assisting an investigation, proceeding, or hearing under sections 290.600 through 290.642.

(11) "Same hourly rate", means the following:

(a) For employees paid on the basis of a single hourly rate, the same hourly rate shall be the employee's regular hourly rate.

(b) For employees who are paid multiple hourly rates of pay from the same employer, the same hourly rate shall be either:

(i) the wages the employee would have been paid for the hours absent during use of earned paid sick time if the employee had worked; or,

(ii) the weighted average of all hourly rates of pay during the previous pay period.

Whatever method the employer uses, the employer must use a consistent method for each employee throughout a year.

(c) For employees who are paid a salary, the same hourly rate shall be determined by dividing the wages the employee earns in the previous pay period by the total number of hours worked during the previous pay period. For determining total number of hours worked during the previous pay period, employees who are exempt from overtime requirements under 29 U.S.C. § 213(a)(1), the Fair Labor Standards Act, shall be assumed to work 40 hours in each work week unless their normal work week is less than 40 hours, in which case earned paid sick time shall accrue and the same hourly rate shall be calculated based on the employee's normal work week. Regardless of the basis used, the same hourly rate shall not be less than the effective minimum wage specified in section 290.502.

(d) For employees paid on a piece rate or a fee-for-service basis, the same hourly rate shall be a reasonable calculation of the wages or fees the employee would have received for the piece work, service, or part thereof, if the employee had worked. Regardless of the basis used, the same hourly rate shall not be less than the effective minimum wage specified in section 290.502.

(e) For employees who are paid on a commission basis (whether base wage plus commission or commission only), the same hourly rate shall be the greater of the base wage or the effective minimum wage specified in section 290.502.

(f) For employees who receive and retain compensation in the form of gratuities in addition to wages, the same hourly rate shall be the greater of the employee's regular hourly rate or 100% of the effective minimum wage specified in section 290.502 without deduction of any tips as a credit.

(12) "Sexual assault", as such term is defined in section 455.010.

(13) "Stalking", as such term is defined in section 455.010.

(14) "Year", a regular and consecutive twelve-month period as determined by the employer; except that for the purposes of section 290.615 and section 290.627, "year" shall mean a calendar year.

290.603. 1. Employees of an employer with fifteen or more employees shall accrue a minimum of one hour of earned paid sick time for every thirty hours worked, but such employees shall not be entitled to use more than forty hours of earned paid sick time per year, unless the employer selects a higher limit.

2. Employees of an employer with fewer than fifteen employees shall accrue a minimum of one hour of earned paid sick time for every thirty hours worked, but such employees shall not be entitled to use more than twenty-four hours of earned paid sick time per year, unless the employer selects a higher limit.

3. In determining the number of employees of an employer, all employees performing work in the state for an employer for compensation on a full-time, part-time, or temporary basis shall be counted. In situations in which the number of employees performing work in the state for an employer for compensation per week fluctuates above and below 15 employees per week over the course of a year, an employer is required to provide earned paid sick time pursuant to subsection (1) of this section if it maintained fifteen or more employees in the state on the payroll for some portion of a working day in each of twenty or more different calendar weeks, including any periods of leave, and whether or not the weeks were consecutive, in either the current or the preceding year (irrespective of whether the same individuals were in employment in each working day).

4. All employees shall accrue earned paid sick time as follows:

(A) Earned paid sick time as provided in this section shall begin to accrue at the commencement of employment or on the date this law goes into effect, whichever is later. An employee shall be entitled to use earned paid sick time as it is accrued. An employer may provide all earned paid sick time that an employee is expected to accrue in a year at the beginning of the year.

(B) Employees who are exempt from overtime requirements under 29 U.S.C. § 213(a)(1) of the Federal Fair Labor Standards Act will be assumed to work forty hours in each work week for purposes of earned paid sick time accrual unless their normal work week is less than forty hours, in which case earned paid sick time accrues based upon that normal work week.

(C) Earned paid sick time shall be carried over to the following year, but this law does not require an employer to permit an employee to use more than the applicable number of hours of earned paid sick time per year as set forth in subsection (1) and (2) of this section. Alternatively, in lieu of carryover of unused earned

paid sick time from one year to the next, an employer may pay an employee for unused earned paid sick time at the end of a year and provide the employee with an amount of paid sick time that meets or exceeds the requirements of sections 290.600 through 290.642 that is available for the employee's immediate use at the beginning of the subsequent year.

(D) If an employee is transferred to a separate division, entity, or location, but remains employed by the same employer, the employee is entitled to all earned paid sick time accrued at the prior division, entity, or location and is entitled to use all earned paid sick time as provided in this section. When there is a separation from employment and the employee is rehired within nine months of separation by the same employer, previously accrued earned paid sick time that had not been used shall be reinstated. Further, the employee shall be entitled to use accrued earned paid sick time and accrue additional earned paid sick time at the re-commencement of employment.

(E) When a different employer succeeds or takes the place of an existing employer, all employees of the original employer who remain employed by the successor employer are entitled to all earned paid sick time they accrued when employed by the original employer, and are entitled to use earned paid sick time previously accrued.

(F) At its discretion, an employer may loan earned paid sick time to an employee in advance of accrual by such employee.

5. Any employer with a paid leave policy, such as a paid time off policy, or a collective bargaining agreement that makes available an amount of paid leave sufficient to meet the accrual requirements of this section that may be used for the same purposes and under the same conditions as earned paid sick time under sections 290.600 through 290.642 is not required to provide additional paid sick time under this section.

6. Except as specifically provided in this section, nothing in this section shall be construed as requiring financial or other reimbursement to an employee from an employer upon the employee's termination, resignation, retirement, or other separation from employment for accrued earned paid sick time that has not been used.

290.606. 1. Earned paid sick time shall be provided to an employee by an employer for:

(A) An employee's mental or physical illness, injury, or health condition; an employee's need for medical diagnosis, care, or treatment of a mental or physical illness, injury, or health condition; an employee's need for preventative medical care;

(B) Care of a family member with a mental or physical illness, injury, or health condition; care of a family member who needs medical diagnosis, care, or treatment of a mental or physical illness, injury, or health condition; care of a family member who needs preventative medical care;

(C) Closure of the employee's place of business by order of a public official due to a public health emergency, or an employee's need to care for a child whose school or place of care has been closed by order of a public official due to a public health emergency, or care for oneself or a family member when it has been determined by the health authorities having jurisdiction or by a health care provider that the employee's or family member's presence in the community may jeopardize the health of others because of his or her exposure to a communicable disease, whether or not the employee or family member has actually contracted the communicable disease; or

(D) Absence necessary due to domestic violence, sexual assault, or stalking, provided the leave is to allow the employee to obtain for the employee or the employee's family member:

(i) Medical attention needed to recover from physical or psychological injury or disability caused by domestic violence, sexual assault, or stalking;

(ii) Services from a victim services organization;

(iii) Psychological or other counseling;

(iv) Relocation or taking steps to secure an existing home due to the domestic violence, sexual assault, or stalking; or

(v) Legal services, including preparing for or participating in any civil or criminal legal proceeding related to or resulting from the domestic violence, sexual assault, or stalking.

2. Earned paid sick time shall be provided upon the request of an employee. Such request may be made orally, in writing, by electronic means, or by any other means acceptable to the employer. When possible, the request shall include the expected duration of the absence.

3. When the use of earned paid sick time is foreseeable, the employee shall make a good faith effort to provide notice of the need for such time to the employer in advance of the use of the earned paid sick time and shall make a reasonable effort to schedule the use of earned paid sick time in a manner that does not unduly disrupt the operations of the employer. Where such need is not foreseeable, an employer may require an employee to provide notice of the need for the use of earned paid sick time as soon as practicable.

4. An employer that requires notice of the need to use earned paid sick time where the need is not foreseeable shall provide a written policy that contains procedures for the employee to provide notice. An employer that has not provided to the employee a copy of its written policy for providing such notice shall not deny earned paid sick time to the employee based on non-compliance with such a policy.

5. An employer may not require, as a condition of an employee's taking earned paid sick time, that the employee search for or find a replacement worker to cover the hours during which the employee is using earned paid sick time.

6. Earned paid sick time may be used in the smaller of hourly increments or the smallest increment that the employer's payroll system uses to account for absences or use of other time.

7. For earned paid sick time of three or more consecutive work days, an employer may require reasonable documentation that the earned paid sick time has been used for a purpose covered by subsection (1) of this section.

(A) Documentation signed by a heath care professional indicating that earned paid sick time is necessary shall be considered reasonable documentation for purposes of this section.

(B) In cases of domestic violence, sexual assault, or stalking, if the employer requests, one of the following types of documentation selected by the employee shall be considered reasonable documentation: (i) a police report indicating that the employee or the employee's family member was a victim of domestic violence, sexual assault, or stalking, (ii) a written statement from an employee or agent of a victim service provider affirming that the employee or employee's family member is or was receiving services from a victim service provider; (iii) documentation signed by a health care professional from whom the employee or employee's family member sought assistance relating to domestic violence, sexual assault, or stalking or the effects thereof; (vi) a court document indicating that an employee or employee's family member is or was involved in a legal action related to domestic violence, sexual assault, or stalking; or (v) a written statement from the employee affirming that the employee or employee's family member is taking or took earned paid sick time for a qualifying purpose of subsection (1) of this section.

(C) An employer may not require that the documentation explain the nature of the illness, details of the underlying health needs, or the details of the domestic violence, sexual assault, or stalking, unless otherwise required by law.

290.609. 1. It shall be unlawful for an employer or any other person to interfere with, restrain, or deny the exercise of, or the attempt to exercise, any right protected under sections 290.600 through 290.642.

2. An employer shall not take retaliatory personnel action or discriminate against an employee or former employee because the individual has exercised rights protected under sections 290.600 through 290.642. Such rights include, but are not limited to, the right to request or use earned paid sick time pursuant to sections 290.600 through 290.642; the right to file a complaint or inform any person about any employer's alleged violation of sections 290.600 through 290.642; the right to participate in any investigation, hearing, or proceeding or cooperate with or assist the Department in any investigations of alleged violations of sections 290.600 through 290.642; and the right to inform any person of his or her potential rights under sections 290.600 through 290.642.

3. It shall be unlawful for an employer's absence control policy to count earned paid sick time taken under sections 290.600 through 290.642 as an absence that may lead to or result in discipline, discharge, demotion, suspension, or any other adverse action.

4. Protections of this section shall apply to any individual who mistakenly but in good faith alleges violations of sections 290.600 through 290.642.

290.612. 1. Employers shall give employees a written notice about earned paid sick time within fourteen calendar days of the commencement of employment or within ninety days of the effective date of this law, whichever is later, which must include the following information: (1) employees accrue and are entitled to earned paid sick time at the rate one hour of earned paid sick time for every 30 hours of work, and may use earned paid sick time, subject to the terms under sections 290.600 through 290.642 of Missouri law, (2) it is prohibited for an employer to take retaliatory personnel action against employees who request or use earned paid sick time as allowed by law, (3) each employee has the right to bring a civil action if earned paid sick time as required by sections 290.600 through 290.642 is denied by the employer or the employee is subjected to retaliatory personnel action by the employer for exercising the employee's rights under sections 290.600 through 290.642; and, (4) the contact information for the Department. Notice shall be provided by the Employer to the employee on a single piece of paper, at least 8.5 x 11, in no less than 14-point font.

2. Employers shall display a poster that contains the information required in subsection (1) of this section in a conspicuous and accessible place in each establishment where such employees are employed, provided that such poster has been provided by the Department.

3. The Department may create and make available to employers, model notices and posters that contain the information required under subsection (1) of this section for employers' use in complying with subsections (1) and (2) of this section. Nothing in sections 290.600 through 290.642 shall be interpreted or applied, either expressly or through practical necessity, to require the appropriation of funds to cover the costs associated with the Department creating or making available notices or posters.

290.615. 1. Employers shall retain records documenting hours worked by employees and earned paid sick time taken by employees, for a period of not less than three years, and shall allow the Department access to such records, with appropriate notice and at a mutually agreeable time, to monitor compliance with the requirements of sections 290.600 through 290.642.

2. To the extent permitted by law, the Director may inspect such records, and the records shall be open for inspection by the Director by appointment. Where the records required under this section are kept outside the state, the records shall be made available to the Director upon demand. Every such employer shall furnish to the Director on demand a sworn statement of time records and information upon forms prescribed or approved by the Director. All the records and information obtained by the Department are confidential and shall be disclosed only on order of a court of competent jurisdiction.

3. Nothing in sections 290.600 through 290.642 shall be interpreted or applied, either expressly or through practical necessity, to require the appropriation of funds to cover the costs associated with the Department or Director accessing or inspecting records or creating forms relating to the inspection of records.

290.618. 1. The Department may, in accordance with chapter 536, promulgate rules for the implementation, enforcement, and administration of sections 290.600 through 290.642. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2022, shall be invalid and void.

2. Nothing in sections 290.600 through 290.642 shall be interpreted or applied, either expressly or through practical necessity, to require the appropriation of funds to cover the costs associated with the promulgation or adoption of rules.

290.621. 1. The Department may investigate and ascertain compliance with sections 290.600 through 290.642, establish and implement a system to receive complaints regarding non-compliance with sections 290.600 through 290.642 and to investigate and attempt to resolve complaints between the complainant and the subject of the complaint, and establish additional means of enforcement, including requiring by subpoena the testimony of witnesses and production of books, records, and other evidence relative to any matter under investigation or hearing, issuing notices of violation, holding hearings on notices of violation, making determinations, recovering unpaid earned sick time, and imposing fines for willful violations of up to $500 per day of each day of a continuing violation. A final decision of the department is subject to review in accordance with the provisions of chapter 536.

2. The Department may develop and implement an outreach program to inform employees, parents, and persons who are under the care of a health care provider about the availability of earned paid sick time under sections 290.600 through 290.642. This program may include the distribution of notices and other written materials to child care and elder care providers, domestic violence shelters, schools, hospitals, community health centers and other health care providers in Missouri.

3. A municipality, county, city, town, or village may adopt ordinances, rules, and regulations to investigate and ascertain compliance with sections 290.600 through 290.642, establish and implement a system to receive complaints regarding non-compliance with sections 290.600 through 290.642 and to investigate and attempt to resolve complaints between the complainant and the subject of the complaint, and establish additional means of enforcement, with respect to employers within, or employees performing work while physically present in, the geographic boundaries of the municipality, county, city, town, or village. Any such ordinance, rule, or regulation shall be consistent with this law and any Department rules or regulations and system for compliance and enforcement. The municipality, county, city, town, or village may exercise such powers as allowed by any applicable charter or ordinance, including requiring by subpoena the testimony of witnesses and production of books, records, and other evidence relative to any matter under investigation or hearing, issuing notices of violation, holding hearings on notices of violation, making determinations, recovering unpaid earned sick time, and imposing fines for willful violations of up to the maximum allowed for an ordinance violation. Before investigating or seeking to resolve any complaint between the complainant and the subject of the complaint, the municipality, county, city, town, or village shall give notice to the Department with a copy of the complaint and, within 14 days of such notice, the Department may intervene as of right and participate in the matter to ensure that the complaint is being investigated and resolved in the interest of effective enforcement of sections 290.600 through 290.642 or, alternatively, the Department may institute its own proceedings in which case the municipality, county, city, town, or village shall refrain from acting on the matter so long as the complaint is being investigated and resolved in the interest of effective enforcement of sections 290.600 through 290.642. If the Department does not, within 14 days, intervene or instigate its own proceedings, the municipality, county, city, town, or village may, without the Department, investigate and attempt to resolve the complaint and take other additional means as permitted to enforce sections 290.600 through 290.642 against the subject of the complaint. In no event shall an employer be subject to compliance proceedings arising out of a single set of facts after having already been subjected to a final compliance order by another government entity.

4. Nothing in sections 290.600 through 290.642 shall be interpreted or applied, either expressly or through practical necessity, to require the appropriation of funds to cover the costs associated with the Department, a municipality, county, city, town, or village conducting investigations and ascertaining compliance with sections 290.600 through 290.642, establishing and implementing a system to receive, investigate, or resolve complaints, establishing additional means of enforcement, or conducting outreach and education, including the creation of notices and other written materials, concerning sections 290.600 through 290.642.

290.624. 1. Any employer who willfully violates or fails to comply with any of the provisions and requirements of sections 290.600 through 290.642 shall be guilty of a class C misdemeanor; provided, however, that an employer who willfully violates the notice and posting requirements of section 290.612 shall be guilty of an infraction.

2. For purposes of this section, each day of violation or failure to comply and each employee affected shall constitute a separate offense.

290.627. 1. Any individual who claims to have been aggrieved by a failure of an employer to comply with any portion of sections 290.600 through 290.642, including but not limited to the failure to provide earned paid sick time or to allow employees to use such time consistent with sections 290.600 through 290.642, or who claims to have suffered a retaliatory personnel action, shall have a right of action and may commence a civil action in the appropriate court of jurisdiction within three years of the accrual of the cause of action, to obtain appropriate relief with respect to such unlawful violation. Such action may be brought without first filing an administrative complaint.

2. In a civil action under this section, if the court finds a violation has occurred, the court may grant as relief, as it deems appropriate and to the extent permitted by law, any permanent or temporary injunction, the full amount of any unpaid earned sick time plus any actual damages suffered as the result of the employer's violation of sections 290.600 through 290.642, an additional amount equal to twice any unpaid earned sick time as liquidated damages, costs, and reasonable attorney's fees as may be allowed by the court, and other legal or equitable relief as may be appropriate to remedy the violation, including, without limitation, reinstatement to employment and back pay.

290.630. 1. Except as otherwise required by law, an employer may not require disclosure of details relating to an employee's or an employee's family member's health information, domestic violence, sexual assault, or stalking as a condition of providing earned paid sick time under sections 290.600 through 290.642.

2. Unless as otherwise required by law, any health or safety information possessed by an employer regarding an employee or employee's family member must:

(A) be maintained on a separate form and in a separate file from other personnel information;

(B) be treated as confidential medical records; and

(C) not be disclosed except to the affected employee or with the express written permission of the affected employee.

290.633. 1. Nothing in sections 290.600 through 290.642 shall be deemed to interfere, impede, or otherwise diminish the right of employees to bargain collectively through representatives of their own choosing in order to establish earned paid sick time or other conditions of work in excess of the applicable minimum standards under the provisions of sections 290.600 through 290.642.

2. Any waiver by an employee of rights under sections 290.600 through 290.642 shall be deemed contrary to public policy and shall be void.

290.636. 1. Nothing in sections 290.600 through 290.642 shall be construed to discourage or prohibit an employer from the adoption or retention of an earned paid sick time policy more generous than the one required herein.

2. Nothing in sections 290.600 through 290.642 shall be construed as diminishing the obligation of an employer to comply with any contract, collective bargaining agreement, employment benefit plan, or other agreement providing more generous paid sick time to an employee than required herein. Nothing in sections 290.600 through 290.642 shall be construed as diminishing the rights of public employees regarding paid sick time or use of paid sick time as provided in the laws of Missouri and ordinances of political subdivisions pertaining to public employees.

290.639. 1. Sections 290.600 through 290.642 provide minimum requirements pertaining to earned paid sick time and shall not be construed to preempt, limit, or otherwise affect the applicability of any other law, regulation, requirement, policy, or standard that provides for greater accrual or use by employees of earned paid sick time or that extends other protections to employees.

2. Nothing in sections 290.600 through 290.642 shall be interpreted or applied to create a power or obligation contrary to any federal law, rule, or regulation.

290.642. Except as detailed in section 290.618, all of the provisions of sections 290.600 through 290.642 are severable, and if any provision, including any section, subsection, subdivision, paragraph, sentence, or clause, or the application thereof to any person or circumstance, is found by a court of competent jurisdiction to be invalid, unconstitutional, or unconstitutionally enacted, such decision shall not affect other provisions or applications of sections 290.600 through 290.642 that can be given effect without the invalid, unconstitutional, or unconstitutionally enacted provision or application, and to this end the provisions of sections 290.600 through 290.642 are declared severable.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (22-028)

Subject

Initiative petition from Lisa D'Souza regarding a proposed amendment to Chapter 290 of the Revised Statutes of Missouri. (Received May 3, 2021)

Date

May 21, 2021

Description

This proposal would amend Chapter 290 of the Revised Statutes of Missouri.

The amendment is to be voted on in November 2022.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education and Workforce Development,** the **Department of Health and Senior Services,** the **Department of Commerce and Insurance,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College,** the **Missouri Lottery,** the **State Tax Commission,** the **Missouri Veterans Commission,** the **Missouri Ethics Commission,** the **Missouri Office of Prosecution Services,** the **Kansas City Board of Police Commissioners,** the **Metropolitan Police Department - City of St. Louis,** the **St. Louis County Board of Elections,** the **Board of Election Commissioners City of St. Louis,** the **Kansas City**

Board of Election Commissioners, the **Platte County Board of Elections,** the **Jackson County Election Board,** the **Clay County Board of Election Commissioners,** the **Lieutenant Governor's office,** the **Children's Trust Fund of Missouri,** the **Missouri Joint Municipal Electric Utility Commission,** the **State Auditor's office,** the **Metropolitan Zoological Park and Museum District,** the **Missouri Municipal League,** the **Missouri Bar Association,** the **Missouri Gaming Commission,** the **Municipal League of Metro St. Louis, University of Central Missouri, Harris-Stowe State University, Lincoln University, Missouri State University, Missouri Southern State University, Missouri Western State University, Northwest Missouri State University, Southeast Missouri State University,** and **Truman State University**.

Amy Blouin, President & CEO, Missouri Budget Project provided information to the State Auditor's office.

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, they expect that their office could absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, their office may be required to request additional appropriations.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated no fiscal impact to their department.

Officials from the **Department of Elementary and Secondary Education** indicated no impact to their department.

Officials from the **Department of Higher Education and Workforce Development** indicated no impact to their department.

Officials from the **Department of Health and Senior Services** indicated they defer to the Office of Administration for response to this initiative petition.

Officials from the **Department of Commerce and Insurance** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no impact. This proposal excludes state employees.

Officials from the **Department of Labor and Industrial Relations** indicated:

Space is required for 10 full time employees (FTE) X 200 square feet per FTE X $20.70 per square foot = $41,400. This FTE will be located in Cole County.

Small business will be required to comply with the law and grant employees one hour of sick leave for every thirty hours worked. The rate of pay for each hour taken in sick leave is determined by a formula that takes into account the individual employee's hourly rate (or its equivalent for salaried employees) plus a calculation of current fringe benefits. This mandate will apply to all employers in the state, regardless of size, who are not currently providing an equal or greater sick leave benefit. Employers with 15 or more employees will be required to allow the use of 40 hours of sick leave per year and those with under 15 employees will need to allow the use of 24 hours per year.

Based on the most recent data available through the Quarterly Census of Employment and Wages (QCEW), there were an average of 216,229 employers in Missouri for 2020, with 182,616 of those employing less than 15 staff (482,325 total employees), and 33,613 employ 15 or more staff (2,176,397 total employees). Assuming the average hourly wage of $24.29/hour for Missouri in 2020 and the more recent Bureau of Labor Statistic for the state that roughly 60% of employers do no provide paid leave to employees, the estimated costs to businesses as a result of this language would be:

- Up to $168,705,709 for employers with less than 15 employees at 24/hours per year.
- Up to $1,268,752,395 for employers with 15 or more employees at 40/hours per year.

This level of mandate of small businesses will be extremely costly for thousands of employers, especially considering that the allowable reasons to use sick leave are broad and include a variety of physical and mental illnesses as well as the ability to use such leave to prepare for designated legal proceedings. The ability to use such leave is allowed for "family members" which is defined broadly to extend to individuals who have no biological or legal relationship to the employee but rather stand in a relationship where the employee is "responsible for finding or arranging health or safety related care..." or has assumed an "in loco parentis" status.

Alleged failure of an employee to provide paid sick leave will subject the employer to both civil suits and criminal proceedings. Each day where an employer is found to be in violation of the law will constitute a separate offense (a C misdemeanor) along with its potentially associated fines and/or jail time.

This proposal would authorize the Department of Labor & Industrial Relations (DOLIR) to investigate allegations of non-compliance, to subpoena records, hold hearings, adjudicate such disputes and to issue fines in the amount of $500 for each day of a violation.

They estimate it would need additional FTE and ongoing costs to set up and administer the program, and a new computer system will have to be developed for this program.

Since the proposal is subject to voter approval, their estimate covers the range of costs from non-approval by voters ($0) or a decision to decline to undertake the statutorily permissible enforcement role ($0) to full implementation of the proposal.

Cost Estimate – DOLIR

They estimate the total cost to develop, administer, and maintain the program to be over $1.2 million per year (excluding benefits paid). In estimating the total costs of the program, they have used the following assumptions.

Program Operations – Sections 290.600-290.642

They estimate that three new or expanded sections will be required to administer the program: Call Center, increased staff for the Division of Labor Standards for investigative and adjudicatory functions, and an expanded administrative staff within their department to include additional attorneys in the Office of General Counsel to help conduct public hearings, administer legal process, advise on the levying of fines and to prepare cases for appeal under Chapter 536.

Call Center – Begins 1/1/23

They assume that a Call Center will be required to handle questions and concerns from claimants and employers. Based on the call volume for other programs, 3.00 Program Specialists (Range 5 - $41,929) will be required to assist callers. The section will also require 1.00 Administrative Support Assistant (Range 3 - $34,019) to provide administrative support and 1.00 Benefit Program Supervisor (Range 6 - $47,071) to manage the unit.

Section #	290.600-290.642 Program Operations - Call Center - Begins 1/1/23					
Personal Services						
Job Class	Range	FTE	Salary	FY 2022	FY 2023	FY 2024
Benefit Program Specialist	5	3.00	$41,929	$62,894	$125,787	$127,045
Admin Support Asst	3	1.00	$34,019	$17,010	$34,019	$34,359
Benefit Program Supervisor	6	1.00	$47,071	$23,536	$47,071	$47,542
Total PS		**5.00**		**$103,439**	**$206,877**	**$208,946**
Fringe Benefits				**$63,152**	**$126,304**	**$126,991**
Equipment - One-Time Costs						
Standard Equipment per FTE	BOBC	Units	Cost	FY 2022	FY 2023	FY 2024
Telecom Equipment	340	5.00	$200	$1,000		
Computer Equipment	480	5.00	$1,607	$8,035		
Office Equipment	580	5.00	$6,530	$32,650		
Total Equipment				**$41,685**	**$0**	**$0**
Expenses - Ongoing Costs						
Standard Expenses per FTE	BOBC	Units	Cost	FY 2022	FY 2023	FY 2024
Fuel & Utilities	180	5.00	$460	$2,300	$2,358	$2,417
Supplies	190	5.00	$372	$1,860	$1,907	$1,955
Housekeeping & Janitorial	420	5.00	$345	$1,725	$1,768	$1,812
Telecom Serv & Supp	340	5.00	$794	$3,970	$4,069	$4,171
Professional Services (Network)	400	5.00	$399	$1,995	$2,045	$2,096
Building Leases	680	5.00	$4,140	$20,700	$21,218	$21,748
Total Expenses				**$32,550**	**$33,365**	**$34,199**
Total				**$240,826**	**$366,546**	**$370,136**

Expense & Equipment (E&E)
They have utilized the standard per FTE costs when calculating operating expenses and equipment for this estimate. Additional mailing costs are detailed below.

Relief on Behalf of Affected Employees – Section 290.609.1 – Begins 1/1/23
The bill authorizes their department to bring enforcement actions against employers who do not abide by the law. This would require additional investigators, adjudicators, and attorneys.

The number of employees who would file complaints cannot be estimated at this time; however, for the sake of this estimate, they assume each case would require an average of 20 hours of attorney time and 20 hours of support staff time. For every 100 cases, 1.00 Attorney ($60,000) and 0.25 of a Paralegal ($40,000) would be required. If 100 cases are brought per year, this would require 2.00 Attorneys and 1.00 Paralegal. If there are more than 240 cases per year, and the staff are unable to absorb the additional workload, additional funding would be pursued via the appropriations process.

Standard E&E costs, along with mobile telephones and travel expenses for the Attorneys are also included in this estimate. The cost estimate assumes these cases would begin when the program becomes operational, January 1, 2023.

Section #	290.609.1 - Relief on Behalf of Affected Employees – Begins 1/1/23					
Personal Services						
Job Class	Range	FTE	Salary	FY 2022	FY 2023	FY 2024
Attorney		2.00	$60,000	$60,000	$120,000	$121,200
Paralegal		1.00	$40,000	$20,000	$40,000	$40,400
Total PS		**3.00**		**$80,000**	**$160,000**	**$161,600**
Fringe Benefits				**$43,848**	**$87,696**	**$88,227**
Equipment - One-Time Costs						
	BOBC	Units	Cost	FY 2022	FY 2023	FY 2024
Telecom Equipment	340	3.00	$200	$600		
Computer Equipment	480	3.00	$1,607	$4,821		
Office Equipment	580	3.00	$6,530	$19,590

Outreach – Section 290.621.2

Section 290.621.2 provides for their department to develop and implement an outreach program to ensure that employees who may be eligible to receive benefits are aware of the program. The outreach program will also educate Missouri's approximately 166,282 employers. Outreach materials will be available to our partners at Missouri Job Centers, business associations, and economic development agencies and mailed to all Missouri-registered businesses quarterly.

Promotional materials, and a brochure that targets businesses while still containing information for employees might be created. They estimate the total number of brochures printed and mailed annually at 700,000.

Section #	290.621.2 - Outreach - Begins 7/1/22					
Personal Services						
Job Class	Range	FTE	Salary	FY 2022	FY 2023	FY 2024

Administrative Services

Since this legislation would, in effect, create a substantially expanded Division of Labor Standards within their department, it is anticipated their department will require 1.00 Deputy Division Director, and 1.00 Administrative Office Support Assistant to manage and coordinate operations of the division.

Section #	Administrative Services - begins 7/1/22					
Personal Services						
Job Class	Range	FTE	Salary	FY 2022	FY 2023	FY 2024
Deputy Director		1.00	$70,000	$70,000	$70,700	$71,407

Building Leases	680	2.00	$4,140	$8,280	$8,487	$8,699
Additional Expenses (Provide Explanation)						
Travel, In-State	140	1.00	$773	$773	$792	$812
Telecom-Mobile Services	340	1.00	$540	$540	$554	$568
Total Expenses				**$14,333**	**$14,692**	**$15,060**

They further assume that additional administrative services staff will be required including legal counsel, financial management, mail services, facility management, procurement, training, and human resources. For the purposes of this estimate they project indirect costs at 5% of program operations costs (personal services and fringe benefits) beginning in fiscal year (FY) 2022. One full year of administrative costs, would be realized in FY 2022 $215,624, FY 2023 $214,874, and FY 2024 $216,957.

Standard Equipment per FTE	BOBC	Units	Cost	FY 2022	FY 2023	FY 2024
Administrative 5% Indirect Costs				$22,613	$37,193	$37,508
Total Administrative Cost				**$215,624**	**$214,874**	**$216,957**

They estimate the total cost to develop, administer, and maintain the program to be over $1.2 million per year (excluding benefits paid).

	FY-2022	FY-2023	FY-2024
Personal Services	$287,594	$471,936	$476,656
Fringe Benefits	$164,663	$271,930	$273,497
Equipment and Expense	$560,428	$501,773	$513,705
Total	$1,012,684	$1,245,639	$1,263,858

Of these costs, $84,570 are one-time equipment costs in FY 2022.

Officials from the **Department of Revenue** indicated no impact.

Officials from the **Department of Public Safety** indicated no impact for their department.

Officials from the **Department of Social Services** indicated this will have no fiscal impact for their department.

Officials from the **Governor's Office** indicated this proposal relating to levels of sick leave available to employees should not fiscally impact their office.

Officials from the **House of Representatives** indicated no fiscal impact.

Officials from the **Department of Conservation** indicated there is no anticipated fiscal impact (cost or savings) to their department associated with this initiative petition.

Officials from the **Department of Transportation** indicated this initiative petition would have no fiscal impact to their department/Missouri Highways and Transportation Commission.

Officials from the **Office of Administration** indicated this proposal relating to levels of sick leave available to employees should not fiscally impact their office.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be $7 million based on the cost of the 2020 Presidential Preference Primary.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Funding for this item is adjusted each year depending upon the election cycle. A new decision item is requested in odd numbered fiscal years and the amount requested is dependent upon the estimated number of ballot measures that will be approved by the General Assembly and the initiative petitions certified for the ballot. In fiscal year (FY) 2014, the General Assembly changed the appropriation so that it was no longer an estimated appropriation.

In FY19, over $5.8 million was spent to publish the full text of the measures for the August and November elections. Their office estimates $75,000 per page for the costs of publications based on the actual cost incurred for the one referendum that was on the August 2018 ballot.

Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated no fiscal impact for their office.

Officials from the **State Treasurer's office** indicated no fiscal impact to their office.

Officials from **Clay County** indicated this petition appears to exempt local governments. However, their county already meets the requirements herein as they provide 3.69 hours of sick leave per pay period with a 1000 hour max. Therefore, there is no fiscal impact on their county.

Officials from **Greene County** indicated there are no estimated costs or savings to report from their county for this initiative petition.

Officials from **St. Louis County** indicated they do not have any information to provide.

Officials from the **City of Kansas City** indicated this initiative petition will have no fiscal impact on their city.

Officials from the **City of St. Louis** indicated the City of St. Louis Personnel Department has determined that the city would be exempted from the amended statutes because the definition of "employer" in chapter 290.600 specifically excludes political subdivisions of the state.

Officials from **Metropolitan Community College** indicated no fiscal impact to their college.

Officials from **University of Missouri** indicated they do not anticipate a significant financial impact.

Officials from the **Missouri Lottery** indicated no fiscal impact to their agency.

Officials from the **State Tax Commission** indicated no fiscal impact on their agency.

Officials from the **Missouri Veterans Commission** indicated this initiative petition will have no fiscal impact upon their agency. The definition of the term "employer" in the proposed section 290.600(6) RSMo explicitly excludes the State and its agencies, so the provisions of the petition would not apply to the Commission should it become law.

Officials from the **Missouri Ethics Commission** indicated they defer to the Office of Administration.

Officials from the **St. Louis County Board of Elections** indicated this would have no fiscal impact on their Board.

Officials from the **Board of Election Commissioners City of St. Louis** indicated this proposed measure would have no fiscal impact on their organization.

Officials from the **Children's Trust Fund** indicated no impact for the Office of Administration/Children's Trust Fund.

Officials from the **State Auditor's office** indicated since this proposed initiative petition does not apply to government entities, this would have no fiscal impact on their office.

Officials from the **Missouri Gaming Commission** indicated the proposal will have no fiscal impact on their agency.

Officials from **University of Central Missouri** indicated they have determined there is potential for future fiscal impact but too speculative to estimate impact.

Section 290.603 and beyond starts the portions that will have a fiscal impact. The component that every employee after 30 hours shall be granted paid sick leave is huge when you factor in student workers, temps, adjuncts, etc. Additionally, there is a provision that states that an employee rehired within 9 months of separation shall be entitled to all unused paid sick time that was on their account when they left. This is going to be a huge administrative burden and require, at minimum, the purchase of a time and attendance system that can be programmed to track all of the variations.

Section 290.627 has provisions for civil litigation, charges, and awards for damages for violation of the provisions of this act, which is where the real ambiguous component to fiscal implication and indeterminate concerns are based.

Amy Blouin, President & CEO, Missouri Budget Project provided the following information:

MISSOURI BUDGET PROJECT

Earned Sick Leave in Missouri: Costs and Savings for Employers

In addition to helping employees by allowing them to address their health needs without losing their jobs or ability to pay their bills, paid sick leave has many benefits for employers, including a healthier workforce, reduced turnover, and increased productivity. The benefits of paid sick leave have been highlighted by the current COVID-19 pandemic, illustrating the importance of workers being able to recover at home without lost wages and without risking spread of contagious disease in the workplace.

Several possible 2022 ballot measures have been filed that would require employers to provide earned sick leave in Missouri. Though the measures vary slightly, each would require employers to provide a minimum of 3-7 days of paid leave to employees, depending on hours worked and size of business. Public employees are exempt in all versions. If implemented, Missouri would join the thirteen states, plus the District of Columbia, (in addition to dozens of municipalities) who ensure employees can earn paid sick leave to care for themselves or family members.[i]

This analysis documents the number of people who may be impacted under Missouri's proposals and how access to paid sick leave reduces employer costs. Similar savings have been documented by research covering a variety of states that have implemented earned sick leave policies.[ii] The table below provides an overview of the estimated costs and savings for employers in Missouri. **We find that expanding earned sick leave to Missouri's nearly 538,000 workers without access would provide a net savings to employers of approximately $17.4 million annually.**

Estimated Costs and Savings to Employers from Earned Sick Leave in Missouri

		Cost/Savings Per Employee		
	Total Annual	**Annual**	**Weekly**	**Hourly**
Costs	$238.05M	$442.61	$8.51	$0.21
Cost for Sick Leave	$230.35M			
Cost for Parental Leave	$7.7M			
Savings	$255.45M	$474.95	$9.13	$0.23
Reduced Turnover	$147.59M			
Reduced Presenteeism	$82.27M			
Reduced Flu Contagion	$25.59M			
Net Savings	$17.4M	$32.34	$0.62	$0.02

Access to Paid Sick Leave in Missouri

Based on an analysis of data from the Missouri Department of Economic Development (MERIC), the U.S. Bureau of Labor Statistics, and the U.S. Census Bureau, we estimate that approximately one in four (or nearly 538,000) Missouri workers would be newly covered by earned sick leave provisions through the ballot measures. These workers are concentrated primarily in service, sales & office, and production, transportation, & material moving related occupations.

Estimated Number of Workers Newly Covered by Paid Sick Leave in Missouri by Occupation

Occupation	Total Employment	Share Exempt	Workers Covered by Initiatives	Share with No Sick Leave	Estimated Workers Newly Covered
Management, Business, Science, and Arts	870,750	27%	636,515	8%	**50,921**
Service	609,500	25%	458,619	41%	**188,034**
Sales and Office	674,870	16%	568,561	23%	**130,769**
Natural Resources, Construction, and Maintenance	224,740	23%	172,541	32%	**55,213**
Production, Transportation, and Material Moving	440,740	9%	403,199	28%	**112,896**
Total	**2,820,600**	**21%**	**2,239,435**	**24%**	**537,833**

Note: Estimated workers covered by paid leave initiatives calculated as the total number of employees by occupation[iii] less the share of that occupation estimated to be exempt (self-employed or local, state, and federal government workers).[iv] Workers newly covered calculated as the total number of workers covered less the share of private workforce that already has access to paid sick leave by occupation.[v]

Cost of Earned Sick Leave to Employers

Employers would be responsible for the wages and associated benefits (such as payroll taxes and insurance) of newly eligible workers who take earned sick leave. Based on average daily wages and benefits in 2019 (see Appendix for detailed calculations), we estimate that Missouri employers would spend approximately $235 million annually on wages & benefits for workers newly eligible for earned sick leave.

Estimated Annual Cost of Earned Sick Leave to Employers

	Wages	Benefits	Total
Cost for Sick Leave	$163,333,388	$67,013,220	**$230,346,608**
Cost for Parental Leave	$5,462,868	$2,241,332	**$7,704,200**
Total	**$168,796,256**	**$69,254,552**	**$238,050,808**

Note: Average cost of earned sick leave calculated as average daily cost of wages & benefits multiplied by the average number of sick days per year[vi] (2.1) taken by workers with access to paid sick leave (or in the case of parental leave an additional 4.9 days per year for a total of 7 days); annual cost per worker is then multiplied by the number of newly covered workers by occupation to determine the annual cost of compensation for workers taking earned sick leave.

Sick Leave. Employees with access to paid leave generally do not use the full amount of paid sick leave to which they are entitled annually. A typical worker with paid sick leave uses 2.1 days of sick leave a year; around 45% of employees with access to paid leave use no sick time at all in a given year.[vii] **Adjusting for average wage by occupation, the cost of wages & benefits for newly eligible employees at 2.1 days per year is $230.3 million dollars annually.**

Parental Leave. We also assume that women who give birth will use the maximum amount of annual earned sick time (or an additional 4.9 days to equal a total of 7 sick days). Each year, 72,127 Missouri women give birth.[viii] Adjusting for employment rate among women in Missouri (56%),[ix] the estimated share of women working who are exempt (21%), and the share already covered by paid sick leave (76%), we estimate that 7,709 Missouri women will use these additional sick days for maternity care annually. **The cost of wages & benefits for newly eligible women who give birth is $7.7 million annually.**

Savings from Earned Sick Leave to Employers

The cost of earned sick leave to employers is offset by significant cost savings derived from benefits such as reduced employee turnover, reduced presenteeism (employees working at reduced capacity while sick or injured), and reduced contagion in the workplace. **We estimate that Missouri employers would save at least $255.4 million annually due to the implementation of earned sick leave policies.**

Estimated Annual Savings from Earned Sick Leave to Employers

	Wages	Benefits	Total
Reduced Turnover	$104,650,035	$42,936,327	**$147,586,363**
Reduced Presenteeism	$58,333,353	$23,933,293	**$82,266,646**
Reduced Flu Contagion	$18,147,602	$7,445,687	**$25,593,288**
Total Savings	**$181,130,990**	**$74,315,307**	**$255,446,297**

Note: Reduced turnover calculated by assuming a reduction in job turnover of 2.5 percentage points for those with new access to paid sick leave[x] at a cost of 20.7% of annual wages.[xi] Reduced presenteeism calculated by assuming workers without access to paid sick leave will work an average of 1.5 days while sick or injured[xii] at 50% effectiveness. Cost of reduced flu contagion calculated based on method presented in Abay, Rosa, & Pana-Cryan Appendix 3 using average estimates.[xiii]

Reduced Turnover. Access to paid sick leave gives workers the ability to address their health needs and those of their families, without having to quit a job or risk being fired. Access to paid sick leave is associated with reduced job turnover, which in turn creates significant savings for businesses.[xiv] **We estimate that Missouri employers will save $147.6 million annually due to reduced turnover in the workplace.**

Reduced Presenteeism. Employers who do not offer paid sick leave have higher rates of "presenteeism" or lost productivity due to employees working while injured or sick.[xv] Offering paid sick leave reduces the likelihood of working at reduced capacity and allows workers to recover from illness or injury more quickly. **We estimate that Missouri employers will save $82.3 million annually due to reduced presenteeism in the workplace.**

Reduced Flu Contagion. Workers without paid sick leave are more likely to come to work sick, increasing the likelihood of spreading the illness to other workers.[xvi] Access to paid sick leave allows workers to stay home when ill, reducing absenteeism related to contagious disease such as influenza. **We estimate that Missouri employers will save $25.6 million annually due to reduced flu contagion in the workplace.**

Appendix

Average Daily Wages & Benefits Used for Cost/Savings Calculations

Occupation	Average Hourly Wage	Average Work Hours/Day	Daily Estimated Average		
			Wage	Benefits	Total Compensation
Management, business, science, and arts	$34.93	7.41	$258.82	$113.11	$371.93
Service	$13.58	7.48	$101.57	$30.99	$132.56
Sales and Office	$18.79	7.20	$135.31	$52.37	$187.68
Natural Resources, Construction, and Maintenance	$24.39	8.11	$197.89	$93.93	$291.83
Production, Transportation, and Material Moving	$18.16	8.23	$149.51	$73.43	$222.94

Note: Average daily wage estimated by occupation using the average hourly wage by occupation[xvii] multiplied by average daily work hours by occupation.[xviii] The annual cost of benefits is calculated using the average cost of benefits as a share of total compensation by occupation.[xix] Total compensation equals the total cost of wages and benefits to employer.

RE: Petition approval request from Lisa D'Souza regarding a proposed statutory amendment to Chapter 290, version 1 (2022-027)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Revised Statutes of Missouri filed by Lisa D'Souza on May 3, 2021.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

Address of Notary (Street, City, State & Zip Code)

Be it enacted by the people of the State of Missouri:

Fifteen new sections to be known as sections 290.600, 290.603, 290.606, 290.609, 290.612, 290.615, 290.618, 290.621, 290.624, 290.627, 290.630, 290.633, 290.636, 290.639, and 290.642 are enacted to read as follows:

290.600. As used in sections 290.600 through 290.642:

(1) "Department", Department of Labor and Industrial Relations.

(2) "Director", Director of the Department of Labor and Industrial Relations.

(3) "Domestic violence", as such term is defined in section 455.010.

(4) "Earned paid sick time", time that is compensated at the same hourly rate and with the same benefits, including health care benefits, as the employee normally earns during hours worked and is provided by an employer to an employee for the purposes described in section 290.606, but in no case shall this hourly amount be less than that provided under section 290.502.

(5) "Employee", any individual employed in this state by an employer, but does not include:

(A) Any individual engaged in the activities of an educational, charitable, religious, or nonprofit organization where the employer-employee relationship does not, in fact, exist or where the services rendered to the organization are on a voluntary basis;

(B) Any individual standing in loco parentis to foster children in their care;

(C) Any individual employed for less than four months in any year in a resident or day camp for children or youth, or any individual employed by an educational conference center operated by an educational, charitable or not-for-profit organization;

(D) Any individual engaged in the activities of an educational organization where employment by the organization is in lieu of the requirement that the individual pay the cost of tuition, housing or other educational fees of the organization or where earnings of the individual employed by the organization are credited toward the payment of the cost of tuition, housing or other educational fees of the organization;

(E) Any individual employed on or about a private residence on an occasional basis for six hours or less on each occasion;

(F) Any individual employed on a casual basis to provide baby-sitting services;

(G) Any individual employed by an employer subject to the provisions of part A of subtitle IV of title 49, United States Code, 49 U.S.C. §§ 10101 et seq.;

(H) Any individual employed on a casual or intermittent basis as a golf caddy, newsboy, or in a similar occupation;

(I) Any individual who is employed in any government position defined in 29 U.S.C. §§ 203(e)(2)(C)(i)-(ii);

(J) Any individual employed by a retail or service business whose annual gross volume sales made or business done is less than five hundred thousand dollars;

(K) Any individual who is an offender, as defined in section 217.010, who is incarcerated in any correctional facility operated by the department of corrections, including offenders who provide labor or services on the grounds of such correctional facility pursuant to section 217.550; or,

(L) Any individual described by the provisions of section 29 U.S.C. 213(a)(8).

(6) "Employer", any person acting directly or indirectly in the interest of an employer in relation to an employee; provided, however, that for the purposes of sections 290.600 through 290.642 "employer" does not include the United States Government, the state, or a political subdivision of the state, including a department, agency, officer, bureau, division, board, commission, or instrumentality of the state, or a city, county, town, village, school district, public higher education institution, or other political subdivision of the state.

(7) "Family member", any of the following individuals:

(A) Regardless of age, a biological, adopted or foster child, stepchild or legal ward, a child of a domestic partner, a child to whom the employee stands in loco parentis, or an individual to whom the employee stood in loco parentis when the individual was a minor;

(B) A biological, foster, stepparent or adoptive parent or legal guardian of an employee or an employee's spouse or domestic partner or an individual who stood in loco parentis when the employee or employee's spouse or domestic partner was a minor child;

(C) An individual to whom the employee is legally married under the laws of any state, or a domestic partner who is registered as such under the laws of any state or political subdivision;

(D) A grandparent, grandchild, or sibling (whether of a biological, foster, adoptive or step relationship) of the employee or the employee's spouse or domestic partner; or

(E) A person for whom the employee is responsible for providing or arranging health or safety-related care, including but not limited to helping that individual obtain diagnostic, preventative, routine, or therapeutic health treatment or ensuring the person is safe following domestic violence, sexual assault, or stalking.

(8) "Health care professional," any individual licensed under federal or any state law to provide medical or emergency services, including but not limited to doctors, nurses, certified nurse midwives, mental health professionals, and emergency room personnel.

(9) "Person", any individual, partnership, association, corporation, business, business trust, legal representative, or any organized group of persons.

(10) "Retaliatory personnel action", denial of any right guaranteed under sections 290.600 through 290.642, or any threat, discharge, suspension, demotion, reduction of hours, or any other adverse action against an employee for the exercise of any right guaranteed herein. "Retaliatory personnel action" shall also include interference with or punishment for in any manner participating in or assisting an investigation, proceeding, or hearing under sections 290.600 through 290.642.

(11) "Same hourly rate", means the following:

(a) For employees paid on the basis of a single hourly rate, the same hourly rate shall be the employee's regular hourly rate.

(b) For employees who are paid multiple hourly rates of pay from the same employer, the same hourly rate shall be either:

(i) the wages the employee would have been paid for the hours absent during use of earned paid sick time if the employee had worked; or,

(ii) the weighted average of all hourly rates of pay during the previous pay period.

Whatever method the employer uses, the employer must use a consistent method for each employee throughout a year.

(c) For employees who are paid a salary, the same hourly rate shall be determined by dividing the wages the employee earns in the previous pay period by the total number of hours worked during the previous pay period. For determining total number of hours worked during the previous pay period, employees who are exempt from overtime requirements under 29 U.S.C. § 213(a)(1), the Fair Labor Standards Act, shall be assumed to work 40 hours in each work week unless their normal work week is less than 40 hours, in which case earned paid sick time shall accrue and the same hourly rate shall be calculated based on the employee's normal work week. Regardless of the basis used, the same hourly rate shall not be less than the effective minimum wage specified in section 290.502.

(d) For employees paid on a piece rate or a fee-for-service basis, the same hourly rate shall be a reasonable calculation of the wages or fees the employee would have received for the piece work, service, or part thereof, if the employee had worked. Regardless of the basis used, the same hourly rate shall not be less than the effective minimum wage specified in section 290.502.

(e) For employees who are paid on a commission basis (whether base wage plus commission or commission only), the same hourly rate shall be the greater of the base wage or the effective minimum wage specified in section 290.502.

(f) For employees who receive and retain compensation in the form of gratuities in addition to wages, the same hourly rate shall be the greater of the employee's regular hourly rate or 100% of the effective minimum wage specified in section 290.502 without deduction of any tips as a credit.

(12) "Sexual assault", as such term is defined in section 455.010.

(13) "Stalking", as such term is defined in section 455.010.

(14) "Year", a regular and consecutive twelve-month period as determined by the employer; except that for the purposes of section 290.615 and section 290.627, "year" shall mean a calendar year.

290.603. 1. Employees of an employer with fifteen or more employees shall accrue a minimum of one hour of earned paid sick time for every thirty hours worked, but such employees shall not be entitled to use more than forty hours of earned paid sick time per year, unless the employer selects a higher limit.

2. Employees of an employer with fewer than fifteen employees shall accrue a minimum of one hour of earned paid sick time for every thirty hours worked, but such employees shall not be entitled to use more than twenty-four hours of earned paid sick time per year, unless the employer selects a higher limit.

3. In determining the number of employees of an employer, all employees performing work in the state for an employer for compensation on a full-time, part-time, or temporary basis shall be counted. In situations in which the number of employees performing work in the state for an employer for compensation per week fluctuates above and below 15 employees per week over the course of a year, an employer is required to provide earned paid sick time pursuant to subsection (1) of this section if it maintained fifteen or more employees in the state on the payroll for some portion of a working day in each of twenty or more different calendar weeks, including any periods of leave, and whether or not the weeks were consecutive, in either the current or the preceding year (irrespective of whether the same individuals were in employment in each working day).

4. All employees shall accrue earned paid sick time as follows:

(A) Earned paid sick time as provided in this section shall begin to accrue at the commencement of employment or on the date this law goes into effect, whichever is later. An employee shall be entitled to use earned paid sick time as it is accrued. An employer may provide all earned paid sick time that an employee is expected to accrue in a year at the beginning of the year.

(B) Employees who are exempt from overtime requirements under 29 U.S.C. § 213(a)(1) of the Federal Fair Labor Standards Act will be assumed to work forty hours in each work week for purposes of earned paid sick time accrual unless their normal work week is less than forty hours, in which case earned paid sick time accrues based upon that normal work week.

(C) Earned paid sick time shall be carried over to the following year, but this law does not require an employer to permit an employee to use more than the applicable number of hours of earned paid sick time per year as set forth in subsection (1) and (2) of this section. Alternatively, in lieu of carryover of unused earned

paid sick time from one year to the next, an employer may pay an employee for unused earned paid sick time at the end of a year and provide the employee with an amount of paid sick time that meets or exceeds the requirements of sections 290.600 through 290.642 that is available for the employee's immediate use at the beginning of the subsequent year.

(D) If an employee is transferred to a separate division, entity, or location, but remains employed by the same employer, the employee is entitled to all earned paid sick time accrued at the prior division, entity, or location and is entitled to use all earned paid sick time as provided in this section. When there is a separation from employment and the employee is rehired within nine months of separation by the same employer, previously accrued earned paid sick time that had not been used shall be reinstated. Further, the employee shall be entitled to use accrued earned paid sick time and accrue additional earned paid sick time at the re-commencement of employment.

(E) When a different employer succeeds or takes the place of an existing employer, all employees of the original employer who remain employed by the successor employer are entitled to all earned paid sick time they accrued when employed by the original employer, and are entitled to use earned paid sick time previously accrued.

(F) At its discretion, an employer may loan earned paid sick time to an employee in advance of accrual by such employee.

5. Any employer with a paid leave policy, such as a paid time off policy, or a collective bargaining agreement that makes available an amount of paid leave sufficient to meet the accrual requirements of this section that may be used for the same purposes and under the same conditions as earned paid sick time under sections 290.600 through 290.642 is not required to provide additional paid sick time under this section.

6. Except as specifically provided in this section, nothing in this section shall be construed as requiring financial or other reimbursement to an employee from an employer upon the employee's termination, resignation, retirement, or other separation from employment for accrued earned paid sick time that has not been used.

290.606. 1. Earned paid sick time shall be provided to an employee by an employer for:

(A) An employee's mental or physical illness, injury, or health condition; an employee's need for medical diagnosis, care, or treatment of a mental or physical illness, injury, or health condition; an employee's need for preventative medical care;

(B) Care of a family member with a mental or physical illness, injury, or health condition; care of a family member who needs medical diagnosis, care, or treatment of a mental or physical illness, injury, or health condition; care of a family member who needs preventative medical care;

(C) Closure of the employee's place of business by order of a public official due to a public health emergency, or an employee's need to care for a child whose school or place of care has been closed by order of a public official due to a public health emergency, or care for oneself or a family member when it has been determined by the health authorities having jurisdiction or by a health care provider that the employee's or family member's presence in the community may jeopardize the health of others because of his or her exposure to a communicable disease, whether or not the employee or family member has actually contracted the communicable disease; or

(D) Absence necessary due to domestic violence, sexual assault, or stalking, provided the leave is to allow the employee to obtain for the employee or the employee's family member:

(i) Medical attention needed to recover from physical or psychological injury or disability caused by domestic violence, sexual assault, or stalking;

(ii) Services from a victim services organization;

(iii) Psychological or other counseling;

(iv) Relocation or taking steps to secure an existing home due to the domestic violence, sexual assault, or stalking; or

(v) Legal services, including preparing for or participating in any civil or criminal legal proceeding related to or resulting from the domestic violence, sexual assault, or stalking.

2. Earned paid sick time shall be provided upon the request of an employee. Such request may be made orally, in writing, by electronic means, or by any other means acceptable to the employer. When possible, the request shall include the expected duration of the absence.

3. When the use of earned paid sick time is foreseeable, the employee shall make a good faith effort to provide notice of the need for such time to the employer in advance of the use of the earned paid sick time and shall make a reasonable effort to schedule the use of earned paid sick time in a manner that does not unduly disrupt the operations of the employer. Where such need is not foreseeable, an employer may require an employee to provide notice of the need for the use of earned paid sick time as soon as practicable.

4. An employer that requires notice of the need to use earned paid sick time where the need is not foreseeable shall provide a written policy that contains procedures for the employee to provide notice. An employer that has not provided to the employee a copy of its written policy for providing such notice shall not deny earned paid sick time to the employee based on non-compliance with such a policy.

5. An employer may not require, as a condition of an employee's taking earned paid sick time, that the employee search for or find a replacement worker to cover the hours during which the employee is using earned paid sick time.

6. Earned paid sick time may be used in the smaller of hourly increments or the smallest increment that the employer's payroll system uses to account for absences or use of other time.

7. For earned paid sick time of three or more consecutive work days, an employer may require reasonable documentation that the earned paid sick time has been used for a purpose covered by subsection (1) of this section.

(A) Documentation signed by a heath care professional indicating that earned paid sick time is necessary shall be considered reasonable documentation for purposes of this section.

(B) In cases of domestic violence, sexual assault, or stalking, if the employer requests, one of the following types of documentation selected by the employee shall be considered reasonable documentation: (i) a police report indicating that the employee or the employee's family member was a victim of domestic violence, sexual assault, or stalking, (ii) a written statement from an employee or agent of a victim service provider affirming that the employee or employee's family member is or was receiving services from a victim service provider; (iii) documentation signed by a health care professional from whom the employee or employee's family member sought assistance relating to domestic violence, sexual assault, or stalking or the effects thereof; (vi) a court document indicating that an employee or employee's family member is or was involved in a legal action related to domestic violence, sexual assault, or stalking; or (v) a written statement from the employee affirming that the employee or employee's family member is taking or took earned paid sick time for a qualifying purpose of subsection (1) of this section.

(C) An employer may not require that the documentation explain the nature of the illness, details of the underlying health needs, or the details of the domestic violence, sexual assault, or stalking, unless otherwise required by law.

290.609. 1. It shall be unlawful for an employer or any other person to interfere with, restrain, or deny the exercise of, or the attempt to exercise, any right protected under sections 290.600 through 290.642.

2. An employer shall not take retaliatory personnel action or discriminate against an employee or former employee because the individual has exercised rights protected under sections 290.600 through 290.642. Such rights include, but are not limited to, the right to request or use earned paid sick time pursuant to sections 290.600 through 290.642; the right to file a complaint or inform any person about any employer's alleged violation of sections 290.600 through 290.642; the right to participate in any investigation, hearing, or proceeding or cooperate with or assist the Department in any investigations of alleged violations of sections 290.600 through 290.642; and the right to inform any person of his or her potential rights under sections 290.600 through 290.642.

3. It shall be unlawful for an employer's absence control policy to count earned paid sick time taken under sections 290.600 through 290.642 as an absence that may lead to or result in discipline, discharge, demotion, suspension, or any other adverse action.

4. Protections of this section shall apply to any individual who mistakenly but in good faith alleges violations of sections 290.600 through 290.642.

290.612. 1. Employers shall give employees a written notice about earned paid sick time within fourteen calendar days of the commencement of employment or within ninety days of the effective date of this law, whichever is later, which must include the following information: (1) employees accrue and are entitled to earned paid sick time at the rate one hour of earned paid sick time for every 30 hours of work, and may use earned paid sick time, subject to the terms under sections 290.600 through 290.642 of Missouri law, (2) it is prohibited for an employer to take retaliatory personnel action against employees who request or use earned paid sick time as allowed by law, (3) each employee has the right to bring a civil action if earned paid sick time as required by sections 290.600 through 290.642 is denied by the employer or the employee is subjected to retaliatory personnel action by the employer for exercising the employee's rights under sections 290.600 through 290.642; and, (4) the contact information for the Department. Notice shall be provided by the Employer to the employee on a single piece of paper, at least 8.5 x 11, in no less than 14-point font.

2. Employers shall display a poster that contains the information required in subsection (1) of this section in a conspicuous and accessible place in each establishment where such employees are employed, provided that such poster has been provided by the Department.

3. The Department may create and make available to employers, model notices and posters that contain the information required under subsection (1) of this section for employers' use in complying with subsections (1) and (2) of this section. Nothing in sections 290.600 through 290.642 shall be interpreted or applied, either expressly or through practical necessity, to require the appropriation of funds to cover the costs associated with the Department creating or making available notices or posters.

290.615. 1. Employers shall retain records documenting hours worked by employees and earned paid sick time taken by employees, for a period of not less than three years, and shall allow the Department access to such records, with appropriate notice and at a mutually agreeable time, to monitor compliance with the requirements of sections 290.600 through 290.642.

2. To the extent permitted by law, the Director may inspect such records, and the records shall be open for inspection by the Director by appointment. Where the records required under this section are kept outside the state, the records shall be made available to the Director upon demand. Every such employer shall furnish to the Director on demand a sworn statement of time records and information upon forms prescribed or approved by the Director. All the records and information obtained by the Department are confidential and shall be disclosed only on order of a court of competent jurisdiction.

3. Nothing in sections 290.600 through 290.642 shall be interpreted or applied, either expressly or through practical necessity, to require the appropriation of funds to cover the costs associated with the Department or Director accessing or inspecting records or creating forms relating to the inspection of records.

290.618. 1. The Department may, in accordance with chapter 536, promulgate rules for the implementation, enforcement, and administration of sections 290.600 through 290.642. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2022, shall be invalid and void.

2. Nothing in sections 290.600 through 290.642 shall be interpreted or applied, either expressly or through practical necessity, to require the appropriation of funds to cover the costs associated with the promulgation or adoption of rules.

290.621. 1. The Department may investigate and ascertain compliance with sections 290.600 through 290.642, establish and implement a system to receive complaints regarding non-compliance with sections 290.600 through 290.642 and to investigate and attempt to resolve complaints between the complainant and the subject of the complaint, and establish additional means of enforcement, including requiring by subpoena the testimony of witnesses and production of books, records, and other evidence relative to any matter under investigation or hearing, issuing notices of violation, holding hearings on notices of violation, making determinations, recovering unpaid earned sick time, and imposing fines for willful violations of up to $500 per day of each day of a continuing violation. A final decision of the department is subject to review in accordance with the provisions of chapter 536.

2. The Department may develop and implement an outreach program to inform employees, parents, and persons who are under the care of a health care provider about the availability of earned paid sick time under sections 290.600 through 290.642. This program may include the distribution of notices and other written materials to child care and elder care providers, domestic violence shelters, schools, hospitals, community health centers and other health care providers in Missouri.

3. A municipality, county, city, town, or village may adopt ordinances, rules, and regulations to investigate and ascertain compliance with sections 290.600 through 290.642, establish and implement a system to receive complaints regarding non-compliance with sections 290.600 through 290.642 and to investigate and attempt to resolve complaints between the complainant and the subject of the complaint, and establish additional means of enforcement, with respect to employers within, or employees performing work while physically present in, the geographic boundaries of the municipality, county, city, town, or village. Any such ordinance, rule, or regulation shall be consistent with this law and any Department rules or regulations and system for compliance and enforcement. The municipality, county, city, town, or village may exercise such powers as allowed by any applicable charter or ordinance, including requiring by subpoena the testimony of witnesses and production of books, records, and other evidence relative to any matter under investigation or hearing, issuing notices of violation, holding hearings on notices of violation, making determinations, recovering unpaid earned sick time, and imposing fines for willful violations of up to the maximum allowed for an ordinance violation. Before investigating or seeking to resolve any complaint between the complainant and the subject of the complaint, the municipality, county, city, town, or village shall give notice to the Department with a copy of the complaint and, within 14 days of such notice, the Department may intervene as of right and participate in the matter to ensure that the complaint is being investigated and resolved in the interest of effective enforcement of sections 290.600 through 290.642 or, alternatively, the Department may institute its own proceedings in which case the municipality, county, city, town, or village shall refrain from acting on the matter so long as the complaint is being investigated and resolved in the interest of effective enforcement of sections 290.600 through 290.642. If the Department does not, within 14 days, intervene or instigate its own proceedings, the municipality, county, city, town, or village may, without the Department, investigate and attempt to resolve the complaint and take other additional means as permitted to enforce sections 290.600 through 290.642 against the subject of the complaint. In no event shall an employer be subject to compliance proceedings arising out of a single set of facts after having already been subjected to a final compliance order by another government entity.

4. Nothing in sections 290.600 through 290.642 shall be interpreted or applied, either expressly or through practical necessity, to require the appropriation of funds to cover the costs associated with the Department, a municipality, county, city, town, or village conducting investigations and ascertaining compliance with sections 290.600 through 290.642, establishing and implementing a system to receive, investigate, or resolve complaints, establishing additional means of enforcement, or conducting outreach and education, including the creation of notices and other written materials, concerning sections 290.600 through 290.642.

290.624. 1. Any employer who willfully violates or fails to comply with any of the provisions and requirements of sections 290.600 through 290.642 shall be guilty of a class C misdemeanor; provided, however, that an employer who willfully violates the notice and posting requirements of section 290.612 shall be guilty of an infraction.

2. For purposes of this section, each day of violation or failure to comply and each employee affected shall constitute a separate offense.

290.627. 1. Any individual who claims to have been aggrieved by a failure of an employer to comply with any portion of sections 290.600 through 290.642, including but not limited to the failure to provide earned paid sick time or to allow employees to use such time consistent with sections 290.600 through 290.642, or who claims to have suffered a retaliatory personnel action, shall have a right of action and may commence a civil action in the appropriate court of jurisdiction within three years of the accrual of the cause of action, to obtain appropriate relief with respect to such unlawful violation. Such action may be brought without first filing an administrative complaint.

2. In a civil action under this section, if the court finds a violation has occurred, the court may grant as relief, as it deems appropriate and to the extent permitted by law, any permanent or temporary injunction, the full amount of any unpaid earned sick time plus any actual damages suffered as the result of the employer's violation of sections 290.600 through 290.642, an additional amount equal to twice any unpaid earned sick time as liquidated damages, costs, and reasonable attorney's fees as may be allowed by the court, and other legal or equitable relief as may be appropriate to remedy the violation, including, without limitation, reinstatement to employment and back pay.

290.630. 1. Except as otherwise required by law, an employer may not require disclosure of details relating to an employee's or an employee's family member's health information, domestic violence, sexual assault, or stalking as a condition of providing earned paid sick time under sections 290.600 through 290.642.

2. Unless as otherwise required by law, any health or safety information possessed by an employer regarding an employee or employee's family member must:

(A) be maintained on a separate form and in a separate file from other personnel information;

(B) be treated as confidential medical records; and

(C) not be disclosed except to the affected employee or with the express written permission of the affected employee.

290.633. 1. Nothing in sections 290.600 through 290.642 shall be deemed to interfere, impede, or otherwise diminish the right of employees to bargain collectively through representatives of their own choosing in order to establish earned paid sick time or other conditions of work in excess of the applicable minimum standards under the provisions of sections 290.600 through 290.642.

2. All or any portion of the earned paid sick time requirements of sections 290.600 through 290.642 shall not apply to employees covered by a bona fide collective bargaining agreement to the extent that such requirements are expressly waived in the collective bargaining agreement in clear and unambiguous terms.

3. With the exception noted in subsection 2, any waiver by an employee of rights under sections 290.600 through 290.642 shall be deemed contrary to public policy and shall be void.

290.636. 1. Nothing in sections 290.600 through 290.642 shall be construed to discourage or prohibit an employer from the adoption or retention of an earned paid sick time policy more generous than the one required herein.

2. Nothing in sections 290.600 through 290.642 shall be construed as diminishing the obligation of an employer to comply with any contract, collective bargaining agreement, employment benefit plan, or other agreement providing more generous paid sick time to an employee than required herein. Nothing in sections 290.600 through 290.642 shall be construed as diminishing the rights of public employees regarding paid sick time or use of paid sick time as provided in the laws of Missouri and ordinances of political subdivisions pertaining to public employees.

290.639. 1. Sections 290.600 through 290.642 provide minimum requirements pertaining to earned paid sick time and shall not be construed to preempt, limit, or otherwise affect the applicability of any other law, regulation, requirement, policy, or standard that provides for greater accrual or use by employees of earned paid sick time or that extends other protections to employees.

2. Nothing in sections 290.600 through 290.642 shall be interpreted or applied to create a power or obligation contrary to any federal law, rule, or regulation.

290.642. Except as detailed in section 290.618, all of the provisions of sections 290.600 through 290.642 are severable, and if any provision, including any section, subsection, subdivision, paragraph, sentence, or clause, or the application thereof to any person or circumstance, is found by a court of competent jurisdiction to be invalid, unconstitutional, or unconstitutionally enacted, such decision shall not affect other provisions or applications of sections 290.600 through 290.642 that can be given effect without the invalid, unconstitutional, or unconstitutionally enacted provision or application, and to this end the provisions of sections 290.600 through 290.642 are declared severable.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (22-027)

Subject

Initiative petition from Lisa D'Souza regarding a proposed amendment to Chapter 290 of the Revised Statutes of Missouri. (Received May 3, 2021)

Date

May 21, 2021

Description

This proposal would amend Chapter 290 of the Revised Statutes of Missouri.

The amendment is to be voted on in November 2022.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education and Workforce Development,** the **Department of Health and Senior Services,** the **Department of Commerce and Insurance,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College,** the **Missouri Lottery,** the **State Tax Commission,** the **Missouri Veterans Commission,** the **Missouri Ethics Commission,** the **Missouri Office of Prosecution Services,** the **Kansas City Board of Police Commissioners,** the **Metropolitan Police Department - City of St. Louis,** the **St. Louis County Board of Elections,** the **Board of Election Commissioners City of St. Louis,** the **Kansas City**

Board of Election Commissioners, the **Platte County Board of Elections,** the **Jackson County Election Board,** the **Clay County Board of Election Commissioners,** the **Lieutenant Governor's office,** the **Children's Trust Fund of Missouri,** the **Missouri Joint Municipal Electric Utility Commission,** the **State Auditor's office,** the **Metropolitan Zoological Park and Museum District,** the **Missouri Municipal League,** the **Missouri Bar Association,** the **Missouri Gaming Commission,** the **Municipal League of Metro St. Louis, University of Central Missouri, Harris-Stowe State University, Lincoln University, Missouri State University, Missouri Southern State University, Missouri Western State University, Northwest Missouri State University, Southeast Missouri State University,** and **Truman State University**.

Amy Blouin, President & CEO, Missouri Budget Project provided information to the State Auditor's office.

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, they expect that their office could absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, their office may be required to request additional appropriations.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated no fiscal impact to their department.

Officials from the **Department of Elementary and Secondary Education** indicated no impact to their department.

Officials from the **Department of Higher Education and Workforce Development** indicated no impact to their department.

Officials from the **Department of Health and Senior Services** indicated they defer to the Office of Administration for response to this initiative petition.

Officials from the **Department of Commerce and Insurance** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no impact. This proposal excludes state employees.

Officials from the **Department of Labor and Industrial Relations** indicated:

Space is required for 10 full time employees (FTE) X 200 square feet per FTE X $20.70 per square foot = $41,400. This FTE will be located in Cole County.

Small business will be required to comply with the law and grant employees one hour of sick leave for every thirty hours worked. The rate of pay for each hour taken in sick leave is determined by a formula that takes into account the individual employee's hourly rate (or its equivalent for salaried employees) plus a calculation of current fringe benefits. This mandate will apply to all employers in the state, regardless of size, who are not currently providing an equal or greater sick leave benefit. Employers with 15 or more employees will be required to allow the use of 40 hours of sick leave per year and those with under 15 employees will need to allow the use of 24 hours per year.

Based on the most recent data available through the Quarterly Census of Employment and Wages (QCEW), there were an average of 216,229 employers in Missouri for 2020, with 182,616 of those employing less than 15 staff (482,325 total employees), and 33,613 employ 15 or more staff (2,176,397 total employees). Assuming the average hourly wage of $24.29/hour for Missouri in 2020 and the more recent Bureau of Labor Statistic for the state that roughly 60% of employers do no provide paid leave to employees, the estimated costs to businesses as a result of this language would be:

- Up to $168,705,709 for employers with less than 15 employees at 24/hours per year.
- Up to $1,268,752,395 for employers with 15 or more employees at 40/hours per year.

This level of mandate of small businesses will be extremely costly for thousands of employers, especially considering that the allowable reasons to use sick leave are broad and include a variety of physical and mental illnesses as well as the ability to use such leave to prepare for designated legal proceedings. The ability to use such leave is allowed for "family members" which is defined broadly to extend to individuals who have no biological or legal relationship to the employee but rather stand in a relationship where the employee is "responsible for finding or arranging health or safety related care..." or has assumed an "in loco parentis" status.

Alleged failure of an employee to provide paid sick leave will subject the employer to both civil suits and criminal proceedings. Each day where an employer is found to be in violation of the law will constitute a separate offense (a C misdemeanor) along with its potentially associated fines and/or jail time.

This proposal would authorize the Department of Labor & Industrial Relations (DOLIR) to investigate allegations of non-compliance, to subpoena records, hold hearings, adjudicate such disputes and to issue fines in the amount of $500 for each day of a violation.

They estimate it would need additional FTE and ongoing costs to set up and administer the program, and a new computer system will have to be developed for this program.

Since the proposal is subject to voter approval, their estimate covers the range of costs from non-approval by voters ($0) or a decision to decline to undertake the statutorily permissible enforcement role ($0) to full implementation of the proposal.

Cost Estimate – DOLIR

They estimate the total cost to develop, administer, and maintain the program to be over $1.2 million per year (excluding benefits paid). In estimating the total costs of the program, they have used the following assumptions.

Program Operations – Sections 290.600-290.642

They estimate that three new or expanded sections will be required to administer the program: Call Center, increased staff for the Division of Labor Standards for investigative and adjudicatory functions, and an expanded administrative staff within their department to include additional attorneys in the Office of General Counsel to help conduct public hearings, administer legal process, advise on the levying of fines and to prepare cases for appeal under Chapter 536.

Call Center – Begins 1/1/23

They assume that a Call Center will be required to handle questions and concerns from claimants and employers. Based on the call volume for other programs, 3.00 Program Specialists (Range 5 - $41,929) will be required to assist callers. The section will also require 1.00 Administrative Support Assistant (Range 3 - $34,019) to provide administrative support and 1.00 Benefit Program Supervisor (Range 6 - $47,071) to manage the unit.

Section #	290.600-290.642 Program Operations - Call Center - Begins 1/1/23					
Personal Services						
Job Class	Range	FTE	Salary	FY 2022	FY 2023	FY 2024

Total				**$240,826**	**$366,546**	**$370,136**

Expense & Equipment (E&E)
They have utilized the standard per FTE costs when calculating operating expenses and equipment for this estimate. Additional mailing costs are detailed below.

Relief on Behalf of Affected Employees – Section 290.609.1 – Begins 1/1/23
The bill authorizes their department to bring enforcement actions against employers who do not abide by the law. This would require additional investigators, adjudicators, and attorneys.

The number of employees who would file complaints cannot be estimated at this time; however, for the sake of this estimate, they assume each case would require an average of 20 hours of attorney time and 20 hours of support staff time. For every 100 cases, 1.00 Attorney ($60,000) and 0.25 of a Paralegal ($40,000) would be required. If 100 cases are brought per year, this would require 2.00 Attorneys and 1.00 Paralegal. If there are more than 240 cases per year, and the staff are unable to absorb the additional workload, additional funding would be pursued via the appropriations process.

Standard E&E costs, along with mobile telephones and travel expenses for the Attorneys are also included in this estimate. The cost estimate assumes these cases would begin when the program becomes operational, January 1, 2023.

Section #	290.609.1 - Relief on Behalf of Affected Employees – Begins 1/1/23					
Personal Services						
Job Class	Range	FTE	Salary	FY 2022	FY 2023	FY 2024

Outreach – Section 290.621.2

Section 290.621.2 provides for their department to develop and implement an outreach program to ensure that employees who may be eligible to receive benefits are aware of the program. The outreach program will also educate Missouri's approximately 166,282 employers. Outreach materials will be available to our partners at Missouri Job Centers, business associations, and economic development agencies and mailed to all Missouri-registered businesses quarterly.

Promotional materials, and a brochure that targets businesses while still containing information for employees might be created. They estimate the total number of brochures printed and mailed annually at 700,000.

Section #	290.621.2 - Outreach - Begins 7/1/22					
Personal Services						
Job Class	Range	FTE	Salary	FY 2022	FY 2023	FY 2024

Total				**$385,214**	**$394,625**	**$404,491**

Administrative Services

Since this legislation would, in effect, create a substantially expanded Division of Labor Standards within their department, it is anticipated their department will require 1.00 Deputy Division Director, and 1.00 Administrative Office Support Assistant to manage and coordinate operations of the division.

Section #	Administrative Services - begins 7/1/22					
Personal Services						
Job Class	Range	FTE	Salary	FY 2022	FY 2023	FY 2024
Deputy Director		1.00	$70,000	$70,000	$70,700	$71,407
Admin Support Asst	3	1.00	$34,019	$34,019	$34,359	$34,703
Total PS		**2.00**		**$104,019**	**$105,059**	**$106,110**
Fringe Benefits				**$57,585**	**$57,930**	**$58,279**
Equipment - One-Time Costs						
	BOBC	Units	Cost	FY 2022	FY 2023	FY 2024
Telecom Equipment	340	2.00	$200	$400		
Computer Equipment	480	2.00	$1,607	$3,214		
Office Equipment	580	2.00	$6,530	$13,060		
Additional Equipment (Provide Explanation)						
Telecom-Mobile Device(s)	340	1.00	$400	$400		
Total Equipment				**$17,074**	**$0**	**$0**
Expenses - Ongoing Costs						
Standard Expenses per FTE	BOBC	Units	Cost	FY 2022	FY 2023	FY 2024
Fuel & Utilities	180	2.00	$460	$920	$943	$967
Supplies	190	2.00	$372	$744	$763	$782
Housekeeping & Janitorial	420	2.00	$345	$690	$707	$725
Telecom Serv & Supp	340	2.00	$794	$1,588	$1,628	$1,669
Professional Services (Network)	400	2.00	$399	$798	$818	$838
Building Leases	680	2.00	$4,140	$8,280	$8,487	$8,699
Additional Expenses (Provide Explanation)						
Travel, In-State	140	1.00	$773	$773	$792	$812
Telecom-Mobile Services	340	1.00	$540	$540	$554	$568
Total Expenses				**$14,333**	**$14,692**	**$15,060**

They further assume that additional administrative services staff will be required including legal counsel, financial management, mail services, facility management, procurement, training, and human resources. For the purposes of this estimate they project indirect costs at 5% of program operations costs (personal services and fringe benefits) beginning in fiscal year (FY) 2022. One full year of administrative costs, would be realized in FY 2022 $215,624, FY 2023 $214,874, and FY 2024 $216,957.

Standard Equipment per FTE	BOBC	Units	Cost	FY 2022	FY 2023	FY 2024
Administrative 5% Indirect Costs				$22,613	$37,193	$37,508
Total Administrative Cost				**$215,624**	**$214,874**	**$216,957**

They estimate the total cost to develop, administer, and maintain the program to be over $1.2 million per year (excluding benefits paid).

	FY-2022	FY-2023	FY-2024
Personal Services	$287,594	$471,936	$476,656
Fringe Benefits	$164,663	$271,930	$273,497
Equipment and Expense	$560,428	$501,773	$513,705
Total	$1,012,684	$1,245,639	$1,263,858

Of these costs, $84,570 are one-time equipment costs in FY 2022.

Officials from the **Department of Revenue** indicated no impact.

Officials from the **Department of Public Safety** indicated no impact for their department.

Officials from the **Department of Social Services** indicated this will have no fiscal impact for their department.

Officials from the **Governor's Office** indicated this proposal relating to levels of sick leave available to employees should not fiscally impact their office.

Officials from the **House of Representatives** indicated no fiscal impact.

Officials from the **Department of Conservation** indicated there is no anticipated fiscal impact (cost or savings) to their department associated with this initiative petition.

Officials from the **Department of Transportation** indicated this initiative petition would have no fiscal impact to their department/Missouri Highways and Transportation Commission.

Officials from the **Office of Administration** indicated this proposal relating to levels of sick leave available to employees should not fiscally impact their office.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be $7 million based on the cost of the 2020 Presidential Preference Primary.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Funding for this item is adjusted each year depending upon the election cycle. A new decision item is requested in odd numbered fiscal years and the amount requested is dependent upon the estimated number of ballot measures that will be approved by the General Assembly and the initiative petitions certified for the ballot. In fiscal year (FY) 2014, the General Assembly changed the appropriation so that it was no longer an estimated appropriation.

In FY19, over $5.8 million was spent to publish the full text of the measures for the August and November elections. Their office estimates $75,000 per page for the costs of publications based on the actual cost incurred for the one referendum that was on the August 2018 ballot.

Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated no fiscal impact for their office.

Officials from the **State Treasurer's office** indicated no fiscal impact to their office.

Officials from **Clay County** indicated this petition appears to exempt local governments. However, their county already meets the requirements herein as they provide 3.69 hours of sick leave per pay period with a 1000 hour max. Therefore, there is no fiscal impact on their county.

Officials from **Greene County** indicated there are no estimated costs or savings to report from their county for this initiative petition.

Officials from **St. Louis County** indicated they do not have any information to provide.

Officials from the **City of Kansas City** indicated this initiative petition will have no fiscal impact on their city.

Officials from the **City of St. Louis** indicated the City of St. Louis Personnel Department has determined that the city would be exempted from the amended statutes because the definition of "employer" in chapter 290.600 specifically excludes political subdivisions of the state.

Officials from **Metropolitan Community College** indicated no fiscal impact to their college.

Officials from **University of Missouri** indicated they do not anticipate a significant financial impact.

Officials from the **Missouri Lottery** indicated no fiscal impact to their agency.

Officials from the **State Tax Commission** indicated no fiscal impact on their agency.

Officials from the **Missouri Veterans Commission** indicated this initiative petition will have no fiscal impact upon their agency. The definition of the term "employer" in the proposed section 290.600(6) RSMo explicitly excludes the State and its agencies, so the provisions of the petition would not apply to the Commission should it become law.

Officials from the **Missouri Ethics Commission** indicated they defer to the Office of Administration.

Officials from the **St. Louis County Board of Elections** indicated this would have no fiscal impact on their Board.

Officials from the **Board of Election Commissioners City of St. Louis** indicated this proposed measure would have no fiscal impact on their organization.

Officials from the **Children's Trust Fund** indicated no impact for the Office of Administration/Children's Trust Fund.

Officials from the **State Auditor's office** indicated since this proposed initiative petition does not apply to government entities, this would have no fiscal impact on their office.

Officials from the **Missouri Gaming Commission** indicated the proposal will have no fiscal impact on their agency.

Officials from **University of Central Missouri** indicated they have determined there is potential for future fiscal impact but too speculative to estimate impact.

Section 290.603 and beyond starts the portions that will have a fiscal impact. The component that every employee after 30 hours shall be granted paid sick leave is huge when you factor in student workers, temps, adjuncts, etc. Additionally, there is a provision that states that an employee rehired within 9 months of separation shall be entitled to all unused paid sick time that was on their account when they left. This is going to be a huge administrative burden and require, at minimum, the purchase of a time and attendance system that can be programmed to track all of the variations.

Section 290.627 has provisions for civil litigation, charges, and awards for damages for violation of the provisions of this act, which is where the real ambiguous component to fiscal implication and indeterminate concerns are based.

Amy Blouin, President & CEO, Missouri Budget Project provided the following information:

MBP
MISSOURI BUDGET PROJECT

Earned Sick Leave in Missouri: Costs and Savings for Employers

In addition to helping employees by allowing them to address their health needs without losing their jobs or ability to pay their bills, paid sick leave has many benefits for employers, including a healthier workforce, reduced turnover, and increased productivity. The benefits of paid sick leave have been highlighted by the current COVID-19 pandemic, illustrating the importance of workers being able to recover at home without lost wages and without risking spread of contagious disease in the workplace.

Several possible 2022 ballot measures have been filed that would require employers to provide earned sick leave in Missouri. Though the measures vary slightly, each would require employers to provide a minimum of 3-7 days of paid leave to employees, depending on hours worked and size of business. Public employees are exempt in all versions. If implemented, Missouri would join the thirteen states, plus the District of Columbia, (in addition to dozens of municipalities) who ensure employees can earn paid sick leave to care for themselves or family members.[i]

This analysis documents the number of people who may be impacted under Missouri's proposals and how access to paid sick leave reduces employer costs. Similar savings have been documented by research covering a variety of states that have implemented earned sick leave policies.[ii] The table below provides an overview of the estimated costs and savings for employers in Missouri. **We find that expanding earned sick leave to Missouri's nearly 538,000 workers without access would provide a net savings to employers of approximately $17.4 million annually.**

Estimated Costs and Savings to Employers from Earned Sick Leave in Missouri

		Cost/Savings Per Employee		
	Total Annual	**Annual**	**Weekly**	**Hourly**
Costs	$238.05M	$442.61	$8.51	$0.21
Cost for Sick Leave	$230.35M			
Cost for Parental Leave	$7.7M			
Savings	$255.45M	$474.95	$9.13	$0.23
Reduced Turnover	$147.59M			
Reduced Presenteeism	$82.27M			
Reduced Flu Contagion	$25.59M			
Net Savings	$17.4M	$32.34	$0.62	$0.02

Access to Paid Sick Leave in Missouri

Based on an analysis of data from the Missouri Department of Economic Development (MERIC), the U.S. Bureau of Labor Statistics, and the U.S. Census Bureau, we estimate that approximately one in four (or nearly 538,000) Missouri workers would be newly covered by earned sick leave provisions through the ballot measures. These workers are concentrated primarily in service, sales & office, and production, transportation, & material moving related occupations.

Estimated Number of Workers Newly Covered by Paid Sick Leave in Missouri by Occupation

Occupation	Total Employment	Share Exempt	Workers Covered by Initiatives	Share with No Sick Leave	Estimated Workers Newly Covered
Management, Business, Science, and Arts	870,750	27%	636,515	8%	**50,921**
Service	609,500	25%	458,619	41%	**188,034**
Sales and Office	674,870	16%	568,561	23%	**130,769**
Natural Resources, Construction, and Maintenance	224,740	23%	172,541	32%	**55,213**
Production, Transportation, and Material Moving	440,740	9%	403,199	28%	**112,896**
Total	**2,820,600**	**21%**	**2,239,435**	**24%**	**537,833**

Note: Estimated workers covered by paid leave initiatives calculated as the total number of employees by occupation[iii] less the share of that occupation estimated to be exempt (self-employed or local, state, and federal government workers).[iv] Workers newly covered calculated as the total number of workers covered less the share of private workforce that already has access to paid sick leave by occupation.[v]

Cost of Earned Sick Leave to Employers

Employers would be responsible for the wages and associated benefits (such as payroll taxes and insurance) of newly eligible workers who take earned sick leave. Based on average daily wages and benefits in 2019 (see Appendix for detailed calculations), we estimate that Missouri employers would spend approximately $235 million annually on wages & benefits for workers newly eligible for earned sick leave.

Estimated Annual Cost of Earned Sick Leave to Employers

	Wages	Benefits	Total
Cost for Sick Leave	$163,333,388	$67,013,220	**$230,346,608**
Cost for Parental Leave	$5,462,868	$2,241,332	**$7,704,200**
Total	**$168,796,256**	**$69,254,552**	**$238,050,808**

Note: Average cost of earned sick leave calculated as average daily cost of wages & benefits multiplied by the average number of sick days per year[vi] (2.1) taken by workers with access to paid sick leave (or in the case of parental leave an additional 4.9 days per year for a total of 7 days); annual cost per worker is then multiplied by the number of newly covered workers by occupation to determine the annual cost of compensation for workers taking earned sick leave.

Sick Leave. Employees with access to paid leave generally do not use the full amount of paid sick leave to which they are entitled annually. A typical worker with paid sick leave uses 2.1 days of sick leave a year; around 45% of employees with access to paid leave use no sick time at all in a given year.[vii] **Adjusting for average wage by occupation, the cost of wages & benefits for newly eligible employees at 2.1 days per year is $230.3 million dollars annually.**

Parental Leave. We also assume that women who give birth will use the maximum amount of annual earned sick time (or an additional 4.9 days to equal a total of 7 sick days). Each year, 72,127 Missouri women give birth.[viii] Adjusting for employment rate among women in Missouri (56%),[ix] the estimated share of women working who are exempt (21%), and the share already covered by paid sick leave (76%), we estimate that 7,709 Missouri women will use these additional sick days for maternity care annually. **The cost of wages & benefits for newly eligible women who give birth is $7.7 million annually.**

Savings from Earned Sick Leave to Employers

The cost of earned sick leave to employers is offset by significant cost savings derived from benefits such as reduced employee turnover, reduced presenteeism (employees working at reduced capacity while sick or injured), and reduced contagion in the workplace. **We estimate that Missouri employers would save at least $255.4 million annually due to the implementation of earned sick leave policies.**

Estimated Annual Savings from Earned Sick Leave to Employers

	Wages	Benefits	Total
Reduced Turnover	$104,650,035	$42,936,327	**$147,586,363**
Reduced Presenteeism	$58,333,353	$23,933,293	**$82,266,646**
Reduced Flu Contagion	$18,147,602	$7,445,687	**$25,593,288**
Total Savings	**$181,130,990**	**$74,315,307**	**$255,446,297**

Note: Reduced turnover calculated by assuming a reduction in job turnover of 2.5 percentage points for those with new access to paid sick leave[x] at a cost of 20.7% of annual wages.[xi] Reduced presenteeism calculated by assuming workers without access to paid sick leave will work an average of 1.5 days while sick or injured[xii] at 50% effectiveness. Cost of reduced flu contagion calculated based on method presented in Abay, Rosa, & Pana-Cryan Appendix 3 using average estimates.[xiii]

Reduced Turnover. Access to paid sick leave gives workers the ability to address their health needs and those of their families, without having to quit a job or risk being fired. Access to paid sick leave is associated with reduced job turnover, which in turn creates significant savings for businesses.[xiv] **We estimate that Missouri employers will save $147.6 million annually due to reduced turnover in the workplace.**

Reduced Presenteeism. Employers who do not offer paid sick leave have higher rates of "presenteeism" or lost productivity due to employees working while injured or sick.[xv] Offering paid sick leave reduces the likelihood of working at reduced capacity and allows workers to recover from illness or injury more quickly. **We estimate that Missouri employers will save $82.3 million annually due to reduced presenteeism in the workplace.**

Reduced Flu Contagion. Workers without paid sick leave are more likely to come to work sick, increasing the likelihood of spreading the illness to other workers.[xvi] Access to paid sick leave allows workers to stay home when ill, reducing absenteeism related to contagious disease such as influenza. **We estimate that Missouri employers will save $25.6 million annually due to reduced flu contagion in the workplace.**

Appendix

Average Daily Wages & Benefits Used for Cost/Savings Calculations

Occupation	Average Hourly Wage	Average Work Hours/Day	Daily Estimated Average		
			Wage	Benefits	Total Compensation
Management, business, science, and arts	$34.93	7.41	$258.82	$113.11	$371.93
Service	$13.58	7.48	$101.57	$30.99	$132.56
Sales and Office	$18.79	7.20	$135.31	$52.37	$187.68
Natural Resources, Construction, and Maintenance	$24.39	8.11	$197.89	$93.93	$291.83
Production, Transportation, and Material Moving	$18.16	8.23	$149.51	$73.43	$222.94

Note: Average daily wage estimated by occupation using the average hourly wage by occupation[xvii] multiplied by average daily work hours by occupation.[xviii] The annual cost of benefits is calculated using the average cost of benefits as a share of total compensation by occupation.[xix] Total compensation equals the total cost of wages and benefits to employer.

RE: Petition approval request from Austin Shaffer regarding a proposed constitutional amendment to Article XXX (2022-026)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Austin Shaffer on April 27, 2021.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

Be it resolved by the people of the state of Missouri that the Constitution be amended:

so that it establishes election integrity procedures to (a) prevent attempts to fraudulently influence Missouri's elections, and (b) instill confidence in Missouri voters in the reported results of its elections.

Article XXX,

Sec. 1. Prohibited Election Conduct

(a) No voting machine may be utilized in any election to count or calculate votes. All votes shall be counted by hand by the judgment of the human eye. All counting shall occur by two persons.

(b) Any differences or uncertainties in counting by the two shall only be resolved by an individual approved and appointed in advance of the election by the state legislature.

(c) Mail in ballots shall be prohibited, except when requested by a voter in advance and after showing state-issued photo identification or a state-issued driver's license.

(d) All internet connectivity shall be discontinued at any polling place during the entire time votes are cast and counted. In addition, all persons serving in any capacity at a polling location, except observers, shall from the time of poll closing until the vote has been finally and publicly reported check in their cell phones so the counting occurs without the potential bias of any electronic sources of information of vote totals from other locations.

(e) Local law enforcement officials shall prohibit the delivery of boxes of any kind at a polling place from the time the polls are first open for voting until after all votes have been counted and reported.

Sec. 2. Registration Requirements

All registration to vote shall occur on or before 14 days prior to an election day. Such registration shall require the registering voter to show valid state-issued photo identification or a valid state-issued driver's license. No identification or driver's license which has expired shall be valid.

Sec. 3. Election Observer and Reporting Requirements

(a) No early voting shall be permitted more than two weeks before election day. All mail in ballots must be received two days before election day. Otherwise, they shall not be counted. Mail in balloting cannot be permitted to delay the announcement of full election totals within four hours after the poll's closing.

(b) All voters in all elections shall be required to show valid state-issued photo identification or a valid state-issued driver's license. No identification or driver's license which has expired shall be valid.

(c) All observers in a polling station shall be located within five feet of any station they desire to observe. Observers inside a polling station shall also be permitted to photograph any or all activities they desire. Private citizens outside a polling station shall be permitted to photograph

any and all activity they desire and shall be free from any liability of any kind for such photographing. All photographing shall be understood to include and allow video-taping and the recording of sound and voice.

(d) All ballots shall be counted only at and reported only from the place where the votes are cast.

(e) Under no condition shall the counting of votes be stopped between the time that a poll has closed and four hours thereafter unless completed.

(f) All votes shall be counted and reported within four hours of the time voting has closed. No votes being reported thereafter shall be valid.

(g) All vote totals shall be reported from all locations on the following basis: (a) by 11:59 p.m. of the night before the election (relating to early voting and mail in ballots); (b) at one hour after the scheduled polling closing time; (c) at two hours after the scheduled polling closing time; (d) at three hours after the scheduled polling closing time; and, finally, (e) at four hours after the scheduled polling closing time.

Sec. 4. Legislative Election Authority

(a) The legislature of the state shall have authority in elections for president and vice president of the United States to adjust or void any vote totals it determines appropriate. It may also ignore any vote totals and exercise its right to appoint electors as specified under the United States Constitution.

(b) Any alleged violation of state election law may be remedied by a complaint filed with the state legislature, who shall promptly according to its own procedures review, receive evidence, and make a final ruling on the same.

Sec. 5. Inspection Rights

All registration material, election-related computer files and data bases, and actual ballots cast shall remain available for inspection by representatives of any state party, the legislature, the courts, and any group of 1,000 or more requesting registered voters, for 120 days after the election.

Sec. 6. Election Crimes

(a) Any person (a) voting twice or more times in a single election, or (b) voting on behalf of a deceased person, or (c) voting using another person's name, or (d) voting who is not a United States citizen shall be guilty of treason against the state.

(b) Election officials denying any right to observers to an election shall be guilty of a Class III felony.

(c) Any person who resets or erases any election files or data bases, or destroys or misplaces any ballots prior to the end of the 120-day inspection period shall be guilty of a Class III felony.

(d) Any polling supervisor who fails to report partial and final results on the schedule shall be guilty of a Class III felony.

(e) Any ballot counter who intentionally, with a lack of good faith, causes ballots to be adjudicated shall be guilty of a Class III felony.

Be it resolved by the people of the state of Missouri that the Constitution be amended:

so that it (a) clarifies the Federal Government duty to uphold the rights of Missouri citizens under the U.S. Constitution, including the Bill of Rights and all other provisions, (b) identifies breaches by the Federal Government, and (c) affirms Missouri's right to assess the severity and consequences of such breaches of the US Constitution.

Article XXIX,

Sec. 1. Duty of Federal Government of the United States to Uphold the Bill of Rights and Constitution

(a) The State of Missouri hereby clarifies its admission as a State into the United States of America. Such application by Missouri and admission by the federal government are, in essence, a governmental compact between the two whereby both parties undertake to fulfill their respective duties.

(b) The Supremacy Clause of the Constitution of the United States and application of the doctrine set forth in Marbury v. Madison together are not designed to give the federal government a "blank check" in this governmental compact. Accordingly, the federal government is obligated to uphold its end of the bargain, or else find itself in breach.

(c) Some breaches of federal government duty may be material, and some may be immaterial.

(d) All breaches of the federal government to uphold each of the provisions of the Bill of Rights, including the Tenth Amendment, of the Constitution of the United States is a material breach.

(e) Failure of the federal government to allow states to propose Constitutional amendments under Article V of the Constitution of the United States of America is also a material breach.

(f) The State of Missouri reserves the right to address breaches, both material and immaterial, as it may determine proper, following good faith efforts to reconcile such breaches and allowing the federal government a period in which it can remedy its breach of contract.

Sec 2. Federal Breaches

The following actions by the United States of America constitute breaches of the Constitutional compact it has with the State of Missouri:

(a) The excessive use of executive orders by the President of the United States of America, except in the case of live military conflict, circumventing the representative legislative process;

(b) The excessive and reckless incurrence of debt, except in the case of anticipated or live military conflict;

(c) Failure to effectively protect the borders of the country from unauthorized entry or invasion;

(d) Failure by the Justice Department and Supreme Court of the United States of America to (i) equally enforce the rule of law, (ii) imbue citizens with confidence that the results of national elections are free and fair, and (iii) provide prompt enforcement of criminal laws without endless delays due to investigations often times resulting in no meaningful enforcement action;

(e) Failure by the federal government to protect the right of the State of Missouri under the Tenth Amendment to the Constitution of the United States of America to exercise powers not specifically

given to the federal government, including the power to protect life and protect marriage as Missouri determines best;

(f) Dramatically curtailing freedom of speech of all kinds, in both the public and private arena;

(g) Increasingly curtailing freedom of worship with only the least restrictive means of governmental limitation to serve a compelling governmental interest;

(h) Congress effectively ignoring the right of States to propose amendments to the Constitution of the United States of America under Article V; and,

(i) In the name of protection, creating and deploying espionage tools stripping Americans of their sense of privacy of thought, speech, and action, and use of electronic tools of all kinds.

Sec 3. Significance of such Breaches

The severity of such breaches, and which, if any of them, are immaterial, and the consequences thereof are for the State of Missouri to assess and decide.

_____ Address of Notary

Be it resolved by the people of the state of Missouri that the Constitution be amended:

To include the Bill of Rights as part of the Constitution of the State of Missouri.

Article XXVIII,

Sec. 1, Power of the People

All power of government is created by and comes from the People to the Government.

Sec. 2, Bill of Rights

The State of Missouri hereby guarantees to all its citizens to protect all of the following rights from infringement by any government (collectively known as the Missouri Bill of Rights):

(a) No law shall be made respecting an establishment of religion, or prohibiting the free exercise thereof; or abridging the freedom of speech, or of the press; or the right of the people peaceably to assemble, and to petition the Government for a redress of grievances.

(b) A well regulated Militia, being necessary to the security of a free State, the right of the people to keep and bear Arms shall not be infringed.

(c) No Soldier shall, in time of peace be quartered in any house, without the consent of the Owner, nor in time of war, but in a manner to be prescribed by law.

(d) The right of the people to be secure in their persons, houses, papers, and effects, against unreasonable searches and seizures, including all forms of electronic searches and seizures, shall not be violated, and no Warrants shall issue, but upon probable cause, supported by Oath or affirmation, and particularly describing the place to be searched, and the persons or things to be seized.

(e) No person shall be held to answer for a capital, or otherwise infamous crime, unless on a presentment or indictment of a Grand Jury, except in cases arising in the land or naval forces, or in the Militia, when in actual service in time of War or public danger; nor shall any person be subject for the same offence to be twice put in jeopardy of life or limb; nor shall be compelled in any criminal case to be a witness against himself, nor be deprived of life, liberty, or property, without due process of law; nor shall private property be taken for public use, without just compensation.

(f) In all criminal prosecutions, the accused shall enjoy the right to a speedy and public trial, by an impartial jury of the State and district wherein the crime shall have been committed, which district shall have been previously ascertained by law, and to be informed of the nature and cause of the accusation; to be confronted with the witnesses against him; to have compulsory process for obtaining witnesses in his favor, and to have the Assistance of Counsel for his defense.

(g) In Suits at common law, where the value in controversy shall exceed twenty dollars, the right of trial by jury shall be preserved, and no fact tried by a jury, shall be otherwise re-examined in any Court of the United States, than according to the rules of the common law.

(h) Excessive bail shall not be required, nor excessive fines imposed, nor cruel and unusual punishments inflicted.

(i) The enumeration in the Constitution of Missouri, of certain rights, shall not be construed to deny or disparage others retained by the people.

(j) The powers not delegated to the United States by the Constitution of the United States, nor prohibited by it to the States, are reserved to the States respectively, or to the people.

Sec. 3, Involuntary Servitude

Involuntary Servitude is prohibited of any individual by another, and also of the State of Missouri by the Federal Government.

-

Sec 4, Remainder of Constitution

The State of Missouri hereby adopts all the remaining text of the Constitution of the United States of America as a part of its own Constitution, without applicability of any Supreme Court or Federal Court decisions or precedents, to be effective if and only if,

(a) the United States of America collapses, or

(b) Missouri lawfully ceases to be a part of the United States of America.

Upon (a) or (b) happening, prior Federal Court decisions, including those considering state issues, shall be of no further authority in Missouri.

Sec 5, Past Court Decisions and Interpretations

Any holdings in In re Interest of Anaya, 276 Neb. 825 or State v. Noble, 171 Ariz. 171 are hereby rejected; while the holdings in Hendricks v. State,897 N.E.2d 1208 (Ind. Ct. App. 2008) are hereby affirmed. The interpretation of the Missouri Bill of Rights shall be by Missouri courts and fresh and independent of past interpretations of the Bill of Rights contained in the United States Constitution. No contemporaneous, legislative, or administrative construction of the Missouri Bill of Rights is permitted; although reference to the Federalist Papers for interpretive guidance is permitted. All the provisions of the Missouri Bill of Rights are self-executing and shall be so interpreted.

The provisions of this amendment shall be interpreted to supplement other provisions of the Constitution of Missouri, where such provisions can be consistently interpreted, or, if such construction is not possible, then the provisions of this amendment shall supersede such other provisions of the Constitution of Missouri.

JOHN R. ASHCROFT

RE: Petition approval request from Mark Pedersen regarding a proposed constitutional amendment to Article XIV (2022-023)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Mark Pedersen on March 23, 2021.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

Be it resolved by the people of the state of Missouri that the Constitution be amended:

This measure amends Article XIV Section 1 of the Missouri Constitution by deleting all matters within the enclosed brackets and adding all of the underlined matters as required pursuant to Section 116.050 RSMo.

Section 1. [Right to Access medical marijuana.] Missouri Cannabis Restoration and Protection [– 1. Purposes.]

1. Clarification as a substance.

[This section is intended to permit state-licensed physicians to recommend marijuana for medical purposes to patients with serious illnesses and medical conditions. The section allows patients with qualifying medical conditions the right to discuss freely with their physicians the possible benefits of medical marijuana use, the right of their physicians to provide professional advice concerning the same, and the right to use medical marijuana for treatment under the supervision of a physician.
This section is intended to make only those changes to Missouri laws that are necessary to protect patients, their primary caregivers, and their physicians from civil and criminal penalties, and to allow for the limited legal production, distribution, sale and purchase of marijuana for medical use. This section is not intended to change current civil and criminal laws governing the use of marijuana for nonmedical purposes. The section does not allow for the public use of marijuana and driving under the influence of marijuana.]

Cannabis shall immediately be removed from the Missouri Revised Statutes list of controlled substances and shall no longer be listed among Missouri's drug schedules. Cannabis shall hence forth be considered a food and not a controlled substance or a drug, by Missouri law, by the passage of this initiative.

[2. Definitions.] **2. Definitions.**

[(1) "Administer" means the direct application of marijuana to a qualifying patient by way of any of the following methods:

(a) Ingestion of capsules, teas, oils, and other marijuana-infused products;

(b) Vaporization or smoking of dried flowers, buds, plant material, extracts, or oils;

(c) Application of ointments or balms;

(d) Transdermal patches and suppositories;

(e) Consuming marijuana-infused food products; or

(f) Any other method recommended by a qualifying patient's physician.

(2) "Department" means the Department of Health and Senior services, or its successor agency.

(3) "Entity" means a natural person, corporation, professional corporation, nonprofit corporation, cooperative corporation, unincorporated association, business trust, limited liability company, general or limited partnership, limited liability partnership, joint venture, or any other legal entity.

(4) "Flowering plant" means a marijuana plant from the time it exhibits the first signs of sexual maturity through harvest.

(5) "Marijuana" or "marihuana" means *Cannabis indica, Cannabis sativa, and Cannabis ruderalis,* hybrids of such species, and any other strains commonly understood within the scientific community to constitute marijuana, as well as resin extracted from the plant and marijuana-infused products. "marijuana" or "Marihuana" do not include industrial hemp containing a crop-wide average tetrahydrocannabinol concentration that does not exceed three-tenths of one percent on a dry weight basis, or commodities or products manufactured from industrial hemp.

(6) "Marijuana-infused products" means products that are infused with marijuana or an extract thereof and are intended for use or consumption other than by smoking, including, but not limited to, edible products, ointments, tinctures and concentrates.

(7) "Medical marijuana cultivation facility" means a facility licensed by the department, to acquire, cultivate, process, store, transport, and sell marijuana to a medical marijuana dispensary facility, medical marijuana testing facility, or to a medical marijuana-infused products manufacturing facility.

(8) "Medical marijuana dispensary facility" means a facility licensed by the department, to acquire, store, sell, transport, and deliver marijuana, marijuana-infused products, and drug paraphernalia used to administer marijuana as provided for in this section to a qualifying patient, a primary caregiver, another medical marijuana dispensary facility, a medical marijuana testing facility, or a medical marijuana-infused products manufacturing facility.

(9) "Medical marijuana-infused products manufacturing facility" means a facility licensed by the department, to acquire, store, manufacture, transport, and sell marijuana-infused products to a medical marijuana dispensary facility, a medical marijuana testing facility, or to another medical marijuana-infused products manufacturing facility.

(10) "Medical marijuana testing facility" means a facility certified by the department, to acquire, test, certify, and transport marijuana.

(11) "Medical use" means the production, possession, delivery, distribution, transportation, or administration of marijuana or a marijuana-infused product, or drug paraphernalia used to administer marijuana or a marijuana-infused product, for the benefit of a qualifying patient to mitigate the symptoms or effects of the patient's qualifying medical condition.

(12) "Physician" means an individual who is licensed and in good standing to practice medicine or osteopathy under Missouri law.

(13) "Physician certification" means a document, whether handwritten, electronic or in another commonly used format, signed by a physician and stating that, in the physician's professional opinion, the patient suffers from a qualifying medical condition.

(14) "Primary caregiver" means an individual twenty-one years of age or older who has significant responsibility for managing the well-being of a qualifying patient and who is designated as such on the primary caregiver's application for an identification card under this section or in other written notification to the department.

(15) "Qualifying medical condition" means the condition of, symptoms related to, or side-effects from the treatment of:

(a) Cancer;

(b) Epilepsy;

(c) Glaucoma;

(d) Intractable migraines unresponsive to other treatment;

(e) A chronic medical condition that causes severe, persistent pain or persistent muscle spasms, including but not limited to those associated with multiple sclerosis, seizures, Parkinson's disease, and Tourette's syndrome;

(f) Debilitating psychiatric disorders, including, but not limited to, post-traumatic stress disorder, if diagnosed by a state licensed psychiatrist;

(g) Human immunodeficiency virus or acquired immune deficiency syndrome;

(h) A chronic medical condition that is normally treated with a prescription medication that could lead to physical or psychological dependence, when a physician determines that medical use of marijuana could be effective in treating that condition and would serve as a safer alternative to the prescription medication;

(i) Any terminal illness; or

(j) In the professional judgment of a physician, any other chronic, debilitating or other medical condition, including, but not limited to, hepatitis C, amyotrophic lateral sclerosis, inflammatory bowel disease, Crohn's disease, Huntington's disease, autism, neuropathies, sickle cell anemia, agitation of Alzheimer's disease, cachexia, and wasting syndrome.

(16) "Qualifying patient" means a Missouri resident diagnosed with at least one qualifying medical condition.]

(a) "Controlled Substance List", or "CSL" refers to Missouri's list of controlled substances as pertains to Missouri Statutes.
(b) "Cannabis" and "Cannabis hemp" refer to Cannabis, marihuana, marijuana, Cannabis sativa, Cannabis sativa L., Cannabis Americana, Cannabis Gigantea, Cannabis indica, Cannabis ruderalis, or any variety of Cannabis, including any derivative, concentrate, extract, flower, leaf, particle, preparation, resin, root, salt, seed, stalk, stem, or any product thereof.
(c) "Medical Cannabis" refers to Cannabis used to prevent or to treat a medical condition.
(d) "Personal use" refers to the personal use or consumption of Cannabis.
(e) "Cannabis accessories" means any equipment, products, or materials of any kind that are used, intended for use, or designed for use in planting, propagating, cultivating, growing, harvesting, manufacturing, compounding, converting, producing, processing, preparing, testing, analyzing, packaging, repackaging, storing, or containing Cannabis, or for ingesting, inhaling, vaporizing, smoking or otherwise introducing Cannabis into and/or onto the human body.
(f) "Establishment" refers to a cultivation facility, a testing facility, a product manufacturing facility, or a retail store, or other entity that cultivates, prepares, manufactures, packages, transports or sells food products and/or accessories.

[3. Creating Patient Access to Medical Marijuana.] **3. Personal and Commercial.**

[(1) In carrying out the implementation of this section, the department shall have the authority to:

(a) Grant or refuse state licenses and certifications for the cultivation, manufacture, dispensing, sale, testing, tracking, and transportation of marijuana for medical use as provided by law; suspend, fine, restrict, or revoke such licenses and certifications upon a violation of this section or a rule promulgated pursuant to this section; and impose any administrative penalty authorized by this section or any rule promulgated pursuant to this section.

(b) Promulgate rules and emergency rules necessary for the proper regulation and control of the cultivation, manufacture, dispensing, and sale of marijuana for medical use and for the enforcement of this section so long as patient access is not restricted unreasonably and such rules are reasonably necessary for patient safety or to restrict access to only licensees and qualifying patients.

(c) Develop such forms, certificates, licenses, identification cards, and applications as are necessary for, or reasonably related to, the administration of this section or any of the rules promulgated under this section;

(d) Require a seed-to-sale tracking system that tracks medical marijuana from either the seed or immature plant stage until the medical marijuana or medical marijuana-infused product is sold to a qualifying patient or primary caregiver to ensure that no medical marijuana grown by a medical marijuana cultivation facility or manufactured by a medical marijuana-infused products manufacturing facility is sold or otherwise transferred except by a medical marijuana dispensary facility. The department shall certify, if possible, at least two commercially available systems to licensees as compliant with its tracking standards and issue standards for the creation or use of other systems by licensees.

(e) Issue standards for the secure transportation of marijuana and marijuana-infused products. The department shall certify entities which demonstrate compliance with its transportation standards to transport marijuana and marijuana-infused products to a medical marijuana cultivation facility, a medical marijuana-infused products manufacturing facility, a medical marijuana dispensary facility, a medical marijuana testing facility, or another entity with a transportation certification. The department shall develop or adopt from any other governmental agency such safety and security standards as are reasonably necessary for the transportation of marijuana. Any entity licensed or certified pursuant to this section shall be allowed to transport cannabis.

(f) The department may charge a fee not to exceed $5,000 for any certification issued pursuant to this section.

(g) Prepare and transmit annually a publicly available report accounting to the Governor for the efficient discharge of all responsibilities assigned to the department under this section;

(h) Establish a system to numerically score competing medical marijuana licensee and certificate applicants, only in cases where more applicants apply than the minimum number of licenses or certificates as calculated by this section, which scoring shall be limited to an analysis of the following:

(i) the character, veracity, background, qualifications, and relevant experience of principal officers or managers;

(ii) the business plan proposed by the applicant, which in the case of cultivation facilities and dispensaries shall include the ability to maintain an adequate supply of marijuana, plans to ensure safety and security of qualifying patients and the community, procedures to be used to prevent diversion, and any plan for making marijuana available to low-income qualifying patients;

(iii) site security;

(iv) experience in a legal cannabis market;

(v) in the case of medical marijuana testing facilities, the experience of their personnel with testing marijuana, food or drugs for toxins and/or potency and health care industry experience;

(vi) the potential for positive economic impact in the site community;

(vii) in the case of medical marijuana cultivation facilities, capacity or experience with agriculture, horticulture, and health care;

(viii) in the case of medical marijuana dispensary facilities, capacity or experience with health care, the suitability of the proposed location, and its accessibility for patients;

(ix) in the case of medical marijuana-infused products manufacturing facilities, capacity or experience with food and beverage manufacturing; and

(x) maintaining competitiveness in the marijuana for medical use marketplace.

In ranking applicants and awarding licenses and certificates, the department may consult or contract with other public agencies with relevant expertise regarding these factors. The department shall lift or ease any limit on the number of licensees or certificate holders in order to meet the demand for marijuana for medical use by qualifying patients.

(2) The department shall issue any rules or emergency rules necessary for the implementation and enforcement of this section and to ensure the right to, availability, and safe use of marijuana for medical use by qualifying patients. In developing such rules or emergency rules, the department may consult with other public agencies. In addition to any other rules or emergency rules necessary to carry out the mandates of this section, the department may issue rules or emergency rules relating to the following subjects:

(a) Compliance with, enforcement of, or violation of any provision of this section or any rule issued pursuant to this section, including procedures and grounds for denying, suspending, fining, restricting, or revoking a state license or certification issued pursuant to this section;

(b) Specifications of duties of officers and employees of the department;

(c) Instructions or guidance for local authorities and law enforcement officers;

(d) Requirements for inspections, investigations, searches, seizures, and such additional enforcement activities as may become necessary from time to time;

(e) Creation of a range of administrative penalties for use by the department;

(f) Prohibition of misrepresentation and unfair practices;

(g) Control of informational and product displays on licensed premises provided that the rules may not prevent or unreasonably restrict appropriate signs on the property of the medical marijuana dispensary facility, product display and examination by the qualifying patient and/or primary caregiver, listings in business directories including phone books, listings in marijuana-related or medical publications, or the sponsorship of health or not for profit charity or advocacy events;

(h) Development of individual identification cards for owners, officers, managers, contractors, employees, and other support staff of entities licensed or certified pursuant to this section, including a fingerprint-based federal and state criminal record check in accordance with U.S. Public Law 92-544, or its successor provisions, as may be required by the department prior to issuing a card and procedures to ensure that cards for new applicants are issued within fourteen days. Applicants licensed pursuant to this section shall submit fingerprints to the Missouri state highway patrol for the purpose of conducting a state and federal fingerprint-based criminal background check. The Missouri state highway patrol, if necessary, shall forward the fingerprints to the Federal Bureau of Investigation (FBI) for the purpose of conducting a fingerprint-based criminal background check. Fingerprints shall be submitted pursuant to 43.543 and fees shall be paid pursuant to 43.530;

(i) Security requirements for any premises licensed or certified pursuant to this section, including, at a minimum, lighting, physical security, video, alarm requirements, and other minimum procedures for internal control as deemed necessary by the department to properly administer and enforce the provisions of this section, including reporting requirements for changes, alterations, or modifications to the premises;

(j) Regulation of the storage of, warehouses for, and transportation of marijuana for medical use;

(k) Sanitary requirements for, including, but not limited to, the preparation of medical marijuana-infused products;

(l) The specification of acceptable forms of picture identification that a medical marijuana dispensary facility may accept when verifying a sale;

(m) Labeling and packaging standards;

(n) Records to be kept by licensees and the required availability of the records;

(o) State licensing procedures, including procedures for renewals, reinstatements, initial licenses, and the payment of licensing fees;

(p) The reporting and transmittal of tax payments;

(q) Authorization for the department of revenue to have access to licensing information to ensure tax payment and the effective administration of this section; and

(r) Such other matters as are necessary for the fair, impartial, stringent, and comprehensive administration of this section.

(3) The department shall issue rules or emergency rules for a medical marijuana and medical marijuana-infused products independent testing and certification program for medical marijuana licensees and requiring licensees to test medical marijuana using one or more impartial, independent laboratories to ensure, at a minimum, that products sold for human consumption do not contain contaminants that are injurious to health, to ensure correct labeling and measure potency. The department shall not require any medical marijuana or medical marijuana-infused products to be tested more than once prior to sale.

(4) The department shall issue rules or emergency rules to provide for the certification of and standards for medical marijuana testing facilities, including the requirements for equipment and qualifications for personnel, but shall not require certificate holders to have any federal agency licensing or have any relationship with a federally licensed testing facility. The department shall certify, if possible, at least two entities as medical marijuana testing facilities. No medical marijuana testing facility shall be owned by an entity under substantially common control, ownership, or management as a medical marijuana cultivation facility, medical marijuana-infused product manufacturing facility, or medical marijuana dispensary facility.

(5) The department shall maintain the confidentiality of reports or other information obtained from an applicant or licensee containing any individualized data, information, or records related to the licensee or its operation, including sales information, financial records, tax returns, credit reports, cultivation information, testing results, and security information and plans, or revealing any patient information, or any other records that are exempt from public inspection pursuant to state or federal law. Such reports or other information may be used only for a purpose authorized by this section. Any information released related to patients may be used only for a purpose authorized by federal law and this section, including verifying that a person who presented a patient identification card to a state or local law enforcement official is lawfully in possession of such card.

(6) Within one hundred eighty days of December 6, 2018, the department shall make available to the public license application forms and application instructions for medical marijuana cultivation facilities, medical marijuana testing facilities, medical marijuana dispensary facilities, and medical marijuana-infused products manufacturing facilities.

(7) Within one hundred eighty days of December 6, 2018, the department shall make available to the public application forms and application instructions for qualifying patient, qualifying patient cultivation, and primary caregiver identification cards. Within two hundred ten days of December 6, 2018, the department shall begin accepting applications for such identification cards.

(8) An entity may apply to the department for and obtain one or more licenses to grow marijuana as a medical marijuana cultivation facility. Each facility in operation shall require a separate license, but multiple licenses may be utilized in a single facility. Each indoor facility utilizing artificial lighting may be limited by the department to thirty thousand square feet of flowering plant canopy space. Each outdoor facility utilizing natural lighting may be limited by the department to two thousand eight hundred flowering plants. Each greenhouse facility using a combination of natural and artificial lighting may be limited by the department, at the election of the licensee, to two thousand eight hundred flowering plants or thirty thousand square feet of flowering plant canopy. The license shall be valid for three years from its date of issuance and shall be renewable, except for good cause. The department shall charge each applicant a non-refundable fee of ten thousand dollars per license application or renewal for all applicants filing an application within three years of December 6, 2018, and shall charge each applicant a non-refundable fee of five thousand dollars per license application or renewal thereafter. Once granted, the department shall charge each licensee an annual fee of twenty-five thousand dollars per facility license. Application and license fees shall be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency. No more than three medical marijuana cultivation facility licenses shall be issued to any entity under substantially common control, ownership, or management.

(9) An entity may apply to the department for and obtain one or more licenses to operate a medical marijuana dispensary facility. Each facility in operation shall require a separate license. A license shall be valid for three years from its date of issuance and shall be renewable, except for good cause. The department shall charge each applicant a non-refundable fee of six thousand dollars per license application or renewal for each applicant filing an application within three years of December 6, 2018 and shall charge each applicant a non-refundable fee of three thousand dollars per license application or renewal thereafter. Once granted, the department shall charge each licensee an annual fee of ten thousand dollars per facility license. Application and license fees shall be increased or decreased each year by the percentage of increase or

thousand dollars per facility license. Application and license fees shall be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency. No more than five medical marijuana dispensary facility licenses shall be issued to any entity under substantially common control, ownership, or management.

(10) An entity may apply to the department for and obtain one or more licenses to operate a medical marijuana-infused products manufacturing facility. Each facility in operation shall require a separate license. A license shall be valid for three years from its date of issuance and shall be renewable, except for good cause. The department shall charge each applicant a non-refundable fee of six thousand dollars per license application or renewal for each applicant filing an application within three years of December 6, 2018 and shall charge each applicant a non-refundable fee of three thousand dollars per license application or renewal thereafter. Once granted, the department shall charge each licensee an annual fee of ten thousand dollars per facility license. Application and license fees shall be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency. No more than three medical marijuana-infused products manufacturing facility licenses shall be issued to any entity under substantially common control, ownership, or management.

(11) Any applicant for a license authorized by this section may pre-file their application fee with the department beginning 30 days after December 6, 2018.

(12) Except for good cause, a qualifying patient or his or her primary caregiver may obtain an identification card from the department to cultivate up to six flowering marijuana plants for the exclusive use of that qualifying patient. The card shall be valid for twelve months from its date of issuance and shall be renewable with the annual submittal of a new or updated physician's certification. The department shall charge an annual fee for the card of one hundred dollars, with such rate to be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency.

(13) The department may set a limit on the amount of marijuana that may be purchased by or on behalf of a single qualifying patient in a thirty day period, provided that limit is not less than four ounces of dried, unprocessed marijuana, or its equivalent. Any such limit shall not apply to a qualifying patient with written certification from two independent physicians that there are compelling reasons why the qualifying patient needs a greater amount than the limit established by the department.

(14) The department may set a limit on the amount of marijuana that may be possessed by or on behalf of each qualifying patient, provided that limit is not less than a sixty day supply of dried, unprocessed marijuana, or its equivalent. A primary caregiver may possess a separate legal limit for each qualifying patient under their care and a separate legal limit for themselves if they are a qualifying patient.
qualifying patients cultivating marijuana for medical use may possess up to a ninety day supply, so long as the supply remains on property under their control. Any such limit shall not apply to a qualifying patient with written certification from two independent physicians that there are compelling reasons for additional amounts. Possession of between the legal limit and up to twice the legal limit shall subject the possessor to department sanctions, including an administrative penalty and loss of their patient identification card for up to a year. Purposefully possessing amounts in excess of twice the legal limit shall be punishable by imprisonment of up to one year and a fine of up to two thousand dollars.

(15) The department may restrict the aggregate number of licenses granted for medical marijuana cultivation facilities, provided, however, that the number may not be limited to fewer than one license per every one hundred thousand inhabitants, or any portion thereof, of the state of Missouri, according to the most recent census of the United States. A decrease in the number of inhabitants in the state of Missouri shall have no impact.

(16) The department may restrict the aggregate number of licenses granted for marijuana-infused products manufacturing facilities, provided, however, that the number may not be limited to fewer than one license per every seventy thousand inhabitants, or any portion thereof, of the state of Missouri, according to the most recent census of the United States. A decrease in the number of inhabitants in the state of Missouri shall have no impact.

(17) The department may restrict the aggregate number of licenses granted for medical marijuana dispensary facilities, provided, however, that the number may not be limited to fewer than twenty-four licenses in each United States Congressional district in the state of Missouri pursuant to the map of each of the eight congressional districts as drawn and effective on December 6, 2018. Future changes to the boundaries of or the number of congressional districts shall have no impact.

(18) The department shall begin accepting license and certification applications for medical marijuana dispensary facilities, medical marijuana testing facilities, medical marijuana cultivation facilities, medical marijuana-infused products manufacturing facilities, seed-to-sale tracking systems, and for transportation of marijuana no later than two hundred forty days after December 6, 2018. Applications for licenses and certifications under this section shall be approved or denied by the department no later than one hundred fifty days after their submission. If the department fails to carry out its non-discretionary duty to approve or deny an application within one hundred fifty days of submission, an applicant may immediately seek a court order compelling the department to approve or deny the application.

(19) Qualifying patients under this section shall obtain and annually renew an identification card or cards from the department. The department shall charge a fee of twenty-five dollars per year per card with such fee to be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor or its successor agency. Upon receiving an application for a qualifying patient identification card or qualifying patient cultivation identification card, the department shall, within thirty days, either issue the card or provide a written explanation for its denial. If the department fails to deny and fails to issue a card to an eligible qualifying patient within thirty days, then their physician certification shall serve as their qualifying patient identification card or qualifying patient cultivation identification card for up to one year from the date of physician certification. All initial applications for or renewals of a qualifying patient identification card or qualifying patient cultivation identification card shall be accompanied by a physician certification that is less than thirty days old.

(20) Primary caregivers under this section shall obtain and annually renew an identification card from the department. The department shall charge a fee of twenty five dollars per year, with such fee to be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency. Upon receiving an application for a primary caregiver identification card the department shall, within thirty days, either issue the card or provide a written explanation for its denial.

(21) All marijuana for medical use sold in Missouri shall be cultivated in a licensed medical marijuana cultivation facility located in Missouri.

(22) All marijuana-infused products for medical use sold in the state of Missouri shall be manufactured in a medical marijuana-infused products manufacturing facility.

(23) The denial of a license, license renewal, or identification card by the department shall be appealable to the administrative hearing commission, or its successor entity. Following the exhaustion of administrative review, denial of a license, license renewal, or identification card by the department shall be subject to judicial review as provided by law.

(24) No elected official shall interfere directly or indirectly with the department's obligations and activities under this section.

(25) The department shall not have the authority to apply or enforce any rule or regulation that would impose an undue burden on any one or more licensees or certificate holders, any qualifying patients, or act to undermine the purposes of this section.]

The following acts are not unlawful and shall not be an offense under Missouri law:
(a) Possession and/or consumption of Cannabis for personal or medical use.
(b) Cultivating Cannabis for personal or medical use.
(c) Cultivation, harvesting, processing, manufacturing, packaging, distributing, transferring, displaying or possessing Cannabis, Cannabis accessories, and Cannabis products for commercial purposes, provided the person has current applicable licensing to operate a commercial establishment. No special licensing will be required beyond that which is applicable for the cultivating, harvesting, processing, manufacturing, packaging, distribution, transferal, display or possession of any non-toxic food or food product.
(d) Providing Cannabis, Cannabis accessories, and Cannabis products for sale to consumers.
(e) Leasing or otherwise allowing the use of property owned, occupied or controlled by any person, corporation or other entity for any of the activities conducted lawfully in accordance with paragraphs (a) through (d) of this subsection.
(f) No one shall be denied housing solely based on their use of Cannabis.
(g) No one shall be denied employment solely based on their use of Cannabis.
(h) The use and/or possession of Cannabis shall in no way impede one's legal right to possess a firearm.

[4. Taxation and Reporting.] **4. Medical.**

[(1) A tax is levied upon the retail sale of marijuana for medical use sold at medical marijuana dispensary facilities within the state. The tax shall be at a rate of four percent of the retail price. The tax shall be collected by each licensed medical marijuana dispensary facility and paid to the department of revenue. After retaining no more than five percent for its actual collection costs, amounts generated by the tax levied in this section shall be deposited by the department of revenue into the Missouri veterans' health and care fund. Licensed entities making retail sales within the state shall be allowed approved credit for returns provided the tax was paid on the returned item and the purchaser was given the refund or credit.

(2) There is hereby created in the state treasury the "Missouri veterans' Health and Care Fund," which shall consist of taxes and fees collected under this section. The State Treasurer shall be custodian of the fund, and he or she shall invest monies in the fund in the same manner as other funds are invested. Any interest and monies earned on such investments shall be credited to the fund. Notwithstanding any other provision of law, any monies remaining in the fund at the end of a biennium shall not revert to the credit of the general revenue fund. The commissioner of administration is authorized to make cash operating transfers to the fund for purposes of meeting the cash requirements of the department in advance of it receiving annual application, licensing, and tax revenue, with any such transfers to be repaid as provided by law. The fund shall be a dedicated fund and shall stand appropriated without further legislative action as follows:

(a) First, to the department, an amount necessary for the department to carry out this section, including repayment of any cash operating transfers, payments made through contract or agreement with other state and public agencies necessary to carry out this section, and a reserve fund to maintain a reasonable working cash balance for the purpose of carrying out this section:

(b) Next, the remainder of such funds shall be transferred to the Missouri veterans commission for health and care services for military veterans, including the following purposes: operations, maintenance and capital improvements of the Missouri veterans homes, the Missouri service officer's Program, and other services for veterans approved by the commission, including, but not limited to, health care services, mental health services, drug rehabilitation services, housing assistance, job training, tuition assistance, and housing assistance to prevent homelessness. The Missouri veterans commission shall contract with other public agencies for the delivery of services beyond its expertise.

(c) All monies from the taxes authorized under this subsection shall provide additional dedicated funding for the purposes enumerated above and shall not replace existing dedicated funding.

(3) For all retail sales of marijuana for medical use, a record shall be kept by the seller which identifies, by secure and encrypted patient number issued by the seller to the qualifying patient involved in the sale, all amounts and types of marijuana involved in the sale and the total amount of money involved in the sale, including itemizations, taxes collected and grand total sale amounts. All such records shall be kept on the premises in a readily available format and be made available for review by the department and the Department of Revenue upon request. Such records shall be retained for five years from the date of the sale.

(4) The tax levied pursuant to this subsection is separate from, and in addition to, any general state and local sales and use taxes that apply to retail sales, which shall continue to be collected and distributed as provided by general law.

(5) Except as authorized in this subsection, no additional taxes shall be imposed on the sale of marijuana for medical use.

(6) The fees and taxes provided for in this Article XIV, Section 1 shall be fully enforceable notwithstanding any other provision in this Constitution purportedly prohibiting or restricting the taxes and fees provided for herein.

(7) The unexpended balance existing in the fund shall be exempt from the provisions of section 33.080 relating to the transfer of unexpended balances to the general revenue fund.]

Medical Cannabis shall be available to patients without taxation who have a physician's recommendation for its use.
(a) All patients engaged in Cannabis therapy shall be afforded the same rights and privileges afforded to any patient treated through conventional therapeutic means, whether or not under the care of a physician.
(b) Licensed physicians shall not be penalized for, nor restricted from recommending and/or providing Cannabis for medical purposes to any person under their care.
(c) Veterinarians shall not be penalized nor restricted from recommending and/or providing Cannabis for medical purposes for any creature under their care.
(d) Any individual who is a Cannabis patient in another state shall be granted the same rights and privileges as a legal Missouri Cannabis patient.
(e) Medical care, including organ transplants, shall not be restricted in any way based on a person's use of Cannabis.

[5. Additional Patient, Physician, Caregiver and Provider Protections.] **5. Zoning.**

[(1) Except as provided in this section, the possession of marijuana in quantities less than the limits of this section, or established by the department, and transportation of marijuana from a medical marijuana dispensary facility to the qualifying patient's residence shall not subject the possessor to arrest, criminal or civil liability, or sanctions under Missouri law, provided that the possessor produces on demand to the appropriate authority a valid qualifying patient identification card: a valid qualifying patient cultivation identification card; a valid physician certification while making application for an identification card: or a valid primary caregiver identification card. Production of the respective equivalent identification card or authorization issued by another state or political subdivision of another state shall also meet the requirements of this subdivision.

(2) No patient shall be denied access to or priority for an organ transplant because they hold a qualifying patient identification card or use marijuana for medical use.

(3) A physician shall not be subject to criminal or civil liability or sanctions under Missouri law or discipline by the Missouri State Board of Registration for the Healing Arts, or its successor agency, for owning, operating, investing in, being employed by, or contracting with any entity

investing in, being employed by, or contracting with any entity licensed or certified pursuant to this section or providing health care services that involve the medical use of marijuana consistent with this section and legal standards of professional conduct.

(5) A medical marijuana testing facility shall not be subject to civil or criminal prosecution under Missouri law, denial of any right or privilege, civil or administrative penalty or sanction, or disciplinary action by any accreditation or licensing board or commission for providing laboratory testing services that relate to the medical use of marijuana consistent with this section and otherwise meeting legal standards of professional conduct.

(6) A health care provider shall not be subject to mandatory reporting requirements for the medical use of marijuana by non-emancipated qualifying patients under eighteen years of age in a manner consistent with this section and with consent of a parent or guardian.

(7) A primary caregiver shall not be subject to criminal or civil liability or sanctions under Missouri law for purchasing, transporting, or administering marijuana for medical use to a qualifying patient or participating in the patient cultivation of up to six flowering marijuana plants per patient in a manner consistent with this section and generally established legal standards of personal or professional conduct.

(8) An attorney shall not be subject to disciplinary action by the state bar association or other professional licensing body for owning, operating, investing in, being employed by, contracting with, or providing legal assistance to prospective or licensed medical marijuana testing facilities, medical marijuana cultivation facilities, medical marijuana dispensary facilities, medical marijuana-infused products manufacturing facilities, qualifying patients, primary caregivers, physicians, health care providers or others related to activity that is no longer subject to criminal penalties under state law pursuant to this section.

(9) Actions and conduct by qualifying patients, primary caregivers, medical marijuana testing facilities, medical marijuana cultivation facilities, medical marijuana-infused products manufacturing facilities, or medical marijuana dispensary facilities licensed or registered with the department, or their employees or agents, as permitted by this section and in compliance with department regulations and other standards of legal conduct, shall not be subject to criminal or civil liability or sanctions under Missouri law, except as provided for by this section.

(10) Nothing in this section shall provide immunity for negligence, either common law or statutorily created, nor criminal immunities for operating a vehicle, aircraft, dangerous device, or navigating a boat under the influence of marijuana.

(11) It is the public policy of the state of Missouri that contracts related to marijuana for medical use that are entered into by qualifying patients, primary caregivers, medical marijuana testing facilities, medical marijuana cultivation facilities, medical marijuana-infused products manufacturing facilities, or medical marijuana dispensary facilities and those who allow property to be used by those entities, should be enforceable. It is the public policy of the state of Missouri that no contract entered into by qualifying patients, primary caregivers, medical marijuana testing facilities, medical marijuana cultivation facilities, medical marijuana-infused products manufacturing facilities, or medical marijuana dispensary facilities, or by a person who allows property to be used for activities that are exempt from state criminal penalties by this section, shall be unenforceable on the basis that activities related to medical marijuana may be prohibited by federal law.]

Cannabis farmers, manufacturers, processors, and distributors shall not be subject to any special zoning requirement, licensing fee that is excessive, discriminatory, prohibitive, or in any way contrary to that which is relative to any other commercial or agricultural farmer, manufacturer, processor or distributor.

[6. Legislation.] **6. Law Enforcement and the Courts.**

[Nothing in this section shall limit the General Assembly from enacting laws consistent with this section, or otherwise effectuating the patient rights of this section. The legislature shall not enact laws that hinder the right of qualifying patients to access marijuana for medical use as granted by this section.]

Missouri's law enforcement and its courts shall protect Cannabis users and their property without discrimination, and with the same effort afforded to every citizen of Missouri and our nation.
(a) The use and/or possession of Cannabis shall not be grounds for issuing a "Driving under the influence" (DUI) stop, charge, arrest or fine(s) when operating or a passenger of a motor vehicle. Stops, charges, fines and arrests shall be the product of visible and/or previously proven non-Cannabis infractions of Missouri law; actual crime, not assumed or coerced.
(b) No Missouri law enforcement personnel or state funds shall be used to assist or aid in the enforcement of federal Cannabis laws involving acts which are no longer illegal in the State of Missouri under this amendment.
(c) Asset or Civil Forfeiture shall no longer be used in the state of Missouri through association with Cannabis, Cannabis cultivation, it's use and/or possession, in any way.
(d) Upon the passage of this Act, all persons incarcerated or under supervision of the Missouri Board of Probation and Parole for non-violent, Cannabis-only offenses, which are no longer illegal in the State of Missouri under this Act, shall be immediately released.
(e) Within 60 days of the passage of this Act, a legal document shall be developed and made available to the public ordering the immediate destruction of all Cannabis-related non-violent civil and criminal records in Missouri and for any offense covered by this amendment which is no longer illegal in the State of Missouri under this Act. This document shall be distributed to all pertinent parties throughout the state.
(f) Within 60 days, Missouri's Courts shall order the immediate expungement of civil and criminal records pertaining to all non-violent Cannabis only offenses which are no longer illegal in the State of Missouri under this Act.

[7. Additional Provisions.] **7. Regarding Federal Law.**

[(1) Nothing in this section permits a person to:

(a) Consume marijuana for medical use in a jail or correctional facility;

(b) Undertake any task under the influence of marijuana when doing so would constitute negligence or professional malpractice; or

(c) Operate, navigate, or be in actual physical control of any dangerous device or motor vehicle, aircraft or motorboat while under the influence of marijuana; or

(d) Bring a claim against any employer, former employer, or prospective employer for wrongful discharge, discrimination, or any similar cause of action or remedy, based on the employer, former employer, or prospective employer prohibiting the employee, former employee, or prospective employee from being under the influence of marijuana while at work or disciplining the employee or former employee, up to and including termination from employment, for working or attempting to work while under the influence of marijuana.

(2) No medical marijuana cultivation facility, medical marijuana testing facility, medical marijuana dispensary facility, or medical marijuana-infused products manufacturing facility, or entity with a transportation certification shall be owned, in whole or in part, or have as an officer, director, board member, manager, or employee, any individual with a disqualifying felony offense. A "disqualifying felony offense" is a violation of, and conviction or guilty plea to, state or federal law that is, or would have been, a felony under Missouri law, regardless of the sentence imposed, unless the department determines that:

(a) The person's conviction was for the medical use of marijuana or assisting in the medical use of marijuana; or

(b) The person's conviction was for a non-violent crime for which he or she was not incarcerated and that is more than five years old; or

(c) More than five years have passed since the person was released from parole or probation, and he or she has not been convicted of any subsequent criminal offenses.

The department may consult with and rely on the records, advice and recommendations of the Attorney General and the Department of Public Safety, or their successor entities, in applying this subdivision.

(3) All medical marijuana cultivation facility, medical marijuana dispensary facility, and medical marijuana-infused products manufacturing facility licenses, entities with medical marijuana testing facility certifications, and entities with transportation certifications shall be held by entities that are majority owned by natural persons who have been citizens of the state of Missouri for at least one year prior to the application for such license or certification. Notwithstanding the foregoing, entities outside the state of Missouri may own a minority stake in such entities.

(4) No medical marijuana cultivation facility, medical marijuana dispensary facility, or medical marijuana-infused products manufacturing facility shall manufacture, package or label marijuana or marijuana-infused products in a false or misleading manner. No person shall sell any product in a manner designed to cause confusion between a marijuana or marijuana-infused product and any product not containing marijuana. A violation of this subdivision shall be punishable by an appropriate and proportional department sanction, up to and including loss of license.

(5) All edible marijuana-infused products shall be sold in individual, child-resistant containers that are labeled with dosage amounts, instructions for use, and estimated length of effectiveness. All marijuana and marijuana-infused products shall be sold in containers clearly and conspicuously labeled, in a font size at least as large as the largest other font size used on the package, as containing "Marijuana," or a " Marijuana-Infused Product." Violation of this prohibition shall subject the violator to department sanctions, including an administrative penalty.

(6) No individual shall serve as the primary caregiver for more than three qualifying patients.

(7) No qualifying patient shall consume marijuana for medical use in a public place, unless provided by law. Violation of this prohibition shall subject the violator to sanctions as provided by general law.

(8) No person shall extract resins from marijuana using dangerous materials or combustible gases without a medical marijuana-infused products manufacturing facility license. Violation of this prohibition shall subject the violator to department sanctions, including an administrative penalty and, if applicable, loss of their identification card, certificate, or license for up to one year.

(9) All qualifying patient cultivation shall take place in an enclosed, locked facility that is equipped with security devices that permit access only by the qualifying patient or by such patient's primary caregiver. Two qualifying patients, who both hold valid qualifying patient cultivation identification cards, may share one enclosed, locked facility. No more than twelve qualifying patient or primary caregiver cultivated flowering marijuana plants may be cultivated in a single, enclosed locked facility, except when a primary caregiver also holds a qualifying patient cultivation identification card, in which case no more than eighteen flowering marijuana plants may be cultivated in a single, enclosed, locked facility.

(10) No medical marijuana cultivation facility, medical marijuana dispensary facility, medical marijuana-infused products manufacturing facility, medical marijuana testing facility, or entity with a transportation certification shall assign, sell, give, lease, sublicense, or otherwise transfer its license or certificate to any other entity without the express consent of the department, not to be unreasonably withheld.

(11) Unless allowed by the local government, no new medical marijuana cultivation facility, medical marijuana testing facility, medical marijuana dispensary facility, or medical marijuana-infused products manufacturing facility shall be initially sited within one thousand feet of any then-existing elementary or secondary school, child day-care center, or church. No local government shall prohibit medical marijuana cultivation facilities, medical marijuana testing facilities, medical marijuana-infused products manufacturing facilities, or medical marijuana dispensary facilities, or entities with a transportation certification either expressly or through the enactment of ordinances or regulations that make their operation unduly burdensome in the jurisdiction. However, local governments may enact ordinances or regulations not in conflict with this section, or with regulations enacted pursuant to this section, governing the time, place, and manner of operation of such facilities in the locality. A local government may establish civil penalties for violation of an ordinance or regulations governing the time, place, and manner of operation of a medical marijuana cultivation facility, medical marijuana testing facility, medical marijuana-infused products manufacturing facility, medical marijuana dispensary facility, or entity holding a transportation certification that may operate in such locality.

(12) Unless superseded by federal law or an amendment to this Constitution, a physician shall not certify a qualifying condition for a patient by any means other than providing a physician certification for the patient, whether handwritten, electronic, or in another commonly used format. A qualifying patient must obtain a new physician certification at least annually.

(13) A physician shall not issue a certification for the medical use of marijuana for a non-emancipated qualifying patient under the age of eighteen without the written consent of the qualifying patient's parent or legal guardian. The department shall not issue a qualifying patient identification card on behalf of a non-emancipated qualifying patient under the age of eighteen without the written consent of the qualifying patient's parent or legal guardian. Such card shall be issued to one of the parents or guardians and not directly to the patient. Only a parent or guardian may serve as a primary caregiver for a non-emancipated qualifying patient under the age of eighteen. Only the qualifying patient's parent or guardian shall purchase or possess medical marijuana for a non-emancipated qualifying patient under the age of eighteen. A parent or guardian shall supervise the administration of medical marijuana to a non-emancipated qualifying patient under the age of eighteen.

(14) Nothing in this section shall be construed as mandating health insurance coverage of medical marijuana for qualifying patient use.

(15) Real and personal property used in the cultivation, manufacture, transport, testing, distribution, sale, and administration of marijuana for medical use or for activities otherwise in compliance with this section shall not be subject to asset forfeiture solely because of that use.]

Pursuant to the Ninth and Tenth Amendments to the Constitution of the United States, the people of Missouri hereby repudiate and challenge federal Cannabis prohibitions that conflict with this Act.

[8. Severability.] **8. Existing Local, State and Federal Law.**

[The provisions of this section are severable, and if any clause, sentence, paragraph or section of this measure, or an application thereof, is adjudged invalid by any court of competent jurisdiction, the other provisions shall continue to be in effect to the fullest extent possible.]

All provisions of this section shall supersede conflicting city, county, state or federal statutory, local charter, ordinance, or resolution.

[9. Effective Date.] **9. Implementation.**

[The provisions of this section shall become effective on December 6, 2018.]

The dictates of this Initiative, unless otherwise indicated by this initiative, shall be implemented no later than **January 31st, 2023**.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (22-023)

Subject

Initiative petition from Mark Pedersen regarding a proposed constitutional amendment to Article XIV of the Constitution of Missouri. (Received March 23, 2021)

Date

April 12, 2021

Description

This proposal would amend Article XIV of the Constitution of Missouri.

The amendment is to be voted on in November 2022.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education and Workforce Development,** the **Department of Health and Senior Services,** the **Department of Commerce and Insurance,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College, University of Central Missouri, Harris-Stowe State University, Lincoln University, Missouri State University, Missouri Southern State University, Missouri Western State University, Northwest Missouri State University, Southeast Missouri State University, Truman State University, Missouri Veterans**

Commission, Missouri Office of Prosecution Services, the **Kansas City Board of Police Commissioners,** and the **Metropolitan Police Department - City of St. Louis.**

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, they expect that their office could absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, their office may be required to request additional appropriations.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated no anticipated impact to their department.

Officials from the **Department of Elementary and Secondary Education** indicated no impact to their department.

Officials from the **Department of Higher Education and Workforce Development** indicated no impact to their department.

Officials from the **Department of Health and Senior Services** indicated:

Section 1, Article XIV, Constitution of Missouri

Initiative Petition 22-023 places on the ballot in November 2022 a proposed amendment to the Constitution that repeals Section 1, Article XIV, Constitution of Missouri relating to medical marijuana for patients with serious illnesses and medical conditions and replaces it with legalized cannabis for personal or medical use. The law is to be implemented no later than January 31, 2023.

It is assumed, as a result of the repeal of the medical marijuana program, a portion of the five (5) months of expenses may be avoided in fiscal year (FY) 2023. The Department of Health and Senior Services (DHSS), Division of Regulation and Licensure (DRL) will require FTE past the January 31, 2023 effective date to complete the discontinuation of the program and handle pending issues including processing refunds. Any remaining balance in the Veterans Health and Care Fund (0606), once all items are closed, will be transferred to the Missouri Veterans Commission. This will result in a $0 balance in the Missouri Veterans Health and Care Fund.

Their department is not able to estimate the impact the repeal of this section would have on revenues in FY2023. DHSS, DRL does estimate that patients and caregivers will not continue to apply/pay at the same rate as the current program is receiving. DHSS, DRL also estimates a decrease in collections from cultivators, dispensaries, manufacturing facilities, and testing facilities. The repeal eliminates any sales tax charged on medical

cannabis, which would also be a decrease in revenue collected. Any remaining balance in the fund, once all items are closed, will be transferred to the Missouri Veterans Commission. This will result in a $0 balance in the Missouri Veterans Health and Care Fund.

Officials from the **Department of Commerce and Insurance** indicated this petition, if passed, will have minimal cost to their department's Division of Professional Registration, which can be absorbed.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated a fiscal impact of costs savings of $491,964 in fiscal year 2023, $1,394,549 in fiscal year 2024, $2,157,069 in fiscal year 2027.

The estimate of the number of offenders who will be impacted by the legalization of marijuana can be calculated from the sentencing records maintained by their department, but with an important qualification. Most offenders sentenced for drug offenses in Missouri are sentenced for the production, sale, distribution or possession of a controlled substance, but the drug type is not always part of the sentence information that their department receives. In some cases, the drug type is known and is included in the offender management database, but the proportion of cases in which the drug related to the offense is known is a minority of the cases. Given that the drug associated with the offense is unknown by the department in the majority of cases, the estimation of the total impact that follows will use the proportions of cases in which the associated drug is known to determine the number of cases in which the associated drug is unknown that are likely related to marijuana. Therefore, they assume 3% of all prison admissions related to drug sentences are related to marijuana (see table 1).

Table 1. FY 2017 through FY 2020 admissions to prison on only drug-related sentences in which the drug associated with the offense is known. (Drug offenses and drug types are identified in the data system through the use of the National Crime Information Center (NCIC) categories, modifiers associated with a sentence, and the description of the offense.)

Marijuana	70	3.3%
Other Drug	2,072	96.7%
Total	2,142	100.0%

There were 922 offenders with new commitments to prison in FY 2020 who were admitted only on drug sentences. The average length of those sentences was 5.6 years. Based on

their assumption that 3% of those sentences are related to marijuana, they estimate 28 admissions for offenses related only to marijuana.

In FY 2020, there were 1,263 offenders released from prison who had been incarcerated for new commitments to prison only on drug sentences. Their average length of time served to first release was 1.1 years, which is what they assume for all new commitments in FY 2021 in estimating their impact.

Based on their analysis of new probation cases related to drug sentences received by the department in FY 2020, approximately 7% of the cases in which the associated drug is known are related to marijuana (see table 2). Therefore, they assume 7% of all new probation cases are based on drug sentences related to marijuana.

Table 2. FY 2020 probation cases related only to drug sentences in which the drug associated with the offense is known. (Drug offenses and drug types are identified in the data system through the use of the NCIC categories, modifiers associated with a sentence, and the description of the offense.)

Marijuana	209	7.0%
Other Drug	2,766	93.0%
Total	2,975	100.0%

There were 5,138 offenders with new probation cases in FY 2020 whose cases were only on drug sentences. Based on their assumption that 7% of those sentences are related to marijuana, they estimate 360 new probations for sentences of people for offenses related only to marijuana. The average length of those sentences was 5.4 years. Given the possibility of earned compliance credit, they apply a 3 year sentence in their estimation of impact.

The estimated maximum cumulative impact of this proposal on department operations is 73 fewer people in prison and 1,164 fewer people under supervision in the field by FY 2027.

Year 3 (includes 2% inflation)	-73	($7,756)	$589,062		(21)	$1,442,699	$2,031,761	(1,091)
Year 4 (includes 2% inflation)	-73	($7,756)	$600,843		(21)	$1,458,266	$2,059,109	(1,119)

Year 5 (includes 2% inflation)	-73	($7,756)	$612,860		(22)	$1,544,209	$2,157,069	(1,147)
Year 6 (includes 2% inflation)	-73	($7,756)	$625,117		(22)	$1,560,908	$2,186,025	(1,164)
Year 7 (includes 2% inflation)	-73	($7,756)	$637,620		(22)	$1,577,833	$2,215,453	(1,164)
Year 8 (includes 2% inflation)	-73	($7,756)	$650,372		(22)	$1,594,929	$2,245,301	(1,164)
Year 9 (includes 2% inflation)	-73	($7,756)	$663,379		(22)	$1,612,254	$2,275,634	(1,164)
Year 10 (includes 2% inflation)	-73	($7,756)	$676,647		(22)	$1,629,754	$2,306,401	(1,164)

Officials from the **Department of Labor and Industrial Relations** indicated the initiative petition seeks to amend Missouri Constitution Amendment XIV. This proposal would affect the Missouri Department of Health and Senior Services, the Missouri Department of Public Safety, the Missouri Department of Corrections, and the Missouri Department of Commerce and Insurance.

In Missouri, courts will generally not find a cause of action where one is not specifically stated in a statute. However, there are exceptions, especially if no other remedy (such as state or local government enforcement) is provided. Since the legislation prohibits employment discrimination against any person based solely on their use of cannabis, yet does not authorize any government agency to carry out enforcement of the provision, it is possible that a court would view section 285.045 as creating a private cause of action. If so, aggrieved parties might bring a lawsuit in circuit court. Costs are difficult to estimate, but are potentially substantial.

See *Vilcek v. Uber USA, LLC*, 902 F.3d 815 (2018); *American Eagle Waste Industries, LLC v. St. Louis County*, 379 S.W.3d 813 (2012); *Johnson v. Kraft General Foods, Inc.*, 885 S.W.2d 334 (1994); *Byrne & Jones Enterprises, Inc. v. Monroe City R-1 School District*, 493 S.W.3d 847 (2016).

Note that the concept of official immunity protects public officials from liability if those officials act within the course of their official duties and without malice. *Alsup v. Kanatzar*, 588 S.W.3d 187, 190 (Mo. banc 2019). However, official immunity does not apply to situations where public officers fail to perform a ministerial duty required of them by law. In such situations, the public officials may be personally liable for the damages caused. *Id.* at 191.

This would likely have a significant impact on Missouri employers and insurers. Employers would need to make revisions to work policies if cannabis is no longer classified as a drug. Cannabis could still be treated as a mind-altering substance, but revisions to the policies would be necessary. The law is unclear, but since employment denial is outlawed under this provision, it would be reasonable to assume that employment discipline would also be outlawed under this provision.

With greater use of a mind-altering substance, it is likely that more injuries would result at work. This could ultimately drive up Workers' Compensation insurance costs. This would be a cost to private employers, rather than to the department, but nonetheless should be included.

Medical marijuana sales currently occur in the State of Missouri. While this petition appears to further loosen restrictions on medical marijuana commerce, revenue impact at this time remains unknown.

This initiative petition would prohibit employment discrimination against any person based solely on their use of cannabis. We think this would have an impact on all employers, including DOLIR. The language does not include a penalty, but there would likely be a cause of action based on the right created.

Officials from the **Department of Revenue** indicated:

Marijuana businesses may have to charge different sales tax for different products.

Revenue Impact

Currently in Missouri marijuana can be purchased for medical use only. Medical marijuana is taxed at a 4% rate for veterans, it is subject to the state sales tax rate of 4.225% and if there is a local sales tax that is collected. The current amount collected from the veterans 4% tax is $599,092.

This constitutional amendment first makes marijuana legal for recreational use. It states that it is not considered a controlled substance but shall be considered a food. This

amendment also removes the 4% veteran's tax that is on medical marijuana. It also states that medical marijuana will no longer be taxable.

Making marijuana legal for recreational use creates a new product to be sold in Missouri. All products sold in Missouri are subject to sales and use tax unless specifically exempt. The State sales and use tax rate is 4.225%.

Based on a study completed by Gallup, 12 percent of the nation's adults smoke marijuana regularly. Based on information published on suburbanstats.org, there are approximately 4,181,284 individuals at age 21 or above in the State of Missouri, 12% of the total number of adults aged 21 or older would equal 501,754 adults.

A report published by Headset Inc, a new market insights from Seattle-based cannabis intelligence company, believes that the average cannabis consumer spends roughly $647 on marijuana and related products per year. Based on information provided in the report published by Headset Inc, the largest pool of individuals surveyed spent $1,000 or above each year on marijuana and marijuana products. These amount of $647 and $1000 will allow us to estimate a fiscal impact range.

The Department notes that sales tax is added to the purchase prices. Therefore at the low rate of $647 we assume total taxable sales of $324,634,838 ($647 * 501,754). Therefore at the low end we estimate the 4.225% collected sales tax would be $13,715,822 ($324,634,838 * 4.225%).

At the upper rate of $1,000 we assume a total taxable sales of $501,754,000 ($1,000 * 501,754). Therefore at the upper end we estimate the 4.225% collected sales tax would be $21,199,107 ($501,754,000 * 4.225%).

This would result in an increase of revenue to the following funds.

	Low Estimate	High Estimate
General Revenue	$9,739,045	$15,052,620
School District Trust Fund	$3,246,348	$5,017,540
Conservation Commission	$405,794	$627,193
Park, Soil & Water Fund	$324,635	$501,754
Local Governments	$4,496,193	$6,949,293

The Department, for local political subdivisions, assumes a rate of 1.385% based on historical records. It should be noted that all jurisdictions do not collect a sales tax and it is unclear if additional local political subdivisions will implement one.

It should be noted that this proposal states that cannabis shall hence forth be considered a food. Per statutes food is assessed a sales tax rate of 1.225% instead of the 4.225%. The 3% portion that goes to general revenue is not collected on food. However, the current statute that allows for the lower sales tax on food defines food as a product in which Federal Food Stamps can be redeemed. Therefore cannabis does not qualify for the reduced sales tax rate and will be assessed at the 4.225%.

This proposal eliminates the 4% veteran's tax that is currently charged on medical marijuana. This would result in a loss to the Missouri Veterans' Health and Care Fund of at least $599,092 annually.

This proposal eliminates the 4.225% sales tax on medical marijuana. This would result in a loss of the revenue to the state. At the time of the fiscal note, the medical marijuana laws have not been in place for at least a year. Therefore, any loss of revenue from the medical marijuana provisions really is still unknown. It is assumed that any loss from the medical marijuana sales tax provision will be greatly outweighed by the increase in revenue from recreational marijuana.

Officials from the **Department of Public Safety - Office of Director** indicated this language has no impact for their office. The impact on the Missouri State Highway Patrol is as follows:

Missouri State Highway Patrol - Impact and Concerns

Currently there are approximately 66,653 records in the Traffic Arrest System (TAS) pertaining to arrests completed by the Missouri State Highway Patrol that could possibly meet the requirements of this proposed constitutional amendment. (These are arrest records with or without a court conviction with an NCIC modifier of 60-64 that relate to marijuana offenses.) However, due to the uncertain nature of this proposal to amend Missouri's Constitution, the Patrol Records Division (PRD) has no true way to determine the actual impact associated with such a proposal. If PRD is required to simply complete a mass expungement of all 66,653 records without processing individual court orders, then this could probably be completed by the Criminal Justice Information Services Division (CJIS) programming the TAS. However, if PRD is required to process 66,653 court orders for this endeavor, then the division will require a minimum of 214 employees to process the court orders within a 30-day time frame.

1 full-time employee (FTE) = 1,864 hours (average work hours per year) x 60 minutes per hour = 111,840 minutes per year.

30 minutes = estimate of the amount of time per petition to log, process, research, review, and expunge the information/record when the order is received.

1 FTE can process 3,728 expungements per year = 111,840 / 30.

3,728 expungements per year / 12 months per year = 311 expungements per month.

66,653 / 311 = 214 temporary employees to complete 100% of the expungements within 30 days of the aforementioned court ordered immediate record expungements.

The Patrol assumes these temporary employees would be paid at least $10 an hour, which would be approximately $400,000 per month including the fringe benefit rate for a temporary employee. With 30 days of training and then 30 days of processing expungements, it would be a total of two months, for a total cost of approximately $800,000.

It would be a tremendous challenge to hire 214 temporary employees, knowing they would only be employed for 30 days after training.

The fiscal impact would also include the cost associated with replacing all the Patrol's canines. The Patrol's canines are currently trained using cannabis/marijuana as one of four drugs they are to alert to. This would mean our current canines would have to be retired. The purchase and initial training for a canine is approximately $22,000. The overall cost to purchase and train the current canine program would be approximately $176,000 ($22,000 X 8). The time to train all eight canines could take up to three years. Not only will there be a financial impact to the Patrol, there will also be an impact to the services provided to other law enforcement agencies until the unit reaches full capacity.

In addition to the fiscal impact, the following are the Patrol's concerns based on what other states have reported:

In 2009, Colorado traffic fatalities involving drivers testing positive for marijuana represented 9% of the total traffic fatalities. Recreational marijuana use was legalized in 2012. By 2016, that number more than doubled to 21%**.**

Marijuana-related traffic deaths increased 66% in the four-year average (2013-2016) since Colorado legalized recreational marijuana compared to the four-year average (2009-2012) prior to legalization.

Marijuana-related deaths when a driver tested positive for marijuana more than doubled from 55 deaths in 2013 to 125 deaths in 2016.

The yearly number of marijuana related hospitalizations increased 72% after the legalization of marijuana, (2009-2012) vs. (2013-2016).

Colorado's youth for 2014/2015 marijuana use was 55% higher than the national average.

The average THC levels in marijuana has increased significantly over the years: 1969-0.8%, 1995-4%, 2013-13%, 2017-20+%, Oil, 1995-13%, 2013-52%, highest plant 38%, highest oil 95%+.

Medical marijuana has been legal in the state of Colorado since 2000. On November 12, 2012, the state of Colorado passed Amendment 64, which legalized private use of

marijuana. Per the Colorado State Patrol's driving under the influence statistics, marijuana DUI citations increased 25.5% from 2014 to 2018 and marijuana and alcohol citations increased 112% in the same time range. As marijuana becomes legalized, its use increases.

The three years after Colorado legalized marijuana for recreational use (2013-2015), its use increased in youth ages 12-17, by 12%, in young adults aged 18-25 by 16%, and adults 26 and older by 71%. By removing the recommended acceptable ages of use, zoning regulations, packaging, and advertising of cannabis/marijuana, the risk of use and abuse of marijuana by the youth of Missouri is substantially increased. This category of Missourians, who recent studies have shown significant long-term cognitive impairment when marijuana is ingested during the developmental years, would be affected.

In Missouri, medical marijuana was legalized by Amendment 2 and took effect December 2018. As of June 10, 2019, 12 states have legalized recreational marijuana and 29 states have legalized medical marijuana. In a 2013-2014 National Highway Traffic Safety Administration (NHTSA) roadside survey, 20% of the nighttime and weekend drivers tested positive for drugs. Interestingly, the number of daytime drugged drivers was approximately the same amount as night and weekend drugged drivers. A roadside study in Colorado and Washington, the first two states to legalize marijuana for recreational use, showed the primary increase of marijuana users happened to their daytime drivers. The percent of drivers that tested positive for marijuana during the day went from 8%, before recreational marijuana sales, to 23%, 6-12 months after marijuana was legalized. There was a 48% increase in weekend nighttime drivers testing positive for THC or 11-OH-THC (an active metabolite of THC) from 2007 to 2014.

Montana legalized medical marijuana in 2004 and from 2007-2010, the presence of marijuana in DUI suspects increased over 100%. Also, the number of DUI suspects who tested positive for alcohol and marijuana increased by over 180%.

This has Department of Health and Senior Services (DHSS) being the agency that enforces it. The concern is that DHSS has no police powers which would inhibit enforcement efforts.

This initiative petition will remove cannabis/marijuana from Missouri Revised Statutes, creating conflict with both several Federal and State laws, such as the use or possession of a firearm, and could conflict and violate federal law. This initiative petition does not support the Gun Control Act (GCA), codified at 18 U.S.C. § 922.

This proposed language in Section 6(f) only applies to Missouri's courts since the central repository is not noted in the petition, therefore, there would be no CJIS impact. However, if the language was modified to include the central repository there would be a technical impact on CJIS to remove any offenses identified in the proposal including FBI records.

As the Patrol has officers assigned to federal task forces that may be involved in a federal drug operation, there are concerns over potential civil litigation resulting from these types of operations, as marijuana is still classified as a Schedule I controlled substance, and illegal under federal law.

The Patrol operates in accordance with the Drug-Free Workplace Act of 1988, which requires a drug testing program. This program tests potential employees as well as random testing for incumbent employees in enforcement, and drug sensitive areas. The initiative petition creates a conflict with federal law with regard to marijuana and current employment standards. This can be seen in Section 3, (g) "No one shall be denied employment solely based on their use of Cannabis", and Section 4, (a), "All patients engaged in Cannabis therapy shall be afforded the same rights and privileges afforded to any patient treated through conventional therapeutic means, whether or not under the care of a physician", as well as concerns with any state and federal grant requirements for drug free workplace.

Another concern is the inability to properly train officers as laws have not yet been established. Further training is currently needed on medical marijuana laws, and more training will need to be established if this passes. Once recreational use passes, other intoxicating/impairing substances may be targeted for legalization/decriminalization as they have in many other states. One example is Oregon which has decriminalized psilocybin, cocaine, heroin, oxycodone, methamphetamine, and other drugs.

If passed, this petition will conflict with federal cannabis/marijuana laws and could cause significant conflict with several Federal and State laws, such as the use or possession of a firearm. Cannabis/marijuana causes impairment and is not a suitable drug to be used in various safety sensitive positions in the workforce, therefore strong language protecting employers is suggested. The workforce which could be affected would include any position where safety is a must, such as operating a motor vehicle, operating heavy machinery, and all aspects of public safety.

There is no language as to where the cannabis/marijuana may remain, such as any cannabis/marijuana purchased or grown in Missouri must remain in Missouri. While this is a federal offense, a lack of this type of language may allow Missouri cannabis/marijuana facilities to distribute cannabis/marijuana outside of the state or allow other states to distribute their cannabis/marijuana in Missouri. A lack of such language could lead to Missouri being a distribution state for states where cannabis/marijuana remains illegal.

For further consideration, as the legalization or decriminalization of cannabis/marijuana has increased in the past several years, so have the crashes and deaths on our highways. Blood screenings on drivers in serious injury and fatal crashes have shown a staggering increase in drivers who have cannabis/marijuana within their system at the time of the crash.

Overall cost to the Patrol:
214 temporary employees = $800,000
8 new canines for the canine program = $176,000
Total cost = $976,000

Officials from the **Department of Social Services** indicated a fiscal impact of negative $173,060 to negative $2,161,697 in fiscal year 2023 and negative $158,502 to negative $2,147,139 in fiscal year 2024.

BILL SUMMARY:
Initiative petition 22-023 / Constitutional Amendment to Article XIV Section 1 of the Missouri Constitution SUMMARY: amends Article XIV Section 1 relating to medical marijuana -- "Missouri Cannabis Restoration and Protection".

Section 1 - Removes language permitting state-licensed physicians to prescribe marijuana. Removes marijuana from Missouri Revised Statutes list of controlled substances and classifies it as a food product, not a controlled substance.

CD response:
The Children's Division does not anticipate a fiscal impact.

Section 2 - Establishes definitions for "Cannabis" and related terms in this section.

CD response:
The Children's Division does not anticipate a fiscal impact.

Section 3 - Removes current rules concerning personal and commercial use of Cannabis and makes possession, cultivation, consumption, etc. for recreational or medical personal use legal in all respects.

CD response:
The Children's Division does not anticipate a fiscal impact.

Section 4 - Removes taxation and reporting. Allows physicians and veterinarians to prescribe Cannabis at will to patients. Medical care, including organ transplants, shall not be restricted based on a person's use of Cannabis.

CD response:
The Children's Division does not anticipate a fiscal impact.

Section 5 - Removes "Additional Patient, Physician, and Caregiver Protections" as they are no longer needed. Adds "Zoning", which states that Cannabis farmers, manufacturers, processors, and distributors shall not be subject to any special zoning or excessive licensing requirements that are discriminatory in any way.

CD response:
The Children's Division does not anticipate a fiscal impact.

Section 6 - Removes "Legislation" and adds "Law Enforcement and the Courts". Sets forth rules for law enforcement and court interaction with Cannabis users/possessors concerning driving under the influence, assisting federal authorities, civil asset forfeiture, etc.

CD response:

6(b) Federal eligibility for Child Abuse Prevention and Treatment Act (CAPTA) grants requires that all health care providers must notify state child protective services of all infants born and identified as affected by substance abuse, withdrawal symptoms resulting from prenatal drug exposure, or fetal alcohol spectrum disorder. This initiative would make such referrals permissive for infants born to women who test positive for marijuana. In 2018, failure to make all such referrals mandatory under Missouri law prompted the Administration of Children and Families (ACF) to inform Children's Division (CD) that ACF would be forced to withhold—and if left unresolved deny—Missouri its CAPTA grant or Children's Justice Act (CJA) grant funding for FY2019. There is the potential for the federal government to deny federal funding for the Children's Division.

Children's Division received roughly $314,000 in CJA grants and $1,671,637 in CAPTA grants last year which would require GR to pick up for the loss of funding. This is expressed as a range, because federal denial of funding is uncertain.

6(e) This subsection would require the destruction of all of Children's Division's cannabis related non-violent civil and criminal records. Identifying those records and amending the related Child Abuse Neglect findings would require additional staff.

In FY2020 there were 55,853 reports alerted to the field. It is estimated that 20% of those calls could be marijuana related and subject to needed review and potential amendment and destruction totaling 11,171 reports.

Based on fiscal calculations this would require 2.0 FTES ($158,502 annually by FY2024).

Section 7 - Removes "Additional Provisions" and adds "Regarding Federal Law". Pursuant to the Ninth and Tenth Amendments to the Constitution of the United States, the people of Missouri hereby repudiate and challenge federal Cannabis prohibitions that conflict with this Act.

CD response:
The Children's Division does not anticipate a fiscal impact.

Section 8 - Removes "Severability" and adds "Existing Local, State and Federal Law". All provisions of this section shall supersede conflicting city, county, state or federal statutory, local charter, ordinance or resolution.

CD response:
The Children's Division does not anticipate a fiscal impact.

Section 9 - Removes "Effective Date" and adds "Implementation". The dictates of this initiative, unless otherwise indicated by this initiative, shall be implemented no later than January 31st, 2023.

CD response:
The Children's Division does not anticipate a fiscal impact.

Officials from the **Governor's office** indicated this proposal, which removes cannabis from Missouri's list of controlled substances, as well as removing other current Missouri prohibitions relating to cannabis possession, use, and economic activities, should not fiscally impact their office.

Officials from the **House of Representatives** indicated no fiscal impact.

Officials from the **Department of Conservation** indicated no adverse fiscal impact to their department would be expected as a result of this proposal.

Officials from the **Department of Transportation** indicated:

FEDERAL LAW PROHIBITS COMMERCIAL MOTOR VEHICLE (CMV) DRIVERS' USE OF CANNABIS

Regardless of what the States' stances are on cannabis, Federal DOT prohibits the use of cannabis by drivers of commercial motor vehicles, as the DEA currently considers THC to be a Schedule I controlled substance. The only exception is the Schedule V Cannabidiol (CBD) drug Epidiolex used to treat seizures. Their department believes that this is the only drug containing THC (.1% or less) that commercial motor vehicle drivers are allowed to take if medically prescribed by a licensed physician. All other medical marijuana is Schedule I.

VARIANCE ADDRESSED

The initiative petition does create a variance with the Federal Motor Carrier Safety Regulations (FMCSRs) with respect to "the immediate expungement of civil and criminal records pertaining to all non-violent Cannabis only offenses which are no longer illegal in the State of Missouri under this Act."

Title 49 CFR Part 391.15 addresses disqualification of drivers (Commercial Driver's License (CDL) and non-CDL CMV drivers). A driver who is convicted of a disqualifying offense is disqualified for one year from the date of conviction for first offenders and 3 years after the date of conviction if during the previous 3 years preceding the conviction date the driver was convicted of a disqualifying offense.

Two of the disqualifying offenses reference driving a CMV under the influence of a Schedule I substance and transporting, possessing or using a Schedule 1 substance while on duty:

49 CFR 391.15(c)(2)(ii) Driving a commercial motor vehicle under the influence of a 21 CFR 1308.11 Schedule I identified controlled substance, an amphetamine, a narcotic drug, a formulation of an amphetamine, or a derivative of a narcotic drug;

49 CFR 391.15(c)(2)(iii) Transportation, possession, or unlawful use of a 21 CFR 1308.11 Schedule I identified controlled substance, amphetamines, narcotic drugs, formulations of an amphetamine, or derivatives of narcotic drugs while the driver is on duty, as the term on-duty time is defined in § 395.2 of this subchapter;

They are going to assume driving under the influence of marijuana will continue to be illegal in Missouri and the DUI of marijuana prior convictions will not be expunged.

However, a CMV driver convicted of possession of marijuana while on duty is a disqualified driver. This is true whether the marijuana possessed is in a State that considers it legal.

If prior non-violent possessions of marijuana convictions are wholly expunged from the criminal records, CMV drivers who would be disqualified under current law would be allowed to drive.

This variance would affect Motor Carrier Safety Assistance Program (MCSAP) funding. Missouri's share of MCSAP funds in FY 2021 are $7,060,488. The federal penalty for this variance is unknown at this time, but would range from between no penalty to the loss of this entire share of federal funds.

This bill could cause a significant impact to their operations and employment. It legalizes marijuana for all use, and prohibits employers from disciplining/terminating employment due to marijuana use. However, with marijuana still prohibited by federal law, and their department being subject to the FMCSRs on drug testing, they would be in the position of being in conflict with one of the laws or walking a very fine line between the two. If an employee (or pre-employment/post-offer hire) tests positive for marijuana on a United State Department of Transportation (USDOT)-required drug test, the FMCSR requires their department to remove that employee from safety sensitive functions until certain criteria are met. Currently, their policy is to simply terminate the employment of anyone who tests positive for marijuana or other illegal drugs. In order to comply with this initiative petition, they would have to leave the employee in their position. But to comply with the FMCSR, the employee could not perform any safety sensitive functions. This would cause many employees to be exempt from essential functions of their positions, which would mean they are not getting the full value of the employee's wages that are being paid, and could also require them to hire additional employees to perform the safety sensitive functions of the employee who tested positive.

In CY 2020, they had 17 employees and 5 pre-employment/post-offer employees test positive for marijuana. To date in CY 2021, they have had 4 employees test positive for marijuana. If marijuana were to become legal under state law, these numbers would likely increase.

The prohibition of the use of marijuana being used as the basis of a driving under the influence charge also has highway safety concerns. This could cause an indirect fiscal impact on their department, as it could cause an increase in crashes on the roadway. These

crashes could result in damage to the roadway that must be repaired and/or an increase in claims of dangerous conditions in the highway.

Officials from the **Office of Administration** indicated this proposal amends Article XIV, Section 1 of the Missouri Constitution by repealing all of the medical marijuana language that was voter approved in November 2022 and replacing it with language for recreational marijuana.

Section 1.1 states that cannabis shall immediately be removed from the Missouri Revised Statutes list of controlled substances. **Section 1.6** requires, upon passage of the act, the immediate release of all persons incarcerated or under Probation and Parole supervision for non-violent cannabis-only offenses as well as expungement of their records pertaining to these offenses within 60 days. The Office of Administration, Division of Budget and Planning (B&P) defers to the Department of Corrections for the estimated impact from this provision.

Section 1.4 states that medical cannabis shall be available to patients without taxation as long as a patient has a physician's recommendation. B&P notes that it is unclear if the term "recommendation" refers to a medical prescription or simply a suggestion. B&P further notes that if "recommendation" is interpreted to mean anything other than prescription, potential subsequent sales and/or excise tax revenues to the state could be significantly negatively impacted. B&P also notes that this proposal does not include any regulatory framework or specify any agency responsible for enforcement of medical marijuana sales.

B&P notes that no specific tax levy is included within this proposal. Therefore, B&P assumes that only current state and local sales taxes would be applied to the sale of non-medical cannabis. Section 1.1 defines cannabis as "food". B&P notes that per Section 144.014, RSMo., the 3% state general revenue sales tax is not applied to food purchased through a vending machine or on food for which food stamps may be redeemed. B&P assumes that under this definition, cannabis products could still be subject to the 3% general revenue sales tax, unless the cannabis is sold through vending machines.

In addition, this proposal would eliminate the 4% tax on medical marijuana sales that under current law is dedicated to the Missouri Veterans' Health and Care Fund.

B&P further notes that this proposal does not specify the age individuals must be to purchase cannabis. For the purpose of this fiscal note, B&P assumes that an individual must be at least 18 years old; however, as written, it appears that minors could also purchase cannabis. A change in the age assumption could change the estimated fiscal note impacts shown below.

Based on research, B&P was able to find forecasts for the U.S. legal market for cannabis[1]. According to such forecasts, the U.S. market for legal marijuana will be approximately $32.1 billion in calendar year 2023 and grow up to $47.3 billion by calendar year 2027. Based on information from the Substance Abuse and Mental Health Services

[1] https://cannabusinessplans.com/cannabis-legal-market-size-projections/

Administration[2], from 2018-2019 approximately 15.03% of Missouri residents and 16.98% of all U.S. residents surveyed have used marijuana within the last year. Using the populations of Missouri residents age 18 and over compared to the U.S. population age 18 and over, B&P estimates that the market for legal marijuana in Missouri is 1.66% of the total U.S. market. Therefore, B&P estimates that the Missouri market for legal marijuana would be approximately $534.1 million in calendar year 2023 ($32.1 billion x 1.66%) and up to $787.1 million by calendar year 2027 ($47.3 billion x 1.66%).

Based on further research[3], B&P estimates that there could be between 61,700 to 122,500 medical marijuana users in Missouri. Using these estimates, and the estimates shown above, B&P estimates that the Missouri market for medical marijuana would be between 0.14% and 0.29% of the total U.S. Market for legal marijuana. Therefore, B&P estimates that the total Missouri market for recreational marijuana would be 1.38% to 1.52% of the total U.S. market. Table 1 shows the estimated U.S. and Missouri markets for marijuana.

Table 1: Estimated Marijuana Market Size for the U.S. and Missouri

Calendar Year	Estimated U.S. Market Size	Estimated MO Market Size	Estimated MO Medical Market Size	Estimated MO Recreational Market Size
2023	$32,100,000,000	$534,147,370	$68,884,957	$465,262,414
2024	$35,900,000,000	$597,379,769	$85,613,340	$511,766,429
2025	$39,700,000,000	$660,612,168	$102,341,724	$558,270,445
2026	$43,500,000,000	$723,844,567	$119,070,107	$604,774,460
2027	$47,300,000,000	$787,076,966	$135,798,491	$651,278,476

Based on the estimates for the medical marijuana market, B&P estimates that the Missouri Veterans' Health and Care Fund would lose ($1.4 million) in funding during calendar year 2023. By calendar year 2027, the Fund would lose up to ($5.1 million).

Applying the state sales tax rate of 4.225% and excluding the estimated market for medical marijuana B&P estimates that this proposal may increase state revenues by $16.9 million in calendar year 2023. By calendar year 2027, B&P estimates that this proposal may increase state revenues by $22.1 million. This proposal could also increase local revenues by $18.8 million in calendar year 2023 and $26.2 million by calendar year 2027. Table 2 shows the estimated revenues generated by calendar year.

[2] https://www.samhsa.gov/data/report/comparison-2015-2016-and-2016-2017-nsduh-population-percentages-50-states-and-district

[3] https://www.stltoday.com/news/local/metro/plenty-of-pot-study-says-missouri-will-license-twice-as/article_e94469b0-e1c6-5893-bc2e-e1d7b24f4a73.html

Table 2: Sales Tax Collections by Calendar Year (CY)

Fund	CY 2023	CY 2024	CY 2025	CY 2026	CY 2027
GR (3.0% tax)	$13,957,872	$15,352,993	$16,748,113	$18,143,234	$19,538,354
Education (1.0% tax)	$4,652,624	$5,117,664	$5,582,704	$6,047,745	$6,512,785
Conservation (0.125% tax)	$581,578	$639,708	$697,838	$755,968	$814,098
Parks, soil, water (0.1% tax)	$465,262	$511,766	$558,270	$604,774	$651,278
Veterans' Health and Care Fund (4% tax)	($2,755,398)	($3,424,534)	($4,093,669)	($4,762,804)	($5,431,940)
TSR (total 4.225% state sales tax)	$16,901,939	$18,197,598	$19,493,257	$20,788,917	$22,084,576
Local Revenue (pop. weighted local rate 4.03%)	$18,750,075	$20,624,187	$22,498,299	$24,372,411	$26,246,523

However, B&P notes that if voter approved in November 2022, this proposal would not be enacted until January 1, 2023, which is halfway through FY 2023. Based on historical sales tax collection data, B&P adjusts calendar year collections 50% into the first fiscal year (FY) and 50% into the second fiscal year. Therefore, B&P estimates that this proposal will increase state revenues by $8.5 million in FY 2023. BY FY 2028, this proposal may increase state revenues by $22.1 million. This proposal may also increase local revenues by $9.4 million in FY 2023 and up to $26.2 million by FY 2028. Table 3 shows the estimated revenue generated by fiscal year.

Table 3: Sales Tax Collections by Fiscal Year (FY)

Fund	FY 2023	FY 2024	FY 2025	FY 2026	FY 2027	FY 2028
GR (3.0% tax)	$6,978,936	$14,655,433	$16,050,553	$17,445,674	$18,840,794	$19,538,354
Education (1.0% tax)	$2,326,312	$4,885,144	$5,350,184	$5,815,225	$6,280,265	$6,512,785
Conservation (0.125% tax)	$290,789	$610,643	$668,773	$726,903	$785,033	$814,098
Parks, soil, water (0.1% tax)	$232,631	$488,514	$535,018	$581,522	$628,026	$651,278
Veterans' Health and Care Fund (4% tax)	($1,377,699)	($3,089,966)	($3,759,101)	($4,428,237)	($5,097,372)	($5,431,940)
TSR (total 4.225% state sales tax)	$8,450,969	$17,549,768	$18,845,428	$20,141,087	$21,436,746	$22,084,576
Local Revenue (pop. weighted local rate 3.86%)	$9,375,038	$19,687,131	$21,561,243	$23,435,355	$25,309,467	$26,246,523

B&P notes that due to the bill's lack of clarity concerning what constitutes a medical marijuana exemption and the age required to purchase, these estimates may be different from actual collections.

Section 1.5 states that cannabis farmers, manufacturers, and distributors shall not be subject to special zoning or license fees that are contrary to any other commercial or

agriculture business. B&P notes that under Amendment 2 (which this language is replacing) medical marijuana facilities are subject to various license and renewal fees. B&P defers to the Department of Health and Senior Services for the potential lost revenue from the removal of the current language.

Section 1.8 states that all provisions of Section 1 shall supersede conflicting city, county, state or federal statutory, local charter, ordinance, or resolution. B&P notes that state law may not supersede federal law.

Officials from the **Office of State Courts Administrator** indicated the initiative petition proposing to amend Article XIV establishes and modifies provisions relating to the legalization of marijuana for adult use.

The average of all marijuana related charge codes from 2015 to 2019 for Circuit case types is 2,457 per year. The average of all marijuana related charge codes from 2015 to 2019 for Associate case types is 8,153. They are unable to determine what number of these charges were for someone over the age of twenty-one.

The following Criminal Court Costs would be affected by this proposed legislation:

Criminal Court Costs		
Felony Case Costs	**Amount of Cost**	**Disburse to State/County**
Basic Civil Legal Services Fund surcharge	$10.00	State of Missouri - Basic Civil Legal Services Fund
Clerk Fee	$45.00	State of Missouri - General Revenue $36, County $9
County Fee	$75.00	County
Court Automation Fund Fee	$7.00	State of Missouri -Statewide Court Automation Fund
Court Reporter fee (All Circuit Division Cases)	$15.00	State of Missouri - General Revenue
Crime Victims' Compensation Fund surcharge	$7.50	State of Missouri - Crime Victims' Compensation Fund
DNA Profiling Analysis Fund surcharge	$30.00	State of Missouri - DNA Profiling Analysis Fund
Brain Injury Fund surcharge	$2.00	State of Missouri - Head Injury Fund
Independent Living Center Fund surcharge	$1.00	State of Missouri - Independent Living Center Fund
Motorcycle Safety Trust Fund surcharge	$1.00	State of Missouri - Motorcycle Safety Trust Fund

Peace Officer Standards & Training (POST) Commission surcharge	$1.00	State of Missouri - Peace Officer Standards & Training Fund
Prosecuting Attorney and Circuit Attorneys' Retirement Fund	$4.00	Pros. Attorney Retirement Fund
Prosecuting Attorney Training Fund surcharge	$5.00	State of Missouri - Prosecuting Attorney Training Fund
Sheriffs' Fee	$75.00	County
Sheriffs' Retirement Fund surcharge (except 21st Circuit)	$3.00	Sheriffs' Retirement Fund
Spinal Cord Injury Fund surcharge	$2.00	State of Missouri - Spinal Cord Injury Fund
Total	**$283.50**	
Misdemeanor Case Costs		
Basic Civil Legal Services Fund surcharge	$8.00	State of Missouri - Basic Civil Legal Services Fund
Clerk Fee	$15.00	$12 State of Missouri / $3 County
County Fee	$25.00	County
Court Automation Fund Fee	$7.00	State of Missouri - Court Automation Fund
Crime Victims' Compensation Fund surcharge	$7.50	State of Missouri - Crime Victims' Compensation Fund
DNA Profiling Analysis Fund surcharge	$15.00	State of Missouri - DNA Profiling Analysis Fund
Brain Injury Fund surcharge	$2.00	State of Missouri - Brain Injury Fund
Independent Living Center Fund surcharge	$1.00	State of Missouri - Independent Living Center Fund
Motorcycle Safety Trust Fund surcharge	$1.00	State of Missouri - Motorcycle Safety Trust Fund
Peace Officer Standards and Training (POST) Commission surcharge	$1.00	State of Missouri - Peace Officer Standards & Training Fund
Prosecuting Attorney and Circuit Attorneys' Retirement Fund	$4.00	Pros. Attorney Retirement Fund
Prosecuting Attorney Training Fund surcharge	$5.00	$0.50 State of Missouri / $0.50 County
Sheriffs' fee	$10.00	County

Sheriffs' Retirement Fund surcharge (except 21st Circuit)	$3.00	Sheriffs' Retirement fund
Spinal Cord Injury Fund Surcharge	$2.00	State of Missouri - Spinal Cord Injury Fund
Total	**$106.50**	
Municipal Case (Filed in Associate Division) Costs		
Clerk Fee	$15.00	$12 State of Missouri / $3 County
Court Automation Fund Fee	$7.00	State of Missouri - Court Automation Fund
Crime Victims' Compensation Fund surcharge	$7.50	State of Missouri - Crime Victims' Compensation Fund
Peace Officer Standards and Training (POST) Commission surcharge	$1.00	State of Missouri - Peace Officer Standards & Training Fund
Sheriffs' Retirement Fund surcharge	$3.00	Sheriffs' Retirement Fund
Total	**$33.50**	
Criminal Costs Not Included Above		
Drug Testing by a State Lab	$150.00	State of Missouri
Drug Testing by a Private Lab	Actual Costs	County Reimbursement
Law Enforcement Arrest Costs:		
Highway Patrol		Amt. Approved by the Court
Local (County)		Amt. Approved by the Court
Municipal		Amt. Approved by the Court

The decrease in the court fees, depending on the number of cases, will result in an unknown loss to the courts and to the specific funds.

They also assume there will be an unknown decrease in caseload for the courts because the courts will no longer process these cases; however, at this time they are unable to calculate the decrease.

Any significant increase or decrease will be reflected in future budget requests.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be $7 million based on the cost of the 2020 Presidential Preference Primary.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Funding for this item is adjusted each year depending upon the election cycle. A new decision item is requested in odd numbered fiscal years and the amount requested is dependent upon the estimated number of ballot measures that will be approved by the General Assembly and the initiative petitions certified for the ballot. In FY 2014, the General Assembly changed the appropriation so that it was no longer an estimated appropriation.

In FY19, over $5.8 million was spent to publish the full text of the measures for the August and November elections. Their office estimates $75,000 per page for the costs of publications based on the actual cost incurred for the one referendum that was on the August 2018 ballot.

Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated they provide representation in over 5,000 cases involving possession of controlled substance. The exact number that involve cannabis is unknown at this time. This initiative petition would result in a decrease in case intake for Missouri State Public Defender. Because current case numbers are such that they are unable to provide competent counsel in all eligible cases, the reduction in intake as a result of this initiative would not reduce the number of necessary staff. The initiative could however, bring their office closer to reasonable caseloads.

Officials from the **State Treasurer's office** indicated no fiscal impact to their office.

Officials from **Clay County** indicated they estimate the following as a result of this petition and amendment:

Revenues:

- Increase in sales taxes ~$100,000
- Increase in property taxes ~$20,000
- Increase in zoning fees ~1,000
- Decrease in juvenile detention reimbursements ($1,000)
- Decrease in federal equitable sharing ~($10,000)
- Decrease in criminal/court fees ~($2,000)
- Total ~$108,000

Expenditures:

- Decrease in traffic/DUI OT and enforcement ~($2,000)
- Decrease in court/prosecution costs ~($2000)
- Decrease in Juvenile costs ~($5,000)
- Increase in DARE costs ~$1,000
- Total ~($8,000)

Total savings to the County of $116,000 from estimated $108,000 in increased revenues and cost savings of $8,000.

All amounts are on an annual basis.

Officials from **Greene County** indicated there is anticipated costs to the County of Greene for this initiative petition, per the following information concerning this initiative petition, https://static1.squarespace.com/static/5541a76ae4b0175cee8827d0/t/580684e5ff7c50adea98399e/1476822252561/Letter+to+CA+from+Denver+DA.jpgI provided by their County Prosecutor, Dan Patterson.

To fully understand the fiscal impact would require a very detailed study to give the best opportunity to understand the impact to law enforcement, prosecutors and the circuit courts within the proposed changes of this initiative petition, which the attached letter demonstrates occurred in Colorado after similar legislation passed.

County Prosecutor, Dan Patterson provided the following information:

DenverDA
Mitchell R. Morrissey, District Attorney - Second Judicial District
201 W. Colfax Avenue, Dept. 801, Denver, CO 80202

Fax: 720-913-903

October 12, 2016

No on 64 Campaign and SAM Action

California voters are being told that they will see the crime rate go down if they vote to legalize marijuana commercially; this has not been the case in the state of Colorado or the city of Denver. Since the legalization of recreational marijuana in Colorado in 2013 traffic related marijuana deaths have increased 48%, marijuana related emergency room visits have increased 49%, and marijuana related calls to the poison center have increased 100%. According to the Colorado Bureau of Investigations in 2015 statewide homicides in Colorado rose 14.7 % over the previous year. Pueblo, Colorado had the highest homicide rate in the state with 11.1 killings per 100,000 residents. Aurora, Colorado's homicide rate more than doubled from 2014. Additionally more places in Colorado were robbed and more thefts occurred, especially cars, as 193,115 motor vehicles were reported stolen, up 27.7 % in 2015 from the previous year. In 2015, sexual assaults rose 10% in Colorado with Denver, Aurora, Lakewood, Westminster and Pueblo all reporting higher numbers as well.

In the city of Denver since the legalization of recreational marijuana the number of crimes in Denver has grown by about 44 %, according to annual figures the city reported to the National Incident Based Reporting System. In 2015 in Denver alone crime rose in every neighborhood in the city. The murder rate hit a decade high, 1059 more cars were broken into, there were 903 more auto thefts, 321 more aggravated assaults and 231 more homes were broken into compared to 2014.

California voters are also being told that legalizing recreational marijuana will free up law enforcement to work on other criminal activities. Again that has not been the case in Denver. Besides the overall increases in crime we have experience, the Denver police department is dealing with a 900% increase in the unlawful cultivation and manufacture of marihuana concentrate, and a 99% increase in the unlawful distribution of marijuana and marijuana concentrate. The quantity of illegal marijuana seized by the Denver police has increased 3,424% on average per case. The volume of marijuana seized per case has increased from an average of 162 pounds to 5724 pounds. In Denver unlawful public consumption of marijuana citations has increased over 300% per year since the legalization of recreational marijuana. The Denver police department is busier enforcing marijuana laws and investigating crimes directly related to marijuana, including murderers, robberies, and home invasions, than any other time in the history of the city.

Sincerely,

Mitchell R. Morrissey
Denver District Attorney

Officials from the **City of Kansas City** indicated this petition to amend Article XIV if approved would have no fiscal impact on their city.

Officials from **State Technical College of Missouri** indicated there is no fiscal impact to their college.

Officials from **Metropolitan Community College** indicated no fiscal impact to their college.

Officials from **University of Central Missouri** have determined the potential for an increase in costs of staff time, however it is too broad in scope to determine an estimated amount. The university would likely want to create a policy to restrict use on campus (similar to tobacco) and that would take staff time to draft, review, and approve policies. Additionally, they might see an increase in public safety interactions for students who are using and/or enforcement of any new policies. All of which they cannot really determine at this point in time as it is too prospective. Also, the proposed amendment could put them in violation of the Safe and Drug-Free Schools and Communities Act and it could impact future federal funding.

Officials from the **Missouri Veterans Commission** indicated the following:

Michael L. Parson
Governor

Paul Kirchhoff
Executive Director

MISSOURI VETERANS COMMISSION

205 Jefferson Street, P.O. Drawer 147, Jefferson City, MO 65102-0147
Telephone: (573) 751-3779 www.mvc.dps.mo.gov Fax: (573) 751-6836

March 24, 2021

The Honorable John R. Ashcroft
Secretary of State
600 W. Main Street
Jefferson City, MO 65101

Dear Secretary of State Ashcroft,

Initiative Petition 2022-023 (hereinafter, the Petition) will have a disastrous fiscal impact upon the Missouri Veterans Commission. Under the existing medical marijuana program (Article XIV of the Missouri Constitution), we anticipate receiving $16,800,000 in SFY22, and significantly greater amounts in subsequent fiscal years from the tax revenues generated from the retail sales of medical marijuana. The Petition eliminates tax revenues from medical marijuana in their entirety in section 4. Moreover, the Petition is silent on any taxation program to replace the medical marijuana taxation program, so there is no proposed mechanism to replace the revenues lost from the current medical marijuana program. Therefore, if enacted, Initiative Petition 2022-023 will have a devastating impact on the ability of the Missouri Veterans Commission to serve the veterans of Missouri. If I can be of any further assistance on this issue, please contact me at (573) 751-4066 at your convenience.

Sincerely,

Paul Kirchhoff
Executive Director
Missouri Veterans Commission

Fiscal Note Summary

State governmental entities estimate savings of at least $2 million annually and an annual impact to revenues ranging from a $12 million decrease to a $22 million increase by 2028. Local governmental entities are estimated to have revenue increases ranging from $4 million to $26 million annually by 2028.

Be it resolved by the people of the state of Missouri that the Constitution be amended:

so that it establishes election integrity procedures to (a) prevent attempts to fraudulently influence Missouri's elections, and (b) instill confidence in Missouri voters in the reported results of its elections.

Article XXX,

Sec. 1. Prohibited Election Conduct

(1) No voting machine may be utilized in any election to count or calculate votes. All votes shall be counted by hand by the judgment of the human eye. All counting shall occur by two persons.
(2) Any differences or uncertainties in counting by the two shall only be resolved by an individual approved and appointed in advance of the election by the state legislature.
(3) Mail in ballots shall be prohibited, except when requested by a voter in advance and after showing state-issued photo identification or a state-issued driver's license.
(4) All internet connectivity shall be discontinued at any polling place during the entire time votes are cast and counted. In addition, all persons serving in any capacity at a polling location, except observers, shall from the time of poll closing until the vote has been finally and publicly reported check in their cell phones so the counting occurs without the potential bias of any electronic sources of information of vote totals from other locations.
(5) Local law enforcement officials shall prohibit the delivery of boxes of any kind at a polling place from the time the polls are first open for voting until after all votes have been counted and reported.

Sec. 2. Registration Requirements

(1) All registration to vote shall occur on or before 14 days prior to an election day. Such registration shall require the registering voter to show valid state-issued photo identification or a valid state-issued driver's license. No identification or driver's license which has expired shall be valid.

Sec. 3. Election Observer and Reporting Requirements

(1) No early voting shall be permitted more than two weeks before election day. All mail in ballots must be received two days before election day. Otherwise, they shall not be counted. Mail in balloting cannot be permitted to delay the announcement of full election totals within four hours after the poll's closing.
(2) All voters in all elections shall be required to show valid state-issued photo identification or a valid state-issued driver's license. No identification or driver's license which has expired shall be valid.
(3) All observers in a polling station shall be located within five feet of any station they desire to observe. Observers inside a polling station shall also be permitted to photograph any or all activities they desire. Private citizens outside a polling station shall be permitted to photograph any and all activity they desire and shall be free from any liability of any kind for such photographing. All photographing shall be understood to include and allow video-taping and the recording of sound and voice.
(4) All ballots shall be counted only at and reported only from the place where the votes are cast.

(5) Under no condition shall the counting of votes be stopped between the time that a poll has closed and four hours thereafter unless completed.
(6) All votes shall be counted and reported within four hours of the time voting has closed. No votes being reported thereafter shall be valid.
(7) All vote totals shall be reported from all locations on the following basis: (a) by 11:59 p.m. of the night before the election (relating to early voting and mail in ballots); (b) at one hour after the scheduled polling closing time; (c) at two hours after the scheduled polling closing time; (d) at three hours after the scheduled polling closing time; and, finally, (e) at four hours after the scheduled polling closing time.

Sec. 4. Legislative Election Authority

(1) The legislature of the state shall have authority in elections for president and vice president of the United States to adjust or void any vote totals it determines appropriate. It may also ignore any vote totals and exercise its right to appoint electors as specified under the United States Constitution.
(2) Any alleged violation of state election law may be remedied by a complaint filed with the state legislature, who shall promptly according to its own procedures review, receive evidence, and make a final ruling on the same.

Sec. 5. Inspection Rights

(1) All registration material, election-related computer files and data bases, and actual ballots cast shall remain available for inspection by representatives of any state party, the legislature, the courts, and any group of 1,000 or more requesting registered voters, for 120 days after the election.

Sec. 6. Election Crimes

(1) Any person (a) voting twice or more times in a single election, or (b) voting on behalf of a deceased person, or (c) voting using another person's name, or (d) voting who is not a United States citizen shall be guilty of treason against the state.
(2) Election officials denying any right to observers to an election shall be guilty of a Class III felony.
(3) Any person who resets or erases any election files or data bases, or destroys or misplaces any ballots prior to the end of the 120-day inspection period shall be guilty of a Class III felony.
(4) Any polling supervisor who fails to report partial and final results on the schedule shall be guilty of a Class III felony.
(5) Any ballot counter who intentionally, with a lack of good faith, causes ballots to be adjudicated shall be guilty of a Class III felony.

STAPLE HERE

22-021

Be it resolved by the people of the state of Missouri that the Constitution be amended:

so that it (a) clarifies the Federal Government duty to uphold the rights of Missouri citizens under the U.S. Constitution, including the Bill of Rights and all other provisions, (b) identifies breaches by the Federal Government, and (c) affirms Missouri's right to assess the severity and consequences of such breaches of the US Constitution.

Article XXIX,

Sec. 1. Duty of Federal Government of the United States to Uphold the Bill of Rights and Constitution

(1) The State of Missouri hereby clarifies its admission as a State into the United States of America. Such application by Missouri and admission by the federal government are, in essence, a governmental compact between the two whereby both parties undertake to fulfill their respective duties.
(2) The Supremacy Clause of the Constitution of the United States and application of the doctrine set forth in Marbury v. Madison together are not designed to give the federal government a "blank check" in this governmental compact. Accordingly, the federal government is obligated to uphold its end of the bargain, or else find itself in breach.
(3) Some breaches of federal government duty may be material, and some may be immaterial.
(4) All breaches of the federal government to uphold each of the provisions of the Bill of Rights, including the Tenth Amendment, of the Constitution of the United States is a material breach.
(5) Failure of the federal government to allow states to propose Constitutional amendments under Article V of the Constitution of the United States of America is also a material breach.
(6) The State of Missouri reserves the right to address breaches, both material and immaterial, as it may determine proper, following good faith efforts to reconcile such breaches and allowing the federal government a period in which it can remedy its breach of contract.

Sec 2. Federal Breaches

The following actions by the United States of America constitute breaches of the Constitutional compact it has with the State of Missouri:

(a) The excessive use of executive orders by the President of the United States of America, except in the case of live military conflict, circumventing the representative legislative process;
(b) The excessive and reckless incurrence of debt, except in the case of anticipated or live military conflict;
(c) Failure to effectively protect the borders of the country from unauthorized entry or invasion;
(d) Failure by the Justice Department and Supreme Court of the United States of America to (i) equally enforce the rule of law, (ii) imbue citizens with confidence that the results of national elections are free and fair, and (iii) provide prompt enforcement of criminal laws without endless delays due to investigations often times resulting in no meaningful enforcement action;
(e) Failure by the federal government to protect the right of the State of Missouri under the Tenth Amendment to the Constitution of the United States of America to exercise powers not specifically given to the federal government, including the power to protect life and protect marriage as Missouri determines best;
(f) Dramatically curtailing freedom of speech of all kinds, in both the public and private arena;
(g) Increasingly curtailing freedom of worship with only the least restrictive means of governmental limitation to serve a compelling governmental interest;

(h) Congress effectively ignoring the right of States to propose amendments to the Constitution of the United States of America under Article V; and,
(i) In the name of protection, creating and deploying espionage tools stripping Americans of their sense of privacy of thought, speech, and action, and use of electronic tools of all kinds.

Sec 3. Significance of such Breaches

The severity of such breaches, and which, if any of them, are immaterial, and the consequences thereof are for the State of Missouri to assess and decide.

STAPLE HERE

It is a class A misdemeanor punishable, notwithstanding the provisions of section 560.021, RSMo, to the contrary, for a term of imprisonment not to exceed one year in the county jail or a fine not to exceed ten thousand dollars or both, for anyone to sign any initiative petition with any name other than his or her own, or knowingly to sign his or her name more than once for the same measure for the same election, or to sign a petition when such person knows he or she is not a registered voter.

Be it resolved by the people of the state of Missouri that the Constitution be amended:

To include the Bill of Rights as part of the Constitution of the State of Missouri.

Article XXVIII,

Sec. 1, Power of the People

All power of government is created by and comes from the People to the Government.

Sec. 2, Bill of Rights

The State of Missouri hereby guarantees to all its citizens to protect all of the following rights from infringement by any government (collectively known as the Missouri Bill of Rights):

(1) No law shall be made respecting an establishment of religion, or prohibiting the free exercise thereof; or abridging the freedom of speech, or of the press; or the right of the people peaceably to assemble, and to petition the Government for a redress of grievances.
(2) A well regulated Militia, being necessary to the security of a free State, the right of the people to keep and bear Arms shall not be infringed.
(3) No Soldier shall, in time of peace be quartered in any house, without the consent of the Owner, nor in time of war, but in a manner to be prescribed by law.
(4) The right of the people to be secure in their persons, houses, papers, and effects, against unreasonable searches and seizures, including all forms of electronic searches and seizures, shall not be violated, and no Warrants shall issue, but upon probable cause, supported by Oath or affirmation, and particularly describing the place to be searched, and the persons or things to be seized.
(5) No person shall be held to answer for a capital, or otherwise infamous crime, unless on a presentment or indictment of a Grand Jury, except in cases arising in the land or naval forces, or in the Militia, when in actual service in time of War or public danger; nor shall any person be subject for the same offence to be twice put in jeopardy of life or limb; nor shall be compelled in any criminal case to be a witness against himself, nor be deprived of life, liberty, or property, without due process of law; nor shall private property be taken for public use, without just compensation.
(6) In all criminal prosecutions, the accused shall enjoy the right to a speedy and public trial, by an impartial jury of the State and district wherein the crime shall have been committed, which district shall have been previously ascertained by law, and to be informed of the nature and cause of the accusation; to be confronted with the witnesses against him; to have compulsory process for obtaining witnesses in his favor, and to have the Assistance of Counsel for his defence.
(7) In Suits at common law, where the value in controversy shall exceed twenty dollars, the right of trial by jury shall be preserved, and no fact tried by a jury, shall be otherwise re-examined in any Court of the United States, than according to the rules of the common law.
(8) Excessive bail shall not be required, nor excessive fines imposed, nor cruel and unusual punishments inflicted.
(9) The enumeration in the Constitution of Missouri, of certain rights, shall not be construed to deny or disparage others retained by the people.
(10) The powers not delegated to the United States by the Constitution of the United States, nor prohibited by it to the States, are reserved to the States respectively, or to the people.

Sec. 3, Involuntary Servitude

Involuntary Servitude is prohibited of any individual by another, and also of the State of Missouri by the Federal Government.

Sec 4, Remainder of Constitution

The State of Missouri hereby adopts all the remaining text of the Constitution of the United States of America as a part of its own Constitution, without applicability of any Supreme Court or Federal Court decisions or precedents, to be effective if and only if,

(a) the United States of America collapses, or

(b) Missouri lawfully ceases to be a part of the United States of America.

Upon (a) or (b) happening, prior Federal Court decisions, including those considering state issues, shall be of no further authority in Missouri.

Sec 5, Past Court Decisions and Interpretations

Any holdings in In re Interest of Anaya, 276 Neb. 825 or State v. Noble, 171 Ariz. 171 are hereby rejected; while the holdings in Hendricks v. State,897 N.E.2d 1208 (Ind. Ct. App. 2008) are hereby affirmed. The interpretation of the Missouri Bill of Rights shall be by Missouri courts and fresh and independent of past interpretations of the Bill of Rights contained in the United States Constitution. No contemporaneous, legislative, or administrative construction of the Missouri Bill of Rights is permitted; although reference to the Federalist Papers for interpretive guidance is permitted. All the provisions of the Missouri Bill of Rights are self-executing and shall be so interpreted.

The provisions of this amendment shall be interpreted to supplement other provisions of the Constitution of Missouri, where such provisions can be consistently interpreted, or, if such construction is not possible, then the provisions of this amendment shall supersede such other provisions of the Constitution of Missouri.

RE: Petition approval request from Winston Apple regarding a proposed constitutional amendment to Article III, version 2 (2022-019)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Winston Apple on March 9, 2021.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Article III of the Constitution is revised by repealing Sections 5, 6, 9, 10, 11, 14, and 27 and amending Sections 1, 3, 4, 7, 8, 9, 12, 13, 15, 16, 17, 18, 19, 20(a), 20(b), 20(d), 21, 22, 24, 25, 26, 29, 30, 31, 32, 34, 35, and 45, to read as follows:

Section 1. The legislative power shall be vested in a [senate and house of representatives] legislature to be styled "The General Assembly of the State of Missouri."

Section 3. [(a)] Beginning with the election of representatives in the general election to be held in the year two thousand and twenty-four and the convening of the one-hundred-and-third General Assembly the [The house of representatives] General Assembly shall consist of [one hundred sixty-three members] twenty members from each congressional district and three at-large members elected at each general election [and redistricted as provided in this section]. The one-hundred-and-third General Assembly shall also include senators elected in two thousand and twenty-two, who shall serve as at-large representatives as provided in Section 7 of this article.

[(b) The house independent bipartisan citizens commission shall redistrict the house of representatives using the following methods, listed in order of priority:

(1) Districts shall be as nearly equal as practicable in population, and shall be drawn on the basis of one person, one vote. Districts are as nearly equal as practicable in population if no district deviates by more than one percent from the ideal population of the district, as measured by dividing the number of districts into the statewide population data being used, except that a district may deviate by up to three percent if necessary to follow political subdivision lines consistent with subdivision (4) of this subsection;

(2) Districts shall be established in a manner so as to comply with all requirements of the United States Constitution and applicable federal laws, including, but not limited to, the Voting Rights Act of 1965 (as amended). The following principles shall take precedence over any other part of this constitution: no district shall be drawn in a manner which results in a denial or abridgment of the right of any citizen of the United States to vote on account of race or color; and no district shall be drawn such that members of any community of citizens protected by the preceding clause have less opportunity than other members of the electorate to participate in the political process and to elect representatives of their choice;

(3) Subject to the requirements of subdivisions (1) and (2) of this subsection, districts shall be composed of contiguous territory as compact as may be. Areas which meet only at the points of adjoining corners are not contiguous. In general, compact districts are those which are square, rectangular, or hexagonal in shape to the extent permitted by natural or political boundaries;

(4) To the extent consistent with subdivisions (1) to (3) of this subsection, communities shall be preserved. Districts shall satisfy this requirement if district lines follow political subdivision lines to the extent possible, using the following criteria, in order of priority. First, each county shall wholly contain as many districts as its population allows. Second, if a county wholly contains one or more districts, the remaining population shall be wholly joined in a single district made up of population from outside the county. If a county does not wholly contain a district, then no more than two segments of a county shall be combined with an adjoining county. Third, split counties and county segments, defined as any part of the county that is in a district not wholly within that county, shall each be as few as possible. Fourth, as few municipal lines shall be crossed as possible;

(5) Districts shall be drawn in a manner that achieves both partisan fairness and, secondarily, competitiveness, but the standards established by subdivisions (1) to (4) of this subsection shall take precedence over partisan fairness and competitiveness. "Partisan fairness" means that parties shall be able to translate their popular support into legislative representation with approximately equal efficiency. "Competitiveness" means that parties' legislative representation shall be substantially and similarly responsive to shifts in the electorate's preferences.

To this end, the average electoral performance of the two political parties receiving the most votes in the three preceding general elections for governor, for United States Senate, and for President of the United States shall be calculated. This index shall be defined as the total votes received by each party in the three preceding general elections for governor, for United States Senate, and for President of the United States, divided by the total votes cast for both parties in these elections. Using this index, the total number of wasted votes for each party, summing across all of the districts in the plan shall be calculated. "Wasted votes" are votes cast for a losing candidate or for a winning candidate in excess of the threshold needed for victory. In any redistricting plan and map of the proposed districts, the difference between the two parties' total wasted votes, divided by the total votes cast for the two parties, shall not exceed fifteen percent.

To promote competitiveness, the electoral performance index shall be used to simulate elections in which the hypothetical statewide vote shifts by one percent, two percent, three percent, four percent, and five percent in favor of each party. The vote in each individual district shall be assumed to shift by the same amount as the statewide vote. In each of these simulated elections, the difference between the two parties' total wasted votes, divided by the total votes cast for the two parties, shall not exceed fifteen percent.

(c) Within sixty days after the population of this state is reported to the President for each decennial census of the United States or, in the event that a redistricting plan has been invalidated by a court of competent jurisdiction, within sixty days that such a ruling has been made, the state committee and the congressional district committees of each of the two political parties casting the highest vote for governor at the last preceding general election shall meet and the members of each committee shall nominate, by a majority vote of the elected members of the committee present, provided that a majority of the elected members is present, members of their party, residents in that district, in the case of a congressional district committee, as nominees for the house independent bipartisan citizens commission. No party shall select more than one nominee from any one state legislative district. The congressional district committees shall each submit to the governor their list of two elected nominees. The state committees shall each submit to the governor their list of five elected nominees. Within thirty days thereafter, the governor shall appoint a house independent bipartisan citizens commission consisting of one nominee from each list submitted by each congressional district committee and two nominees from each list submitted by each state committee to redistrict the state into one hundred and sixty-three representative districts and to establish the numbers and boundaries of said districts. No person shall be appointed to both the house independent bipartisan citizens commission and the senate independent bipartisan citizens commission during the same redistricting cycle.

If any committee fails to submit a list within such time, the governor shall appoint a member of his or her own choice from the political party of the committee failing to submit a list, provided that in the case of a congressional district committee failing to submit a list, the person appointed to the commission by the governor shall reside in the congressional district of such committee.

Members of the commission shall be disqualified from holding office as members of the general assembly for four years following the date of the filing by the commission of its final redistricting plan.

For the purposes of this Article, the term congressional district committee or congressional district refers to the congressional district committee or the congressional district from which a congressman was last elected, or, in the event members of congress from this state have been elected at large, the term congressional district committee refers to those persons who last served as the congressional district committee for those districts from which congressmen were last elected, and the term congressional district refers to those districts from which congressmen were last elected. Any action pursuant to this section by the congressional district committee shall take place only at duly called meetings, shall be recorded in their official minutes and only members present in person shall be permitted to vote.

(d) The commissioners so selected shall, on the fifteenth day, excluding Sundays and state holidays, after all members have been appointed, meet in the capitol building and proceed to organize by electing from their number a chairman, vice chairman and secretary. The commission shall adopt an agenda establishing at least three hearing dates on which hearings open to the public shall be held to hear objections or testimony from interested persons. A copy of the agenda shall be filed with the clerk of the house of representatives within twenty-four hours after its adoption. Executive meetings may be scheduled and held as often as the commission deems advisable.

(e) Not later than five months after the appointment of the commission, the commission shall file with the secretary of state a tentative redistricting plan and map of the proposed districts and during the ensuing fifteen days shall hold such public hearings as may be necessary to hear objections or testimony of interested persons. The commission shall make public the tentative redistricting plan and map of the proposed districts, as well as all demographic and partisan data used in the creation of the plan and map.

(f) Not later than six months after the appointment of the commission, the commission shall file with the secretary of state a final statement of the numbers and the boundaries of the districts together with a map of the districts, and no statement shall be valid unless approved by at least seven-tenths of the members.

(g) After the final statement is filed, members of the house of representatives shall be elected according to such districts until a new redistricting plan is made as provided in this section, except that if the final statement is not filed within six months of the time fixed for the appointment of the commission, the commission shall stand discharged and the house of representatives shall be redistricted using the same methods and criteria as described in subsection (b) of this section by a commission of six members appointed from among the judges of the appellate courts of the state of Missouri by the state supreme court, a majority of whom shall sign and file its redistricting plan and map with the secretary of state within ninety days of the date of the discharge of the house independent bipartisan citizens commission. The judicial commission shall make public the tentative redistricting plan and map of the proposed districts, as well as all demographic and partisan data used in the creation of the plan and map. Thereafter, members of the house of representatives shall be elected according to such districts until a redistricting plan is made as provided in this section.

(h) Each member of the commission shall receive as compensation fifteen dollars a day for each day the commission is in session but not more than one thousand dollars, and, in addition, shall be reimbursed for his or her actual and necessary expenses incurred while serving as a member of the commission.

(i) No redistricting plan shall be subject to the referendum.

(j) Any action expressly or implicitly alleging that a redistricting plan violates this Constitution, federal law, or the United States Constitution shall be filed in the circuit court of Cole County and shall name the body that approved the challenged redistricting plan as a defendant. Only an eligible Missouri voter who sustains an individual injury by virtue of residing in a district that exhibits the alleged violation, and whose injury is remedied by a differently drawn district, shall have standing. If the court renders a judgment in which it finds that a completed redistricting plan exhibits the alleged violation, its judgment shall adjust only those districts, and only those parts of district boundaries, necessary to bring the map into compliance. The supreme court shall have exclusive appellate jurisdiction upon the filing of a notice of appeal within ten days after the judgment has become final.]

Section 4. Each representative shall be [twenty-four] eighteen years of age[, and next] before the day of her or his election, shall [have been] be a qualified voter, [for two years] and, with the exception of at-large representatives, a resident of the [county or] district which she or he is chosen to represent for one year, if such [county or] district shall have been so long established, and if not, then of the [county or] district from which the same shall have been taken.

[Section 5. The senate shall consist of thirty-four members elected by the qualified voters of the senatorial districts for a term of four years. Senatorial districts shall be apportioned as provided for in Article III, Section 7.]

[Section 6. Each senator shall be thirty years of age, and next before the day of his election shall have been a qualified voter of the state for three years and a resident of the district which he is chosen to represent for one year, if such district shall have been so long established, and if not, then of the district or districts from which the same shall have been taken.]

Section 7. [(a) Within sixty days after the population of this state is reported to the President for each decennial census of the United States, or within sixty days after a redistricting plan has been invalidated by a court of competent jurisdiction, the state committee and the congressional district committees of each of the two political parties casting the highest vote for governor at the last preceding general election shall meet and the members of each committee shall nominate, by a majority vote of the elected members of the committee present, provided that a majority of the elected members is present, members of their party, residents in that district, in the case of a congressional district committee, as nominees for the senate independent bipartisan citizens commission. No party shall select more than one nominee from any one state legislative district. The congressional district committees shall each submit to the governor their list of two elected nominees. The state committees shall each submit to the governor their list of five elected nominees. Within thirty days thereafter the governor shall appoint a senate independent bipartisan citizens commission consisting of two nominees from each list submitted by each state committee and one nominee from each list submitted by each congressional district committee, to redistrict the thirty-four senatorial districts and to establish the numbers and boundaries of said districts. No

person shall be appointed to both the house independent bipartisan citizens commission and the senate independent bipartisan citizens commission during the same redistricting cycle.

If any committee fails to submit a list within such time, the governor shall appoint a member of his or her own choice from the political party of the committee failing to submit a list, provided that in the case of a congressional district committee failing to submit a list, the person appointed to the commission by the governor shall reside in the congressional district of such committee.

Members of the commission shall be disqualified from holding office as members of the general assembly for four years following the date of the filing by the commission of its final redistricting plan.

(b) The commissioners so selected shall, on the fifteenth day, excluding Sundays and state holidays, after all members have been appointed, meet in the capitol building and proceed to organize by electing from their number a chairman, vice chairman and secretary. The commission shall adopt an agenda establishing at least three hearing dates on which hearings open to the public shall be held to hear objections or testimony from interested persons. A copy of the agenda shall be filed with the secretary of the senate within twenty-four hours after its adoption. Executive meetings may be scheduled and held as often as the commission deems advisable.

(c) The senate independent bipartisan citizens commission shall redistrict the senate using the same methods and criteria as those required by subsection (b), section 3 of this Article for the redistricting of the house of representatives.

(d) Not later than five months after the appointment of the senate independent bipartisan citizens commission, the commission shall file with the secretary of state a tentative redistricting plan and map of the proposed districts and during the ensuing fifteen days shall hold such public hearings as may be necessary to hear objections or testimony of interested persons. The commission shall make public the tentative redistricting plan and map of the proposed districts, as well as all demographic and partisan data used in the creation of the plan and map.

(e) Not later than six months after the appointment of the commission, the commission shall file with the secretary of state a final statement of the numbers and the boundaries of the districts together with a map of the districts, and no statement shall be valid unless approved by at least seven-tenths of the members.

(f) After the final statement is filed, senators shall be elected according to such districts until a new redistricting plan is made as provided in this section, except that if the final statement is not filed within six months of the time fixed for the appointment of the commission, the commission shall stand discharged and the senate shall be redistricted using the same methods and criteria as described in subsection (b) of section 3 of this Article by a commission of six members appointed from among the judges of the appellate courts of the state of Missouri by the state supreme court, a majority of whom shall sign and file its redistricting plan and map with the secretary of state within ninety days of the date of the discharge of the senate independent bipartisan citizens commission. The judicial commission shall make public the tentative redistricting plan and map of the proposed districts, as well as all demographic and partisan data used in the creation of the plan and map. Thereafter, senators shall be elected according to such districts until a redistricting plan is made as provided in this section.

(g) Each member of the commission shall receive as compensation fifteen dollars a day for each day the commission is in session, but not more than one thousand dollars, and, in addition, shall be reimbursed for his or her actual and necessary expenses incurred while serving as a member of the commission.

(h) No redistricting plan shall be subject to the referendum.

(i) Any action expressly or implicitly alleging that a redistricting plan violates this Constitution, federal law, or the United States Constitution shall be filed in the circuit court of Cole County and shall name the body that approved the challenged redistricting plan as a defendant. Only an eligible Missouri voter who sustains an individual injury by virtue of residing in a district that exhibits the alleged violation, and whose injury is remedied by a differently drawn district, shall have standing. If the court renders a judgment in which it finds that a completed redistricting plan exhibits the alleged violation, its judgment shall adjust only those districts, and only those parts of district boundaries, necessary to bring the map into compliance. The supreme court shall have exclusive appellate jurisdiction upon the filing of a notice of appeal within ten days after the judgment has become final.]

(a) Beginning with the election of representatives to be held in the year two thousand twenty-four there will be no primary election for that office. For the general election, all candidates who file to run and are qualified to run, for the General Assembly will be listed on the ballot in the congressional district in which they reside, grouped by political party affiliation. Independent candidates will be grouped together on the ballot.

(b) General elections shall be carried out using a system of ranked choice voting under which each voter shall be able to rank a minimum of three candidates for the General Assembly in order of preference. If feasible, the ballot shall permit voters to rank up to ten candidates for the General Assembly, or as close to that number as feasible. Voters shall be able to request a general ballot listing all of the candidates for all political parties and all independent candidates, a single-party ballot listing only the candidates of a single political party, or a ballot listing only independent candidates.

(c) A number of spaces equal to the number of choices voters are able to rank shall be provided to write in the names of candidates not appearing on the ballot. Write-in votes may be cast for candidates for the General Assembly who are on the ballot in congressional districts other than a voter's congressional district. Those write-in votes from other districts will not be counted as part of the process of determining which candidates are elected to represent each congressional district but will be added to the cumulative vote total of candidates who are elected to the General Assembly for purposes of determining the value of each representative's weighted vote.

(d) The ballot shall be simple and easy to understand, with instructions necessary to enable voters to successfully cast ballots under the ranked choice voting system.

(e) The results of each general election shall be tabulated in two rounds. In the first round of tabulation, only first-choice votes will be counted, with separate vote totals calculated for "in-district votes" (which are votes for candidates residing in each congressional district cast by the voters of that district) and "cumulative votes" (which are the sum of in-district votes plus write-in votes from voters in districts other than the district in which a candidate resides). The twenty candidates with the most in-district votes are elected to represent each congressional district. The three candidates with the most cumulative votes, who were not elected to represent the district in which they reside shall serve as at-large representatives.

(f) In the second round of tabulation, a single vote will be added to the cumulative vote total for each representative who was elected and is the highest remaining choice on a ballot that did not list a winning candidate as the voter's first choice.

(g) Senators who were elected to a four-year term in the election of two thousand and twenty-two shall complete that four-year term by serving as at-large representatives in the one-hundred-and-third General Assembly. The cumulative vote total for those at-large representatives shall be equal to the number of votes received by each of them in the election of two thousand and twenty-two.

(h) With the exception of votes taken to override a governor's veto, for which each representative shall cast a single, non-weighted vote, representatives shall be given weighted votes in all matters before the General Assembly based on the total number of cumulative votes received by each representative. The value of each representative's weighted vote shall be determined by dividing the number of cumulative votes received by each representative by the number of cumulative votes received by the representative with the lowest number of cumulative votes.

(i) If a voter inadvertently casts a vote for more than a single candidate among any of their ranked choices each candidate listed will be given the appropriate fraction of a whole vote. If a voter inadvertently fails to fill in a choice among their ranked choices but has additional lower-ranked choices, the missing ranked choice will be ignored. A ballot with no remaining choices for candidates who were elected is an "exhausted ballot" and shall be set aside.

(j) Officials shall determine a random selection algorithm, prior to tabulation, to resolve ties between candidates for the last remaining seat(s) in the General Assembly.

(k) The candidates of all political parties that had at least one candidate for the General Assembly or statewide office who received cumulative votes in the preceding election totaling at least one percent of the votes cast for governor at the last gubernatorial election shall be listed on the ballot.

(l) A political party having no candidate for the General Assembly or statewide office receiving at least one percent of the total vote in the preceding general election, may qualify for a place on the ballot for the General Assembly in each congressional district by presenting petitions signed by one per cent of the legal voters in that congressional district. An independent candidate may qualify for a place on the ballot in a congressional district by presenting petitions signed by one-half of one percent of the legal voters in the congressional district in which they reside. The number of "legal voters" is equal to, and determined by, the total vote for governor in the general election last preceding. Said petitions are to be delivered to the secretary of state no later than one hundred and twenty days preceding the general election.

(m) The signatures on petitions submitted by independent candidates and political parties shall be subject to verification according to the procedures in the code of state regulations for independent candidate petitions in force at the time the petitions are submitted.

Section 8. No one shall be elected to serve more than [eight years total in any one house of the General Assembly nor more than] sixteen years total in [both houses of] the General Assembly. [In applying this section, service in the General Assembly resulting from an election prior to December 3, 1992, or service of less than one year, in the case of a member of the house of representatives, or two years, in the case of a member of the senate, by a person elected after the effective date of this section to complete the term of another person, shall not be counted.]

[Section 9. Until the convening of the Seventy-fourth General Assembly the House of Representatives shall consist of one hundred sixty-three members elected from the one hundred sixty-three representative districts, as they existed January 1, 1965.]

[Section 10. The last decennial census of the United States shall be used in apportioning representatives and determining the population of senatorial and representative districts. Such districts may be altered from time to time as public convenience may require.]

[Section 11. The first election of senators and representatives under this constitution, shall be held at the general election in the year one thousand nine hundred and forty-six when the whole number of representatives and the senators from the districts having even numbers, who shall compose the first class, shall be elected, and two years thereafter the whole number of representatives and the senators from districts having odd numbers, who shall compose the second class, shall be elected, and so on at each succeeding general election.]

Section 12. No person holding any lucrative office or employment under the United States, this state or any municipality thereof shall hold the office of [senator or] representative. When any [senator or] representative accepts any office or employment under the United States, this state or any municipality thereof, his or her office shall thereby be vacated and he or she shall thereafter perform no duty and receive no salary as [senator or] representative. During the term for which he or she was elected no [senator or] representative shall accept any appointive office or employment under this state which is created or the emoluments of which are increased during such term. This section shall not apply to members of the organized militia, of the reserve corps and of school boards, and notaries public.

Section 13. If any [senator or] representative removes her or his residence from the [district or county for which he was elected, his] state of Missouri, their office shall thereby be vacated. If any representative removes her or his residence from the district from which they were elected, they may serve out their term as long as they continue to reside in Missouri.

[Section 14. Writs of election to fill vacancies in either house of the general assembly shall be issued by the governor.]

Section 15. Every [senator or] representative elect, before entering upon the duties of his or her office, shall take and subscribe the following oath or affirmation: "I do solemnly swear, or affirm, that I will support the Constitution of the United States and of the state of Missouri, and faithfully perform the duties of my office, and that I will not knowingly receive, directly or indirectly, any money or other valuable thing for the performance or nonperformance of any act or duty pertaining to my office, other than the compensation allowed by law." The oath shall be administered in the halls of the [respective houses] General Assembly to the members thereof, by a judge of the supreme court or a circuit court, or after the organization by the [presiding officer of either house] president of the General Assembly, and shall be filed in the office of the secretary of state. Any [senator or] representative refusing to take said oath or affirmation shall be deemed to have vacated his or her office, and any member convicted of having violated his or her oath or affirmation shall be deemed guilty of perjury, and be forever disqualified from holding any office of trust or profit in this state.

Section 16. [Senators and r] Representatives shall receive from the state treasury as salary such sums as are provided by law. No law fixing the compensation of members of the general assembly shall become effective until the first day of the regular session of the general assembly next following the session at which the law was enacted. Upon certification by the president and secretary of the [senate and by the speaker and chief clerk of the house of representatives] General Assembly as to the [respective] members thereof, the state comptroller shall audit and the state treasurer shall pay such compensation without legislative enactment. Until otherwise provided by law [senators and] representatives shall receive one dollar for every ten miles traveled in going to and returning from their place of meeting while the legislature is in session, on the most usual route.

Until otherwise provided by law, each [senator or] representative shall be reimbursed from the state treasury for the actual and necessary expenses incurred by him or her in attending sessions of the general assembly in the sum of ten dollars ($10.00) per day for each day on which the journal of the [senate or house respectively] General Assembly shows the presence of such [senator or] representative. Upon certification by the president and secretary of the [senate and by the speaker and chief clerk of the house of representatives] General Assembly as to the [respective] members thereof, the state comptroller shall approve and the state treasurer shall pay monthly such expense allowance without legislative enactment.

Section 17. Until otherwise provided by law, the [house of representatives shall not employ more than one hundred twenty-five and the senate] General Assembly shall not employ more than [seventy-five] three hundred employees elective, appointive or any other at any time during any session.

Section 18. [Each house] The General Assembly shall appoint its [own] officers; shall be sole judge of the qualifications, election and returns of its [own] members; may determine the rules of its own proceedings, except as herein provided; may arrest and punish by fine not exceeding three hundred dollars, or imprisonment in a county jail not exceeding ten days, or both, any person not a member, who shall be guilty of disrespect to the [house] General Assembly by any disorderly or contemptuous behavior in its presence during its sessions; may punish its members for disorderly conduct; and, with the concurrence of two-thirds of all members elect, may expel a member; but no member shall be expelled a second time for the same cause.

Section 19. (a) [Senators and r] Representatives shall, in all cases except treason, felony, offenses under this Article, or breach of the peace, be privileged from arrest during the session of the general assembly, and for the fifteen days next before the commencement and after the termination of each session; and they shall not be questioned for any speech or debate in [either house] the General Assembly in any other place.

(b) Legislative records shall be public records and subject to generally applicable state laws governing public access to public records, including the Sunshine Law. Legislative records include, but are not limited to, all records, in whatever form or format, of the official acts of the general assembly, of the official acts of legislative committees, of the official acts of members of the general assembly, of individual legislators, their employees and staff, of the conduct of legislative business and all records that are created, stored or distributed through legislative branch facilities, equipment or mechanisms, including electronic. Each member of the general assembly is the custodian of legislative records under the custody and control of the member, their employees and staff. The [chief clerk of the house or the] secretary of the General Assembly [senate are] is the custodian[s] for all other legislative records relating to the [house and the senate, respectively] General Assembly.

(c) Legislative proceedings, including committee proceedings, shall be public meetings subject to generally applicable law governing public access to public meetings, including the Sunshine Law. Open public meetings of legislative proceedings shall be subject to recording by citizens, so long as the proceedings are not materially disrupted.

Section 20(a). The general assembly shall adjourn at midnight on May thirtieth until the first Wednesday after the first Monday of January of the following year, unless it has adjourned prior thereto. All bills in [either house] remaining on the calendar after 6:00 p.m. on the first Friday following the second Monday in May are tabled. The period between the first Friday following the second Monday in May and May thirtieth shall be devoted to the enrolling, engrossing, and the signing in open session by officers of the [respective houses] General Assembly of bills passed prior to 6:00 p.m. on the first Friday following the second Monday in May.

The general assembly shall automatically stand adjourned sine die at 6:00 p.m. on the sixtieth calendar day after the date of its convening in special session unless it has adjourned sine die prior thereto.

Section 20(b). Upon the filing with the secretary of state of a petition stating the purpose for which the session is to be called and signed by [three-fourths] a majority of the members of the [senate and three-fourths of the members of the house of representatives] General Assembly, the president [pro tem of the senate and the speaker of the house] of the General Assembly shall by [joint] proclamation convene the general assembly in special session. The proclamation shall state specifically each matter contained in the petition on which action is deemed necessary. No appropriation bill shall be considered in a special session convened pursuant to this section if in that year the general assembly has not passed the operating budget in compliance with Section 25 of this article.

The general assembly shall automatically stand adjourned sine die at 6:00 p.m. on the thirtieth calendar day after the date of its convening in special session under this section unless it has adjourned sine die prior thereto.

Section 20(d). If any provision of sections 1, 2, 3, 4, 7, 8, 12, 13, 15, 16, 17, 18, 19, [or] 20(a), 20(b), 20(c), 21, 22, 24, 25, 26, 29, 30, 31, 32, 34, 35, or 45 or the application thereof to anyone or to any circumstance is held invalid, the remainder of those provisions and the application of such provisions to others or other circumstances shall not be affected thereby.

Section 21. The style of the laws of this state shall be: "Be it enacted by the General Assembly of the State of Missouri, as follows." No law shall be passed except by bill, and no bill shall be so amended in its passage through [either house] the General Assembly as to change its original purpose. [Bills may originate in either house and may be amended or rejected by the other.] Every bill shall be read by title on three different days [in each house].

Section 22. Every bill shall be referred to a committee of the [house in which it is pending] General Assembly.

After it has been referred to a committee, one-third of the elected members of the [respective houses] General Assembly shall have power to relieve a committee of further consideration of a bill and place it on the calendar for consideration. Each committee shall keep such record of its proceedings as is required by rule of the [respective houses] General Assembly and this record and the recorded vote of the members of the committee shall be filed with all reports on bills.

[Each house of the] The general assembly may provide by rule for such committees [of that house] as it deems necessary to meet to consider bills or to perform any other necessary legislative function during the interim between the session ending on the thirtieth day of May and the session commencing on the first Wednesday after the first Monday of January.

Section 24. No bill shall be considered for final passage [in either house] until it, with all amendments thereto, has been printed and copies distributed among the members. [If a bill passed by either house be returned thereto, amended by the other, the house to which

the same is returned shall cause the amendment or amendments so received to be printed and copies distributed among the members before final action on such amendments.]

Section 25. No bill other than an appropriation bill shall be introduced in [either house] the General Assembly after the sixtieth legislative day unless consented to by a majority of the elected members [of each house] or the governor shall request a consideration of the proposed legislation by a special message. No appropriation bill shall be taken up for consideration after 6:00 p.m. on the first Friday following the first Monday in May of each year.

Section 26. [Each house] The General Assembly shall publish a journal of its proceedings. The yeas and nays on any question shall be taken and entered on the journal on the motion of any five members. Whenever the yeas and nays are demanded, or required by this constitution, the whole list of members shall be called and the names of the members voting yea and nay and the absentees shall be entered in the journal.

[Section 27. No amendments to bills by one house shall be concurred in by the other, nor shall reports of committees of conference be adopted in either house, nor shall a bill be finally passed, unless a vote by yeas and nays be taken and a majority of the members elected to each house be recorded as voting favorably.]

Section 29. No law passed by the general assembly, except an appropriation act, shall take effect until ninety days after the adjournment of the session in either odd-numbered or even-numbered years at which it was enacted. However, in case of an emergency which must be expressed in the preamble or in the body of the act, the general assembly by a two-thirds vote of the members [elected to each house], taken by yeas and nays may otherwise direct; and further except that, if the general assembly recesses for thirty days or more it may prescribe by [joint] resolution that laws previously passed and not effective shall take effect ninety days from the beginning of the recess.

Section 30. No bill shall become a law until it is signed by the [presiding officer of each house] president of the General Assembly in open session, who first shall suspend all other business, declare that the bill shall now be read and that if no objection be made he or she will sign the same. If [in either house] any member shall object in writing to the signing of a bill, the objection shall be noted in the journal and annexed to the bill to be considered by the governor in connection therewith. When a bill has been signed, the secretary[, or the chief clerk, of the house] of the General Assembly [in which the bill originated] shall present the bill in person to the governor on the same day on which it was signed and enter the fact upon the journal.

Section 31. Every bill which shall have been passed by the General Assembly [house of representatives and the senate] shall be presented to and considered by the governor, and, within fifteen days after presentment, he shall return such bill to the [house in which it originated endorsed] General Assembly with his approval or accompanied by his objections. If the bill be approved by the governor it shall become a law. When the general assembly adjourns, or recesses for a period of thirty days or more, the governor shall return within forty-five days any bill to the office of the secretary of state with his approval or reasons for disapproval. If any bill shall not be returned by the governor within the time limits prescribed by this section it shall become law in like manner as if the governor had signed it.

Section 32. Every bill presented to the governor and returned with his objections shall stand as reconsidered in the [house to which it is returned] General Assembly. If the governor returns any bill with his or her objections on or after the fifth day before the last day upon which a session of the general assembly may consider bills, the general assembly shall automatically reconvene on the first Wednesday following the second Monday in September for a period not to exceed ten calendar days for the sole purpose of considering bills returned by the governor. The objections of the governor shall be entered upon the journal and the [house] General Assembly shall proceed to consider the question pending, which shall be in this form: "Shall the bill pass, the objections of the governor thereto notwithstanding?" The vote upon this question shall be taken by yeas and nays and if [two-thirds] a majority of the elected members of the [house] General Assembly vote in the affirmative the [presiding officer of that house] president of the General Assembly shall certify that fact on the roll, attesting the same by his or her signature[, and send the bill with the objections of the governor to the other house, in which like proceedings shall be had in relation thereto]. The bill thus certified shall be deposited in the office of the secretary of state as an authentic act and shall become a law.

Section 34. In the year 1949 and at least every ten years thereafter all general statute laws shall be revised, digested and promulgated as provided by law. No [senator or] representative shall receive any compensation in addition to his or her salary as a member of the general assembly for any services rendered in connection with said revision.

Section 35. There shall be a permanent [joint] committee on legislative research, selected by and from the members of [each house] the General Assembly as provided by law. The general assembly, by a majority vote of the elected members, may discharge any or all of the members of the committee at any time and select their successors. The committee may employ a staff as provided by law. The committee shall meet when necessary to perform the duties, advisory to the general assembly, assigned to it by law. The members of the committee shall receive no compensation in addition to their salary as members of the general assembly, but may receive their necessary expenses while attending the meetings of the committee.

Section 45. When the number of representatives to which the state is entitled in the House of the Congress of the United States under the census of 1950 and each census thereafter is certified to the governor, the general assembly shall by law divide the state into districts corresponding with the number of representatives to which it is entitled, which districts shall be composed of contiguous territory as compact and as nearly equal in population as may be. Beginning with the general election of two thousand and twenty-four, the boundaries established for congressional districts under this Constitution shall also serve as the boundaries for legislative districts for purposes of electing members of the General Assembly. If the Congress of the United States enacts legislation giving states the right to elect members of the House of the Congress of the United States from multiple-member districts or at-large, the state of Missouri shall elect its members at-large, if given a choice of the two, or from multiple-member districts, if that is the only choice, with those multiple-member districts composed of contiguous territory as compact and as nearly equal in population as may be. In either case, the General Assembly shall by law continue to divide the state into a number of districts corresponding with the number of representatives to which the state is entitled in the House of Congress, composed according to the guidelines provided in this section and those districts shall continue to serve as the legislative districts to be used in electing members of the General Assembly and for electing delegates to a convention to revise and amend the constitution of Missouri if voters should vote in favor of such a convention.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (22-019)

Subject

Initiative petition from Winston Apple regarding a proposed constitutional amendment to Article III. (Received March 9, 2021)

Date

March 29, 2021

Description

This proposal would amend Article III of the Missouri Constitution.

The amendment is to be voted on in November 2022.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education and Workforce Development,** the **Department of Health and Senior Services,** the **Department of Commerce and Insurance,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College,** the **St. Louis County Board of Elections,** the **Board of Election Commissioners City of St. Louis,** the **Kansas City Board of Election Commissioners,** the **Platte County Board of Elections,** the **Jackson County Election Board,** and the **Clay County Board of Election Commissioners.**

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, they expect that their office could absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may be required to request additional appropriations.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated no impact to their department.

Officials from the **Department of Elementary and Secondary Education** indicated no impact to their department.

Officials from the **Department of Higher Education and Workforce Development** indicated no impact to their department.

Officials from the **Department of Health and Senior Services** indicated this initiative petition has no impact on their department.

Officials from the **Department of Commerce and Insurance** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated no fiscal impact.

Officials from the **Department of Corrections** indicated no fiscal impact.

Officials from the **Department of Labor and Industrial Relations** indicated they anticipate no fiscal impact for this initiative petition.

Officials from the **Department of Revenue** indicated no impact.

Officials from the **Department of Public Safety - Office of the Director** indicated no impact for their department.

Officials from the **Department of Social Services** indicated this will have no fiscal impact for their department.

Officials from the **Governor's office** indicated this proposal should not impact their office.

Officials from the **Missouri House of Representatives** indicated they assume no fiscal impact. They are assuming that their appropriations (current budget) will still be used to cover the cost of the proposed 163 member General Assembly, as it does for the House members now. They also assume that any cost savings would be shown in the Senate response.

Officials from the **Department of Conservation** indicated no adverse fiscal impact to their department would be expected as a result of this proposal.

Officials from the **Department of Transportation** indicated this initiative petition would not have a fiscal impact to their department/Missouri Highways and Transportation Commission.

Officials from the **Office of Administration** indicated this proposal should not impact their office.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated as written, they assume a reduction of 17 Senators as of January 2025. Additionally, the fiscal note implies that by January 2027 the remaining 17 Senators are eliminated, and further dissolves the Senate entirely creating a unicameral legislature. As it is written, it is unclear if the Senate would be fully dissolved by 2025 or 2027. If passed, the General Assembly will consist of 163 Representatives. A detailed analysis of the cost savings follows:

Initiative Petition 2022-019 v2 to Amend Article III of the Missouri Constitution

Dissolves the Senate Entirely by January 2027
General Assembly will consist of 20 members from each Congressional Dist and 3 at large members (20*8 + 3 = 163 members)

Estimated savings as of January 2025
Reduces the number of Senators by 17

EXPENSE	Appropriation	EST SAVINGS PER EACH	TOTAL EST SAVINGS X 17	Notes
Senators' Salary	0003	(35,914.80)	(610,551.60)	Statutory Appropriation - current legislator salary $1,496.45 X 24 pay periods

		$ 13,155,603.00

Officials from the **Secretary of State's office** indicated this petition would change the composition of the General Assembly to one chamber, with representatives to be elected by congressional district and the three non-winners with the highest total votes being elected as at-large representatives. At each general election, voters would see a list of all representative candidates from their congressional district on their ballot, with the ability to rank their choices of at least three but possibly up to 10 candidates from the list. Additionally, voters shall be given the option to select between an all-party ballot, a single-party ballot, or a ballot containing only independent candidates. This consolidation may incur the following costs:

Reprogramming/Replacing voting machines: Voting machines in Missouri are currently programmed to accept only single-page ballots with a single vote per race – each of these machines would need to be reprogrammed to accept ranked-choice votes and provide for multiple-page ballots due to the potential for large numbers of candidates to file for General Assembly seats. Any machine that cannot be reprogrammed would need to be replaced with a new machine that does possess such capabilities. Either cost would be a new requirement that the state must assume under Article X, Section 21 of the Missouri Constitution.

As of the 2017 voting systems survey conducted by their office, local election authorities reported that they possessed 7,565 voting machines. The estimated cost for each new voting machine is $5,000. The total cost to the state will vary depending on the number of machines which are ready to accept ranked-choice votes or can be reprogrammed to do so. However, using total replacement of all machines as a maximum cost, this provision may result in a total impact to general revenue ranging from $0 up to $37,825,000.

Also, the separate ballots for each political party will create new ballot styles which must be coded into the machines. This will increase programming costs to the local election authorities by an unknown but possibly significant amount.

Postage Costs: mailing envelopes used to return absentee ballots are printed with business reply permits – pursuant to Section 115.285, RSMo., Local Election Authorities are reimbursed for these costs by their office at a current cost of $1.80 per envelope based on the current size and weight of the envelope and ballot; multiple-page ballots would increase these costs.

Ballot printing costs: Local election authorities bear the cost of printing ballots for each election – paying to print multiple page ballots would substantially increase printing costs. Additionally, each election authority will have an increased number of ballot styles to accommodate the separate ballots for each party, which would be reflected in the layout costs charged by their ballot vendor.

Due to situational variables, it is not possible to determine a concrete amount of fiscal impact to this measure (beyond the aforementioned machine replacements). However, the costs to the state and to local election authorities could be significant.

Officials from the **Office of the State Public Defender** indicated this initiative petition has no fiscal impact on their office.

Officials from the **State Treasurer's office** indicated no fiscal impact to their office.

Officials from **Clay County** indicated:

- Approximate printed general election ballots cost increase of ~$20,000.00***This is the only recurring cost per general election, the rest are one-time
- Approximate advertising for voter education cost increase of ~$500.00
- Approximate staff training cost increase of ~$1,000.00
- Approximate voting machine software upgrade cost increase of ~$10,000.00
- Approximate mapping updates cost increase of ~$500.00

Total estimated costs of $**32,000.00**. Only $12,000 one-time to upgrade, $20,000 every general election. No savings.

Officials from **Greene County** indicated it is estimated on an **annual basis to cost an additional $15,000** to conduct a ranked choice voting election in the County of Greene due to the additional software license fees that will need to be purchased to conduct it. It will also require a **one-time additional cost of $6,000** to purchase 2 new computers for the conduction of a ranked choice voting election. This does not include the individual programming costs that will likely increase for each election, as they cannot be faithfully estimated. This is due to the changing number of candidates running for each Missouri General Assembly legislative district seat in both the House and Senate that Greene County voters will be voting on in each election.

Estimated Cost to Conduct a November General Election:

Here's the difference in the layout and coding costs for this past November.

- **Non RCV** = Approximately $10,381.25 for layout, coding and audio.

- **RCV** = Approximately $11,234.00 for layout, coding and audio.

The additional costs for the November 2020 General election with a ranked choice voting model would have been an additional **$852.75** more.

It is difficult to provide a sound estimate regarding a ranked choice voting election, because it is completely contingent upon how many candidates there are for each race that will be ranked choice. The layout, coding, audio and expense for a race with two candidates and a write-in in a ranked choice vote election will become two races with four candidates and two write-ins, thereby increasing the cost.

This figure will begin to increase exponentially as additional candidates are added. For example, a race with three candidates and a write-in turns into three races with nine candidates and three write-ins.

Here is an example of how the ballot layout will change, which will require additional coding costs to allow for the ranked choice voting to take place.

Officials from the **City of Kansas City** indicated this proposed amendment would have no fiscal impact on their city.

Officials from **State Technical College of Missouri** indicated there is no fiscal impact to their college.

Officials from **Metropolitan Community College** indicated no fiscal impact to their college.

Officials from the **St. Louis County Board of Elections** indicated they believe this could have a fiscal impact of anywhere from $0-50,000 (one-time costs) because it is unknown if they would need to pay for new software or to use open-sourced software to conduct ranked-choice voting.

Officials from the **Platte County Board of Elections** indicated no fiscal impact to their Board.

The State Auditor's office did not receive a response from **Adair County, Boone County, Callaway County, Cass County, Cole County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, University of Missouri, St. Louis Community College,** the **Board of Election Commissioners City of St. Louis,** the **Kansas City Board of Election Commissioners,** the **Jackson County Election Board,** and the **Clay County Board of Election Commissioners.**

Fiscal Note Summary

The General Assembly is estimated to have approximately $13.2 million in annual savings by 2027. State and local governments could incur significant election-related costs of $18,000 to $38 million in one-time costs, and ongoing costs of at least $15,000 annually and at least $21,000 for each general election.

RE: Petition approval request from Winston Apple regarding a proposed constitutional amendment to Article III, version 1 (2022-018)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Winston Apple on March 9, 2021.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

INITIATIVE PETITION

Page No. _____

22-018

To the Honorable John R. Ashcroft, Secretary of State for the state of Missouri:

We, the undersigned, registered voters of the state of Missouri and _____ County (or city of St. Louis), respectfully order that the following proposed amendment to the constitution shall be submitted to the voters of the state of Missouri, for their approval or rejection, at the general election to be held on the 8th day of November, 2022, and each for himself or herself says: I have personally signed this petition; I am a registered voter of the state of Missouri and _____ County (or city of St. Louis); my registered voting address and the name of the city, town or village in which I live are correctly written after my name.

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Article III of the Constitution is revised by repealing Sections 9, 10, and 14, and amending Sections 3, 4, 5, 6, 7, 11, 13, 20(d), and 45 to read as follows:

Section 3. [(a)] Upon the convening of the one-hundred-and-third general assembly, the [The] house of representatives shall consist of [one hundred sixty-three members] twenty members from each congressional district and three at-large members elected at each general election [and redistricted as provided in this section] beginning with the general election to be held in the year two thousand and twenty-four.

[(b) The house independent bipartisan citizens commission shall redistrict the house of representatives using the following methods, listed in order of priority:

(1) Districts shall be as nearly equal as practicable in population, and shall be drawn on the basis of one person, one vote. Districts are as nearly equal as practicable in population if no district deviates by more than one percent from the ideal population of the district, as measured by dividing the number of districts into the statewide population data being used, except that a district may deviate by up to three percent if necessary to follow political subdivision lines consistent with subdivision (4) of this subsection;

(2) Districts shall be established in a manner so as to comply with all requirements of the United States Constitution and applicable federal laws, including, but not limited to, the Voting Rights Act of 1965 (as amended). The following principles shall take precedence over any other part of this constitution: no district shall be drawn in a manner which results in a denial or abridgment of the right of any citizen of the United States to vote on account of race or color; and no district shall be drawn such that members of any community of citizens protected by the preceding clause have less opportunity than other members of the electorate to participate in the political process and to elect representatives of their choice;

(3) Subject to the requirements of subdivisions (1) and (2) of this subsection, districts shall be composed of contiguous territory as compact as may be. Areas which meet only at the points of adjoining corners are not contiguous. In general, compact districts are those which are square, rectangular, or hexagonal in shape to the extent permitted by natural or political boundaries;

(4) To the extent consistent with subdivisions (1) to (3) of this subsection, communities shall be preserved. Districts shall satisfy this requirement if district lines follow political subdivision lines to the extent possible, using the following criteria, in order of priority. First, each county shall wholly contain as many districts as its population allows. Second, if a county wholly contains one or more districts, the remaining population shall be wholly joined in a single district made up of population from outside the county. If a county does not wholly contain a district, then no more than two segments of a county shall be combined with an adjoining county. Third, split counties and county segments, defined as any part of the county that is in a district not wholly within that county, shall each be as few as possible. Fourth, as few municipal lines shall be crossed as possible;

(5) Districts shall be drawn in a manner that achieves both partisan fairness and, secondarily, competitiveness, but the standards established by subdivisions (1) to (4) of this subsection shall take precedence over partisan fairness and competitiveness. "Partisan fairness" means that parties shall be able to translate their popular support into legislative representation with approximately equal efficiency. "Competitiveness" means that parties' legislative representation shall be substantially and similarly responsive to shifts in the electorate's preferences.

To this end, the average electoral performance of the two political parties receiving the most votes in the three preceding general elections for governor, for United States Senate, and for President of the United States shall be calculated. This index shall be defined as the total votes received by each party in the three preceding general elections for governor, for United States Senate, and for President of the United States, divided by the total votes cast for both parties in these elections. Using this index, the total number of wasted votes for each party, summing across all of the districts in the plan shall be calculated. "Wasted votes" are votes cast for a losing candidate or for a winning candidate in excess of the threshold needed for victory. In any redistricting plan and map of the proposed districts, the difference between the two parties' total wasted votes, divided by the total votes cast for the two parties, shall not exceed fifteen percent.

To promote competitiveness, the electoral performance index shall be used to simulate elections in which the hypothetical statewide vote shifts by one percent, two percent, three percent, four percent, and five percent in favor of each party. The vote in each individual district shall be assumed to shift by the same amount as the statewide vote. In each of these simulated elections, the difference between the two parties' total wasted votes, divided by the total votes cast for the two parties, shall not exceed fifteen percent.

(c) Within sixty days after the population of this state is reported to the President for each decennial census of the United States or, in the event that a redistricting plan has been invalidated by a court of competent jurisdiction, within sixty days that such a ruling has been made, the state committee and the congressional district committees of each of the two political parties casting the highest vote for governor at the last preceding general election shall meet and the members of each committee shall nominate, by a majority vote of the elected members of the committee present, provided that a majority of the elected members is present, members of their party, residents in that district, in the case of a congressional district committee, as nominees for the house independent bipartisan citizens commission. No party shall select more than one nominee from any one state legislative district. The congressional district committees shall each submit to the governor their list of two elected nominees. The state committees shall each submit to the governor their list of five elected nominees. Within thirty days thereafter, the governor shall appoint a house independent bipartisan citizens commission consisting of one nominee from each list submitted by each congressional district committee and two nominees from each list submitted by each state committee to redistrict the state into one hundred and sixty-three representative districts and to establish the numbers and boundaries of said districts. No person shall be appointed to both the house independent bipartisan citizens commission and the senate independent bipartisan citizens commission during the same redistricting cycle.

If any committee fails to submit a list within such time, the governor shall appoint a member of his or her own choice from the political party of the committee failing to submit a list, provided that in the case of a congressional district committee failing to submit a list, the person appointed to the commission by the governor shall reside in the congressional district of such committee.

Members of the commission shall be disqualified from holding office as members of the general assembly for four years following the date of the filing by the commission of its final redistricting plan.

For the purposes of this Article, the term congressional district committee or congressional district refers to the congressional district committee or the congressional district from which a congressman was last elected, or, in the event members of congress from this state have been elected at large, the term congressional district committee refers to those persons who last served as the congressional district committee for those districts from which congressmen were last elected, and the term congressional district refers to those districts from which congressmen were last elected. Any action pursuant to this section by the congressional district committee shall take place only at duly called meetings, shall be recorded in their official minutes and only members present in person shall be permitted to vote.

(d) The commissioners so selected shall, on the fifteenth day, excluding Sundays and state holidays, after all members have been appointed, meet in the capitol building and proceed to organize by electing from their number a chairman, vice chairman and secretary. The commission shall adopt an agenda establishing at least three hearing dates on which hearings open to the public shall be held to hear objections or testimony from interested persons. A copy of the agenda shall be filed with the clerk of the house of representatives within twenty-four hours after its adoption. Executive meetings may be scheduled and held as often as the commission deems advisable.

(e) Not later than five months after the appointment of the commission, the commission shall file with the secretary of state a tentative redistricting plan and map of the proposed districts and during the ensuing fifteen days shall hold such public hearings as may be necessary to hear objections or testimony of interested persons. The commission shall make public the tentative redistricting plan and map of the proposed districts, as well as all demographic and partisan data used in the creation of the plan and map.

(f) Not later than six months after the appointment of the commission, the commission shall file with the secretary of state a final statement of the numbers and the boundaries of the districts together with a map of the districts, and no statement shall be valid unless approved by at least seven-tenths of the members.

(g) After the final statement is filed, members of the house of representatives shall be elected according to such districts until a new redistricting plan is made as provided in this section, except that if the final statement is not filed within six months of the time fixed for the appointment of the commission, the commission shall stand discharged and the house of representatives shall be redistricted using the same methods and criteria as described in subsection (b) of this section by a commission of six members appointed from among the judges of the appellate courts of the state of Missouri by the state supreme court, a majority of whom shall sign and file its redistricting plan and map with the secretary of state within ninety days of the date of the discharge of the house independent bipartisan citizens commission. The judicial commission shall make public the tentative redistricting plan and map of the proposed districts, as well as all demographic and partisan data used in the creation of the plan and map. Thereafter, members of the house of representatives shall be elected according to such districts until a redistricting plan is made as provided in this section.

(h) Each member of the commission shall receive as compensation fifteen dollars a day for each day the commission is in session but not more than one thousand dollars, and, in addition, shall be reimbursed for his or her actual and necessary expenses incurred while serving as a member of the commission.

(i) No redistricting plan shall be subject to the referendum.

(j) Any action expressly or implicitly alleging that a redistricting plan violates this Constitution, federal law, or the United States Constitution shall be filed in the circuit court of Cole County and shall name the body that approved the challenged redistricting plan as a defendant. Only an eligible Missouri voter who sustains an individual injury by virtue of residing in a district that exhibits the alleged violation, and whose injury is remedied by a differently drawn district, shall have standing. If the court renders a judgment in which it finds that a completed redistricting plan exhibits the alleged violation, its judgment shall adjust only those districts, and only those parts of district boundaries, necessary to bring the map into compliance. The supreme court shall have exclusive appellate jurisdiction upon the filing of a notice of appeal within ten days after the judgment has become final.**]**

Section 4. Each representative shall be twenty-four years of age, and next before the day of <u>her or</u> his election shall have been a qualified voter for two years and<u>, with the exception of at-large representatives,</u> a resident of the county or district which <u>she or</u> he is chosen to represent for one year, if such county or district shall have been so long established, and if not, then of the county or district from which the same shall have been taken.

Section 5. The senate shall consist of thirty-four members elected by the qualified voters of the **[**senatorial districts**]** <u>state of Missouri</u> for a term of four years. **[**Senatorial districts shall be apportioned as provided for in Article III, Section 7.**]**

Section 6. Each senator shall be thirty years of age, and next before the day of his <u>or her</u> election shall have been a qualified voter of the state for three years **[**and a resident of the district which he is chosen to represent for one year, if such district shall have been so long established, and if not, then of the district or districts from which the same shall have been taken**]**.

Section 7. **[**(a) Within sixty days after the population of this state is reported to the President for each decennial census of the United States, or within sixty days after a redistricting plan has been invalidated by a court of competent jurisdiction, the state committee and the congressional district committees of each of the two political parties casting the highest vote for governor at the last preceding general election shall meet and the members of each committee shall nominate, by a majority vote of the elected members of the committee present, provided that a majority of the elected members is present, members of their party, residents in that district, in the case of a congressional district committee, as nominees for the senate independent bipartisan citizens commission. No party shall select more than one nominee from any one state legislative district. The congressional district committees shall each submit to the governor their list of two elected nominees. The state committees shall each submit to the governor their list of five elected nominees. Within thirty days thereafter the governor shall appoint a senate independent bipartisan citizens commission consisting of two nominees from each list submitted by each state committee and one nominee from each list submitted by each congressional district committee, to redistrict the thirty-four senatorial districts and to establish the numbers and boundaries of said districts. No person shall be appointed to both the house independent bipartisan citizens commission and the senate independent bipartisan citizens commission during the same redistricting cycle.

If any committee fails to submit a list within such time, the governor shall appoint a member of his or her own choice from the political party of the committee failing to submit a list, provided that in the case of a congressional district committee failing to submit a list, the person appointed to the commission by the governor shall reside in the congressional district of such committee.

Members of the commission shall be disqualified from holding office as members of the general assembly for four years following the date of the filing by the commission of its final redistricting plan.

(b) The commissioners so selected shall, on the fifteenth day, excluding Sundays and state holidays, after all members have been appointed, meet in the capitol building and proceed to organize by electing from their number a chairman, vice chairman and secretary. The commission shall adopt an agenda establishing at least three hearing dates on which hearings open to the public shall be held to hear objections or testimony from interested persons. A copy of the agenda shall be filed with the secretary of the senate within twenty-four hours after its adoption. Executive meetings may be scheduled and held as often as the commission deems advisable.

(c) The senate independent bipartisan citizens commission shall redistrict the senate using the same methods and criteria as those required by subsection (b), section 3 of this Article for the redistricting of the house of representatives.

(d) Not later than five months after the appointment of the senate independent bipartisan citizens commission, the commission shall file with the secretary of state a tentative redistricting plan and map of the proposed districts and during the ensuing fifteen days shall hold such public hearings as may be necessary to hear objections or testimony of interested persons. The commission shall make public the tentative redistricting plan and map of the proposed districts, as well as all demographic and partisan data used in the creation of the plan and map.

(e) Not later than six months after the appointment of the commission, the commission shall file with the secretary of state a final statement of the numbers and the boundaries of the districts together with a map of the districts, and no statement shall be valid unless approved by at least seven-tenths of the members.

(f) After the final statement is filed, senators shall be elected according to such districts until a new redistricting plan is made as provided in this section, except that if the final statement is not filed within six months of the time fixed for the appointment of the commission, the commission shall stand discharged and the senate shall be redistricted using the same methods and criteria as described in subsection (b) of section 3 of this Article by a commission of six members appointed from among the judges of the appellate courts of the state of Missouri by the state supreme court, a majority of whom shall sign and file its redistricting plan and map with the secretary of state within ninety days of the date of the discharge of the senate independent bipartisan citizens commission. The judicial commission shall make public the tentative redistricting plan and map of the proposed districts, as well as all demographic and partisan data used in the creation of the plan and map. Thereafter, senators shall be elected according to such districts until a redistricting plan is made as provided in this section.

(g) Each member of the commission shall receive as compensation fifteen dollars a day for each day the commission is in session, but not more than one thousand dollars, and, in addition, shall be reimbursed for his or her actual and necessary expenses incurred while serving as a member of the commission.

(h) No redistricting plan shall be subject to the referendum.

(i) Any action expressly or implicitly alleging that a redistricting plan violates this Constitution, federal law, or the United States Constitution shall be filed in the circuit court of Cole County and shall name the body that approved the challenged redistricting plan as a defendant. Only an eligible Missouri voter who sustains an individual injury by virtue of residing in a district that exhibits the alleged violation, and whose injury is remedied by a differently drawn district, shall have standing. If the court renders a judgment in which it finds that a completed redistricting plan exhibits the alleged violation, its judgment shall adjust only those districts, and only those parts of district boundaries, necessary to bring the map into compliance. The supreme court shall have exclusive appellate jurisdiction upon the filing of a notice of appeal within ten days after the judgment has become final.]

(a) Beginning with the election of senators and representatives to be held in the year two thousand and twenty-four there shall be no primary election for those offices. For the general election, all candidates who file to run, and are qualified to run, for the house of representatives will be listed on the ballot in the congressional district in which they reside, candidates for both senator and representative shall be grouped on the ballot by political party affiliation. Independent candidates shall be grouped together on the ballot.

(b) General elections shall be carried out using a system of ranked choice voting under which each voter shall be able to rank a minimum of three candidates for senator and a minimum of three candidates for representative in order of preference. If feasible, the ballot shall permit voters to rank up to ten candidates for each office, or as close to that number as feasible. Voters shall be able to request a general ballot listing all of the candidates for all political parties and all independent candidates, a single-party ballot listing only the candidates of a single political party, or a ballot listing only independent candidates.

(c) A number of spaces equal to the number of choices voters are able to rank shall be provided to write in the names of candidates not appearing on the ballot. Write-in votes may be cast for candidates for the house of representatives who are on the ballot in congressional districts other than a voter's congressional district. Those write-in votes from other districts will not be counted as part of the process of determining which candidates are elected to represent each congressional district in the house of representatives but shall be utilized for purposes of determining which candidates are elected as at-large representatives, and shall be added to the cumulative vote total of candidates who are elected to the house of representatives to determine the value of each representative's weighted vote.

(d) The ballot shall be simple and easy to understand, with instructions necessary to enable voters to successfully cast ballots under the system.

(e) The results of each general election shall be tabulated in two rounds.

(f) In the first round of tabulation, only first-choice votes shall be counted. The seventeen candidates for the senate with the most first choice votes are elected. For candidates for the house of representatives, separate vote totals shall be calculated and recorded for "in-district votes" (which are votes for candidates residing in each congressional district cast by the voters of that district) and for "cumulative votes" (which are the sum of in-district votes plus write-in votes from voters in districts other than the district in which a candidate resides). The twenty candidates with the most in-district votes are elected to represent each congressional district. The three candidates with the most cumulative votes, who were not elected to represent the district in which they reside shall serve as at-large representatives.

(g) Ballots with a vote for a winning candidate for both offices as the voter's first choice are then considered completed and set aside. For each ballot that did not include a winning candidate for either one, or both, offices as a voter's first choice a single vote shall be added to the total number of cumulative votes of each senator or representative who was elected and is the highest remaining choice on each such ballot.

(h) With the exception of votes taken to override a governor's veto, for which each senator and representative will cast a single non-weighted vote, candidates who are elected to the general assembly shall have weighted votes in all matters before the general assembly based on the total number of cumulative votes each member received. The value of each representative's weighted vote shall be determined by dividing the number of cumulative votes received by each representative by the number of cumulative votes received by the representative with the lowest number of cumulative votes. The value of each senator's weighted vote shall be determined by dividing the number of cumulative votes received by each senator by the number of cumulative votes received by the senator with the lowest number of cumulative votes.

(i) If a voter inadvertently casts a vote for more than a single candidate among any of their ranked choices, each candidate listed will be given the appropriate fraction of a whole vote. If a voter inadvertently fails to fill in a choice among their ranked choices but has additional lower-ranked choices, the missing ranked choice will be ignored. A ballot with no remaining choices for candidates who were elected is an "exhausted ballot" and shall be set aside.

(j) Officials shall determine a random selection algorithm, prior to tabulation, to resolve ties between candidates for the last remaining seat, or seats, in the General Assembly or to determine which members are elected to the senate.

(k) The candidates of all political parties that had at least one candidate for the general assembly or statewide office who received cumulative votes in the preceding election totaling at least one percent of the votes cast for governor at the preceding gubernatorial election shall be listed on the ballot.

(l) A political party having no candidate for the general assembly or statewide office receiving cumulative votes in the preceding general election totaling at least one percent of the total vote in the preceding gubernatorial election, may qualify for a place on the ballot for the general assembly in each congressional district by presenting petitions signed by one per cent of the legal voters in that congressional district. An independent candidate may qualify for a place on the ballot in a congressional district by presenting petitions signed by one-half of one percent of the legal voters in the congressional district in which they reside. The number of "legal voters" is equal to, and determined by, the total vote for governor in the preceding gubernatorial election. Said petitions are to be delivered to the secretary of state no later than one hundred and twenty days preceding the general election.

(m) The signatures on petitions submitted by independent candidates and political parties shall be subject to verification according to the procedures in the code of state regulations for independent candidate petitions in force at the time the petitions are submitted.

[Section 9. Until the convening of the Seventy-fourth General Assembly the House of Representatives shall consist of one hundred sixty-three members elected from the one hundred sixty-three representative districts, as they existed January 1, 1965.]

[Section 10. The last decennial census of the United States shall be used in apportioning representatives and determining the population of senatorial and representative districts. Such districts may be altered from time to time as public convenience may require.]

Section 11. The first election of senators and representatives under this constitution, shall be held at the general election in the year one thousand nine hundred and forty-six when the whole number of representatives and the senators from the districts having even numbers, who shall compose the first class, shall be elected, and two years thereafter the whole number of representatives and the senators from districts having odd numbers, who shall compose the second class, shall be elected, and so on at each succeeding general election. Beginning with the general election to be held in the year two thousand and twenty-four senators will continue to be divided into two classes, with senators from each class, as the term of each class expires, to be elected at large on a state-wide basis. In the one-hundred-and-third general assembly only, the total number of votes received in the general election held in two thousand and twenty-two by each senator who was elected in that election will be used as her or his cumulative vote total for purposes of determining the value of each senator's weighted vote.

Section 13. If any senator or representative removes her or his residence from the **[**district or county for which he was elected, his**]** state of Missouri, their office shall thereby be vacated. If any representative removes her or his residence from the district from which they were elected, they may serve out their term as long as they continue to reside in Missouri.

[Section 14. Writs of election to fill vacancies in either house of the general assembly shall be issued by the governor.]

Section 20(d). If any provision of sections 2, 3, 4, 5, 6, 7, 11, 13, 19, **[**or**]** 20(c), 20(d) or 45 or the application thereof to anyone or to any circumstance is held invalid, the remainder of those provisions and the application of such provisions to others or other circumstances shall not be affected thereby.

Section 45. When the number of representatives to which the state is entitled in the House of the Congress of the United States under the census of 1950 and each census thereafter is certified to the governor, the general assembly shall by law divide the state into districts corresponding with the number of representatives to which it is entitled, which districts shall be composed of contiguous territory as compact and as nearly equal in population as may be. Beginning with the general election to be held in two thousand and twenty-four, the boundaries established for congressional districts under this Constitution shall also serve as the boundaries for legislative districts for purposes of electing members of the house of representatives. If the Congress of the United States enacts legislation giving states the right to elect members of the House of the Congress of the United States from multiple-member districts or at-large, the state of Missouri shall elect its members at-large, if given a choice of the two, or from multiple-member districts, if that is the only choice, with those multiple-member districts composed of contiguous territory as compact and as nearly equal in population as may be. In either case, the general assembly shall by law continue to divide the state into a number of districts corresponding with the number of representatives to which the state is entitled in the House of Congress, composed according to the guidelines provided in this section and those districts shall continue to serve as senatorial districts and legislative districts to be used in electing members of the general assembly and for electing delegates to a convention to revise and amend the constitution of Missouri if voters should vote in favor of such a convention.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (22-018)

Subject

Initiative petition from Winston Apple regarding a proposed constitutional amendment to Article III. (Received March 9, 2021)

Date

March 29, 2021

Description

This proposal would amend Article III of the Missouri Constitution.

The amendment is to be voted on in November 2022.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education and Workforce Development,** the **Department of Health and Senior Services,** the **Department of Commerce and Insurance,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College,** the **St. Louis County Board of Elections,** the **Board of Election Commissioners City of St. Louis,** the **Kansas City Board of Election Commissioners,** the **Platte County Board of Elections,** the **Jackson County Election Board,** and the **Clay County Board of Election Commissioners.**

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, they expect that their office could absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may be required to request additional appropriations.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated no impact to their department.

Officials from the **Department of Elementary and Secondary Education** indicated no impact to their department.

Officials from the **Department of Higher Education and Workforce Development** indicated no impact to their department.

Officials from the **Department of Health and Senior Services** indicated this initiative petition has no impact on their department.

Officials from the **Department of Commerce and Insurance** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated no fiscal impact.

Officials from the **Department of Corrections** indicated no fiscal impact.

Officials from the **Department of Labor and Industrial Relations** indicated they anticipate no fiscal impact for this initiative petition.

Officials from the **Department of Revenue** indicated no impact.

Officials from the **Department of Public Safety - Office of the Director** indicated no impact for their department.

Officials from the **Department of Social Services** indicated this will have no fiscal impact for their department.

Officials from the **Governor's office** indicated this proposal should not impact their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact.

Officials from the **Department of Conservation** indicated no adverse fiscal impact to their department would be expected as a result of this proposal.

Officials from the **Department of Transportation** indicated this initiative petition would have no fiscal impact to their department/Missouri Highways and Transportation Commission.

Officials from the **Office of Administration** indicated this proposal should not impact their office.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated this petition would change the composition of the General Assembly and cause representatives to be elected by congressional district using ranked-choice voting and senators from the state at-large. At each general election, voters would see a list of all representative candidates from their congressional district on their ballot and all senator candidates for the state, with the ability to rank their choices of at least three but possibly up to 10 candidates from each list. Additionally, voters shall be given the option to select between an all-party ballot, a single-party ballot, or a ballot containing only independent candidates. This consolidation may incur the following costs:

Reprogramming/Replacing voting machines: Voting machines in Missouri are currently programmed to accept only single-page ballots with a single vote per race – each of these machines would need to be reprogrammed to accept ranked-choice votes and provide for multiple-page ballots due to the potential for large numbers of candidates to file for General Assembly seats. Any machine that cannot be reprogrammed would need to be replaced with a new machine that does possess such capabilities. Either cost would be a new requirement that the state must assume under Article X, Section 21 of the Missouri Constitution.

As of the 2017 voting systems survey conducted by their office, local election authorities reported that they possessed 7,565 voting machines. The estimated cost for each new voting machine is $5,000. The total cost to the state will vary depending on the number of machines which are ready to accept ranked-choice votes or can be reprogrammed to do so. However, using total replacement of all machines as a maximum cost, this provision may result in a total impact to general revenue ranging from $0 up to $37,825,000.

Also, the separate ballots for each political party will create new ballot styles which must be coded into the machines. This will increase programming costs to the local election authorities by an unknown but possibly significant amount.

Postage Costs: mailing envelopes used to return absentee ballots are printed with business reply permits – pursuant to Section 115.285, RSMo., Local Election Authorities are reimbursed for these costs by their office at a current cost of $1.80 per envelope based on the current size and weight of the envelope and ballot; multiple-page ballots would increase these costs.

Ballot printing costs: Local election authorities bear the cost of printing ballots for each election – paying to print multiple page ballots would substantially increase printing costs. Additionally, each election authority will have an increased number of ballot styles to accommodate the separate ballots for each party, which would be reflected in the layout costs charged by their ballot vendor.

Due to situational variables, it is not possible to determine a concrete amount of fiscal impact to this measure (beyond the aforementioned machine replacements). However, the costs to the state and to local election authorities could be significant.

Officials from the **Office of the State Public Defender** indicated this initiative petition has no fiscal impact on their office.

Officials from the **State Treasurer's office** indicated no fiscal impact to their office.

Officials from **Clay County** indicated:

- Approximate printed general election ballots cost increase of ~$20,000.00***This is the only recurring cost per general election, the rest are one-time
- Approximate advertising for voter education cost increase of ~$500.00
- Approximate staff training cost increase of ~$1,000.00
- Approximate voting machine software upgrade cost increase of ~$10,000.00
- Approximate mapping updates cost increase of ~$500.00

Total estimated costs of $**32,000.00**. Only $12,000 one-time to upgrade, $20,000 every general election. No savings.

Officials from **Greene County** indicated it is estimated on an **annual basis to cost an additional $15,000** to conduct a ranked choice voting election in the County of Greene due to the additional software license fees that will need to be purchased to conduct it. It will also require a **one-time additional cost of $6,000** to purchase 2 new computers for the conduction of a ranked choice voting election. This does not include the individual programming costs that will likely increase for each election, as they cannot be faithfully estimated. This is due to the changing number of candidates running for each Missouri General Assembly legislative district seat in both the House and Senate that Greene County voters will be voting on in each election.

Estimated Cost to Conduct a November General Election:

Here's the difference in the layout and coding costs for this past November.

- **Non RCV** = Approximately $10,381.25 for layout, coding and audio.

- **RCV** = Approximately $11,234.00 for layout, coding and audio.

The additional costs for the November 2020 General election with a ranked choice voting model would have been an additional **$852.75** more.

It is difficult to provide a sound estimate regarding a ranked choice voting election, because it is completely contingent upon how many candidates there are for each race that will be ranked choice. The layout, coding, audio and expense for a race with two candidates and a write-in in a ranked choice vote election will become two races with four candidates and two write-ins, thereby increasing the cost.

This figure will begin to increase exponentially as additional candidates are added. For example, a race with three candidates and a write-in turns into three races with nine candidates and three write-ins.

Here is an example of how the ballot layout will change, which will require additional coding costs to allow for the ranked choice voting to take place.

Officials from the **City of Kansas City** indicated this proposed amendment would have no fiscal impact on their city.

Officials from **State Technical College of Missouri** indicated there is no fiscal impact to their college.

Officials from **Metropolitan Community College** indicated no fiscal impact to their college.

Officials from the **St. Louis County Board of Elections** indicated they believe this could have a fiscal impact of anywhere from $0-50,000 (one-time costs) because it is unknown if they would need to pay for new software or to use open-sourced software to conduct ranked-choice voting.

Officials from the **Platte County Board of Elections** indicated no fiscal impact to their Board.

The State Auditor's office did not receive a response from **Adair County, Boone County, Callaway County, Cass County, Cole County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, University of Missouri, St. Louis Community College,** the **Board of Election Commissioners City of St. Louis,** the **Kansas City Board of Election Commissioners,**

the **Jackson County Election Board,** and the **Clay County Board of Election Commissioners.**

Fiscal Note Summary

State and local governments could incur significant election-related costs of $18,000 to $38 million in one-time costs, and ongoing costs of at least $15,000 annually and at least $21,000 for each general election.

RE: Petition approval request from Winston Apple regarding a proposed constitutional amendment to Article I (2022-017)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Winston Apple on March 4, 2021.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Article I of the Constitution is revised by amending Section 1 to read as follows:

Section 1. (a) That all political power is vested in and derived from the people; that all government of right originates from the people, is founded upon their will only, and is instituted solely for the good of the whole.

(b) To ensure that the General Assembly of the State of Missouri reflects the will of the people as accurately as possible, every citizen of the state of Missouri who is eligible to vote may submit a proxy form to one member of the house of representatives and one senator naming them as their designated representatives.

(c) Each citizen who is eligible to vote may submit a new proxy form designating a different representative and/or senator as their representative(s) at any time, but no more than once in any calendar year for each office.

(d) With the exception of votes taken to override a governor's veto, for which each member will cast a single non-weighted vote, senators and representatives shall have weighted votes on all matters that come before the General Assembly, including votes in senate and house committees, based on the number of proxies they hold from citizens of the state of Missouri.

(e) The value of each representative's weighted vote, rounded to the nearest hundredth of a full vote, shall be determined by dividing the number of proxies held by each representative by the number of proxies held by the representative with the lowest number of proxies.

(f) The value of each senator's weighted vote, rounded to the nearest hundredth of a full vote, shall be determined by dividing the number of proxies held by each senator by the number of proxies held by the senator with the lowest number of proxies.

(g) The Secretary of State shall design a proxy form, a form for voters to use to change their proxies, and a form for citizens to submit cancelling their proxies if they move out of the state or are no longer eligible to vote, and make those forms available to citizens of the state of Missouri.

(h) The General Assembly shall pass appropriate legislation implementing a secure system for the transmission and recording of proxies and providing penalties for forging or falsifying proxies.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (22-017)

Subject

Initiative petition from Winston Apple regarding a proposed constitutional amendment to Article I. (Received March 4, 2021)

Date

March 24, 2021

Description

This proposal would amend Article I of the Missouri Constitution.

The amendment is to be voted on in November 2022.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education and Workforce Development,** the **Department of Health and Senior Services,** the **Department of Commerce and Insurance,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri,** and **St. Louis Community College.**

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, they expect that their office could absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may be required to request additional appropriations.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated no impact to their department.

Officials from the **Department of Elementary and Secondary Education** indicated no impact to their department.

Officials from the **Department of Higher Education and Workforce Development** indicated no impact to their department.

Officials from the **Department of Health and Senior Services** indicated this initiative petition has no impact on their department.

Officials from the **Department of Commerce and Insurance** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated no fiscal impact.

Officials from the **Department of Corrections** indicated no fiscal impact.

Officials from the **Department of Labor and Industrial Relations** indicated they anticipate no fiscal impact for this initiative petition proposing to amend Article I.

Officials from the **Department of Revenue** indicated no impact.

Officials from the **Department of Public Safety - Office of the Director** indicated no impact for their department.

Officials from the **Department of Social Services** indicated this will have no fiscal impact for their department.

Officials from the **Governor's office** indicated this proposal should not impact their office.

Officials from the **Missouri House of Representatives** indicated the petition language does not fully describe the role of the House of Representatives and they do not know the administrative impact this could have on their operations. Therefore, the fiscal impact is unknown.

Officials from the **Department of Conservation** indicated no adverse fiscal impact to their department would be expected as a result of this proposal.

Officials from the **Department of Transportation** indicated this initiative petition would have no fiscal impact to their department/Missouri Highways and Transportation Commission.

Officials from the **Office of Administration** indicated this proposal should not impact their office.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated this petition would authorize voters to submit proxy forms designating a representative and/or senator other than the one from the district in which they reside. While the petition language does not describe precisely how the system is to be implemented, leaving this task to the General Assembly, they assume that at least part of the administrative burden will fall upon their office as voter eligibility is directly related to the proxy process.

As only eligible registered voters are allowed to submit proxies, they assume that the proxy system will need to interface with the Missouri Centralized Voter Registration system (MCVR) to provide the most current possible information. They anticipate that some degree of programming costs will be incurred to implement this software change, as this would be beyond the scope of the established maintenance contract, but the exact cost is unknown and would be a one-time cost.

Additionally, as voters may submit, update, or cancel their proxy at any time during the year (including during the legislative session), it will be imperative that proxy requests are processed immediately so that up-to-the-minute weighted vote counts are available to the General Assembly. Therefore, they anticipate the need for at least one new Elections Specialist (full-time employee) FTE at a salary of $38,148 plus benefits beginning in (fiscal year) FY 2023.

In addition, each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be $7 million based on the cost of the 2020 Presidential Preference Primary.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Funding for this item is adjusted each year depending upon the election cycle. A new decision item is requested in odd numbered fiscal years and the amount requested is dependent upon the estimated number of ballot measures that will be approved by the General Assembly and the initiative petitions certified for the ballot. In FY 2014, the General Assembly changed the appropriation so that it was no longer an estimated appropriation.

In FY19, over $5.8 million was spent to publish the full text of the measures for the August and November elections. Their office estimates $75,000 per page for the costs of publications based on the actual cost incurred for the one referendum that was on the August 2018 ballot.

Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition will have no fiscal impact on their office.

Officials from the **State Treasurer's office** indicated no fiscal impact to their office.

Officials from **Clay County** indicated this petition has no fiscal impact to their county.

Officials from **Greene County** indicated there are no estimated costs or savings to report from their county for this initiative petition.

Officials from **St. Louis County** indicated in regards to this initiative petition, the fiscal impact, if any, is too remote or indirect to calculate.

Officials from the **City of Kansas City** indicated this proposed amendment would have no fiscal impact on their city.

Officials from **State Technical College of Missouri** indicated there is no fiscal impact to their college.

Officials from **Metropolitan Community College** indicated no fiscal impact to their college.

The State Auditor's office did not receive a response from **Adair County, Boone County, Callaway County, Cass County, Cole County, Jackson County, Jasper County, St. Charles County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, University of Missouri,** and **St. Louis Community College.**

Fiscal Note Summary

State governmental entities estimate no savings, one-time costs of an unknown amount, and ongoing costs of an unknown amount totaling at least $38,000 per year. Local governmental entities estimate no costs or savings.

NOTICE: You are advised that in addition to the express amendments, repeals, and modifications as set forth below, this proposal may repeal, change or modify by implication, or may be construed by some persons to repeal, change or modify by implication, Article IV, Section 4, Article V, Sections 8, 19, 25(a), 25(c)(1), 25(c)(2), 25(d), 25(e), 25(f), and 25(g), and Article VIII, Section 23 of the Constitution of Missouri.

Be it resolved by the people of the state of Missouri that the Constitution be amended:

To amend Sections 8, 19, 25(a), and 25(f), and enact Sections 1(a), 25(c)(3), 25(c)(4), 25(c)(5), and 25(c)(6) of Article V of the Constitution of Missouri to read as follows:

Section 1(a). 1. Judges of the supreme court and court of appeals shall be elected in elections conducted in the same manner as contested elections for governor.

2. The election of judges derives from the principle that all political power is vested in and derived from the people, and all government of right originates from the people, is founded upon their will only, and is instituted solely for the good of the whole, and further, that all courts of justice shall be open to every person without sale, denial, or delay. Judges shall therefore be accountable to the citizens of this state, this constitution, and the United States Constitution, and not beholden to any particular association or alliance of lawyers, judges, or interest groups. To accomplish this purpose, as set forth in sections 25(a) through (g), judges of the supreme court and court of appeals shall henceforth stand for election, and shall no longer be selected by the governor from nominations made by commissions of lawyers, judges, and the governor's chosen appointees. Voters in most circuits shall continue to have the ability to choose the method by which circuit and associate circuit judges are selected. Section 1(a) and sections 25(a) through (g) shall be known as the "Missouri Plan for Judicial Fairness and Accountability."

Section 8. [The judges of the supreme court shall elect from their number a] The chief justice [to] shall preside over the supreme court en banc, and the judges of the court of appeals in each district shall elect from their number a chief judge of the district. The terms of the [chief justice and] chief judges shall be fixed by the courts over which they preside. The chief justice of the supreme court shall be the chief administrative officer of the judicial system and, subject to the supervisory authority of the supreme court, shall supervise the administration of the courts of this state.

Section 19. Judges of the supreme court, including the chief justice, and judges and of the court of appeals shall be selected for terms of [twelve] six years, judges of the circuit courts for terms of six years, and associate circuit judges for terms of four years. No supreme court judge, supreme court chief justice, or court of appeals judge shall be elected to a particular judicial seat for more than two consecutive terms.

Section 25(a). Whenever a vacancy shall occur in the office of [judge of any of the following courts of this state, to wit: The supreme court, the court of appeals, or in the office of] circuit or associate circuit judge within the city of St. Louis and Jackson County, the governor shall fill such vacancy by appointing one of three persons possessing the qualifications for such office, who shall be nominated and whose names shall be submitted to the governor by a nonpartisan judicial commission established and organized as hereinafter provided. If the governor fails to appoint any of the nominees within sixty days after the list of nominees is submitted, the nonpartisan judicial commission making the nomination shall appoint one of the nominees to fill the vacancy. Whenever a vacancy shall occur in the office of judge of the supreme court, supreme court chief justice, or judge of the court of appeals, it shall be promptly filled under Article IV, Section 4 of this constitution and such appointee shall hold office for the remainder of the vacating judge's term.

Section 25(c)(1). Each judge appointed to the office of circuit or associate circuit judge pursuant to the provisions of sections 25(a)-(g) shall hold office for a term ending December thirty-first following the next general election after the expiration of twelve months in the office. Any circuit or associate circuit judge holding office, or elected thereto, at the time of the election by which the provisions of sections 25(a)-(g) become applicable to his office, shall, unless removed for cause, remain in office for the term to which he would have been entitled had the provisions of sections 25(a)-(g) not become applicable to his office. Not less than sixty days prior to the holding of the general election next preceding the expiration of his term of office, any circuit or associate circuit judge whose office is subject to the provisions of sections 25(a)-(g) may file in the office of the secretary of state a declaration of candidacy for election to succeed himself. If a declaration is not so filed [by any judge], the vacancy resulting from the expiration of his term of office shall be filled by appointment as herein provided. If such declaration is filed, his name shall be submitted at said next general election to the voters eligible to vote [within the state if his office is that of judge of the supreme court, or within the geographic jurisdiction limit of the district where he serves if his office is that of a judge of the court of appeals, or] within the circuit if his office is that of circuit judge, or within the county if his office is that of associate circuit judge on a separate judicial ballot, without party designation, reading:

"Shall Judge .....

(Here the name of the judge shall be inserted) of the .....

(Here the title of the court shall be inserted) be retained in office? Yes No

(Mark an "X" in the box you prefer.)" If a majority of those voting on the question vote against retaining him in office, upon the expiration of his term of office, a vacancy shall exist which shall be filled by appointment as provided in section 25(a); otherwise, said judge shall, unless removed for cause, remain in office for the number of years after December thirty-first following such election as is provided for the full term of such office, and at the expiration of each such term shall be eligible for retention in office by election in the manner here prescribed.

Section 25(c)(3). Judges of the court of appeals and supreme court shall be elected at the general election by the voters eligible to vote within the appellate district of the seat being elected as set forth in sections 25(c)(4) and 25(c)(5). Except as set forth in section 25(a), they shall hold office for a term expiring December thirty-first in the sixth year after their election. The provisions of sections 25(c)(1) and 25(c)(2) shall not apply to court of appeals or supreme court judges.

Section 25(c)(4). Supreme court judges shall be elected as follows. If the general assembly has provided by law for three appellate districts, a chief justice shall be elected at large and two supreme court judges shall be elected from each court of appeals district by the voters eligible to vote within that district, but if greater than three court of appeals districts are established or the geographical boundaries of the districts change such that the following divisions cannot be made, then elections for supreme court judges other than the chief justice shall be as established by law, or if no law timely establishes procedures for such elections, then elections for all supreme court seats shall be at large. Seats E1 and E2 shall be elected from the court of appeals district which includes the City of St. Louis. Seats S1 and S2 shall be elected from the court of appeals district which includes the City of

Springfield. Seats W1 and W2 shall be elected from the court of appeals district which includes the City of Kansas City. Seat CJ, the seat of the chief judge, shall be elected at large. Seats E1 and S1 shall be known as "Class 1" and elected in 2024 and every sixth successive year. Seats W1 and E2 shall be known as "Class 2" and elected in 2026 and every sixth successive year. Seats S2, W2, and the chief justice's at-large seat, CJ, shall be known as "Class 3" and elected in 2028 and every sixth successive year. A supreme court judge shall be a resident of the appellate district from which he or she is elected no later than the day of his or her election.

Section 25(c)(5). The following transition provisions shall apply: 1. Those supreme court judges holding office as of 5:00 p.m. on December 3, 2020, shall not be required to reside in any particular appellate district but on that date shall nonetheless be assigned the following seat designations for purposes of implementing elections and filling vacancies. The seat designations shall be assigned in the following order: CJ, W2, S2, E2, W1, S1, E1. First, beginning with Seat CJ, seats will be assigned to judges who have been retained by voters, starting with the judge most recently retained by voters. For judges retained at the same time, the judge having served the least time on the supreme court shall be assigned first. After all judges who have been retained have been assigned seats, judges who have been appointed shall be assigned, with judges most recently appointed to be assigned first. If all judges who have been retained or appointed have been assigned seats, and it appears that one or more supreme court seats was vacated on or before December 8, 2022, but remained unfilled by the end of that date, these vacancies will be immediately assigned a class and seat, using the order set forth in this section until all seats through Seat E1 are filled, and in assigning seat designations to vacancies, vacancies created by a judge whose last name is first in alphabetical order will have precedence. A seat held by any judge who lost a retention election in the 2022 general election shall be treated as vacant solely for purposes of assigning a class and seat under this transition provision, even though the judge shall hold office until December 31, 2022, and the seat shall be treated as vacant for purposes of section 25(a) on January 1, 2023, and thereafter filled under the provisions of that section.

2. Court of appeals judges who were last retained in the 2012 or 2014 general elections, or the successors to vacancies left by such judges, shall stand in the 2024 general election, court of appeals judges who were last retained in the 2016 or 2018 general elections, or the successors to vacancies left by such judges, shall stand in the 2026 general election, and court of appeals judges who were last retained in the 2020 or 2022 general elections, or the successors to vacancies left by such judges, shall stand in the 2028 general election. The candidate elected in each such election shall serve for the term prescribed by section 19, and every succeeding six years, a new election shall be held for that judicial office. Court of appeals judges first eligible for retention in the 2024 general election under the immediately prior version of section 25(c)(1), which was effective until the end of thirty days after the election adopting this section, shall stand for election in the 2024 general election. Any seat held by a court of appeals judge who loses a retention election in the 2022 general election shall be treated as vacant on January 1, 2023, and shall thereafter be filled under the provisions of section 25(a). Any law providing for additional court of appeals seats shall specify the first general election at which the seat shall be filled.

3. A supreme court or court of appeals vacancy that opened before the end of thirty days after the election adopting this section but was not yet filled as of that time and date shall be filled by the governor under the provisions of section 25(a).

4. The transition provisions of this section 25(c)(5) shall be severable from the remainder of section 25(a) through (g).

Section 25(c)(6). 1. Elections for the offices of judge of the supreme court and court of appeals shall be partisan elections.

2. All declarations for candidacy for the offices of judge of the supreme court and court of appeals shall be filed in the office of the secretary of state no later than 120 days before the primary election.

3. Political parties shall nominate party candidates for supreme court or court of appeals judge using the same procedures the laws provide for candidates for governor. Additionally, groups of voters may nominate independent candidates. The person so nominated by a group of voters may qualify as an independent candidate in the general election using the same procedures the laws provide for candidates for governor, except that the nominating petition must be signed by at least thirty thousand registered voters in the appellate district, or two percent of the voters who voted in the appellate district in the last election for governor, whichever is less. Notwithstanding the provisions of section 25(d), the governor shall have no power to appoint to any judicial office any person selected by the Appellate Judicial Commission.

4. Unless otherwise provided by law, primary and general elections for the offices of judge of the supreme court and court of appeals shall be held in the same manner as elections for governor. Contests to the results of an election under this section, whether on the basis of qualification, irregularity, or other cause, or for recount other than any automatic recount as may be provided by law, shall be heard and determined in the same manner as contested elections for governor, unless otherwise provided by law.

5. The provisions of this section 25(c)(6) shall be severable from the remainder of section 25(a) through (g).

Section 25(f). No judge of any court in this state, appointed or elected to or retained in office in the manner prescribed in sections 25(a)-(g), shall directly or indirectly make any contribution to or hold any office in a political party or organization, or take part in any political campaign[.] except as provided in sections 25(a)–(g). A judge or judicial candidate may announce his or her views on disputed legal or political issues provided that the judge or judicial candidate does not make pledges or promises to render specific rulings or decisions on pending litigation. Judicial candidates and judges who are judicial candidates shall be allowed to solicit, receive and make campaign contributions, and make and receive the benefit of campaign expenditures for their own campaigns as may be provided by law. Nothing herein shall preclude the application of laws or rules of the supreme court governing judicial participation in specific cases based on a judge's political activity with respect to the subject matter or parties. The provisions of this section 25(f) shall be severable from the remainder of section 25(a) through (g), except that nothing shall prohibit a candidate for the supreme court or court of appeals from making or accepting contributions to or taking part in his or her own political campaign.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (22-016)

Subject

Initiative petition from Chris Vas regarding a proposed constitutional amendment to Article V. (Received March 1, 2021)

Date

March 19, 2021

Description

This proposal would amend Article V of the Missouri Constitution.

The amendment is to be voted on in November 2022.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education and Workforce Development,** the **Department of Health and Senior Services,** the **Department of Commerce and Insurance,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College, St. Louis County Board of Elections, Board of Election Commissioners City of St. Louis, Kansas City Board of Election Commissioners, Platte County Board of Elections, Jackson County Election Board,** and **Clay County Board of Election Commissioners**.

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, they expect that their office could absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may be required to request additional appropriations.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated no impact to their department.

Officials from the **Department of Elementary and Secondary Education** indicated no impact to their department.

Officials from the **Department of Higher Education and Workforce Development** indicated no impact to their department.

Officials from the **Department of Health and Senior Services** indicated this initiative petition has no impact on their department.

Officials from the **Department of Commerce and Insurance** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated no fiscal impact.

Officials from the **Department of Corrections** indicated no fiscal impact.

Officials from the **Department of Labor and Industrial Relations** indicated they anticipate no fiscal impact for this initiative petition proposing to amend Article V.

Officials from the **Department of Revenue** indicated no impact.

Officials from the **Department of Public Safety - Office of the Director** indicated no impact for their department.

Officials from the **Department of Social Services** indicated this will have no fiscal impact for their department.

Officials from the **Governor's office** indicated this proposal should not impact their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact to their office.

Officials from the **Department of Conservation** indicated no adverse fiscal impact to their department would be expected as a result of this proposal.

Officials from the **Department of Transportation** indicated this initiative petition would have no fiscal impact to their department/Missouri Highways and Transportation Commission.

Officials from the **Office of Administration** indicated this proposal should not impact their office.

Officials from the **Office of State Courts Administrator** indicated in reference to this initiative petition, a proposed constitutional amendment to Article V, there may be some impact but there is no way to quantify that currently. Any significant changes will be reflected in future budget requests.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be $7 million based on the cost of the 2020 Presidential Preference Primary.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Funding for this item is adjusted each year depending upon the election cycle. A new decision item is requested in odd numbered fiscal years and the amount requested is dependent upon the estimated number of ballot measures that will be approved by the General Assembly and the initiative petitions certified for the ballot. In fiscal year (FY) 2014, the General Assembly changed the appropriation so that it was no longer an estimated appropriation.

In FY19, over $5.8 million was spent to publish the full text of the measures for the August and November elections. Their office estimates $75,000 per page for the costs of publications based on the actual cost incurred for the one referendum that was on the August 2018 ballot.

Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition will have no fiscal impact on their office.

Officials from the **State Treasurer's office** indicated no impact to their office.

Officials from **Clay County** indicated since this adds to an already existing general election ballot and replaces the former retention procedure for these judges/justices, they see no fiscal impact to their county.

Officials from **Greene County** indicated there are no estimated costs or savings to report from their county for this initiative petition.

Officials from **St. Louis County** indicated the St. Louis County Board of Elections has determined that this initiative petition has no fiscal impact on their county.

Officials from the **City of Kansas City** indicated this proposed constitutional amendment would have no fiscal impact on their city.

Officials from **State Technical College of Missouri** indicated there is no fiscal impact to their college.

Officials from the **Metropolitan Community College** indicated no impact for their college.

Officials from the **St. Louis County Election Board** indicated this petition would not have any fiscal impact on their board.

Officials from the **Platte County Board of Elections** indicated they anticipate no fiscal impact to their board.

The State Auditor's office did not receive a response from **Adair County, Boone County, Callaway County, Cass County, Cole County, Jackson County, Jasper County, St. Charles County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, University of Missouri, St. Louis Community College, Board of Election Commissioners City of St.**

Louis, Kansas City Board of Election Commissioners, Jackson County Election Board, and **Clay County Board of Election Commissioners**.

Fiscal Note Summary

State and local government entities estimate no costs or savings from this proposal.

RE: Petition approval request from Matthew Vitale regarding a proposed statutory amendment to Chapter 407 (2022-015)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Revised Statutes of Missouri filed by Matthew Vitale on February 19, 2021.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

Be it enacted by the people of the State of Missouri:

Chapter 407, RSMo, is amended by adding three new sections, to be known as sections 407.652, 407.653, and 407.654, to read as follows:

407.652

1. For digital electronic equipment, and parts for such equipment, sold or used in the state of Missouri, an original equipment manufacturer shall make available, for purposes of diagnosis, maintenance, or repair, to any independent repair provider, or to the owner of digital electronic equipment manufactured by or on behalf of, or sold by, the original equipment manufacturer, on fair and reasonable terms:

(a) Documentation, parts, and tools, inclusive of any updates to information or embedded software.
(b) Diagnostic and repair information that is provided to an authorized repair provider available to an independent repair provider or owner in the same manner that such information is provided to the authorized repair provider without any additional charge.
(c) Service parts provided to an authorized repair provider available for purchase by an independent repair provider or owner. However, the manufacturer need not make accessible for purchase any service part no longer available to the manufacturer or the authorized repair provider.
(d) Diagnostic repair tools that incorporate the same diagnostic repair capabilities made available to an authorized repair provider available for purchase by an independent repair provider or owner.
(e) Any special documentation, tools, and parts needed to reset an electronic security lock or other security-related function when disabled in the course of diagnosis, maintenance, or repair of the equipment. Such documentation, tools, and parts may be made available through appropriate secure release systems.

2. Any original equipment manufacturer that sells any diagnostic, service, or repair documentation to any independent repair provider or to any owner in a format that is standardized with other original manufacturers, and on terms and conditions more favorable than the manner and the terms and conditions pursuant to which the authorized repair provider obtains the same diagnostic, service, or repair documentation, is prohibited from requiring any authorized repair provider to continue purchasing diagnostic, service, or repair documentation in a proprietary format, unless the proprietary format includes diagnostic, service, or repair documentation or functionality that is not available in such a standardized format.

3. Original equipment manufacturers of digital electronic equipment sold on or after January 1, 2024, in the state of Missouri are prohibited from designing or manufacturing digital electronic equipment in such a way as to prevent reasonable diagnostic or repair functions by an independent repair provider. Preventing reasonable diagnostic or repair functions includes permanently affixing a battery in a manner that makes it difficult or impossible to remove.

407.653

1. Nothing in this Act shall be construed to require an original equipment manufacturer to divulge a trade secret to an owner or an independent service provider except as necessary to provide documentation, parts, and tools on fair and reasonable terms.

2. No provision in this Act shall be construed to alter the terms of any arrangement in force between an authorized repair provider and an original equipment manufacturer, including, but not limited to, the performance or provision of warranty or recall repair work by an authorized repair provider on behalf of an original equipment manufacturer pursuant to such arrangement, except that any provision in such terms that purports to waive, avoid, restrict, or limit the original equipment manufacturer's obligations to comply with this section shall be void and unenforceable.

3. This section shall not require manufacturers or authorized repair providers to provide an owner or independent repair provider access to nondiagnostic and nonrepair information provided by a manufacturer to an authorized repair provider pursuant to the terms of an authorizing agreement.

407.654

1. An independent repair provider or owner that believes that a manufacturer has failed to provide information, including documentation, updates to firmware, safety and security corrections, diagnostics, documentation, or a tool required by this section, shall notify the manufacturer in writing and give the manufacturer thirty days from the time the manufacturer receives the complaint to cure the failure. If the manufacturer cures the complaint within thirty days, damages are limited to actual damages in any subsequent litigation.

2. If the manufacturer fails to respond to the notice provided in subdivision (1) of this subsection or if an independent repair facility or owner is not satisfied with the manufacturer's cure, the independent repair facility or owner may file a complaint in district court. The complaint shall include:

(a) Written information confirming that the complainant attempted to acquire and use, through the then-available standard support function provided by the manufacturer, all relevant diagnostics, tools, service parts, documentation, and updates to embedded software, including communication with customer assistance via the manufacturer's then-standard process, if made available by the manufacturer; and
(b) Evidence of manufacturer notification as required in subdivision (1) of this subsection.

3. The attorney general shall enforce this section. Each violation of this section shall be punishable by a three-thousand-dollar fine, which shall be deposited in the general revenue fund established under section 33.543. This Act applies with respect to equipment sold or in use on or after January 1, 2023.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (22-015)

Subject

Initiative petition from Matthew Vitale regarding a proposed amendment to Chapter 407 of the Revised Statutes of Missouri. (Received February 19, 2021)

Date

March 11, 2021

Description

This proposal would amend Chapter 407 of the Revised Statutes of Missouri.

The amendment is to be voted on in November 2022.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education and Workforce Development,** the **Department of Health and Senior Services,** the **Department of Commerce and Insurance,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri,** and **St. Louis Community College.**

Assumptions

Officials from the **Attorney General's office** indicated Section 407.652 would require that manufacturers make the same diagnostic and repair information available to authorized repair providers available to normal purchasers of products in Missouri. Section 407.654.3 tasks their office with enforcing these provisions. They estimate a cost of approximately $195,536 on an annual basis.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated they anticipate no impact as a result of the proposed petition.

Officials from the **Department of Elementary and Secondary Education** indicated no impact to their department.

Officials from the **Department of Higher Education and Workforce Development** indicated no impact to their department.

Officials from the **Department of Health and Senior Services** indicated this initiative petition has no impact on their department.

Officials from the **Department of Commerce and Insurance** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated this is a non-fiscal impact for their department.

Officials from the **Department of Corrections** indicated no fiscal impact.

Officials from the **Department of Labor and Industrial Relations** indicated the definitions in this initiative petition proposed statutory change are broad enough that it is difficult for their department to estimate whether there would be a cost to their agency.

Officials from the **Department of Revenue** indicated no impact.

Officials from the **Department of Public Safety - Office of the Director** indicated they will defer to the Office of Administration.

Officials from the **Department of Social Services** indicated this initiative petition will have no fiscal impact for their department.

Officials from the **Governor's office** indicated this proposal should not impact their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact to their office.

Officials from the **Department of Conservation** indicated no adverse fiscal impact to their department would be expected as a result of this proposal.

Officials from the **Department of Transportation** indicated this initiative petition would have zero fiscal impact to their department/Missouri Highways and Transportation Commission.

Officials from the **Office of Administration** indicated this proposal should not impact their office. If fines are issued, Total State Revenue will increase a corresponding amount.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be $7 million based on the cost of the 2020 Presidential Preference Primary.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Funding for this item is adjusted each year depending upon the election cycle. A new decision item is requested in odd numbered fiscal years and the amount requested is dependent upon the estimated number of ballot measures that will be approved by the General Assembly and the initiative petitions certified for the ballot. In fiscal year (FY) 2014, the General Assembly changed the appropriation so that it was no longer an estimated appropriation.

In FY19, over $5.8 million was spent to publish the full text of the measures for the August and November elections. Their office estimates $75,000 per page for the costs of publications based on the actual cost incurred for the one referendum that was on the August 2018 ballot.

Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition will not have an effect on their office.

Officials from the **State Treasurer's office** indicated no fiscal impact to their office.

Officials from **Clay County** indicated their county has low dollar volume for digital electronic equipment repairs, as they have tended to replace with new. Those repairs seem to be done by independent contractors anyway. What minor savings they would realize from making such repair information widely available could even potentially be offset by price increases from the manufacturers should this pass. In sum, they see no fiscal impact on their county government from this initiative.

Officials from **Greene County** indicated there are no estimated costs or savings to report from their county for this initiative petition.

Officials from **St. Louis County** indicated they have not been able to determine an impact on their county as the initiative stands.

Officials from the **City of Kansas City** indicated this proposed amendment would have no fiscal impact on their city.

Officials from **State Technical College of Missouri** indicated there is no fiscal impact to their college.

Officials from **University of Missouri** indicated this petition has no obvious fiscal impact to their university.

The State Auditor's office did not receive a response from **Adair County, Boone County, Callaway County, Cass County, Cole County, Jackson County, Jasper County, St. Charles County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, Metropolitan Community College,** and **St. Louis Community College.**

Fiscal Note Summary

State governmental entities estimate no savings and additional costs of approximately $200,000 per year. Local governmental entities estimate no costs or savings.

RE: Petition approval request from Chris Vas regarding a proposed constitutional amendment to Article V (2022-014)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Chris Vas on February 4, 2021.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

NOTICE: You are advised that in addition to the express amendments, repeals, and modifications as set forth below, this proposal may repeal, change or modify by implication, or may be construed by some persons to repeal, change or modify by implication, Article IV, Section 4, Article V, Sections 8, 19, 25(a), 25(c)(1), 25(c)(2), 25(d), 25(e), 25(f), and 25(g), and Article VIII, Section 23 of the Constitution of Missouri.

Be it resolved by the people of the state of Missouri that the Constitution be amended:

To amend Sections 8, 19, 25(a), and 25(f), and enact Sections 1(a), 25(c)(3), 25(c)(4), 25(c)(5), and 25(c)(6) of Article V of the Constitution of Missouri to read as follows:

Section 1(a). 1. Judges of the supreme court and court of appeals shall be elected in elections conducted in the same manner as contested elections for governor.

2. The election of judges derives from the principle that all political power is vested in and derived from the people, and all government of right originates from the people, is founded upon their will only, and is instituted solely for the good of the whole, and further, that all courts of justice shall be open to every person without sale, denial, or delay. Judges shall therefore be accountable to the citizens of this state, this constitution, and the United States Constitution, and not beholden to any particular association or alliance of lawyers, judges, or interest groups. To accomplish this purpose, as set forth in sections 25(a) through (g), judges of the supreme court and court of appeals shall henceforth stand for election, and shall no longer be selected by the governor from nominations made by commissions of lawyers, judges, and the governor's chosen appointees. Voters in most circuits shall continue to have the ability to choose the method by which circuit and associate circuit judges are selected. Section 1(a) and sections 25(a) through (g) shall be known as the "Missouri Plan for Judicial Fairness and Accountability."

Section 8. [The judges of the supreme court shall elect from their number a] The chief justice [to] shall preside over the supreme court en banc, and the judges of the court of appeals in each district shall elect from their number a chief judge of the district. The terms of the [chief justice and] chief judges shall be fixed by the courts over which they preside. The chief justice of the supreme court shall be the chief administrative officer of the judicial system and, subject to the supervisory authority of the supreme court, shall supervise the administration of the courts of this state.

Section 19. Judges of the supreme court, including the chief justice, and judges and of the court of appeals shall be selected for terms of [twelve] six years, judges of the circuit courts for terms of six years, and associate circuit judges for terms of four years. No supreme court judge, supreme court chief justice, or court of appeals judge shall be elected to a particular judicial seat for more than two consecutive terms.

Section 25(a). Whenever a vacancy shall occur in the office of [judge of any of the following courts of this state, to wit: The supreme court, the court of appeals, or in the office of] circuit or associate circuit judge within the city of St. Louis and Jackson County, the governor shall fill such vacancy by appointing one of three persons possessing the qualifications for such office, who shall be nominated and whose names shall be submitted to the governor by a nonpartisan judicial commission established and organized as hereinafter provided. If the governor fails to appoint any of the nominees within sixty days after the list of nominees is submitted, the nonpartisan judicial commission making the nomination shall appoint one of the nominees to fill the vacancy. Whenever a vacancy shall occur in the office of judge of the supreme court, supreme court chief justice, or judge of the court of appeals, it shall be promptly filled under article 4, section 4 of this constitution and such appointee shall hold office for the remainder of the vacating judge's term.

Section 25(c)(1). Each judge appointed to the office of circuit or associate circuit judge pursuant to the provisions of sections 25(a)-(g) shall hold office for a term ending December thirty-first following the next general election after the expiration of twelve months in the office. Any circuit or associate circuit judge holding office, or elected thereto, at the time of the election by which the provisions of sections 25(a)-(g) become applicable to his office, shall, unless removed for cause, remain in office for the term to which he would have been entitled had the provisions of sections 25(a)-(g) not become applicable to his office. Not less than sixty days prior to the holding of the general election next preceding the expiration of his term of office, any circuit or associate circuit judge whose office is subject to the provisions of sections 25(a)-(g) may file in the office of the secretary of state a declaration of candidacy for election to succeed himself. If a declaration is not so filed [by any judge], the vacancy resulting from the expiration of his term of office shall be filled by appointment as herein provided. If such declaration is filed, his name shall be submitted at said next general election to the voters eligible to vote [within the state if his office is that of judge of the supreme court, or within the geographic jurisdiction limit of the district where he serves if his office is that of a judge of the court of appeals, or] within the circuit if his office is that of circuit judge, or within the county if his office is that of associate circuit judge on a separate judicial ballot, without party designation, reading:

"Shall Judge .....

(Here the name of the judge shall be inserted) of the .....

(Here the title of the court shall be inserted) be retained in office? Yes No

(Mark an "X" in the box you prefer.)" If a majority of those voting on the question vote against retaining him in office, upon the expiration of his term of office, a vacancy shall exist which shall be filled by appointment as provided in section 25(a); otherwise, said judge shall, unless removed for cause, remain in office for the number of years after December thirty-first following such election as is provided for the full term of such office, and at the expiration of each such term shall be eligible for retention in office by election in the manner here prescribed.

Section 25(c)(3). Judges of the court of appeals and supreme court shall be elected at the general election by the voters eligible to vote within the appellate district of the seat being elected as set forth in sections 25(c)(4) and 25(c)(5). Except as set forth in section 25(a), they shall hold office for a term expiring December thirty-first in the sixth year after their election. The provisions of sections 25(c)(1) and 25(c)(2) shall not apply to court of appeals or supreme court judges.

Section 25(c)(4). Supreme court judges shall be elected as follows. If the general assembly has provided by law for three appellate districts, a chief justice shall be elected at large and two supreme court judges shall be elected from each court of appeals district by the voters eligible to vote within that district, but if greater than three court of appeals districts are established or the geographical boundaries of the districts change such that the following divisions cannot be made, then elections for supreme court judges other than the chief justice shall be as established by law, or if no law timely establishes procedures for such elections, then elections for all supreme court seats shall be at large. Seats E1 and E2 shall be elected from the court of appeals district which includes the City of St. Louis. Seats S1 and S2 shall be elected from the court of appeals district which includes the City of

Springfield. Seats W1 and W2 shall be elected from the court of appeals district which includes the City of Kansas City. Seat CJ, the seat of the chief judge, shall be elected at large. Seats E1 and S1 shall be known as "Class 1" and elected in 2024 and every sixth successive year. Seats W1 and E2 shall be known as "Class 2" and elected in 2026 and every sixth successive year. Seats S2, W2, and the chief justice's at-large seat, CJ, shall be known as "Class 3" and elected in 2028 and every sixth successive year. A supreme court judge shall be a resident of the appellate district from which he or she is elected no later than the day of his or her election.

Section 25(c)(5). The following transition provisions shall apply: 1. Those supreme court judges holding office as of 5:00 p.m. on December 3, 2020, shall not be required to reside in any particular appellate district but on that date shall nonetheless be assigned the following seat designations for purposes of implementing elections and filling vacancies. The seat designations shall be assigned in the following order: CJ, W2, S2, E2, W1, S1, E1. First, beginning with Seat CJ, seats will be assigned to judges who have been retained by voters, starting with the judge most recently retained by voters. For judges retained at the same time, the judge having served the least time on the supreme court shall be assigned first. After all judges who have been retained have been assigned seats, judges who have been appointed shall be assigned, with judges most recently appointed to be assigned first. If all judges who have been retained or appointed have been assigned seats, and it appears that one or more supreme court seats was vacated on or before December 8, 2022, but remained unfilled by the end of that date, these vacancies will be immediately assigned a class and seat, using the order set forth in this section until all seats through Seat E1 are filled, and in assigning seat designations to vacancies, vacancies created by a judge whose last name is first in alphabetical order will have precedence. A seat held by any judge who lost a retention election in the 2022 general election shall be treated as vacant solely for purposes of assigning a class and seat under this transition provision, even though the judge shall hold office until December 31, 2022, and the seat shall be treated as vacant for purposes of section 25(a) on January 1, 2023, and thereafter filled under the provisions of that section.

2. Court of appeals judges who were last retained in the 2012 or 2014 general elections, or the successors to vacancies left by such judges, shall stand in the 2024 general election, court of appeals judges who were last retained in the 2016 or 2018 general elections, or the successors to vacancies left by such judges, shall stand in the 2026 general election, and court of appeals judges who were last retained in the 2020 or 2022 general elections, or the successors to vacancies left by such judges, shall stand in the 2028 general election. The candidate elected in each such election shall serve for the term prescribed by section 19, and every succeeding six years, a new election shall be held for that judicial office. Court of appeals judges first eligible for retention in the 2024 general election under the immediately prior version of section 25(c)(1), which was effective until the end of thirty days after the election adopting this section, shall stand for election in the 2024 general election. Any seat held by a court of appeals judge who loses a retention election in the 2022 general election shall be treated as vacant on January 1, 2023, and shall thereafter be filled under the provisions of section 25(a). Any law providing for additional court of appeals seats shall specify the first general election at which the seat shall be filled.

3. A supreme court or court of appeals vacancy that opened before the end of thirty days after the election adopting this section but was not yet filled as of that time and date shall be filled by the governor under the provisions of section 25(a).

4. The transition provisions of this section 25(c)(5) shall be severable from the remainder of section 25(a) through (g).

Section 25(c)(6). 1. Elections for the offices of judge of the supreme court and court of appeals shall be partisan elections.

2. All declarations for candidacy for the offices of judge of the supreme court and court of appeals shall be filed in the office of the secretary of state no later than 120 days before the primary election.

3. Political parties shall nominate party candidates for supreme court or court of appeals judge using the same procedures the laws provide for candidates for governor. Additionally, groups of voters may nominate independent candidates. The person so nominated by a group of voters may qualify as an independent candidate in the general election using the same procedures the laws provide for candidates for governor, except that the nominating petition must be signed by at least thirty thousand registered voters in the appellate district, or two percent of the voters who voted in the appellate district in the last election for governor, whichever is less. Notwithstanding the provisions of section 25(d), the governor shall have no power to appoint to any judicial office any person selected by the Appellate Judicial Commission.

4. Unless otherwise provided by law, primary and general elections for the offices of judge of the supreme court and court of appeals shall be held in the same manner as elections for governor. Contests to the results of an election under this section, whether on the basis of qualification, irregularity, or other cause, or for recount other than any automatic recount as may be provided by law, shall be heard and determined in the same manner as contested elections for governor, unless otherwise provided by law.

5. The provisions of this section 25(c)(6) shall be severable from the remainder of section 25(a) through (g).

Section 25(f). No judge of any court in this state, appointed or elected to or retained in office in the manner prescribed in sections 25(a)-(g), shall directly or indirectly make any contribution to or hold any office in a political party or organization, or take part in any political campaign[.] except as provided in sections 25(a)–(g). A judge or judicial candidate may announce his or her views on disputed legal or political issues provided that the judge or judicial candidate does not make pledges or promises to render specific rulings or decisions on pending litigation. Judicial candidates and judges who are judicial candidates shall be allowed to solicit, receive and make campaign contributions, and make and receive the benefit of campaign expenditures for their own campaigns as may be provided by law. Nothing herein shall preclude the application of laws or rules of the supreme court governing judicial participation in specific cases based on a judge's political activity with respect to the subject matter or parties. The provisions of this section 25(f) shall be severable from the remainder of section 25(a) through (g), except that nothing shall prohibit a candidate for the supreme court or court of appeals from making or accepting contributions to or taking part in his or her own political campaign.

Be it enacted by the people of the State of Missouri:

Chapter 407, RSMo, is amended by adding three new sections, to be known as sections 407.652, 407.653, and 407.654, to read as follows:

407.652

1. For digital electronic equipment, and parts for such equipment, sold or used in the state of Missouri, an original equipment manufacturer shall make available, for purposes of diagnosis, maintenance, or repair, to any independent repair provider, or to the owner of digital electronic equipment manufactured by or on behalf of, or sold by, the original equipment manufacturer, on fair and reasonable terms:

(a) Documentation, parts, and tools, inclusive of any updates to information or embedded software.
(b) Diagnostic and repair information that is provided to an authorized repair provider available to an independent repair provider or owner in the same manner that such information is provided to the authorized repair provider without any additional charge.
(c) Service parts provided to an authorized repair provider available for purchase by an independent repair provider or owner. However, the manufacturer need not make accessible for purchase any service part no longer available to the manufacturer or the authorized repair provider.
(d) Diagnostic repair tools that incorporate the same diagnostic repair capabilities made available to an authorized repair provider available for purchase by an independent repair provider or owner.
(e) Any special documentation, tools, and parts needed to reset an electronic security lock or other security-related function when disabled in the course of diagnosis, maintenance, or repair of the equipment. Such documentation, tools, and parts may be made available through appropriate secure release systems.

2. Any original equipment manufacturer that sells any diagnostic, service, or repair documentation to any independent repair provider or to any owner in a format that is standardized with other original manufacturers, and on terms and conditions more favorable than the manner and the terms and conditions pursuant to which the authorized repair provider obtains the same diagnostic, service, or repair documentation, is prohibited from requiring any authorized repair provider to continue purchasing diagnostic, service, or repair documentation in a proprietary format, unless the proprietary format includes diagnostic, service, or repair documentation or functionality that is not available in such a standardized format.

3. Original equipment manufacturers of digital electronic equipment sold on or after January 1, 2024, in the state of Missouri are prohibited from designing or manufacturing digital electronic equipment in such a way as to prevent reasonable diagnostic or repair functions by an independent repair provider. Preventing reasonable diagnostic or repair functions includes permanently affixing a battery in a manner that makes it difficult or impossible to remove.

407.653

1. Nothing in this Act shall be construed to require an original equipment manufacturer to divulge a trade secret to an owner or an independent service provider except as necessary to provide documentation, parts, and tools on fair and reasonable terms.

2. No provision in this Act shall be construed to alter the terms of any arrangement in force between an authorized repair provider and an original equipment manufacturer, including, but not limited to, the performance or provision of warranty or recall repair work by an authorized repair provider on behalf of an original equipment manufacturer pursuant to such arrangement, except that any provision in such terms that purports to waive, avoid, restrict, or limit the original equipment manufacturer's obligations to comply with this section shall be void and unenforceable.

3. This section shall not require manufacturers or authorized repair providers to provide an owner or independent repair provider access to nondiagnostic and nonrepair information provided by a manufacturer to an authorized repair provider pursuant to the terms of an authorizing agreement.

407.654

1. An independent repair provider or owner that believes that a manufacturer has failed to provide information, including documentation, updates to firmware, safety and security corrections, diagnostics, documentation, or a tool required by this section, shall notify the manufacturer in writing and give the manufacturer thirty days from the time the manufacturer receives the complaint to cure the failure. If the manufacturer cures the complaint within thirty days, damages are limited to actual damages in any subsequent litigation.

2. If the manufacturer fails to respond to the notice provided in subdivision (1) of this subsection or if an independent repair facility or owner is not satisfied with the manufacturer's cure, the independent repair facility or owner may file a complaint in district court. The complaint shall include:

(a) Written information confirming that the complainant attempted to acquire and use, through the then-available standard support function provided by the manufacturer, all relevant diagnostics, tools, service parts, documentation, and updates to embedded software, including communication with customer assistance via the manufacturer's then-standard process, if made available by the manufacturer; and
(b) Evidence of manufacturer notification as required in subdivision (1) of this subsection.

3. The attorney general shall enforce this section. Each violation of this section shall be punishable by a three-thousand-dollar fine, which shall be deposited in the general revenue fund established under section 33.543. This Act applies with respect to equipment sold or in use on or after January 1, 2023.

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Article XII is amended by adding and adopting one new section to be known as Section 2(c).

Section 2(c). Any amendment adopted or section added and adopted to this Constitution by ballot affirmation of the voters of the State of Missouri through a voter petition amendment process shall only be amended or repealed in same manner as was performed to ratify such amendment or section.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (22-012)

Subject

Initiative petition from Ryan Meyer regarding a proposed constitutional amendment to Article XII. (Received January 19, 2021)

Date

February 8, 2021

Description

This proposal would amend Article XII of the Missouri Constitution.

The amendment is to be voted on in November, 2022.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education and Workforce Development,** the **Department of Health and Senior Services,** the **Department of Commerce and Insurance,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri,** and **St. Louis Community College.**

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, they expect that they could absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may be required to request additional appropriations.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated no impact to their department.

Officials from the **Department of Elementary and Secondary Education** indicated no impact to their department.

Officials from the **Department of Higher Education and Workforce Development** indicated no impact to their department.

Officials from the **Department of Health and Senior Services** indicated this initiative petition has no impact on their department.

Officials from the **Department of Commerce and Insurance** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no fiscal impact.

Officials from the **Department of Labor and Industrial Relations** indicated they anticipate no fiscal impact for this initiative petition.

Officials from the **Department of Revenue** indicated no impact.

Officials from the **Department of Public Safety - Office of the Director** indicated no impact for their department.

Officials from the **Department of Social Services** indicated this will have no fiscal impact for their department.

Officials from the **Governor's office** indicated this proposal should not impact their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact.

Officials from the **Department of Conservation** indicated no adverse fiscal impact to their department would be expected as a result of this proposal.

Officials from the **Department of Transportation** indicated this initiative petition is projected to have no fiscal impact to their department/Missouri Highways and Transportation Commission.

Officials from the **Office of Administration** indicated this proposal should not impact their office.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be $7 million based on the cost of the 2020 Presidential Preference Primary.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Funding for this item is adjusted each year depending upon the election cycle. A new decision item is requested in odd numbered fiscal years and the amount requested is dependent upon the estimated number of ballot measures that will be approved by the General Assembly and the initiative petitions certified for the ballot. In fiscal year (FY) 2014, the General Assembly changed the appropriation so that it was no longer an estimated appropriation.

In FY19, over $5.8 million was spent to publish the full text of the measures for the August and November elections. Their office estimates $75,000 per page for the costs of publications based on the actual cost incurred for the one referendum that was on the August 2018 ballot.

Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of

their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition will have no effect on their budget.

Officials from the **State Treasurer's office** indicated no fiscal impact to their office.

Officials from **Clay County** indicated this amendment on its own has no effect on the county's finances.

Officials from **Greene County** indicated there are no estimated costs or savings to report from their county for this initiative petition.

Officials from **Jackson County** indicated there is no fiscal impact to their county.

Officials from **St. Louis County** indicated the fiscal impact, if any, is too remote or indirect to calculate.

Officials from the **City of Kansas City** indicated this initiative petition has no fiscal impact on their city.

Officials from **State Technical College of Missouri** indicated there is no fiscal impact to their college.

Officials from **Metropolitan Community College** indicated no fiscal impact.

The State Auditor's office did not receive a response from **Adair County, Boone County, Callaway County, Cass County, Cole County, Jasper County, St. Charles County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, University of Missouri,** and **St. Louis Community College.**

Fiscal Note Summary

State and local governmental entities estimate no costs or savings from this proposal.

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Article I is amended by adding and adopting one new section to be known as Section 36.

Section 36. The jury or judge as the trier of the facts in civil actions or torts shall not be limited in their judgment to award a claimant with standing any and all damages that the jury or judge that renders judgement may deem fair and just. Nor shall the trier of the facts be limited in factors to be considered in calculation of damages, including but not limited to any such factors as pain, suffering, grief, or bereavement.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (22-011)

Subject

Initiative petition from Ryan Meyer regarding a proposed constitutional amendment to Article I. (Received January 19, 2021)

Date

February 8, 2021

Description

This proposal would amend Article I of the Missouri Constitution.

The amendment is to be voted on in November 2022.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education and Workforce Development,** the **Department of Health and Senior Services,** the **Department of Commerce and Insurance,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri,** and **St. Louis Community College**.

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, they expect that their office could absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may be required to request additional appropriations.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated no impact to their department.

Officials from the **Department of Elementary and Secondary Education** indicated no impact to their department.

Officials from the **Department of Higher Education and Workforce Development** indicated no impact to their department.

Officials from the **Department of Health and Senior Services** indicated this initiative petition has no impact to their department.

Officials from the **Department of Commerce and Insurance** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated this proposal to remove damage caps and criteria in civil litigation could likely have a significant impact on their department over time, due to their department's high rate of involvement in those proceedings, which could potentially result in higher awards. The extent of the impact is therefore unknown.

Officials from the **Department of Labor and Industrial Relations** indicated this proposed amendment to the Missouri Constitution appears to remove any consideration of caps or limits enacted in state law on civil lawsuits damages. This would have an unknown but potentially substantial cost to small businesses and all state agencies and political subdivisions in any future litigation.

Officials from the **Department of Revenue** indicated no impact.

Officials from the **Department of Public Safety - Office of the Director** indicated no impact for their department.

Officials from the **Department of Social Services** indicated this will have no fiscal impact for their department.

Officials from the **Governor's office** indicated this proposal should not impact their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact.

Officials from the **Department of Conservation** indicated no adverse fiscal impact to their department would be expected as a result of the proposal.

Officials from the **Department of Transportation** indicated this initiative petition is not projected to have a fiscal impact to their department/Missouri Highways and Transportation Commission.

Officials from the **Office of Administration** indicated this proposal should not impact their office.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be $7 million based on the cost of the 2020 Presidential Preference Primary.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Funding for this item is adjusted each year depending upon the election cycle. A new decision item is requested in odd numbered fiscal years and the amount requested is dependent upon the estimated number of ballot measures that will be approved by the General Assembly and the initiative petitions certified for the ballot. In fiscal year (FY) 2014, the General Assembly changed the appropriation so that it was no longer an estimated appropriation.

In FY19, over $5.8 million was spent to publish the full text of the measures for the August and November elections. Their office estimates $75,000 per page for the costs of

publications based on the actual cost incurred for the one referendum that was on the August 2018 ballot.

Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition will have no effect on their budget.

Officials from the **State Treasurer's office** indicated no fiscal impact to their office.

Officials from **Clay County** indicated this has no impact to their county. They have commercial liability insurance and the likelihood of a civil tort or malpractice suit against their county appears unlikely.

Officials from **Greene County** indicated there are no estimated costs or savings to report from their county for this initiative petition. It is anticipated if and when a plaintiff in a civil action or tort case prevails there will be a cost for their county. However, there is no data currently that represents an average cost for a judgement that can be used to project an estimated cost.

Officials from **Jackson County** indicated no fiscal impact to their county.

Officials from **St. Louis County** indicated the fiscal impact is immeasurable and could be catastrophic. It removes damages caps in lawsuits and removes limitations in the factors a judge or jury can consider.

Officials from the **City of Kansas City** indicated this initiative petition would have a large and significant negative fiscal impact on their city. Currently, the amount Kansas City owes on judgments is capped by statute. This amendment would remove those caps.

Officials from **State Technical College of Missouri** indicated there is no fiscal impact to their college.

Officials from **Metropolitan Community College** indicated the fiscal impact is unknown. If the jury or judge is not limited in their judgement to award damages, they would have no way of knowing what that cost could be.

The State Auditor's office did not receive a response from **Adair County, Boone County, Callaway County, Cass County, Cole County, Jasper County, St. Charles County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City**

of Union, the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, University of Missouri,** and **St. Louis Community College**.

Fiscal Note Summary

State and local governmental entities estimate no savings and possible costs of an unknown amount that could be significant.

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Article I is amended by adding and adopting six new sections to be known as Sections 29(a), 29(b), 29(c), 29(d), 29(e), and 29(f)..

Section 29(a). For purposes of collective bargaining in this Constitution, the term "employees" shall be defined as any two or more persons selling their labor who choose to bargain collectively with the same purchaser of labor. For purposes of collective bargaining in this Constitution, the term "employer" shall be defined as a purchaser of labor rendered by employees.

Section 29(b). The right of employees and employers to collectively bargain shall be absolute. All employees shall be entitled to this absolute right regardless of the manner in which they sell their labor whether public, private, or otherwise. No act or statute shall have authority to restrict, restrain, or otherwise affect or interfere with any collective bargaining agreement, contract, or covenant. No act or statute shall have authority to restrict, restrain, or otherwise affect or interfere with the method, means, or process of deliberation or certification of any collective bargaining agreement, contract, or covenant. No act or statute shall have authority to restrict, restrain, or otherwise affect or interfere with any union security agreement of any collective bargaining agreement, contract, or covenant. No act or statute shall have authority to restrict, restrain, or otherwise affect or interfere with the exercise of said right by any employee or employer in the production of any crop, any livestock, any good, or any service.

Section 29(c). In order to ensure the freedom of speech or effectiveness otherwise of employees' bargaining representative or representative organization, and in the event federal law, regulation, or court order preventing the full collection of dues or other means of compensation, the bargaining representative or organization may condition full collection of dues or other means of compensation directly from the employer within the bargained agreement, contract, or covenant, regardless of public or private nature of the employer.

Section 29(d). The right of employees to strike shall be absolute. In order to preserve the public welfare, the legislature may pass reasonable legislation to ensure continuity of service for electricity, water, and heat.

Section 29(e). Nothing in Sections 29, 29(a), 29(b), 29(c), 29(d), 29(e), and 29(f) of Article I of this Constitution shall be interpreted to conflict with the law or Constitution of the United States or rulings of any United States court of competent jurisdiction over the state of Missouri.

Section 29(f). No section hereunder shall affect the validity or enforcement of any contract in effect or duly ratified at the time of adoption of Sections 29, 29(a), 29(b), 29(c), 29(d), 29(e), and 29(f).

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (22-010)

Subject

Initiative petition from Ryan Meyer regarding a proposed constitutional amendment to Article I. (Received January 19, 2021)

Date

February 8, 2021

Description

This proposal would amend Article I of the Missouri Constitution.

The amendment is to be voted on in November 2022.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education and Workforce Development,** the **Department of Health and Senior Services,** the **Department of Commerce and Insurance,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College,** the **Kansas City Board of Police Commissioners,** the **Metropolitan Police Department - City of St. Louis, University of Central Missouri, Harris-Stowe State University, Lincoln University, Missouri State University, Missouri Southern State University, Missouri Western State University, Northwest**

Missouri State University, Southeast Missouri State University, and **Truman State University**.

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, they expect that their office could absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may be required to request additional appropriations.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated no impact to their department.

Officials from the **Department of Elementary and Secondary Education** indicated no impact to their department.

Officials from the **Department of Higher Education and Workforce Development** indicated no fiscal impact to their department.

Officials from the **Department of Health and Senior Services** indicated this initiative petition has no impact to their department.

Officials from the **Department of Commerce and Insurance** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated Section 29(d) will significantly impact the operations of the correctional facilities. Section 105.585 currently requires any labor agreement negotiated with a public body prohibit strikes and picketing of any kind, which may conflict with this proposal. If this section passes, their department would have to restrict all operations within prisons to ensure the safety of staff, offenders, and the institution as a whole. It is unknown what the fiscal impact could be at this time.

The restrictions to operations within prisons would be only during a strike/picketing situation.

The nature of restrictions would likely be restricted to no offender movement within the facility due to staffing shortage generated by a strike. This would impact food service,

medical, programming, etc. Any potential impact would largely be driven by the duration of the restrictions. Potential fiscal impacts could be anything from needing to contract for food service operations to temporary staffing costs to outside healthcare costs. Those costs are unknown.

Officials from the **Department of Labor and Industrial Relations** indicated the State Board of Mediation (SBM) identifies who is considered a public employee for purposes of creating a bargaining unit and administers procedures for certifying the bargaining unit pursuant to sections 105.500 – 105.598. The proposed amendment specifies that no statute can restrict or interfere with the method, means, or process of deliberation or certification of any collective bargaining agreement. In essence, the SBM was created to facilitate the deliberations and certifications of bargaining unit agreements. Thus, the proposed amendment to the constitution would effectively remove much of the SBM's purpose and authority.

Also, in *Janus v. Am. Fed'n of State, Cty., & Mun. Employees, Council 31*, the U.S. Supreme Court held that it was unconstitutional for non-union members to be forced to pay agency fees. 138 S. Ct. 2448, 201 L. Ed. 2d 924 (2018). The proposed amendment allows the union to "condition full collection of dues or other means of compensation directly from the employer[.]" This provision may be considered unconstitutional according to the *Janus* case in that it may be interpreted as allowing a union to collect fees from employees who do not wish to be represented by the union. However, the proposed amendment does contain a provision specifying that there would be deference to federal court opinions and federal law. Read in harmony, federal courts would be instructed to interpret this language in compliance with the *Janus* case.

Furthermore, certain statutory provisions would likely be deemed unconstitutional by the enactment of the proposed change. For example, section 105.858 specifies the terms to be included in public sector bargaining agreements (the injunction of this provision, as part of HB 1413, is currently pending before the Missouri Supreme Court).

The fiscal impact to their department/State Board of Mediation would be minimal.

Officials from the **Department of Revenue** indicated no impact.

Officials from the **Department of Public Safety - Office of the Director** indicated no impact for their department.

Officials from the **Department of Social Services** indicated this will have no fiscal impact for their department.

Officials from the **Governor's office** indicated this proposal should not impact their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact.

Officials from the **Department of Conservation** indicated no adverse fiscal impact to their department would be expected as a result of the proposal.

Officials from the **Department of Transportation** indicated this initiative petition is projected to have no fiscal impact on their department/Missouri Highways and Transportation Commission.

Officials from the **Office of Administration** indicated this proposal should not impact their office.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be $7 million based on the cost of the 2020 Presidential Preference Primary.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Funding for this item is adjusted each year depending upon the election cycle. A new decision item is requested in odd numbered fiscal years and the amount requested is dependent upon the estimated number of ballot measures that will be approved by the General Assembly and the initiative petitions certified for the ballot. In fiscal year (FY) 2014, the General Assembly changed the appropriation so that it was no longer an estimated appropriation.

In FY19, over $5.8 million was spent to publish the full text of the measures for the August and November elections. Their office estimates $75,000 per page for the costs of publications based on the actual cost incurred for the one referendum that was on the August 2018 ballot.

Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition will have no effect on their budget.

Officials from the **State Treasurer's office** indicated no fiscal impact to their office.

Officials from **Clay County** indicated since the county currently has no collective bargaining agreements with its employees, this would have no fiscal impact on their county - no costs or savings.

Officials from **Greene County** indicated there are no estimated costs or savings to report from their county for this initiative petition.

Officials from **Jackson County** indicated no fiscal impact to their county as the county already has collective bargaining agreements with members of its workforce.

Officials from **St. Louis County** indicated the fiscal impact would be indirect - the costs related to paying overtime and for temporary employees if employees go on strike. Currently, public employees are prohibited from striking.

Officials from the **City of Kansas City** indicated 29(c) in this initiative petition could have a negative fiscal impact on their city because it requires the employer to pay a full collection of dues to the union. This provision appears to require the employer to pay the union the member's amount of dues regardless of whether the member has granted approval for a deduction of such dues from such member's paycheck.

Officials from the **City of St. Louis** indicated **t**he City of St. Louis Department of Personnel is unable to determine if there is any potential fiscal impact of this proposed legislation because of the language in the proposal.

The City of St. Louis – Police Division does not supervise pay and benefit negotiations. However, providing police employees the right to strike would significantly increase the negotiating power for current members of bargaining units as well as expand the pool of employees eligible for union representation to include managerial employees. While existing union contracts in effect at passage would be honored, in the future there would be a cost for their city's management to have a no strike clause included in labor agreements. Section 29C suggests that if federal law states that employees in a bargaining class don't want to join the union that the employer would have to pick up the cost of "fair share" dues. This might cost $50,000 per year.

Officials from **State Technical College of Missouri** indicated there is no fiscal impact to their college.

Officials from **Metropolitan Community College** indicated fiscal impact unknown. If they are reading it correctly, in 29C the cost of collective bargaining is paid by the employer. With 872 employees they have no way of knowing what something like that might cost.

Officials from **University of Missouri** indicated in the event that this proposed statute were interpreted to apply to the university, it is not possible to identify a significant fiscal impact at this time.

Officials from **University of Central Missouri** indicated there is potential for a negative fiscal impact. However, it is not possible to determine at this time. One area of consideration is the provision that states all employees. In their case, that would be the existing bargaining unit, all faculty, and all staff would have the right to collectively bargain.

Additionally, the provision allows the right to strike. In their case, that would be substantially impactful as they are a residential community. If employees strike, there is an unknown fiscal implication to that element alone.

The State Auditor's office did not receive a response from **Adair County, Boone County, Callaway County, Cass County, Cole County, Jasper County, St. Charles County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, St. Louis Community College,** the **Kansas City Board of Police Commissioners,** the **Metropolitan Police Department - City of St. Louis, Harris-Stowe State University, Lincoln University, Missouri State University, Missouri Southern State University, Missouri Western State University, Northwest Missouri State University, Southeast Missouri State University,** and **Truman State University**.

Fiscal Note Summary

Local governmental entities estimate no savings and possible costs of an unknown amount totaling at least $50,000. State governmental entities estimate no costs or savings.

RE: Petition approval request from Matt Vitale regarding a proposed statutory amendment to Chapter 407 (2022-009)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Revised Statutes of Missouri filed by Matt Vitale on January 12, 2021.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

Be it enacted by the people of the State of Missouri:

Chapter 407, RSMo, is amended by adding four new sections, to be known as sections 407.652, 407.653, 407.654, and 407.655, to read as follows:

407.652

(a) "Authorized repair provider" means an individual or business who is unaffiliated with an original equipment manufacturer and who has an arrangement with the original equipment manufacturer, for a definite or indefinite period, under which the original equipment manufacturer grants to the individual or business a license to use a trade name, service mark, or other proprietary identifier for the purposes of offering the services of diagnosis, maintenance, or repair of digital electronic equipment under the name of the original equipment manufacturer, or other arrangement with the original equipment manufacturer to offer such services on behalf of the original equipment manufacturer. An original equipment manufacturer who offers the services of diagnosis, maintenance, or repair of its own digital electronic equipment, and who does not have an arrangement described in this subsection with an unaffiliated individual or business, shall be considered an authorized repair provider with respect to such equipment.
(b) "Digital electronic equipment" or "equipment" means any product that depends for its functioning, in whole or in part, on digital electronics embedded in or attached to the product.
(c) "Diagnostic and repair information" means any information provided to an authorized repair provider by the manufacturer of digital electronic equipment for the purposes of diagnosis, service, maintenance, or repair of the digital electronic equipment. "Diagnostic and repair information" includes manuals, diagrams, reporting output, service code descriptions, repair technical updates, diagnostic software, service access passwords, updates and corrections to firmware, security patches, and any related information or documentation.
(d) "Documentation" means any manual, diagram, reporting output, service code description, schematic diagram, or similar kinds of information provided to an authorized repair provider for purposes of its affecting the services of diagnosis, maintenance, or repair of digital electronic equipment.
(e) "Embedded software" means any programmable instructions provided on firmware delivered with digital electronic equipment, or with a part for such equipment, for purposes of equipment operation, including all relevant patches and fixes made by the manufacturer of such equipment or part for these purposes.
(f) "Fair and reasonable terms" means at costs and terms, including convenience of delivery, and including rights of use, equivalent to what is offered by the original equipment manufacturer to an authorized repair provider, using the net costs that would be incurred by an authorized repair provider in obtaining an equivalent part or tool or documentation from the original equipment manufacturer, accounting for any discounts, rebates, or other incentive programs in arriving at the actual net costs. For documentation, including any relevant updates, 'fair and reasonable terms' means at no charge, except that, when the documentation is requested in physical printed form, a charge may be included for the reasonable actual costs of preparing and sending the copy.
(g) "Independent repair provider" means an individual or business operating in this State, who does not have an arrangement described in subsection (a) with an original equipment manufacturer, and who is not affiliated with any individual or business who has such an arrangement, and who is engaged in the services of diagnosis, maintenance, or repair of digital electronic equipment, except that an original equipment manufacturer or, with respect to that original equipment manufacturer, an individual or business who has such an arrangement with that original equipment manufacturer, or who is affiliated with an individual or business who has such an arrangement with that original equipment manufacturer, shall be considered an independent repair provider for purposes of those instances in which it engages in the services of diagnosis, maintenance, or repair of digital electronic equipment that is not manufactured by or sold under the name of that original equipment manufacturer.
(h) "Original equipment manufacturer" means a business engaged in the business of selling or leasing new digital electronic equipment manufactured by or on behalf of itself, to any individual or business.
(i) "Owner" means an individual or business who owns or leases digital electronic equipment purchased or used in this State.
(j) "Part" means any replacement part, either new or used, made available by an original equipment manufacturer for purposes of effecting the services of maintenance or repair of digital electronic equipment manufactured or sold by the original equipment manufacturer.
(k) "Trade secret" means any "trade secret" as that term is defined under paragraph (3) of 18 U.S.C. 52 Section 1839.

407.653

1. For digital electronic equipment, and parts for such equipment, sold or used in the state of Missouri, an original equipment manufacturer shall make available, for purposes of diagnosis, maintenance, or repair, to any independent repair provider, or to the owner of digital electronic equipment manufactured by or on behalf of, or sold by, the original equipment manufacturer, on fair and reasonable terms:

(a) Documentation, parts, and tools, inclusive of any updates to information or embedded software.
(b) Diagnostic and repair information that is provided to an authorized repair provider available to an independent repair provider or owner in the same manner that such information is provided to the authorized repair provider without any additional charge.
(c) Service parts provided to an authorized repair provider available for purchase by an independent repair provider or owner. However, the manufacturer need not make accessible for purchase any service part no longer available to the manufacturer or the authorized repair provider.
(d) Diagnostic repair tools that incorporate the same diagnostic repair capabilities made available to an authorized repair provider available for purchase by an independent repair provider or owner.
(e) Any special documentation, tools, and parts needed to reset an electronic security lock or other security-related function when disabled in the course of diagnosis, maintenance, or repair of the equipment. Such documentation, tools, and parts may be made available through appropriate secure release systems.

2. Any original equipment manufacturer that sells any diagnostic, service, or repair documentation to any independent repair provider or to any owner in a format that is standardized with other original manufacturers, and on terms and conditions more favorable than the manner and the terms and conditions pursuant to which the authorized repair provider obtains the same diagnostic, service, or repair documentation, is prohibited from requiring any authorized repair provider to continue purchasing diagnostic, service, or repair documentation in a proprietary format, unless the proprietary format includes diagnostic, service, or repair documentation or functionality that is not available in such a standardized format.

3. Original equipment manufacturers of digital electronic equipment sold on or after January 1, 2024, in the state of Missouri are prohibited from designing or manufacturing digital electronic equipment in such a way as to prevent reasonable diagnostic or repair functions by an independent repair provider. Preventing reasonable diagnostic or repair functions includes permanently affixing a battery in a manner that makes it difficult or impossible to remove.

407.654

1. Nothing in this Act shall be construed to require an original equipment manufacturer to divulge a trade secret to an owner or an independent service provider except as necessary to provide documentation, parts, and tools on fair and reasonable terms.

2. No provision in this Act shall be construed to alter the terms of any arrangement in force between an authorized repair provider and an original equipment manufacturer, including, but not limited to, the performance or provision of warranty or recall repair work by an authorized repair provider on behalf of an original equipment manufacturer pursuant to such arrangement, except that any provision in such terms that purports to waive, avoid, restrict, or limit the original equipment manufacturer's obligations to comply with this section shall be void and unenforceable.

3. This section shall not require manufacturers or authorized repair providers to provide an owner or independent repair provider access to nondiagnostic and nonrepair information provided by a manufacturer to an authorized repair provider pursuant to the terms of an authorizing agreement.

407.655

1. An independent repair provider or owner that believes that a manufacturer has failed to provide information, including documentation, updates to firmware, safety and security corrections, diagnostics, documentation, or a tool required by this section, shall notify the manufacturer in writing and give the manufacturer thirty days from the time the manufacturer receives the complaint to cure the failure. If the manufacturer cures the complaint within thirty days, damages are limited to actual damages in any subsequent litigation.

2. If the manufacturer fails to respond to the notice provided in subdivision (1) of this subsection or if an independent repair facility or owner is not satisfied with the manufacturer's cure, the independent repair facility or owner may file a complaint in district court. The complaint shall include:

(a) Written information confirming that the complainant attempted to acquire and use, through the then-available standard support function provided by the manufacturer, all relevant diagnostics, tools, service parts, documentation, and updates to embedded software, including communication with customer assistance via the manufacturer's then-standard process, if made available by the manufacturer; and

(b) Evidence of manufacturer notification as required in subdivision (1) of this subsection.

3. The attorney general shall enforce this section. Each violation of this section shall be punishable by a three-thousand-dollar fine, which shall be deposited in the general revenue fund established under section 33.543. This Act applies with respect to equipment sold or in use on or after January 1, 2023.

Be it enacted by the people of the State of Missouri:

Chapter 407, RSMo, is amended by adding four new sections, to be known as sections 407.652, 407.653, 407.654, and 407.655.

407.652

(a) "Authorized repair provider" means an individual or business who is unaffiliated with an original equipment manufacturer and who has an arrangement with the original equipment manufacturer, for a definite or indefinite period, under which the original equipment manufacturer grants to the individual or business a license to use a trade name, service mark, or other proprietary identifier for the purposes of offering the services of diagnosis, maintenance, or repair of digital electronic equipment under the name of the original equipment manufacturer, or other arrangement with the original equipment manufacturer to offer such services on behalf of the original equipment manufacturer. An original equipment manufacturer who offers the services of diagnosis, maintenance, or repair of its own digital electronic equipment, and who does not have an arrangement described in this subsection with an unaffiliated individual or business, shall be considered an authorized repair provider with respect to such equipment.

(b) "Digital electronic equipment" or "equipment" means any product that depends for its functioning, in whole or in part, on digital electronics embedded in or attached to the product.

(c) "Diagnostic and repair information" means any information provided to an authorized repair provider by the manufacturer of digital electronic equipment for the purposes of diagnosis, service, maintenance, or repair of the digital electronic equipment. "Diagnostic and repair information" includes manuals, diagrams, reporting output, service code descriptions, repair technical updates, diagnostic software, service access passwords, updates and corrections to firmware, security patches, and any related information or documentation.

(d) "Documentation" means any manual, diagram, reporting output, service code description, schematic diagram, or similar kinds of information provided to an authorized repair provider for purposes of its affecting the services of diagnosis, maintenance, or repair of digital electronic equipment.

(e) "Embedded software" means any programmable instructions provided on firmware delivered with digital electronic equipment, or with a part for such equipment, for purposes of equipment operation, including all relevant patches and fixes made by the manufacturer of such equipment or part for these purposes.

(f) "Fair and reasonable terms" for obtaining a part, tool, or documentation means at costs and terms including convenience of delivery and of enabling functionality, and including rights of use, equivalent to the most favorable costs and terms offered by the original equipment manufacturer to an authorized repair provider, using the net costs that would be incurred by the authorized repair provider in obtaining an equivalent part, tool or documentation from the original equipment manufacturer, accounting for any discounts, rebates, or other incentive programs in arriving at the actual net costs. For documentation, including any relevant updates, "fair and reasonable terms" means at no charge except that, when the documentation is requested in physical printed form, a charge may be included for the reasonable actual costs of preparing and sending the copy.

(g) "Independent repair provider" means an individual or business operating in this State, who does not have an arrangement described in subsection (a) with an original equipment manufacturer, and who is not affiliated with any individual or business who has such an arrangement, and who is engaged in the services of diagnosis, maintenance, or repair of digital electronic equipment, except that an original equipment manufacturer or, with respect to that original equipment manufacturer, an individual or business who has such an arrangement with that original equipment manufacturer, or who is affiliated with an individual or business who has such an arrangement with that original equipment manufacturer, shall be considered an independent repair provider for purposes of those instances in which it engages in the services of diagnosis, maintenance, or repair of digital electronic equipment that is not manufactured by or sold under the name of that original equipment manufacturer.

(l) "Original equipment manufacturer" means a business engaged in the business of selling or leasing new digital electronic equipment manufactured by or on behalf of itself, to any individual or business.

(m) "Owner" means an individual or business who owns or leases digital electronic equipment purchased or used in this State.

(n) "Part" means any replacement part, either new or used, made available by an original equipment manufacturer for purposes of effecting the services of maintenance or repair of digital electronic equipment manufactured or sold by the original equipment manufacturer.

(o) "Trade secret" means any "trade secret" as that term is defined under paragraph (3) of 18 U.S.C. 52 Section 1839.

407.653

1. For digital electronic equipment, and parts for such equipment, sold or used in the state of Missouri, an original equipment manufacturer shall make available, for purposes of diagnosis, maintenance, or repair, to any independent repair provider, or to the owner of digital electronic equipment manufactured by or on behalf of, or sold by, the original equipment manufacturer, on fair and reasonable terms:

(a) Documentation, parts, and tools, inclusive of any updates to information or embedded software.
(b) Diagnostic and repair information that is provided to an authorized repair provider available to an independent repair provider or owner in the same manner that such information is provided to the authorized repair provider without any additional charge.
(c) Service parts provided to an authorized repair provider available for purchase by an independent repair provider or owner. However, the manufacturer need not make accessible for purchase any service part no longer available to the manufacturer or the authorized repair provider.
(d) Diagnostic repair tools that incorporate the same diagnostic repair capabilities made available to an authorized repair provider available for purchase by an independent repair provider or owner.
(e) Any special documentation, tools, and parts needed to reset an electronic security lock or other security-related function when disabled in the course of diagnosis, maintenance, or repair of the equipment. Such documentation, tools, and parts may be made available through appropriate secure release systems.

2. Any original manufacturer that sells any diagnostic, service, or repair documentation to any independent repair provider or to any owner in a format that is standardized with other original manufacturers, and on terms and conditions more favorable than the manner and the terms and conditions pursuant to which the authorized repair provider obtains the same diagnostic, service, or repair documentation, is prohibited from requiring any authorized repair provider to continue purchasing diagnostic, service, or repair documentation in a proprietary format, unless the proprietary format includes diagnostic, service, or repair documentation or functionality that is not available in such a standardized format.

3. Original manufacturers of digital electronic equipment sold on or after January 1, 2023, in the state of Missouri are prohibited from designing or manufacturing digital electronic equipment in such a way as to prevent reasonable diagnostic or repair functions by an independent repair provider. Preventing reasonable diagnostic or repair functions includes permanently affixing a battery in a manner that makes it difficult or impossible to remove.

407.654

1. Nothing in this Act shall be construed to require an original equipment manufacturer to divulge a trade secret to an owner or an independent service provider except as necessary to provide documentation, parts, and tools on fair and reasonable terms.

2. No provision in this Act shall be construed to alter the terms of any arrangement in force between an authorized repair provider and an original equipment manufacturer, including, but not limited to, the performance or provision of warranty or recall repair work by an authorized repair provider on behalf of an original equipment manufacturer pursuant to such arrangement, except that any provision in such terms that purports to waive, avoid, restrict, or limit the original equipment manufacturer's obligations to comply with this section shall be void and unenforceable.

3. This section shall not require manufacturers or authorized repair providers to provide an owner or independent repair provider access to nondiagnostic and nonrepair information provided by a manufacturer to an authorized repair provider pursuant to the terms of an authorizing agreement.

407.655

1. An independent repair provider or owner that believes that a manufacturer has failed to provide information, including documentation, updates to firmware, safety and security corrections, diagnostics, documentation, or a tool required by this section, shall notify the manufacturer in writing and give the manufacturer thirty days from the time the manufacturer receives the complaint to cure the failure. If the manufacturer cures the complaint within thirty days, damages are limited to actual damages in any subsequent litigation.

2. If the manufacturer fails to respond to the notice provided in subdivision (1) of this subsection or if an independent repair facility or owner is not satisfied with the manufacturer's cure, the independent repair facility or owner may file a complaint in district court. The complaint shall include:

(a) Written information confirming that the complainant attempted to acquire and use, through the then-available standard support function provided by the manufacturer, all relevant diagnostics, tools, service parts, documentation, and updates to embedded software, including communication with customer assistance via the manufacturer's then-standard process, if made available by the manufacturer; and

(b) Evidence of manufacturer notification as required in subdivision (1) of this subsection.

3. The attorney general shall enforce this section. Each violation of this section shall be punishable by a three-thousand-dollar fine, which shall be deposited in the general revenue fund established under section 33.543.

RE: Petition approval request from Winston Apple regarding a proposed constitutional amendment to Article III (2022-007)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Winston Apple on January 5, 2021.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Article III of the Constitution is revised by repealing Section 10 and amending Sections 3, 5, 6, 7, 8, 9, 11, 13, 14, 20(d), and 45 to read as follows:

Section 3. [(a)] The house of representatives shall consist of [one hundred sixty-three members] ten members from each congressional district, elected at each general election [and redistricted] as provided in [this] section 7 of this article.

[(b) The house independent bipartisan citizens commission shall redistrict the house of representatives using the following methods, listed in order of priority:

(1) Districts shall be as nearly equal as practicable in population, and shall be drawn on the basis of one person, one vote. Districts are as nearly equal as practicable in population if no district deviates by more than one percent from the ideal population of the district, as measured by dividing the number of districts into the statewide population data being used, except that a district may deviate by up to three percent if necessary to follow political subdivision lines consistent with subdivision (4) of this subsection;

(2) Districts shall be established in a manner so as to comply with all requirements of the United States Constitution and applicable federal laws, including, but not limited to, the Voting Rights Act of 1965 (as amended). The following principles shall take precedence over any other part of this constitution: no district shall be drawn in a manner which results in a denial or abridgment of the right of any citizen of the United States to vote on account of race or color; and no district shall be drawn such that members of any community of citizens protected by the preceding clause have less opportunity than other members of the electorate to participate in the political process and to elect representatives of their choice;

(3) Subject to the requirements of subdivisions (1) and (2) of this subsection, districts shall be composed of contiguous territory as compact as may be. Areas which meet only at the points of adjoining corners are not contiguous. In general, compact districts are those which are square, rectangular, or hexagonal in shape to the extent permitted by natural or political boundaries;

(4) To the extent consistent with subdivisions (1) to (3) of this subsection, communities shall be preserved. Districts shall satisfy this requirement if district lines follow political subdivision lines to the extent possible, using the following criteria, in order of priority. First, each county shall wholly contain as many districts as its population allows. Second, if a county wholly contains one or more districts, the remaining population shall be wholly joined in a single district made up of population from outside the county. If a county does not wholly contain a district, then no more than two segments of a county shall be combined with an adjoining county. Third, split counties and county segments, defined as any part of the county that is in a district not wholly within that county, shall each be as few as possible. Fourth, as few municipal lines shall be crossed as possible;

(5) Districts shall be drawn in a manner that achieves both partisan fairness and, secondarily, competitiveness, but the standards established by subdivisions (1) to (4) of this subsection shall take precedence over partisan fairness and competitiveness. "Partisan fairness" means that parties shall be able to translate their popular support into legislative representation with approximately equal efficiency. "Competitiveness" means that parties' legislative representation shall be substantially and similarly responsive to shifts in the electorate's preferences.

To this end, the average electoral performance of the two political parties receiving the most votes in the three preceding general elections for governor, for United States Senate, and for President of the United States shall be calculated. This index shall be defined as the total votes received by each party in the three preceding general elections for governor, for United States Senate, and for President of the United States, divided by the total votes cast for both parties in these elections. Using this index, the total number of wasted votes for each party, summing across all of the districts in the plan shall be calculated. "Wasted votes" are votes cast for a losing candidate or for a winning candidate in excess of the threshold needed for victory. In any redistricting plan and map of the proposed districts, the difference between the two parties' total wasted votes, divided by the total votes cast for the two parties, shall not exceed fifteen percent.

To promote competitiveness, the electoral performance index shall be used to simulate elections in which the hypothetical statewide vote shifts by one percent, two percent, three percent, four percent, and five percent in favor of each party. The vote in each individual district shall be assumed to shift by the same amount as the statewide vote. In each of these simulated elections, the difference between the two parties' total wasted votes, divided by the total votes cast for the two parties, shall not exceed fifteen percent.

(c) Within sixty days after the population of this state is reported to the President for each decennial census of the United States or, in the event that a redistricting plan has been invalidated by a court of competent jurisdiction, within sixty days that such a ruling has been made, the state committee and the congressional district committees of each of the two political parties casting the highest vote for governor at the last preceding general election shall meet and the members of each committee shall nominate, by a majority vote of the elected members of the committee present, provided that a majority of the elected members is present, members of their party, residents in that district, in the case of a congressional district committee, as nominees for the house independent bipartisan citizens commission. No party shall select more than one nominee from any one state legislative district. The congressional district committees shall each submit to the governor their list of two elected nominees. The state committees shall each submit to the governor their list of five elected nominees. Within thirty days thereafter, the governor shall appoint a house independent bipartisan citizens commission consisting of one nominee from each list submitted by each congressional district committee and two nominees from each list submitted by each state committee to redistrict the state into one hundred and sixty-three representative districts and to establish the numbers and boundaries of said districts. No person shall be appointed to both the house independent bipartisan citizens commission and the senate independent bipartisan citizens commission during the same redistricting cycle.

If any committee fails to submit a list within such time, the governor shall appoint a member of his or her own choice from the political party of the committee failing to submit a list, provided that in the case of a congressional district committee failing to submit a list, the person appointed to the commission by the governor shall reside in the congressional district of such committee.

Members of the commission shall be disqualified from holding office as members of the general assembly for four years following the date of the filing by the commission of its final redistricting plan.

For the purposes of this Article, the term congressional district committee or congressional district refers to the congressional district committee or the congressional district from which a congressman was last elected, or, in the event members of congress from this state have been elected at large, the term congressional district committee refers to those persons who last served as the congressional district committee for those districts from which congressmen were last elected, and the term congressional district refers to those districts from which congressmen were last elected. Any action pursuant to this section by the congressional district committee shall take place only at duly called meetings, shall be recorded in their official minutes and only members present in person shall be permitted to vote.

(d) The commissioners so selected shall, on the fifteenth day, excluding Sundays and state holidays, after all members have been appointed, meet in the capitol building and proceed to organize by electing from their number a chairman, vice chairman and secretary. The commission shall adopt an agenda establishing at least three hearing dates on which hearings open to the public shall be held to hear objections or testimony from interested persons. A copy of the agenda shall be filed with the clerk of the house of representatives within twenty-four hours after its adoption. Executive meetings may be scheduled and held as often as the commission deems advisable.

(e) Not later than five months after the appointment of the commission, the commission shall file with the secretary of state a tentative redistricting plan and map of the proposed districts and during the ensuing fifteen days shall hold such public hearings as may be necessary to hear objections or testimony of interested persons. The commission shall make public the tentative redistricting plan and map of the proposed districts, as well as all demographic and partisan data used in the creation of the plan and map.

(f) Not later than six months after the appointment of the commission, the commission shall file with the secretary of state a final statement of the numbers and the boundaries of the districts together with a map of the districts, and no statement shall be valid unless approved by at least seven-tenths of the members.

(g) After the final statement is filed, members of the house of representatives shall be elected according to such districts until a new redistricting plan is made as provided in this section, except that if the final statement is not filed within six months of the time fixed for the appointment of the commission, the commission shall stand discharged and the house of representatives shall be redistricted using the same methods and criteria as described in subsection (b) of this section by a commission of six members appointed from among the judges of the appellate courts of the state of Missouri by the state supreme court, a majority of whom shall sign and file its redistricting plan and map with the secretary of state within ninety days of the date of the discharge of the house independent bipartisan citizens commission. The judicial commission shall make public the tentative redistricting plan and map of the proposed districts, as well as all demographic and partisan data used in the creation of the plan and map. Thereafter, members of the house of representatives shall be elected according to such districts until a redistricting plan is made as provided in this section.

(h) Each member of the commission shall receive as compensation fifteen dollars a day for each day the commission is in session but not more than one thousand dollars, and, in addition, shall be reimbursed for his or her actual and necessary expenses incurred while serving as a member of the commission.

(i) No redistricting plan shall be subject to the referendum.

(j) Any action expressly or implicitly alleging that a redistricting plan violates this Constitution, federal law, or the United States Constitution shall be filed in the circuit court of Cole County and shall name the body that approved the challenged redistricting plan as a defendant. Only an eligible Missouri voter who sustains an individual injury by virtue of residing in a district that exhibits the alleged violation, and whose injury is remedied by a differently drawn district, shall have standing. If the court renders a judgment in which it finds that a completed redistricting plan exhibits the alleged violation, its judgment shall adjust only those districts, and only those parts of district boundaries, necessary to bring the map into compliance. The supreme court shall have exclusive appellate jurisdiction upon the filing of a notice of appeal within ten days after the judgment has become final.]

Section 4. Each representative shall be twenty-four years of age, and next before the day of his election shall have been a qualified voter [for two years] and a resident of the [county or] district which she or he is chosen to represent for one year, if such [county or] district shall have been so long established, and if not, then of the [county or] district from which the same shall have been taken.

Section 5. [The] With the exception of the number of senators and the length of term of senators elected to serve in the One-hundred-and-third General Assembly as provided for in Article III, Section 11, the senate shall consist of [thirty-four] three members from each congressional district elected by the qualified voters of [the senatorial districts] the state of Missouri for a term of [four] two years. [Senatorial districts shall be apportioned as provided for in Article III, Section 7.]

Section 6. Each senator shall be thirty years of age, and next before the day of her or his election shall have been a qualified voter of the state for three years and a resident of the district which she or he is chosen to represent for one year, if such district shall have been so long established, and if not, then of the district or districts from which the same shall have been taken.

Section 7. [(a) Within sixty days after the population of this state is reported to the President for each decennial census of the United States, or within sixty days after a redistricting plan has been invalidated by a court of competent jurisdiction, the state committee and the congressional district committees of each of the two political parties casting the highest vote for governor at the last preceding general election shall meet and the members of each committee shall nominate, by a majority vote of the elected members of the committee present, provided that a majority of the elected members is present, members of their party, residents in that district, in the case of a congressional district committee, as nominees for the senate independent bipartisan citizens commission. No party shall select more than one nominee from any one state legislative district. The congressional district committees shall each submit to the governor their list of two elected nominees. The state committees shall each submit to the governor their list of five elected nominees. Within thirty days thereafter the governor shall appoint a senate independent bipartisan citizens commission consisting of two nominees from each list submitted by each state committee and one nominee from each list submitted by each congressional district committee, to redistrict the thirty-four senatorial districts and to establish the numbers and boundaries of said districts. No person shall be appointed to both the house independent bipartisan citizens commission and the senate independent bipartisan citizens commission during the same redistricting cycle.

If any committee fails to submit a list within such time, the governor shall appoint a member of his or her own choice from the political party of the committee failing to submit a list, provided that in the case of a congressional district committee failing to submit a list, the person appointed to the commission by the governor shall reside in the congressional district of such committee.

Members of the commission shall be disqualified from holding office as members of the general assembly for four years following the date of the filing by the commission of its final redistricting plan.

(b) The commissioners so selected shall, on the fifteenth day, excluding Sundays and state holidays, after all members have been appointed, meet in the capitol building and proceed to organize by electing from their number a chairman, vice chairman and secretary. The commission shall adopt an agenda establishing at least three hearing dates on which hearings open to the public shall be held to hear objections or testimony from interested persons. A copy of the agenda shall be filed with the secretary of the senate within twenty-four hours after its adoption. Executive meetings may be scheduled and held as often as the commission deems advisable.

(c) The senate independent bipartisan citizens commission shall redistrict the senate using the same methods and criteria as those required by subsection (b), section 3 of this Article for the redistricting of the house of representatives.

(d) Not later than five months after the appointment of the senate independent bipartisan citizens commission, the commission shall file with the secretary of state a tentative redistricting plan and map of the proposed districts and during the ensuing fifteen days shall hold such public hearings as may be necessary to hear objections or testimony of interested persons. The commission shall make public the tentative redistricting plan and map of the proposed districts, as well as all demographic and partisan data used in the creation of the plan and map.

(e) Not later than six months after the appointment of the commission, the commission shall file with the secretary of state a final statement of the numbers and the boundaries of the districts together with a map of the districts, and no statement shall be valid unless approved by at least seven-tenths of the members.

(f) After the final statement is filed, senators shall be elected according to such districts until a new redistricting plan is made as provided in this section, except that if the final statement is not filed within six months of the time fixed for the appointment of the commission, the commission shall stand discharged and the senate shall be redistricted using the same methods and criteria as described in subsection (b) of section 3 of this Article by a commission of six members appointed from among the judges of the appellate courts of the state of Missouri by the state supreme court, a majority of whom shall sign and file its redistricting plan and map with the secretary of state within ninety days of the date of the discharge of the senate independent bipartisan citizens commission. The judicial commission shall make public the tentative redistricting plan and map of the proposed districts, as well as all demographic and partisan data used in the creation of the plan and map. Thereafter, senators shall be elected according to such districts until a redistricting plan is made as provided in this section.

(g) Each member of the commission shall receive as compensation fifteen dollars a day for each day the commission is in session, but not more than one thousand dollars, and, in addition, shall be reimbursed for his or her actual and necessary expenses incurred while serving as a member of the commission.

(h) No redistricting plan shall be subject to the referendum.

(i) Any action expressly or implicitly alleging that a redistricting plan violates this Constitution, federal law, or the United States Constitution shall be filed in the circuit court of Cole County and shall name the body that approved the challenged redistricting plan as a defendant. Only an eligible Missouri voter who sustains an individual injury by virtue of residing in a district that exhibits the alleged violation, and whose injury is remedied by a differently drawn district, shall have standing. If the court renders a judgment in which it finds that a completed redistricting plan exhibits the alleged violation, its judgment shall adjust only those districts, and only those parts of district boundaries, necessary to bring the map into compliance. The supreme court shall have exclusive appellate jurisdiction upon the filing of a notice of appeal within ten days after the judgment has become final.]

(a) Beginning with the election of senators and representatives to be held in the year two thousand and twenty-four there will be no primary election for those offices. For the general election, all candidates who file to run and are qualified to run, for the General Assembly will be listed on the ballot in the congressional district in which they reside, grouped by political party affiliation. Independent candidates will be grouped together on the ballot.

(b) General elections shall be carried out using a system of ranked choice voting under which each voter shall be able to rank a minimum of three candidates for the General Assembly in order of preference. If feasible, the ballot shall permit voters to rank up to ten candidates for the General Assembly, or as close to that number as feasible. Voters shall be able to request a general ballot listing all of the candidates for all political parties and all independent candidates, a single-party ballot listing only the candidates of a single political party, or a ballot listing only independent candidates.

(c) A number of spaces equal to the number of choices voters are able to rank shall be provided to write in the names of candidates not appearing on the ballot. Write-in votes may be cast for candidates for the General Assembly who are on the ballot in congressional districts other than a voter's congressional district. Those write-in votes from other districts will not be counted as part of the process of determining which candidates are elected to represent each congressional district but will be added to the cumulative vote total of candidates who are elected to the General Assembly for purposes of determining the value of each legislator's weighted vote.

(d) The ballot shall be simple and easy to understand, with instructions necessary to enable voters to successfully cast ballots under the system.

(e) The results of each general election will be tabulated in rounds. In any round of tabulation, if a voter's highest remaining choice is write-in vote for a candidate residing in a congressional district other than the congressional district in which a voter resides and votes, that ballot shall be set aside as a "provisional ballot" and counted after winning candidates from each district have been determined by votes cast within each district.

(f) In the first round of tabulation only first-choice votes shall be counted and the candidate within each district who receives the lowest number of first-choice votes is eliminated. The second-choice votes of voters whose first-choice candidate has been eliminated shall then be distributed among the "continuing candidates" and a second round of tabulation shall be conducted, after which the candidate in each district with the lowest number of "cumulative votes" is eliminated. The highest remaining choice on ballots for those eliminated candidates shall then be redistributed among the continuing candidates. This process shall be continued until there are sixteen candidates remaining in each district. The thirteen candidates with the most cumulative votes at that point are elected to the General Assembly and the candidates ranked fourteenth, fifteenth, and sixteenth, are designated as the first, second, and third "alternate members of the General Assembly", respectively.

(g) Provisional ballots shall then be tabulated and write-in votes on those ballots distributed among the candidates who were elected to the general assembly, not including the three alternate members from each district. A single vote will be added to the total cumulative vote for each candidate who was elected and is the highest remaining choice on each provisional ballot.

The three candidates from each congressional district who receive the highest cumulative vote totals, and who also meet the requirements for serving as a senator, are elected to the senate representing each district. The remaining candidates from each district are elected as representatives.

(h) If a voter inadvertently casts a vote for more than a single candidate among any of their ranked choices each candidate listed will be given the appropriate fraction of a whole vote. If a voter inadvertently fails to fill in a choice among their ranked choices but has additional lower-ranked choices, the missing ranked choice will be ignored. A ballot with no remaining choices for candidates who were elected is an "exhausted ballot" and shall be set aside.

(i) Officials shall determine a random selection algorithm, prior to tabulation, to resolve ties between candidates for the last remaining seat, or seats, in the General Assembly or to determine which members are elected to the senate.

(j) With the exception of votes taken to override a governor's veto, for which each member will cast a single non-weighted vote, candidates who are elected to the General Assembly shall be given weighted votes in all matters before the General Assembly based on the total number of votes each member received. The value of each member's weighted vote shall be determined by dividing the number of cumulative votes received by each member by the number of cumulative votes received by the member of the house of representatives with the lowest number of votes.

(k) A political party having no candidate for the General Assembly or statewide office receiving at least one percent of the total vote in the preceding general election, may qualify for a place on the ballot for the General Assembly in each congressional district by presenting petitions signed by one per cent of the legal voters in that congressional district. An independent candidate may qualify for a place on the ballot in a congressional district by presenting petitions signed by one-half of one percent of the legal voters in the congressional district in which they reside. The number of "legal voters" is equal to, and determined by, the total vote for governor in the general election last preceding. Said petitions are to be delivered to the secretary of state no later than one hundred and twenty days preceding the general election.

(l) The signatures on petitions submitted by independent candidates and political parties shall be subject to verification according to the procedures in the code of state regulations for independent candidate petitions in force at the time the petitions are submitted.

Section 8. No one shall be elected to serve more than [eight years total in any one house of the General Assembly nor more than] sixteen years total in [both houses of] the General Assembly. In applying this section, service in the General Assembly resulting from an election prior to December 3, 1992, or service of less than one year, in the case of a member of the house of representatives, or two years, in the case of a member of the senate, by a person elected after the effective date of this section to complete the term of another person, shall not be counted.

Section 9. Until the convening of the Seventy-fourth General Assembly the House of Representatives shall consist of one hundred sixty-three members elected from the one hundred sixty-three representative districts, as they existed January 1, 1965. Beginning with the election of representatives in the general elections to be held in the year two thousand and twenty-four the house of representatives shall consist of ten members elected from each congressional district.

Section 10. [The last decennial census of the United States shall be used in apportioning representatives and determining the population of senatorial and representative districts. Such districts may be altered from time to time as public convenience may require.]

Section 11. The first election of senators and representatives under this constitution, shall be held at the general election in the year one thousand nine hundred and forty-six when the whole number of representatives and the senators from the districts having even numbers, who shall compose the first class, shall be elected, and two years thereafter the whole number of representatives and the senators from districts having odd numbers, who shall compose the second class, shall be elected, and so on at each succeeding general election. Beginning with the general election to be held in the year two thousand and twenty-four, senators will no longer be divided into two classes. Senators from the class elected in the year two thousand and twenty-two will continue to serve for the remainder of the term to which they were elected. For the one-hundred-and-third General Assembly only, the senate will consist of forty-one senators. In the election held in the year two-thousand and twenty-four, the names of the senators from that class will not appear on the ballot, but voters may cast write-in votes for those senators and those write-in votes will be added to the number of votes senators of that class received in the election of two-thousand and twenty-two to determine the value of each senator's weighted vote.

Section 13. If any senator or representative removes her or his residence from the [district or county for which he was elected, his] state of Missouri, their office shall thereby be vacated. If any senator or representative removes her or his residence from the district from which they were elected, they may serve out their term as long as they continue to reside in Missouri.

Section 14. [Writs of election to fill vacancies in either house of the general assembly shall be issued by the governor.] Vacancies in the senate shall be filled by the house member from the same district with the weighted vote with the highest value, who also meets the criteria for serving as a senator, the resulting vacancy, as well a vacancy in the house for any other reason, shall be filled by the highest ranked remaining alternate member of the general assembly. Alternate members who assume office shall have a weighted vote with a value of 1.0.

Section 20(d). If any provision of sections 2, 3, 5, 6, 7, 8, 9, 11, 14, 19, [or] 20(c), or 45 or the application thereof to anyone or to any circumstance is held invalid, the remainder of those provisions and the application of such provisions to others or other circumstances shall not be affected thereby.

Section 45. When the number of representatives to which the state is entitled in the House of the Congress of the United States under the census of 1950 and each census thereafter is certified to the governor, the general assembly shall by law divide the state into districts corresponding with the number of representatives to which it is entitled, which districts shall be composed of contiguous territory as compact and as nearly equal in population as may be. Beginning with the general election of 2024, the boundaries established for congressional districts under this Constitution shall also serve as the boundaries for senatorial districts and legislative districts for purposes of electing members of the General Assembly. If the Congress of the United States enacts legislation giving states the right to elect members of the House of the Congress of the United States from multiple-member districts or at-large, the state of Missouri shall elect its members at-large, if given a choice of the two, or from multiple-member districts, if that is the only choice, with those multiple-member districts composed of contiguous territory as compact and as nearly equal in population as may be. In either case, the general assembly shall by law continue to divide the state into a number of districts corresponding with the number of representatives to which the state is entitled in the House of Congress, composed according to the guidelines provided in this section and those districts shall continue to serve as senatorial districts and legislative districts to be used in electing members of the General Assembly and for electing delegates to a convention to revise and amend the constitution of Missouri if voters should vote in favor of such a convention.

Officials from the **City of Kansas City** indicated this proposed amendment would have no fiscal impact on their city.

Officials from **Metropolitan Community College** indicated no fiscal impact.

Officials from the **St. Louis County Board of Elections** indicated they estimate this petition to have a one-time fiscal note of about $30,000. They would have to upgrade their election software to include a system for ranked-choice voting, and they predict this would cost the above amount.

Officials from the **Platte County Board of Elections** indicated their existing equipment will handle ranked choice voting. They expect no significant costs or savings.

The State Auditor's office did not receive a response from **Adair County, Boone County, Callaway County, Cass County, Cole County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, State Technical College of Missouri, University of Missouri, St. Louis Community College,** the **Board of Election Commissioners City of St. Louis,** the **Kansas City Board of Election Commissioners,** the **Jackson County Election Board,** and the **Clay County Board of Election Commissioners.**

Fiscal Note Summary

The General Assembly is estimated to have approximately $750,000 in one-time costs and $8.8 million in annual savings. State and local governments could incur significant election-related costs of $48,000 to $38 million in one-time costs, and ongoing costs of at least $15,000 annually and at least $21,000 for each general election.

RE: Petition approval request from Chris Vas regarding a proposed constitutional amendment to Article V, version 2 (2022-006)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Chris Vas on December 30, 2020.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

MO. SEC. OF STATE

NOTICE: You are advised that in addition to the express amendments, repeals, and modifications as set forth below, this proposal may repeal, change or modify by implication, or may be construed by some persons to repeal, change or modify by implication, Article IV, Section 4, Article V, Sections 8, 19, 25(a), 25(c)(1), 25(c)(2), 25(d), 25(e), 25(f), and 25(g), and Article VIII, Section 23 of the Constitution of Missouri.

Be it resolved by the people of the state of Missouri that the Constitution be amended:

To amend Sections 8, 19, 25(a), and 25(f), and enact Sections 1(a), 25(c)(3), 25(c)(4), 25(c)(5), and 25(c)(6) of Article V of the Constitution of Missouri to read as follows:

Section 1(a). 1. Judges of the supreme court and court of appeals shall be elected in nonpartisan elections.

2. The election of judges derives from the principle that all political power is vested in and derived from the people, and all government of right originates from the people, is founded upon their will only, and is instituted solely for the good of the whole, and further, that all courts of justice shall be open to every person without sale, denial, or delay. Judges shall therefore be accountable to the citizens of this state, this constitution, and the United States Constitution, and not beholden to any particular association or alliance of lawyers, judges, or interest groups. To accomplish this purpose, as set forth in sections 25(a) through (g), judges of the supreme court and court of appeals shall henceforth stand for election, and shall no longer be selected by the governor from nominations made by commissions of lawyers, judges, and the governor's chosen appointees. Voters in most circuits shall continue to have the ability to choose the method by which circuit and associate circuit judges are selected. Section 1(a) and sections 25(a) through (g) shall be known as the "Missouri Nonpartisan Court Plan."

Section 8. [The judges of the supreme court shall elect from their number a] The chief justice [to] shall preside over the supreme court en banc, and the judges of the court of appeals in each district shall elect from their number a chief judge of the district. The terms of the [chief justice and] chief judges shall be fixed by the courts over which they preside. The chief justice of the supreme court shall be the chief administrative officer of the judicial system and, subject to the supervisory authority of the supreme court, shall supervise the administration of the courts of this state.

Section 19. Judges of the supreme court, including the chief justice, and judges and of the court of appeals shall be selected for terms of [twelve] six years, judges of the circuit courts for terms of six years, and associate circuit judges for terms of four years. No supreme court judge, supreme court chief justice, or court of appeals judge shall be elected to a particular judicial seat for more than two consecutive terms.

Section 25(a). Whenever a vacancy shall occur in the office of [judge of any of the following courts of this state, to wit: The supreme court, the court of appeals, or in the office of] circuit or associate circuit judge within the city of St. Louis and Jackson County, the governor shall fill such vacancy by appointing one of three persons possessing the qualifications for such office, who shall be nominated and whose names shall be submitted to the governor by a nonpartisan judicial commission established and organized as hereinafter provided. If the governor fails to appoint any of the nominees within sixty days after the list of nominees is submitted, the nonpartisan judicial commission making the nomination shall appoint one of the nominees to fill the vacancy. Whenever a vacancy shall occur in the office of judge of the supreme court, supreme court chief justice, or judge of the court of appeals, it shall be promptly filled under article 4, section 4 of this constitution and such appointee shall hold office for the remainder of the vacating judge's term.

Section 25(c)(1). Each judge appointed to the office of circuit or associate circuit judge pursuant to the provisions of sections 25(a)-(g) shall hold office for a term ending December thirty-first following the next general election after the expiration of twelve months in the office. Any circuit or associate circuit judge holding office, or elected thereto, at the time of the election by which the provisions of sections 25(a)-(g) become applicable to his office, shall, unless removed for cause, remain in office for the term to which he would have been entitled had the provisions of sections 25(a)-(g) not become applicable to his office. Not less than sixty days prior to the holding of the general election next preceding the expiration of his term of office, any circuit or associate circuit judge whose office is subject to the provisions of sections 25(a)-(g) may file in the office of the secretary of state a declaration of candidacy for election to succeed himself. If a declaration is not so filed [by any judge], the vacancy resulting from the expiration of his term of office shall be filled by appointment as herein provided. If such declaration is filed, his name shall be submitted at said next general election to the voters eligible to vote [within the state if his office is that of judge of the supreme court, or within the geographic jurisdiction limit of the district where he serves if his office is that of a judge of the court of appeals, or] within the circuit if his office is that of circuit judge, or within the county if his office is that of associate circuit judge on a separate judicial ballot, without party designation, reading:

"Shall Judge .....

(Here the name of the judge shall be inserted) of the .....

(Here the title of the court shall be inserted) be retained in office? Yes No

(Mark an "X" in the box you prefer.)" If a majority of those voting on the question vote against retaining him in office, upon the expiration of his term of office, a vacancy shall exist which shall be filled by appointment as provided in section 25(a); otherwise, said judge shall, unless removed for cause, remain in office for the number of years after December thirty-first following such election as is provided for the full term of such office, and at the expiration of each such term shall be eligible for retention in office by election in the manner here prescribed.

Section 25(c)(3). Judges of the court of appeals and supreme court shall be elected at the general election by the voters eligible to vote within the appellate district of the seat being elected as set forth in sections 25(c)(4) and 25(c)(5). Except as set forth in section 25(a), they shall hold office for a term expiring December thirty-first in the sixth year after their election. The provisions of sections 25(c)(1) and 25(c)(2) shall not apply to court of appeals or supreme court judges.

Section 25(c)(4). Supreme court judges shall be elected as follows. If the general assembly has provided by law for three appellate districts, a chief justice shall be elected at large and two supreme court judges shall be elected from each court of appeals district by the voters eligible to vote within that district, but if greater than three court of appeals districts are established or the geographical boundaries of the districts change such that the following divisions cannot be made, then elections for supreme court judges other than the chief justice shall be as established by law, or if no law timely establishes procedures for such elections, then elections for all supreme court seats shall be at large. Seats E1 and E2 shall be elected from the court of appeals district which includes the City of St. Louis. Seats S1 and S2 shall be elected from the court of appeals district which includes the City of Springfield. Seats W1 and W2 shall be elected from the court of appeals district which includes the City of Kansas City. Seat CJ, the seat of the chief

judge, shall be elected at large. Seats E1 and S1 shall be known as "Class 1" and elected in 2024 and every sixth successive year. Seats W1 and E2 shall be known as "Class 2" and elected in 2026 and every sixth successive year. Seats S2, W2, and the chief justice's at-large seat, CJ, shall be known as "Class 3" and elected in 2028 and every sixth successive year. A supreme court judge shall be a resident of the appellate district from which he or she is elected no later than the day of his or her election.

Section 25(c)(5). The following transition provisions shall apply: 1. Those supreme court judges holding office as of 5:00 p.m. on December 8, 2022, shall not be required to reside in any particular appellate district but on that date shall nonetheless be assigned the following seat designations for purposes of implementing elections and filling vacancies. The seat designations shall be assigned in the following order: CJ, W2, S2, E2, W1, S1, E1. First, beginning with Seat CJ, seats will be assigned to judges who have been retained by voters, starting with the judge most recently retained by voters. For judges retained at the same time, the judge having served the least time on the supreme court shall be assigned first. After all judges who have been retained have been assigned seats, judges who have been appointed shall be assigned, with judges most recently appointed to be assigned first. If all judges who have been retained or appointed have been assigned seats, and it appears that one or more supreme court seats was vacated on or before December 8, 2022, but remained unfilled by the end of that date, these vacancies will be immediately assigned a class and seat, using the order set forth in this section until all seats through Seat E1 are filled, and in assigning seat designations to vacancies, vacancies created by a judge whose last name is first in alphabetical order will have precedence. A seat held by any judge who lost a retention election in the 2022 general election shall be treated as vacant solely for purposes of assigning a class and seat under this transition provision, even though the judge shall hold office until December 31, 2022, and the seat shall be treated as vacant for purposes of section 25(a) on January 1, 2023, and thereafter filled under the provisions of that section.
2. Court of appeals judges who were last retained in the 2012 or 2014 general elections, or the successors to vacancies left by such judges, shall stand in the 2024 general election, court of appeals judges who were last retained in the 2016 or 2018 general elections, or the successors to vacancies left by such judges, shall stand in the 2026 general election, and court of appeals judges who were last retained in the 2020 or 2022 general elections, or the successors to vacancies left by such judges, shall stand in the 2028 general election. The candidate elected in each such election shall serve for the term prescribed by section 19, and every succeeding six years, a new election shall be held for that judicial office. Court of appeals judges first eligible for retention in the 2024 general election under the immediately prior version of section 25(c)(1), which was effective until the end of thirty days after the election adopting this section, shall stand for election in the 2024 general election. Any seat held by a court of appeals judge who loses a retention election in the 2022 general election shall be treated as vacant on January 1, 2023, and shall thereafter be filled under the provisions of section 25(a). Any law providing for additional court of appeals seats shall specify the first general election at which the seat shall be filled.
3. A supreme court or court of appeals vacancy that opened before the end of thirty days after the election adopting this section but was not yet filled as of that time and date shall be filled by the governor under the provisions of section 25(a).
4. The transition provisions of this section 25(c)(5) shall be severable from the remainder of section 25(a) through (g).

Section 25(c)(6). 1. Elections for the offices of judge of the supreme court and court of appeals shall be non-partisan elections. No political party may or shall nominate any candidate for these judicial offices, and no primary or general election ballot shall include a party designation for any of these judicial offices. However, the general assembly shall make no law prohibiting a candidate from declaring himself or herself a supporter of a political party, or prohibiting a political party from declaring its support for a candidate.
2. All declarations for candidacy for the offices of judge of the supreme court and court of appeals shall be filed in the office of the secretary of state no later than 120 days before the primary election. A candidate, whether or not an incumbent, shall file such declaration using a form provided by the secretary of state. All declarations shall be accompanied by either a nominating petition or a nomination form. A nominating petition shall have been signed no earlier than 180 days before the primary election by one hundred voters eligible to vote in the applicable appellate district, or in the case of the chief justice, in the state. A nomination form shall be signed by all members of the Appellate Judicial Commission no earlier than 180 days before the primary. The Appellate Judicial Commission may issue nomination forms for up to three individuals per race, but it shall not issue a nomination form for any person who files a declaration accompanied by a nominating petition.
3. The two candidates receiving the highest number of votes in the primary election shall stand in the general election. The candidate achieving the greatest number of votes in the general election shall be elected to the judicial office.
4. Primary and general elections for the offices of judge of the supreme court and court of appeals shall be held in the same manner as gubernatorial elections to the greatest extent possible for nonpartisan elections, or as may otherwise be provided by law. Contests to the results of an election under this section, whether on the basis of qualification, irregularity, or other cause, or for recount other than any automatic recount as may be provided by law, shall be heard and determined in the same manner as gubernatorial elections to the greatest extent possible for nonpartisan elections, or as otherwise provided by law.
5. The provisions of this section 25(c)(6) shall be severable from the remainder of section 25(a) through (g).

Section 25(f). No judge of any court in this state, appointed or elected to or retained in office in the manner prescribed in sections 25(a)-(g), shall directly or indirectly make any contribution to or hold any office in a political party or organization, or take part in any political campaign[.] except as provided in sections 25(a)–(g). A judge or judicial candidate may announce his or her views on disputed legal or political issues provided that the judge or judicial candidate does not make pledges or promises to render specific rulings or decisions on pending litigation. Judicial candidates and judges who are judicial candidates shall be allowed to solicit, receive and make campaign contributions, and make and receive the benefit of campaign expenditures for their own campaigns, subject only to laws that may enact limits no more restrictive than those applicable, if any, to elections for the office of governor. Nothing herein shall preclude the application of laws or rules of the supreme court governing judicial participation in specific cases based on a judge's political activity with respect to the subject matter or parties. The provisions of this section 25(f) shall be severable from the remainder of section 25(a) through (g), except that nothing shall prohibit a candidate for the supreme court or court of appeals from taking part in his or her own political campaign.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (22-006)

Subject

Initiative petition from Chris Vas regarding a proposed constitutional amendment to Article V. (Received December 30, 2020)

Date

January 19, 2021

Description

This proposal would amend Article V of the Missouri Constitution.

The amendment is to be voted on in November 2022.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education and Workforce Development,** the **Department of Health and Senior Services,** the **Department of Commerce and Insurance,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College, St. Louis County Board of Elections, Board of Election Commissioners City of St. Louis, Kansas City Board of Election Commissioners, Platte County Board of Elections, Jackson County Election Board,** and **Clay County Board of Election Commissioners**.

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, they expect that their office could absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may be required to request additional appropriations.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated no impact to their department.

Officials from the **Department of Elementary and Secondary Education** indicated no impact to their department.

Officials from the **Department of Higher Education and Workforce Development** indicated no impact to their department.

Officials from the **Department of Health and Senior Services** indicated this initiative petition has no impact on their department.

Officials from the **Department of Commerce and Insurance** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no fiscal impact on their agency.

Officials from the **Department of Labor and Industrial Relations** indicated they anticipate no fiscal impact for this initiative petition.

Officials from the **Department of Revenue** indicated no impact.

Officials from the **Department of Public Safety - Office of the Director** indicated no impact for their department.

Officials from the **Department of Social Services** indicated this will have no fiscal impact for their department.

Officials from the **Governor's office** indicated this proposal should not impact their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact.

Officials from the **Department of Conservation** indicated no adverse fiscal impact to their department would be expected as a result of this proposal.

Officials from the **Department of Transportation** indicated this initiative petition would have no fiscal impact to their department/Missouri Highways and Transportation Commission.

Officials from the **Office of Administration** indicated this proposal should not impact their office.

Officials from the **Office of State Courts Administrator** indicated in reference to this initiative petition, a proposed constitutional amendment to Article V, there may be some impact but there is no way to quantify that currently. Any significant changes will be reflected in future budget requests.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be $7 million based on the cost of the 2020 Presidential Preference Primary.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Funding for this item is adjusted each year depending upon the election cycle. A new decision item is requested in odd numbered fiscal years and the amount requested is dependent upon the estimated number of ballot measures that will be approved by the General Assembly and the initiative petitions certified for the ballot. In fiscal year (FY) 2014, the General Assembly changed the appropriation so that it was no longer an estimated appropriation.

In FY19, over $5.8 million was spent to publish the full text of the measures for the August and November elections. Their office estimates $75,000 per page for the costs of publications based on the actual cost incurred for the one referendum that was on the August 2018 ballot.

Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated they do not believe this initiative petition will have any cost or savings for their office.

Officials from the **State Treasurer's office** indicated no fiscal impact to their office.

Officials from **Clay County** indicated this petition adds Supreme Court and Appellate Court judges to primary elections, but this will not result in increased costs to the county. Therefore, they estimate no costs or savings as a result of this initiative petition.

Officials from **Greene County** indicated there are no estimated costs or savings to report from their county for this initiative petition.

Officials from the **City of Kansas City** indicated this amendment will have no fiscal impact on their city.

Officials from **State Technical College of Missouri** indicated there is no fiscal impact to their college.

Officials from the **Metropolitan Community College** indicated no fiscal impact.

Officials from the **St. Louis County Election Board** indicated this petition would have no impact on their board.

Officials from the **Platte County Board of Elections** indicated this petition would have no fiscal impact on their board.

Officials from the **Jackson County Election Board** indicated this initiative petition would have no fiscal impact on their board.

The State Auditor's office did not receive a response from **Adair County, Boone County, Callaway County, Cass County, Cole County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, University of Missouri, St. Louis Community College, Board of Election Commissioners City of St. Louis, Kansas City Board of Election Commissioners,** and **Clay County Board of Election Commissioners**.

Fiscal Note Summary

State and local government entities estimate no costs or savings from this proposal.

RE: Petition approval request from Chris Vas regarding a proposed constitutional amendment to Article V, version 1 (2022-005)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Chris Vas on December 30, 2020.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

SEC. OF STATE

NOTICE: You are advised that in addition to the express amendments, repeals, and modifications as set forth below, this proposal may repeal, change or modify by implication, or may be construed by some persons to repeal, change or modify by implication, Article IV, Section 4, Article V, Sections 8, 19, 25(a) and (b), 25(c)(1), 25(c)(2), 25(d), 25(e), 25(f), and 25(g) of the Constitution of Missouri.

Be it resolved by the people of the state of Missouri that the Constitution be amended:

To amend Sections 8, 19, and 25(a), and enact Sections 1(a), and 25(h) of Article V of the Constitution of Missouri to read as follows:

Section 1(a). 1. Judges of the supreme court and court of appeals shall be appointed by the governor with the advice and consent of the senate.

2. The people's elected representatives, rather than committees controlled by lawyers, should control the selection of appellate judges. This follows the original plan of the Missouri Constitution and the plan of our federal government. It derives from the principle that all political power is vested in and derived from the people, and all government of right originates from the people, is founded upon their will only, and is instituted solely for the good of the whole, and further, that all courts of justice shall be open to every person without sale, denial, or delay. Judges shall therefore be accountable to the citizens of this state, this constitution, and the United States Constitution, and not beholden to any particular association or alliance of lawyers, judges, or interest groups. To accomplish this purpose, as set forth in sections 25(a) through (g), judges of the supreme court and court of appeals shall henceforth be appointed by the governor with the advice and consent of the senate, and shall no longer be selected by the governor from nominations made by commissions of lawyers, judges, and the governor's chosen appointees. Voters in most circuits shall continue to have the ability to choose the method by which circuit and associate circuit judges are selected. Section 1(a) and sections 25(a) through (g) shall be known as the "Missouri Nonpartisan Court Plan."

Section 8. [The judges of the supreme court shall elect from their number a] The chief justice [to] shall preside over the supreme court en banc, and the judges of the court of appeals in each district shall elect from their number a chief judge of the district. The terms of the [chief justice and] chief judges shall be fixed by the courts over which they preside. The chief justice of the supreme court shall be the chief administrative officer of the judicial system and, subject to the supervisory authority of the supreme court, shall supervise the administration of the courts of this state.

Section 19. Judges [of the supreme court and of the court of appeals shall be selected for terms of twelve years, judges] of the circuit courts shall be selected for terms of six years, and associate circuit judges for terms of four years. The governor's appointments of judges of the supreme court and court of appeals shall be for life except as otherwise provided in this constitution. The governor rather than other judges of the supreme court shall appoint the chief justice. No vacancy on the supreme court or court of appeals shall be filled and no person appointed by the governor shall have authority to act unless the senate has actually provided its advice and consent.

Section 25(a). Whenever a vacancy shall occur in the office of [judge of any of the following courts of this state, to wit: The supreme court, the court of appeals, or in the office of] circuit or associate circuit judge within the city of St. Louis and Jackson County, the governor shall fill such vacancy by appointing one of three persons possessing the qualifications for such office, who shall be nominated and whose names shall be submitted to the governor by a nonpartisan judicial commission established and organized as hereinafter provided. If the governor fails to appoint any of the nominees within sixty days after the list of nominees is submitted, the nonpartisan judicial commission making the nomination shall appoint one of the nominees to fill the vacancy.

Section 25(h). The following transition provisions shall apply to the judges of the supreme court and court of appeals after the approval of new section 1(a)1. After 5:00 p.m. on December 8, 2022, the Appellate Judicial Commission shall dissolve, and every vacancy then existing shall be filled as set forth in section 1(a) 1. Each judge shall hold office for the remainder of his original term, after which the office shall be vacated and subject to appointment under section 1(a)1.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (22-005)

Subject

Initiative petition from Chris Vas regarding a proposed constitutional amendment to Article V. (Received December 30, 2020)

Date

January 19, 2021

Description

This proposal would amend Article V of the Missouri Constitution.

The amendment is to be voted on in November 2022.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education and Workforce Development,** the **Department of Health and Senior Services,** the **Department of Commerce and Insurance,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College, St. Louis County Board of Elections, Board of Election Commissioners City of St. Louis, Kansas City Board of Election Commissioners, Platte County Board of Elections, Jackson County Election Board,** and **Clay County Board of Election Commissioners**.

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, they expect that their office could absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may be required to request additional appropriations.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated no impact to their department.

Officials from the **Department of Elementary and Secondary Education** indicated no impact to their department.

Officials from the **Department of Higher Education and Workforce Development** indicated no impact to their department.

Officials from the **Department of Health and Senior Services** indicated this initiative petition has no impact on their department.

Officials from the **Department of Commerce and Insurance** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no fiscal impact on their agency.

Officials from the **Department of Labor and Industrial Relations** indicated they anticipate no fiscal impact for this initiative petition.

Officials from the **Department of Revenue** indicated no impact.

Officials from the **Department of Public Safety - Office of the Director** indicated no impact for their department.

Officials from the **Department of Social Services** indicated this will have no fiscal impact for their department.

Officials from the **Governor's office** indicated this proposal should not impact their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact.

Officials from the **Department of Conservation** indicated no adverse fiscal impact to their department would be expected as a result of this proposal.

Officials from the **Department of Transportation** indicated this initiative petition would have no fiscal impact to their department/Missouri Highways and Transportation Commission.

Officials from the **Office of Administration** indicated this proposal should not impact their office.

Officials from the **Office of State Courts Administrator** indicated in reference to this initiative petition, a proposed constitutional amendment to Article V, there may be some impact but there is no way to quantify that currently. Any significant changes will be reflected in future budget requests.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be $7 million based on the cost of the 2020 Presidential Preference Primary.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Funding for this item is adjusted each year depending upon the election cycle. A new decision item is requested in odd numbered fiscal years and the amount requested is dependent upon the estimated number of ballot measures that will be approved by the General Assembly and the initiative petitions certified for the ballot. In fiscal year (FY) 2014, the General Assembly changed the appropriation so that it was no longer an estimated appropriation.

In FY19, over $5.8 million was spent to publish the full text of the measures for the August and November elections. Their office estimates $75,000 per page for the costs of publications based on the actual cost incurred for the one referendum that was on the August 2018 ballot.

Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated they do not believe this initiative petition will have any cost or savings to their office.

Officials from the **State Treasurer's office** indicated no fiscal impact to their office.

Officials from **Clay County** indicated as this only affects the Supreme Court and Court of Appeals, there are no costs or savings to their county. Circuit judges remain on the ballot.

Officials from **Greene County** indicated there are no estimated costs or savings to report from their county for this initiative petition.

Officials from the **City of Kansas City** indicated this amendment will have no fiscal impact on their city.

Officials from **State Technical College of Missouri** indicated there is no fiscal impact to their college.

Officials from the **Metropolitan Community College** indicated no fiscal impact.

Officials from the **St. Louis County Election Board** indicated this petition would have no impact on their board.

Officials from the **Platte County Board of Elections** indicated this petition would have no fiscal impact on their board.

Officials from the **Jackson County Election Board** indicated this initiative petition would have no fiscal impact on their board.

The State Auditor's office did not receive a response from **Adair County, Boone County, Callaway County, Cass County, Cole County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, University of Missouri, St. Louis Community College, Board of Election Commissioners City of St. Louis, Kansas City Board of Election Commissioners,** and **Clay County Board of Election Commissioners**.

Fiscal Note Summary

State and local government entities estimate no costs or savings from this proposal.

NOTICE: You are advised that the proposed amendment to the constitution changes, repeals, or modifies by implication, or may be construed to change, repeal or modify by implication, Article I of the Missouri Constitution and Chapter 290, RSMo. The proposed amendment revises Article I of the Constitution by amending section 29.

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Article I is amended by revising section 29, to read as follows:

Section 29. That employees shall have the right to organize and to bargain collectively through representatives of their own choosing. That every employee shall have the freedom to work without being forced to pay any fees to a union or join a union as a condition of employment, such that no person shall be required as a condition of employment or continued employment to: (1) become, remain, or refrain from becoming a member of a labor organization; or (2) pay any dues, fees, assessments, or other similar charges however denominated of any kind or amount to a labor organization or third party in lieu thereof.

This proposal would amend Article I of the Missouri Constitution.

The amendment is to be voted on in November 2022.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education and Workforce Development,** the **Department of Health and Senior Services,** the **Department of Commerce and Insurance,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College,** the **Kansas City Board of Police Commissioners,** the **Metropolitan Police Department - City of St. Louis, University of Central Missouri, Harris-Stowe State University, Lincoln University, Missouri State University, Missouri Southern State University, Missouri Western State University, Northwest**

Missouri State University, Southeast Missouri State University, and **Truman State University**.

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, they expect that their office could absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may be required to request additional appropriations.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated no impact to their department.

Officials from the **Department of Elementary and Secondary Education** indicated no impact to their department.

Officials from the **Department of Higher Education and Workforce Development** indicated no impact to their department.

Officials from the **Department of Health and Senior Services** indicated this initiative petition has no impact on their department.

Officials from the **Department of Commerce and Insurance** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no fiscal impact.

Officials from the **Department of Labor and Industrial Relations** indicated they anticipate no fiscal impact for this initiative petition.

Officials from the **Department of Revenue** indicated no impact.

Officials from the **Department of Public Safety - Office of the Director** indicated no impact for their department.

Officials from the **Department of Social Services** indicated this will have no fiscal impact for their department.

Officials from the **Governor's office** indicated this proposal should not impact their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact.

Officials from the **Department of Conservation** indicated no adverse fiscal impact to their department would be expected as a result of the proposal.

Officials from the **Department of Transportation** indicated this initiative petition would have no fiscal impact to their department/Missouri Highways and Transportation Commission.

Officials from the **Office of Administration** indicated this proposal amends Article I Section 29 of the Missouri Constitution. This proposal should not impact their office.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be $7 million based on the cost of the 2020 Presidential Preference Primary.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Funding for this item is adjusted each year depending upon the election cycle. A new decision item is requested in odd numbered fiscal years and the amount requested is dependent upon the estimated number of ballot measures that will be approved by the General Assembly and the initiative petitions certified for the ballot. In fiscal year (FY) 2014, the General Assembly changed the appropriation so that it was no longer an estimated appropriation.

In FY19, over $5.8 million was spent to publish the full text of the measures for the August and November elections. Their office estimates $75,000 per page for the costs of publications based on the actual cost incurred for the one referendum that was on the August 2018 ballot.

Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition will not have any significant impact on the Missouri Public Defender System.

Officials from the **State Treasurer's office** indicated no fiscal impact to their office.

Officials from **Clay County** indicated they estimate no costs or savings from this initiative petition.

Officials from **Greene County** indicated there are no estimated costs or savings to report from their county for this initiative petition.

Officials from the **City of Kansas City** indicated this amendment will have no fiscal impact on their city.

Officials from **State Technical College of Missouri** indicated there is no fiscal impact to their college.

Officials from the **Metropolitan Community College** indicated no fiscal impact.

Officials from the **University of Missouri** indicated there would be no significant financial impact on their university.

Officials from the **University of Central Missouri** indicated they estimate no fiscal impact.

Officials from the **Metropolitan Police Department - City of St. Louis** indicated this proposed change would not have any estimated costs or savings for the City of St. Louis-Police Division.

The State Auditor's office did not receive a response from **Adair County, Boone County, Callaway County, Cass County, Cole County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, St. Louis Community College,** the **Kansas City Board of Police Commissioners, Harris-Stowe State University, Lincoln University, Missouri State University, Missouri Southern State University, Missouri Western State University, Northwest**

Missouri State University, Southeast Missouri State University, and **Truman State University**.

Fiscal Note Summary

State and local government entities estimate no costs or savings from this proposal.

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Article III of the Constitution is revised by amending Sections 3, 5, 6, 7, 8, 9, 10, 11, 13, 14, 20(d), and 45 to read as follows:

III Section 3. [(a)] The house of representatives shall consist of [one hundred sixty-three members] ten members from each congressional district, elected at each general election [and redistricted] as provided in this [section] article.

[(b) The house independent bipartisan citizens commission shall redistrict the house of representatives using the following methods, listed in order of priority:

(1) Districts shall be as nearly equal as practicable in population, and shall be drawn on the basis of one person, one vote. Districts are as nearly equal as practicable in population if no district deviates by more than one percent from the ideal population of the district, as measured by dividing the number of districts into the statewide population data being used, except that a district may deviate by up to three percent if necessary to follow political subdivision lines consistent with subdivision (4) of this subsection;

(2) Districts shall be established in a manner so as to comply with all requirements of the United States Constitution and applicable federal laws, including, but not limited to, the Voting Rights Act of 1965 (as amended). The following principles shall take precedence over any other part of this constitution: no district shall be drawn in a manner which results in a denial or abridgment of the right of any citizen of the United States to vote on account of race or color; and no district shall be drawn such that members of any community of citizens protected by the preceding clause have less opportunity than other members of the electorate to participate in the political process and to elect representatives of their choice;

(3) Subject to the requirements of subdivisions (1) and (2) of this subsection, districts shall be composed of contiguous territory as compact as may be. Areas which meet only at the points of adjoining corners are not contiguous. In general, compact districts are those which are square, rectangular, or hexagonal in shape to the extent permitted by natural or political boundaries;

(4) To the extent consistent with subdivisions (1) to (3) of this subsection, communities shall be preserved. Districts shall satisfy this requirement if district lines follow political subdivision lines to the extent possible, using the following criteria, in order of priority. First, each county shall wholly contain as many districts as its population allows. Second, if a county wholly contains one or more districts, the remaining population shall be wholly joined in a single district made up of population from outside the county. If a county does not wholly contain a district, then no more than two segments of a county shall be combined with an adjoining county. Third, split counties and county segments, defined as any part of the county that is in a district not wholly within that county, shall each be as few as possible. Fourth, as few municipal lines shall be crossed as possible;

(5) Districts shall be drawn in a manner that achieves both partisan fairness and, secondarily, competitiveness, but the standards established by subdivisions (1) to (4) of this subsection shall take precedence over partisan fairness and competitiveness. "Partisan fairness" means that parties shall be able to translate their popular support into legislative representation with approximately equal efficiency. "Competitiveness" means that parties' legislative representation shall be substantially and similarly responsive to shifts in the electorate's preferences.

To this end, the average electoral performance of the two political parties receiving the most votes in the three preceding general elections for governor, for United States Senate, and for President of the United States shall be calculated. This index shall be defined as the total votes received by each party in the three preceding general elections for governor, for United States Senate, and for President of the United States, divided by the total votes cast for both parties in these elections. Using this index, the total number of wasted votes for each party, summing across all of the districts in the plan shall be calculated. "Wasted votes" are votes cast for a losing candidate or for a winning candidate in excess of the threshold needed for victory. In any redistricting plan and map of the proposed districts, the difference between the two parties' total wasted votes, divided by the total votes cast for the two parties, shall not exceed fifteen percent.

To promote competitiveness, the electoral performance index shall be used to simulate elections in which the hypothetical statewide vote shifts by one percent, two percent, three percent, four percent, and five percent in favor of each party. The vote in each individual district shall be assumed to shift by the same amount as the statewide vote. In each of these simulated elections, the difference between the two parties' total wasted votes, divided by the total votes cast for the two parties, shall not exceed fifteen percent.

(c) Within sixty days after the population of this state is reported to the President for each decennial census of the United States or, in the event that a redistricting plan has been invalidated by a court of competent jurisdiction, within sixty days that such a ruling has been made, the state committee and the congressional district committees of each of the two political parties casting the highest vote for governor at the last preceding general election shall meet and the members of each committee shall nominate, by a majority vote of the elected members of the committee present, provided that a majority of the elected members is present, members of their party, residents in that district, in the case of a congressional district committee, as nominees for the house independent bipartisan citizens commission. No party shall select more than one nominee from any one state legislative district. The congressional district committees shall each submit to the governor their list of two elected nominees. The state committees shall each submit to the governor their list of five elected nominees. Within thirty days thereafter, the governor shall appoint a house independent bipartisan citizens commission consisting of one nominee from each list submitted by each congressional district committee and two nominees from each list submitted by each state committee to redistrict the state into one hundred and sixty-three representative districts and to establish the numbers and boundaries of said districts. No person shall be appointed to both the house independent bipartisan citizens commission and the senate independent bipartisan citizens commission during the same redistricting cycle.

If any committee fails to submit a list within such time, the governor shall appoint a member of his or her own choice from the political party of the committee failing to submit a list, provided that in the case of a congressional district committee failing to submit a list, the person appointed to the commission by the governor shall reside in the congressional district of such committee.

Members of the commission shall be disqualified from holding office as members of the general assembly for four years following the date of the filing by the commission of its final redistricting plan.

For the purposes of this Article, the term congressional district committee or congressional district refers to the congressional district committee or the congressional district from which a congressman was last elected, or, in the event members of congress from

this state have been elected at large, the term congressional district committee refers to those persons who last served as the congressional district committee for those districts from which congressmen were last elected, and the term congressional district refers to those districts from which congressmen were last elected. Any action pursuant to this section by the congressional district committee shall take place only at duly called meetings, shall be recorded in their official minutes and only members present in person shall be permitted to vote.

(d) The commissioners so selected shall, on the fifteenth day, excluding Sundays and state holidays, after all members have been appointed, meet in the capitol building and proceed to organize by electing from their number a chairman, vice chairman and secretary. The commission shall adopt an agenda establishing at least three hearing dates on which hearings open to the public shall be held to hear objections or testimony from interested persons. A copy of the agenda shall be filed with the clerk of the house of representatives within twenty-four hours after its adoption. Executive meetings may be scheduled and held as often as the commission deems advisable.

(e) Not later than five months after the appointment of the commission, the commission shall file with the secretary of state a tentative redistricting plan and map of the proposed districts and during the ensuing fifteen days shall hold such public hearings as may be necessary to hear objections or testimony of interested persons. The commission shall make public the tentative redistricting plan and map of the proposed districts, as well as all demographic and partisan data used in the creation of the plan and map.

(f) Not later than six months after the appointment of the commission, the commission shall file with the secretary of state a final statement of the numbers and the boundaries of the districts together with a map of the districts, and no statement shall be valid unless approved by at least seven-tenths of the members.

(g) After the final statement is filed, members of the house of representatives shall be elected according to such districts until a new redistricting plan is made as provided in this section, except that if the final statement is not filed within six months of the time fixed for the appointment of the commission, the commission shall stand discharged and the house of representatives shall be redistricted using the same methods and criteria as described in subsection (b) of this section by a commission of six members appointed from among the judges of the appellate courts of the state of Missouri by the state supreme court, a majority of whom shall sign and file its redistricting plan and map with the secretary of state within ninety days of the date of the discharge of the house independent bipartisan citizens commission. The judicial commission shall make public the tentative redistricting plan and map of the proposed districts, as well as all demographic and partisan data used in the creation of the plan and map. Thereafter, members of the house of representatives shall be elected according to such districts until a redistricting plan is made as provided in this section.

(h) Each member of the commission shall receive as compensation fifteen dollars a day for each day the commission is in session but not more than one thousand dollars, and, in addition, shall be reimbursed for his or her actual and necessary expenses incurred while serving as a member of the commission.

(i) No redistricting plan shall be subject to the referendum.

(j) Any action expressly or implicitly alleging that a redistricting plan violates this Constitution, federal law, or the United States Constitution shall be filed in the circuit court of Cole County and shall name the body that approved the challenged redistricting plan as a defendant. Only an eligible Missouri voter who sustains an individual injury by virtue of residing in a district that exhibits the alleged violation, and whose injury is remedied by a differently drawn district, shall have standing. If the court renders a judgment in which it finds that a completed redistricting plan exhibits the alleged violation, its judgment shall adjust only those districts, and only those parts of district boundaries, necessary to bring the map into compliance. The supreme court shall have exclusive appellate jurisdiction upon the filing of a notice of appeal within ten days after the judgment has become final.]

III Section 4. Each representative shall be twenty-four years of age, and next before the day of his election shall have been a qualified voter [for two years] and a resident of the [county or] district which <u>she or</u> he is chosen to represent for one year, if such [county or] district shall have been so long established, and if not, then of the [county or] district from which the same shall have been taken.

III Section 5. [The] <u>With the exception of the number of senators and the length of term of senators elected to serve in the one-hundred-and-third General Assembly as provided for in Article III, Section 11, the</u> senate shall consist of [thirty-four] <u>twenty-one</u> members elected by the qualified voters of the [senatorial districts] <u>state of Missouri</u> for a term of [four] <u>two</u> years. [Senatorial districts shall be apportioned as provided for in Article III, Section 7.]

III Section 6. Each senator shall be thirty years of age, and next before the day of <u>her or</u> his election shall have been a qualified voter [of the state for three years] and a resident of the [district which he is chosen to represent] <u>state of Missouri</u> for one year[, if such district shall have been so long established, and if not, then of the district or districts from which the same shall have been taken].

III Section 7. [(a) Within sixty days after the population of this state is reported to the President for each decennial census of the United States, or within sixty days after a redistricting plan has been invalidated by a court of competent jurisdiction, the state committee and the congressional district committees of each of the two political parties casting the highest vote for governor at the last preceding general election shall meet and the members of each committee shall nominate, by a majority vote of the elected members of the committee present, provided that a majority of the elected members is present, members of their party, residents in that district, in the case of a congressional district committee, as nominees for the senate independent bipartisan citizens commission. No party shall select more than one nominee from any one state legislative district. The congressional district committees shall each submit to the governor their list of two elected nominees. The state committees shall each submit to the governor their list of five elected nominees. Within thirty days thereafter the governor shall appoint a senate independent bipartisan citizens commission consisting of two nominees from each list submitted by each state committee and one nominee from each list submitted by each congressional district committee, to redistrict the thirty-four senatorial districts and to establish the numbers and boundaries of said districts. No person shall be appointed to both the house independent bipartisan citizens commission and the senate independent bipartisan citizens commission during the same redistricting cycle.

If any committee fails to submit a list within such time, the governor shall appoint a member of his or her own choice from the political party of the committee failing to submit a list, provided that in the case of a congressional district committee failing to submit a list, the person appointed to the commission by the governor shall reside in the congressional district of such committee.

Members of the commission shall be disqualified from holding office as members of the general assembly for four years following the date of the filing by the commission of its final redistricting plan.

(b) The commissioners so selected shall, on the fifteenth day, excluding Sundays and state holidays, after all members have been appointed, meet in the capitol building and proceed to organize by electing from their number a chairman, vice chairman and secretary. The commission shall adopt an agenda establishing at least three hearing dates on which hearings open to the public shall be held to hear objections or testimony from interested persons. A copy of the agenda shall be filed with the secretary of the senate within twenty-four hours after its adoption. Executive meetings may be scheduled and held as often as the commission deems advisable.

(c) The senate independent bipartisan citizens commission shall redistrict the senate using the same methods and criteria as those required by subsection (b), section 3 of this Article for the redistricting of the house of representatives.

(d) Not later than five months after the appointment of the senate independent bipartisan citizens commission, the commission shall file with the secretary of state a tentative redistricting plan and map of the proposed districts and during the ensuing fifteen days shall hold such public hearings as may be necessary to hear objections or testimony of interested persons. The commission shall make public the tentative redistricting plan and map of the proposed districts, as well as all demographic and partisan data used in the creation of the plan and map.

(e) Not later than six months after the appointment of the commission, the commission shall file with the secretary of state a final statement of the numbers and the boundaries of the districts together with a map of the districts, and no statement shall be valid unless approved by at least seven-tenths of the members.

(f) After the final statement is filed, senators shall be elected according to such districts until a new redistricting plan is made as provided in this section, except that if the final statement is not filed within six months of the time fixed for the appointment of the commission, the commission shall stand discharged and the senate shall be redistricted using the same methods and criteria as described in subsection (b) of section 3 of this Article by a commission of six members appointed from among the judges of the appellate courts of the state of Missouri by the state supreme court, a majority of whom shall sign and file its redistricting plan and map with the secretary of state within ninety days of the date of the discharge of the senate independent bipartisan citizens commission. The judicial commission shall make public the tentative redistricting plan and map of the proposed districts, as well as all demographic and partisan data used in the creation of the plan and map. Thereafter, senators shall be elected according to such districts until a redistricting plan is made as provided in this section.

(g) Each member of the commission shall receive as compensation fifteen dollars a day for each day the commission is in session, but not more than one thousand dollars, and, in addition, shall be reimbursed for his or her actual and necessary expenses incurred while serving as a member of the commission.

(h) No redistricting plan shall be subject to the referendum.

(i) Any action expressly or implicitly alleging that a redistricting plan violates this Constitution, federal law, or the United States Constitution shall be filed in the circuit court of Cole County and shall name the body that approved the challenged redistricting plan as a defendant. Only an eligible Missouri voter who sustains an individual injury by virtue of residing in a district that exhibits the alleged violation, and whose injury is remedied by a differently drawn district, shall have standing. If the court renders a judgment in which it finds that a completed redistricting plan exhibits the alleged violation, its judgment shall adjust only those districts, and only those parts of district boundaries, necessary to bring the map into compliance. The supreme court shall have exclusive appellate jurisdiction upon the filing of a notice of appeal within ten days after the judgment has become final.]

(a) Beginning with the election of senators and representatives to be held in the year two thousand and twenty-four there will be no primary election for those offices. For the general election, all candidates who file to run and are qualified to run, for the general assembly will be listed on the ballot in the congressional district in which they reside, grouped by political party affiliation. Independent candidates will be grouped together on the ballot.

(b) General elections shall be carried out using a system of ranked choice voting under which each voter shall be able to rank a minimum of three candidates for the general assembly in order of preference. If feasible, the ballot shall permit voters to rank up to ten candidates for the general assembly, or as close to that number as feasible. Voters shall be able to request a general ballot listing all of the candidates for all political parties and all independent candidates, a single-party ballot listing only the candidates of a single political party, or a ballot listing only independent candidates.

(c) A number of spaces equal to the number of choices voters are able to rank shall be provided to write in the names of candidates not appearing on the ballot. All write-in candidates who have properly registered with the secretary of state will be treated as independent candidates when votes are tabulated. Write-in votes may also be cast for candidates for the general assembly who are on the ballot in districts other than a voter's district. The ballot shall be simple and easy to understand, with instructions necessary to enable voters to successfully cast ballots under the system.

(d) The results of each general election will be tabulated in two rounds. In the first round of tabulation only first-choice votes will be counted and the one hundred and one candidates who receive the most first-choice votes are elected to the general assembly. In the second round of tabulation the lower-ranked votes of voters who cast first-choice votes for candidates who were not elected shall be distributed among the candidates who were elected, with a single vote for the highest ranked preference of each such voter being transferred to a candidate who was elected.

(e) If a voter inadvertently casts a vote for more than a single candidate among any of their ranked choices each candidate listed will be given the appropriate fraction of a whole vote. If a voter inadvertently fails to fill in a choice among their ranked choices but has additional lower-ranked choices, the missing ranked choice will be ignored. A ballot with no remaining choices for candidates who were elected is an "exhausted ballot" and shall be set aside.

(f) The five candidates who receive the most votes state-wide and meet the qualifications to serve as senators are elected to the senate. The two candidates from each congressional district who received the most votes, who were not elected to serve as at-large senators and who meet the qualifications to serve as senators are also elected to the senate. The ten candidates from each congressional district receiving the next highest vote totals are elected to the house of representatives.

(g) Officials shall determine a random selection algorithm, prior to tabulation, to resolve ties between candidates for the last remaining seat, or seats, in the general assembly or to determine which members are elected to the senate.

(h) Candidates who are elected to the general assembly shall be given weighted votes in all matters before the general assembly based on the total number of votes each member received. The value of each member's weighted vote shall be determined by dividing the number of votes received by each member by the number of votes received by the member of the house of representatives with the lowest number of votes.

(i) A political party having no candidate for the general assembly or statewide office receiving at least one percent of the total vote in the preceding general election, may qualify for a place on the ballot for the general assembly in each congressional

district by presenting petitions signed by one per cent of the legal voters in that congressional district. An independent candidate may qualify for a place on the ballot in a congressional district by presenting petitions signed by one-half of one percent of the legal voters in the congressional district in which they reside. The number of "legal voters" is equal to, and determined by, the total vote for governor in the general election last preceding. Said petitions are to be delivered to the secretary of state no later than one hundred and twenty days preceding the general election.

(j) The signatures on petitions submitted by independent candidates and political parties shall be subject to verification according to the procedures in the code of state regulations for independent candidate petitions in force at the time the petitions are submitted.

III Section 8. No one shall be elected to serve more than [eight years total in any one house of the General Assembly nor more than] sixteen years total in [both houses of] the General Assembly. In applying this section, service in the General Assembly resulting from an election prior to December 3, 1992, or service of less than one year, in the case of a member of the house of representatives, or two years, in the case of a member of the senate, by a person elected after the effective date of this section to complete the term of another person, shall not be counted.

III Section 9. Until the convening of the Seventy-fourth General Assembly the House of Representatives shall consist of one hundred sixty-three members elected from the one hundred sixty-three representative districts, as they existed January 1, 1965. Beginning with the election of representatives in the primary and general elections to be held in the year two thousand and twenty-four the House of Representatives shall consist of ten members elected from each congressional district.

III Section 10. [The last decennial census of the United States shall be used in apportioning representatives and determining the population of senatorial and representative districts. Such districts may be altered from time to time as public convenience may require.] If the Congress of the United States passes legislation allowing the state of Missouri to elect its representatives to the House of the Congress of the United States at-large or from multiple-member districts, the general assembly shall by law continue to divide the state into a number of districts corresponding with the number of representatives to which it is entitled, composed according to the guidelines provided in Section III, Article 45 and those districts shall continue to be used in electing members of the Missouri house of representatives.

III Section 11. The first election of senators and representatives under this constitution, shall be held at the general election in the year one thousand nine hundred and forty-six when the whole number of representatives and the senators from the districts having even numbers, who shall compose the first class, shall be elected, and two years thereafter the whole number of representatives and the senators from districts having odd numbers, who shall compose the second class, shall be elected, and so on at each succeeding general election. Beginning with the general election to be held in the year two thousand and twenty-four, senators will no longer be divided into two classes. For the election held in the year two thousand and twenty-four only, the senators from the class elected in the year two thousand and twenty-two will continue to serve for the remainder of the term to which they were elected. In the election held in the year two-thousand and twenty-four, the names of the senators from that class will not appear on the ballot, but voters may cast write-in votes for those senators and those write-in votes will be added to the number of votes senators of that class received in the election of two-thousand and twenty-two to determine the value of each senator's weighted vote.

III Section 13. If any senator or representative removes her or his residence from the [district or county for which he was elected, his] state of Missouri, their office shall thereby be vacated. If any senator or representative removes her or his residence from the district from which they were elected, they may serve out their term as long as they continue to reside in Missouri.

III Section 14. [Writs of election to fill v] Vacancies in either house of the general assembly shall be filled by the candidate who would next have been elected at the last general election if the member vacating the office had not been elected [issued by the governor].

III Section 20(d). If any provision of sections 2, 3, 5, 6, 7, 8, 9, 10, 11, 14, 19, [or] 20(c), or 45 or the application thereof to anyone or to any circumstance is held invalid, the remainder of those provisions and the application of such provisions to others or other circumstances shall not be affected thereby.

III Section 45. When the number of representatives to which the state is entitled in the House of the Congress of the United States under the census of 1950 and each census thereafter is certified to the governor, the general assembly shall by law divide the state into districts corresponding with the number of representatives to which it is entitled, which districts shall be composed of contiguous territory as compact and as nearly equal in population as may be. If Congress enacts legislation giving states the right to elect members of the House of the Congress of the United States from either multiple-member districts or at-large, the state of Missouri shall elect its members at-large, if given a choice of the two, or from multiple-member districts, if that is the only choice, with those multiple-member districts composed of contiguous territory as compact and as nearly equal in population as may be.

RE: Petition approval request from Ryan Meyer regarding a proposed constitutional amendment to Article I, Section 36 (2022-002)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Ryan Meyer on November 24, 2020.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

John R. Ashcroft

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Article I is amended by adding and adopting two new sections to be known as Section 36 and Section 36(a).

Section 36. The jury or judge as the trier of the facts in civil actions or torts shall not be limited in their judgment to award a claimant any and all damages that they may deem fair and just. Nor shall the trier of the facts be limited in factors to be considered in calculation of damages, including but not limited to any such factors as pain, suffering, grief, or bereavement.

Section 36(a). Section 36 and Section 36(a) of Article I of this Constitution shall only be amended by affirmation of the voters of Missouri following the constitutional petition process defined in Article III Section 50 of this Constitution.

22-001

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Article I is amended by adding and adopting seven new sections to be known as Sections 29(a), 29(b), 29(c), 29(d), 29(e), 29(f), and 29(g).

Section 29(a). For purposes of collective bargaining in this Constitution, the term "employees" shall be defined as any two or more persons selling their labor who choose to bargain collectively with the same purchaser of labor. For purposes of collective bargaining in this Constitution, the term "employer" shall be defined as a purchaser of labor rendered by employees.

Section 29(b). The right of employees and employers to collectively bargain shall be absolute. All employees shall be entitled to this absolute right regardless of the manner in which they sell their labor whether public, private, or otherwise. No act or statute shall have authority to restrict, restrain, or otherwise affect or interfere with any collective bargaining agreement, contract, or covenant. No act or statute shall have authority to restrict, restrain, or otherwise affect or interfere with the method, means, or process of deliberation or certification of any collective bargaining agreement, contract, or covenant. No act or statute shall have authority to restrict, restrain, or otherwise affect or interfere with any union security agreement of any collective bargaining agreement, contract, or covenant. No act or statute shall have authority to restrict, restrain, or otherwise affect or interfere with the exercise of said right by any employee or employer in the production of any crop, any livestock, any good, or any service.

Section 29(c). In order to ensure the freedom of speech or effectiveness otherwise of employees' bargaining representative or representative organization, and in the event federal law, regulation, or court order prevent the full collection of dues or other means of compensation, the bargaining representative or organization may condition full collection of dues or other means of compensation directly from the employer within the bargained agreement, contract, or covenant, regardless of public or private nature of the employer.

Section 29(d). The right of employees to strike shall be absolute. In order to preserve the public welfare, the legislature may pass reasonable legislation to ensure continuity of service for electricity, water, or heat.

Section 29(e). Nothing in Sections 29, 29(a), 29(b), 29(c), 29(d), 29(e), 29(f), and 29(g) of Article I of this Constitution shall be interpreted to conflict with the law or Constitution of the United States or rulings of any United States court of competent jurisdiction over the state of Missouri.

Section 29(f). Sections 29, 29(a), 29(b), 29(c), 29(d), 29(e), 29(f), and 29(g) of Article I of this Constitution shall only be amended by affirmation of the voters of Missouri following the constitutional petition process defined in Article III Section 50 of this Constitution.

Section 29(g). No section hereunder shall affect the validity or enforcement of any contract in effect at the time of the section's execution.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (22-007)

Subject

Initiative petition from Winston Apple regarding a proposed constitutional amendment to Article III. (Received January 5, 2021)

Date

January 25, 2021

Description

This proposal would amend Article III of the Missouri Constitution.

The amendment is to be voted on in November 2022.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education and Workforce Development,** the **Department of Health and Senior Services,** the **Department of Commerce and Insurance,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College,** the **St. Louis County Board of Elections,** the **Board of Election Commissioners City of St. Louis,** the **Kansas City Board of Election Commissioners,** the **Platte County Board of Elections,** the **Jackson County Election Board,** and the **Clay County Board of Election Commissioners.**

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, they expect that their office could absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may be required to request additional appropriations.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated no impact to their department.

Officials from the **Department of Elementary and Secondary Education** indicated no impact to their department.

Officials from the **Department of Higher Education and Workforce Development** indicated no impact to their department.

Officials from the **Department of Health and Senior Services** indicated this initiative petition has no impact on their department.

Officials from the **Department of Commerce and Insurance** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no fiscal impact.

Officials from the **Department of Labor and Industrial Relations** indicated they anticipate no fiscal impact for this initiative petition.

Officials from the **Department of Revenue** indicated no impact.

Officials from the **Department of Public Safety - Office of the Director** indicated no impact for their department.

Officials from the **Department of Social Services** indicated this will have no fiscal impact for their department.

Officials from the **Governor's office** indicated this proposal amends Article III of the Missouri Constitution by repealing Section 10 and amending Sections 3, 5, 6, 7, 8, 9, 11, 13, 14, 20(d), and 45.

The proposed amendment would:

- Change the number of House of Representatives members from 163 to 10 members from each of the State's Congressional districts;
- Remove the requirement that House members have been a qualified voter for two years and require House members to be residents of the district rather than the county or district.
- Change the number of Senators from 34 to 3 members from each congressional district and reduce their term from 4 to 2 years.
- Eliminate the House and Senate independent bipartisan citizens commissions and their duties.
- Change the election process for Representatives and Senators. Beginning with the 2024 election, there will be no primary, and the general election shall be carried out using a system of ranked choice voting.
- Limit members to 16 total years in the General Assembly, removing the current limit of 8 years in any one house.
- Allow members to serve out their term if they move out of their district but remain in Missouri.
- Remove current language granting the Governor the authority to issue writs of election to fill vacancies in either house of the General Assembly. Instead, vacancies would be filled using rankings, with Senate vacancies filled by House members.
- Provide guidance for at large or multiple member districts if allowed by Congress.

Other than the repeal of current Section 14 language granting the Governor the authority to issue writs of election to fill House and Senate vacancies, this proposal should not impact their office.

Officials from the **Missouri House of Representatives** indicated the impact to the House is as follows:

FY25-Impact on half the fiscal year.
Cost savings of ($3,966,931.05)

FY26-will be the first year they realize the full impact of the reduction in membership.
Cost savings of ($7,076,222.27)

The costs savings come from member salaries, per diem, member mileage, member expense accounts, and a reduction in the number of legislative assistant staff needed. They assume the Office of Administration may show the temporary unknown increased cost for

any legislative assistants that would have to be laid off and the impact it may have on state unemployment payments. They also provided the following information:

Member Yearly Cost

Member Salary	$35,915.00
Per diem	$8,456.00 [1]
Mileage	$1,877.01 [2]
Member Expense	$8,400.00 [3]
LA	$30,607.68 [4]
Total Yearly Avg Cost	**$85,255.69**

LA	$3,718,833.12
Total	$9,929,746.42

difference from normal year expenses	-$3,966,931.05

Officials from the **Department of Conservation** indicated no adverse fiscal impact to their department would be expected as a result of this proposal.

Officials from the **Department of Transportation** indicated this initiative petition would have no fiscal impact to their department/Missouri Highways and Transportation Commission.

Officials from the **Office of Administration** indicated this proposal amends Article III of the Missouri Constitution by repealing Section 10 and amending Sections 3, 5, 6, 7, 8, 9, 11, 13, 14, 20(d), and 45.

The proposed amendment would:

- Change the number of House of Representatives members from 163 to 10 members from each of the State's Congressional districts;
- Remove the requirement that House members have been a qualified voter for two years and require House members to be residents of the district rather than the county or district.
- Change the number of Senators from 34 to 3 members from each congressional district and reduce their term from 4 to 2 years.
- Eliminate the House and Senate independent bipartisan citizens commissions and their duties.
- Change the election process for Representatives and Senators. Beginning with the 2024 election, there will be no primary, and the general election shall be carried out using a system of ranked choice voting.
- Limit members to 16 total years in the General Assembly, removing the current limit of 8 years in any one house.
- Allow members to serve out their term if they move out of their district but remain in Missouri.
- Remove current language granting the Governor the authority to issue writs of election to fill vacancies in either house of the General Assembly. Instead, vacancies would be filled using rankings, with Senate vacancies filled by House members.
- Provide guidance for at large or multiple member districts if allowed by Congress.

This proposal should not impact their office.

There could be an unknown temporary cost associated with unemployment payments for laid off staff. Not knowing the number of legislative assistants that might be laid off or how many would apply for unemployment benefits, this is not a cost that they included in their fiscal note response.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated they anticipate a fiscal savings if Article III is amended as outlined in the initiative petition. In summary, reducing the number of Senators from 34 to 24 would create an overall savings of approximately $946,482 ($750,000 in one-time costs and $1,696,482 in annual savings). They also provided the following information:

Initiative Petition 22-007 to Amend Article III

Modifies provisions relating to the number of House and Senate Districts
Changes the number of Senators from 34 to 3 members from each congressional district (3*8 = 24 Senators)
Changes the term for Senators from 4 years to 2 years

EXPENSE	Appropriation	EST SAVINGS PER EACH	TOTAL EST SAVINGS X -10	Notes
Senators' Mileage	0004	(1,931.40)	(19,314.00)	Statutory Appropriation - average total miles of current senators used in calculation 261 X .37 X 20 weeks
Senators' Per Diem	0005	(8,344.00)	(83,440.00)	Statutory Appropriation - current daily per diem $119.20 X 70 est total session days
Senators' Salary	0003	(35,914.80)	(359,148.00)	Statutory Appropriation - current legislator salary $1,496.45 X 24 pay periods

Annual Budget	9801	(123,458.00)	(1,234,580.00)	Annual cost for Senators annual budget to pay personnel, mailings, district travel and office expenses
SENATE CONTINGENT FISCAL IMPACT:		**626,542.00**	**(484,580.00)**	
TOTAL FISCAL IMPACT:		**$ 580,351.80**	**$ (946,482.00)**	

Officials from the **Secretary of State's office** indicated this petition would change the composition of the General Assembly and cause representatives and senators to be elected by congressional district using ranked-choice voting. At each general election, voters would see a list of all General Assembly candidates from their congressional district on their ballot, with the ability to rank their choices of at least three but possibly up to 10 candidates from each list. Additionally, voters shall be given the option to select between an all-party ballot, a single-party ballot, or a ballot containing only independent candidates. This consolidation may incur the following costs:

Reprogramming/Replacing voting machines: Voting machines in Missouri are currently programmed to accept only single-page ballots with a single vote per race – each of these machines would need to be reprogrammed to accept ranked-choice votes and provide for multiple-page ballots due to the potential for large numbers of candidates to file for General Assembly seats. Any machine that cannot be reprogrammed would need to be replaced with a new machine that does possess such capabilities. Either cost would be a new requirement that the state must assume under Article X, Section 21 of the Missouri Constitution.

As of the 2017 voting systems survey conducted by their office, local election authorities reported that they possessed 7,565 voting machines. The estimated cost for each new voting machine is $5,000. The total cost to the state will vary depending on the number of machines which are ready to accept ranked-choice votes or can be reprogrammed to do so. However, using total replacement of all machines as a maximum cost, this provision may result in a total impact to general revenue ranging from $0 up to $37,825,000.

Also, the separate ballots for each political party will create new ballot styles which must be coded into the machines. This will increase programming costs to the local election authorities by an unknown but possibly significant amount.

Postage Costs: mailing envelopes used to return absentee ballots are printed with business reply permits – pursuant to Section 115.285, RSMo., Local Election Authorities are reimbursed for these costs by their office at a current cost of $1.80 per envelope based on the current size and weight of the envelope and ballot; multiple-page ballots would increase these costs.

Ballot printing costs: Local election authorities bear the cost of printing ballots for each election – paying to print multiple page ballots would substantially increase printing costs. Additionally, each election authority will have an increased number of ballot styles to accommodate the separate ballots for each party, which would be reflected in the layout costs charged by their ballot vendor.

Due to situational variables, it is not possible to determine a concrete amount of fiscal impact to this measure (beyond the aforementioned machine replacements). However, the costs to the state and to local election authorities could be significant.

Officials from the **Office of the State Public Defender** indicated their office will have no fiscal impact as a result of this initiative petition.

Officials from the **State Treasurer's office** indicated no fiscal impact to their office.

Officials from **Clay County** indicated they estimate the following proportional costs to Clay County government as a result of this amendment—should it pass:

- Approximate printed general election ballots cost increase of ~$20,000.00***This is the only recurring cost per general election, the rest are one-time
- Approximate advertising for voter education cost increase of ~$500.00
- Approximate staff training cost increase of ~$1,000.00
- Approximate voting machine software upgrade cost increase of ~$10,000.00
- Approximate mapping updates cost increase of ~$500.00

Total estimated costs of $**32,000.00**. Only $12,000 one-time to upgrade, $20,000 every general election. No savings.

Officials from **Greene County** indicated it is estimated on an **annual basis to cost an additional $15,000** to conduct a ranked choice voting election in the County of Greene due to the additional software license fees that will need to be purchased to conduct it. It will also require a **one-time additional cost of $6,000** to purchase 2 new computers for the conduction of a ranked choice voting election. This does not include the individual programming costs that will likely increase for each election, as they cannot be faithfully estimated. This is due to the changing number of candidates running for each Missouri General Assembly legislative district seat in both the House and Senate that Greene County voters will be voting on in each election.

Estimated Cost to Conduct a November General Election:

Here's the difference in the layout and coding costs for this past November.

- **Non RCV** = Approximately $10,381.25 for layout, coding and audio.

- **RCV** = Approximately $11,234.00 for layout, coding and audio.

The additional costs for the November 2020 General election with a ranked choice voting model would have been an additional **$852.75** more.

It is difficult to provide a sound estimate regarding a ranked choice voting election, because it is completely contingent upon how many candidates there are for each race that will be ranked choice. The layout, coding, audio and expense for a race with two candidates and a write-in in a ranked choice vote election will become two races with four candidates and two write-ins, thereby increasing the cost.

This figure will begin to increase exponentially as additional candidates are added. For example, a race with three candidates and a write-in turns into three races with nine candidates and three write-ins.

Here is an example of how the ballot layout will change, which will require additional coding costs to allow for the ranked choice voting to take place.

Officials from the **City of Kansas City** indicated this proposed amendment would have no fiscal impact on their city.

Officials from **Metropolitan Community College** indicated no fiscal impact.

Officials from the **St. Louis County Board of Elections** indicated they estimate this petition to have a one-time fiscal note of about $30,000. They would have to upgrade their election software to include a system for ranked-choice voting, and they predict this would cost the above amount.

Officials from the **Platte County Board of Elections** indicated their existing equipment will handle ranked choice voting. They expect no significant costs or savings.

The State Auditor's office did not receive a response from **Adair County, Boone County, Callaway County, Cass County, Cole County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, State Technical College of Missouri, University of Missouri, St. Louis Community College,** the **Board of Election Commissioners City of St. Louis,** the **Kansas City Board of Election Commissioners,** the **Jackson County Election Board,** and the **Clay County Board of Election Commissioners.**

Fiscal Note Summary

The General Assembly is estimated to have approximately $750,000 in one-time costs and $8.8 million in annual savings. State and local governments could incur significant election-related costs of $48,000 to $38 million in one-time costs, and ongoing costs of at least $15,000 annually and at least $21,000 for each general election.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (22-059)

Subject

Initiative petition from Marc Ellinger regarding a proposed constitutional amendment to Article XIV of the Constitution of Missouri. (Received August 27, 2021)

Date

September 16, 2021

Description

This proposal would amend Article XIV of the Constitution of Missouri.

The amendment is to be voted on in November 2022.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education and Workforce Development,** the **Department of Health and Senior Services,** the **Department of Commerce and Insurance,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College, University of Central Missouri, Harris-Stowe State University, Lincoln University, Missouri State University, Missouri Southern State University, Missouri Western State University, Northwest Missouri State University, Southeast Missouri State University, Truman State University, Missouri Veterans**

Commission, Missouri Office of Prosecution Services, the **Kansas City Board of Police Commissioners,** and the **Metropolitan Police Department - City of St. Louis.**

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, they expect that their office could absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may be required to request additional appropriations.

Officials from the **Department of Agriculture** indicated there is no fiscal impact to their department from this initiative petition.

Officials from the **Department of Economic Development** indicated no fiscal impact to their department.

Officials from the **Department of Elementary and Secondary Education** indicated no impact to their department.

Officials from the **Department of Higher Education and Workforce Development** indicated no impact to their department.

Officials from the **Department of Health and Senior Services** indicated the total estimated net effect on all state funds for fiscal year 2023 would be negative $10,312,978, fiscal year 2024 would be $38,424,091, and fiscal year 2025 would $76,506,197. Initial/one-time costs total $2,431,790.

They indicated the proposed initiative petition allows existing medical marijuana licensed facilities to convert to a comprehensive license. It is assumed that some revenues (medical patients, caregivers, patient/caregiver cultivation ID cards, and medical marijuana tax) will be deposited into the existing Missouri Veterans' Health and Care Fund while all other revenues associated with facility licensure, facility certifications, personal cultivation registration ID cards, and adult use tax will be deposited into a new Veterans, Health, and Community Reinvestment Fund.

The proposed legislation could create new small business opportunities.

Space for 38 staff (2 full-time employees (FTE) for the Missouri Veterans' Health and Care Fund (0606) and 36 for the Veterans, Health, and Community Reinvestment Fund) will be required by fiscal year (FY) 2023: 38 FTE x 230 sq. ft. x $18.00 = $157,320 The staff will be located in Jefferson City.

Missouri Veterans' Health and Care Fund 0606

Section 1.3(5) – The previous confidentiality provision has been replaced with a provision making records subject to the Sunshine Law. The effect is that more records will be

releasable. In addition to this, the Department of Health and Senior Services (DHSS) is to establish a process for existing licensees to designate which portions of previously provided records should be protected as proprietary.

Their department requires two Associate Research Data Analysts with an annual salary of $43,000 to address these needs beginning December 2022.

Section 1.3(12) – Previously, patient/caregiver cultivation ID cards were valid for one year and cost $100. Under the initiative petition (IP), these cards are valid for 3 years and cost $50. The first cards issued will not expire until after December 1, 2025, which is FY 2026. This causes a reduction in annual revenue of $2,638,084 ($2,889,634 amount collected in state fiscal year (SFY) 2021 less-$251,550 projected in SFY 2023), $2,381,956 (($2,889,634 less -$507,678 projected in SFY 2024), $2,377,428 ($2,889,634 less -$512,207 projected in SFY 2025).

Section 1.3(19) Patient ID cards are currently valid for one year. Under the IP, these cards would be valid for three years. This would cause a reduction in annual revenue of $2,543,906 in FY 2023; $1,915,961 in FY 2024; and $1,905,109 in FY 2025 as the first cards issued will not expire until after December 1, 2025, which is FY26.

Section 1.3(20) – Previously, caregiver ID card were valid for one year. Under the IP, these cards are valid for 3 years. This causes a reduction in annual revenue as the first cards issued will not expire until after December 1, 2025, which is FY 2026. Annual revenue is estimated at FY 2023 $76,843; FY 2024 $61,771; and $61,510.

Section 1.5(1) Out of state patients were not eligible to purchase medical marijuana in MO. Under the IP, they are, which will cause an increase in sales tax revenues. Based on data from Arkansas, who publishes temporary patient (reciprocity) licenses issued statistics, their department assumes out of state medical marijuana visitors will purchase an amount of medical marijuana equal to eleven percent of what Missouri's medical marijuana patient base purchases in a fiscal year.

Considering all changes in Section 1 there will be a reduction in new patient applications and its related fees. Their department estimates patient, caregiver, and patient cultivator applications and revenue received will be:

FY 23: $882,925 (30,286 patient, caregiver, and patient cultivation) + $1,129,523 (medical marijuana taxes) = $2,012,448

FY 24: $1,782,071 (60,574 patient, caregiver, and patient cultivation) + $3,845,957 (medical marijuana taxes) = $5,628,028

FY 25: $1,797,712 (60,574 patient, caregiver, and patient cultivation) $3,845,957 (medical marijuana taxes) = $5,643,669

A detail summary of projected revenue for SFY 2023 through SFY 2025 is attached **(Attachment A).**

Due to the reduction in-patient, caregiver, and patient cultivator applications, their department will eliminate 3 full-time Public Health Program Associate positions that process applications, with their annual salaries of $39,531 each.

There will be a reduction in the Missouri Veterans' Health and Care Fund from medical facility licenses converting to comprehensive licenses under Section 2. Their department anticipates certifications: Laboratory, Seed to Sale and Transportation will also move into Section 2. Their department anticipates a reduction in both license fees and certification fees with all future fees going to the new Veterans, Health, and Community Reinvestment Fund. The reduction will be FY 23 $6,344,857; FY 24 $5,163,434 and FY 25 $5,281,115.

Once all facilities convert to comprehensive licenses under Section 2 provisions, their department anticipates facility agents ID cards will no longer be required. Their department anticipates a reduction in revenues from the loss of these fees $289,502.

Relatedly, this results in reduced staffing costs as their department will no longer require 3 Public Health Program Associates with annual salaries of $39,531 each, who process facility agent applications.

Their department will also no longer require the contract for a facility agent application system, which eliminates an annual cost of $147,300.

Their department assumes all medical facility licenses will convert and will no longer pay annual or renewal fees under the Section 1. During the timeframe analyzed for this response, their department does not expect to issue new medical facility licenses to replace the licenses that converted. With no facility licenses operating under Section 1, the following full time positions would no longer be necessary and will move as operating expenditures to the new Veterans, Health, and Community Reinvestment Fund:

- Seven- Senior Regulatory Auditors who review minimum licensing standards, process change request per rule and audit licensure activities.
- One Regulatory Auditor Supervisor for management oversight.
- Fourteen- Compliance Inspectors that regulate medical marijuana licensed and certified facilities to comply with Missouri law through inspection and other regulatory tools, and provide compliance assistance;
- Four Compliance Inspection Supervisors for management oversight by region;
- One Regulatory Compliance Manager that oversees all licensed and certified medical marijuana facilities, and
- One Lead Administrative Support Assistant to support staff.

Their department assumes a **50/50** split in responsibilities between the two Funds for the following positions:

- One Section Director to provide leadership and program oversight;

- One Section deputy director to provide leadership and program oversight;
- Three legal counsel who handle license appeals and provide legal documents needed for licensure actions. These positions will represent 1.5 FTE;
- One Special Assistant Professional (Litigation Coordinator) who assists legal counsels as a paralegal;
- One Lead Administrative Support to support legal counsels;
- One Administrative Support Professional to support the Section Director, Deputy Director, and Operations Unit;
- One Program Coordinator to manage the Operations Unit and provide administrative logistical support across the program such as communications and program budget;
- One Staff Development Training Specialist to provide professional development and on-boarding of staff; and
- One Program Specialist to provide reporting and strategic development.

Veterans, Health, and Community Reinvestment Fund

The addition of Section 2 to Article XIV would have fiscal impact on DHSS include: Establishment of a Veterans, Health, and Community Reinvestment Fund**.** Establishing Section 2 of the Article XIV that would have fiscal impact on DHSS include:

Section 2.4(7) – Records, with certain exceptions, will be subject to the Sunshine Law.

Their department requires 1 Associate Research Data Analyst with an annual salary of $43,000 to address these needs to appropriately respond to the expected volume of requests for records.

Section 2.4(1)(d) – DHSS holds an existing third-party contract for seed-to-sale tracking of medical marijuana. Under the IP, the same seed-to-sale tracking services would be required for comprehensive marijuana and microbusiness facilities.

The additional cost to add comprehensive marijuana and microbusiness facilities into the existing seed-to-sale tracking system is $815,000 + for FY23 and $365,000 for FY24 and FY25.

Section 2.4(1)(c), 2.4(8)–(12), 2.4(23)– DHSS holds an existing third-party contract for accepting online application forms. Under the IP, similar application form services would be required for comprehensive marijuana and microbusiness facilities and consumer cultivation ID cards. The additional cost for an online system for these applications will be $527,700 for FY23 and $223,560 for FY24 and FY25.

2.4(4)(i) – Previously, licensees could choose to appeal denials and revocations through the Administrative Hearings Commission. Under the IP, licensees may also appeal a host of penalties to the AHC. Costs associated with this provision are included below.

Section 2.4(9) – Section 2 allows all medical facility licenses to convert to comprehensive licenses; their department assumes all medical facility licenses will convert. Fees for

comprehensive marijuana cultivation facilities will be $12,000 to apply or renew for the first three years of the program. The annual fee per license will be $25,000. Per Section 2.4(15)-(17), their department assumes there will be 60 comprehensive cultivation facilities within 60 days of the effective date of the new law. Revenues from annual fees for these licenses will be $1,500,000 in FY23, $1,513,500 in FY24, and $1,527,122 in FY25. After 1.5 years of the program, their department may issue additional comprehensive cultivation licenses, and assumes it will receive 400 applications during FY25 to issue 10 new licenses in December 2025. Revenues from 400 application and 10 annual fees will be $5,141,309 in FY25 totaling $6,668,431.

Section 2.4(10) – Section 2 allows all medical facility licenses to convert to comprehensive licenses, their department assumes all medical facility licenses will convert. Fees for comprehensive marijuana dispensary facilities will be $7,000 to apply or renew for the first three years of the program. The annual fee per license will be $10,000. Per Section 2.4(15)-(17), their department assumes there will be 192 comprehensive dispensary facilities within 60 days of the effective date of the new law. Revenues from annual fees for these licenses will be $1,920,000 in FY23, $1,937,280 in FY24, and $1,954,716 in FY25. After 1.5 years of the program, their department may issue additional comprehensive dispensary licenses, and assumes it will receive 200 applications during FY25 to issue 16 new licenses in December 2025. Revenues from 200 application and 16 annual fees will be $1,588,206 in FY25 totaling $3,542,922.

Section 2.4(11) – Section 2 allows all medical facility licenses to convert to comprehensive licenses, their department assumes all medical facility licenses will convert. Fees for comprehensive marijuana manufacturing facilities will be $7,000 to apply or renew for the first three years of the program. The annual fee per license will be $10,000. Per Section 2.4(15)-(17), their department assumes there will be 86 comprehensive manufacturing facilities within 60 days of the effective date of the new law. Revenues from annual fees for these licenses will be $860,000 in FY23, $867,740 in FY24, and $875,550 in FY25. After 1.5 years of the program, their department may issue additional comprehensive manufacturing licenses, and assumes it will receive 200 applications during FY25 to issue 8 new licenses in December 2025. Revenues from 200 application and 8 annual fees will be $1,506,760 in FY25 totaling $2,382,310.

Section 2.4(12) – Fees for marijuana microbusinesses will be $1,500 for applications and renewals. Application fees may be refunded for applicants that do not receive a microbusiness license. Their department assumes all application fees will be refunded if a microbusiness license is not issued. Annual fees will be $1,500 per year after the first year. Per Section 2.4(13), per the IP, their department will begin accepting applications by September 4, 2023, issue 32 microbusiness dispensary, and 64 microbusiness wholesale licenses in FY24. Per the IP, their department will issue another 16 microbusiness dispensary and 32 microbusiness wholesale licenses by April 4, 2025. Their department assumes all application fees will be refunded except those for the 48 awarded licenses. Revenues from these fees will be $0 in FY23, $145,296 in application fees and $0.00 in annual fees for FY24, and $146,604 in FY25 for annual fees from those licenses issued October 2023 (FY24).

The total for all new facility applications in FY25 is $7,957,321.

Issuing new comprehensive facility licenses and microbusiness licenses under Section 2.4(9)-(12) by lottery will cause new licensing costs. Third party application system costs are addressed above. For license application processing and all related licensing activities associated with the new licenses, beginning in December 2022, their department will require;

- Two Regulatory Auditor Supervisors with an annual salary of $63,500; and
- Six Senior Regulatory Auditors with annual salary of $46,350.

The increased compliance needs for the new microbusiness, new comprehensive licenses, and additional testing/transportation/seed-to-sale certifications means their department will require an additional:

- Five Compliance Inspectors with annual salary of $55,104;
- One Program Specialist with an annual salary of $40,000; and
- One Administrative Support Assistant with an annual salary of $39,000.

Vehicles and travel costs will be associated with the Compliance Inspector positions.

The increased investigation and enforcement needs, including participating in appeals of penalties and license denials/revocations, associated with the new microbusiness licenses, new comprehensive licenses, new certifications, consumer cultivators, and the increases in marijuana products and sales in Missouri means their department will require:

- One Regulatory Compliance Manager with an annual salary of $68,895;
- Seven Compliance Inspectors with an annual salary of $55,104; and
- One Business Project Manager with an annual salary of $50,000.

One investigative/forensic data analysis unit with an annual salaries of:

- One Program Coordinator at $68,495;
- Six Senior Research Analysts at $50,000; and
- One Administrative Support Assistant at $39,000 annually.

Vehicles and travel costs will be associated with the Compliance Inspector positions. Their department will also require an additional IT system solution for Investigation Workflow Management, at an annual cost of $422,160.

This proposed language will require a Case Management System Expansion $300,000; Investigative Management System $729,000; RFDS $24,000; IT Security Access Solution $500,000; and Gensys Phone System $13,459.

Section 2.4(13)-(14) – DHSS will appoint a Chief Equity Officer within 60 days of the effective date of the new law. For the duties described, they will require:

- One Business Project Manager for $50,000 annual salary;
- One Program Specialist at $35,000 to assist with eligibility reviews; and
- One Public Health Program Specialist at $45,000 to assist with public education programming.

Section 2.4(15)-(16) – These provisions allow any medical facility licensee to convert its license to a comprehensive license in order to serve both patients and consumers. As long as they are in good standing with DHSS, all requests are allowed to convert. Therefore, their department assumes all medical facility licenses will convert to comprehensive licenses within the first 3 months after the effective date of the new law. These must be processed within 60 days of receiving the request. With all facility licenses operating under Section 2, the following positions will be necessary under Section 2 as of January 2023:

Seven Senior Regulatory Auditors who review minimum licensing standards, process change request per rule and audit licensure activities:

- One Regulatory Auditor Supervisor for management oversight $69,865;
- Thirteen Compliance Inspectors $55,105; and
- One non-commissioned Investigator $45,900.

These will regulate medical marijuana licensed facilities to comply with Missouri law through inspection and other regulatory tools, and provide compliance assistance and 4 Compliance Inspection Supervisors for management oversight statewide or by region:

- One Regulatory Compliance Manager that oversees all licensed and certified medical marijuana facilities including the Licensing and Compliance units $86,700; and
- One Lead Administrative Support Assistant to support staff $42,840.

Some existing positions will be shared between Section 1 and Section 2. Their department assume a 50/50 split in responsibilities between the two Funds:

- One Section Director and one Section deputy director to provide leadership and program oversight;
- Three attorneys;
- One Litigation Coordinator;
- One Lead Administrative Support to support license appeals and provide legal documents needed for licensure actions;
- One Administrative Support Professional to support the Section Director, Deputy Director, and Operations Unit;
- One Program Coordinator to manage the Operations Unit and provide administrative logistical support across the program such as communications and program budget;
- One Staff Development Training Specialist to provide professional development and on-boarding of staff; and

- One Program Specialist to provide reporting and strategic development.

Section 2.4(22) –Their department anticipates certifications, including: Laboratory testing, Seed to Sale, and Transportation facilities will move from Section 1 to Section 2 including the fees associated with their certification. Fees to apply for certifications, such as testing, transportation, and seed-to-sale facilities, shall be $2,500. Their department assumes it will receive 20 applications to issue 2 additional testing facility licenses, 10 applications to issue 5 additional transportation, and 10 applications to issue 5 additional seed-to-sale certifications annually. Revenues from application and annual fees will be $210,000 in FY23, $237,115 in FY24, and $269,791 in FY25.

Section 2.4(23)-(24) – Their department will require staff to process applications for personal cultivation registration cards. The fee for these applications is $100, and these registration cards are valid for 1 year. Their department estimates 26,136 new consumers will apply to cultivate in FY23, 79,200 in FY24, and 118,800 in FY25. The annual revenues for these cards would be $2,613,600 in FY23, $7,991,280 in FY24, and $12,094,802 in FY25. As these are 1 year cards, they expect 12,428 renewal applications in FY24 and 37,660 renewal applications in FY25 with renewal revenues of $1,253,952 in FY24 and $3,834,052 in FY25. To process these applications, their department will require 10 Program Specialists with $40,000 annual salary each year.

Section 2.6 – The tax on non-medical marijuana sold to consumers is 6%, and revenues from this tax will be deposited in a "Veterans, Health, and Community Reinvestment Fund." Their department estimates non-medical sales tax revenue as follows: $8,977,382 for FY23, $46,313,352 for FY24, and $69,470,028 for FY25.

Their department will need to retain a reserve fund for a reasonable working cash balance. The reserve retained by their department is estimated to be approximately $4 million. Their department will assess the need at the end of each fiscal year once actuals are recorded. The IP states each year, after expenses and reserved needed is calculated, monies will first go to governmental entities with expungement responsibilities in an unknown amount. Then the remaining amount is divided in thirds, including one third to DHSS to award as grants to certain entities; one third to the Veterans Commission and allied state agencies; and one third to Missouri Public Defenders system.

Section 2.6(2)(c)(ii) – DHSS is to establish a grant program for organizations that offer drug addiction treatment programs. Their department will also require beginning in FY 2023: 1 Program Coordinator at $68,495.
Beginning in FY 2024:

- Three Grant Specialists at $50,000;
- Two Grant Officers at $45,000; and
- Two Grant Associates at $40,000.

2.9(3)–(5) – DHSS is required to enforce packaging and labeling requirements. With the increase in marijuana and marijuana products under Section 2, their department requires 4

Program Specialists with $45,000 annual salary to process requests for approval and pursue enforcement of the related requirements.

They also provided the following information.

Officials from the **Department of Commerce and Insurance** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact. However, the impact on the demand for substance use disorder treatment is unknown. Their department sees the legalization of marijuana as a broader public health issue, especially for children.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated the total estimated net effect on all state funds for fiscal year 2024 would be $227,986 to Unknown, fiscal year 2025 would be $676,775 to Unknown, and fiscal year 2028 would be $1,071,308 to Unknown.

This initiative petition establishes and modifies provisions relating to the legalization of marijuana.

The following estimation of operational impact only provides an estimate of the potential impact of the proposed language on future offender populations. It does not take into account the proposal to allow for the vacation of sentences for some drug offenses outlined in Subsection 10(7) of Section 2 because their department does not have the detailed information about the quantities of drugs involved in offenses that resulted in sentences that would be required to determine which offenders would be eligible for sentence vacation, immediate or otherwise.

The estimate of the number of offenders who will be impacted by the proposed legalization of marijuana can be calculated from the sentencing records maintained by their department, but with an important qualification. Most offenders sentenced for drug offenses in Missouri are sentenced for the production, sale, distribution or possession of a controlled substance, but the drug type is not always part of the sentence information that their department receives. In some cases, the drug type is known and is included in the offender management database, but the proportion of cases in which the drug related to the offense is known is a minority of the cases. Given that the drug associated with the offense is unknown by their department in the majority of cases, the estimation of the total impact that follows will use the proportions of cases in which the associated drug is known to determine the number of cases in which the associated drug is unknown that are likely related to marijuana. Therefore, they assume 3% of all prison admissions related to drug sentences are related to marijuana (see table 1).

Table 1. FY 2017 through FY 2020 admissions to prison on only drug-related sentences in which the drug associated with the offense is known. (Drug offenses and drug types are identified in the data system through the use of the NCIC categories, modifiers associated with a sentence, and the description of the offense.)

Marijuana	70	3.3%
Other Drug	2,072	96.7%
Total	2,142	100.0%

Of the 922 offenders with new commitments to prison in FY 2020 who were admitted only on drug sentences, 575 were cases in which an offender's youngest age associated with any of those drug offenses was 21 years of age or older. The average length of those sentences was 5.6 years. Based on their assumption that 3% of those sentences are related to marijuana, they estimate 17 admissions for sentences of people 21 years of age or older for offenses related only to marijuana.

In FY 2020, there were 1,263 offenders released from prison who had been incarcerated for new commitments to prison only on drug sentences. Their average length of time served to first release was 1.1 years, which is what they assume for all future new commitments in estimating their impact.

Based on their analysis of new probation cases related to drug sentences received by their department in FY 2020, approximately 7% of the cases in which the associated drug is known are related to marijuana (see table 2). Therefore, they assume 7% of all new probation cases are based on drug sentences related to marijuana.

Table 2. FY 2020 probation cases related only to drug sentences in which the drug associated with the offense is known. (Drug offenses and drug types are identified in the data system through the use of the NCIC categories, modifiers associated with a sentence, and the description of the offense.)

Marijuana	209	7.0%
Other Drug	2,766	93.0%
Total	2,975	100.0%

Of the 5,138 offenders with new probation cases in FY 2020 whose cases were only on drug sentences, 2,274 were cases in which an offender's youngest age associated with any of those drug offenses was 21 years of age or older. Based on their assumption that 7% of those sentences are related to marijuana, they estimate 159 new probations for sentences of people 21 years of age or older for offenses related only to marijuana. The average length of those sentences was 5.4 years. Given the possibility of earned compliance credit, they apply a 3-year sentence in their estimation of impact.

The estimated cumulative impact of this proposal on department operations is 44 fewer people in prison and 528 fewer people under supervision in the field by FY 2029.

*If this impact statement has changed from statements submitted in previous years, it is because their department has changed the way probation and parole daily costs are calculated to more accurately reflect the way the Division of Probation and Parole is staffed across the entire state

In December 2019, their department reevaluated the calculation used for computing the Probation and Parole (P&P) average daily cost of supervision and revised the cost calculation to be the DOC average district caseload across the state which is 51 offender cases per officer. The new calculation assumes that an increase/decrease of 51 cases would result in a change in costs/cost avoidance equal to the cost of one FTE staff person. Increases/decreases smaller than 51 offenders are assumed to be absorbable.

In instances where the proposed legislation would only affect a specific caseload, such as sex offenders, their department will use the average caseload figure for that specific type of offender to calculate cost increases/decreases. For instances where the proposed legislation affects a less specific caseload, their department projects the impact based on prior year(s) actual data for their department's 48 probation and parole districts.

Their department cost of incarceration in $21.251 per day or an annual cost of $7,756 per offender. Their department cost of probation or parole is determined by the number of P&P Officer II positions that would be needed to cover the new caseload.

They also provided the following information.

Officials from the **Department of Labor and Industrial Relations** indicated they anticipate no fiscal impact for this initiative petition proposing to amend Article XIV.

Officials from the **Department of Revenue** indicated this is an initiative petition that would go to the vote of the people at the November 2022 general election. If this is not adopted by the people, this would not have a fiscal impact.

Should this be adopted at the November 2022 election, by the time certification of the election occurs, it is assumed this constitutional amendment would have a January 1, 2023 effective date. Per the requirements of this proposal, citizens would be able to file for a license to be certified to sell marijuana starting December 8, 2022. It is assumed that this proposal would start January 1, 2023 (FY 2023). For calculation of any costs in this proposal they used this start date.

Section 1- Medical Marijuana

XIV Section 1 – Removing the requirement that a person be a Missouri resident from the definition of "qualifying patient" may result in additional persons requesting a medical marijuana card. Currently in order to get a medical marijuana card you must be a resident of Missouri. Their department is unable to predict if there will be an increase in the number of medical marijuana cards.

Increasing the number of people who could purchase medical marijuana may increase the sales tax collected for medical marijuana. Currently medical marijuana is taxed at 8.225%.

The medical marijuana sales tax is distributed as:

Missouri Veterans' Health and Care Fund (4%)
General Revenue (3%)
School Districts Trust Fund (1%)
Conservation Commission (0.125%)
Parks, Soil & Water (0.1%)

If additional medical marijuana is sold, it could potentially increase the revenue to these funds. Their department is unable to predict this increase.

Currently qualifying patients shall obtain annual identification cards. This proposal would no longer require them to annually renew. This will result in a loss of revenue. Their department defers to the Department of Health and Senior Services to determine this lost revenue.

Section 4- Taxation and Reporting

Their department is able to retain up to 5% of the revenue collected from the medical marijuana tax to reimburse for their actual collection costs. This proposal would lower the amount to no more than 2%. However, their department currently retains 1% to cover their expenses. From November 2020 to July 2021 they retained a total of $26,325.

Section 4(8)- Medical Marijuana Deduction

This proposal would allow medical marijuana businesses a subtraction from the federal adjusted gross income the amount that would have been allowed from the computation of the taxpayer's federal taxable income if the income were not disallowed solely from them being a marijuana business. Under federal law marijuana is a controlled substance and businesses selling it are not allowed some deductions that other businesses are entitled to. Since marijuana is allowed to be sold in Missouri, this would allow them to adjust their federal adjusted gross income before calculating their Missouri adjusted gross income.

This would require their department to make an independent interpretation of federal law on what would or would not be an allowable federal deduction. Their department is unable to calculate the amount of income and deductions that these businesses could possibly be allowed to deduct under this proposal. They assume this could result in an unknown that could be significant negative fiscal impact to general revenue and total state revenue.

This bill would become effective January 1, 2023, and with no specific start date it would allow people to start filing for this immediately. Therefore, they will show the impact starting in fiscal year (FY) 2023.

This would require changes to the Forms MO-A and the MO-1120. The Form MO-A has a selection of check boxes for a set of "other" subtractions, so a new line would not necessarily be required. The Form MO-1120 does not currently have this checkbox option, so it would either require a new line or a reformatting of the subtractions in Part 2. This could result in some computer programming changes and form changes estimated at $2,000 in one-time costs.

Section 2 Marijuana Legalization, Regulation and Taxation

These provisions establish the guidelines for the legalization of marijuana (selling and using) by adults 21 years of age or older. The provisions include who can sell the product and how much a consumer can possess.

This proposal establishes a process by which marijuana facilities must be licensed and the fees they must pay. Their department will defer to the Department of Health and Senior Services to determine the amount of revenue that will be generated annually from the registration fees.

Additionally, this allows any citizen to apply for a marijuana card to grow their own marijuana. These grow your own cards have an annual fee. Their department will defer to the Department of Health and Senior Services to determine the amount of revenue that will be generated annually from these fees.

Section 6 - Taxation and Reporting

This proposal legalizes marijuana for recreational purposes. It imposes a tax on recreational marijuana upon the retail sale at a marijuana retail facility. The tax shall be at a rate of 6 percent starting January 1, 2023, the effective date of this proposal. Per this proposal, their

department is allowed to retain 2% of the tax collected or an amount to cover their administrative costs whichever is less.

It should be noted that this proposal requires the collection and payment of this recreational marijuana tax but does not specify when it is to be paid. Additionally, their department is not given rulemaking authority to set the collection dates for this tax that was given to the Division of Alcohol and Tobacco Control. For the calculation of the fiscal note, their department assumes this tax will be collected and remitted at the same time regular sales and use tax is collected. Should it be determined a different remittance time is allowed, the projected fiscal impact could be different than calculated.

All recreational marijuana tax revenues are to be deposited into the Veterans, Health and Community Reinvestment Fund. This proposal then outlines how that money is to be spent.

Based on a study completed by Gallup, 12 percent of the nation's adults smoke marijuana regularly. Based on information published on suburbanstats.org, there are approximately 4,181,284 individuals at age 21 or above in the State of Missouri, 12% of the total number of adults aged 21 or older would equal 501,754 adults.

A report published by Headset Inc, a new market insights from Seattle-based cannabis intelligence company, believes that the average marijuana consumer spends roughly $647 on marijuana and related products per year. Based on information provided in the report published by Headset Inc, the largest pool of individuals surveyed spent $1,000 or above each year on marijuana and marijuana products. These amount of $647 and $1000 will allow them to estimate a fiscal impact range.

This proposal allows for a 6% excise tax to be collected on the recreational marijuana as well as the current state sales tax rate of 4.225%. Bringing the total state tax to 10.225%.

Their department notes that sales tax is added to the purchase prices. Therefore at the low rate of $647 they assume total taxable sales of $324,634,838 ($647 * 501,754). Therefore at the low end they estimate the 10.225% collected state tax would be $33,193,912 ($324,634,838 * 10.225%).

Veterans Health	$19,478,090
General Revenue	$9,739,045
School District Trust Fund	$3,246,348
Conservation Commission	$405,794
Park, Soil & Water Fund	$324,635

At the upper rate of $1,000 they assume a total taxable sales of $501,754,000 ($1,000 * 501,754). Therefore at the upper end they estimate the 10.225% collected state tax would be $51,304,347 ($501,754,000 * 10.225%).

Veterans Health	$30,105,347
General Revenue	$15,052,620
School District Trust Fund	$5,017,540
Conservation Commission	$627,193
Park, Soil & Water Fund	$501,754

This proposal allows local political subdivisions to collect their current sales and use tax on marijuana. Their department assumes a current local sales and use tax rate of 4.03%. At this current rate it is estimated this would generate $13,867,751 to $21,433,927 for local governments.

This proposal allows local political subdivisions to impose up to an additional 3% sales tax on marijuana in their political subdivision. Their department is unable to determine how many political subdivisions would chose to institute this additional 3%. Their department assumes this would be an increase in revenue to any local political subdivision that chooses to do this.

This proposal does not limit the sale of recreational marijuana to just Missouri residents. Therefore, this proposal could be significantly underestimated. Additionally, this proposal allows Missouri residents to receive a license to grow their own product. If citizens chose to grow their own it could significantly reduce the amount of recreational marijuana tax and sales tax that is collected by the state.

This proposal allows their department to retain up to 2% of the tax collected to pay for the administration and collection of the tax. This would allow their department to retain $290,775 to $449,421 based on the estimated amount collected above. They are unsure if this would cover all of their department's increased expenses from implementing recreational marijuana. Should it not be enough, they will request additional funding through the appropriation process.

They know they will need a new reporting form that needs to be developed to track and monitor the recreational tax on the sale of marijuana. 2 Associate Customer Service Representatives (ASCR) at $24,360 for processing reporting forms, phone calls and correspondence received. 1 Management Analysis Specialist (MAS) at $38,476 to work with Division of Alcohol and Tobacco Control to administer this section as significant coordination may be required. Their department will need to make programming changes to the current sales and use tax databases. This is estimated at $10,000.

Section 2.6(8) - Recreational Marijuana Deduction

This proposal would allow recreational marijuana businesses a subtraction from the federal adjusted gross income the amount that would have been allowed from the computation of the taxpayer's federal taxable income if the income were not disallowed solely from them being a marijuana business. Under federal law marijuana is a controlled substance and business selling it are not allowed some deductions that other businesses are entitled to. Since marijuana is allowed to be sold in Missouri, this would allow them to adjust their federal adjusted gross income before calculating their Missouri adjusted gross income.

This would require their department to make an independent interpretation of federal law on what would or would not be an allowable federal deduction. Their department is unable to calculate the amount of income and deductions that these businesses could possibly be allowed to deduct under this proposal. Their department assumes this could result in an unknown that could be a significant negative fiscal impact to general revenue and total state revenue.

This bill would become effective January 1, 2023, and with no specific start date it would allow people to start filing for this immediately. Therefore, they will show the impact starting in FY 2023.

This would require changes to the Forms MO-A and the MO-1120. The Form MO-A has a selection of check boxes for a set of "other" subtractions, so a new line would not necessarily be required. The Form MO-1120 does not currently have this checkbox option, so it would either require a new line or a reformatting of the subtractions in Part 2. This could result in some computer programming changes and form changes estimated at $2,000 in one-time costs.

Section 10- Personal Use of Marijuana – (Expungement of Records)

As written, this law would allow eligible individuals with marijuana-related Driving While Intoxicated offenses to expunge those offenses.

For offenses where there is a current punishment in place, Section, 10(7)(a)(iii) & (b)(iii), it offers remedies where an individual can petition the court, and those sections prohibit expungement of CDL-related offenses. But then there is a catch-all section, Section 10(8)(a), that would compel the court to automatically expunge all the sets of convictions for which the punishment had been completed – and that does not create an exception for CDL-related offenses

Allowing marijuana-related driving offenses to be expunged as proposed in this section will, in some instances, compromise the state's enforcement of the provisions of §302.060, RSMo, regarding five-year and ten-year alcohol and drug license denials. In other instances, it will compromise the enhancement provisions of §302.525, RSMo, and the state's ignition interlock programs requiring offenders with multiple offenses to have an interlock device on any vehicle they operate for a minimum period of six months from the date of license reinstatement. The federal regulations and state statutes consider a repeat offender to be any person who has been convicted of more than one impaired driving

offence in five years. Missouri law denies a driver license for five years when this occurs. In addition, Missouri denies a driver license for 10 years to any person who has three or more impaired driving convictions in a lifetime. If a person is allowed to expunge these offenses these laws will not be enforceable. As such, the state may be ineligible to seek "Impaired Driving" federal grants.

The language in this IP may be inconsistent with the provisions of §§577.054 and 610.130, RSMo, which do not allow a driving while intoxicated (DWI) offense to be expunged until after 10 years from date of conviction, and only if the person has no other DWI offenses on record or pending. It is unclear if the expungement under this new section would be considered an independent remedy.

As written, this IP could potentially allow eligible individuals with marijuana-related Driving While Intoxicated offenses who hold a commercial driver license (CDL) to expunge those offenses, which would violate federal Commercial Driver License provisions prohibiting masking of violations and record keeping requirements for convictions and license actions committed in any type of vehicle under 49 CFR Section 384, specifically, the provisions of §384.225(d), as adopted in Missouri under §302.347, RSMo, for offenses committed by those required to possess a CDL. This proposal could also potentially result in their department violating §302.347, RSMo, which contains Missouri adopting federal record keeping requirements under 49 CFR Section 384 to report to the CDLIS (Commercial Driver's License Information System) all convictions and license actions committed in any type of vehicle for CDL holders or those required to possess a CDL.

Failure to comply with federal regulations under 49 CFR Section 384 may result in the loss of Federal-aid highway funds apportioned to the State, as defined in 49 CFR 383.401, with the first year of non-compliance resulting in a 4% reduction ($26 million), and each subsequent year subject to a 8% reduction ($52 million). This proposal could result in the decertification under 49 CFR 384.405, resulting in Missouri not being able to issue CDL credentials.

Should their department be found to be non-compliant and be required to stop the issuance of CDL credentials, they should have a potential loss of revenue. For informational purposes their department is noting the number of transactions that occurred in FY 2020 (the last complete year of data) for CDL licenses, permits, test fees and update fees as well as TPT annual fees that would reduce total revenue if they remained non-compliant with no action to resolve and were required to shut down their program.

Here is the chart of costs.

Commercial Permit (new)		13,406	$118,770.00
Commercial Permit (renewal)		354	$1,770.00
Totals CDL New		16,416	$621,690.00
Totals CDL Renewal		34,517	$1,257,651.00
Duplicate CDL Instruction Permit		160	$800.00
REAL ID Duplicate CDL *		8,574	$0.00
CDL Skills Test		8,255	$206,375.00
CDL Written Test		20,423	$510,575.00
Third Party Tester App.		11	$1,100.00
Medical Certificate Update		72,472	$0.00
		174,588	**$2,718,731.00**

Driver license issuance and renewal fees go MoDOT for transportation.

Should their department not be allowed to continue the CDL program then the Missouri State Highway Patrol and several third party contractors may impact their FTE requirements or allocation. Currently, CDL applicants must undergo testing done by the Highway Patrol or a third party contractor and that would no longer be necessary. Their department will defer to the Highway Patrol about any potential FTE impact.

Their department notes that they are unsure when or if the federal government would rule they are out of compliance and if found out of compliance not allow them to participate in the CDL licensing program. If found out of compliance and lose the ability to participate in the CDL program they have estimated the potential losses above. At this time they are unable to estimate in which fiscal year these losses could possibly occur.

DLB Administrative Impact

Section 10 of this proposal would require their department to honor a court-ordered expungement of any marijuana-related driving offenses currently reflected on the driving record of qualifying individuals. This would include convictions for driving under the influence of drugs (DUID), driving while intoxicated (DWI), Minor in Possession and abuse and loss suspensions and revocations and chemical related revocations. Excludes offenses committed by a CDL holder that is in violation of 49 CRR 390.5 or its successor provisions, from the expungement provisions.

Per this proposal all government entities are required to administratively expunge the marijuana records. Those expungements are to be done within 90 days. Currently, one FTE can process approximately 50 court-ordered expungements per day. The proposed legislation will increase the number of expungements received by their department. Their department has no current data or systematic way to determine how many of the over one million related actions are marijuana related and may require evaluation for expungement. Due to the age of the existing motor vehicle system they are unable to run a query for marijuana offenses. They will need to go through all the records to determine which offenses are for marijuana to expunge them.

In order to meet the timeline of this proposal, their department assumes they will need at a minimum 10 temporary staff members ($8,164 per person). Based on the volume of marijuana violations additional staff may be necessary to meet the timeline.

Additionally, to implement the proposed legislation, their department will be required to:

- Update procedures; and
- Train staff.

FY 2020 – Driver License Bureau

Research Data Analyst	10 hrs. @ $23.82 per hr.	= $238
Manager	10 hrs. @ $22.24 per hr.	= $222
Total		= $460

Their department assumes the cost to update procedures and internal training will be absorbed.

Comments:

To ensure full CDL program compliance the sponsor should modify the language to ensure the proposed expungement provisions do not apply to offenses in an CMV or by a commercial driver license or commercial learner's permit holder as defined in 49 CFR §383.51. Failure to meet these provisions and mandatory reporting requirements may result in a loss of funding of up to 4 percent of Federal-aid highway funding in the first year of noncompliance and up to 8 percent in second and subsequent years of noncompliance.

This language could also result in Missouri losing accreditation and the ability to issue CDL's. This noncompliant finding, if not remedied, could result in the loss of an estimated $1.2 million in CDL issuance and renewal fees. These fees go toward highway funding.

Officials from the **Department of Public Safety - Office of Director** indicated no impact for the Director's office or the Department of Public Safety, Division of Alcohol and Tobacco Control. The Missouri Veterans Commission has addressed their fiscal concerns in a separate response to the State Auditor's Office. The following response is from the Missouri State Highway Patrol.

Missouri State Highway Patrol - Impact and Concerns 22-059

There are approximately 32,327 records in the Traffic Arrest System (TAS) pertaining to arrests completed by the Missouri State Highway Patrol that could possibly meet the requirements of this proposed constitutional amendment. These are arrest records with or without a court conviction with an NCIC modifier of 60-64 that relate to marijuana offenses. However, due to the uncertain nature of this proposal to amend Missouri's Constitution, the Patrol Records Division (PRD) has no true way to determine the actual impact associated with such a proposal. If PRD is required to simply complete a mass expungement of all 32,327 records without processing individual court orders, then this could probably be completed by the Criminal Justice Information Services Division (CJIS) programming the TAS. However, if PRD is required to process 32,327 court orders for this endeavor, then the division will require 9 FTE to process the court orders.

1 full-time employee (FTE) = 1,864 hours (average work hours per year) x 60 minutes per hour = 111,840 minutes per year.

30 minutes = estimate of the amount of time per petition to log, process, research, review, and expunge the information/record when the order is received.

1 FTE can process 3,728 expungements per year = 111,840 / 30.

32,327 / 3,728 = 9 FTEs

The approximate cost for 9 FTEs would be $477,000 including fringe benefits.

The fiscal impact would also include the cost associated with replacing all but 2 of the Patrol's canines. The Patrol's canines are currently trained using cannabis/marijuana as one of four drugs they are to alert to. The purchase and initial training for a canine is approximately $25,000. The overall cost to purchase and train the current canine program would be approximately $175,000 ($25,000 X 7). The time to train these canines could take up to three years. Not only will there be a financial impact to the Patrol, there will also be an impact to the services provided to other law enforcement agencies until the unit reaches full capacity.

In addition to the fiscal impact, the following are the Patrol's concerns based on what other states have reported:

In 2009, Colorado traffic fatalities involving drivers testing positive for marijuana represented 9% of the total traffic fatalities. Recreational marijuana use was legalized in 2012. By 2019, that number more than doubled to 21%.

Since recreational marijuana was legalized in 2013, Colorado traffic deaths in which drivers tested positive for marijuana increased 135% while all Colorado traffic deaths increased 24%.

Marijuana-related deaths when a driver tested positive for marijuana more than doubled from 55 deaths in 2013 to 129 deaths in 2019.

The yearly number of marijuana related hospitalizations increased 101% after the legalization of marijuana, (2009-2017).

Colorado's youth for 2020 marijuana use was 43% higher than the national average.

The average THC levels in marijuana has increased significantly over the years: 1969-0.8%, 1995-4%, 2013-13%, 2017-20+%, Oil, 1995-13%, 2013-52%, highest plant 38%, highest oil 95%+.

Medical marijuana has been legal in the state of Colorado since 2000. On November 12, 2012, the state of Colorado passed Amendment 64, which legalized private use of marijuana. Per the Colorado State Patrol's driving under the influence statistics, marijuana DUI citations increased 25.5% from 2014 to 2018 and marijuana and alcohol citations increased 112% in the same time range. As marijuana becomes legalized, its use increases.

The three years after Colorado legalized marijuana for recreational use (2013-2015), its use increased in youth ages 12-17, by 12%, in young adults aged 18-25 by 16%, and adults 26 and older by 71%. By removing the recommended acceptable ages of use, zoning regulations, packaging, and advertising of cannabis/marijuana, the risk of use and abuse of marijuana by the youth of Missouri is substantially increased. This category of Missourians, who recent studies have shown significant long-term cognitive impairment when marijuana is ingested during the developmental years, would be affected.

In Missouri, medical marijuana was legalized by Amendment 2 and took effect December 2018. As of July 9, 2020, 18 states and Washington D.C. have legalized recreational marijuana and 37 states have legalized medical marijuana. In a 2013-2014 National Highway Traffic Safety Administration (NHTSA) roadside survey, 20% of the nighttime and weekend drivers tested positive for drugs. Interestingly, the number of daytime drugged drivers was approximately the same amount as night and weekend drugged drivers. A roadside study in Colorado and Washington, the first two states to legalize marijuana for recreational use, showed the primary increase of marijuana users happened to their daytime drivers. The percent of drivers that tested positive for marijuana during the day went from 8%, before recreational marijuana sales, to 23%, 6-12 months after marijuana was legalized. There was a 48% increase in weekend nighttime drivers testing positive for THC or 11-OH-THC (an active metabolite of THC) from 2007 to 2014.

Montana legalized medical marijuana in 2004 and from 2007-2010, the presence of marijuana in DUI suspects increased over 100%. Also, the number of DUI suspects who tested positive for alcohol and marijuana increased by over 180%.

This has Department of Health and Senior Services (DHSS) being the agency that enforces it. The concern is that DHSS has no police powers which would inhibit enforcement efforts.

This initiative petition will remove cannabis/marijuana from Missouri Revised Statutes and creating conflict with both several Federal and State laws, such as the use or possession of a firearm, and could conflict and violate federal law. This initiative petition does not support the Gun Control Act (GCA), codified at 18 U.S.C. § 922.

As Section 2 includes the central repository, there is a CJIS technical impact to remove any offenses identified in the proposal including FBI records. This significance of the CJIS technical impact is unclear as the court petition process is not clearly defined and the proposal does not identify if expungement means to destroy or close the record.

The authority to submit fingerprints to the FBI for a federal fingerprint based criminal record check is not authorized though the Initiative Petition process. Federal fingerprint based criminal record checks authorized under P.L. 92-544 can only be approved under a state statute that has gone through the full legislative process. All legislative proposals and statute changes that involve access to FBI criminal history must be vetted through the FBI Criminal Justice Information Law Unit (CJILU) for approval prior to utilization. Section 195.815 RSMo covers the federal fingerprint based criminal record checks that the Initiative Petition is referencing, however, the Department of Health and Senior Services is proposing changes to 195.815 RSMo to obtain FBI approval, which may enable the use as a P.L. 92-544 statute.

As the Patrol has officers assigned to federal task forces that may be involved in a federal drug operation, there are concerns over potential civil litigation resulting from these types of operations, as marijuana is still classified as a Schedule I controlled substance, and illegal under federal law.

The Patrol operates in accordance with the Drug-Free Workplace Act of 1988, which requires a drug testing program. This program tests potential employees as well as random testing for incumbent employees in enforcement, and drug sensitive areas.

Noted in Section 1.7 (1) (d), this provides good protection for employers. The Patrol believes this needs to be added to Section 2 of the initiative petition as well.

Another concern is the inability to properly train officers as laws have not yet been established. Further training is currently needed on medical marijuana laws, and more training will need to be established if this passes. Once recreational use passes, other intoxicating/impairing substances may be targeted for legalization/decriminalization as they have in many other states. One example is Oregon which has decriminalized psilocybin, cocaine, heroin, oxycodone, methamphetamine, and other drugs.

If passed, this petition will conflict with federal cannabis/marijuana laws and could cause significant conflict with several Federal and State laws, such as the use or possession of a firearm. Cannabis/marijuana causes impairment and is not a suitable drug to be used in various safety sensitive positions in the workforce, therefore strong language protecting employers is suggested. The workforce which could be affected would include any position

where safety is a must, such as operating a motor vehicle, operating heavy machinery, and all aspects of public safety.

There is no language as to where the cannabis/marijuana may remain, such as any cannabis/marijuana purchased or grown in Missouri must remain in Missouri. While this is a federal offense, a lack of this type of language may allow Missouri cannabis/marijuana facilities to distribute cannabis/marijuana outside of the state or allow other states to distribute their cannabis/marijuana in Missouri. A lack of such language could lead to Missouri being a distribution state for states where cannabis/marijuana remains illegal.

The Patrol believes this initiative petition could be a detriment to the medical marijuana program Missouri has established. Across the board this initiative petition pushes legalizing or decriminalizing marijuana for everyone. Possession and cultivation amounts are raised, taxes and fines are decreased, and public safety aspects are removed or so specific that violators will likely never be convicted or prosecuted. This initiative petition will allow marijuana to be advertised similarly to alcohol, which is concerning due to the abuse of alcohol by minors.

For further consideration, as the legalization or decriminalization of cannabis/marijuana has increased in the past several years, so have the crashes and deaths on highways. Blood screenings on drivers in serious injury and fatal crashes have shown a staggering increase in drivers who have cannabis/marijuana within their system at the time of the crash.

Overall cost to the Patrol:
9 full-time employees = $477,000
7 new canines for the canine program = $175,000
Total cost = $652,000

Officials from the **Department of Social Services** indicated this will have no fiscal impact for their department.

Officials from the **Governor's office** indicated this proposal addresses the regulation and taxation of cannabis for recreational and medical use. This proposal should not fiscally impact their office.

Officials from the **House of Representatives** indicated no fiscal impact.

Officials from the **Department of Conservation** indicated there is no anticipated fiscal impact (cost or savings) to their department associated with this proposal.

Officials from the **Department of Transportation** indicated this initiative should not have a fiscal impact to their department/ Missouri Highways and Transportation Commission. Commercial Motor Vehicle drivers would remain prohibited from using and possessing marijuana due to the more stringent USDOT regulations.

Officials from the **Office of Administration** indicated this proposal would legalize recreational marijuana for any Missouri resident over the age of 21, beginning December 8, 2022. Article XIV, Section 1, which authorized creation of the medical marijuana program is also amended.

Subdivision 1.3(12) would increase the number of marijuana plants that a qualifying patient may cultivate within their home to six flowering marijuana plants, six nonflowering marijuana plants over fourteen inches tall, and six clones under fourteen inches tall. This subdivision also increases the duration of a patient cultivation card to three years and reduces the card fee to $50. Each of these changes would result in a reduction to TSR. Budget & Planning (B&P) defers to the Department of Health and Senior Services (DHSS) for further discussion on the impact.

Subdivision 1.3(13) would increase the maximum amount of dried, unprocessed marijuana that can be purchased within a 30 day period to six ounces which may result in an increase to TSR. B&P defers to DHSS for further discussion on the impact.

Subdivision 1.3(14) would create a new penalty for medical marijuana possession over the legal limit. Patients with certification from two independent physicians or nurse practitioners with a compelling reason for possessing additional amounts will not be subject to these requirements. Possession of between 12 ounces and 24 ounces of dried, unprocessed flower shall be subject to department sanctions including an administrative penalty of up to $200 and loss of their patient identification card for up to one year. This codifies this penalty into the Constitution and will have no impact on TSR as this matches current state regulations pursuant to 19 CSR 30-95. For possession in excess of 24 ounces, the possessor shall be subject to an infraction under applicable law. It is unknown how this change may impact the number of violations or penalties resulting in an unknown impact to TSR.

Subdivision 1.3(19-20) would increase the duration of patient and caregiver identification cards to three years which would result in a reduction to TSR. This section also requires a new patient certification every three years for each card renewal. B&P defers to DHSS for further discussion on the impact.

Subdivision 1.4(1) would reduce the percentage of medical marijuana sales tax collections that the Department of Revenue (DOR) may retain for the cost of collections. B&P defers to DOR for an estimated impact from this provision.

Subdivision 1.4(8) would allow marijuana related businesses operating under Article XIV to deduct business expenses from their Missouri adjusted gross income. B&P notes that this provision would begin January 1, 2023 if voter approved. Therefore, B&P assumes that this deduction would become available for taxpayers for tax year 2022. B&P notes that tax year 2022 returns would not be filed until April 2023. Therefore, B&P estimates that this proposal could reduce GR beginning in FY23.

B&P notes that typically businesses are allowed to deduct certain expenses from their federal adjusted gross income (FAGI). Those deductions would then flow through to the business's Missouri adjusted gross income (MAGI) allowing for an implicit deduction from Missouri's income tax. However, because marijuana is a controlled substance at the federal level, marijuana related businesses are not allowed to deduct their business expenses on their federal taxes. This would allow such businesses to receive the business expense deduction at the state level.

B&P was unable to obtain enough revenue, cost, or profit margin data for medical marijuana related businesses to estimate the GR impact from this proposal. Therefore, B&P estimates that this proposal will reduce TSR and GR by an unknown, but significant, amount beginning with FY23.

Subdivision 1.5(7) would increase the number of marijuana plants that a primary caregiver may cultivate within their home to six flowering marijuana plants, six nonflowering marijuana plants over fourteen inches tall, and six clones under fourteen inches tall. This subdivision also limits the number of flowering plants per caregiver to 24 regardless of the number of patients they are caring for.

Subdivision 1.7(3) would increase the penalty for any business or individual selling a product in a manner designed to cause confusion between a marijuana or marijuana-infused product and any product not containing marijuana. **Subdivision 1.7(4)** increases the penalty for any business that violates marijuana-infused products packaging requirements as mandated by DHSS. For each of these two provisions, the amended penalty now may include up to a $5,000 administrative penalty which codifies this penalty into the Constitution and will have no impact on TSR as these match current state regulations pursuant to 19 CSR 30-95.

Subdivision 1.7(5) would increase the number of patients a primary caregiver may serve to six patients. It also limits the number of flowering plants per caregiver to 24 regardless of the number of patients they are caring for. It is unknown how these changes may impact the number of primary caregiver identification or cultivation cards resulting in an unknown impact to TSR.

Subdivision 1.7(6) would prohibit any person from smoking marijuana in any public place unless it is specifically licensed for that purpose by an entity with appropriate jurisdiction. Violations of this provision are subject to a civil penalty of up to $100. This may increase TSR by an unknown amount.

Subdivision 1.7(7) would prohibit any person or business from extracting resins from marijuana using dangerous materials or gases without a medical marijuana manufacturing license. Violations of this provision are subject to an administrative penalty of up to $1,000 for a patient or caregiver and $10,000 for a facility licensee. This codifies this penalty within the Constitution and will have no impact on TSR as this matches current state regulations pursuant to 19 CSR 30-95.

Subsection 2.1 would legalize recreational marijuana for individuals age 21 and older effective December 8, 2022.

Subdivision 2.4(1)(i) would require DHSS to establish a lottery selection process to select comprehensive facility licenses, certificate holders, and marijuana microbusiness licensees. Medical marijuana facilities that will convert to a comprehensive facility will not be subject to the lottery process.

Subdivision 2.4(2) would require DHSS to issue no less than the amount of medical marijuana facility licenses currently issued as of December 7, 2022. This subdivision grants DHSS the authority to issue more licenses than the minimum requirements to meet market demand.

Subdivision 2.4(4) would authorize DHSS to promulgate rules and regulations necessary for the implementation and enforcement of this section, including the creation of administrative penalties. Dependent upon the penalty amounts and likelihood of violations that DHSS implements, these penalties may increase TSR by an unknown amount.

Subdivision 2.4(8) would require DHSS to make license application forms available for marijuana microbusinesses by June 6, 2023 and begin accepting those applications by September 4, 2023.

Subdivision 2.4(9) would require comprehensive marijuana cultivation facilities to pay a non-refundable $12,000 per license application or renewal between December 8, 2022 and December 7, 2025. Beginning December 8, 2025, comprehensive marijuana cultivation facilities shall be charged a non-refundable application and renewal fee of $5,000. Renewal fees would be incurred every three years. In addition, comprehensive marijuana cultivation facilities shall be charged an annual fee of $25,000, adjusted for inflation.

Subdivision 2.4(10) would require comprehensive marijuana dispensary facilities to pay a non-refundable fee of $7,000 per application or renewal between December 8, 2022 and December 7, 2025. Beginning December 8, 2025, comprehensive marijuana dispensary shall be charged a non-refundable application and renewal fee of $3,000. Renewal fees would be incurred every three years. In addition, comprehensive marijuana dispensary facilities shall be charged an annual fee of $10,000, adjusted for inflation.

Subdivision 2.4(11) would require comprehensive marijuana-infused products manufacturing facilities to pay a non-refundable fee of $7,000 per application or renewal between December 8, 2022 and December 7, 2025. Beginning December 8, 2025, comprehensive marijuana-infused products manufacturing dispensary shall be charged a non-refundable application and renewal fee of $3,000. Renewal fees would be incurred every three years. In addition, comprehensive marijuana-infused products manufacturing facilities shall be charged an annual fee of $10,000, adjusted for inflation.

Subdivision 2.4(12) would require marijuana microbusiness facilities to pay a refundable fee of $1,500 per application and renewal. The application and renewal fee shall be adjusted

for inflation annually. Renewal fees would be incurred every three years. In addition, microbusinesses shall be charged an annual fee of $1,500, beginning the year after the microbusiness' application is accepted. Microbusinesses will only be allowed to operate as a microbusiness dispensary facility or as a microbusiness wholesale facility and conduct business transactions with other licensed microbusinesses and directly with qualifying patients, caregivers, and consumers. Microbusiness majority owners must meet at least one of several different qualifications including having a net worth below $250,000, being disabled due to military service, reside in an economically disadvantaged area, or have been negatively impacted by past marijuana possession laws.

Subdivision 2.4(13) would require DHSS to issue microbusiness licenses in each Missouri congressional district as specified below. Future changes to the congressional boundaries or number of districts will not impact these license numbers.

- Six licenses (two dispensaries, four wholesale) – licenses to be issued no later than October 4, 2023;
- An additional six licenses (two dispensaries, four wholesale) – licenses to be issued no later than June 30, 2024; and
- An additional six licenses (two dispensaries, four wholesale) – licenses to be issued no later than April 1, 2025.

Subdivision 2.4(22) would permit DHSS to charge up to $2,500 for certifications of testing facilities. Dependent upon the number of testing facilities DHSS would certify, this would result in an unknown increase to TSR. B&P defers to DHSS for further explanation on this impact.

Subdivision 2.4(23-24) would require DHSS to make personal cultivation application forms available to the public by January 7, 2023 and begin accepting these applications by February 6, 2023. Personal cultivators are allowed to cultivate up to six flowering marijuana plants, six nonflowering marijuana plants over fourteen inches tall, and six clones under fourteen inches tall. However, no more than twelve plants may be kept at a single private residence. Personal cultivation cards would be valid for 12 months at a charge of $100 annually, adjusted for inflation. To the extent that individuals purchase personal cultivation cards, this would increase TSR by an unknown amount. B&P defers to DHSS for further explanation on this impact.

Subdivision 2.5(1) allows local governments to prohibit non-medical marijuana facilities to be located within the local subdivisions boundaries.

Subdivisions 2.6(1) through 2.6(3) would levy a 6% tax on the retail sale of recreational marijuana. Subdivision (1) would further grant DOR the ability to retain up to 2% of collections to reimburse the department for collection costs. All remaining monies collected shall be deposited into the newly created "Veterans, Health, and Community Reinvestment Fund." Monies in the fund shall be used in the following ways:

- DHSS costs for enforcing Section 2;

- Government entities for the costs of expungement; and
- The remaining balance shall be distributed equally among:
    - One-Third – Missouri Veterans Commission and allied agencies for the health care and other services for military veterans and their families;
    - One-Third – DHSS to provide grants to not-for-profit organizations to increase access to drug addiction treatment; and
    - One-Third – Missouri public defender system for legal assistance for low-income Missouri citizens.

Subdivision 2.6(4) states that the tax levied under Section 2 shall be in addition to all other state and local taxes. B&P notes that the state levies a sales tax rate of 4.225% and the population weighted local sales tax rate as of July 2021 is 4.03%. **Subdivision 2.6(5)** would allow local governments to levy up to an additional 3.0% tax on the sale of recreational marijuana within that subdivision's boundaries. B&P is unable to determine which local jurisdictions would levy an additional tax and the tax rate that may be levied for each subdivision. Therefore, for the purpose of this fiscal note, B&P will only show the population weighted local sales tax rate of 4.03%. **Subdivision 2.6(6)** prohibits any other state and local taxes from being levied on recreational marijuana.

B&P notes that under this proposal the total state sales tax on medical marijuana will remain 8.225%, while the total state sales tax on recreational marijuana will be 10.225%. Therefore, B&P assumes that medical sales will not be reduced as a result of legalizing recreational marijuana. However, Subdivision 2.2(4) states that comprehensive marijuana dispensaries do not need to keep medical and recreational marijuana sales separated. B&P notes that this provision may create difficulties when determining whether a comprehensive dispensary is retaining and remitting the correct amount of sales tax. It is possible that under this provision, a comprehensive dispensary could claim that all sales were medical and only remit the 8.225% medical marijuana sales tax. Thereby either keeping 2% (10.225% - 8.225%) as profit or by charging all customers the lower medical sales tax rate.

Subsection 2.7 requires all law enforcement agencies to provide an annual report to the Attorney General detailing the results of searches for alleged marijuana offenses. The Attorney General shall compile all reports together and forward a summary to the Governor, General Assembly, and each law enforcement agency.

Subsection 2.9(2) would require that all comprehensive marijuana facility owners undergo a fingerprint-based criminal background check. The Missouri State Highway Patrol (MSHP) Criminal Justice Information Services (CJIS) Division processes all state and federal fingerprint background checks. The CJIS has the following fee structure for background checks:

State fee:	$20.00
Vendor Fee:	$8.50
FBI fee:	$13.25
Total fees:	$41.75

The state retains the $20 state fee and $2 of the FBI fee ($22 total retained by the state). All fees collected will be deposited in the MSHP Criminal Records System Fund. MSHP verified that over 90% of background checks are conducted using third party vendor, IDEMIA, who charges the applicant an $8.50 fee which is kept by IDEMIA. The applicant pays the full fee of $41.75 to the vendor and MSHP then collects the full state and FBI fees ($33.25) from the vendor each month. The FBI bills MSHP monthly, and MSHP pays the FBI their portion of the FBI fee out of the MSHP Criminal Records System Fund. B&P defers to MSHP for further discussion on this impact.

Subdivision 2.9(3) would create a penalty for any business or individual selling a product in a manner designed to cause confusion between a marijuana or marijuana-infused product and any product not containing marijuana. Further, it prohibits the manufacture, packaging, and labeling of products that are false or misleading. **Subdivision 2.9(4)** would prohibit a marijuana facility from selling edible marijuana products in forms that would be attractive to children. For each of these two provisions, the penalty may include up to a $5,000 administrative penalty and loss of license. To the extent these violations occur, this proposal could increase total state revenue by an unknown amount.

Subdivision 2.9(5) would create an administrative penalty of up to $5,000 for any business that violates marijuana-infused products packaging requirements as mandated by DHSS. To the extent these violations occur, this proposal could increase total state revenue by an unknown amount.

Subdivision 2.9(12) would prohibit any person or business from extracting resins from marijuana using dangerous materials or gases without a medical marijuana manufacturing license or microbusiness wholesale license. Violations of this provision are subject to an administrative penalty of up to $1,000 for a patient or caregiver and $10,000 for a facility licensee, including a loss of license for up to one year. To the extent these violations occur, this proposal could increase total state revenue by an unknown amount.

Subdivision 2.10(2) would prohibit any person from cultivating marijuana plants that are easily visible to the public. This would create a civil penalty up to $250 and forfeiture of the marijuana. To the extent these violations occur, this proposal could increase total state revenue by an unknown amount.

Subdivision 2.10(3) would require any person to keep their marijuana plants in a locked space. This would create a civil penalty up to $250 and forfeiture of the marijuana for any violations. To the extent these violations occur, this proposal could increase total state revenue by an unknown amount.

Subdivision 2.10(4) would prohibit any person from smoking marijuana in any public place unless it is specifically licensed for that purpose by an entity with appropriate jurisdiction. Violations of this provision are subject to a civil penalty of up to $100. To the extent these violations occur, this proposal could increase total state revenue by an unknown amount.

Subdivision 2.10(5) would prohibit any person under 21 from possessing, using, or delivering three ounces or less of marijuana. Violations of this provision are subject to a civil penalty of up to $100 and forfeiture of the marijuana. Offenders have the option of attending drug education or counseling in lieu of the fine. To the extent these violations occur, this proposal could increase total state revenue by an unknown amount.

Subdivision 2.10(6) would prohibit any person over 21 from possessing, using, or delivering not more than twice the legal limit of marijuana. First violations of this provision are subject to a civil penalty of up to $250 and forfeiture of the marijuana. A second violation is subject to a civil penalty of up to $500 and forfeiture of the marijuana. A third or subsequent violation is subject to a misdemeanor fine up to $1,000 and forfeiture of the marijuana. Any individual under 21 in violation of this subdivision would be subject to a civil penalty of up to $250. Individuals under age 21 have the option of attending drug education or counseling in lieu of the fine. To the extent these violations occur, this proposal could increase total state revenue by an unknown amount.

All penalties under this **subsection 2.10** may be satisfied through performance of community service in lieu of payment of fines.

Subsection 2.10(7-8) would require the expungement of certain marijuana related crimes.

Tax and License Fee Revenue Estimates

B&P notes that while this proposal would begin December 8, 2022, sales tax collections would not begin until at least January 1, 2024 or later due to the application and approval process timelines set forth in Section 3 (Licensure and Certification), subdivision (3). Therefore, B&P will reflect sales tax collections as beginning in early calendar year 2024 (late FY 2024).

Based on research, B&P was able to find forecasts for the U.S. legal market for cannabis. According to such forecasts, the U.S. market for legal marijuana will be approximately $32.1 billion in calendar year 2023 and grow up to $47.3 billion by calendar year 2027. Based on information from the Substance Abuse and Mental Health Services Administration[1], from 2018-2019 approximately 15.03% of Missouri residents and 16.98% of all U.S. residents surveyed have used marijuana within the last year. Using the populations of Missouri residents compared to the U.S. population, B&P estimates that the market for legal marijuana in Missouri is 1.66% of the total U.S. market. Therefore, B&P estimates that the Missouri market for legal marijuana would be approximately $534.1 million in calendar year 2023 ($32.1 billion x 1.66%) and up to $787.1 million by calendar year 2027 ($47.3 billion x 1.66%).

Based on further research[2], B&P estimates that there could be between 61,700 to 122,500 medical marijuana users in Missouri. Using these estimates, and the estimates shown

[1] https://www.samhsa.gov/data/report/comparison-2015-2016-and-2016-2017-nsduh-population-percentages-50-states-and-district

[2] https://www.stltoday.com/news/local/metro/plenty-of-pot-study-says-missouri-will-license-twice-as/article_e94469b0-e1c6-5893-bc2e-e1d7b24f4a73.html

above, B&P estimates that the Missouri market for medical marijuana would be between 0.14% and 0.29% of the total U.S. market for legal marijuana. Therefore, B&P estimates that the total Missouri market for recreational marijuana would be 1.38% to 1.52% of the total U.S. market. Table 1 shows the estimated U.S. and Missouri markets for marijuana.

Table 1: Estimated Marijuana Market Size for the U.S. and Missouri

Calendar Year	Estimated U.S. Market Size	Estimated MO Market Size	Estimated MO Medical Market Size	Estimated MO Recreational Market Size
2023	$32,100,000,000	$534,147,370	$68,884,957	$465,262,414
2024	$35,900,000,000	$597,379,769	$85,613,340	$511,766,429
2025	$39,700,000,000	$660,612,168	$102,341,724	$558,270,445
2026	$43,500,000,000	$723,844,567	$119,070,107	$604,774,460
2027	$47,300,000,000	$787,076,966	$135,798,491	$651,278,476

B&P notes that this petition would begin December 8, 2022. However, given the length of time allowed for license approvals and the time for businesses to become operational, B&P assumes that sales tax collections would not begin until at least July 2023.

Therefore, B&P estimates that this proposal may increase state revenues by $23,789,541 in calendar year 2023. By calendar year 2027, B&P estimates that this proposal may increase state revenues by $66,593,224. This proposal could also increase local revenues by $9,375,038 in calendar year 2023 and $26,246,523 by calendar year 2027. Table 2 shows the estimated revenues generated by calendar year.

Table 2: Sales Tax Collections by Calendar Year

Fund	CY 2023*	CY 2024	CY 2025	CY 2026	CY 2027
GR (3.0% tax)	$6,978,936	$15,352,993	$16,748,113	$18,143,234	$19,538,354
Education (1.0% tax)	$2,326,312	$5,117,664	$5,582,704	$6,047,745	$6,512,785
Conservation (0.125% tax)	$290,789	$639,708	$697,838	$755,968	$814,098
Parks, soil, water (0.1% tax)	$232,631	$511,766	$558,270	$604,774	$651,278
Veterans, Health, and Community Reinvestment Fund (6% tax)	$13,957,872	$30,705,986	$33,496,227	$36,286,468	$39,076,709
TSR (total 10.225% state sales tax)	$23,786,541	$52,328,117	$57,083,153	$61,838,189	$66,593,224
Local Revenue (pop. weighted local rate 4.03%)	$9,375,038	$20,624,187	$22,498,299	$24,372,411	$26,246,523

**Assumes half a year of collections.*

Based on historical sales tax collection data, B&P adjusts calendar year collections 50% into the first fiscal year and 50% into the second fiscal year. Therefore, B&P estimates that this proposal could increase state revenues from taxes by $49,950,600 in FY 2024. By FY 2028, this proposal may increase state revenues from taxes by $66,593,224. This proposal may also increase local revenues by $19,687,131 in FY 2024 and up to $26,246,523 by FY 2028. Table 3 shows the estimated revenue generated by fiscal year.

Table 3: Sales Tax Collections by Fiscal Year

Fund	FY 2024	FY 2025	FY 2026	FY 2027	FY 2028
GR	$14,655,433	$16,050,553	$17,445,674	$18,840,794	$19,538,354
Education	$4,885,144	$5,350,184	$5,815,225	$6,280,265	$6,512,785
Conservation	$610,643	$668,773	$726,903	$785,033	$814,098
Parks, soil, water	$488,514	$535,018	$581,522	$628,026	$651,278
Veterans, Health, and Community Reinvestment Fund	$29,310,865	$32,101,106	$34,891,347	$37,681,588	$39,076,709
TSR	$49,950,600	$54,705,635	$59,460,671	$64,215,706	$66,593,224
Local Revenue	$19,687,131	$21,561,243	$23,435,355	$25,309,467	$26,246,523

B&P assumes the same number of facility applications will be submitted for the comprehensive facility licenses as was submitted for the medical marijuana program, however DHSS would be required to strictly issue comprehensive facility licenses to current medical marijuana licenses for the first 548 days after initial issuance of licenses. Depending upon DHSS' decision on facility caps, this may result in a full saturation of all licenses by current medically licensed facilities before any licenses can be issued to any entities that do not currently operate a medical marijuana facility. Businesses may be unwilling to expend money on a non-refundable fee due to this requirement resulting in potentially reduced application fee revenue.

B&P further assumes no new licenses will be granted due to current medical marijuana Administrative Hearing Commission appeals before December 7, 2022 keeping the current number of facility licenses unchanged at 341 as of September 3, 2021. Therefore, B&P

estimates that all initial application revenues will be collected in FY 2023 at a total of $18,513,000. Going forward from this date is strictly annual fees for the licensed facilities and renewal fees every third year. Beginning in FY 2024, microbusiness licensing is fully implemented resulting in an estimated $4,496,000 in total facility annual fees going forward. FY 2026 will be the first three year renewal period resulting in an increase in yearly revenue to $5,635,000. All license fees will be deposited into the Veterans, Health, and Community Reinvestment Fund. Table 4 shows the estimated revenue generated by fiscal year.

Table 4: License Fee Collections by Fiscal Year

Facility Type	FY 2023	FY 2024	FY 2025	FY 2026	FY 2027	FY 2028
Cultivation	$6,984,000	$1,450,000	$1,450,000	$1,740,000	$1,450,000	$1,450,000
Dispensary	$3,010,000	$1,970,000	$1,970,000	$2,561,000	$1,970,000	$1,970,000
Manufacturing	$8,519,000	$860,000	$860,000	$1,118,000	$860,000	$860,000
Microbusiness	$0	$144,000	$216,000	$216,000	$216,000	$216,000
TSR	$18,513,000	$4,424,000	$4,496,000	$5,635,000	$4,496,000	$4,496,000

Subdivision 2.6(8) would allow marijuana related businesses operating under Article XIV to deduct business expenses from their Missouri adjusted gross income. B&P notes that this language is already included under Subdivision 1.4(8), which did not limit the deduction to only medical facilities. Therefore, B&P estimates that this provision will not have an effect beyond that already granted under Subdivision 1.4(8).

Officials from the **Office of State Courts Administrator** indicated the initiative petition proposing to amend Article XIV establishes and modifies provisions relating to the legalization of marijuana for adult use.

The average of all marijuana related charge codes from 2015 to 2019 for Circuit case types is 2,457 per year. The average of all marijuana related charge codes from 2015 to 2019 for Associate case types is 8,153. They are unable to determine what number of these charges were for someone over the age of twenty-one.

The following Criminal Court Costs would be affected by this proposed legislation:

Criminal Court Costs		
Felony Case Costs	**Amount of Cost**	**Disburse to State/County**
Basic Civil Legal Services Fund surcharge	$10.00	State of Missouri - Basic Civil Legal Services Fund
Clerk Fee	$45.00	State of Missouri - General Revenue $36, County $9
County Fee	$75.00	County

Court Automation Fund Fee	$7.00	State of Missouri -Statewide Court Automation Fund
Court Reporter fee (All Circuit Division Cases)	$15.00	State of Missouri - General Revenue
Crime Victims' Compensation Fund surcharge	$7.50	State of Missouri - Crime Victims' Compensation Fund
DNA Profiling Analysis Fund surcharge	$30.00	State of Missouri - DNA Profiling Analysis Fund
Brain Injury Fund surcharge	$2.00	State of Missouri - Head Injury Fund
Independent Living Center Fund surcharge	$1.00	State of Missouri - Independent Living Center Fund
Motorcycle Safety Trust Fund surcharge	$1.00	State of Missouri - Motorcycle Safety Trust Fund
Peace Officer Standards & Training (POST) Commission surcharge	$1.00	State of Missouri - Peace Officer Standards & Training Fund
Prosecuting Attorney and Circuit Attorneys' Retirement Fund	$4.00	Pros. Attorney Retirement Fund
Prosecuting Attorney Training Fund surcharge	$5.00	State of Missouri - Prosecuting Attorney Training Fund
Sheriffs' Fee	$75.00	County
Sheriffs' Retirement Fund surcharge (except 21st Circuit)	$3.00	Sheriffs' Retirement Fund
Spinal Cord Injury Fund surcharge	$2.00	State of Missouri - Spinal Cord Injury Fund
Total	$283.50	
Misdemeanor Case Costs		
Basic Civil Legal Services Fund surcharge	$8.00	State of Missouri - Basic Civil Legal Services Fund
Clerk Fee	$15.00	$12 State of Missouri / $3 County
County Fee	$25.00	County
Court Automation Fund Fee	$7.00	State of Missouri - Court Automation Fund
Crime Victims' Compensation Fund surcharge	$7.50	State of Missouri - Crime Victims' Compensation Fund
DNA Profiling Analysis Fund surcharge	$15.00	State of Missouri - DNA Profiling Analysis Fund
Brain Injury Fund surcharge	$2.00	State of Missouri - Brain Injury Fund

Independent Living Center Fund surcharge	$1.00	State of Missouri - Independent Living Center Fund
Motorcycle Safety Trust Fund surcharge	$1.00	State of Missouri - Motorcycle Safety Trust Fund
Peace Officer Standards and Training (POST) Commission surcharge	$1.00	State of Missouri - Peace Officer Standards & Training Fund
Prosecuting Attorney and Circuit Attorneys' Retirement Fund	$4.00	Pros. Attorney Retirement Fund
Prosecuting Attorney Training Fund surcharge	$5.00	$0.50 State of Missouri / $0.50 County
Sheriffs' fee	$10.00	County
Sheriffs' Retirement Fund surcharge (except 21st Circuit)	$3.00	Sheriffs' Retirement fund
Spinal Cord Injury Fund Surcharge	$2.00	State of Missouri - Spinal Cord Injury Fund
Total	**$106.50**	
Municipal Case (Filed in Associate Division) Costs		
Clerk Fee	$15.00	$12 State of Missouri / $3 County
Court Automation Fund Fee	$7.00	State of Missouri - Court Automation Fund
Crime Victims' Compensation Fund surcharge	$7.50	State of Missouri - Crime Victims' Compensation Fund
Peace Officer Standards and Training (POST) Commission surcharge	$1.00	State of Missouri - Peace Officer Standards & Training Fund
Sheriffs' Retirement Fund surcharge	$3.00	Sheriffs' Retirement Fund
Total	**$33.50**	
Criminal Costs Not Included Above		
Drug Testing by a State Lab	$150.00	State of Missouri
Drug Testing by a Private Lab	Actual Costs	County Reimbursement
Law Enforcement Arrest		

Costs:		
Highway Patrol		Amt. Approved by the Court
Local (County)		Amt. Approved by the Court
Municipal		Amt. Approved by the Court

The decrease in the court fees, depending on the number of cases, will result in an unknown loss to the courts and to the specific funds.

They also assume there will be an unknown decrease in caseload for the courts because the courts will no longer process these cases; however, at this time they are unable to calculate the decrease.

Any significant increase or decrease will be reflected in future budget requests.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be $7 million based on the cost of the 2020 Presidential Preference Primary.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Funding for this item is adjusted each year depending upon the election cycle. A new decision item is requested in odd numbered fiscal years and the amount requested is dependent upon the estimated number of ballot measures that will be approved by the General Assembly and the initiative petitions certified for the ballot. In FY 2014, the General Assembly changed the appropriation so that it was no longer an estimated appropriation.

In FY19, over $5.8 million was spent to publish the full text of the measures for the August and November elections. Their office estimates $75,000 per page for the costs of publications based on the actual cost incurred for the one referendum that was on the August 2018 ballot.

Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of

their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition will have a fiscal impact on their office. This initiative petition would provide funding to the State Public Defender (SPD). If these funds are in addition to current funding SPD will be able to provide constitutional representation for additional low income Missourians. The exact amount of the fiscal impact is unknown, but would be 1/3 of the fund balance referenced in Section 6.2(c) (iii).

Officials from the **State Treasurer's office** indicated there is a tax and a variety of fees imposed in this petition. Once in operation, marijuana businesses have had difficulties obtaining and maintaining bank accounts due Federal law and regulations. Their office and the Department of Revenue have explored options to handle large amounts of cash from licensed marijuana businesses as the Department of Revenue may see many of these taxes paid in cash. Changes in security measures and collection points may be needed as the Department of Revenue, the Department of Health and Senior Services, and the Department of Labor and Industrial Relations do not currently receive large amounts of cash. The changes in this initiative petition may increase the potential amount of receipts in cash exponentially. They are unable to determine the fiscal impact to their office.

Officials from **Clay County** indicated they estimate the following as a result of this petition:

Costs:
- ~$30,000 in Sheriff Road Patrol overtime for driving while intoxicated arrests
- ~$5,000 in extra Sheriff fuel use to patrol
- ~$35,000 annually in costs

Savings/Revenues:
- ~$150,000 in local sales taxes
- ~$25,000 in property taxes
- ~$1,000 in liquor-equivalent licenses
- ~$5,000 in planning & zoning permits
- ~181,000 annually in savings/new revenues

Net annual savings of ~$146,000.

Officials from **Greene County** indicated there is anticipated costs to their county for this initiative petition per the following information concerning this initiative petition, https://static1.squarespace.com/static/5541a76ae4b0175cee8827d0/t/580684e5ff7c50adea98399e/1476822252561/Letter+to+CA+from+Denver+DA.jpgI provided by their County Prosecutor, Dan Patterson. There may also be sales tax attained for their county based on the authority given for taxation and funding to impose a retail sales tax in Section 2, page 32. Since it is a may, there is no certainty to ascertain if any tax dollars attained will be collected, and if they are collected any data to suggest an amount of actual sales that will take place to base the estimation on.

In addition, it has been determined though that there may be costs to their county in the provisions of Section 2 on page 31 relating to the county submitting to voters permission to impose an additional sales tax. If a countywide election were held to ask voters the authority for the county to impose a tax, the estimated costs to hold the election would be $357,141.

To help better fully understand the fiscal impact would require a very detailed study to give the best opportunity to understand the impact to law enforcement, prosecutors and the circuit courts within the proposed changes of this initiative petition, which the linked letter demonstrates occurred in Colorado after similar legislation passed. In addition, it would also require a very reliable method of measurement to predict a dependable sales estimate of this product and the impact the sales would have on additional local sales tax receipts for a local entity. Unfortunately neither of these are currently feasible due to the short timeline given to respond.

County Prosecutor, Dan Patterson provided the following information:

DenverDA
Mitchell R. Morrissey, District Attorney - Second Judicial District
201 W. Colfax Avenue, Dept. 801, Denver, CO 80202
Bus. Phone: 720-913-900
Fax: 720-913-903

October 12, 2016

No on 64 Campaign and SAM Action

California voters are being told that they will see the crime rate go down if they vote to legalize marijuana commercially; this has not been the case in the state of Colorado or the city of Denver. Since the legalization of recreational marijuana in Colorado in 2013 traffic related marijuana deaths have increased 48%, marijuana related emergency room visits have increased 49%, and marijuana related calls to the poison center have increased 100%. According to the Colorado Bureau of Investigations in 2015 statewide homicides in Colorado rose 14.7 % over the previous year. Pueblo, Colorado had the highest homicide rate in the state with 11.1 killings per 100,000 residents. Aurora, Colorado's homicide rate more than doubled from 2014. Additionally more places in Colorado were robbed and more thefts occurred, especially cars, as 193,115 motor vehicles were reported stolen, up 27.7 % in 2015 from the previous year. In 2015, sexual assaults rose 10% in Colorado with Denver, Aurora, Lakewood, Westminster and Pueblo all reporting higher numbers as well.

In the city of Denver since the legalization of recreational marijuana the number of crimes in Denver has grown by about 44 %, according to annual figures the city reported to the National Incident Based Reporting System. In 2015 in Denver alone crime rose in every neighborhood in the city. The murder rate hit a decade high, 1059 more cars were broken into, there were 903 more auto thefts, 321 more aggravated assaults and 231 more homes were broken into compared to 2014.

California voters are also being told that legalizing recreational marijuana will free up law enforcement to work on other criminal activities. Again that has not been the case in Denver. Besides the overall increases in crime we have experience, the Denver police department is dealing with a 900% increase in the unlawful cultivation and manufacture of marihuana concentrate, and a 99% increase in the unlawful distribution of marijuana and marijuana concentrate. The quantity of illegal marijuana seized by the Denver police has increased 3,424% on average per case. The volume of marijuana seized per case has increased from an average of 162 pounds to 5724 pounds. In Denver unlawful public consumption of marijuana citations has increased over 300% per year since the legalization of recreational marijuana. The Denver police department is busier enforcing marijuana laws and investigating crimes directly related to marijuana, including murderers, robberies, and home invasions, than any other time in the history of the city.

Sincerely,

Mitchell R. Morrissey
Denver District Attorney

Officials from the **City of Kansas City** indicated the additional sales tax allowed by this proposed amendment could have a positive fiscal impact on their city.

Officials from **Metropolitan Community College** indicated no fiscal impact to their college.

Officials from the **Missouri Veterans Commission** indicated the following:

Michael L. Parson
Governor

Paul Kirchhoff
Executive Director

MISSOURI VETERANS COMMISSION

205 Jefferson Street, P.O. Drawer 147, Jefferson City, MO 65102-0147
Telephone: (573) 751-3779 www.mvc.dps.mo.gov Fax: (573) 751-6836

August 30, 2021

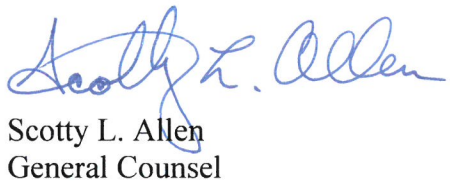
The Honorable John R. Ashcroft
Secretary of State
600 W. Main Street
Jefferson City, MO 65101

Dear Secretary of State Ashcroft,

Initiative Petition 2022-059 (hereinafter, the Petition) could have a disastrous fiscal impact upon the Missouri Veterans Commission. However, as explained below, there are too many variables in the Petition which come into play before the Commission receives its allocation under the proposed non-medical marijuana program to definitively state as much, so the Commission defers to the analysis of its sister agencies as further explained below.

Under the existing medical marijuana program (Article XIV of the Missouri Constitution), the Commission anticipates receiving $2,529,753 in FY22 and $2,929,271 in FY23 from the tax revenues generated from the retail sales of medical marijuana. The Petition makes some changes to that program by making it easier to obtain medical certification to use medical marijuana treatments (hence, a positive impact), but also expands the rights of individuals to cultivate their own marijuana (hence, a negative impact). Therefore, the Commission anticipates an overall neutral fiscal impact from these changes. However, the Petition's greatest potential fiscal impact to the Commission is in the creation of a non-medical marijuana program (the proposed Article XIV, section 2 to the Missouri Constitution) and the nature and extent of that impact is unascertainable at this time.

The currently existing medical marijuana program is predicated on medical need and the physician certification that marijuana is the appropriate treatment for that medical need. Conversely, the non-medical marijuana program has no requirement for medical need or for physician certification. It is only common sense that those wishing to use marijuana products will forego the inconvenience of establishing medical need and obtaining a physician's certification and avail themselves of the non-medical program should one exist regardless of their reason for wanting to use marijuana products. Therefore, we anticipate a significant reduction in the tax revenues generated by the medical marijuana program, perhaps as high as a 90% reduction, should the Petition become law.



Moreover, given the significantly different distribution of tax revenues provided for under the non-medical marijuana program, it is not clear whether the Commission can anticipate tax revenues generated under the non-medical program to defray the reduction we would experience

AN EQUAL OPPORTUNITY/AFFIRMATIVE ACTION EMPLOYER
services provided on a nondiscriminatory basis

under the medical marijuana program. Specifically, the medical marijuana program establishes a 4% tax on all retail sales of medical marijuana and allocates to the Commission all of those proceeds minus 5% to the Department of Revenue and an amount to the Department of Health and Senior Services necessary to defray their costs in regulating the program. The Petition changes the percentage which the Department of Revenue is entitled to keep to 2%, but otherwise makes no changes to this arrangement. Conversely, the non-medical marijuana program establishes a 6% tax on all retail sales of non-medical marijuana and allocates those proceeds to the "Veterans, Health, and Community Reinvestment Fund" minus 2% for the Department of Revenue. Thereafter, the monies in the "Veterans, Health, and Community Reinvestment Fund" are divided as such: an appropriation for the Department of Health and Senior Services' operating costs in regulating the program; an appropriation for government entities to expunge criminal records as required by the Petition; and then one-third of the remaining proceeds to the Commission.

Therefore, the language of the Petition makes it highly speculative how much in tax revenues under the non-medical marijuana program the Commission could receive. Therefore, the Commission defers to its sister agencies as to the total anticipated tax revenues from the non-medical marijuana program; the operating costs of the Department of Health and Senior Services in regulating such a program; and the costs of government entities to expunge criminal records as required by the Petition. If I can be of any further assistance on this issue, please contact me at (573) 522-4224 at your convenience.

Sincerely,

Scotty L. Allen
General Counsel
Missouri Veterans Commission

The State Auditor's office did not receive a response from **Adair County, Boone County, Callaway County, Cass County, Cole County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, State Technical College of Missouri, University of Missouri, St. Louis Community College, University of Central Missouri, Harris-Stowe State University, Lincoln University, Missouri State University, Missouri Southern State University, Missouri Western State University, Northwest Missouri State University, Southeast Missouri State University, Truman State University, Missouri Office of Prosecution Services,** the **Kansas City Board of Police Commissioners,** and the **Metropolitan Police Department - City of St. Louis.**

Fiscal Note Summary

State governmental entities estimate initial costs of $3.1 million, initial revenues of at least $7.9 million, annual costs of $5.5 million, and annual revenues of at least $40.8 million. Local governments are estimated to have annual costs of at least $35,000 and annual revenues of at least $13.8 million.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (22-064)

Subject

Initiative petition from Eric McSwain regarding a proposed constitutional amendment to Article XIV of the Constitution of Missouri. (Received September 1, 2021)

Date

September 21, 2021

Description

This proposal would amend Article XIV of the Constitution of Missouri.

The amendment is to be voted on in November 2022.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education and Workforce Development,** the **Department of Health and Senior Services,** the **Department of Commerce and Insurance,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College, University of Central Missouri, Harris-Stowe State University, Lincoln University, Missouri State University, Missouri Southern State University, Missouri Western State University, Northwest Missouri State University, Southeast Missouri State University, Truman State University, Missouri Veterans**

Commission, Missouri Office of Prosecution Services, the **Kansas City Board of Police Commissioners,** and the **Metropolitan Police Department - City of St. Louis.**

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal would result in increased litigation, they expect that their office could absorb the costs associated with that increased litigation using existing resources. However, if the enactment of this proposal were to result in substantial additional litigation, they may be required to request additional appropriations.

Officials from the **Department of Agriculture** indicated this initiative petition has no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated no impact to their department.

Officials from the **Department of Elementary and Secondary Education** indicated no impact to their department.

Officials from the **Department of Higher Education and Workforce Development** indicated no impact to their department.

Officials from the **Department of Health and Senior Services** indicated the proposed legislation could create new small business opportunities in addition to costs associated with a new business in order to be in compliance with the legislation.

The reduction in state revenue will be $2,910,977 in state fiscal year (SFY) 2023 and $3,362,539 in SFY 2024.

The initiative petition (IP) makes changes to Section 1 of Article XIV. Some changes would require revising existing rules. Their department anticipates being able to absorb these costs. However, until the fiscal year (FY) 2023 budget is final, their department cannot identify specific funding sources.

Section 1.3(12) changes the current patient cultivation application fee projections. The proposed language reduces the annual fee for a patient cultivation card from $100 to $25. The new projected revenues related to patient cultivation applications are $926,737 ($3,837,714 less $2,910,977) for FY2023 and $1,070,496 ($4,433,035 less $3,362,539) for FY2024.

Section 1.3(15) - (17) are deleted, removing DHSS' authority to set limits on the number of licenses granted for medical marijuana facilities and removing the mandatory minimum numbers of licenses DHSS must issue. Preliminary research of other states (CO, OR, and MI) with medical marijuana programs that continued operation after an adult-use program was implemented indicates some reduction in use of the medical marijuana program should

be expected. While the extent of reduction to be expected is unclear, it appears reasonable to assume patient counts will level off rather than continuing to increase. With patient counts (demand) stabilizing and an adult-use program in development (per Section 2 of this IP), there should be no need for or interest in increasing the number of facility licenses (supply). In fact, it may be that the number of medical marijuana licenses could go down if patient demand is not high enough to support the amount of supply current medical marijuana facility numbers can produce. However, their department has no reliable data at this time, other than the projected stabilization of patient demand, on which to conclude that medical marijuana facility numbers would increase or decrease. Therefore, they project that all revenues from medical marijuana fees and taxes would hold steady.

Section 1.4(2)(a) reduces the portion of the Missouri Veterans' Health and Care Fund available to DHSS for administering the medical marijuana program from *"an amount necessary for the department to carry out this section"* to *"an amount not to exceed twenty percent of net deposits which is necessary for the department to carry out this section."*

Total revenues for the Fund in FY2023 are estimated to be $18,991,834. Twenty percent of total revenues is estimated at $3,798,367. The medical marijuana program's operating costs are $13,000,000 million. This would create a budget shortfall of approximately $9,201,633 for FY2023, which would require general revenue (GR) pickup to continue the operations of the program.

Total revenues for the Fund in FY2024 is estimated to be $18,991,834. Twenty percent of total revenue is $3,798,367. The medical marijuana program's operating costs are $13,000,000. This would create a budget shortfall of approximately $9,201,633 for FY2024 and would require GR pickup to continue the operations of the program.

The IP proposes a new Section 2, which establishes adult-use of marijuana and gives regulatory authority over adult-use to the Department of Public Safety, Division of Alcohol and Tobacco Control. There is one provision in this section that establishes a new responsibility for the DHSS. Section 2.6(9) requires that DHSS coordinate with Division of Alcohol and Tobacco Control (DATC) to establish a program through which "excess" cannabis from facilities and adult-use consumers may be sold or donated to facilities that wish to make that cannabis available free of charge to certain qualifying patients and primary caregivers. Their department assumes a need to establish regulations for this program but also assumes there would be minimal need for their department to participate in administration or regulation of the program, as the only DHSS-licensed facilities that would be authorized to participate in the program are 10 testing facilities. Their department anticipates being able to absorb these costs. However, until the FY2023 budget is final, their department cannot identify specific funding sources.

Officials from the **Department of Commerce and Insurance** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

However, the impact on the demand for substance use disorder treatment is unknown. Their department sees the legalization of marijuana as a broader public health issue, especially for children.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated the total estimated net effect on all state funds for fiscal year 2024 will be $227,986, fiscal year 2025 will be $676,775, fiscal year 2028 will be $1,071,308.

The estimate of the number of offenders who will be impacted by the proposed legalization of marijuana can be calculated from the sentencing records maintained by their department, but with an important qualification. Most offenders sentenced for drug offenses in Missouri are sentenced for the production, sale, distribution or possession of a controlled substance, but the drug type is not always part of the sentence information that their department receives. In some cases the drug type is known and is included in the offender management database, but the proportion of cases in which the drug related to the offense is known is a minority of the cases. Given that the drug associated with the offense is unknown by their department in the majority of cases, the estimation of the total impact that follows will use the proportions of cases in which the associated drug is known to determine the number of cases in which the associated drug is unknown that are likely related to marijuana. Therefore, they assume 3% of all prison admissions related to drug sentences are related to marijuana (see table 1).

Table 1. FY 2017 through FY 2020 admissions to prison on only drug-related sentences in which the drug associated with the offense is known. (Drug offenses and drug types are identified in the data system through the use of the NCIC categories, modifiers associated with a sentence, and the description of the offense.)

Marijuana	70	3.3%
Other Drug	2,072	96.7%
Total	2,142	100.0%

Of the 922 offenders with new commitments to prison in FY 2020 who were admitted only on drug sentences, 575 were cases in which an offender's youngest age associated with any of those drug offenses was 21 years of age or older. The average length of those sentences was 5.6 years. Based on their assumption that 3% of those sentences are related to marijuana, they estimate 17 admissions for sentences of people 21 years of age or older for offenses related only to marijuana.

In FY 2020, there were 1,263 offenders released from prison who had been incarcerated for new commitments to prison only on drug sentences. Their average length of time served to first release was 1.1 years, which is what their department assumes for all future new commitments in estimating their department's impact.

Based on their analysis of new probation cases related to drug sentences received by their department in FY 2020, approximately 7% of the cases in which the associated drug is known are related to marijuana (see table 2). Therefore, they assume 7% of all new probation cases are based on drug sentences related to marijuana.

Table 2. FY 2020 probation cases related only to drug sentences in which the drug associated with the offense is known. (Drug offenses and drug types are identified in the data system through the use of the NCIC categories, modifiers associated with a sentence, and the description of the offense.)

Marijuana	209	7.0%
Other Drug	2,766	93.0%
Total	2,975	100.0%

Of the 5,138 offenders with new probation cases in FY 2020 whose cases were only on drug sentences, 2,274 were cases in which an offender's youngest age associated with any of those drug offenses was 21 years of age or older. Based on their assumption that 7% of those sentences are related to marijuana, they estimate 159 new probations for sentences of people 21 years of age or older for offenses related only to marijuana. The average length of those sentences was 5.4 years. Given the possibility of earned compliance credit, they apply a 3 year sentence in their estimation of impact.

The estimated cumulative impact of this proposal on their department operations is 44 fewer people in prison and 528 fewer people under supervision in the field by FY 2029.

*If this impact statement has changed from statements submitted in previous years, it is because the Department of Corrections (DOC) has changed the way probation and parole (P&P) daily costs are calculated to more accurately reflect the way the Division of Probation and Parole is staffed across the entire state.

In December 2019, their department reevaluated the calculation used for computing the Probation and Parole average daily cost of supervision and revised the cost calculation to be their department average district caseload across the state which is 51 offender cases per officer. The new calculation assumes that an increase/decrease of 51 cases would result in a change in costs/cost avoidance equal to the cost of one full time employee (FTE) staff person. Increases/decreases smaller than 51 offenders are assumed to be absorbable.

In instances where the proposed legislation would only affect a specific caseload, such as sex offenders, their department will use the average caseload figure for that specific type of offender to calculate cost increases/decreases. For instances where the proposed legislation affects a less specific caseload, they project the impact based on prior year(s) actual data for their department's 48 probation and parole districts.

Their department cost of incarceration in $21.251 per day or an annual cost of $7,756 per offender. Their department cost of probation or parole is determined by the number of P&P Officer II positions that would be needed to cover the new caseload.

They also provided the following information.

Officials from the **Department of Labor and Industrial Relations** indicated they anticipate no fiscal impact for this initiative petition proposing to amend Article XIV, version 2. However, there is a concern over whether the protections provided to employers in section 7 apply to the recreational use of marijuana section.

Officials from the **Department of Revenue** indicated the total estimated net effect on all state funds for fiscal year 2022 will be $0, fiscal year 2023 will be $0, fiscal year 2024 will be $12,173,807 to $18,815,775.

Revenue Impact

Section 1 - Medical Marijuana

This proposal revises the current medical marijuana law. Section 4 regarding taxation adds language stating the department can retain an amount from the medical marijuana tax collected not to exceed 20%. Their department currently withholds only 1% of the money collected to reimburse their expenses. For the period of November 2020 to July 2021 they retained $26,325. They assume this provision will not have any additional impact on their department.

The existing medical marijuana laws are modified to change the definition of marijuana and to expand the number of primary caregivers a person may have. Additionally it changes the requirements that allow medical marijuana patients to cultivate their own marijuana plants. Their department assumes these changes would not fiscally impact their department. Their department is unable to determine if these changes will have a fiscal impact on the amount of tax collected under the medical marijuana or recreational marijuana laws.

Section 2 –Recreational Cannabis

This is an initiative petition that would go to the vote of the people at the November 2022 general election. If this is not adopted by the people, this would not have a fiscal impact.

Should this be adopted at the November 2022 election, by the time certification of the election occurs, it is assumed this constitutional amendment would have a January 1, 2023 effective date. Per the requirements of this proposal, citizens would not be able to file for a license to be certified to sell cannabis until August 2023. Based on the time for certification and the growing time for the cannabis product, it is estimated this proposal would not have a fiscal impact until January 1, 2024, resulting in only a six month impact in fiscal year (FY) 2024. Any fiscal impact stated in this proposal assumes the January 1, 2024 fiscal start date.

This proposal states that is not intended to repeal or replace the medical marijuana market. However this places a lower tax rate on recreational cannabis than on medical marijuana. Currently medical marijuana is taxed at 8.225%. This creates a recreational marijuana tax rate of just 7.5%. The medical marijuana sales tax is distributed as:

Missouri Veterans' Health and Care Fund (4%)
General Revenue (3%)
School Districts Trust Fund (1%)

Conservation Commission 0.125%)
Parks, Soil & Water (0.1%)

Per this proposal the recreational marijuana sales tax would all be deposited into the Missouri Economic Recovery and Growth Fund (MERG). Their department is unable to determine how many taxpayers would buy the recreational marijuana rather that the medical marijuana. If people choose to pay the lower sales tax (recreational marijuana) then the Missouri Veterans' Health and Care Fund, General Revenue, School District Trust Fund, Conservation Commission and Parks, Soil & Water Funds would lose money while the MERG Fund would see increased funding. This impact is estimated to be unknown but significant.

Subsection 3 Regulation
These provisions establish the guidelines for the legalization of cannabis (selling and using) by adults over the age of 21. The provisions include who can sell the product and how much a consumer can possess.

Subsection 3.(2)(q) requires that the Division of Alcohol and Tobacco Control to establish rules regarding the transmittal of tax payments. Their department would work with the Division in order to establish the rules necessary for the collection of the payments as this proposal requires they collect the tax but does not establish a filing frequency for the tax payments or require remittance. They assume this would be done with existing resources.

Subsection 5 – Taxation and Funding
This proposal imposes a tax on cannabis upon the retail sale at a cannabis retail facility. The tax shall be at a rate of 7.5 percent starting January 1, 2023, the effective date of this proposal. (It should be noted this would not fiscally impact the state until January 1, 2024 as previously described above).

It should be noted that this proposal requires the collection and payment of this cannabis tax but does not specify when it is to be paid. Additionally, their department is not given rulemaking authority to set the collection dates for this tax that was given to the Division of Alcohol and Tobacco Control (as mentioned above). For the calculation of the fiscal note, their department assumes this tax will be collected and remitted at the same time regular sales and use tax is collected. Should it be determined a different remittance time is allowed, the projected fiscal impact could be different than calculated.

All tax revenues per this proposal are to be deposited into the Missouri Economic Recovery and Growth Fund (MERG).

Based on a study completed by Gallup, 12 percent of the nation's adults smoke cannabis regularly. Based on information published on suburbanstats.org, there are approximately 4,181,284 individuals at age 21 or above in the State of Missouri, 12% of the total number of adults aged 21 or older would equal 501,754 adults.

A report published by Headset Inc, a new market insights from Seattle-based cannabis intelligence company, believes that the average cannabis consumer spends roughly $647 on cannabis and related products per year. Based on information provided in the report published by Headset Inc, the largest pool of individuals surveyed spent $1,000 or above each year on cannabis and cannabis products. These amount of $647 and $1000 will allow them to estimate a fiscal impact range.

Their department notes that sales tax is added to the purchase prices. Therefore at the low rate of $647 they assume total taxable sales of $324,634,838 ($647 * 501,754). Therefore at the low end they estimate the 7.5% collected sales tax would be $24,347,613 ($324,634,838 * 7.5%).

At the upper rate of $1,000 they assume a total taxable sales of $501,754,000 ($1,000 * 501,754). Therefore at the upper end they estimate the 7.5% collected sales tax would be $37,631,550 ($501,754,000 * 7.5%).

Fiscal Year 2024 (6 months)		**Fiscal Year 2025**	
Increase to MERG Fund		**Increase to MERG Fund**	
Low	**High**	**Low**	**High**
Could be less than $12,173,807	Could be less than $18,815,775	$24,347,613	$37,631,550

This proposal also allows local political subdivisions to adopt a cannabis sales tax. Their department assumes a current local sales and use tax rate of 4.03%. At this current rate it is estimated this would generate $13,082,784 to $20,220,686 for local governments. Their department is unable to determine how many would adopt the sales tax. Therefore, this may result in a lesser amount than projected.

This proposal allows their department to retain up to 2% of the tax collected to pay for the administration and collection of the tax. This would allow their department to retain $486,952 to $752,631 based on amount collected. They are unsure if this would cover all of their department's expenses. Should it not be enough, they will request additional funding through the appropriation process. The estimated administrative impact:

A new reporting form will need to be developed to track and monitor the tax on the sale of cannabis. 2 Associate Customer Service Representatives (ASCR) at $24,360 for processing reporting forms, phone calls and correspondence received. 1 Management Analysis Specialist (MAS) at $38,476 to work with Division of Alcohol and Tobacco Control to administer this section as significant coordination may be required. Their department will need to make programming changes to the current sales and use tax databases. This is estimated at $10,000.

They also provided the following information:

Officials from the **Department of Public Safety - Office of Director** indicated no impact for the Department of Public Safety, Director's office. The Missouri Veterans Commission has addressed their fiscal concerns in a separate response to the State Auditor's Office. The following responses are from the Division of Alcohol and Tobacco Control and the Missouri State Highway Patrol.

The Division of Alcohol and Tobacco Control (ATC) provided the following:

This proposal will affect local law enforcement and city and county licensing authorities.

They will need to increase the space for each district office to accommodate 24 additional staff in the Jefferson City office, 14 additional staff in the St. Louis office and 13 additional staff in the Springfield and Kansas City offices, along with additional storage space for evidence, for fingerprinting scanners and reception space to consult with licensees.

Jefferson City Office (Expansion) - They are requesting an additional 8,400 square feet of office space for 24 FTE, along with a reception area and evidence room. (300 square feet for each FTE, 600 square feet for evidence storage, and 600 square feet for reception area).

Rental Rate - $151,200 ($18 per square feet X 8,400 square feet) and Janitorial $12,600 ($1.50 per square feet X 8,400) and Utility Rates $16,800 ($2.00 per square feet X 8,400) - $29,400 ($3.50 per square feet X 8,400)
TOTAL FOR JEFFERSON CITY - $180,600

Kansas City Office (Expansion) – They will need 5,100 square feet of office space for 13 FTE, along with a reception area and evidence room. (300 square feet for each FTE, 600 square feet for evidence storage, and 600 square feet for reception area).

Rental Rate - $107,100 ($21 per square feet X 5,100 square feet) and Janitorial $7,650 ($1.50 per square feet X 5,100) and Utility Rates $10,200 ($2.00 per square feet X 5,100) - $17,850 ($3.50 per square feet X 5,100)
TOTAL FOR KANSAS CITY - $124,950

Springfield Office (Expansion) – They will need 5,100 square feet of office space for 13 FTE, along with a reception area and evidence room. (300 square feet for each FTE, 600 square feet for evidence storage, and 600 square feet for reception area).

Rental Rate - $91,800 ($18 per square feet X 5,100 square feet) and Janitorial $7,650 ($1.50 per square feet X 5,100) and Utility Rates $10,200 ($2.00 per square feet X 5,100) - $17,850 ($3.50 per square feet X 5,100)
TOTAL FOR SPRINGFIELD - $109,650

St. Louis Office (Expansion) - They will need 5,400 square feet of office space for 14 FTE, along with a reception area and evidence room. (300 square feet for each FTE, 600 square feet for evidence storage, 600 square feet for reception area).

Rental Rate - $113,400 ($21 per square feet X 5,400 square feet) and Janitorial $8,100 ($1.50 per square feet X 5,400) and Utility Rates $10,800 ($2.00 per square feet X 5,400) - $18,900 ($3.50 per square feet X 5,400)
TOTAL FOR ST. LOUIS - $132,300

They are also requesting an additional $150,000 per location for renovation costs that are not covered in the above figures for a total of $600,000.

TOTALS
Total Rent Costs – (24,000 square feet) - $463,500
Total Janitorial – (24,000 square feet X $1.50) $36,000
Utility Rates – (24,000 square feet X $2.00) - $48,000
Renovation Costs – (First year only) - $600,000
TOTAL COSTS - $1,147,500

The opportunities for small businesses to be included in this new industry are great. It will provide new opportunities for licensees to open businesses across the state to manufacture, produce, retail, or test marijuana products that are currently not legal. In Colorado, as of December 1, 2020, there were 1,616 licensed businesses as a result of adult use marijuana. In addition, Colorado has 41,564 occupational licenses related to marijuana as of December 1, 2020 (Note this number includes all marijuana occupational licensees as medical occupational licensees can work both retail and medical marijuana establishments). (Colorado Department of Revenue Retail Marijuana Facilities).

The following is the Office of Administration - Information Technology Services Division's (ITSD's) estimate. They will need a seed to sale tracking of each marijuana plant, and licensing of all establishments as well as occupational licenses for those involved in the manufacture, production, testing or sale of marijuana. Note: This response was provided in January 2021 for other proposed adult use marijuana legislation. They did not have enough time to get an updated response, but estimates similar costs.

They will model the fiscal effects similar to the Colorado law enacted in 2012. Colorado's FY20 revenue from sales tax of 15% from recreational marijuana was almost $226 million (Colorado brought in more than $319 million in taxes for FY20, including sales tax and excise tax. Colorado DOR Marijuana Tax Data) This constitutional amendment does not provide for an excise tax and has a retail sales tax rate of 7.5%. Since Missouri's population of over 6.1 million exceeds Colorado's approximately 5.8 million, they believe Missouri will generate at least 6% more in sales. Since licenses will not be issued until August, 2023,

they do not predict a collection of retail sales tax in FY23. They predict first year sales tax revenue of over $89 million in FY24.

In addition, Washington generated over $185 million in tax revenue during the first fiscal year (FY16), over $387 million during FY19 and over $468 million during FY20. That number will continue to increase as the market continues to grow and refine. (Washington State Liquor and Cannabis Board – Fiscal Year Sales and Excise)

Sales of small amounts of recreational marijuana for personal use began October 1, 2015 in Oregon, and licensing began in 2016. Oregon generated over $70 million during FY17, over $82 million during FY18 and over $133 million during FY20. (Oregon DOR Marijuana Tax Statistics – Tax Payments Received).

Revenue will be generated from licensing establishments for the cultivation and production of marijuana for adult use. Revenue collected will be deposited into a marijuana cash fund that will be used for the administration and enforcement of Article XIV, Section 2. They have estimated that deposits will not be made into this fund until FY24 as they will not begin accepting license applications until August 1, 2023 (FY24). They estimate that licensing and user fees will bring in $7,214,309 in the first year of operation (FY24) and $9,040,361 in the second year (FY25). Renewal fees will be the same amount as application license fees. They have estimated about a 10% turnover in licensing for the second year of operation. (See Attached schedule for a more detailed description of the revenue generation.)

They will annually review the fees and charges to determine if adjustments are necessary to reflect the actual direct and indirect costs of the division in the administration and enforcement of the adult use marijuana licensing program.

They do not believe the first two years will result in monetary disciplinary penalties as the licensing process will not begin until FY24. It is estimated that in FY25 and ongoing, monetary penalties could result in between $25,000 - $500,000 annually. *(It should also be noted that they believe it might be a conflict of interest to receive the financial benefits from the administrative disciplinary process by being responsible for enforcing the law, administering discipline and then collecting money from the violators, and thus concludes that monetary penalties should be treated in the same manner as Alcohol and deposited into local school districts.)*

Section 2.2(13) names ATC as the division responsible for implementing this constitutional amendment. They will be responsible for implementing a comprehensive licensing and regulatory system for the cultivation, manufacture, sale, distribution, dispensing and testing of adult use marijuana and adult use marijuana products in the state of Missouri.

Section 2.3(2) requires ATC to promulgate rules for the proper regulation and control of the adult use marijuana act. In order to meet that deadline, they would initially hire a marijuana consultant who has experience in implementing an adult use marijuana program in other states. This person would help set out a framework for implementation of a seed

to sale tracking system, promulgate rules, and provide information on testing protocols that need to be in place to assure product integrity. This person would start January 1, 2023 and would require general revenue funding for his or her fee and expenses for the first year. They have estimated costs of approximately $6,492,870 in FY23, which would require general revenue funding as no revenue will be generated from licensing until after August 1, 2023. (See attached spreadsheet for more details). This estimate reflects total costs for the marijuana consultant and equipment, and partial costs for salaries and expenses, which are calculated as three months for FY23. They will not hire the new staff until April 1, 2023. An estimated two months of FY24 will also require general revenue funding.

Section 2.4(7) gives ATC authority to establish application, licensing and renewal fees, provided that the application/renewal fee does not exceed $2,500. (See attached revenue spreadsheet for details).

Section 2.4(8) gives ATC authority to establish certification and renewal fees, provided that the certification /renewal fee does not exceed $1,000. (See attached revenue spreadsheet for details).

Section 2.5(2) levies a retail sales tax on the sale of adult use marijuana at retail stores at a rate of 7.5%. The taxes shall be collected by the Department of Revenue. They have calculated estimated tax revenue based on Colorado's collections, adjusted to reflect 7.5% tax instead of 15% tax. They are not including the fiscal impact of retail sales tax on the fiscal note worksheet, as it will be collected by Department of Revenue and should be reported by Department of Revenue.

Section 2.5(8) provides that localities can choose to impose a retail sales tax on retail sales of marijuana.

To implement this constitutional amendment, they would add staff at four district offices (Kansas City, St. Louis, Springfield, and Jefferson City) and station a District Supervisor, ten Agent/Special Agents, an Administrative Office Support Assistant, and an Agricultural Expert in each office to be able to cover the territory more effectively and efficiently. This would allow potential licensees more direct access to ATC staff to facilitate licensing demands and respond to questions.

Each office would have an ID card printing device to facilitate the occupational licensing of an expected 43,866 possible owners, managers, officers, and employees of an approximate 1,715 licensed and certified establishments. These numbers were calculated using Colorado's statistics. Since Missouri has approximately 6% additional population, the numbers were adjusted to reflect that increase. The Jefferson City office will have two ID card printers. The total cost for the ID Card Printers and supplies will be approximately $85,157 in FY23.

Stringent background checks will be required and will require agents to follow up in various measures to assure the person applying is of good moral character, and that the affirmations in the application are valid and true. Inspections would be required to verify

information on the licensed premises, and to validate that the signage, security and sanitary requirements are being met. A thorough review of applicant's financial records must be made. Background checks would be required on each owner, officer, manager, stockholder, and all employees who work at or are otherwise associated with the operation. Following is the specific breakdown of the positions requested:

District Supervisor – 4 – ATC would locate a District Supervisor in each office to oversee the activities of ten Agent/Special Agents located in the field offices.

Agents/Special Agents – 40 – Special Agents would each be assigned a specific territory in the district to oversee licensing and regulation. Agents would be the key contact person for licensees to contact with questions and application problems. Agents would attend public hearings, perform inspections and do background checks. They will have 4 districts.

Administrative and Fiscal Manager – 1 – The Administrative and Fiscal Manager will be responsible for all budgetary, fiscal, administrative and legislative aspects of the adult use marijuana program.

Lead Administrative Support Assistant – 7 – The Lead Administrative Support Assistants will be assisting in the large amount of clerical work related to the implementation and ongoing licensing of all the retail marijuana stores, cultivation and production facilities, medical testing facilities, hospitality facilities, delivery and transportation certifications, and all the occupational licenses. Four will be located in the field offices (2 in St. Louis, 1 in Kansas City, 1 in Springfield) and three will be located in the Jefferson City central office.

Administrative Support Professional – 3 – The Administrative Support Professionals would be working with the administrative and licensing sections to process licenses, data entry, track statistics, and facilitate the composition of the reports required by law. They would in addition be utilized to assist in the payroll and payables of processing the increased transactions.

Auditor – 4 – The Auditors will be responsible for auditing licensed premises records to ascertain that the licensee is keeping records according to regulatory standards.

Staff Attorney (Marijuana) – 1 – This person would be responsible for sorting through the complex language of the constitutional amendment, and interpreting the statutes and assisting with the promulgation of new rules to implement the act, as well as ongoing legal counsel regarding the adult use marijuana program.

Agricultural Expert – 4 – The agricultural experts will assist with the technical aspects of the marijuana growth process, cultivation, preparation of, testing of, storage of and anything to do with the product itself.

Expense and Equipment would be necessary for staff as outlined in the expense and equipment fiscal portion to include basic office equipment, laptops and telephone

equipment. Agents will need law enforcement equipment to include weapons, ammunition, ballistic vest, vehicles, travel expenses, etc. (See Attached Marijuana Fiscal Note Spreadsheet).

ITSD Response:

Note: This response was provided in January 2021 for other proposed adult use marijuana legislation. They did not have enough time to get an updated response, but estimates similar costs.

2. Does this proposal duplicate any other program?							
This potentially duplicates the DHSS medical marijuana system.							
8a. Provide narrative on the IT impact this bill would have (program expansion or modifications, new application, consolidation, etc.)							
ATC does not currently have a system with the proposed functionality. A new system would be needed.							
8b. Explanation of assumptions and methodology used in arriving at the impact; Please reference and/or attach any/all supporting documentation to email.							

The cost estimate is based on the projected cost for the Department of Health and Senior Services (DHSS) medical marijuana system. DHSS was designated as the department responsible for the regulation and licensure of medical marijuana after Missouri voted to legalize it in November of 2018. DHSS is currently developing a system for the regulation and licensure of marijuana, with a current estimated total cost of approximately one million dollars and expected completion toward the end of 2020. Development of the system is approximately ninety-eight percent complete. If passage of this bill would shift responsibility of the regulation and licensing of medical marijuana from DHSS to the Department of Public Safety, Division of Alcohol and Tobacco (DPS), DPS would have the option to adopt/carry forward the system work completed, or develop a separate/new system.

Additional Notes/Assumptions:
*1 The consultant rate of $95 per hour is an estimated rate based on current contract(s) pricing. It is assumed that any new IT project/system will be bid out, as all ITSD resources are at full capacity.
*2 Project Management hours is an estimated rate of 8% based on current/projected averages.
*3 BOBC 400

Comments:

ATC believes that for the proper administration and enforcement of the adult use marijuana initiative petition, the division would need to be authorized with powers of arrest. This could be done by adding "Article XIV, Section 2 relating to adult use marijuana" as below:

311.630. 1. The supervisor of alcohol and tobacco control and employees to be selected and designated as peace officers by the supervisor of alcohol and tobacco control are hereby declared to be peace officers of the state of Missouri, **[**with full power and authority to make arrests and searches and seizures only for violations of the provisions of**] whom shall be vested with the powers and duties specified in this chapter and all powers necessary to enable such peace officers to fully and effectively carry out the purposes of** this chapter relating to intoxicating liquors, **Article XIV section 2 relating to adult use marijuana,** and sections 407.924 to 407.934 relating to tobacco products, and to serve any process connected with the enforcement of such laws. The peace officers so designated shall have been previously appointed and qualified under the provisions of section 311.620 and shall be required to hold a valid peace officer license pursuant to chapter 590.

2. The supervisor of alcohol and tobacco control shall furnish such peace officers with credentials showing their authority and a special badge, which they shall carry on their person at all times while on duty. The names of the peace officers so designated shall be made a matter of public record in the office of the supervisor of alcohol and tobacco control.

3. All fees for the arrest and transportation of persons arrested and for the service of writs and process shall be the same as provided by law in criminal proceedings and shall be taxed as costs.

Technical errors:

Section 2.2 (8) refers to the division of health and senior services. This should read department of health and senior services.

Section 2.3 (2) (r) refers to the division of revenue. This should read the department of revenue.

Section 2.5 (3) (b) says that monies collected shall be distributed by the division. This should say that monies collected shall be distributed by the department of revenue. The division (alcohol and tobacco control) will not be collecting taxes. The department of revenue will be collecting all sales tax monies and should be responsible for distributing the funds appropriately.

Section 2.5 (3) (c) says that monies collected shall be distributed by the division. This should say that monies collected shall be distributed by the department of revenue. The division (alcohol and tobacco control) will not be collecting taxes. The department of revenue will be collecting all sales tax monies and should be responsible for distributing the funds appropriately.

Section 2.6 has two subsection (3). The second subsection (3) should be changed to (4), subsection (4) changed to (5), subsection (5) changed to (6), subsection (6) changed to (7), subsection (7) changed to (8), subsection (8) changed to (9), and subsection (9) changed to (10).

Section 2.7 has two subsection (3) and subsection (4). The second subsection (3) should be changed to (5), and the second subsection (4) should be changed to (6).

Section 2.7 (3) (the first one) states that the local government shall not adopt ordinances or policies that would impose an excessive fees or an undue burden on any one or more licensees or certificate holders. The word "fees" should be changed to "fee".

* Based on a 10% Turnover Rate, I calculate that every year there will be an approximate 10% of changing business situations, and turnover of employees.

The Missouri State Highway Patrol provided the following impact and concerns:

There are approximately 32,327 records in the Traffic Arrest System (TAS) pertaining to arrests completed by the Missouri State Highway Patrol that could possibly meet the requirements of this proposed constitutional amendment. These are arrest records with or without a court conviction with an NCIC modifier of 60-64 that relate to marijuana offenses. However, due to the uncertain nature of this proposal to amend Missouri's Constitution, the Patrol Records Division (PRD) has no true way to determine the actual impact associated with such a proposal. If PRD is required to simply complete a mass expungement of all 32,327 records without processing individual court orders, then this could probably be completed by the Criminal Justice Information Services Division (CJIS) programming the TAS. However, if PRD is required to process 32,327 court orders for this endeavor, then the division will require 9 FTE to process the court orders.

1 full-time employee (FTE) = 1,864 hours (average work hours per year) x 60 minutes per hour = 111,840 minutes per year.

30 minutes = estimate of the amount of time per petition to log, process, research, review, and expunge the information/record when the order is received.

1 FTE can process 3,728 expungements per year = 111,840 / 30.

32,327 / 3,728 = 9 FTEs

The approximate cost for 9 FTEs would be $477,000 including fringe benefits.

The fiscal impact would also include the cost associated with replacing all but 2 of the Patrol's canines. The Patrol's canines are currently trained using cannabis/marijuana as one of four drugs they are to alert to. The purchase and initial training for a canine is approximately $25,000. The overall cost to purchase and train the current canine program would be approximately $175,000 ($25,000 X 7). The time to train these canines could take up to three years. Not only will there be a financial impact to the Patrol, there will also be an impact to the services provided to other law enforcement agencies until the unit reaches full capacity.

In addition to the fiscal impact, the following are the Patrol's concerns based on what other states have reported:

In 2009, Colorado traffic fatalities involving drivers testing positive for marijuana represented 9% of the total traffic fatalities. Recreational marijuana use was legalized in 2012. By 2019, that number more than doubled to 21%.

Since recreational marijuana was legalized in 2013, Colorado traffic deaths in which drivers tested positive for marijuana increased 135% while all Colorado traffic deaths increased 24%.

Marijuana-related deaths when a driver tested positive for marijuana more than doubled from 55 deaths in 2013 to 129 deaths in 2019.

The yearly number of marijuana related hospitalizations increased 101% after the legalization of marijuana, (2009-2017).

Colorado's youth for 2020 marijuana use was 43% higher than the national average.

The average THC levels in marijuana has increased significantly over the years: 1969-0.8%, 1995-4%, 2013-13%, 2017-20+%, Oil, 1995-13%, 2013-52%, highest plant 38%, highest oil 95%+.

Medical marijuana has been legal in the state of Colorado since 2000. On November 12, 2012, the state of Colorado passed Amendment 64, which legalized private use of marijuana. Per the Colorado State Patrol's driving under the influence statistics, marijuana DUI citations increased 25.5% from 2014 to 2018 and marijuana and alcohol citations increased 112% in the same time range. As marijuana becomes legalized, its use increases.

The three years after Colorado legalized marijuana for recreational use (2013-2015), its use increased in youth ages 12-17, by 12%, in young adults aged 18-25 by 16%, and adults 26 and older by 71%. By removing the recommended acceptable ages of use, zoning regulations, packaging, and advertising of cannabis/marijuana, the risk of use and abuse of marijuana by the youth of Missouri is substantially increased. This category of Missourians, who recent studies have shown significant long-term cognitive impairment when marijuana is ingested during the developmental years, would be affected.

In Missouri, medical marijuana was legalized by Amendment 2 and took effect December 2018. As of July 9, 2020, 18 states and Washington D.C. have legalized recreational marijuana and 37 states have legalized medical marijuana. In a 2013-2014 National Highway Traffic Safety Administration (NHTSA) roadside survey, 20% of the nighttime and weekend drivers tested positive for drugs. Interestingly, the number of daytime drugged drivers was approximately the same amount as night and weekend drugged drivers. A roadside study in Colorado and Washington, the first two states to legalize marijuana for recreational use, showed the primary increase of marijuana users happened to their daytime drivers. The percent of drivers that tested positive for marijuana during the day went from 8%, before recreational marijuana sales, to 23%, 6-12 months after marijuana was legalized. There was a 48% increase in weekend nighttime drivers testing positive for THC or 11-OH-THC (an active metabolite of THC) from 2007 to 2014.

Montana legalized medical marijuana in 2004 and from 2007-2010, the presence of marijuana in DUI suspects increased over 100%. Also, the number of DUI suspects who tested positive for alcohol and marijuana increased by over 180%.

This has Department of Health and Senior Services (DHSS) being the agency that enforces it. The concern is that DHSS has no police powers which would inhibit enforcement efforts.

This initiative petition will remove cannabis/marijuana from Missouri Revised Statutes and creating conflict with both several Federal and State laws, such as the use or possession of a firearm, and could conflict and violate federal law. This initiative petition does not support the Gun Control Act (GCA), codified at 18 U.S.C. § 922.

This proposed language in Section 6(7) only applies to Missouri's courts since the central repository is not noted in the petition, therefore, there would be no CJIS impact. However, if the language was modified to include the central repository there would be a technical impact on CJIS to remove any offenses identified in the proposal including FBI records.

The petition process is not defined and the proposal does not identify the agencies that are to expunge the records. Plus, it does not identify if expunge means to destroy or close the record.

The authority to submit fingerprints to the FBI for a federal fingerprint based criminal record check is not authorized though the Initiative Petition process. Federal fingerprint based criminal record checks authorized under P.L. 92-544 can only be approved under a state statute that has gone through the full legislative process.

As the Patrol has officers assigned to federal task forces that may be involved in a federal drug operation, there are concerns over potential civil litigation resulting from these types of operations, as marijuana is still classified as a Schedule I controlled substance, and illegal under federal law.
The Patrol operates in accordance with the Drug-Free Workplace Act of 1988, which requires a drug testing program. This program tests potential employees as well as random testing for incumbent employees in enforcement, and drug sensitive areas.

Noted in Section 1.7 (1) (d), this provides good protection for employers. The Patrol believes this needs to be added to Section 2 of the initiative petition as well.

Another concern is the inability to properly train officers as laws have not yet been established. Further training is currently needed on medical marijuana laws, and more training will need to be established if this passes. Once recreational use passes, other intoxicating/impairing substances may be targeted for legalization/decriminalization as they have in many other states. One example is Oregon which has decriminalized psilocybin, cocaine, heroin, oxycodone, methamphetamine, and other drugs.

If passed, this petition will conflict with federal cannabis/marijuana laws and could cause significant conflict with several Federal and State laws, such as the use or possession of a firearm. Cannabis/marijuana causes impairment and is not a suitable drug to be used in various safety sensitive positions in the workforce, therefore strong language protecting employers is suggested. The workforce which could be affected would include any position where safety is a must, such as operating a motor vehicle, operating heavy machinery, and all aspects of public safety.

There is no language as to where the cannabis/marijuana may remain, such as any cannabis/marijuana purchased or grown in Missouri must remain in Missouri. While this is a federal offense, a lack of this type of language may allow Missouri cannabis/marijuana facilities to distribute cannabis/marijuana outside of the state or allow other states to distribute their cannabis/marijuana in Missouri. A lack of such language could lead to Missouri being a distribution state for states where cannabis/marijuana remains illegal.

For further consideration, as the legalization or decriminalization of cannabis/marijuana has increased in the past several years, so have the crashes and deaths on highways. Blood screenings on drivers in serious injury and fatal crashes have shown a staggering increase in drivers who have cannabis/marijuana within their system at the time of the crash.

Overall cost to the Patrol:
9 full-time employees = $477,000
7 new canines for the canine program = $175,000
Total cost = $652,000

Officials from the **Department of Social Services** indicated this has no fiscal impact on their department.

Officials from the **Governor's office** indicated this proposal relating to cannabis should not fiscally impact their office.

Officials from the **House of Representatives** indicated no fiscal impact.

Officials from the **Department of Conservation** indicated there is no anticipated fiscal impact (cost or savings) to their department associated with this proposal.

Officials from the **Department of Transportation** indicated language with respect to the expungement of marijuana convictions within the initiative petition would prevent enforcement of 49 CFR § Parts 391 and 392. These federal regulations relate to the possession of and use of controlled substances by commercial motor vehicle drivers.

The expungement language, found in the section entitled *Public Safety*, Section 2.6(7), would keep the marijuana-related convictions of commercial motor vehicle (CMV) drivers from appearing in their criminal records. This would force Missouri agencies to forgo enforcement of Federal Motor Carrier Safety Regulations (FMCSRs) pertaining to the use of disqualified drivers.

If prior marijuana convictions are wholly expunged from criminal records, the records of CMV drivers who had been convicted of marijuana-related offences would not retain this information, yet the driver is technically not qualified to operate a CMV. Further, neither the Missouri Department of Transportation (MoDOT) Motor Carrier Services nor other motor carrier enforcement agencies could know of the convictions when making enforcement determinations.

In order to receive the Motor Carrier Safety Assistance Program (MCSAP) funding, Missouri must enforce the FMCSRs in whole. The expungement of marijuana convictions would prevent enforcement of 49 CFR § Parts 391 and 392.

Per 49 CFR § 350.215 – The penalty imposed upon states found to be in noncompliance can be as harsh as withholding all MCSAP funding; or
Withholding up to 5 percent of MCSAP funds during the fiscal year that the FMCSA notifies the State of its noncompliance;
Up to 10 percent of MCSAP funds for the first full fiscal year of noncompliance;
Up to 25 percent of MCSAP funds for the second full fiscal year of noncompliance; and
Not more than 50 percent of MCSAP funds for the third and any subsequent full fiscal year.

Missouri's share of MCSAP funds in fiscal year (FY) 2021 are $7,060,488.

Officials from the **Office of Administration** indicated this proposal would legalize recreational marijuana for any Missouri resident over the age of 21, beginning January 1, 2023.

Article XIV, Section 2.1 specifies that this section is not intended to supplant the medical marijuana market.

Article XIV, Section 1.3(1)(h) and (15-17) are removed which would eliminate the DHSS-imposed facility license caps likely resulting in an increase in TSR from additional facilities applying for licensure. **Article XIV, Section 1.3(12)** would reduce the annual cultivation fee from $100 per year to $25 per year. **Article XIV, Section 1.4(2)(a)** would limit the amount of funds to be kept by the Department of Health and Senior Services (DHSS) for the administration of the medical marijuana program to 20% of net deposits into the Missouri Veterans' Health and Care Fund. The language is unclear as to what constitutes net deposits. Budget & Planning (B&P) defers to DHSS for an impact on these provisions.

Article XIV, Section 2.4(7-9) allows the Department of Public Safety (DPS) to charge an application and annual renewal fee of up to $2,500 per application/annual renewal for cultivation, manufacturing, and retail facility licenses. Hospitality facilities are to be charged a certification and annual renewal fee of up to $1,000. These certifications grant these facilities the permission to allow individuals to consume marijuana on business premises while also allowing the sale of food and beverages, including alcohol. Application and renewal fees shall be adjusted each year based on the rate of inflation. Additionally, for rejected applications, there may be a re-submittal fee of up to $500 if the business decides to reapply. **Article XIV, Section 2.5(1)** specifies that if application and renewal fees are insufficient for DPS to administer the program, they must request additional funding through a cash operating transfer from the Missouri Economic Recovery and Growth Fund created in **Section 2.5(3)**. These funds are to be repaid as provided by law.

DPS is permitted to allow business applicants to apply for a reduced application or renewal fee if the business meets certain qualifying factors including being located in areas with high unemployment; areas designated as Economic Disadvantaged Zones; being owned or operated by an entity denied a medical marijuana license based on application score; or businesses owned by minorities, veterans, and marginalized groups.

Licensed medical marijuana facilities may apply for recreational licensure at their current location of business.

B&P notes that medical marijuana facilities are charged the following fees under Article XIV, however the annual fees have been increased by DHSS since inception as permitted:

- medical marijuana cultivation facility: $5,000 application fee and $25,000 annual fee ($25,933.05 for FY 22)
- medical marijuana dispensary facility: $3,000 application fee and $10,000 annual fee ($10,373.22 for FY 22)
- medical marijuana infused-products manufacturing facility: $3,000 application fee and $10,000 annual fee ($10,373.22 for FY 22).

B&P notes that some facilities may choose to be licensed under Article XIV, Section 2, rather than under the medical marijuana provisions in Article XIV Section 1 due to the lower application and renewal fees. However, **Article XIV, Section 2.3(2)(s)** requires that facilities with medical marijuana contracts must require an adequate supply of medical marijuana, including basing the supply levels on historical sales. Supply contracts for medicinal use are to take precedence over supply contracts for recreational use. It is unclear how this may affect medical marijuana supply and sales, but this could reduce the amount of revenue to the "Missouri Veterans' Health and Care Fund", which receives monies from medical marijuana licensing and renewal fees. B&P is unable to determine the amount of fee revenues that may be lost due to this provision; however, in FY 2021 DHSS collected $13,971,974 in licensing fees. B&P defers to DPS and DHSS for further discussion on the application and licensing fees.

DPS is required to promulgate rules and issue licenses prior to June 30, 2023. If DPS does not meet this deadline, the rules and regulations for the licensing of alcoholic beverage manufacturing and sales will apply to recreational marijuana facilities. Further, local governments are to develop and adopt ordinances and policies prior to June 30, 2023. If local governments do not meet this deadline, the rules and regulations for the licensing of alcoholic beverage manufacturing and sales will apply to recreational marijuana facilities.

Article XIV, Section 2.5(2)(a) would levy a 7.5% sales tax on retail sales of marijuana. DOR may retain up to 2% of collections for collection costs. All monies from the sales tax shall be deposited into the newly created "Missouri Economic Recovery and Growth Fund." **Subdivision (6)** would prohibit any other taxes from being levied on recreational marijuana. B&P notes that this would prohibit the Conservation sales tax (0.125%) under Article IV, Section 43(a); the Parks, Soil, and Water sales taxes (0.1% total) under Article IV, Section 47(a); and the School District Trust fund sales tax (1.0%) under Section

144.701, RSMo. **Subdivision (8)** would allow local governments to impose a sales tax in an amount up to the rate such jurisdiction imposes for alcohol or other retail sales tax, whichever is higher. B&P notes that for calendar year 2021, the average local sales tax rate is 4.03%.

Therefore, under this petition, the state tax rate for recreational marijuana will be the 7.5%. B&P notes that the total tax rate (excise and sales tax) on medical marijuana is currently 8.225%. Therefore, it is possible that some or all medical marijuana patients may opt to purchase recreational marijuana instead. This could result in reduced revenues to the Missouri Veterans' Health and Care Fund (4.0% excise tax); Conservation (0.125% sales tax); Parks, Soil, and Water (0.1% total sales tax); and education (1.0% sales tax). However, B&P notes that some of the reduced revenues from the other state funds would instead shift to the newly created "Missouri Economic Recovery and Growth Fund."

B&P notes that this petition does not grant DOR rule making authority and it does not contain any provisions regulating when retailers must submit recreational marijuana sales taxes to DOR. For the purpose of this fiscal note, B&P will assume that such retailers will remit sales tax collections to DOR based on existing statute and DOR regulations. However, it is possible that retailers could remit taxes on a different schedule. B&P defers to DOR for more information.

Article XIV, Section 2.5(3) creates the "Missouri Economic Recovery and Growth Fund". Monies in the fund shall be used for:

- One-third of collections – distributed to state and local jurisdictions for infrastructure improvement.
- One third of collections – grants to state agencies, educational institutions, and not-for-profit organizations for drug treatment and support, legal assistance for expungement, and tetrahydrocannabinol (THC) research.
- One-third of collections – grants for non-profit organizations for business loans to marginalized populations and cannabis industry training for current and former inmates.

<u>Revenue Estimates</u>

B&P notes that while this proposal would begin January 1, 2023 sales tax collections would not begin until at least January 1, 2024 or later due to the application and approval process timelines set forth in Section 2.4(12). Therefore, B&P will reflect sales tax collections as beginning in early calendar year 2024 (late FY 2024).

Based on research, B&P was able to find forecasts for the U.S. legal market for cannabis. According to such forecasts, the U.S. market for legal marijuana will be approximately $32.1 billion in calendar year 2023 and grow up to $47.3 billion by calendar year 2027. Based on information from the Substance Abuse and Mental Health Services

Administration[1], from 2018-2019 approximately 15.03% of Missouri residents and 16.98% of all U.S. residents surveyed have used marijuana within the last year. Using the populations of Missouri residents compared to the U.S. population, B&P estimates that the market for legal marijuana in Missouri is 1.66% of the total U.S. market. Therefore, B&P estimates that the Missouri market for legal marijuana would be approximately $534.1 million in calendar year 2023 ($32.1 billion x 1.66%) and up to $787.1 million by calendar year 2027 ($47.3 billion x 1.66%).

Based on further research[2], B&P estimates that there could be between 61,700 to 122,500 medical marijuana users in Missouri. Using these estimates, and the estimates shown above, B&P estimates that the Missouri market for medical marijuana would be between 0.14% and 0.29% of the total U.S. Market for legal marijuana. Therefore, B&P estimates that the total Missouri market for recreational marijuana would be 1.38% to 1.52% of the total U.S. market. Table 1 shows the estimated U.S. and Missouri markets for marijuana.

Table 1: Estimated Marijuana Market Size for the U.S. and Missouri

Calendar Year	Estimated U.S. Market Size	Estimated MO Market Size	Estimated MO Medical Market Size	Estimated MO Recreational Market Size
2024	$35,900,000,000	$597,379,769	$85,613,340	$511,766,429
2025	$39,700,000,000	$660,612,168	$102,341,724	$558,270,445
2026	$43,500,000,000	$723,844,567	$119,070,107	$604,774,460
2027	$47,300,000,000	$787,076,966	$135,798,491	$651,278,476

B&P notes that this petition could result in the shift of medical marijuana sales to recreational sales. For the purpose of this fiscal note, B&P will show the estimated impact as if all medical sales shift to recreational versus no medical sales shift to recreational.

Therefore, B&P estimates that this proposal may increase state revenues by $37,761,785 to $38,382,482 in calendar year 2024. By calendar year 2027, B&P estimates that this proposal may increase state revenues by $47,861,347 to $48,845,886. This proposal could also increase local revenues by $20,624,187 in calendar year 2024 and $26,246,523 by calendar year 2027. Table 2 shows the estimated revenues generated by calendar year.

Local Revenue (4.03% avg local tax rate)	$24,372,411	$24,372,411	$26,246,523	$26,246,523

However, B&P notes that if voter approved in November 2022, this proposal would not be enacted until January 1, 2023 and sales tax collections would not begin until at least January 2024 (halfway through FY 2024). Based on historical sales tax collection data, B&P adjusts calendar year collections 50% into the first fiscal year and 50% into the second fiscal year. Therefore, B&P estimates that this proposal will increase state revenues by $18,880,893 to $19,191,241 in FY 2024. BY FY 2028, this proposal may increase state revenues by $47,861,347 to $48,845,886. This proposal may also increase local revenues by $10,312,094 in FY 2024 and up to $26,246,523 by FY 2028. Table 3 shows the estimated revenue generated by fiscal year.

Table 3: Sales Tax Collections by Fiscal Year

Fund	FY 2024		FY 2025		FY 2026	
	All Medical Shift	No Medical Shift	All Medical Shift	No Medical Shift	All Medical Shift	No Medical Shift
MO Econ Recovery and Growth Fund	$22,401,741	$19,191,241	$47,174,698	$40,126,383	$51,917,128	$43,614,184

Local Revenue	$25,309,467	$25,309,467	$26,246,523	$26,246,523

Article XIV Section 1.3(2)(h) requires that all medical marijuana employees, owners, officers, and other individuals affiliated with the business to undergo a fingerprint-based criminal background check. The removal of the license caps on medical marijuana facilities may increase the number of individuals needing these checks. Further, **Article XIV Section 2.4(10)** requires that all recreational marijuana employees, owners, officers, and other individuals affiliated with the business undergo a fingerprint-based criminal background check. The Missouri State Highway Patrol (MSHP) Criminal Justice Information Services (CJIS) Division processes all state and federal fingerprint background checks. The CJIS has the following fee structure for background checks:

State fee:	$20.00
Vendor Fee:	$8.50
FBI fee:	$13.25
Total fees:	$41.75

The state retains the $20 state fee and $2 of the FBI fee ($22 total retained by the state). All fees collected will be deposited in the MSHP Criminal Records System Fund. MSHP verified that over 90% of background checks are conducted using third party vendor, IDEMIA, who charges the applicant an $8.50 fee which is kept by IDEMIA. The applicant pays the full fee of $41.75 to the vendor and MSHP then collects the full state and FBI fees ($33.25) from the vendor each month. The FBI bills MSHP monthly, and MSHP pays the FBI their portion of the FBI fee out of the MSHP Criminal Records System Fund. B&P defers to MSHP for further discussion on this impact.

If a new crime is created or removed or there is an increase or decrease in class of crime, any portion of any associated penalty fees/fines that go to the state may impact TSR. **Article XIV, Section 2.6(4)** allows adults over age 21 to possess at any one time the following amounts of marijuana:

- up to eight ounces of dried unprocessed flower;
- up to 28 grams of concentrated resin or extract; and
- up to 4,000 milligrams of THC in cannabis-infused products.

Pursuant to Section 579.015, RSMo, a first time offense of possession of ten grams or less of marijuana is a Class D misdemeanor subject to a fine up to $500. Any subsequent offenses, as well as any offenses of possession of marijuana of more than ten grams but 35 grams or less, are Class A misdemeanors subject to a fine of up to $2,000 and up to one year in jail. It is unknown how many violations and associated fines would be reduced by passage of this amendment. Therefore, this proposal could decrease total state revenue by an unknown amount beginning January 1, 2023.

Article XIV, Section 2.7(3) permits local governments to require recreational marijuana businesses to obtain business licensure under local ordinances but prohibits any additional fee or special license specific to these types of businesses. **Article XIV, Section 2.7(4)** allows local governments to establish civil penalties for violation of an ordinance or regulation governing medical marijuana facilities so long as these penalties are not greater than those imposed on alcoholic beverage manufacturers or sellers. B&P notes that it would appear that subdivision 4 should reference recreational marijuana businesses rather than medical marijuana. These provisions may impact local revenues by an unknown amount.

Officials from the **Office of State Courts Administrator** indicated the initiative petition proposing to Amend Article XIV establishes and modifies provisions relating to the legalization of marijuana for adult use.

The average of all marijuana related charge codes from 2015 to 2019 for Circuit case types is 2,457 per year. The average of all marijuana related charge codes from 2015 to 2019 for Associate case types is 8,153. They are unable to determine what number of these charges were for someone over the age of twenty-one.

The following Criminal Court Costs would be affected by this proposed legislation:

	Criminal Court Costs		
Felony Case Costs	**Amount of Cost**		**Disburse to State/County**
Basic Civil Legal Services Fund surcharge	$10.00		State of Missouri - Basic Civil Legal Services Fund
Clerk Fee	$45.00		State of Missouri - General Revenue $36, County $9
County Fee	$75.00		County
Court Automation Fund Fee	$7.00		State of Missouri -Statewide Court Automation Fund
Court Reporter fee (All Circuit Division Cases)	$15.00		State of Missouri - General Revenue
Crime Victims' Compensation Fund surcharge	$7.50		State of Missouri - Crime Victims' Compensation Fund
DNA Profiling Analysis Fund surcharge	$30.00		State of Missouri - DNA Profiling Analysis Fund
Brain Injury Fund surcharge	$2.00		State of Missouri - Head Injury Fund
Independent Living Center Fund surcharge	$1.00		State of Missouri - Independent Living Center Fund
Motorcycle Safety Trust Fund surcharge	$1.00		State of Missouri - Motorcycle Safety Trust Fund
Peace Officer Standards & Training (POST) Commission surcharge	$1.00		State of Missouri - Peace Officer Standards & Training Fund
Prosecuting Attorney and Circuit Attorneys' Retirement Fund	$4.00		Pros. Attorney Retirement Fund
Prosecuting Attorney Training Fund surcharge	$5.00		State of Missouri - Prosecuting Attorney Training Fund
Sheriffs' Fee	$75.00		County
Sheriffs' Retirement Fund surcharge (except 21st Circuit)	$3.00		Sheriffs' Retirement Fund
Spinal Cord Injury Fund surcharge	$2.00		State of Missouri - Spinal Cord Injury Fund
Total	$283.50		
Misdemeanor Case Costs			

Basic Civil Legal Services Fund surcharge	$8.00		State of Missouri - Basic Civil Legal Services Fund
Clerk Fee	$15.00		$12 State of Missouri / $3 County
County Fee	$25.00		County
Court Automation Fund Fee	$7.00		State of Missouri - Court Automation Fund
Crime Victims' Compensation Fund surcharge	$7.50		State of Missouri - Crime Victims' Compensation Fund
DNA Profiling Analysis Fund surcharge	$15.00		State of Missouri - DNA Profiling Analysis Fund
Brain Injury Fund surcharge	$2.00		State of Missouri - Brain Injury Fund
Independent Living Center Fund surcharge	$1.00		State of Missouri - Independent Living Center Fund
Motorcycle Safety Trust Fund surcharge	$1.00		State of Missouri - Motorcycle Safety Trust Fund
Peace Officer Standards and Training (POST) Commission surcharge	$1.00		State of Missouri - Peace Officer Standards & Training Fund
Prosecuting Attorney and Circuit Attorneys' Retirement Fund	$4.00		Pros. Attorney Retirement Fund
Prosecuting Attorney Training Fund surcharge	$5.00		$0.50 State of Missouri / $0.50 County
Sheriffs' fee	$10.00		County
Sheriffs' Retirement Fund surcharge (except 21st Circuit)	$3.00		Sheriffs' Retirement fund
Spinal Cord Injury Fund Surcharge	$2.00		State of Missouri - Spinal Cord Injury Fund
Total	**$106.50**		
Municipal Case (Filed in Associate Division) Costs			
Clerk Fee	$15.00		$12 State of Missouri / $3 County
Court Automation Fund Fee	$7.00		State of Missouri - Court Automation Fund
Crime Victims' Compensation Fund surcharge	$7.50		State of Missouri - Crime Victims' Compensation Fund
Peace Officer Standards and Training (POST) Commission surcharge	$1.00		State of Missouri - Peace Officer Standards & Training Fund

Sheriffs' Retirement Fund surcharge	$3.00		Sheriffs' Retirement Fund
Total	**$33.50**		
Criminal Costs Not Included Above			
Drug Testing by a State Lab	$150.00		State of Missouri
Drug Testing by a Private Lab	Actual Costs		County Reimbursement
Law Enforcement Arrest Costs:			
Highway Patrol			Amt. Approved by the Court
Local (County)			Amt. Approved by the Court
Municipal			Amt. Approved by the Court

The decrease in the court fees, depending on the number of cases, will result in an unknown loss to the courts and to the specific funds.

They also assume there will be an unknown decrease in caseload for the courts because the courts will no longer process these cases; however, at this time they are unable to calculate the decrease.

Any significant increase or decrease will be reflected in future budget requests.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be $7 million based on the cost of the 2020 Presidential Preference Primary.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Funding for this item is adjusted each year depending upon the election cycle. A new decision item is requested in odd numbered fiscal years and the amount requested is dependent upon the estimated number of ballot measures that will be approved by the General Assembly and the initiative petitions

certified for the ballot. In FY 2014, the General Assembly changed the appropriation so that it was no longer an estimated appropriation.

In FY19, over $5.8 million was spent to publish the full text of the measures for the August and November elections. Their office estimates $75,000 per page for the costs of publications based on the actual cost incurred for the one referendum that was on the August 2018 ballot.

Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition will reduce the number of illegal possession of a controlled substance cases in which State Public Defender provides legal representation. The exact fiscal impact of that reduction is unknown. This initiative petition may provide funding for State Public Defender under Section 5 (3)(b) (iii) as a legal organization that provides free representation on drug related charges. Again, the exact fiscal impact of that reduction is unknown.

Officials from the **State Treasurer's office** indicated there is a tax and a variety of fees imposed in this petition. Once in operation, marijuana businesses have had difficulties obtaining and maintaining bank accounts due Federal law and regulations. Their office and the Department of Revenue have explored options to handle large amounts of cash from licensed marijuana businesses as the Department of Revenue may see many of these taxes paid in cash. Changes in security measures and collection points may be needed as the Department of Revenue, the Department of Health and Senior Services, and the Department of Labor and Industrial Relations do not currently receive large amounts of cash. The changes in this initiative petition may increase the potential amount of receipts in cash. They are unable to determine the fiscal impact to their office.

Officials from **Clay County** indicated they estimate the following as a result of this petition:

Costs:
- ~$30,000 in Sheriff Road Patrol OT for DWIs
- ~$5,000 in extra Sheriff fuel use to patrol
- ~$35,000 annually in costs

Savings/Revenues:
- ~$25,000 in the 1/3rd of the 7.5% tax to be dedicated to infrastructure
- ~$150,000 in sales taxes
- ~$25,000 in property taxes
- ~$1,000 in liquor-equivalent licenses

- ~$5,000 in planning & zoning permits
- ~206,000 annually in savings/new revenues

Net annual savings of ~$171,000.

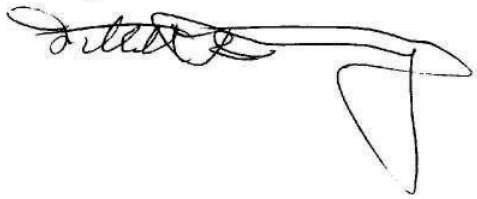
Officials from **Greene County** indicated there is anticipated costs to their county for this initiative petition per the following information concerning this initiative petition, https://static1.squarespace.com/static/5541a76ae4b0175cee8827d0/t/580684e5ff7c50adea98399e/1476822252561/Letter+to+CA+from+Denver+DA.jpgI provided by their County Prosecutor, Dan Patterson. There may also be sales tax attained for their county based on the authority given for taxation and funding to impose a retail sales tax. Since it is a may, there is no certainty to ascertain if any tax dollars attained will be collected, and if they are collected any data to suggest an amount of actual sales that will take place to base the estimation on.

To help better fully understand the fiscal impact would require a very detailed study to give the best opportunity to understand the impact to law enforcement, prosecutors and the circuit courts within the proposed changes of this initiative petition, which the linked letter demonstrates occurred in Colorado after similar legislation passed. In addition, it would also require a very reliable method of measurement to predict a dependable sales estimate of this product and the impact the sales would have on additional local sales tax receipts for a local entity. Unfortunately neither of these are currently feasible due to the short timeline given to respond.

County Prosecutor, Dan Patterson provided the following information:

DenverDA
Mitchell R. Morrissey, District Attorney - Second Judicial District
201 W. Colfax Avenue, Dept. 801, Denver, CO 80202
Bus. Phone: 720-913-900
Fax: 720-913-903

October 12, 2016



No on 64 Campaign and SAM Action

California voters are being told that they will see the crime rate go down if they vote to legalize marijuana commercially; this has not been the case in the state of Colorado or the city of Denver. Since the legalization of recreational marijuana in Colorado in 2013 traffic related marijuana deaths have increased 48%, marijuana related emergency room visits have increased 49%, and marijuana related calls to the poison center have increased 100%. According to the Colorado Bureau of Investigations in 2015 statewide homicides in Colorado rose 14.7 % over the previous year. Pueblo, Colorado had the highest homicide rate in the state with 11.1 killings per 100,000 residents. Aurora, Colorado's homicide rate more than doubled from 2014. Additionally more places in Colorado were robbed and more thefts occurred, especially cars, as 193,115 motor vehicles were reported stolen, up 27.7 % in 2015 from the previous year. In 2015, sexual assaults rose 10% in Colorado with Denver, Aurora, Lakewood, Westminster and Pueblo all reporting higher numbers as well.

In the city of Denver since the legalization of recreational marijuana the number of crimes in Denver has grown by about 44 %, according to annual figures the city reported to the National Incident Based Reporting System. In 2015 in Denver alone crime rose in every neighborhood in the city. The murder rate hit a decade high, 1059 more cars were broken into, there were 903 more auto thefts, 321 more aggravated assaults and 231 more homes were broken into compared to 2014.

California voters are also being told that legalizing recreational marijuana will free up law enforcement to work on other criminal activities. Again that has not been the case in Denver. Besides the overall increases in crime we have experience, the Denver police department is dealing with a 900% increase in the unlawful cultivation and manufacture of marihuana concentrate, and a 99% increase in the unlawful distribution of marijuana and marijuana concentrate. The quantity of illegal marijuana seized by the Denver police has increased 3,424% on average per case. The volume of marijuana seized per case has increased from an average of 162 pounds to 5724 pounds. In Denver unlawful public consumption of marijuana citations has increased over 300% per year since the legalization of recreational marijuana. The Denver police department is busier enforcing marijuana laws and investigating crimes directly related to marijuana, including murderers, robberies, and home invasions, than any other time in the history of the city.

Sincerely,

Mitchell R. Morrissey
Denver District Attorney

Officials from the **City of Kansas City** indicated this amendment may have a positive fiscal impact on their city, by an increase in tax revenue.

Officials from **Metropolitan Community College** indicated there are too many unknowns to determine the fiscal impact for their college. There is potential for increased operational expenses due to policies and procedures that may need to be addressed and changed. Also a potential need for increased drug testing. However, future opportunities on the educational side may arise.

Officials from the **Missouri Veterans Commission** indicated the following:

Michael L. Parson
Governor

Paul Kirchhoff
Executive Director

MISSOURI VETERANS COMMISSION

205 Jefferson Street, P.O. Drawer 147, Jefferson City, MO 65102-0147
Telephone: (573) 751-3779 www.mvc.dps.mo.gov Fax: (573) 751-6836

September 7, 2021

The Honorable John R. Ashcroft
Secretary of State
600 W. Main Street
Jefferson City, MO 65101

Dear Secretary of State Ashcroft,

Initiative Petition 2022-064 (hereinafter, the Petition) will have a disastrous fiscal impact upon the Missouri Veterans Commission. Under the existing medical marijuana program (Article XIV of the Missouri Constitution), we anticipate receiving $6.8 million dollars in fiscal years 2022 through 2026 from the tax revenues generated from the retail sales of medical marijuana. The Petition makes some changes to that program which would adversely impact the Commission, but its most severe impact to the Commission is in the creation of a non-medical marijuana program (the proposed Article XIV, section 2 to the Missouri Constitution).

The medical marijuana program is predicated on medical need and the physician certification that marijuana is the appropriate treatment for that medical need. Conversely, the non-medical marijuana program has no requirement for medical need or for physician certification. Notwithstanding the assertion in the Petition that the non-medical marijuana program is not intended to supplant the medical marijuana program, we anticipate that is prescisely what will occur should the Petition become law. It is only common sense that those wishing to use marijuana products will forego the inconvenience of establishing medical need and obtaining a physician's certification and avail themselves of the non-medical program should one exist regardless of their reason for wanting to use marijuana products. Therefore, we anticipate a significant reduction in the tax revenues generated by the medical marijuana program, perhaps as high as a 90% reduction, should the Petition become law.

Moreover, given the significantly different distribution of tax revenues provided for under the non-medical marijuana program, we cannot anticipate tax revenues generated under the non-medical program to defray the reduction we would experience under the medical marijuana program. Specifically, the medical marijuana program establishes a 4% tax on all retail sales of medical marijuana and allocates to the Commission all of those proceeds minus 5% to the Department of Revenue and an amount to the Department of Health and Senior Services necessary to defray their costs in regulating the program. The Petition changes this arrangement to cap the amount which may be retained by the Department of Health and Senior Services at twenty percent. Further, the Petition proposes a significant change to paragraph 3(12) to dramtically expand the rights of patients to cultivate their own marijuana which is not subject to

taxation. Therefore, should the Petition become law, we anticipate a significant decrease in tax revenues allocated to the Commission through the Veterans Health and Care Fund.

Conversely, the non-medical marijuana program establishes a 7 ½ % tax on all retail sales of non-medical marijuana and allocates those proceeds to the "Missouri Economic Recovery and Growth Fund" minus 2% for the Department of Revenue. The monies in the "Missouri Economic Recovery and Growth Fund" are available to private and state agencies, but for purposes in which the Commission does not engage. Therefore, the Commission would not receive any tax revenues under the non-medical marijuana program and would see a disastrous reduction in the revenues it receives under the medical marijuana program.

In closing, Initiative Petition 2022-064 will adversely impact the ability of the Missouri Veterans Commission to serve the veterans of Missouri for the reasons set forth above. If I can be of any further assistance on this issue, please contact me at (573) 522-4224 at your convenience.

Sincerely,

Scotty L. Allen
General Counsel
Missouri Veterans Commission

The State Auditor's office did not receive a response from **Adair County, Boone County, Callaway County, Cass County, Cole County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, State Technical College of Missouri, University of Missouri, St. Louis Community College, University of Central Missouri, Harris-Stowe State University, Lincoln University, Missouri State University, Missouri Southern State University, Missouri Western State University, Northwest Missouri State University, Southeast Missouri State University, Truman State University, Missouri Office of Prosecution Services,** the **Kansas City Board of Police Commissioners,** and the **Metropolitan Police Department - City of St. Louis.**

Fiscal Note Summary

State governmental entities estimate initial costs of $4 million, annual costs of $7 million, and annual revenues ranging from $26 million to $125 million by 2025. Local governments are estimated to have annual costs of at least $35,000 and annual revenues ranging from $13 million to $21 million by 2025.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (22-079)

Subject

Initiative petition from Michael Phoenix regarding a proposed constitutional amendment to Article XV. (Received November 23, 2021)

Date

December 13, 2021

Description

This proposal would amend Article XV of the Missouri Constitution.

The amendment is to be voted on in November 2022.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education and Workforce Development,** the **Department of Health and Senior Services,** the **Department of Commerce and Insurance,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College, University of Central Missouri, Harris-Stowe State University, Lincoln University, Missouri State University, Missouri Southern State University, Missouri Western State University, Northwest Missouri State University, Southeast Missouri State University, Truman State University,** and the **Missouri Office of Prosecution Services.**

Assumptions

Officials from the **Attorney General's office** indicated they expect that, to the extent that the enactment of this proposal could result in increased costs to their office, they expect that they could absorb the increased costs associated with the proposal using existing resources. However, if the enactment of this proposal were to result in a substantial increase in cost, they may be required to request additional appropriations.

Officials from the **Department of Agriculture** indicated this initiative petition has no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated no impact to their department.

Officials from the **Department of Elementary and Secondary Education** indicated no impact to their department.

Officials from the **Department of Higher Education and Workforce Development** indicated no impact to their department.

Officials from the **Department of Health and Senior Services** indicated:

The total estimated net effect on all state funds is negative $645,512 in fiscal year 2023, negative $717,926 in fiscal year 2024, and negative $725,306 in fiscal year 2025.

The proposed initiative petition would create broad restrictions and requirements directly impacting public health laws and services.

Section 2 of the proposal would establish the right and sovereign autonomous obligation of an individual to self-determine the need for medical interventions regardless of that individual's condition or the presence of a contagion.

Section 3 would entirely prohibit a mandate or enforcement of any type of medical intervention for any reason.

Section 4 would place requirements on how data is used to inform the public health response to contagions, and require the information used to make public health decisions to be made available for audit and be made publicly available.

Section 7 would nullify any federal legislation, regulation, order, or injunctive decree that would be found to infringe the liberties, freedoms, rights, obligations, or privileges established within the proposal.

Section 8 would place financial liability on public entities for violating the rights established within the proposal.

Section 9 would require any entity that has any type of interaction with a public official regarding the requirement, mandate, or enforcement of any medical intervention, policy, or legislative measure, create a full transcript of that interaction (to be submitted to the State Department of Health and be made public).

Section 10 requires reports be created analyzing the credibility of benefits to the people of the state for any publicly funded medical initiative.

Altogether, the proposal would place a significant compliance burden on their department. Sections 2 and 3 would limit their department's ability to intervene when Shiga toxin-producing E. coli, food borne diseases, pertussis, hepatitis A, Typhoid fever, measles, shigellosis, mumps, norovirus, tuberculosis, or other diseases spread in a community. As such, their department would need to restructure and significantly alter how it approaches limiting the spread of these diseases to protect health.

Departmental compliance with Section 4 would require additional resources to ensure all policies meet the standards established by the proposal, that the threshold of data quality exceeds a reasonable speculation of doubt, that all data be made publicly available, and to prepare the data to be audited.

Compliance with Section 7 would require departmental analysis of what current and future federal laws would be nullified under the proposal, determining what powers and services can no longer be utilized due to such nullification, and coordinating with the federal government to communicate what federal laws and requirements will no longer be complied with in Missouri.

Section 8 as well as Section 3, Subsection 2, would create a need for departmental staff who would be capable of ensuring departmental compliance with the proposal to prevent potential actions in court against the department.

Section 9 would directly require their department to receive and make public any transcripts submitted to their department. This section would also require their department to create such transcripts whenever it interacts with a public official.

To meet the requirements of the proposal, their department assumes the need for a new compliance unit to protect the medical liberty of Missourians. The compliance unit would exist within their department director's office to ensure compliance throughout the department. The unit would be led by **one** Regulatory Compliance Manager ($85,053). This position's responsibility would be to lead compliance efforts, communicate with state and federal partners about changes to their department's ability to respond to public health incidents and comply with federal law, and supervise other compliance unit staff.

Five Program Specialists ($54,677) would be needed to liaise with the departmental divisions and programs to ensure compliance at the program level and to directly coordinate with departmental staff. These positions would be directly responsible for working with staff to make changes to program operations to comply with the proposal's

new requirements and to ensure ongoing compliance. These positions would also be responsible for managing their department's receipt of transcripts under Section 9 and making those transcripts public, as well as working with department leadership to ensure that their department creates transcripts when it has pertinent interactions with public officials.

One Research/Data Analyst ($46,651) would be needed to assist with compliance with Section 4 of the proposal. Responsibilities would include working with existing departmental data analysts and epidemiologists to ensure data use meets the standards as set in the proposal, that data is made publicly available when required, and that the data be prepared for audit as required. This position would also be responsible for coordinating with department staff to create reports to comply with Section 10 of the proposal.

The proposed initiative petition gives the autonomous obligation to the individual to self-determine the need for all medical interventions and shall remain so without the element of force, fraud, deceit, duress, overreaching, or other forms of constraint or coercion. There shall be no mandate by the state, counties or municipalities to enforce medical intervention for any contagions with an existing risk of spread to an individual or group of people at large.

The Division of Regulation and Licensure (DRL), Sections for Long Term Care Regulation and Health Standard and Licensure are responsible to regulate and conduct inspections in federally certified long-term care facilities, hospitals and other healthcare facilities. DRL is required to enforce federal regulations in these healthcare facilities through a formal, written agreement with the Centers for Medicare and Medicaid Services (CMS). CMS recently published an Interim Final Rule requiring all staff in certified health care settings receive the COVID vaccine. This initiative petition will restrict the ability of healthcare facilities to require staff to be vaccinated, which may result in them being terminated from the Medicare and Medicaid programs. DRL staff will no longer received Medicare or Medicaid funding to regulate or conduct inspections in these facilities.

This creates an unknown up to $15 million fiscal impact for the Division of Regulation and Licensure (DRL).

The proposed language could also have an unknown negative impact on federal funds. Their department is not able to estimate the dollar amount of federal funding that could be lost. In fiscal year 2022, their department has approximate $1,900,769,263 in federal funding.

The proposal will require seven new FTE in a large city equaling $28,980 ($18 x 230 x 7) in capital improvements or rental space costs.

Officials from the **Department of Commerce and Insurance** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated they assume an overall unknown fiscal impact due to the various changes that would apply should this pass. They have the following concerns regarding the language contained in this initiative petition.

Section 3 provisions would expressly curtail their ability to comply with generally accepted standards for the prevention and control of all infectious disease. This could increase risk to their staff and those in their care, as well as jeopardize their hospital licensing and CMS funding.

Section 7 could also affect their care subject to federal funds and cost their department federal match dollars. They operate (fiscal year 2022 budget) with federal funds received from various federal agencies totaling approximately $1.5 billion. Failure to comply could jeopardize considerable funding with the potential impact being between $0 and up to $1.5 billion and may consume additional department resources in assisting defense.

Section 11 could impose substantial unknown litigation costs on their department.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated unknown fiscal impact.

This petition creates individual rights related to medical interventions, treatments or other therapies or procedures. It will have a significant operational impact and potentially significant fiscal impact on their department; however, the exact impact is unknown due to the wide scope of the proposed legislation. The language is very broad and contemplates issues in abstract and sweeping ways that could have unforeseen implications at this time, especially considering the operational nature of this department.

Section 3 prohibits the state from mandating, compelling, or otherwise enforcing any type of medical intervention or therapy on an individual for any reason. This will have an impact on institutional operations. They require offenders and staff to undergo tuberculosis testing annually. Should a positive test result occur, they require additional medical testing to ensure they do not have an active TB infection (which would be contagious). They have to know that the TB is latent. In addition, offenders are mandated to complete HIV testing. These tests are conducted to help reduce the spread of these diseases within the facility and to keep staff, contractors, and other offenders safe. In addition, there are instances where their department must medically treat an offender, against their will, in order to reduce risk of harm to the offender or others. It appears this section would prohibit their ability to force these medical interventions.

This legislation is unclear as to whether it is allowing offenders to self-determine only the treatments they undergo, or also the provider of these treatments. Since healthcare is

mandated, their department is paying a contracted vendor to manage their offender's healthcare needs. If the offenders are allowed to choose their specific provider, this would cost the state exponentially more money. Not only will the department be paying the contracted healthcare provider, but they will also be incurring additional charges for the services that were completed outside of the contracted vendor. There will also be additional costs relating to the transportation and security of the offenders being transported to the outside medical providers.

Another issue is the lack of restriction of medical treatments to "necessary." This would essentially allow the offenders to self-determine their need for "any" medical treatment, whether medically necessary or simply desired. This could also include the use of medical marijuana as a treatment method. Currently medical marijuana is prohibited for offenders, but the right to "personal autonomy" with medical issues would prevent their department from restricting medical marijuana as a treatment option for offenders.

Section 3 also states public entities cannot require, to any degree, an individual to make known any degree of medical history of the individual. They mandate staff to notify the department when they are taking medications that may impair their mental health or physical ability to perform the essential functions of their job. In addition, they are mandated to provide documentation requested by their medical review officer during the employee drug testing process. When staff are impaired, it impacts the safety of the facility, staff, and other offenders.

Officials from the **Department of Labor and Industrial Relations** indicated no fiscal impact to their department. This could impact an employer's ability to direct health care under the workers' compensation system, which could increase costs for employers.

Officials from the **Department of Revenue** indicated this initiative petition, specifically Section 3, potentially conflicts with the following Missouri Statutes:

- 302.026
- 302.130
- 302.171
- 302.173
- 302.174
- 302.175
- 302.182
- 302.205
- 302.275
- 302.276
- 302.291
- 302.292
- 302.420
- 302.425
- 302.440

- 302.505
- 302.510
- 302.540
- 302.580
- 302.745
- 302.750
- 302.768

Their department would be unable to implement the provisions of this initiative petition without being in noncompliance with state statute, and for commercial driver's license (CDL) issuance, federal regulation.

Implementing this initiative petition, specifically in regards to CDL issuance, could result in a federal noncompliance finding, which would result in a significant loss of federal transportation funding.

Officials from the **Department of Public Safety - Office of the Director** indicated this proposed amendment may have a significant legal impact on their department and its divisions. As written, it is difficult to assess its potential impact, as it contains numerous terms of art that are defined in this proposal that are not in common usage elsewhere in state law. A few potential effects include that it may hinder the state's ability to provide assistance to individuals who require healthcare in emergency situations; prohibit pre-employment medical screening of law enforcement employees; prohibit collecting necessary medical history information from Veterans in Missouri Veterans Homes; and could expose the personal health information of Missourians to the public through the audit procedures detailed in the proposal. This bill may require the state to incur significant legal costs in defense of actions that are alleged to be in violation of this amendment. This is a significant concern as the provision nullifying federal medical mandates will almost certainly face a constitutional challenge. There may be other potential effects on the state in addition to those identified here.

Officials from the **Department of Social Services** indicated this will have an unknown impact for their department.

Section 2 limits the ability of their department to limit medical costs or to ensure medical appropriateness of medical interventions or treatments in the MO HealthNet population. This section leaves all determinations for medical interventions or treatments with the individual, including but not limited to vaccines, medications, or even abortion. With no ability to impose prior approval protocols, MO HealthNet would have an unknown cost.

Section 3 proposes no public entity shall mandate any type of medical intervention or therapy on an individual, or group of individuals for any reason or require, to any degree, an individual to make known any degree of medical history of the individual.

The Family Support Division (FSD) has policies and procedures in place regarding obtaining medical records as needed when determining eligibility for all public assistance

programs FSD administers. In addition, FSD has policies and procedures related to the Blind Pension (BP) program that requires BP recipients to pursue treatment or operation when recommended by a medical authority. These policies align with requirements to receive federal funding, and would run counter to Section 3.

The eligibility of the Permanently and Totally Disabled population to participate in Medicaid is determined in part using medical records. Inability to use those records inhibits their department's ability to determine eligibility for the Permanently and Totally Disabled population. The total expenditures for the population in fiscal year 21 were $4.4 billion.

The provisions of Section 3 also would impact the Children's Division, limiting the ability to conduct family assessments and follow federal guidelines for screening foster parents.

Section 5, by defining an "individual" would make children under the age of 18 provide informed consent prior to treatment, rather than consent being provided by an appointed party, such as the Children's Division, the Juvenile Officer, or a parent/guardian.

Section 7 nullifies federal law, and may impact payment for joint state/federal programs such as Mo HealthNet or child/welfare and public assistance programs.

Section 9 creates a need for staff. Transcripts would need to be provided for medical initiatives. The Division of Legal Services would need one special counsel and one Administrative Support Professional. The Children's Division would need one Administrative Support Professional and one Senior Program Specialist.

Section 10 requires a report of medical initiatives to be created and submitted. MO HealthNet would need two Special Assistant Professionals to review the reports, and find transactions for repayment.

Officials from the **Governor's office** indicated this proposal relating to medical liberty should not fiscally impact their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact.

Officials from the **Department of Conservation** indicated while it is difficult to tell because of the convoluted nature of this initiative petition, there is no anticipated fiscal impact (cost or savings) to their department associated with this proposal.

Officials from the **Department of Transportation** indicated this initiative petition will not have a fiscal impact on their department/Missouri Highways and Transportation Commission.

Officials from the **Office of Administration** indicated this proposal relating to medical liberty should not fiscally impact their office.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated they anticipate no fiscal impact.

Officials from the **Secretary of State's office** indicated each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. The cost of the special election has been estimated to be $7 million based on the cost of the 2020 Presidential Preference Primary.

Their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Funding for this item is adjusted each year depending upon the election cycle. A new decision item is requested in odd numbered fiscal years and the amount requested is dependent upon the estimated number of ballot measures that will be approved by the General Assembly and the initiative petitions certified for the ballot. In fiscal year (FY) 2014, the General Assembly changed the appropriation so that it was no longer an estimated appropriation.

In FY19, over $5.8 million was spent to publish the full text of the measures for the August and November elections. Their office estimates $75,000 per page for the costs of publications based on the actual cost incurred for the one referendum that was on the August 2018 ballot.

Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition will have no fiscal impact on their office.

Officials from the **State Treasurer's office** indicated no fiscal impact to their office.

Officials from **Clay County** indicated they anticipate no costs or savings from this initiative.

Officials from **Greene County** indicated there are unknown estimated costs related to the requirement of attaining independent organizations to audit the work of the county within section 4 to report from the County of Greene for this initiative petition proposing to amend Article XV.

Without any past information related to this type of audit that might be used to ascertain what the cost might be for the required audit, there is not an accurate estimate to submit at this time.

Officials from the **City of Kansas City** indicated this proposal if passed would have a negative fiscal impact on the city in an indeterminate amount. It would not allow a hospital, without patient consent, to tell a first responder that such responder has been exposed to certain infectious diseases. Which would drive up workers compensation insurance costs. The proposal's audit provisions could increase the city's administrative costs. The initiative petition could increase litigation against their city. The provisions regarding the nullification of federal law could have a negative fiscal impact by making the city, if it obeyed such provisions, ineligible for federal grant money.

Officials from **Metropolitan Community College** indicated no known fiscal impact.

Officials from **University of Central Missouri** indicated the estimated annual impact is about $440,000. This includes lost revenue of $390,000 and additional cost associated with electronic records of $50,000. The electronic recording cost relates to upgrading and hiring/training for the university's electronic medical record system. It relates to Section 10 Integrity and Transparency in Publicly Funded Medical Initiatives. The lost annual revenue relates to any type of immunization required screening, testing, or shots. Loss of revenue related to the insurance paid-out fees associated with the reduced amount of required immunization shots, screenings, and testings from the international and domestic students enrolled.

The State Auditor's office did not receive a response from **Adair County, Boone County, Callaway County, Cass County, Cole County, Jackson County, Jasper County, St.**

Charles County, St. Louis County, Taney County, the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, Malta Bend R-V School District, Mehlville School District, Wellsville-Middletown R-1 School District, State Technical College of Missouri, University of Missouri, St. Louis Community College, Harris-Stowe State University, Lincoln University, Missouri State University, Missouri Southern State University, Missouri Western State University, Northwest Missouri State University, Southeast Missouri State University, Truman State University,** and the **Missouri Office of Prosecution Services.**

Fiscal Note Summary

State governmental entities estimate one-time costs totaling $100,000, ongoing costs that could be significant totaling at least $1.4 million annually, and reduced revenues totaling at least $3 billion annually. Local governmental entities estimate ongoing costs of an unknown amount and ongoing reduced revenues of an unknown amount.
